Notice is further given that any interested person may, not later than February 3, 1975, request in writing that a hearing be held in respect of such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the application-declaration which he desires to controvert; or he may request that he be notified should the Commission order a hearing in respect thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicant-declarants at the above-stated addresses, and proof of service (by affidavit, or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as it may be amended, may be granted and permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[Rel. No. 8636]

CG MONEY MARKET FUND, INC., ET AL.

Filing of Application for an Order of Exemption

JANUARY 9, 1975.

In the matter of CG Money Market Fund, Inc., Connecticut General Life Insurance Company, CG Equity Sales Company, Hartford, Connecticut 06152, (812–3728).

Notice is hereby given that CG Money Market Fund, Inc. ("Fund"), an open-end, diversified, management investment company registered under the Investment Company Act of 1940 (the "Act"), Connecticut General Life Insurance Company ("CG Life"), the organizer of the Fund, and CG Equity Sales Company ("Equity Sales"), the principal underwriter of the Fund and a wholly-owned subsidiary of Connecticut General Insurance Corporation, the parent corporation of CG Life (collectively referred to as "Applicants"), filed an application on November 22, 1974, and an amendment thereto on December 26, 1974, pursuant to section 6(c) of the Act, for an order of the Commission exempting Applicants from Section 22(d) of the Act to the extent specified therein. All interested persons are referred to the application on file with the Commission for a statement of the representations therein which are summarized below.

Section 22(d) of the Act provides, in pertinent part, that no registered investment company or principal underwriter shall sell any redeemable security to any person except at a current public offering price described in the prospectus. Applicants propose to offer shares of the Fund to the public at a price based upon net asset value plus a sales charge that varies with the quantity of securities purchased. The maximum sales charge, expressed as a percentage of the public offering price will be 7.50 percent.

Applicants request an exemption from Section 22(d) of the Act to permit reduced sales charges on an application of the proceeds of insurance contracts issued by CG Life ("insurance proceeds") to the purchase of shares of the Fund. Insurance proceeds are defined as the death benefit under life policies, the maturity value of endowment contracts, the cash value of fixed-dollar life insurance and annuity contracts, and lump sum cash options available to beneficiaries.

The reduced sales charges which would be applicable will be fully disclosed in the prospectus of the Fund and are as follows:

Total investment in the fund at public offering price	*Sales charge as percentage of offering price*
Less than $10,000	5.25
$10,000 but less than $25,000	4.20
$25,000 but less than $50,000	3.50
$50,000 but less than $100,000	2.80
$100,000 but less than $250,000	2.10
$250,000 but less than $500,000	1.40
$500,000 but less than $1,000,000	1.05
$1,000,000 or more	.70

Applicants state that the insurance contracts constituting the source of the insurance proceeds applied to the purchase of shares of the Fund will already have been subjected to sales charges paid to the organizer of the Fund which is also a subsidiary of the company which owns the Fund's underwriter, and that the requested exemption is necessary to avoid an unnecessary accumulation of sales charges. Shares of the Fund will be sold to the public by Equity Sales primarily through its own registered representatives who are, ordinarily, also insurance agents or brokers of CG Life.

Applicants also propose to offer to shareholders of CG Fund, Inc. and CG Income Fund, Inc., affiliates of the Fund by virtue both of a common investment adviser, CG Investment Management Company, a wholly-owned subsidiary of Connecticut General Insurance Corporation, and a common principal underwriter, Equity Sales, the privilege of exchanging their shares for shares of the Fund and vice versa without imposition of a sales charge. An exemption of the type requested herein has previously been granted to CG Fund, Inc. and CG Income Fund, Inc.

The requested exemption will, therefore, eliminate what would otherwise be an anomalous situation in which insurance proceeds could be invested in shares of Fund with reduced sales charges merely by first using such proceeds to purchase shares of either CG Fund or CG Income Fund and then by exchanging shares of such funds for shares of the Fund. Applicants assert that the requested exemption does not involve unfair discrimination and presents no

V4012 JAN 17 75 XUM

threat to the orderly distribution of redeemable investment company securities.

Section 6(c) of the Act provides, in part, that the Commission, by order upon application, may conditionally or unconditionally exempt any class or classes of persons, securities, or transactions, from any provision or provisions of the Act, if and to the extent such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Applicants represent that the exemption requested from the provisions of Section 22(d) of the Act is necessary and appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than February 3, 1975, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the Applicants at the address stated above. Proof of such service (by affidavit or, in the case of attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0–5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following February 3, 1975, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] SHIRLEY E. HOLLIS,
Assistant Secretary.

[File No. 500-1]

CONTINENTAL VENDING MACHINE CORP.

Suspension of Trading

JANUARY 9, 1975.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock of Continental Vending Machine Corporation being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

Therefore, pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, trading in such securities otherwise than on a national securities exchange is suspended, for the period from January 10, 1975 through January 19, 1975.

By the Commission.

[SEAL] SHIRLEY E. HOLLIS,
Assistant Secretary.

[Rel. No. 8635]

FIFTH EMPIRE FUND, INC., ET AL.

Filing of Application for Order Declaring That Company Has Ceased To Be Investment Company

JANUARY 8, 1975.

In the matter of Fifth Empire Fund, Inc., Sixth Empire Fund, Inc., Federated Regional Research Investments, Inc., Federated Investors Building, 421 Seventh Avenue, Pittsburgh, Pennsylvania 15219. (811-1401), (811-1446), (811-2309).

Notice is hereby given that Fifth Empire Fund, Inc., Sixth Empire Fund, Inc., and Federated Regional Research Investments, Inc. (collectively referred to as "Applicants"), each of which is an open-end, diversified, management investment company registered under the Investment Company Act of 1940 ("Act"), filed a joint application on November 29, 1974, for an order of the Commission declaring that Applicants have ceased to be investment companies as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

On November 26, 1974, the shareholders of each of the Applicants approved an Agreement of Merger, and Articles of Merger merging the Applicants into Fourth Empire Fund, Inc., an open-end investment company registered under the Act. On November 27, 1974, the merger became effective upon the filing of the Agreement of Merger and the Articles of Merger with the State Department of Assessments and Taxation in the State of Maryland and pursuant to the Plan and Agreement of Merger, the Applicants' corporate statuses ceased as of November 27, 1974.

Section 8(f) of the Act provides, in pertinent part, that when the Commission upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order and, upon the effectiveness of such order, the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than February 3, 1975, at 5:30 p.m., submit to the Commission in writing a request for a hearing on this matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address set forth above. Proof of such service (by affidavit or, in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0–5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

INTERSTATE COMMERCE COMMISSION

[Notice No. 666]

ASSIGNMENT OF HEARINGS

Correction

In FR Doc. 75-431 appearing at page 1328 in the issue of Tuesday, January 7, 1975, make the following correction:

In the second case listed which bears the number MC 139841, the date assigned should read "February 3, 1975" instead of "February 10, 1975".

[Notice 675]

ASSIGNMENT OF HEARINGS

JANUARY 14, 1975.

Cases assigned for hearing, postponement, cancellation, or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after the date of this publication.

NOR-36051, Lake Superior & Ishpeming Railroad Company V. Chicago and Northwestern Transportation Company, now assigned January 14, 1975, at Chicago, Ill., is postponed indefinitely.

MC 119422 Sub 53, EE-Jay Motor Transports, Inc., Extension—Eight States, now assigned January 16, 1975, at Washington, D.C., is postponed indefinitely.

MC 107064 Sub 106, Steere Tank Lines, Inc., now assigned January 28, 1975, at Dallas, Tex., is cancelled and the application is dismissed.

MC 69367 Sub 89, Decker Truck Line, Inc., now assigned February 19, 1975, at Milwaukee, Wis., will be held in Room 301 C, City Hall, 200 E. Wells St.

MC-F-12257, International Carriers, Inc.—Purchase—Motor Dispatch, Inc., now assigned February 24, 1975, at Chicago, Ill., will be held on the 3rd Floor, 230 S. Dearborn St.

MC-C-8450, Peninsular Meat Co., Inc., C. W. Mitchell, C. W. Mitchell, Inc., and Benefield Brothers, Inc.—Investigation of Operations and Practices, now assigned February 4, 1975, at Jacksonville, Fla., is cancelled.

MC 136183 Sub 2, Joe Costa, DBA Trinidad Freight Service, now assigned January 27, 1975, at Albuquerque, N. Mex., will be held in the New Mexico Motor Carriers Association, Hearing Room, 1500 University Avenue, N.E.

MC-C-8372, North American Van Lines, Inc.—Investigation and Revocation of Certificates, now assigned February 4, 1975, at Chicago, Ill., will be held in Room 1614, Court of Claims, Everett McKinley Dirksen Building, 219 S. Dearborn St.

MC 2900 Sub 263, Ryder Truck Lines, Inc., now assigned February 6, 1975, at Chicago, Ill., will be held in Room 1614, Court of Claims, Everett McKinley Dirksen Building, 219 S. Dearborn St.

MC 136786 Sub 60, Robco Transportation, Inc., now assigned February 7, 1975, at Chicago, Ill., will be held in Room 1614, Court of Claims, Everett McKinley Dirksen Building, 219 S. Dearborn St.

MC 115300 Sub 2, Charles Simmons, Sr., DBA Hilton Head Truck Lines, now assigned January 20, 1975, at Columbia, S.C., is postponed indefinitely.

FOURTH SECTION APPLICATIONS FOR RELIEF

JANUARY 14, 1975.

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1100.40) and filed on or before February 3, 1975.

FSA No. 42927—*Anhydrous Ammonia from Seagraves, Texas.* Filed by Southwestern Freight Bureau, Agent (No. B-509), for interested rail carriers. Rates on anhydrous ammonia, in tank-car loads, as described in the application, from Seagraves, Texas, to points in southwestern and western trunk-line territories.

Grounds for relief—Market competition, modified shortline distance formula and grouping.

Tariff—Supplement 159 to Southwestern Freight Bureau, Agent, tariff 273-F, I.C.C. No. 4941. Rates are published to become effective on February 12, 1975.

FSA No. 42928—*Joint Water-Rail Container Rates — Yamashita-Shinnihon Line.* Filed by Yamashita-Shinnihon Line, (No. 7), for itself and interested rail carriers. Rates on general commodities, between ports in Hong Kong, Japan, Korea and Taiwan, and rail stations on the U.S. Atlantic and Gulf Seaboard.

Grounds for relief—Water competition.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.75-1666 Filed 1-16-75;8:45 am]

[Notice No. 5 TA]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JANUARY 13, 1975.

The following are notices of filing of application; except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specified as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 107002 (Sub-No. 459TA) (Amendment), filed October 8, 1974, published in the FEDERAL REGISTER issue of October 29, 1974, and republished as amended this issue. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, U.S. Highway 80 W, Jackson, Miss. 39205. Applicant's representative: John J. Borth (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cut flowers and decorative greens*, when moving at the same time and in the same vehicle with commodities, the transportation of which is subject to economic regulation, (a) Between Everson, N.J., on the one hand, and, on the other, points in New Jersey and New York, on traffic having an immediately prior or subsequent movement by air or motor vehicle, (b) Between Emerson, N.J., and Newark, N.J., on traffic having an immediately prior or subsequent movement by air for 180 days. Supporting shipper: Associated Florida Gladiola Growers, Inc., 1920 Park Meadow Drive, Fort Myers, Fla. 33901. Send protests to: Anthony D. Giaimo, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 26 Federal Plaza, New York, N.Y. 10007.

No. MC 114211 (Sub-No. 240TA), filed January 7, 1974. Applicant: WARREN TRANSPORT, INC., 324 Manhard Street, P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Charles W. Singer, 2440 East Commercial Blvd., Fort Lauderdale, Fla. 33308. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid animal feed*, in bulk, in tank vehicles, from Memphis, Tenn., to points in Arkansas, Kentucky, Mississippi, Missouri, and Tennessee, for 180 days. Supporting shipper: Ralston Purina Company, 1725 Airways Blvd., Memphis, Tenn. 38114. Send protests to: Alan C. Tarrant, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 212, 145 East Amite Building, Jackson, Miss. 39201.

NOTE.—The purpose of this republication is to add The Procter & Gamble Distributing Company, P.O. Box 599, Cincinnati, Ohio 45201, as another supporting shipper.

No. MC 107002 (Sub-No. 466TA), filed January 7, 1975. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, U.S. Highway 80 West, Jackson, Miss. 39205. Applicant's representative: John N. Borth (same address as applicant), Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Steam cylinder oil*, in bulk, in tank vehicles, from Memphis, Tenn., to Bethlehem, Penn., for 180 days. Supporting shipper: Sharvania Oil & Grease Corporation, 1185 Tully Street, Memphis, Tenn. 38107. Send protests to: Alan C. Tarrant, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 212, 145 East Amite Bldg., Jackson, Miss. 39201.

No. MC 111729 (Sub-No. 493TA), filed January 8, 1975. Applicant: PUROLATOR COURIER CORP., 2 Nevada Drive, Lake Success, N.Y. 11040. Applicant's representative: John M. Delany (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cut flowers and decorative greens*, when moving at the same time and in the same vehicle with commodities, the transportation of which is subject to economic regulation, (a) Between Everson, N.J., on the one hand, and, on the other, points in New Jersey and New York, on traffic having an immediately prior or subsequent movement by air or motor vehicle, (b) Between Emerson, N.J., and Newark, N.J., on traffic having an immediately prior or subsequent movement by air for 180 days. Supporting shipper: Associated Florida Gladiola Growers, Inc., 1920 Park Meadow Drive, Fort Myers, Fla. 33901. Send protests to: Anthony D. Giaimo, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 26 Federal Plaza, New York, N.Y. 10007.

No. MC 114211 (Sub-No. 240TA), filed January 7, 1974. Applicant: WARREN TRANSPORT, INC., 324 Manhard Street, P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Charles W. Singer, 2440 East Commercial Blvd., Fort Lauderdale, Fla. 33308. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as are dealt in or used by agricultural machinery, industrial equipment, and lawn and leisure products dealers (except

V40N12 JAN 17 75 XUM

commodities in bulk), from the facilities of Deere & Company at Bloomington, Minn., and International Harvester Company at St. Paul, Minn., to points in Iowa, Montana, North Dakota, South Dakota, Upper Peninsula of Michigan, Wisconsin, Wyoming, and Minnesota. Supporting shippers: Deere & Company, 2001 West 94th Street, Bloomington, Minn. 55431. International Harvester Company, 401 North Michigan, Chicago, Ill. 60611. Send protests to: Herbert W. Allen, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 875 Federal Building, Des Moines, Iowa 50309.

No. MC 117068 (Sub-No. 38TA), filed January 8, 1975. Applicant: MIDWEST SPECIALIZED TRANSPORTATION, INC., P.O. Box 6418, North Highway 62, Rochester, Minn. 55901. Applicant's representative: Richard C. McGinnis, 711 Washington Bldg., Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Storage systems and contractors' materials and supplies* (except commodities in bulk), on winch or self-unloading equipment, from St. Paul, Minn., to California, Illinois, Iowa, Michigan, Missouri, Nebraska, Ohio, Texas, and Wisconsin, for 180 days. Supporting shipper: Brown-Minneapolis Tank & Fabricating Company, P.O. Box 3670, St. Paul, Minn. 55101. Send protests to: A. N. Spath, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 414, Federal Bldg. & U.S. Courthouse, 110 South Fourth Street, Minneapolis, Minn. 55401.

No. MC 123663 (Sub-No. 1TA), filed January 8, 1975. Applicant: JOHN H. CERQUOZZI, 2736 Dove Street, Williamsport, Pa. 17701. Applicant's representative: Donald H. Lotz, c/o J. B. Associates, 13 Morningside Place, Wanaque, N.J. 07465. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles, and materials, supplies, and equipment*, used or useful in the manufacture of iron and steel articles, between Williamsport, Pa., on the one hand, and, on the other, points in Connecticut, Delaware, Maryland, New Jersey, New York, and Pennsylvania, for 180 days. Supporting shippers: Williamsport Die and Machine Company, 190 Park Street, Williamsport, Pa. 17701. Danneker & Lear, Inc., 163 Catawissa Avenue, Williamsport, Pa. 17701. Centura Development Co., Inc., 1311 Washington Boulevard, Williamsport Pa. 17701. Anchor/Darling Valve Company, 701 First Street, Williamsport, Pa. 17701. Send protests to: Paul J. Kenworthy, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 314 U.S. Post Office Bldg., Scranton, Pa. 18503.

No. MC 124306 (Sub-No. 16TA), filed January 8, 1975. Applicant: KENAN TRANSPORT COMPANY, INC., P.O. Box 2934, Durham, N.C. 27705. Applicant's representative: Lee P. Shaffer (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum Distillates*, in bulk, in tank trucks, from Severn, N.C., to Charleston, S.C., for 180 days. Supporting shipper: The Mebtex Company, P.O. Box 5146, Vienna, W. Va. 26105. Send protests to: Archie W. Andrews, District Supervisor, Bureau of Operations, Interstate Commerce Commission, P.O. Box 26896, Raleigh, N.C. 27611.

No. MC 127505 (Sub-No. 72TA), filed January 6, 1974. Applicant: RALPH H. BOELK, doing business as BOELK TRUCK LINES, Route 2, Mendota, Ill. 61342. Applicant's representative: Walter Kobos, 1016 Kehoe Drive, St. Charles, Ill. 60174. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Asphalt pavement surface sealer*, in containers, from Compton, Ill., to Faribault, Hastings, Minneapolis, Northfield, Red Wing, Rochester, and Winona, Minn., and Appleton, Beloit, Chippewa Falls, Eau Claire, Fond du Lac, Green Bay, Neenah, Menasha, Oshkosh, Kenosha, Racine, Milwaukee, Madison, Watertown, Sheboygan, Manitowoc, LaCrosse, and Janesville, Wis., and their respective commercial zones, for 180 days. Supporting shipper: Harold L. Crabtree, Production Manager, Cosmicoat, Inc., 3400 Cleveland Road, P.O. Box 73, Wooster, Ohio 44691. Send protests to: William J. Gray, Jr., District Supervisor, Bureau of Operations, Interstate Commerce Commission, Everett McKinley Dirksen Bldg., 219 S. Dearborn Street, Room 1086, Chicago, Ill. 60604.

No. MC 133408 (Sub-No. 3TA), filed December 31, 1974. Applicant: JAMES D. KINNEY and B. R. LINDSEY, doing business as PIONEER TRANSIT LINES, 234 West Yellowstone, Casper, Wyo. 82601. Applicant's representative: James D. Kinney (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Passengers and their baggage*, and express and newspapers in the same vehicle with passengers, between Medicine Bow, Wyo., and Laramie, Wyo., via U.S. 30, serving all intermediate points.

NOTE.—Applicant intends to tack at Medicine Bow, Wyo., with Pioneer Transit Lines Docket No. 133048 Sub 2, and interline at Laramie, Wyo., with Colorado Motorway, Inc., MC 98903; Greyhound Lines, Inc., MC 1515; and American Bus Lines, Inc., MC 28426, for 180 days. Supporting shippers: There are approximately 23 statements of support attached to the application, which may be examined here at the Interstate Commerce Commission in Washington, D.C., or copiers thereof which may be examined at the field office named below. Send protests to: Paul A. Naughton, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 100 East B Street, Casper, Wyo. 82601.

No. MC 134531 (Sub-No. 4TA), filed January 7, 1975. Applicant: AGGREGATE HAULERS, INC., P.O. Box 386, Cayce, S.C. 29033. Applicant's representative: Edward J. Morrison, P.O. Box 67, Lexington, S.C. 29072. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural limestone*, from Blount, Jefferson, and Knox Counties, Tenn., to points in Bulloch and Candler Counties, Georgia, and Aiken, Calhoun, Edgefield, Fairfield, Greenwood, Lexington, Newberry, Orangeburg, Richland, and Saluda Counties, S.C., for 180 days. Supporting shippers: Wright-Lanier, Inc., P.O. Box 2, Metter, Ga. Hall & Miller Fertilizer, Inc., P.O. Box 872, Statesboro, Ga. Tillman & Deal Farm Supply, Northside Dr., Statesboro, Ga. Swansea Farmers Gin Co., Inc., P.O. Box 186, Swansea, S.C. FCX, Inc., Saluda, S.C. Send protests to: E. E. Strotheid, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 302, 1400 Building, 1400 Pickens, Columbia, S.C. 29201.

No. MC 138844 (Sub-No. 3TA), filed January 7, 1975. Applicant: GAS INCORPORATED, 87 Industrial Avenue East, Lowell, Mass. 01853. Applicant's representative: John T. Hildemann, 11 Commerce Street, Newark, N.J. 07102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquified natural gas (LNG)*, in bulk, in cryogenic vehicles, between points in East, and North of the States of Wisconsin, Illinois, Kentucky, Tennessee, Alabama, Georgia, and South Carolina, for 180 days. Supporting shippers: There are approximately *20* statements of support attached to the application, which may be examined here at the Interstate Commerce Commission in Washington, D.C., or copiers thereof which may be examined at the field office named below. Send protests to: Darrell W. Hammons, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 150 Causeway Street, Room 501, Boston, Mass. 02114.

No. MC 139881 (Sub-No. 2TA) (Correction), filed December 18, 1974, published in the FEDERAL REGISTER issue of January 8, 1975, and republished as corrected this issue. Applicant: ROETTELE TRUCKING, 14503 Eastbrook, Bellflower, Calif. 90706. Applicant's representative: Lon Roettele (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Steel pipe and pipe fittings and iron and steel plates or sheets* and (2) *Structural steel shapes or forms*, (1) from Los Angeles and Los Angeles Harbor Commercial Zones, to points in Washington, Utah, Oregon, and Nevada and (2) between Bellflower, Calif., and Houston or Lubbock, Tex.; Boise, Pocatello, or Twin Falls, Idaho; Ogden, Provo, or Salt Lake City, Utah; Denver, Colo.; Portland, Oreg.; and Seattle, Wash., for 180 days. Supporting shippers: Lakewood Pipe Service Co., Inc., 9060 Rosecrans Avenue, Bellflower, Calif. 90106, and Aggressive Erectors & Bridgemen, Inc., 403 Meadowbrook Lane, Inglewood, Calif. 90302. Send protests to: Philip Yallowitz, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 300 North Los Angeles Street, Room 7708, Los Angeles, Calif. 90012. The purpose of this republication is to change the name of applicant, the rest of the application will remain the same.

No. MC 140179 (Sub-No. 2TA), filed January 8, 1975. Applicant: NRG HAULING, INC., Sacramento, Ky. 42372. Applicant's representative: Fred F. Bradley, Suite 202, Court Square Office Bldg., 213 St. Clair Street, Frankfort, Ky. 40601. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Coal*, in dump vehicles, from points in Ballard, Butler, Breckinridge, Caldwell, Calloway, Carlisle, Christian, Crittenden, Daviess, Edmonson, Fulton, Graves, Grayson, Hancock, Henderson, Hickman, Hopkins, Livingston, Logan, Lyon, Marshall, McCracken, McLean, Mead, Muhlenberg, Ohio, Trigg, Union, and Webster Counties, Ky., to Joliet, Ill., for 180 days. Supporting shipper: Jerry Driskill, Proprietorship, Hartford, Ky., 42347. Send protests to: R. W. Schneiter, District Supervisor, Bureau of Operations Interstate Commerce Commission, 426 Post Office Bldg., Louisville, Ky. 40202.

No. MC 140442 (Sub-No. 1TA), filed January 6, 1975. Applicant: RICHARD HASELRIG, doing business as HASELRIG TRUCKING, CO., Route One, Graham Road, Rock Spring, Ga. 30739. Applicant representative: (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural lime*, in bulk, from Blount, Jefferson, and Knox Counties, Tenn., to points in Georgia (except points in Jefferson County, Ga., on and south of Georgia Highway 24), for 180 days. DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Public Health Service

[42 CFR Part 66]

NATIONAL RESEARCH SERVICE AWARDS

Notice of Proposed Rulemaking

Section 472(a)(1)(A) of the Public Health Service Act, as added by the National Research Service Award Act of 1974 (Title I, Pub. L. 93-348), directed the Secretary of Health, Education, and Welfare to provide National Research Service Awards for (1) biomedical and behavioral research at the National Institutes of Health and the Alcohol, Drug Abuse, and Mental Health Administration in matters relating to the cause, diagnosis, prevention, and treatment of the disease (or diseases) or other health problems to which the activities of NIH and ADAMHA are directed, (2) training at NIH and ADAMHA of individuals to undertake such research, (3) biomedical and behavioral research at non-Federal public and nonprofit private institutions, and (4) predoctoral and postdoctoral training at such institutions of individuals to undertake such research.

In addition, section 472(a)(1)(B) of the Public Health Service Act, as so added, directed the Secretary to make grants to non-Federal public and nonprofit private institutions to enable such institutions to make to individuals selected by them National Research Service Awards for research (and training to undertake such research) in matters described in item (1) of the preceding paragraph.

Notice is hereby given that the Assistant Secretary for Health, with the approval of the Secretary of Health, Education, and Welfare, proposes to adopt the regulations set forth below for the purpose of implementing the foregoing legislation.

Written comments concerning the proposed regulations are invited from interested persons. Inquiries may be addressed, and data, views, and arguments relating to the regulations may be presented in writing in triplicate to the Training Officer, Office of the Director, National Institutes of Health, Building 1, Room 117, 9000 Rockville Pike, Bethesda, Maryland 20014. All comments received will be available for public inspection at said Office on weekdays (Federal holidays excepted) between the hours of 8:30 a.m. and 5:00 p.m. All relevant material received on or before February 18, 1975 will be considered.

Notice is also given that it is proposed to make any amendments that are adopted effective upon publication in the FEDERAL REGISTER.

Dated: December 13, 1974.

CHARLES C. EDWARDS,
Assistant Secretary for Health.

Approved: January 8, 1975.

CASPAR W. WEINBERGER,
Secretary.

It is therefore proposed to amend Title 42 of the Code of Federal Regulations by adding the following new Part 66:

PART 66—NATIONAL RESEARCH SERVICE AWARDS

Subpart A—Direct Awards

Sec.
66.101 Applicability.
66.102 Definitions.
66.103 Eligibility.
66.104 Application.
66.105 Requirements.
66.106 Awards.
66.107 Payments to awardees.
66.108 Payments to institutions.
66.109 Termination.
66.110 Service, payback, and recovery requirements.
66.111 Suspension, waiver, and cancellation.
66.112 Nondiscrimination.
66.113 Human subjects; animal welfare.
66.114 Publications.
66.115 Copyright.
66.116 Inventions and discoveries.
66.117 Additional conditions.

Subpart B—Institutional Grants

Sec.
66.201 Applicability.
66.202 Definitions.
66.203 Eligibility.
66.204 Application.
66.205 Requirements.
66.206 Grant awards.
66.207 Payment.
66.208 Expenditure of grant funds.
66.209 Nondiscrimination.
66.210 Human subjects; animal welfare.
66.211 Applicability of 45 CFR Part 74.
66.212 Progress and fiscal records and reports.
66.213 Grantee accountability.
66.214 Publications and copyright.
66.215 Additional conditions.

AUTHORITY: Sec. 215, 58 Stat. 690, as amended (42 U.S.C. 216); sec. 472, 88 Stat. 342 (42 U.S.C. 289*l*-1).

Subpart A—Direct Awards

§ 66.101 Applicability.

The regulations in this subpart are applicable to National Research Service Awards by the Secretary, under section 472(a)(1)(A) of the Public Health Service Act as amended (42 U.S.C. 289v-1(a)(1)(A)), to individuals for: (a) Biomedical and behavioral research at the National Institutes of Health and the Alcohol, Drug Abuse, and Mental Health Administration in matters relating to the cause, diagnosis, prevention, and treatment of the disease (or diseases) or other health problems to which the activities of NIH and ADAMHA are directed, (b) training at NIH and ADAMHA of individuals to undertake such research, (c) biomedical and behavioral research at non-Federal public and nonprofit private institutions, and (d) predoctoral and postdoctoral training at such institutions of individuals to undertake such research.

§ 66.102 Definitions.

As used in this subpart:

(a) "Act" means the Public Health Service Act, as amended.

(b) "Secretary" means the Secretary of Health, Education, and Welfare and any other officer or employee of the Department of Health, Education, and Welfare to whom the authority involved has been delegated.

(c) "NIH" means the National Institutes of Health.

(d) "ADAMHA" means the Alcohol, Drug Abuse, and Mental Health Administration.

(e) "Nonprofit" as applied to any institution means an institution which is a corporation or association no part of the net earnings of which inures or may lawfully inure to the benefit of any private shareholder or individual.

(f) "Award" means a National Research Service Award under section 472 of the Act (42 U.S.C. 289*l*-1).

(g) "Residency" means post-graduate training, for doctors of medicine, osteopathy, and dentistry, nurses, and other individuals providing health care directly to patients, where the majority of the time is spent in non-research clinical training.

(h) "National Health Service Corps" means the Corps referred to in section 329 of the Act (42 U.S.C. 254b).

(i) "Noncitizen national of the United States" means a person who, though not a citizen of the United States, owes permanent allegiance to the United States (8 U.S.C. 1101(a)(22)).

(j) "Predoctoral training" means training at the post-baccalaureate level in a program leading to the award of a doctor of philosophy or science.

(k) "Postdoctoral training" means training of individuals holding a doctor of philosophy, science, medicine, dentistry, osteopathy, veterinary medicine, engineering, nursing sciences, public health, or equivalent degree.

§ 66.103 Eligibility.

To be eligible for a National Research Service Award under this subpart an individual must:

(a) Be a citizen or noncitizen national of the United States or have been lawfully admitted to the United States for permanent residence at the time of application; and

(b) Propose to engage in full-time biomedical or behavioral research, or training to undertake such research, at NIH, ADAMHA, or a non-Federal public or nonprofit private institution.

§ 66.104 Application.

(a) Application for an Award under this subpart shall be made on a form approved for that purpose by the Secretary. The completed form, executed by the individual applicant, shall be submitted to NIH or ADAMHA on or before such dates as the Secretary may prescribe.

(b) In addition to any other pertinent information that the Secretary may require, each application shall set forth in detail:

(1) The applicant's educational background and other qualifications and experience;

(2) The subject area of the proposed research or training;

(3) The proposed period of Award;

(4) If the proposed period of Award is in excess of three years, the justifications for such request; and

(5) The availability of the institution where the research or training would be conducted of resources and facilities necessary to carry out such research or training.

§ 66.105 Requirements.

No Award shall be made to an individual under this subpart unless:

(a) The individual has submitted to the Secretary a written assurance (in such form as the Secretary may prescribe) that he or she will satisfy the requirements of paragraphs 66.110(a) and 66.110(b) of this subpart;

(b) If the proposed research or training would take place at a non-Federal institution, such institution has submitted a written assurance (in such form as the Secretary may prescribe), executed by a representative of the institution authorized to act for the institution and to assume on behalf of the institution the obligations imposed by the terms and conditions of the Award including the regulations of this subpart, indicating that the applicant has been accepted to the institution for the purpose of engaging in the research or training for which an Award is being sought, that the Award is not to be used to support a residency, and that, in the event an Award is made, the institution will make available to the applicant any resources and facilities described in the application as necessary to carry out such research or training;

(c) Effective July 1, 1975, the proposed research or training is in a subject area for which there is a need for personnel, as determined under section 473 of the Act (42 U.S.C. 289*l*-2); and

(d) The individual has submitted a written assurance (in such form as the Secretary may prescribe) that the Award is not to be used to support a residency.

§ 66.106 Awards.

(a) Within the limits of funds available, the Secretary shall make Awards to those applicants:

(1) Whose applications have been reviewed and recommended for approval by appropriate advisory councils within NIH and ADAMHA;

(2) Who have satisfied the requirements of § 66.105 of this subpart; and

(3) Whose proposed research or training would, in the judgment of the Secretary, best promote the purposes of section 472(a)(1)(A) of the Act, taking into consideration among other pertinent factors:

(i) The scientific, technical, or educational merit of the particular proposal;

(ii) The availability of resources and facilities to carry it out;

(iii) The qualifications and experience of the applicant; and

(iv) The degree of the need for personnel in the subject area of the proposed research or training.

(b) All Awards shall be in writing and shall specify the proposed period of the Award (which may not exceed three years in the aggregate for any individual unless the Secretary for good cause shown waives the application of this limitation to such individual), the stipends and allowances provided and the levels thereof during the initial year of said period (see § 66.107), the estimated levels for future years, and (if the Award is made for research or training at a non-Federal institution) the amount of the payments to the institution for the cost of services provided the awardee by such institution during the initial year of said period (see § 66.108).

(c) In determining what constitutes "good cause" for purposes of paragraph (b) of this section, the Secretary shall take into account such factors as whether the applicant proposes to complete both predoctoral and postdoctoral training programs under the Award.

§ 66.107 Payments to awardees.

(a) Individuals receiving Awards shall be entitled to such stipends and allowances as the Secretary may designate, taking into account such factors as the needs of the program, the cost of living, and the availability of funds.

(b) Payments of stipends and allowances shall, at the discretion of the Secretary, be made to the awardee or the sponsoring institution for payment to the awardee.

§ 66.108 Payments to institutions.

(a) Where an Award is made to an individual under this subpart for research or training at a non-Federal public or nonprofit private institution, the institution shall be entitled to an allowance to help defray the cost of support services (including the cost of faculty salaries, supplies, equipment, general research support, and related items) provided such individual by the institution. The amount of any such payments to any institution shall be determined by the Secretary based upon the reasonable costs to the institution of establishing and maintaining the quality of its biomedical and behavioral research and training programs.

(b) Payments to the institution under this section may be made either in advance or by way of reimbursement, as prescribed by the Secretary.

§ 66.109 Termination.

(a) The Secretary may terminate an Award prior to its normal expiration date:

(1) At the written request of the awardee; or

(2) If the Secretary finds that the awardee has materially failed to comply with the terms and conditions of the Award or to carry out the purpose for which it was made.

(b) In the event an Award is terminated the Secretary shall notify the awardee in writing of this determination, the reasons therefor, the effective date, and any procedural rights available.

§ 66.110 Service, payback, and recovery requirements.

(a) Each individual who receives an Award shall upon completion thereof:

(1) Engage in biomedical or behavioral research or teaching for a period equal to the period of support, or

(2) If the Secretary determines that there are no suitable research or teaching positions available to such individual, and if such individual is a physician, dentist, nurse, or other individual trained to provide health care directly to individual patients, and if the Secretary so authorizes such individual, in lieu of engaging in research or training:

(i) Serve as a member of the National Health Service Corps for a period equal to the period of support;

(ii) Serve in his specialty in private practice in a geographic area designated by the Secretary as requiring that specialty for 20 months for each twelve months of support; or

(iii) Provide services in his specialty for a health maintenance organization to which payments may be made under section 1876 of Title XVIII of the Social Security Act and which serves an underserved population (as defined in section 1302(7) of the Act) for 20 months for each 12 months of support; or

(3) If the Secretary determines that there are no suitable research or teaching positions available to an individual, and if such individual is not trained to provide health care directly to individual patients, and if the Secretary so authorizes such individual, in lieu of engaging in research or teaching, engage in a health-related activity for 20 months for each 12 months of support.

(b) Except as provided in section 111 of this subpart, an individual to whom the requirement for service in paragraph (a) of this section is applicable must begin to undertake such service on a continuous basis within two years after the termination of his or her Award.

(c) If an individual fails to undertake or perform such service in accordance with the requirements of paragraph (b) of this section, the United States shall be entitled to recover from such individual an amount determined in accordance with the formula:

$$A = \theta\, t - \frac{(\frac{1}{2})s}{t}$$

in which "A: is the amount the United States is entitled to recover; "θ" is the sum of the total amount of stipends paid under one or more Awards to such individual and the interest on such amount which would be payable if at the time it was paid it was a loan bearing interest at a rate fixed by the Secretary of the Treasury after taking into consideration private consumer rates of interest prevailing at the time the Award was made; "t" is total number of months in such individual's service obligation; and "s" is the number of months of such obligation served by him in accordance with paragraph (a) of this section.

(d) Except as provided in § 66.111 of this subpart, any amount which the United States is entitled to recover under paragraph (c) shall, within the three-year period beginning on the date the United States becomes entitled to recover such amount, be paid to the United States. Until any amount due the United States under paragraph (c) of this section on account of any Award is paid,

V 40 12 JAN 17 75 XUM

there shall accrue to the United States interest on such amount at the same rate as that fixed by the Secretary of the Treasury under paragraph (c) of this section to determine the amount due the United States.

§ 66.111 Suspension, waiver, and cancellation.

(a) The Secretary may extend the period for undertaking service prescribed in § 66.110(b) of this subpart, permit breaks in service under said paragraph, or extend the period for repayment under § 66.110(d) if the Secretary determines that:

(1) Such an extension or break in service is necessary so the individual may complete his or her research training;

(2) Completion during said period would be impossible because the individual is temporarily disabled; or

(3) Completion during said period would involve an extreme hardship to such individual and failure to extend such period would be against equity and good conscience.

(b) The Secretary may waive the obligation of such individual to repay pursuant to § 66.110(c) if the Secretary determines that:

(1) Fulfillment would be impossible because the individual is permanently and totally disabled; or

(2) Fulfillment would involve an extreme hardship to such individual and enforcement of such obligation would be against equity and good conscience.

(c) In making determinations under §§ 66.111(a)(3) and (b)(2), the Secretary will take into consideration such factors as:

(1) The individual's present financial resources and obligations;

(2) The individual's estimated future financial resources and obligations;

(3) The reasons for the individual's failure to complete such requirements within the prescribed period, such as problems of a personal nature; and

(4) The extent to which the individual has been engaged in activities encompassed by § 66.110(a).

(d) Any obligation of any individual under this subpart will be cancelled upon the death of such individual.

§ 66.112 Nondiscrimination.

Attention is called to the fact that funds paid to an institution under § 66.108 of this subpart are considered Federal financial assistance to such institution. The institution is thus subject to:

(a) The prohibition against discrimination on the basis of race, color, or national origin imposed by Title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 U.S.C. 2000d et seq.) and the implementing regulation of the Department of Health, Education, and Welfare (45 CFR Part 80); and

(b) The prohibition against discrimination on the basis of sex imposed by Title IX of the Education Amendments of 1972 and in particular section 901 of such Act.

§ 66.113 Human subjects; animal welfare.

Where the application is for research or training at a non-Federal public or non-profit private institution, no Award may be made under this subpart unless said institution has complied with:

(a) 45 CFR Part 46 and any other applicable requirements pertaining to the protection of human subjects.

(b) Chapter 1–43 of the Department of Health, Education, and Welfare Grants Administration Manual[1] and any other applicable requirements concerning animal welfare.

§ 66.114 Publications.

Publication, distribution, and disposition of all manuscripts and other materials resulting from an Award shall be subject to the conditions that all such materials shall bear appropriate acknowledgment of Department of Health, Education, and Welfare support and that the awardee shall furnish such copies of these manuscripts or other materials as the Secretary may reasonably request.

§ 66.115 Copyright.

Where the work accomplished under an Award results in a book or other copyrightable material, the author is free to copyright the work, but the United States reserves a royalty-free, nonexclusive, and irrevocable license to reproduce, publish, or otherwise use, and to authorize others to use, all copyrightable or copyrighted material resulting from the Award.

§ 66.116 Inventions and discoveries.

(a) Any Award is subject to the regulations of the Department of Health, Education, and Welfare set forth in 45 CFR Parts 6 and 8, as amended. Such regulations shall apply to any activity for which Award funds are in fact used, whether within the scope of the Award as approved or otherwise. Each such invention or discovery shall be promptly and fully reported to the Assistant Secretary for Health, Department of Health, Education, and Welfare.

(b) Determination as to ownership and disposition of rights to such invention or discovery, including whether a patent application shall be filed, and, if so, the manner of obtaining, administering, and disposing of rights under any patent application or patent which may issue shall be made either:

(1) By the Assistant Secretary for Health, whose decision shall be final, or

(2) Where an Award is made to an individual for research or training at a non-Federal public or nonprofit private institution having a separate formal institutional patent agreement with the Department of Health, Education, and Welfare, by the institution in accordance with that agreement.

§ 66.117 Additional conditions.

The Secretary may with respect to any Award or class of Awards impose additional conditions prior to or at the time of any Award when in his judgment such conditions are necessary to assure the carrying out of the purposes of the Award, the interests of the public health, or the conservation of funds awarded.

Subpart B—Institutional Growth

§ 66.201 Applicability.

The regulations in this subpart are applicable to grants under section 472(a)(1)(B) of the Public Health Service Act, as amended (42 U.S.C. 289l–1(a)(1)(B)), to non-Federal public institutions and to nonprofit private institutions to enable such institutions to make to individuals selected by them National Research Service Awards for research and predoctoral and postdoctoral training to undertake such research in matters relating to the cause, diagnosis, prevention, and treatment of the disease (or diseases) or other health problems to which the activities of the National Institutes of Health and the Alcohol, Drug Abuse, and Mental Health Administration are directed.

§ 66.202 Definitions.

The definitions in § 66.102 of subpart A of this part shall apply as well to this subpart.

§ 66.203 Eligibility.

To be eligible for a grant under this subpart, an applicant must be:

(a) A non-Federal public or nonprofit private institution; and

(b) Located in a State, the District of Columbia, Puerto Rico, the Virgin Islands, the Canal Zone, Guam, American Samoa, or the Trust Territory of the Pacific Islands.

§ 66.204 Application.

(a) Each institution desiring a grant under this subpart shall submit an application on a form approved for that purpose by the Secretary, on or before such dates as the Secretary may prescribe. Such application shall be executed by an individual authorized to act for the applicant and to assume on behalf of the applicant the obligations imposed by the terms and conditions of the grant, including the regulations of this subpart.

(b) In addition to any other pertinent information that the Secretary may require, each application shall set forth in detail:

(1) The subject area or areas in which the proposed research or training will be conducted;

(2) The resources and facilities available to the applicant for use by recipients of Awards in carrying out such research or training;

(3) The names, qualifications, and experience of the program director and principal staff members who will be responsible for the proposed program;

(4) The criteria to be employed in selecting individuals to be recipients of Awards;

(5) The estimated number of recipients of Awards under the grant;

(6) The proposed period of support and a detailed budget and justification for the amount of grant funds requested; and

(7) Proposed methods for monitoring and evaluating the performance of individual recipients of Awards, as well as the overall program.

[1] The Department of Health, Education, and Welfare Grants Administration Manual is available for public inspection and copying at the Department's and Regional Offices' information centers listed in 45 CFR § 5.31 and may be purchased from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

§ 66.205 Requirements.

(a) No Award shall be made to an individual under a grant pursuant to this subpart unless:

(1) The individual has submitted to the Secretary a written assurance (in such form as the Secretary may prescribe) that he or she will satisfy the requirements of §§ 66.110 (a) and (b) of subpart A of this part;

(2) Effective July 1, 1975, such Award is for research or training in a subject area for which there is a need for personnel, as determined under section 473 of the Act (42 U.S.C. 289l–2);

(3) The individual is a citizen or noncitizen national of the United States or has been lawfully admitted to the United States for permanent residence at the time of application;

(4) The Award includes a provision for termination in the event the recipient is found by the institution to have materially failed to comply with the terms and conditions of the Award or to carry out the purpose for which it was made; and

(5) The Award is not to be used to support a residency.

(b) No Award shall be made to an individual under such grant which exceeds three years in the aggregate unless the Secretary for good cause shown as provided in § 66.106(c) of subpart A of this part, waives the application of this limitation to such individual.

(c) The provisions of §§ 66.110 and 66.111 of subpart A of this part constitute terms and conditions of any Award made under a grant pursuant to this subpart.

§ 66.206 Grant awards.

(a) Within the limits of funds available, the Secretary shall award grants to those applicants:

(1) Whose applications have been reviewed and recommended for approval by appropriate advisory councils within NIH and ADAMHA;

(2) Who have satisfied the requirements of § 66.205 of this subpart; and

(3) Whose proposed programs would, in the judgment of the Secretary, best promote the purposes of section 472(a)(1)(B) of the Act, taking into consideration among other pertinent factors:

(i) The scientific, technical, or educational merit of the proposed program;

(ii) The adequacy of the resources and facilities available to the applicant;

(iii) The qualifications and experience of the program director and principal staff members;

(iv) The degree of the need for personnel in the subject area of the proposed research or training;

(v) The administrative and managerial capability of the applicant;

(vi) The reasonableness of the proposed budget in relation to the proposed program; and

(vii) The adequacy of the methods for monitoring and evaluating the performance of individual recipients and the overall program.

(b) All grant awards shall be in writing and shall specify the proposed period of support, the approved budget for the initial budget period, the total recommended amount of funds for the entire period of support, the amount awarded for the initial budget period, and the estimated amounts for future years.

(c) Neither the approval of any application nor any grant award shall commit or obligate the United States in any way to make any additional, supplemental, continuation, or other grant award with respect to any approved application or portion thereof.

(d) The amount of any grant award shall be determined by the Secretary on the basis of his estimate of the sum necessary during the budget period: (1) To provide stipends and allowances to individual recipients of Awards and payments to the institution, as determined in accordance with §§ 66.107(a) and 66.108(a) of subpart A of this part, and (2) otherwise to carry out the grant award.

§ 66.207 Payment.

The Secretary shall from time to time make payments to a grantee of all or a portion of any grant award, either in advance or by way of reimbursement, for expenses incurred or to be incurred in accordance with its approved application.

§ 66.208 Expenditure of grant funds.

(a) Any funds granted pursuant to this subpart shall be expended solely for the purposes for which the funds were granted in accordance with the approved application and budget, the regulations of this subpart, the terms and conditions of the award, and the applicable cost principles prescribed by subpart Q of 45 CFR Part 74.

(b) Any unobligated grant funds remaining in the grant account at the close of a budget period may, with prior approval by the Secretary, be carried forward and remain available for obligation during the remainder of the period of support, subject to such limitations as the Secretary may prescribe. The amount of any subsequent award will take into consideration unobligated grant funds remaining in the grant account. At the end of the final period of support any unobligated grant funds remaining in the grant account must be refunded to the United States.

§ 66.209 Nondiscrimination.

(a) Attention is called to the requirements of Title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 U.S.C. 2000d et seq.) which provides that no person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. A regulation implementing such Title VI, which is applicable to grants made under this subpart, has been issued by the Secretary of Health, Education, and Welfare with the approval of the President (45 CFR Part 80).

(b) Attention is also called to the requirements of Title IX of the Education Amendments of 1972 and in particular to section 901 of such Act which provides that no person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance.

(c) Grant funds used for alterations and renovations shall be subject to the condition that the grantee shall comply with the requirements of Executive Order 11246, 30 FR 12319 (September 24, 1965), as amended, and with the applicable rules, regulations, and procedures prescribed pursuant thereto.

§ 66.210 Human subjects; animal welfare.

No grant award may be made under this subpart unless the applicant has complied with:

(a) 45 CFR Part 46 and any other applicable requirements pertaining to the protection of human subjects.

(b) Chapter 1–43 of the Department of Health, Education, and Welfare Grants Administration Manual[1] and any other applicable requirements concerning animal welfare.

§ 66.211 Applicability of 45 CFR Part 74.

The provisions of 45 CFR Part 74, establishing uniform administrative requirements and cost principles, shall apply to all grants under this subpart to State and local governments as those terms are defined in Subpart A of that Part 74. The relevant provisions of the following subparts of Part 74 shall also apply to grants to all other grantee organizations under this subpart:

45 CFR PART 74

Subpart
- A General.
- B Cash Depositories.
- C Bonding and Insurance.
- D Retention and Custodial Requirements for Records.
- F Grant-Related Income.
- G Matching and Cost Sharing.
- K Grant Payment Requirements.
- M Grant Closeout Suspension, and Termination.
- O Property.
- Q Cost Principles.

[1] The Department of Health, Education, and Welfare Grants Administration Manual is available for public inspection and copying at the Department's and Regional Offices' information centers listed in 45 CFR § 5.31 and may be purchased from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

V40 N12 JAN 17 75 XUM

§ 66.212 Progress and fiscal records and reports.

Each grant award shall require that the grantee maintain such progress and fiscal records and file with the Secretary, such progress and fiscal reports relating to the conduct and results of the approved grant and the use of grant funds as the Secretary may find necessary to carry out the purposes of this subpart.

§ 66.213 Grantee accountability.

(a) All payments made by the Secretary shall be recorded by the grantee in accounting records separate from the records of all other grant funds, including funds derived from other grant awards. With respect to each approved program the grantee shall account for the sum total of all amounts paid by presenting or otherwise making available to the Secretary, satisfactory evidence of expenditures for direct and indirect costs meeting the requirements of this subpart.

(b) Accounting for royalties. Royalties received by grantees from copyrights on publications or other works developed under the grant, or from patents or inventions conceived or first actually reduced to practice in the course of or under such grant, shall be accounted for as follows:

(1) State and local governments. Where the grantee is a State or local government as those terms are defined in subpart A of 45 CFR Part 74, royalties shall be accounted for as provided in 45 CFR 74.44.

(2) Grantees other than State and local governments. Where the grantee is not a State or local government as those terms are defined in subpart A of 45 CFR Part 74, royalties shall be accounted for as follows:

(i) Patent royalties, whether received during or after the grant period, shall be governed by agreements between the Assistant Secretary for Health, Department of Health, Education, and Welfare, and the grantee, pursuant to the Department's patent regulations (45 CFR Parts 6 and 8).

(ii) Copyright royalties, whether received during or after the grant period, shall first be used to reduce the Federal share of the grant to cover the costs of publishing or producing the materials, and any royalties in excess of the costs of publishing or producing the materials shall be distributed in accordance with Chapter 1–420 of the Department of Health, Education, and Welfare Grants Administration Manual.

§ 66.214 Publications and copyright.

(a) State and local governments. Where the grantee is a State or local government as those terms are defined in subpart A of 45 CFR Part 74, the Department of Health, Education, and Welfare copyright requirement set forth in 45 CFR 74.140 shall apply with respect to any book or other copyrightable materials developed or resulting from an activity supported by a grant under this subpart.

(b) Grantees other than State and local governments. Where the grantee is not a State or local government as those terms are defined in subpart A of 45 CFR Part 74, except as may otherwise be provided under the terms and conditions of the grant award, the grantee may copyright without prior approval any publications, films, or similar materials developed or resulting from an activity supported by a grant under this subpart, subject to a royalty-free nonexclusive, and irrevocable license or right in the United States to reproduce, translate, publish, use, disseminate and dispose of such materials, and to authorize others to do so.

§ 66.215 Additional conditions.

The Secretary, may with respect to any grant award impose additional conditions prior to or at the time of any award when in his judgment such conditions are necessary to assure or protect advancement of the approved program, the interests of the public health, or the conservation of grant funds.

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions

V40 12 JAN 17 75 XUM

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions

General Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 12–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

Modifications and supersedeas decisions to general wage determination decisions. Modifications and Supersedeas Decisions to General Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 13–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing General Wage Determination Decisions, as hereby modified and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and Federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedeas Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rule-making procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Wage Determination Decision.

MODIFICATIONS TO GENERAL WAGE DETERMINATION DECISIONS

The numbers of the decisions being modified and their dates of publication in the FEDERAL REGISTER are listed with each State.

Group V	5.16	.25	.25		

DECISION NO.: AR75-4019 Page 2

POWER EQUIPMENT OPERATORS CLASSIFICATION DEFINITIONS

Group I - Cranes, draglines, and shovels equipped with 100 foot boom including jib or over, or a lifting capacity of 100 tons or over, and/or attachments five (5) cubic yards or over, as rated by the manufacturer, and operators of all tower, climbing cranes, and derricks required to work 25 feet or over from the ground

Group II - Cranes, draglines, and shovels equipped with less than 100 foot of boom including jib, or a lifting capacity less than 100 tons, and/or attachments less than 5 cubic yards, as rated by the manufacturer, all backhoes capable of a 360 degree swing, all derricks, floating, tractor or truck types, all piledrivers, land or floating, all overhead and traveling cranes, all cableways, cherry pickers or tractors with swinging boom attachments, whirley, paving mixers with boom gradealls, scrapers or pulls in tandem, all above equipment irrespective of motive power, leaverman (engineer), hydraulic and bucket dredges, irrespective of size, mechanics and/or welders, blacksmith

Group III - All buildozers, all front end loaders, all sidebooms, all push scrapers, all motor graders, all hydraulic backhoes not capable of 360 degree swing, all trenching machines, wheel, bucket, chain, or conveyor types regardless of size of motive power, all backfillers, all central mixing plants, mixers 10S and larger and concrete spreaders, all boiler firemen high or low pressure, all asphalt spreaders, rollers and finishing machines, hydr. truck crane, multiple drum hoist, irrespective of motive power, all rotary, cable, tool, core drill or churn drill, water well and foundation drilling machines, regardless of size, regardless of motive power, first assistant engineer (dredge) boat and dredge tender operator

Group IV - Oilerdriver motor crane, single drum hoists, winches and air tuggers, irrespective of motive power, winch or A frame trucks, fork-lifts, sl/tracks, dirt rollers of all types and pull tractors, regardless of size, elevator operators inside and outside when used for carrying workmen from floor to floor and handling building material, Lad-A-Vator, conveyor, batch plant, concrete mixers below 10S, pumpcrete, spray machine and pressure grout machine, air compressors, regardless of size. All Light Equipment, in multiple units four or more, all dewatering pumps when used in connection with well point systems, second assistant engineer (dredge)

Group V - All welding machines, light plants, pumps, space heaters, in units less than 4, irrespective of size, irrespective of motive power, equipment greaser, oiler, mechanic helper, asphalt distributor, chip spreader, form grader, end dump Euclid and like equipment, third assistant engineer (dredge), safety boat operator, oiler on dredge

	Basic Hourly Rates	Fringe Benefits Payments			
		H & W	Pensions	Vacation	App. Tr.
ROOFERS	$6.05		.05		
SHEET METAL WORKERS	7.07	.40	.25		.05
SPRINKLER FITTERS	8.35	.50	.70		.08
TRUCK DRIVERS	3.00				
WELDERS - receive rate prescribed for craft performing operation to which welding is incidental.

FOOTNOTE: a. 10 Paid Holidays - New Years' Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, Christmas Day, Washington's Birthday, Columbus Day, Veterans Day, & Patriots Day.

CLASSIFICATIONS:

GROUP 1
Power Shovels, Cranes, Truck Cranes, Derricks, Pile Drivers, Trenching Machines, Mechanical Hoist Pavement Breakers, Cement Concrete Pavers, Draglines, Hoisting Engines, Three Drum Machines, Pumprete Machines, Uke Loaders, Shovel Dozers, Front End Loaders, Mucking Machines, Shaft Hoists, Steam Engines, Backhoe, Gradalls, Cable Ways, Fork Lifts, Cherry Pickers, Boring Machines, Rotary Drills, Post Hole Hammers, Port Hole Diggers, Asphalt Plant on Job Sute, Concrete Batching and/or Mixing Plant on Job Site, Crusher Plant on Job Site, Paving Concrete Mixers, Timber Jacks

GROUP 2
Sonio or Vibratory Hammers, Graders, Scrapers, Tandem Scrapers, Bulldozers, Tractors, Mechanic Maintenance, York Rakes, Mulching Machines Paving Screed Machines, Stationary Steam Boilers, Paving Concrete Finishing Machines, Grout Pumps, Portable Steam Boilers, Portable Steam Generators, Rollers, Spreaders, Asphalt Pavers, Locomotives or Machines Used in Place Thereof, Tampers, Self Propelled or Tractor Drawn, Cal Tracks, Ballast Regulators, Rail Anchor Machines, Switch Tampers

GROUP 3
Pump (1-3 grouped), Compressors, Welding Machine (1-3 grouped), Generators, Lighting Plants, Heaters (Power Driven) (1-5), Syphons-Pulsometers, Concrete Mixers, Valves Controlling Permanent Plant Air Steam, Conveyors, Wellpoint Systems (Operating and Installing)

GROUP 4
Assistant Engineers (Firemen)

GROUP 5
Oilers (other than truck cranes & gradalls)

GROUP 6
Oilers (on truck cranes & gradalls)

SUPERSEDEAS DECISION

STATE: Massachusetts
COUNTY: Worcester
DECISION NO.: MA75-2013
DATE: Date of Publication
Supersedes Decision No. AR-3140, dated August 30, 1974 in 39 FR 31844.
DESCRIPTION OF WORK: Building Construction (including residential), Heavy and Highway Construction.

PAID HOLIDAYS:
A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; & F-Christmas Day.

FOOTNOTES:
a. $.30 per man per week
b. Employer contributes 4% of basic hourly rate for 5 years or more of service or 2% of basic hourly rate for 6 months to 5 years of service as vacation pay credit.
c. 6 paid holidays: A through F.
d. 9 paid holidays: A through F, Washington's Birthday, Good Friday, & Christmas Eve, provided the employee has worked at least 45 full days during the 120 calendar days immediately prior to the holiday and the regular scheduled work days immediately preceding and following the holiday.
e. 7 paid holidays: A through F, & Bunker Hill Day, provided the employee has worked 10 days prior to the listed holidays.

TRUCK DRIVERS: BUILDING AND HEAVY AND HIGHWAY CONSTRUCTION

	Basic Hourly Rates	Fringe Benefits Payments				
		H & W	Pensions	Vacation	App. Tr.	Others
Station wagons, panel trucks and pick-up trucks	$6.80	.485	.575	a+b		
Two axle equipment; helpers on low bed when assigned at the discretion of the employer, warehousemen, forklift opers.	6.95	.485	.575	a+b		
Three axle equipment and tiremen	7.00	.485	.575	a+b		
Four and five axle equipment	7.10	.485	.575	a+b		
Specialized earth moving equipment under 35 tons other than conventional type trucks, low bed, vachaul, mechanics, paving restoration equipment, Mechanics	7.20	.485	.575	a+b		
Specialized earth moving equipment over 35 tons	7.45	.485	.575	a+b		
Trailers for earth moving equipment, (double hookup)	7.70	.485	.575	a+b		

PAID HOLIDAYS:
A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:
a. One half day's pay each month in which an employee has worked 15 days provided he has been employed for 4 months.
b. Holidays: A through F, Washington's Birthday, Columbus Day, Veteran's Day, and Patriots' Day, provided an employee works two days of the calendar week in which the holiday falls.

OFFICE OF MANAGEMENT AND BUDGET

FY 1975 RESCISSIONS AND DEFERRALS

Cumulative Report

Honorable NELSON A. ROCKEFELLER
President of the Senate
Washington, D.C. 20510

JANUARY 10, 1975.

DEAR MR. PRESIDENT: The President has directed me to submit the enclosed report required by Section 1014(e) of the Congressional Budget and Impoundment Control Act of 1974. In accordance with that Act, the report is also being transmitted to the House and will be published in the FEDERAL REGISTER.

Sincerely,

ROY L. ASH,
Director.

CUMULATIVE REPORT OF FISCAL YEAR 1975 RESCISSIONS AND DEFERRALS JANUARY 1975

This report is submitted in fulfillment of the requirements of section 1014 of the Congressional Budget and Impoundment Control Act of 1974 (Pub. L. 93-344). Section 1014 provides for a monthly report listing all budget authority for the current fiscal year with respect to which, as of the first day of such month, a special message has been transmitted to the Congress. This January report includes those deferrals and rescissions in the seven special messages sent by the President to the Congress in September, October, November, and December.

Rescissions. Five proposed rescissions, totalling $131,148,000 in budget authority, have been effected by Pub. L. 93-529 signed December 21, 1974. In addition, $455,635,000 in budget authority proposed for rescission for Rural Electrification Administration loans but not included in Pub. L. 93-529 has been made available for obligation. Another $85,000,000 proposed for rescission under the Agricultural Conservation Program (REAP) and not included in Pub. L. 93-529 lapsed on December 31, 1974. These items are shown in the report together with the remaining proposed rescissions which total—as of January 1, 1975—$863,646,000.

Deferrals. Attachment B identifies, by agency and account, all deferred funds reported. As of January 1, 138 deferral reports had been submitted to the Congress and 19 of these had been revised by supplementary reports. When supplementary reports have revised previous reports, the amount initially reported has been placed in brackets and zeroed out in the column labeled "Adjustments." Unlike proposed rescissions of budget authority, funds reported as deferred (section 1013 of the Act) are often planned to be made available for obligation, in whole or in part, during the course of the fiscal year. These releases are detailed in Attachment B which shows, for each deferral, the amount of deferred funds made available by the Office of Management and Budget and other Federal agencies in the current year, the date the funds were made available, and the balance of funds being deferred as of the first of the month for which the report is submitted. The total of all budget authority deferrals currently before the Congress is $24,295,435,000. In addition to this amount of deferred budget authority, another $10,000,000 in outlays have been deferred under the Department of the Interior's Land and Water Conservation Fund.

Actions Concluded Before July 12, 1974. Some of the actions reported in the special messages are not, in the opinion of the Attorney General, subject to Congressional ratification or disapproval under the Impoundment Control Act since they were concluded before it became effective on July 12, 1974. These items, marked by asterisks, are included in the report to provide more complete information on the status of withheld funds.

Actions by Congress on Rescissions and Deferrals. The report formats provide for showing the effect of congressional action and inaction on both deferrals and proposed rescissions. As of January 1, 1975, no congressional action on deferrals had been concluded. Pub. L. 93-529, signed December 21, 1974, rescinded $131,481,000 of budget authority proposed for rescission in the first two special messages. Details of these approved rescissions are shown in Attachment A under columns entitled "Amount Rescinded by Congress" and "Date Rescission Act Signed." The proposed rescission of $455,635,000 for Rural Electrification Administration Loans was not included in Pub. L. 93-529 and was made available for obligation on December 11, 1974.

Information from the Special Messages. The seven special messages containing information on each of the rescissions and deferrals covered by the cumulative report are contained in the FEDERAL REGISTER of:

Monday, September 23 (Vol. 39, No. 185, Part III), Tuesday, October 8 (Vol. 39, No. 196, Part V), Tuesday, November 5 (Vol. 39, No. 214, Part III), Tuesday, November 19 (Vol. 39, No. 224, Part III), Thursday, December 5 (Vol. 39, No. 235, Part IV), and Wednesday, January 8 (Vol. 40, No. 5, Part IV).

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Learners and student workers; certificates authorizing employment at special minimum wages 3261

list of cfr parts affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, follows beginning with the second issue of the month.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1974, and specifies how they are affected.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 8—Aliens and Nationality

CHAPTER I—IMMIGRATION AND NATURALIZATION SERVICE, DEPARTMENT OF JUSTICE

PART 235—INSPECTION OF PERSONS APPLYING FOR ADMISSION

PART 299—IMMIGRATION FORMS

U.S. Citizen Identification Card

Reference is made to the notice of proposed rule making which was published in the FEDERAL REGISTER on March 7, 1974 (39 FR 8924) pursuant to section 553 of Title 5 of the United States Code (80 Stat. 383) and in which there were set forth the proposed amendments to 8 CFR § 235.10 pertaining to the issuance of United States citizen identification cards.

The representations which were received concerning the proposed rules of March 7, 1974, have been considered. In addition to minor editorial changes, the proposed rules have been amended in the following respects:

1. Proposed § 235.10(a) is amended by adding at the end thereof a new sentence for the purpose of making it clear that "A U.S. citizen identification card is and never ceases to be the property of the United States."

2. Proposed § 235.10(f) is amended to specify the procedure for obtaining a citizen identification card in lieu of one lost, mutilated, or destroyed, or in a changed name; to clarify the conditions under which a card may be replaced without fee, and to provide for its replacement in such circumstances without the submission of an application, as well as without fee.

3. For greater clarity, the material in proposed § 235.10(g) has been divided into four subparagraphs. That portion of proposed § 235.10(g) which concerns the provisional surrender to the Service of a citizen identification card upon notification that the validity of the card is being investigated, has been designated § 235.10 (g) (2), and has been modified to provide for the return of such provisionally-surrendered card if the investigation does not result in an adverse determination. The proposed regulation has been further modified to provide that in the event of a tentative adverse determination, the applicant shall be notified thereof, of the basis therefor, and afforded an opportunity to see and to rebut the reverse evidence, and to present evidence on his own behalf, which shall be considered in determining the validity of the card. That portion of proposed § 235.10(g) concerning the automatic voidance of a citizen identification card issued to a person who admits alienage, has been designated § 235.10(g)(3), and has been modified to include the condition of consent to voidance of the card and to eliminate the provision for automatic voidance of the card if found in the possession of a person other than the one to whom it was issued.

4. Proposed § 235.10 is amended by the addition of a new paragraph (h) to clarify that a valid citizen identification card heretofore issued on Form I–179 shall continue to be valid.

The proposed rules, as modified, are hereby adopted:

Section 235.10 is revised to read as follows:

§ 235.10 U.S. Citizen Identification Card.

(a) *General.* Solely as a convenience to facilitate identification in the United States by immigration officers and entry over land borders from foreign contiguous territory, a citizen who is physically present in the United States may apply for a U.S. Citizen Identification Card, Form I–197, to the Service office having jurisdiction over the place where he is present. Possession of the card shall not be mandatory for any purpose. A U.S. citizen identification card is and never ceases to be the property of the United States.

(b) *Eligibility.* No United States citizen shall be eligible for an identification card unless he is physically present in the United States at the time of application therefor and at the time of issuance of the card and, if other than a native-born citizen, has been issued a certificate of naturalization or citizenship.

(c) *Application.* An application for an identification card shall be made on Form I–196, accompanied by the fee required under § 103.7 of this chapter and one photograph 1½ inches by 1½ inches, and evidence of his brith in the United States or, in the case of a United States citizen who was not born in the United States, a certificate of naturalization or citizenship. The applicant, when notified to do so, and his parent or guardian, if one is acting in his behalf, shall appear in person before an immigration officer in the United States for examination under oath or affirmation upon the application.

(d) *Denial of application.* If the decision of the district director is that the application shall be denied, notification thereof and the reasons therefor shall be furnished the applicant. No appeal shall lie from the denial of an application by the district director.

(e) *Issuance of identification card.* If the applicant establishes his citizenship and eligibility to the satisfaction of the district director, the identification card shall be issued to the applicant. The delivery of such card shall be made only in the United States.

(f) *Replacement.* If a U.S. citizen identification card has been lost, mutilated or destroyed, the person to whom such card was issued may apply for a new card (Form I–197) in accordance with the provisions of this section. If subsequent to issuance of an identification card the holder's name has been changed by marriage or by order of a court of competent jurisdiction, application for a new card may be made in accordance with the provisions of this section. A mutilated card may be replaced only if it is surrendered to the Service. A card in a changed name may be issued only if the previously-issued card is surrendered, unless it was lost or destroyed, and a certified copy of the marriage record or court decree ordering the name change is submitted. The holder of an identification card which is in poor condition because of improper lamination or which contains an error made by the Service may be issued a new one without submitting a fee or application upon surrender of the original card.

(g) *Surrender and voidance*—(1) *Institution of proceeding under section 236, 242 or 342 of the Act.* A U.S. citizen identification card shall be surrendered provisionally to a Service office upon notification by the district director of such office of institution of a proceeding under section 236, 242 or 342 of the Act against the person to whom the card was issued. The card shall be returned to such person if the final order in the proceeding does not result in the voidance of the document pursuant to this paragraph. A U.S. citizen identification card shall be deemed void automatically if the person to whom it was issued is determined to be an alien in a proceeding conducted pursuant to section 236 or 242 of the Act, or if a certificate, document, or record relating to such person is cancelled pursuant to section 342 of the Act.

(2) *Investigation of validity of identification card.* A U.S. citizen identification card shall be surrendered provisionally to a Service office upon notification by the district director of such office that the validity of the card is being investigated. The card shall be returned to the person who surrendered it if the investigation does not result in a determination adverse to his claim to be a United States citizen. When an investigation results in a tentative determination adverse to the applicant's claim to be a United States citizen, the applicant shall be so notified by certified mail directed to his last known address. The notification shall inform the applicant of the basis for such determination and of the intention of the

V40I13 JAN20 75 XUM

district director to declare the card void unless within 30 days the applicant objects and demands an opportunity to see and rebut the adverse evidence. Any rebuttal, explanation or evidence presented by the applicant shall be included in the record of proceeding. The determination whether the applicant is a United States citizen shall be based on the entire record and the applicant shall be notified of such determination. If the determination is that the applicant is not a U.S. citizen, he shall be notified of the reasons therefor, and the card shall automatically be deemed void. No appeal shall lie from the district director's decision.

(3) *Admission of alienage.* A U.S. citizen identification card shall be deemed void if the person to whom it was issued admits in a statement signed before an immigration officer that he is an alien and consents therein to the voidance of the card. Upon the signing of such statement the card shall be surrendered to the immigration officer.

(4) *Surrender of void card.* A void U.S. citizen identification card which has not been returned to the Service, shall be surrendered forthwith to an immigration officer or to the issuing office of the Service.

(h) *U.S. citizen identification card previously issued on Form I–179.* A valid U.S. citizen identification card issued on Form I–179 shall continue to be valid, but shall be subject to the provisions of this section.

§ 299.1 [Amended]

The list of forms in § 299.1 *Prescribed forms* is amended by deleting therefrom the reference to "Form I–179 (1–1–73) Identification Card for Resident Citizen in the United States."

(Sec. 103, 66 Stat. 173; 8 U.S.C. 1103)

The basis and purpose of the above-prescribed regulations are to modify the current procedure of issuing two different types of United States citizen identification cards (Form I–179 and Form I–197) to provide for the issuance of a single type of citizen identification card, Form I–197; to specify the eligibility requirements and procedure for applying for a card, or a replacement card, as well as the conditions for surrender and voidance of the card.

In accordance with long-standing practice, and as explicitly set forth in § 235.10(a), the United States citizen identification card will continue to be made available solely for the convenience of those United States citizens who wish to apply for it. Possession of the card is not mandatory for any purpose.

Effective date. This order shall become effective February 19, 1975.

Dated: January 14, 1975.

L. F. CHAPMAN, JR.,
Commissioner of Immigration and Naturalization.

[FR Doc.75–1697 Filed 1–17–75;8:45 am]

Title 10—Energy

CHAPTER I—ATOMIC ENERGY COMMISSION

PART 35—HUMAN USES OF BYPRODUCT MATERIAL

Group Licensing for Certain Medical Uses

Notice is hereby given of the amendment of the Atomic Energy Commission's regulation "Human Uses of Byproduct Material," 10 CFR Part 35.

Section 35.100 of 10 CFR Part 35 lists groups of medical uses of radioisotopes that have similar requirements for user training and experience, facilities and equipment, and radiation safety procedures. Under the procedures set out in § 35.14 of 10 CFR Part 35, an application for a specific license for any medical use of byproduct material specified in one or more of the groups in § 35.100 is considered by the Commission as an application for all of the uses within the group or groups that include the use or uses specified in the application.

On July 17, 1974, the Commission published in the FEDERAL REGISTER (39 FR 26143) amendments to 10 CFR Part 35, to become effective on January 13, 1975, which added several new uses to the existing groups I and II of § 35.100 Schedule A and established new groups III, IV, V, and VI of § 35.100. The notice of proposed rulemaking that was published in the FEDERAL REGISTER on January 21, 1974 (39 FR 2384) on this amendment of § 35.100 stated that the groups of licensed uses would be amended from time to time to add new radiopharmaceuticals, sources, devices, and uses as they are developed.

The use of (1) iodine 125 and iodine 131 as iodinated human serum albumin (IHSA) for studies of cardiovascular function and protein turnover, (2) chromium 51 as sodium chromate for studies of gastrointestinal blood loss, (3) technetium 99m as labeled sulfur colloid for bone marrow imaging, and (4) technetium 99m as labeled stannous pyrophosphate for bone imaging have become well-established clinical procedures and radiopharmaceuticals for these uses have been approved or licensed by the Food and Drug Administration. Section 35.100(c)(3) authorizes the use of reagent kits for the preparation of, and the clinical use of, certain radiopharmaceuticals. In order that medical institutions and physicians may obtain these radiopharmaceuticals in prepared form from radiopharmacists instead of making their own preparation from reagent kits, the radiopharmaceuticals prepared from reagent kits listed in § 35.100(c)(3) will be added, as prepared radiopharmaceuticals, to § 35.100(c)(2).

An editorial correction is also made in § 35.100(c)(3)(viii) to authorize the use of distannous etidronate complex for bone imaging, instead of disodium etidronate from which the complex is prepared.

Because this amendment relates solely to procedural matters, the Commission has found that good cause exists for omitting notice of proposed rulemaking, and public procedure thereon, as unnecessary. Since the amendment relieves from restrictions under regulations currently in effect, it may become effective without the customary 30-day notice.

Pursuant to the Atomic Energy Act of 1954, as amended, and Sections 552 and 553 of Title 5 of the United States Code, the following amendment to Title 10, Chapter I, Code of Federal Regulations, Part 35 is published as a document subject to codification.

In § 35.100, paragraphs (a)(3), (4), (13) and (b)(21) are amended; paragraph (b)(23) is renumbered (b)(24); a new paragraph (b)(23) is added; paragraph (c)(3)(viii) is amended and a new paragraph (c)(3)(ix) is added to read as follows:

§ 35.100 Schedule A-Groups of medical uses of byproduct material.

(a) *Group I.* Use of prepared radiopharmaceuticals for certain diagnostic studies involving measurements of uptake, dilution and excretion. This group does not include uses involving imaging and tumor localizations.

• • • • • •

(3) Iodine 131 as iodinated human serum albumin (IHSA) for determination of blood and blood plasma volume and for studies of cardiovascular function and protein turnover;

(4) Iodine 125 as iodinated human serum albumin (IHSA) for determination of blood and blood plasma volume and for studies of cardiovascular function and protein turnover;

• • • • • •

(13) Chromium 51 as sodium chromate for determination of red blood cell volume and studies of red blood cell survival time and gastrointestinal blood loss;

• • • • • •

(b) *Group II.* Use of prepared radiopharmaceuticals for diagnostic studies involving imaging and tumor localizations.

• • • • • •

(21) Technetium 99m as labeled sulfur colloid for liver, spleen, and bone marrow imaging;

• • • • • •

(23) Any byproduct material in a radiopharmaceutical prepared from a reagent kit listed in paragraph (c)(3) of this section for a use listed in that paragraph;

(24) Any byproduct material in a radiopharmaceutical and for a diagnostic use involving imaging for which a "Notice of Claimed Investigational Exemption for a New Drug" (IND) has been accepted by the Food and Drug Administration (FDA).

• • • • • •

(c) *Group III.* Use of generators and reagent kits for the preparation and use of radiopharmaceuticals containing byproduct material for certain diagnostic uses.

• • • • • •

(3) Reagent kits for preparation of technetium 99m labeled:

• • • • • •

(viii) Distannous etidronate complex for bone imaging;

(ix) Stannous pyrophosphate for bone imaging.

• • • • • •

Effective date. This amendment becomes effective on January 20, 1975.

(Sec. 161, Pub. L. 83–703, 68 Stat. 948 (42 U.S.C. 2201))

Dated at Bethesda, Md., this 15th day of January 1975.

For the Atomic Energy Commission.

L. MANNING MUNTZING,
Director of Regulation.

[FR Doc.75–1831 Filed 1–17–75;8:45 am]

PART 50—LICENSING OF PRODUCTION AND UTILIZATION FACILITIES

Quality Assurance Criteria—Permissible Organizational Relationships

On April 19, 1974, the Atomic Energy Commission published in the FEDERAL REGISTER (39 FR 13974) for public comment a proposed amendment to 10 CFR Part 50, Appendix B, "Quality Assurance Criteria for Nuclear Power Plants and Fuel Reprocessing Plants." The purpose of the amendment is to clarify the intent of Criterion I, "Organization," with regard to permissible organizational relationships. All interested persons were invited to submit comments or suggestions in connection with the proposed amendment by June 3, 1974.

The proposed amendment was proposed as a result of the questions raised by the decision of the Atomic Safety and Licensing Appeal Board in *Commonwealth Edison Co. (LaSalle County Nuclear Station Units 1 and 2)* ALAB–153, RAI 73–10, 821 (October 19, 1973) and *Consumers Power (Midland)* ALAB–147, RAI 73–9, 636 (September 18, 1973), (reconsideration denied, ALAB–152, RAI 73–10, 816 (October 5, 1973)). These questions concerned the organizational relationships where personnel performing a quality assurance function reported to a field project manager or superintendent who was concerned with only the single project to which he was then assigned and had cost and schedule responsibility for that project.

Appendix B establishes quality assurance requirements for the design, construction, and operation of those structures, systems, and components of nuclear power plants and fuel reprocessing plants that prevent or mitigate the consequences of postulated accidents that could cause undue risk to the health and safety of the public. The pertinent provisions of Appendix B apply to all activities which affect the safety-related functions of such structures, systems, and components.

The intent of the quality assurance criteria provided in Appendix B to 10 CFR Part 50 is to require that all activities affecting the safety-related functions of nuclear facility structures, systems, and components be accomplished in a systematic and controlled manner so that there is a high degree of assurance that these activities are performed correctly. Appendix B, in addition to requiring that these activities be performed in a systematic and controlled manner such as by requiring that the activities be prescribed and accomplished in accordance with written instructions or procedures, also requires additional assurance of quality to be provided by verification of the correct performance of these activities by means such as checking, reviewing, inspecting, testing, and auditing. Execution of a quality assurance program which complies with Appendix B thus involves both the performers; e.g., designer, welder, power plant operator, and those persons and organizations accomplishing quality assurance functions; e.g., design reviewer, inspector, or tester.

One of the matters with which Criterion I deals is the organizational relationship of the persons and organizations which are assigned the quality assurance functions of (1) assuring that the quality assurance program is established and executed and (2) verifying that an activity has been correctly performed. Criterion I now requires that such persons and organizations shall have sufficient authority and organizational freedom to identify quality problems; to initiate, recommend, or provide solutions; and to verify implementation of solutions. The intent of these organizational requirements is to assure that those persons and organizations performing quality assurance functions have the required degree of freedom from other organizational responsibilities, such as cost and scheduling, which could conflict with their quality assurance functions.

It was recognized in establishing the organizational requirements in Criterion I that the degree of separation or independence of the persons and organizations performing quality assurance functions can affect their ability to carry out these functions. While it is desirable from one point of view to have persons and organizations performing quality assurance functions completely separated, organizationally, from individuals who have significant responsibility for performance of the work (including but not limited to cost and schedule responsibility), that same separation may in some instances hinder the quality assurance persons and organizations in performing their functions. The greater the independence or separation, for example, the more difficult it may be in some instances to maintain lines of communication in identifying quality problems and initiating corrective action. A number of variables affect the establishment of a quality assurance organization that will be consistent with Criterion I. The variables include, but are not limited to, the size of the organization, its organizational structure, the type of activity being performed, and the location or locations where the work is being performed.

Guidance as to implementation of a quality assurance program that includes the concepts embodied in the amendment set forth below is contained in the following publications: [1]

1. Guidance on Quality Assurance Requirements During Design and Procurement Phase of Nuclear Power Plants, WASH–1283, Revision 1, dated May 24, 1974;

2. Guidance on Quality Assurance Requirements During the Construction Phase of Nuclear Power Plants," WASH–1309, dated May 10, 1974; and

3. Guidance on Quality Assurance Requirements During the Operations Phase of Nuclear Power Plants," WASH–1284, dated October 26, 1973.

The comments on the notice of proposed rule making, in general, supported the concept that the Commission should be flexible in determining acceptability of licensee proposed organizational approaches to quality assurance provided that the licensee explicitly establishes and delineates the functional relationships that are a part of his quality assurance program.

Additionally, comments stated that Criterion I did not clearly state that the execution of the quality assurance program involved both the performers who achieve the quality objectives and the verifiers who assure that the required quality objectives have been attained. As a result of valid criticisms in this regard, Criterion I has been revised to indicate that activities affecting the safety-related functions include both the performing functions and the quality assurance functions. Criterion I has also been revised to include a requirement for establishment and delineation in writing of the authority and duties of those responsible for attaining quality objectives as well as those performing quality assurance functions.

Comments also recommended clarification of the phrases "quality assurance functions" and "directing and managing the quality assurance program." Clarification has been accomplished by defining quality assurance functions as (a) assuring that an appropriate quality assurance program is established and effectively executed, and (b) verifying that activities affecting the safety-related functions have been correctly performed. Since the execution of the quality assurance program involves both the performers and the verifiers, the phrase "directing and managing the quality assurance program," which appears in the last sentence, has been changed to "assuring effective execution of any portion of the quality assurance program."

Comments also recommended clarification of the last sentence of the proposed rule to eliminate the implication that only one individual may be responsible for the quality assurance program at a given location. As a result of this comment, a change has been made to permit the situation where, at a location; e.g., construction site or engineering and procurement building, there may be more than one individual responsible for assuring effective execution of different portions of the program. It should be

[1] These documents are available for inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., and copies may be obtained from the National Technical Information Service, 5285 Port Royal Road, Springfield, Virginia 22151.

V40I13 JAN20 75 XUM

recognized, however, that overall control must be provided to assure that these different portions of the program are coordinated and consistent with the overall program requirements.

Comments also requested elimination of the phrase "pressures of production" in describing the authority and organizational freedom required for the verification function. Since it was not intended that this phrase be limited to facets of manufacturing or fabrication; e.g., machining or welding, that phrase has been deleted. The revision now states the broader meaning intended; i.e., sufficient independence from cost and scheduling when opposed to safety considerations. In this broader sense, the thought encompasses such activities as design and procurement.

Pursuant to the Atomic Energy Act of 1954, as amended, and sections 552 and 553 of Title 5 of the United States Code, the following amendment to Title 10, Chapter I, Code of Federal Regulations, Part 50, Appendix B, is published as a document subject to codification.

Criterion I of Appendix B is amended to read:

I. ORGANIZATION

The applicant[1] shall be responsible for the establishment and execution of the quality assurance program. The applicant may delegate to others, such as contractors, agents, or consultants, the work of establishing and executing the quality assurance program, or any part thereof, but shall retain responsibility therefor. The authority and duties of persons and organizations performing activities affecting the safety-related functions of structures, systems, and components shall be clearly established and delineated in writing. These activities include both the performing functions of attaining quality objectives and the quality assurance functions. The quality assurance functions are those of (a) assuring that an appropriate quality assurance program is established and effectively executed and (b) verifying, such as by checking, auditing, and inspection, that activities affecting the safety-related functions have been correctly performed. The persons and organizations performing quality assurance functions shall have sufficient authority and organizational freedom to identify quality problems; to initiate, recommend, or provide solutions; and to verify implementation of solutions. Such persons and organizations performing quality assurance functions shall report to a management level such that this required authority and organizational freedom, including sufficient independence from cost and schedule when opposed to safety considerations, are provided. Because of the many variables involved, such as the number of personnel, the type of activity being performed, and the location or locations where activities are performed, the organizational structure for executing the quality assurance program may take various forms provided that the persons and organizations assigned the quality assurance functions have this required authority and organizational freedom. Irrespective of the organizational structure, the individual(s) assigned the responsibility for assuring effective execution of any portion of the quality assurance program at any location where activities subject to this Appendix are being performed shall have direct access to such levels of management as may be necessary to perform this function.

Effective date. This amendment becomes effective on February 19, 1975.

(Sec. 161, Pub. Law 83-703, 68 Stat. 948 (42 USC 2201))

Dated at Germantown, Md. this 14th day of January 1975.

For the Atomic Energy Commission.

PAUL C. BENDER,
Secretary of the Commission.

[FR Doc.75-1821 Filed 1-17-75;8:45 am]

[1] While the term "applicant" is used in these criteria, the requirements are, of course, applicable after such a person has received a license to construct and operate a nuclear power plant or a fuel reprocessing plant. These criteria will also be used for guidance in evaluating the adequacy of quality assurance programs in use by holders of construction permits and operating licenses.

CHAPTER II—FEDERAL ENERGY ADMINISTRATION

PART 205—ADMINISTRATIVE PROCEDURES AND SANCTIONS

Cancellation of Public Hearing

On December 18, 1974, the Federal Energy Administration issued an emergency amendment to § 205.26 and § 205.36 of Part 205, Chapter II, Title 10, Code of Federal Regulations (39 FR 44030, December 20, 1974). A public hearing on the amendment was scheduled for January 21, 1975.

Only one request to make an oral presentation was received by FEA prior to 4:30 p.m., January 13, 1975, and that request was subsequently withdrawn. Therefore, FEA hereby gives notice that the public hearing is cancelled.

ROBERT E. MONTGOMERY, JR.,
General Counsel.

JANUARY 16, 1975.

[FR Doc.75-1973 Filed 1-17-75;11:15 am]

Title 13—Business Credit and Assistance

CHAPTER I—SMALL BUSINESS ADMINISTRATION

[Rev. 9]

PART 123—DISASTER LOANS

The last revision of SBA rules and regulations, Part 123, was published July 9, 1973, effective July 1, 1973. Since that time Pub. L. 93-237, dated January 2, 1974, and Pub. L. 93-386, dated August 23, 1974, have been enacted. These laws authorized loans to small businesses economically injured as the result of Federal and other regulations, base closings, and the energy shortage. In order to incorporate these loan programs, as well as that relating to economic injury for meeting water pollution control requirements enacted by Pub. L. 92-500, dated October 18, 1972, this revision is necessary. It also adds new sections on Federal Flood insurance, and State grants to disaster victims, and clarifies several minor issues. Since these changes and additions involve matters peculiarly within the responsibility of the Agency in view of the need to coordinate policies affecting all of its programs, and because most changes incorporated herein are the result of statutory enactments, it has been administratively determined that good cause exists not to postpone the effective date of this amendment until 30 days after publication in the FEDERAL REGISTER. However, we invite comment on the rules and regulations published herein. Send all comments to Elnar Johnson, Acting Associate Administrator for Finance and Investment, 1441 L Street, NW., Washington, D.C. 20416. This revision is effective January 20, 1975.

AUTHORITY: 72 Stat. 385, 387, as amended; 83 Stat. 125, 742; 15 U.S.C. 636.

§ 123.0 Explanation of regulations.

(a) The regulations in this part set forth the information and procedures generally followed in Physical and other types of Disaster loans. However, because of the emergency nature of floods, hurricanes, earthquakes or other similar catastrophes, the regulations cannot anticipate all of the contingencies, problems, and needs which may arise in any given disaster. The SBA therefore advises that the regulations in this part must be, and are subject to change without advance notice and publication in the FEDERAL REGISTER.

(b) SBA will, however, make every effort to publicize changes of substance and procedure by whatever means practicable under the circumstances, including, but not limited to press releases to newspapers, radio and television stations, posting notices in public places, and by direct mailings (when possible) to affected persons. Publication in the FEDERAL REGISTER of appropriate regulatory changes will follow at the earliest practicable time.

§ 123.1 General.

(a) SBA is authorized to make or guarantee loans where necessary or appropriate to victims of floods, riots and civil disorders, and other catastrophes to rehabilitate or replace damaged or lost physical property (Physical-Loss Disaster Assistance).

(b) SBA is also authorized to make or guarantee loans where necessary or appropriate to a small business concern:

(1) Located in an area declared to be a major disaster area by the President or declared to be a natural disaster area by the Secretary of Agriculture, or physical disaster area declared by SBA after April 1, 1970, if SBA determines that the concern has suffered substantial economic injury as a result of such disaster (Economic Injury Assistance);

(2) To assist in reestablishing its business, continuing in business at its existing location, in purchasing a business, or in establishing a new business, if SBA determines that the concern has suffered substantial economic injury as a result of its displacement by, or location in, adjacent to, or near, a federally aided urban renewal program or a highway project or any other construction constructed by or with funds provided in whole or in part by the Federal Government (Displaced Business Disaster Assistance);

(3) To continue or reestablish its business if SBA determines that the concern has suffered substantial economic injury as a result of the inability of such concern to process or market a product for human consumption because of disease or toxicity occurring in such product through natural or undetermined causes, or because of animal disease (Product Disaster Assistance);

(4) To make additions to or alterations in its plant, facilities, or methods of operations to meet requirements imposed on such concern pursuant to any Federal Law, any State Law enacted in conformity therewith, or any regulation or order of a duly authorized Federal, State, regional, or local agency issued in conformity with such Federal Law, if SBA determines that such concern is likely to suffer substantial economic injury without SBA assistance (Regulatory Economic Injury Assistance);

(5) Which is directly and seriously affected by the significant reduction of Federal support for any project as a result of any international agreement limiting the development of strategic arms or the installation of such arms or facilities. SBA must determine that a small firm is likely to suffer substantial economic injury without SBA assistance. Refinancing of existing indebtedness is authorized under this program. (Strategic Arms Economic Injury Assistance);

(6) To continue business at its existing location, reestablish its business, or to purchase or establish a new business, if SBA determines that the concern has suffered, or will suffer substantial economic injury as a result of the closing by the Federal Government of a major military installation under the jurisdiction of the Department of Defense, or as a result of a severe reduction in the scope and size of operations at a major military installation (Base Closing Assistance);

(7) Which is seriously and adversely affected by a shortage of fuel, electrical energy, or energy-producing resources, or by a shortage of raw or processed materials resulting from such shortages, if SBA determines that such concern has suffered or is likely to suffer substantial economic injury without SBA assistance (Emergency Energy Shortage Assistance);

(8) To make additions to or alterations in the equipment, facilities (including the construction of pretreatment facilities and interceptor sewers), or methods of operation to meet water pollution control requirements established under the Federal Water Pollution Control Act, if SBA determines that the concern is likely to suffer substantial economic injury without SBA assistance (Water Pollution Control Assistance).

(c)(1) "Financial Assistance" as used in this part shall include direct loans made by SBA, immediate participation loans, and guaranteed loans.

(i) In an immediate participation loan either SBA or the financial institution makes the loan and the other party purchases an agreed percentage of the loan. SBA participation shall not exceed 90 percent of the outstanding amount of the loan.

(ii) In guaranteed loans the financial institution makes the entire loan and SBA is obligated to purchase pursuant to its guaranty agreement not more than 90 percent of the outstanding loan and accrued interest in the event the borrower has defaulted. Default as used in this subsection means nonpayment of principal or interest when due, or noncompliance with essential loan conditions.

(iii) SBA has the right at any time to purchase the guaranteed percentage of any guaranteed loan.

(2) "Financial Institutions" as used in this part shall include, but not be limited to, banks and other lending institutions whose regular course of business entails the making and servicing of commercial, industrial and/or other loans of the type authorized to be made by SBA to eligible small business concerns, and who otherwise meet the criteria specified in Part 120 of SBA's rules and regulations.

§ 123.2 Eligibility.

(a) Disaster loans for physical property loss, or for substantial economic injury as a result of major or natural disasters, or inability to process or market a product because of disease or toxicity through natural or undetermined causes, or animal disease.

(1) *General-scope of assistance.* Financial assistance may be extended to rehabilitate or replace property damaged or lost as a result of a disaster concerning which an appropriate SBA notice is published in the FEDERAL REGISTER. Applicants for physical disaster loans include but are not limited to home or property owners, businesses of any size, and nonprofit institutions. Applicants for economic injury type of assistance must be small business concerns as defined in Part 121 of these regulations. Such assistance will be considered on an individual basis in the light of circumstances of the applicant and of the particular disaster, and will be provided as SBA determines it to be necessary or appropriate to relieve the distress and hardships attendant upon the disasters. The age of any adult applicant may not be considered in determining whether a loan should be made or the amount of a loan. In loans made for Physical-Loss Disaster Assistance, Substantial Economic Injury Assistance and Product Disaster Assistance, SBA may authorize loans for the repayment of interim financing used solely to alleviate the disaster-caused injury. Proceeds of these types of disaster loans (physical, economic injury, and product) may also be used for the purpose of providing small business concerns with working capital, the payment of operating expenses, and any purpose for which loans may be made under section 7(a) of the Small Business Act (USC 636(a)), subject to the limitations set forth in this Part 123. Working capital loans are limited to operating expenses and working capital losses resulting from the disaster.

(2) *Limitations on assistance.* (i) Farmers, stockmen, and others primarily engaged in agricultural activities. Farmers, stockmen, and others engaged primarily in agricultural activities are not eligible for SBA disaster loan assistance. No disaster loan funds will be provided to an otherwise eligible applicant which would be used primarily in a farming or other agricultural activity, which is normally eligible for emergency assistance from the Farmers Home Administration of the U.S. Department of Agriculture, except where the disaster area is located beyond the territorial jurisdiction of any other Federal agency otherwise authorized to provide such assistance.

(ii) Religious, eleemosynary, nonprofit, and other organizations. Religious, eleemosynary, and nonprofit organizations are eligible for physical disaster loans.

(3) *Evidence of loss.* Assistance may be extended only to applicants determined by SBA to have suffered substantially the disaster loss (beneficial ownership as well as legal title may be considered in determining who suffered the loss); it will not be extended (i) if the applicant suffers flood loss as a result of action by a Federal agency which causes flooding of an area where the Government has been held harmless under a lease agreement covering a flowage easement, or (ii) where a substantial change of ownership occurred after the disaster. Substantial change of ownership does not include those instances in which a contract of sale had been entered into prior to the disaster and the transaction is completed after the disaster.

(4) *Substantial economic injury assistance*—(i) *Disaster declaration.* An area must be declared to be a major disaster area by the President, a disaster area by the Administrator of SBA, or declared to be a natural disaster area by the Secretary of Agriculture or his designee.

(ii) *Location.* An otherwise eligible small business concern must be located in the disaster area as defined by the disaster declaration made as provided in paragraph (a) (4) (i) of this section.

(5) *Product disaster assistance*—(i) *Disaster declaration.* The Administrator of SBA makes all product disaster declarations.

(ii) *Scope.* An otherwise eligible small business concern is eligible for product disaster assistance to continue or rees-

V40I13 JAN20 75 XUM

tablish its business if SBA determines that the concern has suffered substantial economic injury as a result of the inability of such concern to process or market a product for human consumption because of disease or toxicity occurring in such product through natural or undetermined causes. Such eligibility includes loans to persons who are engaged in the business of raising livestock (including but not limited to cattle, hogs, and poultry), and who suffer substantial economic injury as a result of animal disease.

(b) Displaced business, regulatory, strategic arms, base closing, emergency energy shortage, and water pollution control economic injury loans.

(1) *General—Scope of assistance*—(i) *Limitations on assistance.* Availability of funds from other sources. Personal and/or business assets must be used by the applicant to the greatest extent feasible without causing undue hardship to overcome economic injury. In addition, private credit to the extent obtainable on reasonable rates and terms must be used prior to obtaining economic injury assistance.

(ii) *Farmers, stockmen, and others primarily engaged in agricultural activities.* Farmers, stockmen and others engaged primarily in agricultural activities are subject to the eligibility criteria set forth in § 120.2(d)(9) of these rules and regulations.

(iii) *Types of small business concerns.* Religious, eleemosynary, and nonprofit organizations are not small business concerns. Gambling activities, financing, and those engaged in speculative activities, are not small business concerns for the purpose of economic injury loans. Therefore they are ineligible for disaster assistance except for Physical-Loss Disaster Assistance. Small newspapers, radio and TV stations, and similar enterprises are eligible to apply for economic injury assistance. Pawn shops are eligible to apply if more than 50 percent of income for the previous year resulted from the sale of used merchandise rather than interest on loans. Persons or firms holding realty for lease or rent for the production of income, or all real estate developers, are not small business concerns for economic injury assistance except that such persons or firms are eligible to apply for assistance under the Strategic Arms or Base Closing Economic Injury Assistance Programs. A cooperative association may qualify as a small business concern if each of its members qualify as a small business concern. A consumer cooperative will not qualify as a small business concern.

(iv) *Substantial economic injury.* Assistance may be extended only to applicants determined by SBA to have suffered substantial economic injury. It will not be extended if SBA determines from the circumstances that the applicant assumed the loss or possibility of loss from the disaster. Therefore, applicants shall not be eligible, for example, where their concerns have been acquired or established, or where a substantial change of ownership therein occurred, during or following a period of disaster. See paragraph (a)(2) of this section.

(2) *Special Considerations—Displaced business loans.* At the discretion of SBA, an applicant for a displaced business loan may be considered eligible for assistance to purchase or construct other premises whether or not such applicant owned the premises occupied by the business.

(3) *Special Considerations—Regulatory Economic Injury Assistance.* To qualify for a regulatory economic injury assistance loan, an applicant must be a small concern seeking to comply with standards imposed by Federal, State or other regulatory authorities concerned with such matters as consumer protection or occupational safety and health. In addition, the following special considerations apply to various types of regulatory economic injury assistance loans:

(i) *Coal mine health and safety loans.* To qualify for a coal mine health and safety loan, an applicant must be a small coal mine which is required to meet standards imposed by the Coal Mine Health and Safety Act of 1969. Coal mine services are not eligible for a Coal Mine Health and Safety Loan since they do not come under the jurisdiction of the Bureau of Mines. Based upon its inspection, the Bureau of Mines issues a notice of deficiency or similar notice to the coal mine operator. The notice is the basis upon which the applicant determines the amount and use of proceeds of a Coal Mine Health and Safety Loan necessary to correct the deficiencies cited. A copy of the notice of deficiency from the Bureau of Mines must accompany any formal application for a loan. All applications must be supported by sufficient information so that SBA will be able to determine the economic life of the mine.

(ii) *Consumer protection loans.* To qualify for a Consumer Protection Loan, an applicant must be engaged in meat, poultry, or egg processing, and be seeking to effect additions to or alterations in its equipment, facilities, or methods of operation to meet requirements imposed by the Egg Products Inspection Act, the Wholesome Poultry Products Act, or the Wholesome Meat Act of 1967, or State Laws enacted in conformity therewith, if the Administration determines that such concern is likely to suffer substantial economic injury without such a loan. The amount of the loan is limited to such upgrading as is determined by SBA to be necessary and adequate to meet the requirements of the appropriate law. *Plant inspection.* Based upon its inspection, the appropriate Federal or State authority issues a notice of deficiency or similar notice to the firm. The notice is the basis upon which the applicant determines the amount and use of proceeds of a Consumer Protection Loan necessary to correct the deficiencies cited. A copy of the notice of deficiency from the inspection authority must accompany any formal application for a loan.

(iii) *Occupational Safety and Health Loans.* To qualify for an Occupational Safety and Health Loan, an applicant must be a small concern seeking to comply with standards established under the Occupational Safety and Health Act of 1970. Based upon its inspection the appropriate Federal or State authority issues a notice of deficiency or similar notice to the firm. The notice is the basis upon which the applicant determines the amount and use of proceeds of an Occupational Safety and Health Loan necessary to correct the deficiencies cited. A copy of the notice of deficiency from the inspection authority must accompany any formal application for a loan. Plant operators may, on their own initiative, undertake action to meet OSHA standards. If major construction or remodeling is needed, the report of a licensed professional engineer and/or architect or other qualified professional is required and must be submitted with the loan application.

(iv) *Air Pollution and Other Regulatory Economic Injury Loans.* Compliance with regulations issued pursuant to the Clean Air Act of 1970 creates eligibility for economic injury loans. However, applicants for other types of regulatory economic injury loans will be found eligible only if they seek to comply with laws or regulations made effective after January 2, 1974. Applicants for such loans must furnish a copy of the law or regulation requiring compliance, and such other documentation as SBA may require.

(4) *Special Consideration—Strategic Arms Economic Injury Loans.* An applicant must be a small business concern and may be a small real estate developer, or a person or small firm holding realty for lease or rent for the production of income.

(5) *Special Considerations—Base Closing Loans.* To qualify for a Base Closing Loan, an applicant must be a small business concern or a small real estate developer or person or small firm holding realty for lease or rent for the production of income. In the case of real estate-related activities, such activities must have been the primary source of the owner's income.

(6) *Special Considerations — Emergency Energy Shortage Loans.* To qualify for an Emergency Energy Shortage Loan, an applicant must be a small business concern which (except for Vietnam-Era Veterans) has been operated successfully for 3 years preceding the date of the loan application. Loan funds may be used for working capital, refinancing of debt, or to convert to a different fuel source.

(7) *Special Considerations—Water Pollution Control Loans.* (i) To qualify for a Water Pollution Control Loan, an applicant must be a small concern seeking to comply with standards established under the Federal Water Pollution Control Act. (ii) Statement of Compliance. As a pre-requisite to the filing of a formal loan application, the applicant must provide SBA with a written statement from EPA or, if appropriate, the State, that the additions or alterations involved are necessary and adequate to comply with one or more of such applicable requirements established under the Federal Water Pollution Control Act.

§ 123.3 **Purposes of loans.**

(a) *Physical-loss disaster assistance.* (1) The purpose of these loans is to restore a victim's home or homes (including a mobile home used as a residence of the applicant) or business property as nearly as possible to predisaster condition. A loan to an individual may be used to repair or replace damaged or lost furniture and other household belongings or personal effects, except for irreplaceable or extraordinarily expensive items. Funds may be used to repair or replace destroyed or damaged inventory, machinery, or equipment. If the disaster victim elects to construct a new home or new business facilities on a different site, the loan may be used for such purpose. However, any such loan shall not exceed the estimated cost of restoring or replacing the damaged or destroyed property, plus amounts eligible for refinancing of existing liens or mortgages, and SBA's lien position shall be at least as strong as it would have been if the victim had restored in the original location. SBA shall cancel any loan made in connection with a disaster occurring on or after January 1, 1972, and prior to April 20, 1973, if declared by the President or the SBA Administrator, but in no event shall such cancellation of a loan exceed $5,000 and the cancellation shall not apply to any amount refinanced. Loans made in connection with a disaster occurring on or after April 20, 1973, will not be canceled in any amount.

(2) Refinancing: Only where property suffers damage of 30 percent or more of the market value at the time of the disaster, a part or all of existing liens as they apply to the specific real property lost or damaged may be refinanced by a part of the SBA loan. Such refinancing shall be limited to an amount which is no greater than the disaster-caused damage or loss in business loans, or home loans approved as the result of disaster occurring on and after July 1, 1973. In the case of a home loan, the monthly repayment of principal and interest may not be less than the amount of such payment made prior to the refinancing loan, on any loan approved as the result of a disaster occurring prior to July 1, 1973. Refinancing of personal property is not permitted in disaster home loans. Refinancing is permitted only when the uninsured (or otherwise uncompensated for) damaged property is to be repaired, rehabilitated, or replaced.

(3) Any disaster victim located in a restricted building area (flood-prone, urban renewal, or other area where rebuilding is prevented by action of appropriate authority) that suffers real property damage is presumed to have sustained a total loss and may obtain funds for such purposes as are prescribed in paragraph (a)(1) of this section and such other funds as may be determined necessary by SBA to reestablish the borrower's real property at the new location. In any situation where physical-loss disaster assistance is provided to relocate real property outside of a flood disaster-prone area, no future flood disaster assistance will be provided by SBA for any future physical-loss disaster damage to the property located at the site from which the disaster victim was relocated. SBA shall require the borrower to execute and record in the local office where records of property ownership are recorded a document which shall give notice of this qualification to all subsequent purchasers and encumbrancers of real property located at the disaster site. The recorded notice of disaster disqualification may be canceled (released or terminated) by the recording of a determination issued by SBA that adequate flood control measures have been effected to protect the property from future flood damage.

(b) *Substantial economic injury assistance.* The purpose of these loans is solely to provide relief to small business concerns for substantial economic injury sustained as a result of a major or natural disaster declared by the President or Secretary of Agriculture, or SBA declared physical disaster. Personal and/or business assets must be used by the applicant to the greatest extent feasible, without undue hardship, to alleviate the injury incurred. In addition, private credit to the extent obtainable on reasonable rates and terms must be used prior to obtaining disaster loan assistance from SBA. Loans may be used for working capital and to pay financial obligations which the borrower would have been able to pay had it not been for the loss of revenue resulting from the disaster. Unrealized net profits or a drop in sales not disaster-related may not be considered in arriving at the amount of injury incurred. No funds may be authorized which would provide for the payment of any dividends, distributions, bonuses, or for disbursements to owners, partners, officers, or stockholders not directly related to the performance of services.

(c) *Displaced business assistance.* (1) The purpose of these loans is to assist any small business concern in continuing in business at its existing location, in reestablishing its business, or in purchasing a business, if the Administration determines that such concern has suffered substantial economic injury as the result of its displacement by, or location in, adjacent to, or near, a federally aided urban renewal program or a highway project or any other construction constructed by or with funds provided in whole or in part by the Federal Government.

(2) These loans may be used to provide:

(i) Working capital necessary to carry the concern until resumption of normal operations;

(ii) Replacement costs to owners of realty less net amounts received for indemnification of the realty from which the owners have been displaced;

(iii) Funds for nonowners of the premises from which displaced to purchase or construct premises if no suitable rental property is available;

(iv) Purchase of machinery and equipment necessary to carry on business at the new location less any funds received from disposal of equipment owned at location from which displaced;

(v) Increases in the cost of fixed charges such as rents, insurance, and utility bills for a reasonable period of time;

(vi) Moving expenses not compensated for from some other source where the distance moved is less than 100 miles;

(vii) Purchase of equipment to upgrade the business in a new location where such upgrading is necessary.

(3) Where realty is needed, no loan shall provide funds which would increase the square footage of:

(i) Land space to more than one-half greater than that owned or occupied prior to displacement: *Provided, however,* That additional space to meet the minimum requirement of a local building code such as for parking space may be approved, or where SBA finds that the type of building being constructed necessitates additional land.

(ii) Building space to more than one-third greater than that owned or occupied prior to displacement.

(d) *Product disaster assistance.* The purpose of these loans is to assist small business concerns to reestablish or to continue their business when they have suffered substantial economic injury as the result of inability of such concerns to market or process a product because of disease or toxicity occurring in such products through natural or undetermined causes, or animal disease. Loans may be used to provide working capital to support the business until such time as it is reestablished and to pay financial obligations which the borrower would have been able to pay if it had not been for the loss of revenue resulting from the disaster. Financial assistance may not be used for the replacement of equipment or expansion of facilities except as SBA may determine to be necessary or appropriate for the concern properly to process a product to insure its fitness for human consumption. Unrealized net profits or a drop in sales not disaster-related may not be considered in arriving at the amount of injury incurred. No funds may be authorized which would provide for the payment of any dividends, distributions, bonuses, or for disbursements to owners, partners, officers, or stockholders, not directly related to the performance of services.

(e) *Coal mine health and safety assistance.* The purpose of these loans is to assist small coal mines to effect additions to or alterations in the equipment, facilities or operating methods in order to meet the requirements of the Federal Coal Mine Health and Safety Act of 1969, if SBA determines that such coal mine is likely to suffer substantial economic injury without SBA assistance. Working capital may be provided to:

(1) Replace working capital expanded incidentally for compliance, such as meeting construction time limits;

(2) Furnish funds, when construction is involved and the operations are thereby curtailed, to meet continuing fixed

V40I13 JAN20 75 XUM

costs such as payment on equipment notes or mortgage payments;

(3) Help finance startup costs;

(4) Finance changes in methods of operation required by examining authorities. Approval of these loans is contingent upon receipt by SBA of a notice of deficiency from the Bureau of Mines, and the opinion from the Bureau that upon completion of the additions or alterations proposed in the loan application, the coal mine will be in compliance with the provisions of the Federal Coal Mine Health and Safety Act of 1969.

(f) *Consumer protection assistance.* (1) The purpose of these loans is to assist small business concerns to effect additions to or alterations in the equipment, facilities, or methods of operation of such concern to meet requirements established pursuant to the Egg Products Inspection Act of 1970, the Wholesome Meat Act of 1967, and the Wholesome Poultry Products Act of 1968, if SBA determines that such concern is likely to suffer substantial economic injury without SBA assistance.

(2) Construction funds may be loaned to:

(i) Construct a new building, even in a new location, to replace an old building where remodeling is not feasible; or to replace rented quarters when needed rental arrangements cannot be obtained. Upgrading may not exceed the corresponding criteria in paragraph (c) (3) of this section;

(ii) Comply with inspection authority requirements issued to a new plant already under construction on January 1, 1971, and owned by a concern not previously involved in the activity in which it intends to engage, but falling within the control of any one of the consumer protection acts. Working capital may be provided for the purposes stated in paragraph (e), (1), (ii), (iii), and (iv) of this section. Approval of these loans is contingent upon receipt by SBA of a letter of survey to the plant operator from the U.S. Department of Agriculture or appropriate State authority, and an acceptance of the operator's proposal for correcting the deficiencies covered by the letter, from the agricultural inspection authority.

(g) *Occupational safety and health assistance.* The purpose is to assist small business concerns to adequately and efficiently effect additions to or alterations in the equipment, facilities, or operating methods of such business, in order to comply with the applicable standards issued pursuant to section 6 of the Occupational Safety and Health Act of 1970, or adopted by a State pursuant to a plan approved under section 18 of that Act, if SBA determines that such concern is likely to suffer substantial economic injury without SBA assistance. Construction funds may be loaned for the purposes stated in paragraph (f) (2) (i) and (ii) of this section. Working capital may be provided for the purposes stated in paragraph (e) (1), (ii), (iii), and (iv) of this section. Approval of these loans is contingent upon the receipt by SBA of an approval of the compliance authority of the proposal for either voluntary compliance or corrections of violations of standards established pursuant to the Occupational Safety and Health Act.

(h) *Aid to major sources of employment.* The purpose of loans authorized under section 237 of the Disaster Relief Act of 1970 is to enable an industrial or commercial enterprise, which constituted a major source of employment in an area suffering a major disaster declared by the President, and which is no longer in substantial operation as a result of such disaster, to resume operations in order to assist in restoring the economic viability of the disaster area. A major source of employment as used in this part is defined as:

(1) A concern which employed 10 percent or more of the entire work force of a geographically identifiable community, no larger than a county; or

(2) A concern which employed 10 percent or more of the total work force in an industry within the major disaster area; or

(3) Any business firm within the major disaster area which employed 1,000 or more employees.

(i) *Strategic arms economic injury assistance.* The purpose of these loans is to assist or to refinance the existing indebtedness of any small business concern directly and seriously affected by the significant reduction of the scope or amount of Federal support for any project as a result of any international agreement limiting the development of strategic arms or the installation of strategic arms or strategic arms facilities, if SBA determines that such concern is likely to suffer substantial economic injury without SBA assistance. Loan proceeds may be used for working capital and to pay financial obligations which the applicant would have been able to meet if he had not lost income because of significant reduction of the scope or amount of Federal support for the strategic arms project.

(j) *Emergency Energy Shortage Loans.* The purpose of these loans is to assist small business concerns which have been or are likely to be seriously and adversely affected by a shortage of fuel, electrical energy, energy producing resources, or raw or processed materials. Proceeds of the loans may be used to: (1) meet business obligations which could otherwise have been met; (2) finance changes in methods of operation to convert to an adequate energy supply source; (3) finance changes in other methods of operation which will allow for continued existence of the business; (4) furnish funds to meet continuing fixed costs; (5) refinance short term debt; (6) furnish funds to bring and keep current payments required on long term debt against fixed assets, for a reasonable period of time; (7) provide for working capital; (8) refund loans from other lenders when the terms are too burdensome for the small concern, or when such loans were for short term to meet the emergency situation.

(k) *Base Closing Assistance.* The purpose of base closing loans is to assist small concerns by providing working capital and to pay financial obligations which the concern would have been able to meet if it had not lost income because of the base closing or reduction at the military installation. Proceeds may also be used for relocating the business, starting a new business, or refinancing existing indebtedness.

(l) *Water Pollution Control Assistance.* The purpose is to assist small business concerns to effect additions to or alterations in the equipment, facilities (including the construction of pretreatment facilities and interceptor sewers), or methods of operation to meet water pollution control requirements established under the Federal Water Pollution Control Act, if SBA determines that such concern is likely to suffer substantial economic injury without SBA assistance. Funds may be loaned for the purposes stated in paragraph (e)(i), (ii), and (iv) of this paragraph. Approval of these loans is contingent upon receipt by SBA of a written statement by EPA or, if appropriate, the State, that the additions or alterations involved are necessary and adequate to comply with one or more of such applicable requirements established under the Federal Water Pollution Control Act.

§ 123.4 Where to apply.

A single copy of an application on a form provided by SBA may be filed with the Regional or District Office, or Disaster Branch Office, if one has been established, which is most convenient to the applicant. If a bank is participating two copies of the application should be filed with the bank which will send one copy to SBA.

§ 123.5 Amount of loan and interest rates.

(a) The amount of any disaster loan shall not exceed the actual physical loss or economic injury suffered as a result of a disaster except as may be permitted under § 123.3 (a), (2), (3), (c), (e), (f), (g), (h), (i), (j), (k), and (l).

(1) (i) SBA's share of a direct or immediate participation loan to any small business concern and/or any of its affiliates shall not exceed $500,000 in the aggregate for any one disaster, except in those cases where the Administrator finds substantial hardship.

(ii) Such dollar limitation also applies to loans made to any other entity eligible to receive disaster assistance other than homeowners and householders. Provided, however, the foregoing dollar limitations do not apply to economic injury loans as described under § 123.3 (b), (c), (d), (e), (f), (g), (l), (j), (k), or (l), nor to loans made under § 123.3(h).

(2) SBA's share in a direct or in an immediate participation loan to any homeowner, including all members of the household, shall not exceed $50,000 for repair or replacement of the land or building, and shall not exceed $10,000 to repair or replace household goods and personal items: *Provided, however,* That SBA's share of any such loan or loans to repair or replace a home and household goods for any homeowner shall not exceed $55,000 in the aggregate for any one disaster, excluding eligible refinancing in an amount not to exceed the lesser of the physical damage to the real property or the amount of loan made to repair such property. Persons living in a damaged home who are not dependents of the homeowner may also apply for disaster assistance for personal property loss, up to $10,000. The cancellation feature, up to $5,000, applies to these loans as well as to loans to the homeowner, for disasters occurring between January 1, 1972, and April 20, 1973.

(3) SBA's share of immediate participation loans shall not exceed 90 percent of the loan. In guaranteed loans, the exposure of SBA under the guaranty may not exceed 90 percent of the unpaid principal balance and accrued interest.

(4) A guranteed loan (wherein the entire loan is disbursed by a private lending institution) may be made, in addition to the direct loan, for the total amount of an applicant's physical loss or the economic injury suffered, only if the applicant has utilized funds available from its own resources and the proceeds of insurance or condemnation awards. Such guaranteed disaster loans in conjunction with or exclusive of a direct loan shall not exceed the full amount of such loss or economic injury, except to the extent of allowable refinancing.

(5) Where an applicant's total physical loss or economic injury exceeds the dollar limitations imposed in this paragraph on SBA's share of direct or immediate participation disaster loans, then the balance of such loss may be assisted by a guaranteed loan. SBA's participation in or guaranty of any disaster loan may not exceed 90 percent of the total amount of the loan.

(b) In physical-loss disaster assistance, all direct and indirect costs attributable to restoring, rehabilitating, or replacing property damaged or destroyed by the disaster, including necessary upgrading in order to comply with codes existing and enforceable at the time of the disaster, or the time of the issuance of the building permit, will be considered by SBA in determining the amount of loan. An SBA disaster loan may not include any amount to cover losses which have been compensated for by insurance or other sources, or other relief sources, such as the American Red Cross. Sums paid to a disaster victim subsequent to his filing an application by insurance companies representing the indemnification of loss in whole or in part for which the disaster victim is requesting SBA financial assistance shall be paid by the borrower to the SBA for the reduction of his loan.

(c) Interest rates on disaster loans are as follows:

(1) For disaster relief described under § 123.1(a), (b), (1), and (3), the interest rate shall be as follows: On SBA's share of financial assistance, interest shall be 3 percent per annum for disasters occurring between January 1 and December 31, 1971; at 1 percent per annum for disasters occurring between January 1, 1972, and prior to April 20, 1973, except that loans made in connection with natural disasters declared only by the Secretary of Agriculture and which occurred during this period shall bear an interest rate of 3 percent per annum; and at a rate not to exceed 5 percent per annum on loans made in connection with disasters occurring on or after April 20, 1973. In any loan made under this subsection, except for loans approved as the result of disasters occurring prior to July 1, 1973, deferment may be made in payments of principal or interest, or both, for a period not to exceed 3 years. In participation or guaranteed loans, the interest rate on the participating institution's share shall be at a rate considered as reasonable by SBA at the time of approval.

(2) For Disaster relief as described under § 123.1(b), (2), (4), (5), (6), (7), and (8), interest on SBA's share of financial assistance shall be at a rate determined by SBA in conformity with the statutory formula set forth in the Small Business Act, as amended, except that in no case shall the interest rate charged on loans made under § 123.1(b)(4) be lower than on loans made under § 123.1(a). Interest on the participating institution's share shall be at a rate considered by SBA to be legal and reasonable.

(d) Major sources of employment. In the case of a major disaster declaration by the President, Physical-Loss Disaster Assistance and Substantial Economic Injury Assistance Loans may be made without dollar limitations, to any nonagricultural enterprise which has been a major source of employment and is no longer in substantial operation, to enable such enterprise to resume operations and restore the economy of the area. Loan payments may be deferred for a period of 3 years.

§ 123.6 Collateral.

(a) The Small Business Act, as amended, contains no specific requirements with respect to collateral as security for a disaster loan, nor has SBA established any rigid rule in regard to collateral. However, SBA requires applicants to pledge whatever collateral they can furnish. SBA will give consideration to the moral risk involved and to evidence showing a reasonable prospect that the loan will be repaid.

(b) Evaluation of collateral: In disaster loan cases the same general approach to establishing values will be used as for business loans keeping in mind the emergency and the urgency incident to a disaster loan.

§ 123.7 Federal flood insurance.

Applicants for SBA loans under this Part 123 must purchase Federal flood insurance prior to disbursement of the loan when the following conditions exist:

(a) the property to be constructed or repaired is located in a floodprone area as identified by the Federal Insurance Administration; (b) the property is within a special hazard area on an FIA map; and (c) Federal flood insurance is available to the borrower. If all of these conditions do not exist at the time of disbursement, the borrower must agree to purchase flood insurance at such time during the life of the loan as the insurance becomes available.

§ 123.8 Repayment.

(a) Generally, disaster loans shall be repaid in monthly installments beginning not later than 5 months from the date of the note. For loans made under sections 7(b) (1), (2), and (4) of the Small Business Act, payments of principal or interest, or both, may be deferred during the first 3 years of the term of the loan. The maturity of the loan will be geared to the borrower's ability to repay. Final maturity of the loan shall not exceed 30 years. During a deferment period SBA may, upon request of the participant in the loan, purchase its participation. If necessary to avoid default, SBA may assume the borrower's obligation to the participant for the balance of the deferment period, provided the borrower agrees to reimburse SBA for such payments. In addition, for disasters occurring on or after January 1, 1972, but prior to July 1, 1973, in case of a home loan to an individual who by reason of retirement, disability, or other similar circumstances relies for support on survivor, disability, or retirement benefits under a pension, insurance, or other program, SBA may consent to the suspension of the payments of principal during the lifetime of the individual and his spouse for so long as SBA determines that making such payments would constitute a substantial hardship.

(b) Displaced business loans may have other repayment terms if circumstances indicate the need, including (1) a moratorium on principal payment (not interest) not exceeding the 12 months which immediately follow disbursement; (2) small amortization payments during the first few years, increasing in later years; or (3) any other reasonable terms to fit the applicant's individual circumstances.

(c) Except as described elsewhere in paragraphs (a) and (b) of this section, and in the case of borrowers whose income is received on an annual or seasonal basis, all loans shall be repaid in equal monthly installments which will include principal and interest.

§ 123.9 Step-by-step procedure for disaster loan applicant.

(a) An applicant for physical-loss disaster assistance shall:

(1) Make a list of his damaged, destroyed, or lost property showing in as much detail as possible the extent of damage or loss, and, if possible, original cost of the property, desired to be repaired or replaced recognizing that the burden of proof of loss is on the applicant;

(2) When deemed appropriate by SBA, obtain from a reliable contractor, supplier, or repairman, as appropriate, a signed estimate (in duplicate) of the cost of repairing damaged property or of replacing property which has been lost or

V 40 13 JAN 20 75 XUM

damaged beyond repair, for which funds are requested;

(3) Make an overall estimate of his losses;

(4) Prepare a list of both his debts and assets and a financial statement;

(5) If the proposed loan is to rehabilitate his business, prepare a record of his business earnings and expenditures for the 3 years preceding and make a profit and loss statement;

(6) Obtain a disaster loan application form from a local bank or the nearest SBA office;

(7) Furnish the "Applicant's Agreement of Compliance," SBA Form 601 (see § 122.1(f) of this chapter) if such loan results in the alteration, rehabilitation, construction, coversion, extension, or repair of buildings, or other improvements to real estate, where the contract exceeds $10,000.

(8) Submit such other information as SBA may require in order to verify or support the information on hand to permit an application to be properly evaluated and acted upon, including the names and addresses of any persons having an interest in the lost or damaged property, and the names and addresses of any persons who sustained a separate loss at the applicant's location and who may file a separate application.

(9) Submit the above information to the nearest SBA disaster or other field office, preferably in person, within the time limit established for the filing of applications. SBA will accept applications after such time limit only when SBA determines that an extreme hardship existed and the late filing was the result of causes substantially beyond the control of the applicant.

(b) An applicant for Substantial Economic Injury or Product Disaster Assistance shall:

(1) Furnish a statement of the extent to which his business has been injured by the disaster conditions;

(2) For purposes of comparison, furnish financial and operating conditions covering the current period and a 12 month period of normal operations prior to the disaster;

(3) List any accounts and notes receivable which are delinquent due to the disaster conditions;

(4) Explain fully the reasons for any abnormally large and burdensome inventories;

(5) List all payables which are delinquent due to the disaster as well as current accruals;

(6) Point out any adopted or planned economies in operation designed to reduce costs of doing a lessened volume of business.

(c) An applicant for Displaced Business Disaster Assistance shall:

(1) Furnish financial and operating statements for the current years to date and for the past 3 fiscal or calendar years;

(2) Furnish figures on actual or contemplated reduction or loss of income and profits and estimate of period of time income and profits will be reduced;

(3) List all payables which are delinquent;

(4) List any additional or replacement equipment that will be required reasonably to upgrade operations in new location, with allowances for any other recoveries from disposal or trade-in of existing equipment;

(5) Advise if additional inventories will be required or if different grades of items must be carried to meet demands of new location and effect on working capital position;

(6) Furnish projection of sales, normal percentage of profits, and fixed expense, for a period of approximately 2 years following relocation in order to establish reasonable ability to repay loan;

(7) Make a list of collateral to be offered as security for repayment of the loan, showing in detail any existing obligations or liens against such collateral;

(8) Furnish the "Applicant's Agreement of Compliance," SBA Form 601 if such loan results in the alteration, rehabilitation, construction, conversion, extension, or repair of buildings or other improvements to real property, where the contract exceeds $10,000;

(d) An applicant for Coal Mine Health and Safety Assistance shall follow the procedures in paragraph (b) of this section, and in addition shall furnish a notice of deficiency from the Bureau of Mines.

(e) An applicant for Consumer Protection Assistance shall follow the procedures in paragraph (b) of the section, and in addition shall furnish a letter of survey from the U.S. Department of Agriculture or appropriate State authority.

(f) An applicant for Occupational Safety and Health Assistance shall follow the procedures in paragraph (b) of this section, and in addition shall furnish an approval of the compliance authority of the proposal for either voluntary compliance or corrections of violations of standards established pursuant to the Occupational Safety and Health Act.

(g) An applicant for Strategic Arms Economic Injury Assistance shall follow the procedures in paragraph (b) of this section, and in applicable cases explain fully the need for any refinancing of debt owed by the applicant.

(h) An applicant for Emergency Energy Shortage Assistance shall follow the procedures in paragraph (b) of this section, and in applicable cases explain fully the need for any refinancing of debt owed by the applicant.

(i) An applicant for Base Closing Assistance shall follow the procedures in paragraph (b) of this section.

(j) An applicant for Water Pollution Control Assistance shall follow the procedures in paragraph (b) of this section, and in addition shall furnish a written statement issued by the Environmental Protection Agency (or if appropriate the State) certifying that the additions, alterations, or methods of operation are necessary and adequate to comply with pollution control requirements established under the Federal Water Pollution Control Act.

(k) Any entity other than a homeowner applying for SBA disaster assistance must agree not to discriminate on the basis of race, color, sex, or national origin, including but not limited to employment practices. See Parts 112 and 113 of these rules and regulations.

§ 123.10 Cooperation with American Red Cross.

In its physical-loss program of assistance to disaster victims, SBA maintains close coordination with the American Red Cross. In many cases, rehabilitation assistance is given jointly by the Red Cross and SBA with part of the applicant's losses being covered by a grant from the Red Cross and part by a loan through SBA.

§ 123.11 State grants.

Under Pub. L. 93-288 States may authorize grants up to $5,000 to certain disaster victims in Presidentially declared disasters. Disaster victims (a) who sustain only personal property damage and (b) who are unemployed and whose principal source of income (over 50 percent), is derived solely from welfare payments, or social security payments, are presumed to lack ability to repay an SBA loan. Such persons are therefore deemed to be ineligible for SBA loan assistance. Such persons shall be immediately referred to state representatives who are charged with the duty of processing state grants. However, those disaster victims who desire to do so may file a formal application with the SBA in order to obtain a formal decision concerning their eligibility or ineligibility for financial assistance from the SBA. Disaster victims who meet the income criteria above and who have real estate damage should apply for SBA disaster assistance. When repayment ability is totally lacking or very marginal, the application must be declined.

§ 123.12 Obtaining loan funds.

(a) Once a disaster loan has been approved by SBA, the disaster victim may obtain the loan funds upon compliance with conditions of SBA's loan authorization.

(b) If the approved loan is an immediate participation or guaranteed loan, the bank will notify the disaster victim of the loan approval, terms and conditions, and arrange with him for actual closing of the loan.

(c) If the loan is a direct loan, the disaster victim will be notified by SBA of the loan approval, terms and conditions.

§ 123.13 Administration of loans.

Participation and guaranteed loans closed by the bank will be administered by the bank, and participation or direct loans closed by SBA will be administered by SBA.

§ 123.14 Fees and charges.

(a) *Service fees.* No service fees shall be charged by participating institutions for loans described in § 123.1 (a), (b), (1), and (3). For loans described in § 123.1 (b), (2), (4), (5), (6), (7), and (8), a service fee is permitted for those financial institutions servicing immediate participation loans, or deferred participation loans where SBA has purchased its portion, on loans approved on or after July 1, 1969. The participating institution may deduct, only out of interest collected for the account of SBA, a service fee of three-eighths of 1 percent per annum where the SBA's share is 75 percent or less or of one-fourth of 1 percent where SBA's share is more than 75 percent. Such fees are permitted only so long as the participating institution is servicing the loan. This fee shall not be added to any amount which borrower is obligated to pay under the loan. Participating institution shall not make a service charge to borrower for handling construction loans or accounts receivable and inventory collateral.

(b) *Guaranty charge.* A guaranty fee will be charged to the lender with respect to all guaranteed disaster loans as is set forth for business loans in § 120.3(b), except that no fee will be charged in those cases where the lender elects to charge an interest rate of 5½ percent or less on the loan.

(c) *Closing fee.* No closing fee will be charged with respect to closing of any disaster loan authorized in this part.

§ 123.15 Extension of loans, including RFC loans.

Actions taken by SBA pursuant to the authority of section 7(c)(1) of the Small Business Act, as amended, are limited to such periods of time as appear necessary to avoid the forced liquidation of loans. Generally, a sequence of short extensions will be granted rather than one lengthy one. Extensions are only granted under this section when it appears that no other course of action will result in a greater and earlier recovery of the indebtedness. No such extension may be made on any loan having a maturity in excess of 20 years.

§ 123.16 Restriction against loans to certain felons.

No person who has been convicted of committing a felony during and in connection with a riot or civil disorder shall be permitted, for a period of 1 year after the date of his conviction, to receive any benefit under any law of the United States providing relief for disaster victims.

§ 123.17 Certification of use of loan proceeds.

Recipients of SBA disaster loans described in § 123.1(a), (b), (1), and (3) are required to file a certification, and evidence in support of such certification, that the loan proceeds have been properly used. Any loan recipient who wrongfully misapplies such loan proceeds shall be civilly liable to the SBA Administrator in an amount equal to one and one-half times the original principal amount of the loan.

§ 123.18 Compliance with consumer protection laws.

Any recipient of an approved disaster loan for any noncommercial purpose and for which security is required shall be entitled to rescind said loan pursuant to the Consumer Credit Protection Act, Public Law 90-321, and Regulation Z of the Federal Reserve Board, 12 CFR Part 226.

(Catalog of Federal Domestic Assistance Program Nos. 59.001, 59.002, 59.008, 59.010, 59.014, 59.017, 59.018, 59.020, 59.022, 59.023, and 59.024)

Dated January 15, 1975.

THOMAS S. KLEPPE,
Administrator.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airspace Docket No. 74-WE-20]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On December 6, 1974 a notice of proposed rule making was published in the FEDERAL REGISTER (39 FR 42696) stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of the Santa Ynez, California Transition Area.

Interested persons were given 30 days in which to submit written comments, suggestions or objections. No objections have been received and the proposed amendment is hereby adopted without change.

Effective date. This amendment shall be effective 0901 G.m.t., March 27, 1975.

(Sec. 307(a), Federal Aviation Act of 1958, as amended, (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c))

Issued in Los Angeles, California, on January 10, 1975.

LYNN L. HINK,
Acting Director,
Western Region.

In § 71.181 (40 FR 441) the description of the Santa Ynez, Calif. Transition area is amended to read as follows:

SANTA YNEZ, CALIF.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of Santa Ynez Airport (latitude 34°36'25" N., longitude 120°04'30" W.), within 5 miles each side of the Santa Barbara VORTAC 291° radial extending from the 5-mile radius area to 35 miles west of the VORTAC and within 1.5 miles each side of the Gaviota VORTAC 009° and 178° radials from the five mile radius area to 1 mile south of the VORTAC.

[FR Doc.75-1692 Filed 1-17-75;8:45 am]

[Airspace Docket No. 75-SO-1]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Anniston, Ala., control zone.

The Anniston control zone is described in § 71.171 (40 FR 354). In the description, an extension is predicated on the Talladega VOR 085° radial. Since the VOR A Instrument Approach Procedure to Anniston-Calhoun County Airport has been cancelled, this extension is no longer required. It is necessary to amend the description to delete this extension. Since this amendment is less restrictive in nature, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective immediately, as hereinafter set forth.

In § 71.171 (40 FR 354), the Anniston, Ala., control zone is amended as follows: "within 1.5 miles each side of Talladega VOR 085° radial, extending from the 5-mile radius zone to the VOR;" is deleted from the description.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in East Point, Ga., on January 9, 1975.

PHILLIP M. SWATEK,
Director, Southern Region.

Title 24—Housing and Urban Development

CHAPTER III—GOVERNMENT NATIONAL MORTGAGE ASSOCIATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER A—INTRODUCTION

[Docket No. R-74-210]

PART 300—GENERAL

List of Attorneys-in-Fact

Correction

In FR Doc. 74-23780 appearing at page 36583 in the issue of Friday, October 11, 1974, in the list of attorneys-in-fact in § 300.11(c) the name now reading "Jose Sotor, Jr." should read "Jose Soto, Jr."

Title 28—Judicial Administration

CHAPTER I—DEPARTMENT OF JUSTICE

PART 4a—PROCEDURES GOVERNING APPLICATIONS FOR CERTIFICATES OF EXEMPTION UNDER THE EMPLOYEE RETIREMENT INCOME SECURITY ACT OF 1974

Emergency Regulations

Section 411(a) of the Employee Retirement Income Security Act of 1974 prohibits any person convicted of any of certain specified crimes from serving or

V40I13 JAN20 75 XUM

being permitted to serve as an administrator, fiduciary, officer, trustee, custodian, counsel, agent, or employee of any employee benefit plan or as a consultant to any employee benefit plan for a period of five years after his conviction or the end of his imprisonment for such offense, unless he is granted a certificate of exemption by the Board of Parole. Emergency regulations are hereby adopted to establish procedures for processing applications for such certificates of exemption. Because of the need for emergency operating regulations to process cases of persons presently barred from employment by the Act, the Board finds under 5 U.S.C. 553(b)(3)(B) that notice and public procedure are impracticable for these regulations.

This Part 4a shall become effective on January 20, 1975.

Sec.

4a.1 Definitions.
4a.2 Who may apply for Certificate of Exemption.
4a.3 Contents of application.
4a.4 Supporting affidavits; additional information.
4a.5 Character endorsements.
4a.6 Institution of proceedings.
4a.7 Notice of hearing.
4a.8 Hearing.
4a.9 Representation.
4a.10 Waiver of oral hearing.
4a.11 Appearance; testimony; cross-examination.

4a.13 Record for decision.
4a.14 Examiner's recommended decision; exceptions thereto; oral argument before Board.
4a.15 Certificate of Exemption.
4a.16 Rejection of application.

AUTHORITY: Sec. 411 of the Employee Retirement Income Act of 1974, Pub. L. 93-406, and the Administrative Procedure Act, 5 U.S.C. 551-559.

CROSS REFERENCE: For Organization Statement, Board of Parole, see Subpart V of Part O of this chapter.

§ 4a.1 Definitions.

As used in this part:

(a) "Act" means the Employee Retirement Income Security Act of 1974 (Pub. L. 93-406).

(b) "Board" means the United States Board of Parole.

(c) "Secretary" means the Secretary of Labor or his designee.

(d) "Employer" means the employee benefit plan with which an applicant under § 4a.2 desires to serve in a capacity for which he is ineligible under section 411(a) of the Act.

(e) All other terms used in this part shall have the same meaning as identical or comparable terms when those terms are used in the Employee Retirement Security Act of 1974 (Pub. L. 93-406).

§ 4a.2 Who may apply for certificate of exemption.

Any person who has been convicted of any of the crimes enumerated in section 411(a) of the Act whose service, present or prospective, as described in that section is or would be prohibited by that section because of such a conviction or a prison term resulting therefrom may apply to the Board for a Certificate of Exemption from such a prohibition.

§ 4a.3 Contents of application.

A person applying for a Certificate of Exemption shall file with the Office of General Counsel, U.S. Board of Parole, 320 First Street, NW., Washington, D.C. 20537, a signed application under oath, in 10 copies, which shall set forth clearly and completely the following information:

(a) The name and address of the applicant and any other names used by the applicant and dates of such use.

(b) A statement of all convictions and imprisonments which prohibit the applicant's service under the provisions of section 411(a) of the Act.

(c) Whether any citizenship rights were revoked as a result of conviction or imprisonment and if so the name of the court and date of judgment thereof and the extent to which such rights have been restored.

(d) The name and location of the employer and a description of the office or paid position, including the duties thereof, for which a Certificate of Exemption is sought.

(e) A full explanation of the reasons or grounds relied upon to establish that the applicant's service in the office or employment for which a Certificate of Exemption is sought would not be contrary to the purposes of the Act.

(f) A statement that the applicant does not, for the purpose of the proceeding, contest the validity of any conviction.

§ 4a.4 Supporting affidavit; additional information.

(a) Each application filed with the Board must be accompanied by a signed affidavit, in 10 copies, setting forth the following concerning the personal history of the applicant:

(1) Place and date of birth: If the applicant was not born in the United States, the time of first entry and port of entry, whether he is a citizen of the United States, and if naturalized, when, where and how he became naturalized and the number of his Certificate of Naturalization.

(2) Extent of education, including names of schools attended.

(3) History of marital and family status, including a statement as to whether any relatives by blood or marriage are currently serving in any capacity with any employee benefit plan or with any labor organization, group or association of employers dealing with labor organizations or industrial labor relations group, or currently advising or representing any employer with respect to employee organizing concerted activities, or collective bargaining activities.

(4) Present employment, including office or offices held, with a description of the duties thereof.

(5) History of employment, including military service, in chronological order.

(6) Licenses held, at the present time or at any time in the past five years, to possess or carry firearms.

(7) Veterans' Administration claim number and regional office handling claim, if any.

(8) A listing (not including traffic offenses for which a fine of not more than $25 was imposed or collateral of not more than $25 was forfeited) by date and place of all arrests, convictions for felonies, misdemeanors, or offenses and all imprisonment or jail terms resulting therefrom, together with a statement of the circumstances of each violation which led to arrest or conviction.

(9) Whether applicant was ever on probation or parole, and if so the names of the courts by which convicted and the dates of conviction.

(10) Names and locations of all employee benefit plans and all labor organizations or employer groups with which the applicant has ever been associated or employed and all employers or employee benefit plans which he has advised or represented concerning employee organizing concerted activities, or collective bargaining activities, together with a description of the duties performed in each such employment or association.

(11) A statement of applicant's net worth, including all assets held by him or in the names of others for him, the amount of each liability owed by him or by him together with any other person, and the amount and source of all income during the immediately preceding five years.

(12) Any other information which the applicant feels will assist the Board in making its determination.

(b) The Board may require of the applicant such additional information as it deems appropriate for the proper consideration and disposition of his application.

§ 4a.5 Character endorsements.

Each application filed with the Board must be accompanied by letters or other forms of statement (in three copies) from six persons attesting to the character and reputation of the applicant. Such persons shall not include relatives by blood or marriage, prospective employers, or persons serving in any official capacity with any employee benefit plan, labor organization, group or association of employers dealing with labor organizations or industrial labor relations group.

§ 4a.6 Institution of proceedings.

All applications and supporting documents received by the Board shall be reviewed for completeness by the Office of General Counsel of the Board and if complete and fully in compliance with the regulations of this part the Office of General Counsel shall accept them for filing.

§ 4a.7 Notice of hearing.

Upon the filing of an application, the Board shall:

(a) Set the application for hearing on a date within a reasonable time after its filing and notify by certified mail the applicant of such date;

(b) Give notice, as required by section 411(a) of the Act, to the appropriate State, County, or Federal prosecuting officials in the jurisdiction or jurisdictions in which the applicant was convicted that an application for a Certificate of Exemption has been filed and the date for hearing thereon; and

(c) Notify the Secretary that an application has been filed and the date for hearing thereon and furnish him a copy of the application and a copy of the supporting affidavit.

§ 4a.8 Hearing.

The hearing on the application shall be held at the offices of the Board in Washington, D.C., or elsewhere as the Board may direct. The hearing shall be held before the Board, before one or more members of the Board, or before one or more examiners appointed as provided by section 11 of the Administrative Procedure Act (5 U.S.C. 3105) as the Board by order shall determine. Hearings shall be conducted in accordance with sections 7 and 8 of the Administrative Procedure Act (5 U.S.C. 556, 557).

§ 4a.9 Representation.

The applicant may be represented before the Board by any person who is a member in good standing of the bar of the Supreme Court of the United States or of the highest court of any State or territory of the United States, or the District of Columbia, and who is not under any order of any court suspending, enjoining, restraining, or disbarring him from, or otherwise restricting him in, the practice of law. Whenever a person acting in a representative capacity appears in person or signs a paper in practice before the Board, his personal appearance or signature shall constitute a representation to the Board that under the provisions of this part and applicable law he is authorized and qualified to represent the particular person in whose behalf he acts. Further proof of a person's authority to act in a representative capacity may be required. When any applicant is represented by an attorney at law, any notice or other written communication required or permitted to be given to or by such applicant shall be given to or by such attorney. If an applicant is represented by more than one attorney, service by or upon any one of such attorneys shall be sufficient.

§ 4a.10 Waiver of oral hearing.

The Board, upon receipt of a statement from the Secretary that he does not object, and in the absence of any request for oral hearing from the others to whom notice has been sent pursuant to § 4a.7 may grant an application without receiving oral testimony with respect to it.

§ 4a.11 Appearance; testimony; cross-examination.

(a) The applicant shall appear and, except as otherwise provided in § 4a.10 shall testify at the hearing and may cross-examine witnesses.

(b) The Secretary and others to whom notice has been sent pursuant to § 4a.7 shall be afforded an opportunity to appear and present evidence and cross-examine witnesses, at any hearing.

(c) In the discretion of the Board or presiding officer, other witnesses may testify at the hearing.

§ 4a.12 Evidence which may be excluded.

The Board or officer presiding at the hearing may exclude irrelevant, immaterial, or unduly repetitious evidence.

§ 4a.13 Record for decision.

The application, the supporting affidavit and the transcript of the testimony and oral argument at the hearing, together with any exhibits received, shall be made parts of the record for decision.

§ 4a.14 Examiner's recommended decision; exceptions thereto; oral argument before Board.

Whenever the hearing is conducted by an examiner, at the conclusion of the hearing he shall submit a recommended decision to the Board, which shall include a statement of findings and conclusions, as well as the reasons therefor. The applicant and the Secretary may file with the Board, within 10 days after having been furnished a copy of the recommended decision, exceptions thereto and reasons in support thereof. The Board may order the taking of additional evidence and may request the applicant and others to appear before it. The Board may invite oral argument before it on such questions as it desires.

§ 4a.15 Certificate of exemption.

The applicant and the Secretary shall be served a copy of the Board's decision and order with respect to each application. Whenever the Board's decision is that the application be granted, the Board shall issue a Certificate of Exemption to the applicant. The Certificate of Exemption shall extend only to the stated employment with the prospective employer named in the application.

§ 4a.16 Rejection of application.

No application for a Certificate of Exemption shall be accepted from any person whose application for a Certificate of Exemption has been denied by the Board within the preceding twelve months.

Dated: January 15, 1975.

MAURICE H. SIGLER,
Chairman,
U.S. Board of Parole.

[FR Doc.75-1783 Filed 1-17-75;8:45 am]

Title 29—Labor

CHAPTER XIV—EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

PART 1601—PROCEDURAL REGULATIONS

Deferral of Employment Discrimination Charges

By virtue of the authority vested in it by section 713(a) of Title VII of the Civil Rights Act of 1964, as amended, 42 U.S.C. 2000e-12(a), 78 Stat. 265, the Equal Employment Opportunity Commission (hereinafter referred to as the Commission) hereby amends Title 29, Chapter XIV, Part 1601 of the Code of Federal Regulations.

The amendments set forth changes necessary to implement section 706 of the Act which requires the deferral of charges of alleged unlawful employment practices to appropriate State and local authorities (706(c)) and the according by the Commission of "substantial weight" to final findings and orders made by State and local authorities (706(b)). The amendments necessitated conforming changes in the procedures for withdrawal of designation of "706 Agencies", and provide for withdrawal of designation only upon the motion of the Commission. This does not prevent an individual or an organization from requesting the Commission to initiate withdrawal procedures.

Prior to these revisions, § 1601.12 (c) and (d) provided for three (3) categories of State and local Fair Employment Practice (FEP) Agencies which included "706 Agencies", "provisional 706 Agencies"[1] and "provisional notice agencies". The present revisions provide for two (2) categories of State and local FEP Agencies, "706 Agencies" and "notice agencies"; and also provide that a State or local agency may be granted "706 Agency" status for certain bases of discrimination and not for others.

Before a State and local authority can be designated a "706 Agency," it must comply with the procedures outlined and meet the criteria established by the Commission and enunciated in § 1601.12(f). The Commission defers charges to "706 Agencies" (1601.12(c)) and accords "substantial weight" to their final findings and orders. Those State or local agencies which have not as yet been designated as "706 Agencies" are categorized by the Commission as "Notice Agencies" § 1601.12(e). The Commission, in the case of "Notice Agencies," merely notifies said agencies of the receipt of charges filed within their jurisdiction. Agencies may be added as "Notice Agencies" by public notice issued by the Commission.

[1] However, pursuant to notice published in the FEDERAL REGISTER on December 31, 1974, Vol. 39, No. 252, Page 45235, the Commission extended to March 1, 1975 the "Provisional 706 Agency" status of those State and local agencies which had been previously so designated.

V4013 JAN20 75 XUM

These amendments to the Commission's procedural regulations shall become effective on January 20, 1975.

Section 1601.12 is revised to read as follows:

§ 1601.12 Deferrals to State and local authorities.

(a) In order to give full weight to the policy of section 706(c) of the Act, which affords State and local fair employment practice agencies that come within the provisions of that section an opportunity to remedy alleged discrimination concurrently regulated by Title VII and State or local law, the Commission adopts the following procedures with respect to allegations of discrimination filed with the Commission where there is no evidence that such allegations were earlier presented to an appropriate 706 Agency. It is the intent of the Commission to thereby encourage the maximum degree of effectiveness in the State and local agencies. The Commission shall endeavor to maintain close communication with the State and local agencies with respect to all matters forwarded to such agencies and shall provide such assistance to State and local agencies as is permitted by law and as is practicable. It is the experience of the Commission that because of the present procedures, persons who seek the aid of the Commission are often confused and even risk loss of the protection of the Act. Accordingly, it is the intent of the Commission to simplify filing procedures for parties in deferral States and localities and thereby avoid the accidental forfeiture of important Federal rights.

(b) The following procedures shall be followed with respect to cases arising in the jurisdiction of "706 Agencies" to which the Commission defers as further defined in paragraph (c) of this section.

(1) Any document, whether or not verified, received by the Commission as provided in § 1601.7, which may constitute a charge cognizable under Title VII, shall be deferred to the appropriate 706 Agency, as further defined in paragraph (c) of this section, as provided in the procedures set forth below:

(i) All such documents shall be dated and time stamped upon receipt.

(ii) A copy of the original document shall be transmitted by registered mail, return requested, to the appropriate State or local agency, or, where the State or local agency has consented thereto, by certified mail, by regular mail or by hand delivery.

(iii) The aggrieved party and any person filing a charge on behalf of an aggrieved party shall be notified, in writing, that the document which he or she sent to the Commission has been forwarded to the State or local agency pursuant to the provisions of section 706(c), and that unless the Commission is notified to the contrary, on the termination of State or local proceedings, or after 60 (or, where appropriate, 120) days have passed, whichever occurs first, the Commission will consider the charge to be filed with the Commission and commence processing the case. Where the State or local agency terminates its proceedings within sixty (60) (or, where appropriate, 120) days without notification to the Commission of such action the Commission will consider the charge to be filed with the Commission on the date the person making the charge was notified of the termination.

(iv) The 60-day (or, where appropriate, 120-day) period shall be deemed to have commenced at the time such document is mailed or delivered to the State or local authority. Upon notification of the termination of State or local proceedings or the expiration of 60 (or 120) days, whichever occurs first, the Commission will consider the charge to be filed with the Commission and will commence processing the case.

(v) In cases where the document is submitted to the Commission within 180 days from the date of the alleged violation but beyond the period of limitation of the particular 706 Agency, the Commission shall assume jurisdiction over the charge upon its receipt. In such cases only notice of the filing of the charge shall be given the State or local agency involved.

(A) In cases where the document is submitted to the Commission more than 180 days from the date of the alleged violation but within the period of limitation of the particular 706 Agency, the case shall be deferred pursuant to the procedures set forth above: *Provided, however,* That unless the Commission is earlier notified of the termination of the State or local proceedings, the Commission will consider the charge to be filed with the Commission on the 300th day following the alleged discrimination and will commence processing the case. Where the State or local agency terminates its proceedings prior to the 300th day following the alleged act of discrimination, without notification to the Commission of such termination, the Commission will consider the charge to be filed with the Commission on the date the person making the charge was notified of the termination.

(vi) In any case where the State or local agency has not formally notified the Commission of the termination of the State or local proceedings, the Commission shall serve the notice required by 1601.13 within 10 days from the date it becomes aware of the termination of such proceedings.

(c) 706 Agency Defined: For the purposes of this section and § 1601.10, the term "706 Agency" shall refer to an agency to which a charge is deferred. A State or local agency may be granted 706 Agency status for certain bases of discrimination and not for others. A charge shall be deferred where a State or a political subdivision of a State has a State or local law prohibiting the unlawful employment practice alleged, and said State or local law authorizes a State or local agency to grant or seek relief from the unlawful employment practice alleged or to institute criminal proceedings with respect thereto, and such State or local agency has been established and, at the time the charge is submitted to the Commission, is operational and processing charges filed under the State or local law.

(d) Notwithstanding that a charge is required to be deferred pursuant to this section or that the deferral period has not expired, the Commission may commence judicial action for immediate, temporary or preliminary relief pursuant to section 706(f)(2) of the Act.

(e) Deferral is not required where there is an Agency which does not satisfy the requirements of paragraph (c) of this section. Where the Commission determines that a State or local agency does not come within the definition of a 706 Agency for purposes of a particular basis of discrimination, it shall so notify the State or local agency in writing and give reasons therefore. The Commission shall, however, notify a State or local agency of the filing of charges for which the State or local agency is not a 706 Agency; for such purposes the State or local agency will be deemed a "Notice Agency".

(f) Because of the large number of State and local fair employment practice agencies, only those agencies which notify the Commission of their qualifications under subsection (c) of this section and request designation as "706 Agencies" or "Notice Agencies" or both will be eligible for such designation. Such notification must be submitted by written request to the Commission's Regional Director in whose region the State or local agency is located. The request shall include the following materials and information:

(1) A copy of the agency's fair employment practices law and any rules, regulations and guidelines of general interpretation issued pursuant thereto.

(2) A chart of the organization of the agency responsible for administering and enforcing said law.

(3) The amount of funds made available to or allocated by the agency for fair employment purposes.

(4) The identity and telephone number of the agency attorney whom the Commission may contact in reference to any legal questions that may arise in the process of its review of the agency's application.

(5) A statement certifying the following:

(i) That the State or political subdivision has a fair employment practice law;

(ii) That such law authorizes the applicant agency or authority to grant or seek relief from employment practices found to be illegal under such law or that it authorizes the agency to institute criminal proceedings;

(iii) That such agency or authority has been established and is operational and processing charges filed under such law.

(g) Where both State and local 706 Agencies exist, the Commission reserves the right to defer to the State 706 Agency only. However, if the Commission determines that it would best serve the purposes of the Act, it may defer to either or both State and local 706 Agencies.

(h) The continued designation of a 706 Agency for certain bases of discrimination will be dependent upon the 706 Agency's continuing operation and ability to grant or seek relief or to institute criminal proceedings with respect to those bases of discrimination.

(i) Commission Determinations: The Commission, after examining the materials and application required in paragraph (f) of this section and after applying criteria outlined in paragraph (c) of this section, shall make a determination.

(1) If the Commission determines that an agency shall be designated as a 706 Agency, it shall notify the agency that it proposes to issue such designation. Such proposed designation shall be published in the FEDERAL REGISTER and shall provide any person or organization not less than 15 days in which to file written comments with the Commission. If after evaluating any comments so received, the Commission is still of the opinion that issuance of the proposed designation as published in the FEDERAL REGISTER is appropriate, it shall effect such designation by issuance and publication of an amendment to paragraph (m) of this section. Thereafter, the procedure in paragraph (b) of this section and § 1601.10 shall be followed for charges in the jurisdiction of the 706 Agency.

(2) If the Commission determines that any agency shall not be designated as a 706 Agency, it shall notify the applicant agency of its decision and such notice shall provide the reason(s) why it purposes not to designate the agency and shall grant it not less than 15 days to request a conference concerning the matter in accordance with paragraph (1) of this section.

(j) Performance Standards: The continued designation of a 706 Agency will be dependent upon the 706 Agency's willingness and ability to administer its law in such a manner that, in fact, the practices prohibited are comparable in scope to those practices prohibited under Federal law and satisfy the performance standards set forth below:

(1) In all cases where the 706 Agency finds cause to credit the allegations of a charge, it shall effectively eliminate the discrimination and, where State or local law allows, provide for full compensatory and prospective relief consistent with applicable Federal law.

(2) In all cases where the 706 Agency enters into a conciliation agreement, consent order, or order after public hearing, it shall include in any such agreement or order mechanisms for monitoring compliance with the terms thereof and mechanisms for enforcing compliance in the event any terms thereof are not implemented.

(k) The Commission may upon its own motion, or upon the motion of a Regional Director of the Commission, withdraw the designation as a 706 Agency previously issued to any agency based upon: (1) Reconsideration of the request and materials and the information referenced in paragraph (f) of this section; or, (2) consideration of the agency's performance as set forth in paragraph (j) of this section. Whenever the Commission has reason to believe that such designation as a 706 Agency no longer serves the interest of effective enforcement of Title VII, it may, after following the procedures below, including the opportunity for a conference provided for in paragraph (l) of this section, withdraw such designation. Before taking such action it shall notify the 706 Agency of its proposed withdrawal of such designation. Such notification shall set forth the reasons for the proposed withdrawal and provide the agency not less than 15 days to submit data, views, and arguments in opposition and to request a conference in accordance with paragraph (l) of this section. Such proposed withdrawal of designation shall also be published in the FEDERAL REGISTER and shall provide any persons or organizations who take an interest at least 15 days in which to file written comments on the proposal with the Commission and to request a conference. If a request for a conference in accordance with paragraph (l) of this section is not received within the time period provided, the Commission shall evaluate any arguments or comments it has received from the agency and from any persons and organizations who take an interest. If, after such evaluation, the Commission still is of the opinion that designation should be withdrawn because it has determined that such designation no longer serves the interest of effective enforcement of Title VII, the Commission shall so notify the Agency. The withdrawal shall be effected by the issuance and publication of an amendment to Paragraph (m) of this section.

(l) In order to provide a State or local agency full opportunity to present its views whenever, pursuant to paragraph (k) of this section, a conference is requested within the time allowed by said section for making such request, the Commission's Director of State and Community Affairs or his or her designee shall hold such a conference. Said conference official shall issue a pre-conference order. The order shall indicate the issues to be resolved and any intial procedural instructions which might be appropriate for the particular conference. It shall fix the date, time, and place of the conference. The date shall not be less than 20 days after the date of the order. The date and place shall be subject to change for good cause.

(1) A copy of such pre-conference order shall be served on the State or local agency. After service of the order or of a notice designating a conference officer, and until such officer submits his or her recommended determination, all communications relating to the subject matter of the conference shall be addressed to him or her. The conference officer shall have authority to regulate the course and conduct of the conference. A transcript shall be made of the proceedings at the conference. The transcript and all comments and petitions relating to the proceedings shall be made available for inspection by interested persons.

(2) The conference officer shall prepare his or her proposed findings and recommended determination, a copy of which shall be served on the agency. Within 20 days after such service the agency may file written exceptions. After the expiration of the period for filing exceptions, the conference officer shall certify the entire record, including his or her proposed findings, and recommended determination and exceptions thereto to the Commission, which shall review the record and issue a final determination.

(3) Such determination shall become effective by the issuance and publication of an amendment to paragraph (m) of this section.

(m) Designated 706 Agencies: The actions of the Commission in designating 706 Agencies, and in withdrawing such designations, from time to time, will be stated in amendments to this paragraph and published in the FEDERAL REGISTER as and when such actions are taken. The designated 706 Agencies are:

Alaska Commission for Human Rights
Baltimore Community Relations Commission
Bloomington Human Rights Commission
Colorado Civil Rights Commission
Connecticut Commission on Human Rights and Opportunities
Dade County Fair Housing and Employment Commission
Delaware Department of Labor
District of Columbia Office of Human Rights
East Chicago Human Relations Commission
Gary Human Relations Commission
Idaho Commission on Human Rights
Illinois Fair Employment Practices Commission
Indiana Civil Rights Commission
Iowa Commission on Civil Rights
Kansas Commission on Civil Rights
Kentucky Commission on Human Rights
Massachusetts Commission Against Discrimination
Michigan Civil Rights Commission
Minnesota Department on Human Rights
New Hampshire Commission for Human Rights
New Jersey Division on Civil Rights, Department of Law and Public Safety
New York City Commission on Human Rights
New York State Division of Human Rights
Ohio Civil Rights Commission
Oklahoma Human Rights Commission
Oregon Bureau of Labor
Pennsylvania Human Relations Commission
Philadelphia Commission on Human Relations
Seattle Human Rights Commission
South Dakota Human Relations Commission
Tacoma Human Rights Commission
Utah Industrial Commission
Washington State Human Rights Commission
West Virginia Human Rights Commission
Wisconsin Equal Rights Division, Department of Industry, Labor and Human Relations
Wyoming Fair Employment Practices Commission

The designated Notice Agencies are:

Arkansas Governor's Committee on Human Resources
Florida Commission on Human Relations
Georgia Governor's Council on Human Relations
Montana Department of Labor and Industry
North Dakota Commission on Labor
Ohio Director of Industrial Relations
South Carolina Human Affairs Commission.

V40N13 JAN20 75 XUM

(Sec. 713(a), 78 Stat. 265 (42 U.S.C. sec. 2000e–12(a)))

This amendment is effective on January 20, 1975.

Signed at Washington, D.C. this 13th day of January 1975.

JOHN J. POWELL, JR.,
Chairman.

[FR Doc.75–1729 Filed 1–17–75;8:45 am]

Title 32—National Defense

CHAPTER XVIII—DEFENSE CIVIL PREPAREDNESS AGENCY

PART 1811—NONDISCRIMINATION IN FEDERALLY ASSISTED PROGRAMS OF THE DEFENSE CIVIL PREPAREDNESS AGENCY

This revision is undertaken in order to update this implementing regulation as to referenced documents, and to delete unnecessary repetition of provisions promulgated by the Department of Defense under 32 CFR Part 300.

Chapter XVIII of Title 32 of the Code of Federal Regulations is amended by revising Part 1811 to read as follows:

Sec.
1811.1 Purpose.
1811.2 Definitions.
1811.3 Applicability.
1811.4 Assurances required.
1811.5 Compliance information.
1811.6 Conduct of investigations.

AUTHORITY: Department of Defense regulation, 32 CFR 300.14, 29 FR 19294, Dec. 31, 1964.

§ 1811.1 Purpose.

(a) The purpose of the regulation in this part is to implement with respect to Federally assisted programs of the Defense Civil Preparedness Agency (a Department of Defense component) the regulation of the Secretary of Defense entitled "Non-Discrimination in Federally Assisted Programs of the Department of Defense—Effectuation of Title VI of the Civil Rights Act of 1964." (32 CFR Part 300). The purpose of the DoD Regulation is to effectuate the provisions of Title VI of the Civil Rights Act of 1964 (hereafter referred to as the "Act") to the end that no person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity receiving Federal financial assistance from any component of the Department of Defense.

(b) Pursuant to the DoD Regulation, the Director, DCPA, has been designated by the Assistant Secretary of Defense (Manpower and Reserve Affairs) as a "responsible Department official" responsible for implementing within the Department of Defense the DoD Regulation in connection with the administration of laws extending financial assistance for civil defense purposes.

(c) The DoD Regulation, as amended, has been approved by the President and contains all basic regulatory material necessary for proper effectuation of Title VI. It governs and is applicable to financial assistance programs of the Defense Civil Preparedness Agency and is not republished herein. The DoD Regulation does, however, require responsible Department officials to take certain implementing actions. The Regulation in this part specifies these actions as applicable to DCPA.

§ 1811.2 Definitions.

The terms used herein shall have the meanings ascribed in § 300.2 of the DoD Regulation. In addition, the following terms have the following meanings:

(a) "CPG 1–9" means *Civil Preparedness Guide* issued by DCPA entitled "Nondiscrimination in the Civil Defense Program."

(b) "DCPA" means the Defense Civil Preparedness Agency.

(c) "Director" means the Director, DCPA.

(d) "DoD Regulation" means Department of Defense regulation, 32 CFR Part 300.

(e) "Regional Director" means a Regional Director of DCPA.

§ 1811.3 Applicability.

This part applies to any program for which Federal financial assistance is authorized under a law administered by the Director pursuant to delegation or agreement. These programs are listed in CPG 1–9.

§ 1811.4 Assurances required.

(a) Except as provided in paragraph (d) of this section, every applicant for Federal financial assistance (including, without limitation, assistance in the provision of a civil defense facility) to carry out a civil defense program shall execute an assurance that the program will be conducted or the facility operated in compliance with all requirements imposed by or pursuant to the DoD Regulation and this part. Execution of this assurance is a condition to approval of any application for Federal financial assistance and of the extension of any assistance thereunder.

(b) The assurance required by paragraph (a) of this section will be on DCPA Form 856. The assurance covers all DCPA Federal financial assistance afforded a recipient. The text is as follows:

Name of Applicant ---------- hereby agrees that it will comply with Title VI of the Civil Rights Act of 1964 (P.L. 88–352), all requirements imposed by or pursuant to the Regulation of the Department of Defense 32 CFR Part 300 (issued as Department of Defense Directive 5500.11, May 27, 1971) and all requirements of DCPA Regulation 32 CFR Part 1811 issued pursuant to the Department of Defense Regulation to the end that, in accordance with Title VI of that Act, the Department of Defense Regulation and the DCPA Regulation, no person in the United States shall, on the ground of race, color, or national origin be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity for which the Applicant receives Federal financial assistance from the Defense Civil Preparedness Agency, (herein called DCPA); and hereby gives assurance that it will immediately take any measures necessary to effectuate this agreement. If any personal property or real property, or interest therein, or structure thereon is provided or improved with the aid of Federal financial assistance extended to the Applicant by DCPA, or if such assistance is in the form of personal property or real property, or interest therein or structure, thereon, then this assurance shall obligate the Applicant or in the case of any transfer of such property, any transferee, for the period during which the property is used for a purpose for which the Federal financial assistance is extended or for another purpose involving the provision of similar services or benefits, or for the period during which it retains ownership or possession of the property whichever is longer. In all cases, this assurance shall obligate the Applicant for the period during which the Federal financial assistance is extended to it by DCPA.

This assurance is given in consideration of and for the purpose of obtaining any and all Federal grants, loans, contracts, property, discounts or other Federal financial assistance extended after the date hereof to the Applicant by the DCPA, including installment payments after such date on account of arrangements for Federal financial assistance which were approved before such date. The Applicant recognizes and agrees that such Federal financial assistance will be extended in reliance on the representations and agreements made in this assurance, and that the United States shall have the right to seek judicial enforcement of this assurance. This assurance is binding on the Applicant, its successors, transferees, and assignees, and the person or persons whose signatures appear below are authorized to sign this assurance on behalf of the Applicant.

(c) Copies of the assurance required by paragraph (a) of this section shall be submitted by an applicant for civil defense Federal financial assistance to DCPA in the manner described in CPG 1–9 and other DCPA guidance material.

(d) Pursuant to the DoD Regulation primary recipients (i.e., States) of assistance under Section 205 of the Federal Civil Defense Act submit Statements of Compliance (including methods of administration) in the manner prescribed in CPG 1–9 and other DCPA guidance material.

(e) The extent to which an assurance will be required of subgrantees, suballocatees, contractors, transferees, successors in interest, and other participants will be specified by the Director in CPG 1–9 and other DCPA guidance material.

(f) Assurances and Statements of Compliance (including methods of administration) submitted to the Office of Civil Defense, Department of the Army (the predecessor to DCPA) in the manner prescribed in regulatory material of that office are considered as submitted to DCPA and need not be resubmitted. An assurance or a Statement of Compliance (including methods of administration), unless withdrawn by the recipient is considered binding for so long as the recipient receives Federal financial assistance from DCPA.

§ 1811.5 Compliance information.

(a) *Compliance reports.* Each recipient shall keep records and submit through the Regional Director, to the Director timely, complete and accurate compliance reports at such times, and in such form and containing such information, as the Director may determine to be necessary to enable him to ascertain whether the recipient has complied or is complying with this part. The times for submission of such reports, which shall be not less often than annually, and the form therefor shall be specified in CPG 1–9 and in other DCPA guidance material. In general, recipients should have available racial and ethnic data showing the extent to which members of minority groups are beneficiaries of Federally assisted programs. In any case where a primary recipient extends Federal financial assistance to any other recipient, such other recipient shall also submit such compliance reports to the primary recipient as may be necessary to enable the primary recipient to carry out its obligations imposed pursuant to this part.

(b) *Access to sources of information.* Each recipient shall permit access by the Director, through the Regional Director or his other authorized representatives, during normal business hours to such of his books, records, accounts, and other sources of information, and its facilities as may be pertinent to ascertain compliance with this part. Where any information required of a recipient is in the exclusive possession of any other institution or person and this institution or person shall fail or refuse to furnish this information, the recipient shall so certify in its report and shall set forth what efforts it has made to obtain the information.

(c) *Information to beneficiaries and participants.* Each recipient shall make available to participants, beneficiaries, and other interested persons such information regarding the provisions of this part and its applicability to the program under which the recipient receives Federal financial assistance, and make such information available to them in such manner as is set forth in CPG 1–9 and in other DCPA guidance material in order that such persons may be appraised of the protections against discrimination assured them by the Act, the DoD Regulation, and this part.

§ 1811.6 Conduct of investigations.

(a) *Periodic compliance reviews.* Regional Directors or their authorized representatives shall conduct compliance reviews of the States and other recipients with such frequency and in such depth as may be prescribed by the Director.

(b) *Complaints.* Any person who believes himself or any specific class of individuals to be subjected to discrimination prohibited by this part may by himself, or by a representative, file with the Director a written complaint. A complaint must be filed not later than 180 days from the date of the alleged discrimination, unless the time for filing is extended by the Director.

(c) *Investigations.* The authorized representative of the Director will make a prompt investigation whenever a compliance review, report, complaint, or any other information indicates a possible failure to comply with this part. The investigation should include, where appropriate, a review of the pertinent practices and policies of the recipient, the circumstances under which the possible noncompliance with this part occurred, and other factors relevant to a determination of whether the recipient has failed to comply with this part.

(d) *Resolution of matters.* (1) If an investigation pursuant to paragraph (c) of this section indicates a failure to comply with this part, the Director will so inform the recipient and the matter will be resolved by informal means whenever possible. If it has been determined that the matter cannot be resolved by informal means, action will be taken as provided in the DoD Regulation.

(2) If an investigation does not warrant action pursuant to subparagraph (1) of this paragraph, the Director will so inform the recipient and the complainant, if any, in writing.

(e) *Intimidatory or retaliatory acts prohibited.* No recipient or other person shall intimidate, threaten, coerce, or discriminate against any individual for the purpose of interfering with any right or privilege secured by section 601 of the Act or this part or because he has made a complaint, testified, assisted, or participated in any manner in an investigation, proceeding, or hearing under this part. The identity of complainants shall not be disclosed except when necessary to carry out the purposes of this part including the conduct of any investigation, hearing, or judicial proceeding arising thereunder.

This revision is effective on January 20, 1975.

(Catalog of Federal Domestic Assistance Program Numbers: 12.300, 12.301, 12.302, 12.305, 12.306, 12.308, 12.309, 12.310, 12.312, 12.314, 12.315, 12.316, 12,319, 12.321, 12.322, 12.324, 12.325)

Dated: January 10, 1975.

JOHN E. DAVIS,
Director, Defense Civil Preparedness Agency.

Title 35—Panama Canal

CHAPTER I—CANAL ZONE REGULATIONS

PART 253—REGULATIONS OF THE SECRETARY OF THE ARMY

Canal Zone Civilian Personnel Policy Coordinating Board

This revision of the regulations expands the membership of the Canal Zone Civilian Personnel Policy Coordinating Board, provides that its chairman shall be designated by the Secretary of the Army and clarifies the Board's role.

Inasmuch as the material contained in this part is a matter relating to agency management and personnel, the provisions of the Administrative Procedure Act (5 USC 553) requiring notice of proposed rulemaking, opportunity for public participation, and delay in effective date are inapplicable.

Effective on January 20, 1975, § 253.4 is revised to read as follows:

§ 253.4 Canal Zone Civilian Personnel Policy Coordinating Board.

(a) *Continuation.* The Canal Zone Civilian Personnel Policy Coordinating Board is continued.

(b) *Composition.* The Board shall be composed of a chairman and two other members. The Secretary of the Army shall appoint one member who shall serve as permanent chairman. The Governor and the Commander in Chief will serve as members. The extent to which any member may serve through a representative designated by him will be determined by the Board.

(c) *Functions.* The Board shall:

(1) Perform the functions and exercise the authorities delegated to it by the regulations in this part.

(2) Provide leadership and advice in all aspects of personnel management that are not covered by paragraph (c)(1) of this section to promote uniformity of policies and practices among the Departments to the extent compatible with their separate missions and governing rules.

(2 C.Z.C. 142, 155, 76A Stat. 16, 19; 35 CFR 251.2)

Dated January 10, 1975.

HOWARD H. CALLAWAY,
Secretary of the Army.

Title 45—Public Welfare

CHAPTER X—OFFICE OF ECONOMIC OPPORTUNITY

PART 1060—GENERAL CHARACTERISTICS OF COMMUNITY ACTION PROGRAMS

Subpart—Successor Authority to the Office of Economic Opportunity

On January 4, 1975, the President signed into law the "Headstart, Economic Opportunity, and Community Partnership Act of 1974". The following policy statement informs grantees of the Office of Economic Opportunity of two provisions in that Act relating to the Community Services Administration as successor authority to the Office of Economic Opportunity.

A new subpart is added to read as follows:

Sec.
1060.5–1 Applicability.
1060.5–2 Background.
1060.5–3 Policy.

AUTHORITY: Sec. 602, 78 Stat. 528 (42 U.S.C. 2942).

§ 1060.5–1 Applicability.

This subpart applies to all grantees financially assisted under Titles II, III–B and VII of the Economic Opportunity Act, as amended, when such assistance is administered by the Office of Economic Opportunity.

§ 1060.5–2 Background.

(a) On January 4, 1975, the President signed into law the "Headstart, Economic

V 40 N 13 JAN 20 75 XUM

Opportunity, and Community Partnership Act of 1974" (short title: "Community Services Act of 1974") which established within the executive branch an independent agency known as the "Community Services Administration" which is, in all respects and for all purposes, the successor authority to the Office of Economic Opportunity.

(b) In keeping with its designation as the successor authority the Community Services Act further states that:

All official actions taken by the Director of the Office of Economic Opportunity, his designee, or any other person under the authority of the Economic Opportunity Act of 1964 which are in force on the date of the enactment of the Headstart, Economic Opportunity, and Community Partnership Act of 1974, and for which there is continuing authority under the provisions of this Act, shall continue in full force and effect until modified, superseded, or revoked by the Director. (Section 9(a) of the Community Partnership Act of 1974 amending section 601 of the Economic Opportunity Act of 1964.)

(c) The Community Services Act also states that all references to the Office of Economic Opportunity or to the Director of the Office of Economic Opportunity, in official documents, including regulations, shall be deemed to refer to the Community Services Administration or to its Director. (See legislative reference above.)

§ 1060.5–3 Policy.

(a) All regulations issued by the Office of Economic Opportunity, i.e. OEO Instructions and OEO Notices, listed as current in OEO Instruction 6000–2, Change 2, December 1, 1974, Subj: Applicability of Directives, for which authority exists under the Community Services Act of 1974, remain in force and are deemed to be the policy statements of the Community Services Administration until superseded, rescinded, or changed.

(b) All grant-making documents, including General and Special Conditions, continue to be legal commitments between the grantee and the Office of Economic Opportunity's successor agency, the Community Services Administration.

Effective date: Immediately.

BERT A. GALLEGOS,
Director,
Community Services Administration.

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Navel Orange Reg. 334, Amdt. 1]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation increases the quantity of California-Arizona Navel oranges that may be shipped to fresh market during the weekly regulation period January 10–16, 1975. The quantity that may be shipped is increased due to improved market conditions for Navel oranges. The regulation and this amendment are issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 907.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for an increase in the quantity of oranges available for handling during the current week results from changes that have taken place in the marketing situation since the issuance of Navel Orange Regulation 334 (40 FR 1704). The marketing picture now indicates that there is a greater demand for Navel oranges than existed when the regulation was made effective. Therefore, in order to provide an opportunity for handlers to handle a sufficient volume of Navel oranges to fill the current market demand thereby making a greater quantity of Navel oranges available to meet such increased demand, the regulation should be amended, as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of Navel oranges grown in Arizona and designated part of California.

(b) *Order, as amended.* The provisions in paragraph (b)(1) (i) and (iii) of § 907.634 (Navel Orange Regulation 334) (40 FR 1704) are hereby amended to read as follows:

§ 907.634 Navel Orange Regulation 334.

* * * * *

(b) *Order.* (1) * * *.

(i) District 1: 921,000 cartons;

(iii) District 3: 29,000 cartons.

* * * * *

(Secs. 1–19, 48 Stat. 31, as amended (7 U.S.C. 601–674))

Dated: January 15, 1975.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.75–1715 Filed 1–17–75;8:45 am]

CHAPTER X—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; MILK), DEPARTMENT OF AGRICULTURE

[Milk Order No. 139; Docket No. AO–374–A3]

PART 1139—MILK IN THE LAKE MEAD MARKETING AREA

Order Amending Order

Findings and determinations. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order; and all of the said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 *et seq.*), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Lake Mead marketing area.

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order effective not later than February 1, 1975. Any delay beyond that date would tend to disrupt the orderly marketing of milk in the marketing area. The provisions of this order are known to handlers. The decision of the Assistant Secretary containing all amendment provisions of this order was issued January 10, 1975. The changes effected by this order will not require extensive preparation or substantial alteration in method of operation for handlers. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order effective February 1, 1975, and that it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the FEDERAL REGISTER. (Sec. 553 (d), Administrative Procedure Act, 5 U.S.C. 551–559.)

(c) *Determinations.* It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in section 8c(9) of the Act) of more than 50 percent of the milk, which is marketed within the marketing area, to sign a proposed marketing agreement, tends to prevent the effectuation of the declared policy of the Act;

(2) The issuance of this order, amending the order, is the only practical means pursuant to the declared policy of the Act of advancing the interests of producers as defined in the order as hereby amended; and

(3) The issuance of the order amending the order is approved or favored by at least two-thirds of the producers who during the determined representative period were engaged in the production of milk for sale in the marketing area.

ORDER RELATIVE TO HANDLING

It is therefore ordered, That on and after the effective date hereof, the handling of milk in the Lake Mead Marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as hereby amended, as follows:

Revise § 1139.50(a) to read as follows:

§ 1139.50 Class prices.

* * * * *

(a) *Class I price.* The Class I price shall be the basic formula price for the second preceding month plus $1.60.

* * * * *

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Effective date: February 1, 1975.

Signed at Washington, D.C., on January 15, 1975.

RICHARD L. FELTNER,
Assistant Secretary.

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[Ex Parte No. 55 (Sub-No. 11)]

PART 1001—INSPECTION OF RECORDS

Implementation of Recent Amendments to the Freedom of Information Act

At a general session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 16th day of January, 1975.

It is ordered, That based on the reasons set forth in the attached notice, Part 1001, Subchapter A, Chapter X of Title 49 of the Code of Federal Regulations be, and it is hereby, modified as set forth in the attached notice.

It is further ordered, That this order shall become effective on February 19, 1975.

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy of this order and the attached notice in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., for public inspection, and by delivering a copy of the notice to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER as notice to interested parties.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

By order and notice dated January 6, 1975, and published in the FEDERAL REGISTER on January 9, 1975, (40 FR 1718), the Interstate Commerce Commission proposed the modification of 49 CFR 1001.4 (as set forth below) in order to properly implement recent amendments to the Freedom of Information Act. The prior notice requested interested persons to file data, views, or arguments with this Commission on or before January 15, 1975. Comments have been jointly filed by Leonard A. Jaskiewicz and Robert L. Cope. These attorneys would have us repeat each relevant phrase in the statute in our regulation. This is an unnecessary task. This Commission must and it will comply with the recent Freedom of Information Act amendments; the regulation modification adopted herein merely implements that statute. Certain of the constructive comments of these attorneys have been incorporated into the modified regulation below.

The existing regulation provides that requests to inspect records other than those now deemed to be of a public nature shall be addressed to the Secretary (49 CFR 1001.4). The adopted modification would require the Secretary to decide within 10 days (except Saturdays, Sundays, and legal public holidays) whether a requested record could be made available and would require the Secretary to inform a requesting party in writing of any refusal to provide information with a detailed explanation of why the requested records cannot be made available. If the Secretary rules that records cannot be made available (see 5 U.S.C. 552(a)(3) which provides for exemptions to the Freedom of Information Act), then the existing regulation provides for an appeal to the Chairman whose decision shall be administratively final. The adopted modification would require the filing of such an appeal within 30 days of the date of the Secretary's denial letter and would also require the Chairman to render a decision within 20 days (except Saturdays, Sundays, and legal public holidays) of receipt of any appeal. The Chairman would issue an order explaining the reasons for his decision.

Because this Commission desires to make information readily available to the public, we have waived our right to charge a fee for requests for information. We will, however, be required to continue our practice of charging 25 cents a page to xerox records (49 CFR 1002.1(e)).

(Secs. 552, 553, 559, Administrative Procedure Act (5 U.S.C. 552, 553, and 59))

Issued in Washington, D.C., January 16, 1975.

Accordingly, this action modifies 49 CFR 1001.4 so that it reads as follows:

§ 1001.4 Requests to inspect other records not considered public under 5 U.S.C. 552.

Requests to inspect records other than those now deemed to be of a public nature shall be in writing and addressed to the Secretary. The Secretary shall determine within 10 days of receipt of a request (excepting Saturdays, Sundays, and legal public holidays) whether a requested record will be made available. If the Secretary determines that a request cannot be honored, he must inform the requesting party in writing of this decision and such letter shall contain a detailed explanation of why the requested material cannot be made available and explain to the requesting party his right of appeal. If the Secretary rules that such records cannot be made available because they are exempt under the provisions of 5 U.S.C. 552(a)(3) (sec. 1, 81 Stat. 54), appeal from such ruling may be addressed to the Chairman whose decision shial be administratively final stating specifically the exemption(s) contained in 5 U.S.C. 552(b) relied upon for denial. Such an appeal must be filed within 30 days of the date of the Secretary's letter. The Chairman shall formally act on such appeals within 20 days (excepting Saturdays, Sundays, and legal public holidays) of receipt of any appeal. In the unusual circumstances, as set forth in 5 U.S.C. 552(a)(6)(B), the time limit may be extended, by written notice to the person making the particicular request setting forth the reasons for such extension, for no more than 10 working days. If the appeal is denied, the Chairman's order shall notify the requesting party of his right to judicial review.

SUBCHAPTER B—PRACTICE AND PROCEDURE

[Ex Parte No. 293 (Sub-No. 2)]

PART 1125—STANDARDS FOR DETERMINING RAIL SERVICE CONTINUATION SUBSIDIES

Correction

In FR Doc. 75–170 appearing at page 1624 in the issue for Wednesday, January 8, 1975, make the following corrections:

1. On page 1624, in the second paragraph of column 1, the following should

V401H3 JAN20 75 XUM

be inserted to complete the last line: "on the system".

2. On page 1625 in the first paragraph of column 2, the 4th line should be deleted and the following be inserted: "available. The tests revealed that in cer-".

3. On page 1631 in the Authority cite of column 1, "Pub. L. 92–236" should read, "Pub. L. 93–236".

4. On page 1632, in § 1125.3 (c)(4), eleven lines from the end, "accounts 372 and 401" should read "accounts 392 and 401".

5. On page 1632, in § 1125.4 (b), "passenger car-miles" in lines 7 & 8 should read "passenger-miles".

6. On page 1634, the second line of § 1125.5 (j)(1) should be deleted and the following be inserted: "calculated by averaging the railroad's".

7. On page 1635 the first two lines of § 1125.8(d), appearing at the top of column 3, are inverted and should read, "A notice of intent to discontinue service, pursuant to section 304(a)(2)".

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

[7 CFR Part 26]

GRAIN STANDARDS

Miscellaneous Amendments; Extension of Comment Period

On December 4, 1974, a notice of proposed rulemaking was published in the FEDERAL REGISTER (39 FR 42226) to amend certain sections of the regulations under the U.S. Grain Standards Act (7 U.S.C. 71 *et seq.*).

On December 27, 1974, a supplemental notice of proposed rulemaking was published in the FEDERAL REGISTER (39 FR 44763) further amending certain sections of the December 4, 1974, publication and establishing February 3, 1975, as the final date for filing written data, views, or arguments with respect to both the December 4, 1974, and December 27, 1974, publications.

A trade group requested an extension of the time to submit written data, views, or arguments. In view of the request, notice is hereby given that the period for filing written data, views, or arguments with respect to both the December 4, 1974, and December 27, 1974, publications in the FEDERAL REGISTER is extended to March 7, 1975.

Opportunity is hereby afforded all interested parties to submit written data, views, or arguments with respect to the proposals to the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250, not later than March 7, 1975. All submissions made pursuant to this notice will be made available for public inspection at the Office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Consideration will be given to the written data, views, or arguments received by the Hearing Clerk and to other information available to the U.S. Department of Agriculture before final determination is made with respect to the proposals.

Done in Washington, D.C., on: January 15, 1975.

[7 CFR Part 52]

CANNED GRAPEFRUIT AND ORANGE FOR SALAD

Proposed Grade Standards; Extension of Comment Period

This notice extends the period for comments to the notice, published December 16, 1974 (39 FR 43551), proposing the revision of the United States Standards for Grades of Canned Grapefruit and Orange for Salad.

These grade standards are issued under the authority of the Agricultural Marketing Act of 1946 (Sec. 205, 60 Stat. 1090, as amended; 7 U.S.C. 1624) which provides for the issuance of official U.S. grades to designate different marketing levels of quality for the voluntary use by producers, buyers, and consumers. Official grading services are also provided under this act upon request and upon payment of a fee to cover cost of such services.

The proposed rulemaking was published at the request of the Florida Canners Association, representing all of the processors of canned grapefruit and orange for salad, to revise the current U.S. Standards for Grades of Canned Grapefruit and Orange for Salad, to conform as nearly as practicable, to the U.S. Standards for Grades of Canned Grapefruit.

The U.S. Standards for Grades of Canned Grapefruit were revised effective October 25, 1973, to overcome problems associated with mechanized segmenting and filling operations. Based upon acceptance of the revised canned grapefruit standards, and the congeneric relationship of canned grapefruit and canned grapefruit and orange for salad, the Florida Canners Association requested the USDA to bring the current U.S. standards in line with present industry operations.

The proposed revision of the U.S. Standards for Grades of Canned Grapefruit and Orange for Salad made the following changes:

(1) Eliminated drained weight as a scoring factor of quality.

(2) Lowered the recommended minimum drained weight from 56.25 percent of the water capacity of the container to 53 percent.

(3) Lowered the minimum percent of practically whole segments in grade A from 75 percent to 65 percent.

(4) Changed the criteria for the factor of character to eliminate the restriction on loose floating cells.

(5) Provided for the addition of orange juice as a liquid packing medium.

Other changes made in the proposed revision and consistent with current practice in the U.S. standards are as follows:

(1) Brix determination may be forced by comminuting as an alternative to waiting 15 days or more after packing the canned fruit.

(2) Score points are realigned to 25 points for each scorable factor.

(3) "Allowances for Defects" are tabulated.

A request for an extension of time was submitted by the Office of the Governor of the State of Illinois. The request indicated that additional time is necessary to enable the consumers in the State of Illinois to submit comments to the Department for consideration in connection with the proposed revision.

It is determined that due to the heavy flow of mail during the month of December, 1974, many consumers may have experienced difficulty in receiving prompt notice of the proposed rulemaking. Too, many consumers were involved in traditional holiday activities and may have missed notification of the proposed rulemaking.

It is determined that a reasonable extension of the comment closing date is consistent with the Department's policy to give adequate time for consumers to comment on each notice of proposed rulemaking to revise the U.S. standards. The comment period is hereby extended to March 1, 1975.

All persons who desire to submit written views, data, or arguments for consideration in connection with the proposed revision should file the same in duplicate, not later than March 1, 1975, with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250. All written submissions made under this notice will be available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated: January 14, 1975.

E. L. PETERSON,
Administrator,
Agricultural Marketing Service.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Public Health Service

[42 CFR Part 50]

PUBLIC HEALTH SERVICE HEALTH SERVICES DELIVERY PROGRAMS

Maximum Allowable Cost for Drugs

Notice is hereby given that the Assistant Secretary for Health of the Department of Health, Education, and Welfare, with the approval of the Secretary of Health, Education, and Welfare, proposes to add a new Subpart E, entitled "Maximum Allowable Cost for Drugs", to Part 50 of Title 42, Code of Federal Regulations. In the November 15, 1974, issue of the FEDERAL REGISTER, the Secretary proposes to establish a Pharmaceutical Reimbursement Board, which would be responsible for establishing a list of multiple source drugs and their Maximum Allowable Cost (39 FR 40302). The proposed new Subpart E of Part 50 would provide that the maximum amount of program funds (i.e., Federal funds and non-Federal funds required to be expended as a condition to receiving such Federal funds) which may be expended for the purchase of any drug under any health services delivery program covered by Subpart E shall be the lesser of (1) the Maximum Allowable Cost established by the Secretary for such drug or (2) the actual acquisition cost plus 25 percent of the amount, if any, by which the Maximum Allowable Cost for such drug exceeds the acquisition cost, plus, in certain circumstances, a reasonable dispensing fee. It should be noted that the proposed regulations would not prohibit recipients of Federal funds from purchasing drugs at costs in excess of the maximum as so determined; rather, they would bar the expenditure from program funds of amounts in excess of such cost.

Interested persons are invited to submit written comments, suggestions or objections concerning the proposed regulations to the Hearing Clerk, Food and Drug Administration, Room 4–65, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20852, on or before March 21, 1975. All comments received in response to this Notice will be available in the above-named office during regular business hours.

It is therefore proposed to amend 42 CFR Part 50 by the addition of a new Subpart E, as set out below.

Dated: January 3, 1975.

THEODORE COOPER,
Acting Assistant Secretary for Health.

Approved: January 13, 1975.

CASPAR W. WEINBERGER,
Secretary.

Subpart E—Maximum Allowable Cost for Drugs

Sec.
50.501 Applicability.
50.502 Definitions.
50.503 Policy.
50.504 Limitation to maximum allowable cost of drugs.

AUTHORITY: Secs. 215, 58 Stat. 690, as amended (42 U.S.C. 216).

Subpart E—Maximum Allowable Cost for Drugs

§ 50.501 Applicability.

This subpart is applicable to programs or projects for health services which are supported in whole or in part by Federal financial assistance, whether by grant or contract, administered by the Public Health Service. It applies to Federal funds and to non-Federal funds which are required to be expended as a condition to receiving Federal funds under such programs or projects.

§ 50.502 Definitions.

As used in this subpart:

(a) "Public Health Service" means the Office of the Assistant Secretary for Health, Health Services Administration, Health Resources Administration, National Institutes of Health, Center for Disease Control, Alcohol, Drug Abuse and Mental Health Administration, Food and Drug Administration, and all of their constituent agencies.

(b) "Secretary" means the Secretary of Health, Education, and Welfare and any other officer or employee of the Department of Health, Education, and Welfare to whom the authority involved has been delegated.

(c) "Program funds" means (1) Federal funds provided through grant or contract to support a program or project covered by § 50.501, and (2) any non-Federal funds that are required as a condition of such grant or contract to be expended to carry out such program or project.

(d) "Actual acquisition cost" when applied to a drug means the cost of the product to the provider less any quantity, trade, and promotional discounts and allowances except cash discounts not in excess of two percent of cost. It may include warehousing and other distributional costs incurred by a provider who maintains a warehouse separate from his retail place of business. In no case shall the claimed acquisition cost be greater than the lowest cost which would have been incurred if the product had been obtained through a wholesaler.

§ 50.503 Policy.

It is the policy of the Secretary that program funds which are utilized for the acquisition of drugs be expended in the most economical manner feasible. In furtherance of this policy, the Secretary has established, in 45 CFR Part 19, a procedure for determining the Maximum Allowable Cost for drugs which are purchased with program funds.

§ 50.504 Allowable cost of drugs.

(a) The maximum amount which may be expended from program funds for the acquisition of any drug shall be the sum of

(1) the cost of such drug as determined pursuant to paragraph (b) of this section, and

(2) a dispensing fee determined by the Secretary to be reasonable, taking into account (i) cost components such as overhead, professional services, and profit, and (ii) payment practices of third-party payment organizations, including other Federal programs such as titles XVIII and XIX of the Social Security Act: *Provided*, That where the charge for drug dispensing is included in other costs allowable under the applicable program statute and regulations, the terms and conditions of the grant or contract, and the applicable cost principles prescribed in 45 CFR Part 74, no separate dispensing fee will be recognized.

(b) For purposes of this section, the cost of any drug shall be determined as follows:

(1) With respect to any drug for which a Maximum Allowable Cost has been established in accordance with 45 CFR Part 19, the cost shall be the lesser of (i) such Maximum Allowable Cost or (ii) the actual acquisition cost plus 25 percent of the amount, if any, by which such Maximum Allowable Cost exceeds such acquisition cost: *Provided*, That, with respect to any drug prescribed for a patient which his physician has certified in writing is the only brand of that drug which the patient can tolerate or which will be effective for him, the allowable cost shall be the actual acquisition cost.

(2) With respect to any drug for which no Maximum Allowable Cost has been established in accordance with 45 CFR Part 19, the cost shall be the actual acquisition cost.

[FR Doc.75–1648 Filed 1–17–75; 8:45 am]

Social Security Administration

[20 CFR Part 405]

[Regs. No. 5]

FEDERAL HEALTH INSURANCE FOR THE AGED AND DISABLED

Allowable Cost for Drugs

Notice is hereby given, pursuant to the Administrative Procedure Act (5 U.S.C. 553), that the amendment to the regulations set forth in tentative form is proposed by the Commissioner of Social Security, with the approval of the Secretary of Health, Education, and Welfare. This proposed amendment to Subpart D of Regulations No. 5 of the Social Security Administration (20 CFR Part 405) would provide that the allowable cost for any drug that is a multiple-source product, may not exceed the cost that would have been incurred if obtained from the lowest-priced source which is widely and consistently available (whether sold by generic or trade name) or the maximum allowable cost established by the Department, consistent with regualtions on the "Maximum Allowable Cost for Drugs" (45 CFR Part 19), proposed by the Secretary of Health, Education, and Welfare and published in the FEDERAL REGISTER on November 15, 1974 (39 FR 40302).

A list of multiple-source drug products and their maximum allowable costs, and periodic revisions of such list, would be published in the Federal Register. This limitation would not be applied to an individual drug product until that particular drug has appeared on the list.

For purposes of reimbursement to providers under the Medicare program, the allowable cost for a multiple-source drug could not exceed the lesser of (1) the amount which would be paid by a prudent and cost-conscious provider if obtained from the lowest-priced source which is widely and consistently available (whether sold by generic or trade name), or (2) the applicable maximum allowable cost for such drug. The drug-ingredient costs incurred in the purchase of multiple-source drugs which are in excess of such allowable cost that would have been incurred in purchasing multiple-source products would be disallowed. The cost of drugs not appearing on the list would also be evaluated by intermediaries so that the allowable cost of such drugs does not exceed what a prudent and cost-conscious buyer would pay for the given drug products.

It is recognized that providers purchase drugs from manufacturers, wholesalers, or retail pharmacies, or from a combination of these sources. Therefore, in determining what a prudent and cost-conscious provider would pay for the lowest-priced, multiple-source product widely and consistently available, the cost of the drugs specified in the list would be evaluated in terms of the similar quantities and the similar purchasing arrangements at which the drug products were, in fact, purchased. The effectiveness of the purchasing practices of providers would be reviewed periodically to determine compliance with provisions of this regulation. Based on these reviews, the Social Security Administration would continue to evaluate the necessity for establishment of more extensive guidelines, at the same time avoiding burdensome recordkeeping requirements for providers where no significant savings would accrue to the Medicare program.

Prior to the final adoption of the proposed amendment to the regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in triplicate to the Commissioner of Social Security, Department of Health, Education, and Welfare Building, Fourth and Independence Avenue SW., Washington, D.C. 20201, on or before March 21, 1975.

Copies of all comments received in response to this notice will be available for public inspection during regular business hours at the Washington Inquiries Section, Office of Public Affairs, Social Security Administration, Department of Health, Education, and Welfare, North Building, Room 4146, 330 Independence Avenue SW., Washington, D.C. 20201.

The proposed amendment is issued under the authority contained in sections 1102, 1861(v)(1)(A), and 1871 of the Social Security Act, 49 Stat. 647, as amended, 79 Stat. 322, as amended, 79 Stat. 331; 42 U.S.C. 1302, 1395x(v)(1)(A) and 1395hh.

(Catalog of Federal Domestic Assistance Program No. 13.800, Health Insurance for the Aged—Hospital Insurance; No. 13.801, Health Insurance for the Aged—Supplementary Medical Insurance)

Dated: December 26, 1974.

J. B. CARDWELL,
Commissioner of Social Security.

Approved: January 13, 1975.

CASPAR W. WEINBERGER,
Secretary of Health, Education, and Welfare.

Part 405 of Chapter III of Title 20 of the Code of Federal Regulations is amended by revising § 405.433 to read as follows:

§ 405.433 Determining allowable cost for drugs.

(a) *Principle.* (1) The allowable cost for any multiple-source drug product (as described in paragraph (b)(1) of this section) may not exceed the lesser of:

(i) The actual cost;

(ii) The amount which would be paid by the prudent and cost-conscious provider for such drug if obtained from the lowest-priced source that is widely and consistently available (whether sold by generic or trade name), or

(iii) The "maximum allowable cost."

(2) The allowable cost for any other drug product may not exceed what a prudent and cost-conscious buyer would pay for that particular drug product.

(b) *Application.*—(1) *Multiple-source drug products.* (i) The Department of Health, Education, and Welfare will publish in the FEDERAL REGISTER, from time to time, a list of specific multiple-source drug products and their "maximum allowable cost" limitations. (See 45 CFR Part 19.) For these drug products, the allowable cost (see §§ 405.402 and 405.403) may not exceed the drug-ingredient costs incurred in purchasing such drug products that would be paid by a prudent and cost-conscious provider for such drug products if obtained from the lowest-priced source that is widely and consistently available (whether sold by generic or trade name); except that the drug-ingredient cost incurred in purchasing such drug products may, in no case, exceed the maximum allowable cost published in the FEDERAL REGISTER.

(ii) The provisions of this paragraph (b)(1) are applicable to those multiple-source drug products purchased by providers on or after the first day of the second month following the month in which such drug product appears in such list in the FEDERAL REGISTER. Similarly, an amendment to a maximum allowable cost limitation for a drug product is applicable to purchases of such drug product by providers on or after the first day of the second month following the month in which such amendment is published in the FEDERAL REGISTER.

(2) *Other drug products.* For drug products other than those described in paragraph (b)(1) of this section, the allowable cost (see §§ 405.402 and 405.403) may not exceed what a prudent and cost-conscious buyer would pay for that particular drug product.

(3) *Evaluation.* The cost of any drug products will be evaluated in terms of the quantities and purchasing arrangements at which the drug products were, in fact, purchased.

(c) *Exception.* Where a physician certifies that only a specific brand of drug can be tolerated by, or is effective for, a particular patient, the provisions of this section shall not apply. However, the physician must signify in writing the medical justification for the exception and the provider must retain such certification in its records.

(d) *Appeals.* A provider may appeal the amount of reimbursement determined under this section (see Subpart R of this part) except that it may not appeal under Subpart R of this part:

(1) The inclusion of any multiple-source drug products on the published listing, or

(2) The established maximum allowable cost for any drug product.

In FR Doc. 75-663 appearing at page 1518 in the issue of Wednesday, January 8, 1975, the Airspace Docket number in brackets should read as set forth above.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

[29 CFR Part 1601]

706 AGENCIES

Proposed Designation

Pursuant to § 1601.12(i), Title 29, Chapter XIV to the Code of Federal Regulations as revised and published in the FEDERAL REGISTER, published at page 3209 in this issue, the Equal Employment Opportunity Commission (hereinafter referred to as the Commission) proposes that the agencies listed below be designated as "706 Agencies" (§ 1601.12(c)). There are three (3) purposes for such designation: First, that the agencies receive charges deferred by the Commission pursuant to section 706 (c) and (d) of Title VII of the Civil Rights Act of 1964, as amended; Second, that the Commission accord "substantial weight" to the final findings and orders of those agencies pursuant to § 1601.19B(e); and, Third, to commence the 15-day period within which any person or organization may file written comments as provided for under § 1601.12(i)(1). At the expiration of the 15-day period, the Commission may effect designation of each of the agencies by publishing the list of them as an amendment to § 1601.12(m). Additions to the list may be made by the Commission by similar notice and publication. The proposed "706 Agencies" are as follows:

Arizona Civil Rights Division
California Fair Employment Practices Commission
Montana Commission for Human Rights
Nebraska Equal Opportunity Commission
Nevada Commission on Equal Rights of Citizens
Omaha Human Relations Department
Springfield (Ohio) Human Relations Department
Virgin Islands Department of Labor
Wichita Commission on Civil Rights

(Sec. 713(a), 78 Stat. 265 (42 U.S.C. 2000e-12(a)))

Written comments pursuant to this notice must be filed with the Commission on or before February 10, 1975.

Signed at Washington, D.C. this 13th day of January 1975.

JOHN H. POWELL, Jr.,
Chairman.

DOCUMENT SEARCH AND DUPLICATION

Schedule of Fees

Correction

In FR Doc. 75-1184 appearing at page 2591 of the issue for Tuesday, January 14, 1975, in paragraph (a)(3) on page 2592 the dimensions "8½ X 4" should read "8½ X 14".

POSTAL SERVICE

[39 CFR Part 262]

FREEDOM OF INFORMATION

Schedule of Fees

Pursuant to Pub. L. 93-502, enacted November 21, 1974, notice is hereby given of a proposed amendment to the Postal Service regulations which establish the fees to be charged for retrieval and reproduction of records requested by members of the public. The proposed amendment would revise the fees schedule to conform to the criteria set forth in section 552(a)(4) of title 5, United States Code, as amended by Pub. L. 93-502. In addition it would establish more detailed procedures for the payment and waiver of fees, elaborating and in some instances modifying, existing procedures.

The fee per quarter hour for searching for records by clerical personnel is to be increased from $2.00 to $2.25. No charge is to be made for search time, however, if less than one quarter hour is spent in such a search by clerical personnel. Heretofore a minimum fee of $8.00 has been charged for the first hour or any portion thereof. A newly established rate of $2.75 per quarter hour is to be charged for searches performed by managerial or professional personnel. This is intended to apply to searches for documents which are not self-identifying and which must be located by persons with professional training or particular skills or experience not required of clerical personnel.

The fee for computer searches is to consist of a charge for a computer analyst's time at the non-clerical search rate and the costs of the computer functions actually utilized. The hourly rates for the various functions are listed in Appendix A. We have concluded that fairness to persons whose requests require computer searches calls for the development of as refined a standard schedule of charges as is feasible, in view of the widely varying costs involved in performing various computer functions.

Manual search and reproduction fees are specifically made applicable to micographic systems, such as microfilm.

The per-page fee for the reproduction of records and publications is to be reduced from $0.25 to $0.10. Because of the general waiver of fees aggregating less than $3.00, the minimum fee provision for reproduction has been eliminated. In view of the large number and the great differences in size and circumstances among post offices and other postal facilities at which records may be maintained, the proposed amendment would continue to provide possible alternatives to the copying of records by the Postal Service. In addition to authorizing the use of coin-operated copy machines upon which requestors can make copies at their own expense, the proposed amendment would authorize custodians, in appropriate instances, to permit the copying of records at locations other than the office or facility at which they are maintained. It is contemplated that off-site copying would be permitted only in those instances in which the records, if lost, could be replaced without inconvenience to the Postal Service. Provision would also be made, because of such possibilities as the lack of adequate copying capability or the shortage of personnel for extensive copying tasks, for the substitution of the opportunity for the inspection of the records, under reasonable conditions, rather than the furnishing of copies of them, even though copies may be requested.

The proposed amendment would continue special treatment for change of address orders filed by Postal Service customers. This material has been made available to the public on request since 1967, although since section 410(c) of title 39, United States Code, became effective in 1971, disclosure of the addresses of postal customers has not been required by statute. Since the disclosure of these records by the Postal Service is voluntary and for the convenience of the public rather than required by the Freedom of Information Act as amended, it is considered that the uniform fee schedule requirement of Pub. L. 93-502 are not applicable. It has been the experience of the Postal Service that most requests for change of address information have been made by commercial firms, such as credit bureaus, presumably for business purposes, rather than by individuals. It seems appropriate, therefore, not to waive the fees now charged to ensure full recovery of the costs incurred by the Postal Service in providing this service. At the same time the charging of a single flat fee to cover the costs of search and reproduction of this information provides predictability and uniformity for this discrete service. Accordingly, it is proposed to continue the present fee of $1.00 per change of address, pending development of additional data upon which a revision of the fee might be based.

Provisions relating to advance notice, payment and waiver of fees would be

significantly expended. The requestor would be expressly made liable for fees resulting from services performed in responding to his request, whether records are made available to him or not. The potential harshness of this principle would largely be relieved, however, by a general waiver of fees if none of the requested records is located or if all are withheld as exempt, and also by provision for notice to the requestor of fees estimated to exceed $25.00. If, however, after the requestor had been notified that fees in excess of $25.00 might be incurred and also that it could not be determined in advance whether any records would be made available, the fees for search time could be charged even though no records were made available. If it were to be estimated that fees in excess of $100.00 would be incurred, an advance deposit of 50 percent of the estimated fees would be required.

Accommodating the interest of members of the public in not unwittingly incurring substantial fees while meeting the deadlines for response which the 1974 amendments establish has posed a potential problem. We have sought to solve this problem by treating $25.00 as a general upper limit of liability unless the requestor is notified that greater charges are likely to be involved in responding to his request. If higher fees are anticipated, the performance of services which would incur them would not be undertaken without the requestor's approval, and the request would not be deemed received until the approval is given after notice.

The requestor could avoid any risk of delay inherent in this arrangement, however, by stating in his initial request that whatever cost is involved would be acceptable or would be acceptable up to a specified limit. When an advance deposit is required, it is contemplated that determination of the availability of the requested records would not be delayed to await the deposit unless search costs in excess of $25.00 would have to be incurred before the determination could be made.

Fees amounting in the aggregate to less than $3.00 for a single request or series of related requests would be waived and, as noted above, fees would normally be waived when no records were made available. Any custodian would have authority to waive fees of up to $25.00 if he should determine, in accordance with guidelines established by the General Counsel, that the furnishing of records would be primarily for the benefit of the general public, rather than that of the requestor individually, or if charging the fee would impose an undue hardship or inconvenience upon the requestor or an unwaranted further expense for the Postal Service. Fees in excess of $25.00 could be waived by any of the Officers of the Postal Service, e.g., the General Counsel, Assistant Postmasters General, Regional Postmasters General, or their designees.

Interested persons may comment upon the proposed amendment by submitting written data, views and arguments to the General Counsel, United States Postal Service, Washington, D.C. 20260, Attention: Legal Affairs Office. All comments received by Monday, February 3, 1975, will be considered prior to final action by the Postal Service on the proposed amendment. This relatively short period for the receipt of comments is necessitated by the fact that the statutory amendments which the proposed amendment to the regulations is intended to implement are due to become effective on February 19, 1975, and the fact that the regulations as adopted must be distributed to more than 30,000 post offices and other postal facilities. The Postal Service will consider comments received after the February 3, 1975, deadline to the extent practicable before publishing the regulations, prior to February 19, 1975, and in connection with amendments to the regulations in the future.

Accordingly, the Postal Service proposes the following amendment: In 39 CFR Part 262, § 262.7 is revised to read as follows:

§ 262.7 Schedule of fees.

(a) *Policy.* The purpose of this section is to establish fair and equitable fees to permit the furnishing of records to members of the public in conformity with the Freedom of Information Act, as amended, while covering the direct costs incurred by the Postal Service.

(b) *Record retrieval.* (1) The fee for each quarter hour spent by clerical personnel in searching for records other than by computer is $2.25. If no more than one quarter hour of clerical search time is required in connection with a request or a series of related requests, no charge for search time shall be made.

(2) When a search cannot be performed by clerical personnel and must be performed by professional or managerial personnel, the fee for each quarter hour in searching for records other than by computer is $2.75 for each quarter hour.

(3) The fee for retrieving data by computer is $2.75 for each quarter hour for analyst time, plus the actual computer charges as calculated in accordance with the Information Services Price List. (See appendix A)

(4) Paragraphs (b)(1), (b)(2), and (c) of this section also apply to information stored within micrographic systems.

(c) *Reproduction.* (1) The fee for reproducing any record or publication, other than a change of address order, is $.10 per page. The reproduction fee is in addition to any fee authorized by paragraph (b) of this section for the retrieval of the same records. The per-page fee is charged for each duplicate copy of computer output.

(2) The Postal Service may at its discretion make coin-operated copy machines available at any location or otherwise give the requestor the opportunity to make copies of Postal Service records at his own expense. Unless authorized by the Records Officer, however, no off-site copying shall be permitted of records which, if lost, could not be replaced without inconvenience to the Postal Service.

(3) The Postal Service will not normally furnish more than one copy of any record. If duplicate copies are furnished at the request of the requestor, the per-page fee shall be charged for each copy of each page. At his discretion, when it is reasonably necessary because of a lack of adequate copying facilities or other circumstances, the custodian may make the requested record available to the requestor for inspection under reasonable conditions and need not furnish a copy thereof.

(d) *Other costs*—(1) *Other charges.* When a response to a request requires services or materials other than the common ones listed in paragraphs (b) and (c) of this section, the direct cost of such services or materials to the Postal Service may be charged, but only if the requestor has been notified of the nature and estimated amount of such cost before it is incurred.

(2) *Change of address orders.* Although change of address information is not required by the Freedom of Information Act to be made available to the public, the fee for obtaining this information is included in this section as a matter of convenience to the public. The fee for searching for and reproducing change of address orders is $1.00 per change of address. The fee is not refundable.

(e) *Payment and Waiver of Fees*—(1) *Liability and payment.* The requestor is responsible, subject to limitations on liability provided by this section, for the payment of all fees for services resulting from his request, whether or not any of the requested records are made available to him. Payment shall be made before any record is made available or any copy is furnished unless payment is waived or deferred pursuant to paragraphs (e)(4) and (5) of this section. Checks in payment of fees shall be made payable to "United States Postal Service."

(2) *Advance notice.* To protect members of the public from unwittingly incurring liability for unexpectedly large fees, a request that is expected to result in fees in excess of $25.00 will be deemed not to have been received until the requestor is notified (promptly upon physical receipt of the request) of the estimated cost and agrees to bear it. No such notification is required if the request specifically states that whatever cost is involved is acceptable or is acceptable up to a specified amount that covers estimated costs or if payment of all fees in excess of $25.00 has been waived.

(3) *Advance deposits.* When it is estimated that the fees chargeable under this section will amount to more than $100.00, an advance deposit of not less than 50 percent of estimated fees shall be required, unless the payment of fees in excess of $100.00 has been waived. The deposit should be made within 5 working days of receipt by the requestor of notice of the requirement. The determination of the availability of the records sought

V401H3 JAN20 75 XUM

by the requestor shall not be delayed to await this deposit, if such determination will involve search charges of less than $25.00. In other cases, however, the determination of the availability of the records shall be delayed to await the deposit and the request will not be deemed to have been received until the deposit is received.

(4) *Waiver of fees where records are not disclosed.* Ordinarily, fees shall not be charged if the requested records are not found, or if all of the records located are withheld as exempt. However, if the time spent in searching for the requested record would warrant charges in excess of $25.00 and if the requestor has been notified of the estimated cost either pursuant to paragraph (e)(2) of this section or in a separate notification, and has been specifically advised that it cannot be determined in advance whether any records will be made available and that he may be responsible for search fees even though no records are made available, search fees may be charged.

(5) *Fees not charged for certain services.* Fees shall not be charged where they would amount, in the aggregate, for a request or series of related requests, to less than $3.00. This general waiver shall not apply to the fee for providing change of address information.

(6) *Waiver of fees by custodian.* The custodian may waive, in whole or in part, a fee not in excess of $25.00 or the requirement for the advance payment of such a fee, when he determines, in accordance with guidelines established by the General Counsel, that the furnishing of the records is primarily for the benefit of the general public, or that charging the fee otherwise required would impose an undue hardship or inconvenience on the person making the request or would cause the Postal Service to incur costs not adequately compensated by the amount of the fees involved. If the custodian determines that waiver is appropriate, but the amount of the fee or the deposit is in excess of his authority to waive, he shall promptly submit a recommendation for such a waiver to the Officer exercising jurisdiction over his post office or facility or to the General Counsel. Until the Officer has acted on the recommendation, the custodian shall require any advance deposit or advance payment otherwise warranted by this section to be made but shall inform the requestor that waiver is under consideration and may defer any action requiring deposit or payment, if desired by the requestor, until waiver has been granted or denied.

~~(7)~~ *Waiver by officer.* Any Officer of the Postal Service, as defined in § 221.7 of this chapter, or his designee, may waive in whole or in part any fee required by this part or the requirement for advance payment or advance deposit of any fee.

(8) *Waiver of fee for changes of address.* The fee prescribed by paragraph (d) of this section is waived in the following circumstances for providing change of address information for:

(i) Telegraph companies when the sender of the telegram is the U.S. Government.

(ii) Federal, state, and local public health officials when the persons being sought are infected with or exposed to contagious diseases.

(iii) Federal, state, and local government agencies, upon certification that the change of address is required for the performance of their duties, and all other known sources for obtaining the change of address have been exhausted.

(iv) Postage meter manufacturers when they are attempting to locate a missing meter.

(f) *Accounting for fees.* Custodians shall account for fees paid in accordance with this section as follows:

(1) Deposit fees received as postal funds. Record the amounts collected as write-in entries to A/C 49299, Miscellaneous. Other than U.S. Government Agencies, in the cashbook and statement of account. Record the manner paid, the amount received, and the number of hours used to compile lists or prepare copies of other records released on the request for this information. Attach written replies to the customer's request stating the number of hours required to prepare information and the amount to be charged in lieu of the above notation. File materials chronologically.

(2) Forward fees received for information furnished by postal data centers, automatic data processing centers (ADPC), and regional offices to the disbursing officer at the appropriate postal data center for deposit, specifying the proper account number to be used for recording the amounts collected. Postal data centers, ADPC's, and Headquarters offices providing record retrieval as described in paragraph (b)(3) of this section, plus the fees covered in paragraphs (b)(1) and (2), (c) and (d) of this section will enter the fees in A/C 40990, Miscellaneous; ADPC complexes will enter in A/C 49299, Miscellaneous, Other than U.S. Government Agencies. Other installations will enter all fees deposited in A/C 40990.

(39 U.S.C. 401; 5 U.S.C. 552(a)(4)(A))

ROGER P. CRAIG,
Deputy General Counsel.

[17 CFR Part 200]

[Release Nos. 33-5556, 34-11184, 35-18772, 39-376, IC-8639, IA-433; File No. S7-546]

SCHEDULE OF FEES FOR DOCUMENT SEARCH AND DUPLICATION SERVICES

Opportunity To Submit Comments

On November 21 1974, the Congress passed over the veto of President Ford a series of amendments to the Freedom of Information Act (the "Act"), 5 U.S.C. Section 552, which go into effect on February 19, 1975, 90 days from the date of enactment. Under the new law, all agencies are required to establish, "pursuant to notice and receipt of public comment," a uniform fee schedule applicable to all requests made pursuant to the Act .

The Commission has previously established a schedule of fees applicable to search and duplication services provided in response to a request under the Act. Duplication services are presently performed by the Commission's contractor and the fees charged the public are the same fees provided in our agreement with the contractor. Fees for search services are related to the cost to the agency of providing the services of a clerical employee. The Commission proposes to continue in effect its existing fee schedule.

The Commission's present rule provides that no fee shall be imposed for search services requiring less than one-half man-hour of work; this provision will be continued in effect. Continuation of this provision is consistent both with the

purposes served by the Act and with the Commission's role, as a depositary of information with respect to securities and issuers, in providing ready access to that information.

Present regulations also provide that no charge will be made for time devoted to an attempt to locate a record which was adequately identified when the attempt is unsuccessful unless, after the requester is notified that the record could not be found, the search is continued at his insistence. This provision will also remain in effect.

The Commission proposes to amend the present provisions of 17 CFR 200.80 (g) to provide:

(g) A current schedule of fees for record services, including locating and making records available, attestations and copying appears in Appendix E to this Subpart D, 17 CFR 200.80e. Copies of the current schedule of fees may also be obtained upon request made in person, by telephone or by mail from the public reference room or at any regional office of the Commission.

The remainder of paragraph (g), 17 CFR 200(g)(1) through 17 CFR 200(g)(5), will remain in effect as it now appears.

Appendix E to Subpart D, 17 CFR 200.80e, will appear as follows:

APPENDIX E—SCHEDULE OF FEES FOR RECORDS SERVICES

Searching and attestation services

Locating and making available records requested for inspection or copying (including overhead costs) [17 CFR 200.80(g)(1)]:

First ½ man-hour (no fee)	
Each additional ½ hour or fraction thereof	$2.50
Attestation with Commission Seal (in addition to other fees, if any) [17 CFR 200.80(g)(3)]	2.00

Payments for the above services must be made by check or money order payable to: "Treasurer of the United States." Address mailed payments to: Comptroller, Securities and Exchange Commission, Washington, D.C. 20549.

Facsimile Copies of Documents [17 CFR 200.80(g)(4)(i)]

Copies of public records filed with or retained by the Commission are provided by a commercial copier at rates established by a contract between the copier and the Commission. All requests for facsimile copies should be directed to the Public Reference Section, Securities and Exchange Commission, Washington, D.C. 20549. Cost estimates with respect to any copying job will be supplied upon request by the Public Reference Section.

Copies, when authorized, will be sent directly to the purchaser by the contract copier unless attestation is requested. The purchaser will be billed by the copier for the cost of the copies plus postage or other delivery charges, if any. Payment of all copying charges must be made to the official copier, not to the SEC, in the manner specified on the company invoice. The purchaser will be billed separately by the Commission for searching and attestation services, if any, at the rates noted above.

All of the following facsimile copying services provide copies 8½" x 14" in size, regardless of the size of the original. Material to be copied which cannot be copied onto one 8½" x 14" page without reducing character images to less than 6-point type size will be copied on two pages which the purchaser may match and join.

The following types of facsimile copying services are available. The stated time for delivery in each case begins to run only after receipt of the material by the contractor; if files cannot immediately be made available by the Commission, the time of shipment will be affected.

Regular service: Photostatic copies of originals or of other hard copies will be shipped within four working days after material is received by the contractor—per page	$0.15
Minimum charge per order for regular service	2.00
Delivery costs are additional.	
Priority service: Photostatic copies of originals or of other hard copies received by the contractor by the close of a business day will be shipped by the close of business of the following day—per page	$0.30
Minimum charge per order for priority service	5.00
Delivery costs are additional.	
Watching services: (1) Photostatic copies of Form N-1Q filings may be ordered in advance on a "when-filed" basis. Subscriber to this service may designate companies the filings of which he wishes to receive. Copies shipped by the close of business of the working day following receipt by contractor—per page	$0.40
Minimum charge per order	5.00
Delivery costs are additional.	
(2) Photostatic copies of a type of filing (e.g., S-1, S-2, S-3, S-16, Proxy, 8K) on a "when-filed" basis. Subscriber to this service may request automatic receipt of a specified type of filing. This service made available only for the complete filing as submitted to the Commission. Copies shipped by the close of business of the working day following receipt of documents by the contractor—per page	$0.40
Minimum charge per order	5.00
Delivery costs are additional.	
(3) Any non-standard demands requested by the customer, such as selection criteria not specified above in connection with watch services, may include a special order handling charge to be negotiated between the contractor and the customer depending on additional order handling requirements. Please address all requests for information to: Disclosure, Inc., 1400 Spring Street, Silver Spring, Md. 20910.	

Self-Service Copying Facilities [17 CFR 200.80(g)(4)(ii)]

In addition to the copying services described above, the contract copier maintains customer operated machines in the public references rooms of the Commission in Washington, D.C., New York, Los Angeles, and Chicago. These machines can be used to make immediate copies of material available for inspection in those offices, at a cost of 12 cents per page (up to 8½" x 14" in size).

Microform Copies of Documents [17 CFR] 200.80(g)(4)(iii)]

The Contractor also offers certain microform copying services pursuant to the contract. Microfiche copies are offered in a variety of subscription and special order services. Arrangements also may be made to subscribe to reports of companies selected by the requester, or to obtain microfiche of individual documents. The cost of microfiche service varies according to the type of service and the volume.

The Contractor supplying these services will supply information and price lists upon request. Please address all requests for information, and all orders for microform copies to: Disclosure, Inc., 1400 Spring Street, Silver Spring, Maryland 20910.

Interested persons are invited to submit their views on whether the proposed fee schedule should be adopted. To be considered, written statements of views and comments should be submitted to the Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549 on or before February 12, 1975. All such communications should refer to File No. S7-546, and will be available for public inspection.

By the Commission.

SHIRLEY E. HOLLIS,
Assistant Secretary.

JANUARY 16, 1975.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 76]

[Docket No. 20247]

CABLE TELEVISION ANNUAL FINANCIAL REPORT

Extension of Time for Comments

Order extending time (39 FR 42922).

In the matter of Amendment of Part 76, Subpart I of the Commission's rules and regulations with respect to the Cable Television Annual Financial Report (FCC Form 326), Docket No. 20247.

1. The National Cable Television Association, by petition dated December 27, 1974, has requested a three week extension of time for filing comments in Docket 20247. In support, it is alleged that the technical nature of the inquiry requires that the Association receive input from the industry to file informed comments and the holiday vacations have delayed preparation of their comments.

2. It appears that good cause has been shown for a time extension. However, we are hopeful of resolving this proceeding promptly, and believe a two week rather than a three week extension is appropriate. Reply comments will be rescheduled accordingly.

Accordingly, it is ordered, Pursuant authority delegated under § 0.289 of the Commission's rules, that the National Cable Television Association's petition for an extension of time is granted, to the extent indicated above and that the times for filing comments and reply comments in the above-captioned proceeding are extended until January 17, 1975 and January 27, 1975, respectively.

Adopted: January 7, 1975.

Released: January 13, 1975.

DAVID KINLEY,
Chief,
Cable Television Bureau.

notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF STATE

[Public Notice CM-5/5]

U.S. NATIONAL COMMITTEE FOR THE INTERNATIONAL TELEGRAPH AND TELEPHONE CONSULTATIVE COMMITTEE

Notice of Study Group Meeting

The Department of State announces that Study Group 1 of the U.S. CCITT National Committee will meet on February 13, 1975 at 10:30 a.m. in Room 752 of the Federal Communications Commission, 1919 M Street, NW., Washington, D.C. This Study Group deals with U.S. Government regulatory aspects of international telegraph and telephone operations and tariffs.

The agenda of the February 13 meeting will include continued consideration and development of positions the U.S. should take at international CCITT meetings on a variety of questions left unresolved following the meeting announced in the FEDERAL REGISTER of November 7, 1974 (39 FR 39479). Included will be a further review of developments which have occurred at international CCITT meetings during 1974 concerning general tariff principles covering the lease of telecommunication circuits.

Members of the general public who desire to attend the meeting on February 13 will be admitted up to the limits of the capacity of the meeting room.

Dated: January 13, 1975.

RICHARD T. BLACK,
Chairman,
U.S. National Committee.

AFROTC ADVISORY PANEL

Notice of Meeting

JANUARY 14, 1975.

Members of the Air Force ROTC Advisory Panel will meet on January 27, 1975, commencing at 9 a.m. in room 4E871 of the Pentagon.

During this annual meeting, the participants will review 1974 actions on panel recommendations and discuss scholarships, course credit, status of AFROTC, enrollment/production, recruiting, retention, minority groups, women, technical specialties, flyers, summer encampments, multiple factor system, institutional reimbursement, and accession needs. An executive session and report to the Secretary of the Air Force are scheduled in the afternoon.

For further information on this meeting, contact Colonel Jack Tebo, Executive Secretary, AFROTC Advisory Panel, on 202-695-4477.

STANLEY L. ROBERTS,
Colonel, USAF, Chief, Legislative Division, Office of The Judge Advocate General.

F-15 BEDDOWN AT LANGLEY AIR FORCE BASE, VA.

Notice of Public Hearing

JANUARY 13, 1975.

In accordance with the National Environmental Policy Act (42 U.S.C. 4321 et seq.), the United States Air Force will conduct an informal public hearing in Hampton, Virginia, on January 29, 1975, concerning the draft environmental statement on a proposal to beddown F-15 fighter jets at Langley Air Force Base, Virginia. The hearing is scheduled to begin at 7:30 p.m. in the C. Alton Lindsay Junior High School, 1636 Briarfield Road, Hampton, Virginia.

The draft environmental statement discusses the proposal to phase in 72 F-15 fighter jets beginning in January, 1976, and ending by January, 1977. Coincident with the phase in of F-15 aircraft will be the phasing out of 47 operational C-130 turboprop transport aircraft. The change in mission is expected to result in a net average daily increase of 20.7 take-offs and landings. An increase in noise from the F-15 operations will impact on an additional 2,230 people in a 46 acre area.

Individuals desiring to participate in the hearing are asked to submit a request in writing to Colonel James E. Mathews, Staff Judge Advocate, 4500th Air Base Wing, Langley Air Force Base, Virginia 23665, or by calling his office on 804-764-3276. Copies of the draft statement may be obtained from Headquarters, Department of the Air Force, Directorate of Civil Engineering, Environmental Planning Division, Washington, D.C. 20330, or Office of Information, 4500th Air Base Wing, Langley Air Force Base, Virginia 23665.

WALTER G. FENERTY,
Acting Chief, Legislative Division, Office of The Judge Advocate General.

Office of the Secretary

SCIENCE BOARD TASK FORCE ON "ELECTRONIC TEST EQUIPMENT"

Advisory Committee Meeting

Pursuant to the provisions of Pub. L. 92-463, notice is hereby given that the Defense Science Board Task Force on "Electronic Test Equipment" will meet in open session on 13 and 14 February 1975 in Room 1E801, the Pentagon, Washington, D.C. Each session will commence at 9 a.m.

The mission of the Defense Science Board is to advise the Secretary of Defense and Director of Defense Research and Engineering on overall research and engineering and to provide long-range guidance in these areas to the Department of Defense.

The primary responsibility of the Task Force is to examine the greater use by the Department of Defense of privately developed, commercially available off-the-shelf electronic test equipment, including modifications thereof, with the goal of achieving economy and reliability benefits for the several armed services and to recommend policies and procedures which will maximize these benefits.

This will be the first meeting of the Task Force. The planned agenda includes organizational matters and administrative arrangements for conducting the Task Force activities; detailed review and discussion of the charter; discussion of ways and means of achieving the objectives specified therein; translation of objectives into specific tasks; and assignment of work to the members.

Due to the limited time and space availability, it is requested that persons interested in attending the DSB Task Force meeting provide written notice to the address indicated below by February 6, 1975. Notices should include information with respect to interest and degree of participation.

Mr. John A. Mittino
Director, Weapons Support Systems
OASD (I&L) WS Room 2A318, Pentagon
Washington, D.C. 20301

Telephone inquiries may also be made of Mr. Mittino at (202) 695-0121.

Dated: January 15, 1975.

MAURICE W. ROCHE,
Director, Correspondence and Directives, OASD (Comptroller).

[FR Doc.75-1707 Filed 1-17-75;8:45 am]

ADVISORY GROUP ON ELECTRON DEVICES AND CERTAIN WORKING GROUPS

Meetings

The Department of Defense Advisory Group on Electron Devices and various working groups thereof will meet in closed sessions on dates indicated below at 201 Varick Street, New York, New York:

Working Group A (Mainly Microwave Devices), February 11, 1975.
Working Group B (Mainly Low Power Devices), February 11, 1975.
Working Group C (Mainly Imaging and Display Devices), February 13, 1975.
Advisory Group on Electron Devices, February 25, 1975.

The purpose of the DOD Advisory Group on Electron Devices, and various working groups thereof, is to provide the Director of Defense Research and Engineering and the Military Departments with advice and recommendations on the conduct of economical and effective research and development programs in the field of electron devices: e.g., lasers, radar tubes, transistors, infrared sensors, etc. The group is also the vehicle for interservice coordination of planned R&D efforts.

In accordance with Pub. L. 92-463, section 10, paragraph (d), it is hereby determined that the AGED meetings concern matters listed in section 552(b) of Title 5 of the United States Code, particularly subparagraph (1) thereof, and that the public interest requires such meetings be closed insofar as the requirements of subsections (a) (1) and (a) (3) of section 10, Public Law 92-463 are concerned.

Dated: January 15, 1975.

MAURICE W. ROCHE,
Director, Correspondence and Directives, OASD (Comptroller).

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

CONTROLLED SUBSTANCES IN SCHEDULES I AND II

1975 Final Aggregate Production Quotas

Section 306 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 826) requires the Attorney General to establish aggregate production quotas for all controlled substances in Schedules I and II each year. This responsibility has been delegated to the Administrator of the Drug Enforcement Administration pursuant to § 0.100 of Title 28 of the Code of Federal Regulations.

On December 13, 1974, a notice of the proposed aggregate production quotas for these substances was published in the FEDERAL REGISTER (39 FR 241). All interested parties were invited to comment on or object to the proposed aggregate production quotas on or before January 13, 1975. Except with reference to Methylphenidate, no requests for hearings have been received by the Administration relative to the proposed quotas. Comments and objections relative to the proposed aggregate production quotas have been received from Western Fher Laboratories relative to Phenmetrazine, from Hoffman-La Roche Inc. relative to Alphaprodine, from Eli Lilly and Company relative to Amobarbital and Secobarbital, and from Richardson-Merrell Inc. relative to that portion of the Desoxyephedrine quota allocated for the production of Levo-Desoxyephedrine for use in the manufacture of a non-controlled substance. Specific details relative to these comments will be outlined in a future FEDERAL REGISTER notice.

Due to the fact that a request for a hearing has been received by the Administration with reference to the proposed aggregate production quota for Methylphenidate, the aggregate production quota for Methylphenidate does not appear in this order.

Based upon consideration of the factors set forth in 39 FR 241, the Administrator of the Drug Enforcement Administration, under the authority vested in the Attorney General by section 306 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 826) and delegated to the Administrator by § 0.100 of Title 28 of the Code of Federal Regulations orders that the aggregate production quotas for 1975 for controlled substances, expressed in grams in terms of their respective anhydrous bases, be established as follows:

SCHEDULE I	*Granted (1975)*
Basic class:	
1-alpha-acetylmethadole	300,000
Tetrahydrocanabinols	500
SCHEDULE II	
Alphaprodine	34,500
Amobarbital	12,504,986
Amphetamine	3,291,300
Anileridine	88,133
Apomorphine	2,000
Cocaine	600,000
Codeine (for sale)	46,273,000
Codeine (for conversion)	1,165,000
Desoxyephedrine	[1] 1,215,374
Dihydrocodeine	721,000
Diphenoxylate	1,133,000
Ecogrine	200,000
Ethylmorphine	44,680
Fentanyl	2,000
Hydrocodone	800,000
Hydromorphone	70,200
Levorphanol	3,000
Methadone	3,245,000
Methadone Intermediate (4-cyano-2 dimethyl-amino-4, 4-diphenyl butane)	1,350,000
Methaqualone	19,668,335
Mixed Alkaloids of Opium	163,321
Basic class—Con.	*Granted (1975)*
Morphine (for sale)	600,000
Morphine (for conversion)	42,182,000
Norpethidine	830,000
Opium (tinctures, extracts, etc. expressed in terms of opium)	1,904,000
Oxycodone (for sale)	1,769,400
Oxycodone (for conversion)	7,000
Oxymorphone	3,000
Pentobarbital	28,119,000
Pethidine	17,057,415
Phenazocine	225
Phenmetrazine	2,741,709
Secobarbital	18,450,000
Thebaine (for sale)	4,250,000
Thebaine (for conversion)	1,750,000

[1] (758,108 grams for the production of Levodesoxyephedrine for use in a non-controlled product, and 457,268 for production of Methamphetamine).

Pursuant to Title 21 Code of Federal Regulations, § 1303.23(c) the Administrator of the Drug Enforcement Administration will in early 1975 adjust individual manufacturing quotas allocated for 1975 based upon 1974 end of year inventory figures submitted by applicants and estimates of medical and scientific requirements to be provided by the Food and Drug Administration.

All persons who submitted an application for either an individual manufacturing quota or procurement quota for 1975 will be notified by mail as to their respective 1975 quota established by the Drug Enforcement Administration.

This order is effective on January 20, 1975.

Dated: January 15, 1975.

JOHN R. BARTELS, JR.,
Administrator,
Drug Enforcement Administration.

DEPARTMENT OF THE INTERIOR
U.S. FISH AND WILDLIFE SERVICE

FEDERAL FISH AND WILDLIFE
LICENSE/PERMIT APPLICATION

1. APPLICATION FOR (Indicate only one)
☐ EXPORT OR EXPORT LICENSE ☒ PERMIT

2. BRIEF DESCRIPTION OF ACTIVITY FOR WHICH REQUESTED LICENSE OR PERMIT IS NEEDED.
Export two male and one female captive born Jaguar (endangered species) to Venezuela to participate in a supervised scientific reintroduction program under the auspices of Dr. Pedro Trebbau, Director, Jardin Zoologico, Caracas, Venezuela. The animals will also be used in natural history studies in semi-natural and natural conditions in Venezuela.

3. APPLICANT. (If name, complete address and phone number of individual, business, agency, or institution for which permit is requested)
National Zoological Park,
Washington, DC 20009
USA

4. IF "APPLICANT" IS AN INDIVIDUAL, COMPLETE THE FOLLOWING:
☐ MR. ☐ MRS. ☐ MISS ☐ MS. | HEIGHT | WEIGHT
DATE OF BIRTH | COLOR HAIR | COLOR EYES
PHONE NUMBER WHERE EMPLOYED | SOCIAL SECURITY NUMBER
OCCUPATION

5. IF "APPLICANT" IS A BUSINESS, CORPORATION, PUBLIC AGENCY, OR INSTITUTION, COMPLETE THE FOLLOWING:
EXPLAIN TYPE OR KIND OF BUSINESS, AGENCY, OR INSTITUTION
Exhibition, care and propogation of animals in captivity. The National Zoo also initiates and participates in scientific investigations of animals in captive, semi-natural and natural conditions

ANY BUSINESS, AGENCY, OR INSTITUTIONAL AFFILIATION HAVING TO DO WITH THE WILDLIFE TO BE COVERED BY THIS LICENSE/PERMIT

NAME, TITLE, AND PHONE NUMBER OF PRESIDENT, PRINCIPAL OFFICER, DIRECTOR, ETC.
Dr. Theodore Reed, Director 381-7222
IF "APPLICANT" IS A CORPORATION, INDICATE STATE IN WHICH INCORPORATED
N/A

6. LOCATION WHERE PROPOSED ACTIVITY IS TO BE CONDUCTED
Export from Washington, DC to Caracas Venezuela direct.

7. DO YOU HOLD ANY CURRENTLY VALID FEDERAL FISH AND WILDLIFE LICENSE OR PERMIT? ☒ YES ☐ NO
(If yes, list license or permit numbers)
PRT-5-3-X

8. IF REQUIRED BY ANY STATE OR FOREIGN GOVERNMENT, DO YOU HAVE THEIR APPROVAL TO CONDUCT THE ACTIVITY YOU PROPOSE? ☒ YES ☐ NO
(If yes, list jurisdictions and type of documents)
See attachments. (communication w/ Trebau; grant proposal)

9. CERTIFIED CHECK OR MONEY ORDER (If applicable) PAYABLE TO THE U.S. FISH AND WILDLIFE SERVICE ENCLOSED IN AMOUNT OF
$

10. DESIRED EFFECTIVE DATE
Dec 15, 1974

11. DURATION NEEDED
90 days

12. ATTACHMENTS. THE SPECIFIC INFORMATION REQUIRED FOR THE TYPE OF LICENSE/PERMIT REQUESTED (See 50 CFR 13.12(a)) MUST BE ATTACHED, IT CONSTITUTES AN INTEGRAL PART OF THIS APPLICATION. LIST SECTIONS OF 50 CFR UNDER WHICH ATTACHMENTS ARE PROVIDED.
See attachments.

CERTIFICATION

I HEREBY CERTIFY THAT I HAVE READ AND AM FAMILIAR WITH THE REGULATIONS CONTAINED IN TITLE 50, PART 13, OF THE CODE OF FEDERAL REGULATIONS AND THE OTHER APPLICABLE PARTS IN SUBCHAPTER B OF CHAPTER I OF TITLE 50, AND I FURTHER CERTIFY THAT THE INFORMATION SUBMITTED IN THIS APPLICATION FOR A LICENSE/PERMIT IS COMPLETE AND ACCURATE TO THE BEST OF MY KNOWLEDGE AND BELIEF. I UNDERSTAND THAT ANY FALSE STATEMENT HEREIN MAY SUBJECT ME TO THE CRIMINAL PENALTIES OF 18 U.S.C. 1001.

SIGNATURE (In ink) Miles S. Roberts — DATE December 5, 1974

3-200 (6/74) — INSTRUCTIONS ON REVERSE

DIRECTOR, FISH AND WILDLIFE SERVICE
U.S. Department of the Interior
Washington, D.C. 20240
(Attention Law Enforcement).

DECEMBER 5, 1974.

DEAR SIR: Below is permit application per paragraph 17.23, USDI Fish & Wildlife Regulations, Vol. 39, Number III for the export of 2.1 Jaguar (*Panthera onca*) from the National Zoological Park, Washington, D.C. to the Jardin Zoologicos Parque, Caracas, Venezuela.

17.23

1. Jaguar (*Panthera onca*)—two males born October 11, 1974 at the National Zoological Park and one female born in May 1974 at the Atlanta Zoo, Atlanta, Georgia.

2. Enclosed is a communique between Smithsonian Institution and Dr. P. Trebbau establishing agreement under which wildlife is to be imported into Venezuela. The three animals will be a gift from the National Zoological Park to the Government of Venezuela.

3. The Smithsonian Institution, National Zoological Park, is undertaking a major ecological investigation program in Venezuela in cooperation with the Organisation for the Conservation of Natural Resources in Venezuela, the Ministry of Rural Affairs, and the Jardin Zoologico, Caracas. Part of the research program involves ecological, behavioral, and reproductive investigations of the Jaguar (*Panthera onca*) to be conducted principally by Dr. G. G. Montgomery, National Zoological Park, and Dr. P. Trebbau, Director of Zoological Parks, National Institute of Parks, Venezuela.

It is proposed (see attachment) that the three animals to be exported will be released into a 100 meter x 50 meter compound enclosing a portion of natural forest. In this compound, basic natural history, growth and development and reproductive data will be recovered from these animals to be correlated with work being conducted simultaneously on a natural, wild population of Jaguars elsewhere in Venezuela. Additionally the feasibility of reintroducing these three animals into nature will be studied. This aspect of the study is extremely important as it will give valuable information as to the feasibility of reintroducing captive born carnivores back into nature. If reintroduction is deemed unfeasible, the animals will be taken to the Jardin Zoologico in Caracas where they will become part of an ongoing program of reproduction and natural history study under the auspices of Dr. Trebbau.

4. The three Jaguars will be maintained in a 100 meter x 50 meter fenced compound enclosing natural Venezuelan forest in a protected watershed area 15 miles east of Caracas. The animals will be maintained by personnel from the Smithsonian/Venezuelan Research Program and the National Institute of Parks, Venezuela. For technical purposes the address for the base of operations for the Jaguar Program will be:
Dr. Pedro Trebbau
Direccion de Parques Zoologicos
Parqua Caricuao
Apdo. 28058
Caracas 102, Venezuela

5. All three of the animals involved in this permit application were captive born in the United States in approved zoos. (See paragraph 1)

6. As these animals were all captive born no impact will be effected on natural populations of Jaguar except in a positive sense.

7i. The area where the animals will be maintained is a completely enclosed natural forest area 15 miles east of Caracas. The compound is 100 meters x 50 meters and is located in a protected (patrolled by the National Institute of Parks security) watershed area.

7ii. Technical expertise will be supplied by the National Zoological Park, Smithsonian Institution; the National Institute of Parks, Venezuela; and the Organization for the Conservation of Natural Resources in Venezuela. All three of these organizations have the most serious interest in the preservation of wildlife and the National Zoo and the Institute of Parks have had extensive experience in reproducing many diverse species of animals. Both the National Zoo and the Institute of Parks have successfully reproduced the Jaguar in captivity and both organizations intend to continue to do so.

7iii. The National Zoo, the Institute of Parks, and the Organization for the Conservation of Natural Resources will readily participate in cooperative breeding programs and in the maintenance of a studbook on *Panthera onca*.

7iv. The animals will be shipped in wooden, metal reinforced crates approximately 48" long x 24" wide x 36" high. Water pans will be included in the cage but as in-transit time is estimated at less than 12 hours no special accommodations will be made for feeding. The animals will be accompanied, in transit, by either Dr. John Eisenberg of the National Zoo or by Dr. Dale Marcellini also of the National Zoo. Special arrangements, as necessary, will be made by the accompanying official.

The animals will be aided through customs and health inspection by both the accompanying official and Dr. Pedro Trebbau. The animals will then be sent to the Jardin Zoologicos, Caracas, for necessary quarantine under the supervision of a registered veterinarian.

These animals are to be used in a research project which is a part of a broad ecological investigation of the Wildlife of Venezuela. The research project goals are to obtain information on this specific endangered species and to investigate the feasibility of "restocking" wild populations with captive born animals. This end can be seen as an attempt to achieve one logical endpoint of the captive propagation of endangered species. This approach is all the more appropriate and salient at this time in view of the fact that zoos appear close to the saturation point in Jaguars. This contention is supported by the fact that the National Zoo and other zoos, have recently encountered great difficulty in disposing of their Jaguar surpluses. The National Zoo, for example, attempted to dispose of a surplus pair on the zoo market for more than five months during 1973/74.

Your prompt attention to this application is appreciated.

Sincerely yours,

MILES S. ROBERTS,
Assistant Curator, South Mammal Unit, Office of Animal Management, National Zoological Park.

INTRODUCTION

Basic ecological and behavioral studies for many mammalian species in the neotropical region are virtually nonexistent. Adequate information concerning numerical abundance, distribution, feeding patterns, reproductive cycles, and biomass estimates for a wide variety of vertebrate species are indispensable for conservation and management efforts. Conservation efforts directed toward the preservation of neotropical species have lagged behind comparable efforts in other parts of the world. The need for sustained research in neotropical habitats is becoming more critical as habitat destruction and competition for land use are increasing logarithmically through South America.

We propose to offer two programs to the appropriate agencies in Venezuela: (a) an instructional program including some lectures, but mostly practical field work to be implemented through a university chosen by the relevant Venezuelan officials. This instructional program to concern itself with tropical ecology and wildlife management techniques.

(b) We propose to establish, through the medium of the teaching program, surveys in selected Venezuelan habitats to determine numerical abundance, feeding patterns, reproductive cycles, and biomass estimates for selected mammalian and avian species.

The data gathered and the instructional program should find direct applications in the area of wildlife management and in the maintenance of national park systems in Venezuela.

Preliminary efforts concerning censusing, biomass estimation, carrying capacity estimation, and a variety of ecological studies have been carried out on Barro Colorado Island in the Panama Canal Zone by Eisenberg, Thorington, Montgomery, and Sunquist. Radio-tracking techniques developed by Montgomery have been successfully applied to sloth populations (*Bradypus* and *Choloepus*) as well as to anteaters (*Tamandau* and *Cyclopes*) (Montgomery and Sunquist, in press; Sunquist and Montgomery, 1973). The structure of the neotropical mammalian fauna on Barro Colorado Island is analyzed in the publication by Eisenberg and Thorington (1973). The role of the sloth in neotropical ecosystems has been discussed and summarized by Montgomery and Sunquist (in press).

Our studies on Barro Colorado Island point up the important contribution to the ecosystem made by primates, edentates, and caviomorph rodents. The small size of Barro Colorado Island (15 km²) imposes an unnatural restriction on the ecosystem by limiting or excluding populations of large herbivores, such as *Tapirus* and *Odocoileus*, as well as their predator complements, the larger cats. We feel it is imperative that the techniques developed on Barro Colorado Island be applied to a more representative ecosystem in tropical America. The use of techniques developed on Barro Colorado Island and in the tropical forests of Ceylon (Eisenberg and Lockhart, 1972) should prove invaluable in the comprehensive study of mammalian ecology which we propose.

The practical application which might accrue from such studies includes the development of programs for the orderly harvesting of some species on sustained basis (see Ojasti, 1973). Recent demands for laboratory primates makes such programs highly desirable. The basic ecological data on which to base such programs is still unavailable on primate populations and many areas are suffering from a lack of proper management.

The principal investigators have had a great deal of experience studying tropical mammalian ecology; Eisenberg has worked in Panama, Madagascar, and Ceylon and has been responsible for an ecological survey on Ceylon comparable to the one proposed herein (Eisenberg et al, 1972). Dr. Montgomery first successfully applied radiotracking to a neotropical edentate in his classical study of the sloths (*Bradypus* and *Choloepus*) on Barro Colorado Island, Panama (see Montgomery et al, 1973). Dr. Kleiman is one of the foremost authorities on the behavior of neotropical caviomorph rodents (Kleiman, 1970, 1971, 1973, 1974).

The team of senior investigators will provide training for graduate students in the process of studying the two proposed neotropical ecosystems. We anticipate that at least 40 percent of the field effort will be accomplished by a training program involving graduate students drawn from Venezuelan universities.

The following sections outline the specific aims of the research program, procedures to be used, and personnel schedules.

CARNIVORES

In keeping with our attempt to access the role of predators in the communities under study, we wish to enter into a three-year study of the larger cats. Considerable interest in the ocelot, *Felis pardalus*, will necessitate radio-tracking operations in Guatopo National Park and/or other areas to be selected. Montgomery will assume primary responsibility for the development of this project with aid from the World Wildlife Fund. At the conclusion of the first year's study of ocelot behavior, Montgomery should

[1] Resident Scientist, Office of Zoological Research, National Zoological Park, Smithsonian Institution, Washington, DC. 20009. Tel.: Area code 202-381-7249.

V40113 JAN2075 XUM

be in a position to initiate research on the jaguar, *Panthera onca*. The jaguar can be studied in Guatopo National Park, but a second study site may be selected, given appropriate reconnaissance. The presence of the jaguar in Guatopo was confirmed by Koford in 1973. A detailed plan of the operation will be forthcoming from Montgomery pending his return from Venezuela in July of 1974.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Service's office in Suite 600, 1612 K Street, N.W., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/LE), Fish and Wildlife Service, Post Office Box 19183, Washington, D.C. 20036. All relevant comments received on or before February 19, 1975 will be considered.

Dated: January 13, 1975.

C. R. BAVIN,
Chief, Division of Law Enforcement, U.S. Fish and Wildlife Service.

T. H. Reed, D.V.M.,

DIRECTOR,
Fish & Wildlife Service
Law Enforcement Division
U.S. Department of Interior
Washington, D.C. 20240

DECEMBER 16, 1974.

DEAR SIR: The undersigned hereby applies for an importation permit under Section 10(a) of the Endangered Species Act of 1973. We submit the following information pursuant to Sections 13.12 and 17.23 of Volume 39, No. 3, Part III of the FEDERAL REGISTER.

Section 17.23

(1) Common Name—White-winged wood duck; Scientific Name—*Cairina scutulata;* Number and description—Two males, 1974 hatch, Two females, 1974 hatch.

(2) These birds will be imported under a breeding loan agreement between the National Zoological Park and the consignor, The Wildfowl Trust, Slimbridge, Gloucestershire, Great Britain. (See copy of enclosed letter.)

(3) The birds for which this permit is sought were hatched and reared from eggs laid in captivity at The Wildlife Trust, Slimbridge, Gloucestershire, Great Britain. The parents and/or grandparents were reared from eggs collected in the wild in Assam under World Wildlife Fund Project #406, beginning in 1969.

That project consisted in part of collecting eggs during a deforestation project which was eliminating habitat of this forest dwelling bird. Eggs were hatched cooperatively and the young were reared on his tea plantation by Mr. M. J. S. McKenzie.

Young were distributed as follows, hopefully for propagation. Four went to the Gauhati Zoo, Assam. Four females and two males went to the Wildlife Trust in England. Four were to come to the National Zoological Park in Washington or to the collection of Dr. S. Dillon Ripley at Litchfield, Connecticut.

However, the three young which became available, products of the last rescue effort, were stopped by the U.S.D.A. waterfowl import embargo, aimed at Dutch duck disease. The three birds were sent to the Parc Zoologique de Cleres, at Cleres, France, Captain Jean Delacour's collection, for holding. One of the birds died during the two years they spent there. Then the U.S.D.A. Newcastle disease import embargo on all birds took effect. Finally, on March 14, 1974, one pair was received at the National Zoological Park. And on April 24, 1974, the male succumbed to what proved to be avian tuberculosis of long standing. The one female is being held in a large covered aviary at the National Zoological Park. To our knowledge, she is the only representative of the species in the U.S.A.

We have not heard that the birds at Gauhati Zoo have reproduced. The birds which went to Slimbridge in 1969 or 1970, however, produced gradually increasing numbers of young until about 30 were hatched in 1974. It is four of these birds we are asking for.

We plan to try to establish a compatible breeding situation among some of the two males and three females we hope to have after this importation. We want to study nutritional requirements, food preferences, breeding biology, behavior, nest preferences, artificial and natural egg incubation requirements, growth and maturation rates, fledging patterns and cage space preferences. In addition to these activities, we will try to build up a breeding population in the U.S., where the species has been displayed only rarely and sporadically.

When we have established a breeding nucleus at the National Zoological Park, we will transfer our major breeding effort to our Conservation and Research Center at Front Royal, Virginia. There we are starting sustained breeding programs for endangered and/or threatened species.

Some of the birds would be in display at the National Zoological Park almost continuously. Explanation of the nature of the project would be displayed with the birds. Thus our approximately 5,000,000 annual visitors would have the opportunity to share in it.

Benefits to wild populations can occur in two areas. The first would be the feeding back of basic biological data, now largely questionable, to Indian wildlife conservators and biologists. Parallel intensive study of unknowns, at the National Zoo and at Slimbridge, should result in rapid development of facts. Secondly, we would help to establish a captive population which would be available for reintroduction to the wild, if in the future such action is warranted.

When a captive flock of sufficient size is amassed, further study should be made. Conditions of habitat in the wild should be assessed, possibly by a Smithsonian sponsored reconnaissance, to determine whether we should breed for reintroduction or for maintenance of a captive population. If the latter course were adopted we believe now that we would want to disseminate any surplus to other qualified bird breeders and zoos.

The results, observations and scientific data collected on the birds will be published in various avicultural and ornithological journals as well as the annual report of the National Zoological Park.

(4) The National Zoological Park consists of 160 acres in Rock Creek Park in Washington, D.C. 20009. It is operated by the Smithsonian Institution. It displays 125 species of mammals, 340 species of birds and 130 species of reptiles and amphibians. About 10% of a redesign and modernization program estimated to cost $70,000,000.00 has been started. Therefore, most, if not all, of its facilities are being or will be redone. It is operated by a staff of 300 people. Its animal health staff has eight people and its research staff consists of five scientists. The Birds Unit consists of the Curator, Head Keeper, two Biological Technicians and thirteen keepers.

The Front Royal Conservation and Research Center is 3100 acres located one mile south of Front Royal, Virginia, recently transferred to the National Zoological Park from U.S.D.A. It has been a beef breeding farm so facilities for hoofed stock are being prepared first. Some of those require only high fencing to be complete. Birds facilities are planned under the 1975-1976 budget. Several buildings are available, plus several trickling streams and adequate space.

(5) The four (4) white-winged wood ducks under this application were hatched in captivity at Slimbridge.

(6) Not applicable. No birds will be taken from the wild.

(7) (i) The birds will be housed initially in a wire mesh cage seventy-five feet long, forty feet wide and with an arched top approximately thirty feet high. This cage has an artificial stream running through it. City water supply is piped directly to the cage and forms the stream. This continuously running water is emptied into the District of Columbia sanitary sewer system. Within the cage there are two oval concrete pools about eight feet by ten feet and fourteen inches deep which interrupt the stream. Heated shelters are provided, one at ground level and three at a height of approximately twelve feet. Heat is by electric radiation.

The cage is planted with shrubs and small trees. Bamboo clumps will be added. One very large hollow tree with artificial floors beneath nesting holes at several levels has been added. The National Zoological Park has appropriations for additional plants as required.

The cage is in a sheltered valley, protected from wind. If necessary in wintertime the cage will be covered or partially covered with sheet plastic. In the event of weather which presents a real threat to the birds well-being, they can be moved into one of the large aviaries in the Bird House. Additional nesting sites are planned.

When more than one pair is formed, adequate additional pen space will be made available. The zoo has a total of about 120 cages, pens and aviaries, on and off display.

(7) (ii) Medical care for the birds will be under the direct supervision of the National Zoological Park veterinarians and pathologist. The behavioral aspects of their courtship and breeding patterns will be observed and recorded under the direction of the ornithologist in our Scientific Research Section, Dr. Eugene Morton. Recording by film, tape and slides is anticipated. Vocalization analysis and recordings are planned.

The management and care of the birds will be the direct responsibility of our Curator of Birds, Mr. Guy A. Greenwell, who has had many years experience in keeping and rearing wild waterfowl. Of the closely related waterfowl, Mr. Greenwell has kept and bred the wild muscovy duck, *Cairina moschata*, North American wood duck, *Aix sponsa*, the mandarin duck, *Aix galericulata*, and the lesser Brazilian teal, *Amazonetta b. brasiliensis*, for several many years. He has bred the greater Brazilian teal, *Amazonetta b. ipecutiri*, for fewer years, and he has kept but not bred the Old World comb duck, *Sarkidiornis m. melanotus*, and the black spur-winged goose, *Plectropterus gambensis niger*. Thus, of the whole tribe of the perching ducks, only the present species, the very rare Hartlaub's duck, *Cairina hartlaubi*, and the pygmy geese, *Nettapus* spp., are outside his experience.

Dr. S. Dillon Ripley, Secretary of the Smithsonian Institution, well-known ornithologist and aviculturist and one of the instigators and participants of the original World Wildlife Fund project, will participate as advisor on this project. Dr. Ripley is a scientific associate of the National Zoological Park and has worked closely with us in maintaining and breeding birds, particularly waterfowl. Too, he has rendered assistance and advice to the Gauhati Zoo for their birds. His advice to the National Zoo will be based on continuing interest in the welfare of the species.

(7) (iii) As the birds breed, full and complete records will be kept. Genetic bloodline interchanges will be sought. We will actively participate in maintenance of a studbook.

(7) (iv) Not applicable. Details of crating, feed and water containers, etc., should be left to the shippers. The Wildfowl Trust has more expertise in this field than anyone at this zoo or anyone who could possibly review this application. They are the only *concerned and experienced* white-winged wood duck shippers in the world.

Upon arrival at J.F.K. Airport the birds will be met by the U.S. Dispatch Agency of the U.S. Department of State and carried in bond to the U.S.D.A. animal quarantine station at Clifton, New Jersey, as U.S.D.A. requires. We will consult with the quarantine station management regarding diets and care as we do on all delicate imports. When the quarantine is completed, our Curator of Birds will pick up the birds at Clifton and take them to Washington, using the containers in which the birds are imported.

V 40 13 JAN 20 75 XUM

I hereby certify that I have read and am familiar with the regulations contained in Title 50, Part 13 of the Code of Federal Regulations and the other applicable parts in Subchapter B of Chapter I of Title 50, and I further certify that the information submitted in the application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement hereon may subject me to criminal penalties of the 18 U.S.C. 1001.

Very truly yours,

THEODORE H. REED, D.V.M.,
Director, National Zoological Park.

SEPTEMBER 5, 1974.

G. A. GREENWELL,
Curator of Birds, National Zoological Park, Smithsonian Institution, Washington, D.C. 20009, U.S.A.

DEAR GUY: Thank you for your letter, sorry I have not answered it sooner but you know how busy a breeding season can be.

We would certainly like to lend you two pairs of White-Winged Wood Duck. They will, of course, be on the same conditions as the Nene's were, that is the birds that are bred are not resaleable and are still Wildfowl Trust property although they can be loaned out to other zoo's with the Trust's approval.

If this is agreeable to you we are ready to ship the birds as soon as you can acquire a permit and a quarantine space.

No doubt you are now in the middle of your trip to Australia and then to Europe, so I will probably be seeing you before you receive this letter. I will in fact be in America on 16th of this month to attend the Federation Convention in New York.

Look forward to hearing from you.

Yours sincerely,

M. R. LUBBOCK,
Curator.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Service's office in Suite 600, 1612 K Street, N.W., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/LE), Fish and Wildlife Service, Post Office Box 19183, Washington, D.C. 20036. All relevant comments received on or before February 19, 1975 will be considered.

Dated: January 14, 1975.

LOREN K. PARCHER,
Acting Chief, Division of Law Enforcement, U.S. Fish and Wildlife Service.

SAN DIEGO ZOOLOGICAL GARDEN

Endangered Species Permit; Receipt of Application

Notice is hereby given that the following application for a permit is deemed to have been received under section 10 of the Endangered Species Act of 1973 (Pub. L. 93-205).

Applicant:
San Diego Zoological Garden
Post Office Box 551
San Diego, California 92112
Clyde A. Hill, Curator of Mammals

DECEMBER 11, 1974.

DIRECTOR (FWS/LE)
U.S. Fish & Wildlife Service
U.S. Department of the Interior
P.O. Box 19183
Washington, D.C. 20036

DEAR SIR: Title: Application to import one male and one female jaguar *Leo onca onca* from Fundasao Parque Zoologico de Sao Paulo, Brazil.

1. Common and scientific names of the species or subspecies, number, age, and sex of the wildlife to be covered in the permit. One black male jaguar born at the Sao Paulo Zoo on 16 August 1973. One female spotted jaguar born at the Goiania Zoo on 21 September 1974 now residing at the Sao Paulo Zoo. Both animals are *Leo onca onca* (listed as *Panthera onca* on the USDI endangered wildlife list).

2. Copy of the contract or other agreement under which such wildlife is to be imported, showing the country of origin, name and address of the seller or consignor, date of the contract, number and weight (if available), and description of the wildlife. Attached is a photocopy of a letter from the Director of the Sao Paulo Zoo which is an agreement for an exchange of one orangutan for the above described jaguars. Page 2 of Dr. Autuori's letter describes the country of origin, the birthplace of the animals and the birthplace of the animals' parents. The weight is also found on page 2. In addition there is a photocopy of the Brazilian Government's permit allowing the sale of jaguars.

3. A full statement of justification for the permit, including details of the project or other plans for utilization of the wildlife in relation to zoological, educational, scientific or propagational purposes as appropriate and the planned disposition of the wildlife upon termination of the project. Most jaguars in the United States cannot be traced to the subspecies level, in fact, most are subspecific hybrids because the species breeds rather well in captivity and zoos, generally, have not been particular about subspecies breeding lines. We are interested in establishing a breeding nucleus of a known subspecies. In addition, the black color phase is uncommon in zoological collections. Therefore, the male will be an excellent display animal and a demonstration of the natural phenomenon of melanism in animals.

Thus, San Diego will have a normal colored jaguar and a melanistic jaguar. Not only will the black jaguar be an eye-catching educational exhibit, he will also provide us with cubs carrying this trait. Black jaguars have always been valuable in the zoo market, therefore, cubs from this pair should be sought after by other zoos wishing to set up exhibits similar to ours.

Our present pair of jaguars are very old, in fact no longer productive. Their last cubs were born in 1968. The male will have been in the San Diego Zoo 18 years in May of 1975. The female will have been with us for 15 years next March. Many jaguars have been born at the San Diego Zoo in the present facility and have been shipped to zoos all over the world.

Because we accurately know the ancestry of the Sao Paulo cats they, and their progeny, will be valuable museum specimens upon their death both as scientific study specimens and exhibit specimens. Since museums must also obtain endangered species permits for collecting, zoo animals are more highly sought after by museums than ever before. The San Diego Zoo has always worked closely with various well known museums to provide them with specimens. Our mammal inventories are periodically sent to the American, Smithsonian, Denver and Los Angeles County natural history museums. Order lists from these museums (and others) are sent to us, allowing a minimum of delay passing on specimens.

4. A description and the address of the institution or other facility where the wildlife will be used or maintained. These animals will be held at the San Diego Zoo. This institution is owned by the City of San Diego but is managed and operated by a California non-profit corporation known as the Zoological Society of San Diego. The postal address is: San Diego Zoo, Box 551, San Diego, California 92112, telephone: 714-234-5151.

5. A statement that at the time of application the wildlife to be imported is still in the wild, was born in captivity, or has been removed from the wild. As documented in Dr. Mario Paulo Autuori's letter, both animals were captive born.

6. A resume of the applicant's attempts to obtain the wildlife to be imported from sources which would not cause the death or removal of additional animals from the wild. Both animals are zoo born, thua will not be a drain on the natural population of wild jaguars.

7. (i) A complete description, including photographs or diagrams, of the area and facilities in which the wildlife will be housed. The self-explanatory drawings are enclosed; this facility has proven to be successful in displaying and breeding the species.

(ii) A brief resume of the technical expertise available, including any experience the applicant or his personnel have had in propagating the species or closely related species to be imported. See enclosed personnel resumes.

(iii) A statement of willingness to participate in a cooperative breeding program and maintain or contribute data to a studbook. We are most willing to do both.

(iv) A detailed description of the type, size and construction of the container: arrangements for feeding, watering, and otherwise caring for the wildlife in transit; and the arrangements of caring for the wildlife on importation into the United States. As the director of the Sao Paulo Zoo stated in his letter on page 2, the animals will travel by Pan American to Miami. At Miami the animals will be met by our customs house broker, Mr. Jim Hamner, Novo, International Air Freight, P.O. Box 48/1292, Miami, Florida 33148. Mr. Hamner is well experienced with animal needs for not only has he been our broker for many years but has also been the broker for such wild animal firms as Charles Chase Company, 7330 NW. 66th Street, Miami, Florida 33166. Should any extra care be needed, the facilities of the Miami Zoo are nearby, see enclosed letter to director of Miami Zoo. From Miami the animals will travel via Airlift International to Los Angeles. We will meet the jaguars at Los Angeles and transport them to the San Diego Zoo. Although Dr. Autuori did not go into detail concerning the exact construction of the crate, there should be little worry since this is a large, competently staffed and well known zoological garden.

I hereby certify that I have read and am familiar with the regulations contained in Title 50, Part 13, of the Code of Federal Regulations and the other applicable parts in Subchapter B of Chapter I, Title 50, and I further certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement hereon may subject me to the criminal penalties of 18 U.S.C. 1001.

Sincerely,

CLYDE A. HILL,
Curator of Mammals,
San Diego Zoological Garden.

Enclosures including $50 permit fee check.

JAMES R. SPOTILA

Endangered Species Permit; Receipt of Application

Notice is hereby given that the following application for a permit is deemed to have been received under section 10 of the Endangered Species Act of 1973 (Pub. L. 93-205).

Applicant:
James R. Spotila, Ph.D.
Department of Biology
State University College
1300 Elmwood Avenue
Buffalo, New York 14222

DECEMBER 2, 1974.

DIRECTOR
U.S. Fish and Wildlife Service
P.O. Box 19183
Washington, D.C. 20036

DEAR SIR: Enclosed please find my application for an endangered species permit for scientific research on the American alligator. I have followed all instructions on the application and included information required by 50 CFR 13.2 and 50 CFR 17.23. I would appreciate your efforts to expedite processing of my application so that I can begin my research. My Atomic Energy Commission grant is for one year (til June 30, 1975) and is renewable for two more years. Therefore, I am requesting a three year permit.

Attached please find a check for $50.00.

Sincerely yours,

JAMES R. SPOTILA, Ph.D.,
Assistant Professor, Biology Department,
State University at Buffalo.

OMB NO. 42-R1470

James R. Spotila, Ph.D.

V40113 JAN 20 75 XUM

ADDITIONAL INFORMATION

13.12a.

1–4. See application.

5. Endangered Species Permit. Under 13.12b the following information is required. That required by 17.23, see below.

6. Does not apply.

7–11. See application.

17.23a.

1. American Alligator—*Alligator mississippiensis.*

Up to 30 individuals of mixed sexes 1 ft. to 5 ft. in length, age unknown, to be brought to State University College per year for each of three years.

Up to 10 individuals of mixed sexes, lengths up to 15 ft. and ages—0 years to adult to be studied at Savannah River Ecology Laboratory per year for each of three years.

Up to 10 individuals of mixed sexes, lengths up to 15 ft. and ages—0 years to adult to be studied at wildlife refuges in Florida, Georgia, and Louisiana, probably including Okefenokee Swamp in Georgia and Rockefeller Refuge in Louisiana, per year for each of three years.

2. No importation planned.

3. For detailed information see Appendix I. Laboratory experiments entail implanting thermocouples in alligators to monitor internal temperatures of animals exposed to specific temperatures in an environmental chamber. After experiments animals will be returned to the site of their capture. Field experiments entail monitoring body temperatures of free roaming alligators in their natural habitat. Radio transmitters will be force fed to alligators. Past research has demonstrated that this will not harm the animals. All alligators will be returned to the wild after being studied. None of the experiments being planned will be lethal. As in any research effort the death of one or two individuals is a possibility but is not expected. For additional information see appended copies of scientific articles in Appendix II. Professional competence of the applicant is demonstrated by his curriculum vita (Appendix III) and by the fact that the Atomic Energy Commission has approved this research (see Appendix IV for copy of AEC contract).

4. Animals studied in the field will be left in their natural environment. Animals studied in the laboratory will be maintained in the animal room facility of the Biology Department, (see Appendix V for drawing), State University College at Buffalo. This facility is located in the New Science building on the Elmwood Ave. Campus. It features an aquatics room that is well lighted and ventilated, with ceramic tile walls and floors. Seven individual pens with sloping floors and individual water supplies can hold temporarily several alligators up to 5 ft. in total length. Continuously flowing water up to 12 inches in depth is maintained in each pen. A dry basking area is also available with an incandescent lamp in each pen. Alligators will be fed fish, rats, and mice. Animals will be brought to the laboratory, acclimated for up to two weeks in the animal room, tested for one week and then returned to their native habitat.

5. Does not apply.

6. Wild alligators must be used to obtain valid results. Zoo animals lose their natural thermoregulatory behavior and may provide faulty information.

7. Does not apply.

TRANSPORT OF ALLIGATORS

Wild caught animals will be sent to Buffalo in appropriately labeled, sturdy crates made of ¾" plywood supported and strengthened by 2" x 4" boards. Holes will be drilled in the plywood to provide ventilation. A water supply will be provided. Shipment will either be via air express or by State of New York vehicle under the care of Biology Department personnel. Cages will be up to 2 ft. x 3 ft. x 6 ft. in size for the 5 ft. long animals. Animals will not be fed in transit since travel time will be less than 1 day.

Veterinary care is available from the central animal care facility of SUNY—Buffalo, for all animals at the State College facility.

The complete Research Proposal and other information submitted in connection with this application are available for public inspection during normal business hours at the Service's office in Suite 600, 1612 K Street, N.W., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/LE), Fish and Wildlife Service, Post Office Box 19183, Washington, D.C. 20036. All relevant comments received on or before February 19, 1975 will be considered.

Dated: January 14, 1975.

LOREN K. PARCHER,
Acting Chief, Division of Law Enforcement, U.S. Fish and Wildlife Service.

ROBERT B. BERRY

Endangered Species Permit; Receipt of Application

Notice is hereby given that the following application for a permit is deemed to have been received under section 10 of the Endangered Species Act of 1973 (Pub. L. 93–205).

Applicant: Mr. Robert B. Berry, R.D. #1, Chester Springs, Pennsylvania 19425.

DECEMBER 16, 1974.

Mr. LEN A. GREENWALT,
Director, U.S. Fish and Wildlife Service, Department of the Interior, Washington, D.C. 20240.

DEAR MR. GREENWALT: In accordance with the provisions of Regulation 50 CFR 17, part 17–23 regulating Endangered Wildlife, I am enclosing complete application for "special use" permit to hold peregrine falcons in captivity for propagation and reintroduction purposes. Specifically, please find original letter of submission to Mr. Leo J. Badger, Application for Migratory Bird Permit (Form 3–200) with attached Schedule I, Project Outline and Application for Migratory Bird Permit for an individual, with attached Project Outline, Personal Resumé, photographs of the Chester Springs breeding facility, and the Peregrine Fund Newsletters No. 1 and 2.

Several months have transpired since my letter of original submission and we are rapidly approaching the spring breeding season. If you anticipate a delay in the approval of this permit, I would appreciate interim approval to receive one yearling male captive bred peregrine falcon (Falco peregrinus tundrius) from Cornell's Peregrine Fund Program.

The young male is to be placed with a currently unmated four-year-old female peregrine falcon in my facility. In order to reduce probable hostility and a real threat to the welfare of the male falcon, the transfer should be undertaken during the period of greatest sexual quiescence. Your immediate consideration to this urgent request is appreciated.

I trust the above information will enable you to issue the desired "special use" permit.

Very truly yours,

ROBERT B. BERRY,
Research Collaborator, The Peregrine Fund.

SCHEDULE I—HAWKS AND FALCONS HELD AT CHESTER SPRINGS BRANCH FACILITY OF THE PEREGRINE FUND, SUBMITTED AUGUST 8, 1974

Species name	Origin	Date captured	Location held
American Goshawk	Pennsylvania	June 1971	Chester Springs.
Do	do	June 1966	Do.
Gyrfalcon [1]	Baffin Island, N.W.T	October 1967	Do.
Do [2]	Quebec	June 1971	Do.

Do	Quebec	July 1971	Do.
Do	Keewatin, N.W.T	July 1966	Do.

[1] On loan from Richard A. Graham (returned to Graham September 1974).
[2] Held under Pennsylvania Falconry Permit No. 3329.
[3] On loan from Dr. Granger Hunt.
[4] On loan from Richard A. Graham and James R. Robinson.

ROBERT B. BERRY,
Research Collaborator.

PROJECT OUTLINE

Applicant: Robert B. Berry—Yellow Springs Road, Chester Springs, Pa. 19425.

Detail reasons for need of specimen retention and/or collection. Include study title; project outline, include scheduled date for completion; research objective, if any; and name(s) of faculty advisor(s), sponsorship, etc., where applicable: See Attached Project Outline.

List numbers and species of birds required:

*8 Peregrine Falcons.
*2 Gyrfalcons.
2 American Goshawks.

List membership in ornithological, conservation, or scientific organizations: Research Collaborator, Cornell University Laboratory of Ornithology, Ithaca, New York; Raptor Research Foundation, Inc., Vermillion, South Dakota.

Additional information or remarks. (Show cooperators here.)

*2 Gyrfalcons and 1 Peregrine Falcon held under Pennsylvania Falconry Permit.

See Above and Attached Résumé.

SUPPLEMENT TO APPLICATION FOR MIGRATORY BIRD PERMIT

Following to be completed if applicant is an individual:

Name: Robert B. Berry.

Mailing Address: R.D. 1, Yellow Springs Road, Chester Springs, Pa. 19425.

Phone No. (215)827–7147.

Date of Birth: 3/3/36, Height: 6'0", Weight: 160 lbs.

Color of Hair: Brown, Color of Eyes: Brown, Sex: Male.

Business or institutional affiliation, if any, having to do with the wildlife to be covered by the permit: Research Collaborator, Cornell University Laboratory of Ornithology.

Following to be completed if applicant is a corporation, firm, partnership, institution, or agency, either private or public:

Name and address of the president or principal officer: N/A.

Certification (To be completed by all applicants).

I hereby certify that I have read and am familiar with the regulations contained in Title 50, Part 13, of the Code of Federal Regulations and the other applicable parts in Subchapter B of Chapter I of Title 50, and I further certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement hereon may subject me to the criminal penalties of 18 U.S.C. 1001.

Dated: October 22, 1974.

ROBERT B. BERRY.

Please refer to applicable part of rules and regulations for additional information required on permit applications.

PROJECT OUTLINE—RAPTOR PROPAGATION PROGRAM, CHESTER SPRINGS BRANCH OF CORNELL UNIVERSITY'S PEREGRINE FUND

PURPOSE

The Peregrine Falcon, once the most cosmopolitan bird of prey, is threatened in North America and Europe because of sublethal effects of DDT and related chemical pollutants that alter its reproductive physiology and cause the production of abnormally thin eggshells, which break before hatching. In North America alone, the species has already disappeared as a breeding bird east of the Rocky Mountains and south of the Canadian boreal forests. In the West there are fewer than 25 eyries where Peregrines still breed. Even though the United States government has banned use of DDT, it is too late to be of much value in saving America's Peregrine Falcons. More than two-thirds of the 1½ million tons of DDT man has produced since 1946 is still chemically active, and its use is still increasing in Latin America, the winter home of many Peregrines and their prey. Many ornithologists and conservationists feel that wild Peregrines are doomed in most of North America and that one way to keep the species lies in captive propagation.

SCOPE

The main operational objective of this program is to maintain a research facility that can accommodate an experimental colony of falcons. The short-term practical goal is to develop a self-perpetuating captive falcon population on a scale large enough to provide a continuing supply for scientific, educational, and recreational uses. The long-term goal is the reintroduction of Peregrines in natural areas from which they have been extirpated.

DURATION

We estimate that it will take 3 to 5 years of exeprimental work to achieve the immediate goal of breeding falcons on a consistent and predictable basis. The long-range goal of restocking may require another 10 years and will only be feasible if there has been significant abatement of chemical pollution by that time.

HISTORY

The world of nature has been my world for as long as I can remember. Insects, birds, and animals, followed by fishing, hunting and falconry were the consuming passions of my youth. Only the emphasis has changed, a result of the already staggering effects of environmental degradation upon our wildlife heritage. As a falconer and a conservationist, I saw my first hunting companion, the Cooper's hawk, vanish from eastern Pennsylvania in the early 1950's. The magnificent Peregrine Falcon followed shortly thereafter and is now totally extinct as a breeding bird east of the Mississippi and south of the St. Lawrence River Basin. Remnant stocks exist in the West but are declining rapidly.

More than 20 years of falcony experience with the Peregrine Falcon coupled with extensive field studies of this species both in the arctic and on southern migration routes and established liaison with the scientific and business community places me in a unique position to make a significant contribution to the survival of the Peregrine Falcon and other endangered raptors through captive breeding.

CURRENT STATUS

As Research Collaborator of Cornell University's Laboratory of Ornithology, I operate a branch facility of The Peregrine Fund, located in Chester Springs, Pennsylvania. I am currently studying raptor behavior in falconry and am engaged in several raptor population surveys in the Arctic and along the Atlantic beaches. My captive propagation efforts encompass both the large falcons and the accipiters. Research facilities include a sizable behavioral ecology laboratory, similar in design to the Cornell facility, measuring 50 feet long by 36 feet wide and from 12 to 20 feet in height, suitable for housing up to 10 pairs* of falcons. Additional outbuildings are available for falcons as well as several spacious wire enclosed aviaries for accipiters.

ACCOMPLISHMENTS

My most significant contribution to date lies in the development of a new technique for the artificial insemination of raptors. In 1970, four fertile eggs from American goshawks (Accipiter gentilis) were obtained from what I have termed "cooperative" artificial insemination. In 1971, three young goshawks were successfully fledged, a first for both cooperative insemination and the propagation of the American goshawk in captivity.

I have also pioneered in propagation studies with Peregrine Falcons taken into captivity during their first southward migration. Based upon my observations as supported by other private breeding projects, we are now able to rule out categorically the probability of the "passage" falcons' successful reproduction in captivity.

*See photos attached.

In the 1974 year, 8 Peregrine Falcon eggs were received, all of which were infertile. The goshawks laid 5 eggs, one of which was fertile by cooperative insemination, regretfully dying immediately prior to hatching.

FUTURE PROSPECTS

The probability of successful Peregrine Falcon propagation in 1975 here in Chester Springs is good, with the odds swinging in my favor for the first time. I now have three pairs of eyas falcons and one mixed passage-eyas pair that are sexually mature and socially compatible. As mentioned above, one of these pairs laid eggs in 1974. They are a good bet in 1975. The other pairs will be experiencing their first full season together. One of the major problems to falcon breeding is compatibility, and it takes years to get the right birds together. The young Quebec female gyrfalcon (age 4) may lay in 1975, but the eggs may be infertile because of the younger male (age 3). Prospects for a successful year with the goshawks are excellent with the knowledge gained this season, if a suitable male can be located.

The above programs are admittedly visionary, but I believe they can be accomplished with hard work. They will require money and a great deal of goodwill and understanding from federal authorities, state conservation departments, researchers, falconers, and the concerned public.

RESUME

ROBERT B. BERRY, YELLOW SPRINGS ROAD, CHESTER SPRINGS, PENNSYLVANIA

Education:

The Haverford School, graduated 1954.

The Pennsylvania State University, 1959, B. S., President, Delta Tau Delta Fraternity.

Wharton Graduate Division of the University of Pennsylvania, 1961, M. B. A. (Insurance).

Professional Services and Experience:

Vice President, United States Liability Insurance Group, in charge of nationwide casualty underwriting. January 1963 to present date.

Casualty Reinsurance Underwriter, Stuyvesant Insurance Company. June 1961 to December 1963.

Automobile Underwriter, United States Liability Insurance Group, December 1958 to January 1961.

Practice of Falconry: has used all of the commonly trained diurnal raptors native to North America; extensive local and arctic field study of birds of prey; specialized in peregrine falcon from 1950 to present date with more than 50 individual birds handled in falconry and for scientific studies. 1946 to present date.

Federal Bird Banding (Permit No. 8861) with Pennsylvania, Maryland, and Virginia state permits; specializing in raptors. 1962 to present date.

Captive breeding and behavioral studies of American goshawk, Cooper's hawk, peregrine falcon and gyrfalcon; pioneered in the artificial insemination of raptors. 1965 to present date.

Annual Arctic Census of Peregrine Falcon populations and other raptors, including collection of addled eggs, prey remains and falcon biopsies for pesticide analysis. 1967 to present date.

Annual Autumn Census of Migrating Peregrine Falcons on Assateague Island National Park, Maryland—survey sanctioned by the Department of the Interior and supported by the U.S. Army. 1970 to present.

V40I13 JAN20 75 XUM

National Park Service

[INT FES 75-1]

BIG BEND NATIONAL PARK, TEX.

Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a final environmental statement for the proposed Wilderness Recommendation for Big Bend National Park, Texas.

The environmental statement considers the designation of 535,900 acres of the Park as wilderness within the National Wilderness Preservation System and an additional 25,700 acres as potential wilderness addition. The statement discusses social, scientific, cultural and economic aspects of the action.

Copies are available from or for inspection at the following locations:

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

FLUE-CURED TOBACCO ADVISORY COMMITTEE

Notice of Meeting

The Flue-Cured Tobacco Advisory Committee which was scheduled for January 31, 1975, (40 FR 2243, 1-10-75) is postponed until Monday, February 10, 1975, at 1 p.m., in the Board Room of the Flue-Cured Tobacco Cooperative Stabilization Corporation, 522 Fayetteville Street, Raleigh, North Carolina 27602.

The reason for the postponement is that subsequent to the issuance of the notice of the meeting scheduled for January 31, 1975, it became apparent that greater representation by Committee members and supporting staff would be achieved by rescheduling the meeting on February 10, 1975.

The purpose of the meeting is to further review the report of the 5-Man Subcommittee appointed at the October 14, 1974, meeting of the Committee and consider areas of improving the grower designation plan for the 1975 flue-cured marketing season. Also, matters, as specified in 7 CFR Part 29, Subpart G, § 29.9404 will be discussed.

The meeting is open to the public but space and facilities are limited. Public participation will be limited to written statements submitted before or at the meeting unless their participation is otherwise requested by the Committee Chairman. Persons, other than members, who wish to address the Committee at the meeting should contact Mr. J. W. York, Director, Tobacco Division, Agricultural Marketing Service, 300—12th Street, S.W., United States Department of Agriculture, Washington, D.C. 20250, (202) 447-2567.

E. L. PETERSON,
Administrator, Agricultural Marketing Service.

Soil Conservation Service

WEST FORK OF BAYOU LACASSINE WATERSHED PROJECT, LA.

Availability of Draft Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; Part 1500 of the Council on Environmental Quality Guidelines (38 FR 20550, August 1, 1973); and Part 650.7(e) of the Soil Conservation Service Guidelines (39 FR 19650, June 3, 1974); the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental impact statement for the West Fork of Bayou Lacassine Watershed Project, Jefferson Davis Parish, Louisiana, USDA-SCS-EIS-WS-(ADM)-75-4-(D)-LA.

The environmental impact statement concerns a plan for watershed protection, flood prevention, and drainage. The watershed plan was approved for operations on April 1, 1969 and construction began in 1969. Forty-nine miles of the proposed 83 miles of channel work have been constructed. The environmental impact statement is prepared for the 34 miles of channel and land treatment measures remaining to be installed. The channel work will involve clearing and debris removal on 2 miles of existing channel. Thirty-one miles of channel work will involve those with only ephemeral flow. The balance involves existing ponded water.

A limited supply of copies are available at the following location to fill single copy requests:

Soil Conservation Service, USDA, 3737 Government Street, Alexandria, Louisiana 71301.

Copies of the draft environmental impact statement have been sent for comment to various Federal, State, and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments concerning the proposed action or requests for additional information should be addressed to Alton Mangum, State Conservationist, Soil Conservation Service, 3737 Government Street, Alexandria, Louisiana 71301.

Comments must be received on or before March 12, 1975 in order to be considered in the preparation of the final environmental impact statement.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services)

Dated: January 10, 1975.

WILLIAM B. DAVEY,
Deputy Administrator for Water Resources, Soil Conservation Service.

DEPARTMENT OF COMMERCE

Office of the Secretary

[Dept. Organization Order 10-1, Amdt. 1]

ASSISTANT SECRETARY FOR SCIENCE AND TECHNOLOGY

Delegation of Authority

This order, effective December 31, 1974, amends the material appearing at 37 FR 5401 of March 15, 1972.

Department Organization Order 10-1, dated February 1, 1972, is hereby amended as follows: In section 4. *Delegation of authority:*

a. Delete the word "and" at the end of subparagraph 4.01e.

b. Delete period at end of subparagraph 4.01f. and add semicolon and the word "and".

c. Add a new subparagraph 4.01g. to read:

"g. Set policy guidelines on whether and where (1) to procure foreign patent protection for Government-owned inventions and (2) to issue licenses therefor under Executive Order 9865, as amended by Section 5 of Executive Order 10096 and Executive Order 10930."

Effective date: December 31, 1974.

GUY W. CHAMBERLIN, JR.,
Acting Assistant Secretary for Administration.

[FR Doc.75-1718 Filed 1-17-75;8:45 am]

[Dep. Organization order 30-2B, Amend. 2]

NATIONAL BUREAU OF STANDARDS

Organization and Functions

This order, effective December 10, 1974, further amends the material appearing at 38 FR 27427 of October 3, 1973; and 39 FR 43565 of December 16, 1974.

Department Organization Order 30-2B dated September 11, 1973, is hereby further amended as follows:

1. In section 11. *Insititute for Materials Research*, Paragraph .04 is renumbered .05. A new paragraph .04 is added to read as follows:

".04 The *Office of Air and Water Measurement* shall provide central management of a Bureau-wide program on the development of new or improved methods of measurement of environmental pollutants and shall evaluate data on the generation of physical and chemical parameters associated with pollutant formation and dissipation."

2. The organization chart attached to this amendment supersedes the organization chart dated November 29, 1974. A copy of the Organization chart is attached to the original of this document on file in the Office of the Federal Register.

Effective date: December 10, 1974.

GUY W. CHAMBERLIN, JR.,
Acting Assistant Secretary for Administration.

[Dept. Organization Order 30-7A, Amdt. 1]

NATIONAL TECHNICAL INFORMATION SERVICE

Organization and Functions

This order, effective December 31, 1974, amends the material appearing at 35 FR 14475 of September 15, 1970.

Department Organization Order 30-7A, dated September 2, 1970, is hereby amended as follows:

1. In section 3. *Delegation of Authority.* Amend paragraph 3.01 to read:

".01 Pursuant to the authority vested in the Secretary of Commerce by law and subject to such policies and directives as the Secretary of Commerce or the Assistant Secretary for Science and Technology may prescribe, the Director is hereby delegated the authority of the Secretary under:

"a. Chapter 23 of Title 15, United States Code, which pertains to a clearinghouse for technical information.

"b. Executive Order 9865, as amended by Section 5 of Executive Order 10096 and Executive Order 10930, to the extent that this authority is not reserved to the

V40I13 JAN20 75 XUM

Assistant Secretary for Science and Technology in Department Organization Order 10–1.

"c. Other authorities that are applicable for performing the functions assigned in this order."

2. In section 4. *Functions.* Delete the word "and" under subparagraph f. and add new subparagraphs h. and i. to read:

"h. Procure foreign patent protection for Government-owned inventions and issue licenses therefor under Executive Order 9865, as amended.

"i. Provide liaison and coordination with the Committee on Government Patent Policy of the Federal Council for Science and Technology, furnish executive secretariat support to the Committee, advise the Assistant Secretary for Science and Technology on Committee matters, and assist in the development and formulation of a uniform Government-wide patent policy."

GUY W. CHAMBERLIN, JR.,
Acting Assistant Secretary for Administration.

[FR Doc.75–1721 Filed 1–17–75;8:45 am]

[Dept. Organization Order 30–3A, Amdt. 1]

PATENT OFFICE

Organization and Functions

This order, effective December 31, 1974, amends the material appearing at 38 FR 1068 of January 8, 1973.

Department Organization Order 30–3A, dated December 15, 1972, is hereby amended as follows:

1. In section 2. *Status and line of authority.* a. Paragraph .02 is changed to read as follows:

".02 The *Commissioner of Patents* (hereinafter called the Commissioner), who is appointed by the President by and with the advice and consent of the Senate, shall be the head of the Patent Office. He shall be principally assisted by a Deputy Commissioner, three Assistant Commissioners, whose titles and status are specified below, and a Solicitor. The First Assistant Commissioner (Deputy Commissioner) and the first two Assistant Commissioners are provided for by 35 U.S.C. 3 and are appointed by the President by and with the advice and consent of the Senate.

"a. The *Deputy Commissioner* (First Assistant Commissioner under 35 U.S.C. 3).

"b. The *Assistant Commissioner for Patents* (an Assistant Commissioner under 35 U.S.C. 3).

"c. The *Assistant Commissioner for Trademarks* (an Assistant Commissioner under 35 U.S.C. 3).

"d. The *Assistant Commissioner for Administration.*"

b. Paragraph .03 is changed to read:

".03 The Deputy Commissioner or, in the event of a vacancy in that office, the assistant commissioner appointed under 35 U.S.C. 3 who is senior in date of appointment, shall act as Commissioner during a vacancy in that office until a Commissioner is appointed and takes office. In the absence of the Commissioner, the Deputy Commissioner shall act as Commissioner. If the Deputy Commissioner is likewise absent or that office is vacant, one of the assistant commissioners appointed under 35 U.S.C. 3 or the Solicitor of the Patent Office, or the Assistant Commissioner for Administration shall act as Commissioner in an order of precedence prescribed by the Commissioner."

2. In section 3. *Delegation of authority.* Subparagraph 3.02(b) is changed to read as follows:

"b. The functions in Executive Order 10096 (except section 5) and Executive Order 10930, insofar as these functions relate to determining the ownership of patents and rights to inventions made by Government employees."

GUY W. CHAMBERLIN, JR.,
Acting Assistant Secretary for Administration.

Social and Economic Statistics Administration

CENSUS ADVISORY COMMITTEE ON THE BLACK POPULATION FOR THE 1980 CENSUS

Notice of Public Meeting

The Census Advisory Committee on the Black Population for the 1980 Census will convene on February 27, 1975 at 8 p.m. at Stouffer's National Center Inn, 2399 Jefferson Davis Highway, Arlington, Virginia, and on February 28, 1975 at 9:30 a.m. in Room 2113, Federal Building 3 at the Bureau of the Census in Suitland, Maryland.

This is the first meeting of the Committee, which consists of 21 members. The Committee was established in October 1974 to advise the Director, Bureau of the Census, on such 1980 Census planning elements as improving the accuracy of the population count, recommending subject content and tabulations of especial use to the black population, and expanding the dissemination of census results among present and potential users of census data in the black population.

The agenda for the February 27 session, which will adjourn at 9:30 p.m., includes a general overview of the Census Bureau's mission, the role of the Committee, introduction of members, and procedural matters. The agenda for the February 28 session, which will adjourn at 4:15 p.m. includes the following items: (a) summary descriptions of several major elements of the Bureau's program, (b) current status of 1980 census planning, (c) 1980 census minority statistics programs, (d) coverage of population in the 1970 census and implications for public programs, (e) participant-observer (ethnographic) techniques for coverage research.

A limited number of seats—approximately 15—will be available to the public. A brief period will be set aside for public comment and questions at the February 28 session. Extensive questions or statements must be submitted in writing to the Committee Control Officer at least three days prior to the meeting.

Persons planning to attend and wishing additional information concerning this meeting should contact the Committee Control Officer, Mr. J. Jack Ingram, Deputy Chief, Demographic Census Staff, Bureau of the Census, Room 3779, Federal Building 3, Suitland, Maryland. (Mailing address: Washington, D.C. 20233). Telephone: (301) 763–5169.

Dated: January 15, 1975.

VINCENT P. BARABBA,
Director, Bureau of the Census.

[FR Doc.75–1730 Filed 1–17–75;8:45 am]

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

COLLEGE LIBRARY RESOURCES PROGRAM; LIBRARY RESEARCH AND DEMONSTRATION PROGRAM; LIBRARY TRAINING PROGRAM

Notice of Change of Closing Date for Receipt of Applications

Pursuant to the authority contained in: sections 201–208 of Title II, Part A of the Higher Education Act of 1965, as amended (20 U.S.C. 1021–1028)—College Library Resources Program; sections 201, 221, and 223 of Title II, Part B of the Higher Education Act of 1965, as amended (20 U.S.C. 1021, 1031, and 1034), Library Research and Demonstration Program and sections 201, 221, and 222 of Title II, Part B of the Higher Education Act of 1965, as amended (20 U.S.C. 1021, 1031, and 1033), Library Training Program, notice was published in the FEDERAL REGISTER on December 26, 1974, (39 FR 44672) establishing a closing date. The purpose of this notice is to establish a changed final closing date for receipt of applications.

Pursuant to the Higher Education Act of 1965, as amended, cited above, the final closing date for receipt of such basic grant applications is February 28, 1975.

A. *Applications sent by mail.* An application sent by mail should be addressed as follows: U.S. Office of Education, Application Control Center, 400 Maryland Avenue SW., Washington, D.C. 20202, Attention: 13.406, College Library Resources Program; or 13.475 Library Research and Demonstration Program; or 13.468 Library Training Program.

An application sent by mail will be considered to be received on time by the Application Control Center if:

(1) The application was sent by registered or certified mail not later than the fifth calendar day prior to the closing date (or if such fifth calendar day is a Saturday, Sunday, or Federal holiday, not later than the next following business day), as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The application is received on or before the closing date by either the Department of Health, Education, and Welfare, or the U.S. Office of Education mail rooms in Washington, D.C. (in establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, or the U.S. Office of Education).

B. *Hand delivered applications.* An application to be hand delivered must be taken to the U.S. Office of Education Application Control Center, Room 5673, Regional Office Building Three, 7th and D Streets, SW., Washington, D.C. Hand delivered applications will be accepted daily between the hours of 8:30 a.m. and 4 p.m. Washington, D.C. time except Saturdays, Sundays, or Federal holidays. Applications will not be accepted after 4 p.m. on the closing date.

C. *Program information and forms.* Information and application forms may be obtained from the Division of Library Programs, Bureau of Postsecondary Education, Office of Education, Rm. 5909, 7th and D Streets, Washington, D.C. 20202 Attn: College Library Resources Program; or Library Research and Demonstration Program; or Library Training Program.

D. *Applicable regulations.* The regulations applicable to the College Library Resources Program were published in the FEDERAL REGISTER on November 18, 1974, at 39 FR 40494 (45 CFR Part 131). Because of the mandatory nature of the legislation pertaining to the basic grants, there are no applicable criteria for the awarding of these grants.

Regulations applicable to the Library Research and Demonstration Program with funding criteria as Appendix A thereto were published in the FEDERAL REGISTER on May 17, 1974, at 39 FR 17546 (45 CFR Part 133).

Regulations and criteria applicable to the Library Training Program were published on May 17, 1974, at 39 FR 17540 (45 CFR Part 132).

These programs are also subject to the Office of Education General Provisions Regulations (particularly 45 CFR Parts 100 and 100a).

(20 U.S.C. 1021–1028, 1031, 1033, 1034)

(Catalog of Federal Domestic Assistance Number 13.406, College Library Resources; 13.475 Library Research and Demonstration; 13.468 Library Training)

Dated: January 13, 1975.

T. H. BELL,
U.S. Commissioner of Education.

[FR Doc.75–1892 Filed 1–17–75;8:45 am]

FEDERAL RESERVE SYSTEM

UNITED BANKS OF COLORADO

Acquisition of Bank

United Banks of Colorado, Denver, Colorado, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 80 per cent or more of the voting shares of United Bank of Steamboat Springs, Steamboat Springs, Colorado. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Kansas City. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than February 10, 1975.

Board of Governors of the Federal Reserve System, January 9, 1975.

[SEAL] GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

INTERIM COMPLIANCE PANEL (COAL MINE HEALTH AND SAFETY)

CARMELLA COAL & MINERALS, INC.

Applications for Renewal Permits Electric Face Equipment Standard; Opportunity for Hearing

Applications for Renewal Permits for Noncompliance with the Electric Face Equipment Standard prescribed by the Federal Coal Mine Health and Safety Act of 1969 have been received for items of equipment in underground coal mines as follows:

ICP Docket No. 4283–000, CARMELLA COAL & MINERALS, INC., (Formerly Sharon Holbrook Coals, Inc.), Mine No. 1, Mine ID No. 15 02592 0,
- ICP Permit No. 4283–002 (Wise 3-Phase 220AC Rubber Tired Carrier I.D. No. C–1),
- ICP Permit No. 4283–003 (Joy 12BU Loader, I.D. No. J–1),
- ICP Permit No. 4283–005 (Kersey BJ744 Battery Mine Tractor, I.D. No. T–1),
- ICP Permit No. 4283–007 (Kersey 744N Mine Tractor, I.D. No. 3),
- ICP Permit No. 4283–008 (Kersey 744 Mine Tractor).

In accordance with the provisions of § 504.7(b) of Title 30, Code of Federal Regulations, notice is hereby given that requests for public hearing as to an application for a renewal permit may be filed on or before February 4, 1975. Requests for public hearing must be filed in accordance with 30 CFR Part 505 (35 FR 11296, July 15, 1970), as amended, copies of which may be obtained from the Panel upon request.

A copy of each application is available for inspection and requests for public hearing may be filed in the office of the Correspondence Control Officer, Interim Compliance Panel, Room 800, 1730 K Street, NW., Washington, D.C. 20006.

GEORGE A. HORNBECK,
Chairman, Interim Compliance Panel.

JANUARY 14, 1975.

ATOMIC ENERGY COMMISSION

[Dockets Nos. STN 50–456, STN 50–457]

COMMONWEALTH EDISON CO.; BRAIDWOOD STATION, UNITS 1 AND 2

Limited Work Authorization

Pursuant to the provisions of 10 CFR 50.10(e) of the Atomic Energy Commission's (Commission) regulations, the Commission has authorized the Commonwealth Edison Company (CECo) to conduct certain site activities in connection with the Braidwood Station, Units 1 and 2 prior to a decision regarding the issuance of a construction permit.

The activities that are authorized are within the scope of those authorized by 10 CFR 50.10(e)(1) and specifically include the following:

1. Excavations and associated activities such as de-watering for structures and equipment, and placement of mud mats for: (a) two containment buildings; (b) turbine room; (c) service building; (d) auxiliary building; (e) fuel building; (f) solid radwaste storage building; (g) installation of portions of condenser circulating water piping, not including any class I piping; and (h) switchyard and on-site transmission lines.

2. Construction of the following service requirements: (a) rail spur from adjacent Illinois Central Gulf line into site; (b) temporary construction track; (c) fencing; (d) perimeter lighting system; (e) road construction, permanent and temporary; (f) temporary construction power and lighting system; (g) sanitary system in conjunction with sewage treatment plant; (h) wells for potable and construction water requirements; (i) fire protection system; and (j) temporary parking lots.

3. Construction of support facilities with necessary utilities: (a) three metal warehouses (50' x 200' each); (b) metal construction office (50' x 200'); (c) metal contractor's office; (d) metal contractor's shop facilities; (e) main gate guardhouse; (f) temporary construction toilet; (g) temporary fire pump house; and (h) concrete batch plant.

This authorization is subject to the following conditions for the protection of the environment:

1. During the construction, CECo shall take the necessary mitigating actions, including those commitments summarized in section 4.5 of the AEC staff's Final Environmental Statement, to avoid unnecessary adverse environmental impacts from construction activities.

2. CECo shall follow the pre-operational monitoring program, including modifications recommended by the staff, described in section 6.1 of the Final Environmental Statement.

3. Before engaging in a construction activity which may result in a significant adverse environmental impact that was not evaluated or that is significantly greater than that evaluated in the Final Environmental Statement, CECo shall provide written notification to the Director of Licensing.

4. A control program shall be established by CECo to provide for a periodic review of all construction activities to assure that those activities conform to the environmental conditions set forth herein.

5. If unexpected harmful effects or evidence of irreversible damage are detected during facility construction, CECo shall

V 40 I 13 JAN 20 75 XUM

provide to the staff an acceptable analysis of the problem and a plan of action to eliminate or significantly reduce the harmful effects or damage.

6. CECo shall comply with the applicable portions of the standards published by the United States Environmental Protection Agency on October 8, 1974 (39 FR 36176 et seq.).

7. CECo shall comply with the applicable portions of the Illinois Environmental Protection Act and the Water Pollution Regulations of the Illinois Pollution Control Board.

This authorization is subject to the additional condition that it will terminate upon a denial by the Director of Regulation of a Construction Permit for the Braidwood Station, Units 1 and 2.

Any activities undertaken pursuant to this authorization are entirely at the risk of the Commonwealth Edison Company and the grant of the authorization has no bearing on the issuance of a construction permit with respect to the requirements of the Atomic Energy Act of 1954, as amended, and rules, regulations, or orders promulgated pursuant thereto.

A Partial Initial Decision on matters relating to the National Environmental Policy Act and site suitability was issued by the Atomic Safety and Licensing Board in the above captioned proceeding on January 8, 1975. A copy of (1) the Partial Initial Decision; (2) the applicant's Preliminary Safety Analysis Report, and amendments thereto; (3) the applicant's Environmental Report, and amendments thereto; (4) the staff's Final Environmental Statement dated July 1974; and (5) the Commission's letter of authorization dated January 14, 1975 are available for public inspection at the Commission's Public Document Room at 1717 H Street, NW., Washington, D.C. and the Wilmington Township Public Library, 201 South Kankakee Street, Wilmington, Illinois.

Dated at Rockville, Maryland, this 14th day of January, 1975.

For the Atomic Energy Commission.

B. J. YOUNGBLOOD,
Chief, Environmental Projects Branch 3, Directorate of Licensing.

[FR Doc.75-1822 Filed 1-17-75;8:45 am]

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS

Notice of Subcommittee Meetings

In accordance with the purposes of sections 29 and 182b. of the Atomic Energy Act (42 U.S.C. 2039, 2232b.), the Advisory Committee on Reactor Safeguards' Subcommittee on the AGS and FNP projects will hold a meeting on February 4, 1975, in Room 1046, 1717 H Street NW., Washington, D.C. The purpose of this meeting will be to continue the Committee's formal Construction Permit review of AGS and Manufacturing Permit review for FNPs. The AGS facility will be located offshore from the coast of the State of New Jersey near Atlantic City. The FNPs will be manufactured at a facility to be located at Jacksonville, Florida.

The following constitutes that portion of the Subcommittee's agenda for the above meeting which will be open to the public:

Tuesday, February 4, 1975, 9:00 a.m.–4:30 p.m. The Subcommittee will hear presentations by Regulatory Staff and personnel of Public Service Electric and Gas Co. of New Jersey (PSE&G) and Offshore Power Systems (OPS) and their representatives and hold discussions with these groups pertinent to issuance of a Construction Permit to PSE&G for AGS and a Manufacturing Permit to OPS to fabricate FNPs. The discussions will focus principally upon Degraded Accident Studies but will not necessarily be limited to that topic.

In connection with the above agenda item, the Subcommittee will hold an executive session beginning at 8:30 a.m. which will involve a discussion of its preliminary views, and an executive session at the end of the day, consisting of an exchange of opinions of the Subcommittee members present and internal deliberations for the purpose of formulation of recommendations to the ACRS. In addition, the Subcommittee may hold closed sessions with the Regulatory Staff and Applicants to discuss privileged information relating to plant security, if necessary.

I have determined, in accordance with subsection 10(d) of Pub. L. 92-463, that the executive sessions at the beginning and end of the meeting will consist of an exchange of opinions and formulation of recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b) and that closed sessions may be held, if necessary, to discuss certain information relating to site security which is privileged and falls within exemption (4) of 5 U.S.C. 552(b). Further, any non-exempt material that will be discussed during the above closed sessions will be inextricably intertwined with exempt material, and no further separation of this material is considered practical. It is essential to close such portions of the meeting to protect such privileged information and protect the free interchange of internal views and to avoid undue interference with agency or Committee operation.

Practical considerations may dictate alterations in the above agenda.

The Chairman of the Subcommittee is empowered to conduct the meeting in a manner that in his judgment will facilitate the orderly conduct of business, including provisions to carry over an incompleted open session from one day to the next.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda item may do so by mailing 25 copies thereof, postmarked no later than January 28, 1975 to the Executive Secretary, Advisory Committee on Reactor Safeguards, U.S. Atomic Energy Commisison, Washington, D.C. 20545. Such comments shall be based upon the Preliminary Safety Analysis Report for AGS and the OPS Plant Design Report for the FNP and related documents on file and available for public inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545 and the following Local Public Document Rooms: Stockton State College Library, Pomona, New Jersey (AGS and FNP), and the Jacksonville Public Library, 122 North Ocean Street, Jacksonville, Florida 32204 (FNP only), and the Business and Science Division, New Orleans Public Library, 219 Loyola Avenue, New Orleans, Louisiana 70140 (FNP only).

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statement and its usefulness to the Subcommittee. To the extent that the time available for the meeting permits, the Subcommittee will receive oral statements during a period of no more than 30 minutes at an appropriate time, chosen by the Chairman of the Subcommittee, during the afternoon portion of the meeting.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Subcommittee who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to whether the meeting has been cancelled or rescheduled and in regard to the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted, can be obtained by a prepaid telephone call on February 3, 1975 to the Advisory Committee on Reactor Safeguards (telephone 202–634–1414) between 8:30 a.m. and 5:15 p.m., Eastern Time.

(e) Questions may be propounded only by members of the Subcommittee and its consultants.

(f) Seating for the public will be available on a first-come, first-served basis.

(g) The use of still, motion picture, and television cameras, the physical installation and presence of which will not interfere with the conduct of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(h) Persons desiring to attend portions of the meeting where proprietary information is to be discussed may do so by providing to the Executive Secretary, Advisory Committee on Reactor Safeguards, 1717 H Street NW., Washington, D.C. 20545, 7 days prior to the meeting, a copy of an executed agreement with the owner of the proprietary information to safeguard this material.

(i) A copy of the transcript of the open portion of the meeting will be available

for inspection during the following workday at the Atomic Energy Commission's Public Document Room, 1717 H Street NW., and within nine days at the following Local Public Document Rooms: Stockton State College Library, Pomona, New Jersey (AGS and FNP), the Jacksonville Public Library, 122 North Ocean Street, Jacksonville, Florida 32204 (FNP only), and the Business and Science Division, New Orleans Public Library, 219 Loyola Avenue, New Orleans, Louisiana 70140 (FNP only). Copies of the transcript may be produced in the Public Document Room or may be obtained from Ace Federal Reporters, Inc., 415 Second Street NE., Washington, D.C. 20002 (telephone 202–547–6222) upon payment of appropriate charges.

(j) On request, copies of the Minutes of the meeting will be made available for inspection at the Atomic Energy Commission Public Document Room, 1717 H Street NW., Washington, D.C. 20545 after May 4, 1975. Copies may be obtained upon payment of appropriate charges.

ROBERT A. KOHLER,
Acting Advisory Committee Management Officer.

CIVIL AERONAUTICS BOARD

[Docket No. 25280; Order 75-1-57]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Specific Commodity Rates

Issued under delegated authority, January 14, 1975.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations between various air carriers, foreign air carriers, and other carriers, embodied in the resolutions of Traffic Conference 3 of the International Air Transport Association (IATA). The agreement was adopted at the 12th Meeting of the TC3 Specific Commodity Rates Board held in San Diego on October 10, 1974.

With respect to air transportation as defined by the Act, the agreement proposes revisions to the specific commodity rate structure between Guam and other Pacific points. We are approving these revisions, outlined in the attachment hereto,[1] which reflect reductions from otherwise applicable general cargo rates.

Pursuant to authority duly delegated by the Board in the Board's Regulations, 14 CFR 385.14, it is not found that Agreement C.A.B. 24842 is adverse to the public interest or in violation of the Act, provided that approval is subject to the conditions hereinafter ordered.

Accordingly, it is ordered, That:

Agreement C.A.B. 24842 be and hereby is approved, provided that approval shall not constitute approval of the specific commodity descriptions contained therein for purposes of tariff publication; provided further that tariff filings shall be marked to become effective on not less than 30 days' notice from the date of filing.

Persons entitled to petition the Board for review of this order pursuant to the Board's Regulations, 14 CFR 385.50, may file such petitions within ten days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period, unless within such period a petition for review thereof is filed or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.75-1770 Filed 1-17-75;8:45 am]

[1] Attachment filed as part of the original document.

[Docket 25280; Order 75-1-56]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Specific Commodity Rates

Issued under delegated authority, January 14, 1975.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations between various air carriers, foreign air carriers, and other carriers, embodied in the resolutions of Traffic Conference 1 of the International Air Transport Association (IATA). The agreement was adopted at the 38th meeting of the TC1 Specific Commodity Rates Board held at San Diego, California on October 11, 1974 and has been assigned C.A.B. agreement number 24825.

With respect to air transportation as defined by the Act, the agreement proposes revisions to the specific commodity rate structure applicable within the Western Hemisphere. We will approve these revisions, outlined in the attachment hereto,[1] which reflect reductions from otherwise applicable general cargo rates.

Pursuant to the authority duly delegated by the Board in the Board's Regulations, 14 CFR 385.14, it is not found that Agreement C.A.B. 24825 is adverse to the public interest or in violation of the Act, provided that approval is subject to the conditions hereinafter ordered.

Accordingly, it is ordered, That:

Agreement C.A.B. 24825 be and hereby is approved, provided that approval shall not constitute approval of the specific commodity descriptions contained therein for purposes of tariff publication; provided further that tariff filings shall be marked to become effective on not less than 30 days' notice from the date of filing.

Persons entitled to petition the Board for review of this order pursuant to the Board's Regulations, 14 CFR 385.50, may file such petitions within ten days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period, unless within such period a petition for review thereof is filed or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

OZARK AIR LINES, INC.

Prehearing Conference Regarding Deletion of Clinton, Iowa

Notice is hereby given that a prehearing conference in the above-entitled matter is assigned to be held on February 25, 1975, at 10 a.m. (local time), in Room 503, Universal Building, 1825 Connecticut Avenue, NW., Washington, D.C., before Administrative Law Judge Richard M. Hartsock.

In order to facilitate the conduct of the conference, parties are instructed to submit one copy to each party and four copies to the Judge of (1) proposed statements of issues; (2) proposed stipulations; (3) requests for information; (4) statement of positions of parties; and (5) proposed procedural dates. The Bureau of Operating Rights will circulate its material on or before February 6, 1975, and the other parties on or before February 17, 1975. The submissions of the other parties shall be limited to points on which they differ with the Bureau of Operating Rights, and shall follow the numbering and lettering used by the Bureau to facilitate cross-referencing.

Dated at Washington, D.C., January 15, 1975.

[SEAL] ROBERT L. PARK,
Chief Administrative Law Judge.

ENVIRONMENTAL PROTECTION AGENCY

[OPP-66011; FRL 322-7]

KEMIN INDUSTRIES, INC.

Intent To Cancel Registration

Pursuant to section 6 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 984), the Environmental Protection Agency (EPA) has notified Kemin Industries, Inc., 2104 Maury St., Des Moines, IA 50301, of its intent to cancel the registration of the pesticide product Grain Treet Liquid (EPA Reg. No. 8596-17).

The registration data is insufficient to support a finding that the composition of Grain Treet is such to warrant the claims for the product. The registrant has not fulfilled the requirements for continued registration and therefore has not fully complied with the provisions of the FIFRA.

Cancellation of this registration shall be effective at the end of 30 days from the receipt of notice by the registrant or publication of this notice in the FEDERAL REGISTER, whichever occurs later, unless the registrant makes the necessary corrections, if possible. Within this period of time, any person adversely affected by this notice may request a hearing as provided in section 6(b) of the FIFRA, and should file in accordance with the provisions of §§ 164.5 and 164.20 of Part 164, Title 40 CFR, of the regulations for the enforcement of the FIFRA, an original and two copies of the document stating his objections to the Administrator's intent to cancel these registrations. The request for hearings and such documents should be filed with the Hearing Clerk, Environmental Protection Agency, Room 1019, East Tower, 401 M Street, SW, Washington, DC 20460.

Dated: January 14, 1975.

JAMES L. AGEE,
Assistant Administrator for Water and Hazardous Materials.

RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of section 3(c)(1)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This policy provides that EPA will, upon receipt of every application for registration, publish in the FEDERAL REGISTER a notice containing the information shown below. The labeling furnished by the applicant will be available for examination at the Environmental Protection Agency, Room EB-31, East Tower, 401 M Street, SW, Washington, D.C. 20460.

On or before March 21, 1975, any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after October 21, 1972, is being used to support an application described in this notice, (c) desires to assert a claim for compensation under section 3(c)(1)(D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data, must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Information Coordination Section, Technical Services Division (WH-569), Office of Pesticide Programs, 401 M Street, SW., Washington, D.C. 20460. Every such claimant must include, at a minimum, the information listed in the interim policy of November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy will be processed to completion in accordance with existing procedures. Applications submitted under 2(c) of the interim policy cannot be made final until the 60 day period has expired. If no claims are received within the 60 day period, the 2(c) application will be processed according to normal procedure. However, if claims are received within the 60 day period, the applicants against whom the claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after March 21, 1975.

APPLICATIONS RECEIVED

EPA File Symbol 7405-LU. Chemical Packaging Corp., PO Box 9947, Ft. Lauderdale FL 33310. CHEMI-CAP AIRCRAFT INSECTICIDE BOMB. RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of section 3(c)(1)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This policy provides that EPA will, upon receipt of every application for registration, publish in the FEDERAL REGISTER a notice containing the information shown below. The labeling furnished by the applicant will be available for examination at the Environmental Protection Agency, Room EB-31, East Tower, 401 M Street, SW, Washington DC 20460.

On or before March 21, 1975, any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after October 21, 1972, is being used to support an application described in this notice, (c) desires to assert a claim for compensation under section 3(c)(1)(D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data, must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Information Coordination Section, Technical Services Division (WH-569), Office of Pesticide Programs, 401 M Street SW, Washington DC 20460. Every such claimant must include, at a minimum, the information listed in the interim policy of November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy will be processed to completion in accordance with existing procedures. Applications submitted under 2(c) of the interim policy cannot be made final until the 60 day period has expired. If no claims are received within the 60 day period, the 2(c) application will be processed according to normal procedure. However, if claims are received within the 60 day period, the applicants against whom the claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after March 21, 1975.

ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

ADMINISTRATOR, ERDA

General Delegation of Authority for Interim Period

Pursuant to section 104 of the Energy Reorganization Act of 1974 (Pub. L. 93-438) certain functions, components, and officers of the Atomic Energy Commission, the Secretary of the Interior, the Department of Interior, the National Science Foundation, and the Environmental Protection Agency are transferred to, or vested in, the Administrator of the Energy Research and Development Administration (ERDA).

Valid delegations of authority heretofore delegated to such officers in accordance with pertinent laws, rules, and regulations of the aforementioned Federal entities from which the function, component, or officer was transferred, shall remain in effect until further notice and are hereby affirmed, including the power or redelegation to the extent so provided in such delegations provided, however that any contractual arrangement, interagency agreement, grant, loan guarantee, property transfer or any other action involving more than ten million dollars shall be subject to the prior approval of the Administrator or such officer of ERDA as the Administrator, in writing, may designate.

The authority affirmed herein shall be exercised in accordance with all applicable laws, rules, and regulations.

Authority vested in the Administrator by applicable laws, not encompassed by the delegations of authority hereinabove affirmed, are reserved to the Administrator or such officer of ERDA as the Administrator, in writing, may designate.

When an officer or employee had been required pursuant to his delegation of authority to refer, or provide information on, a particular matter to a higher level officer or employee, and the position of such higher level officer or employee has been abolished as a result of the enactment of Pub. L. 93-438 or has not yet been established in the Administration, referral of the matter, or provision of information thereon, shall be to the Administrator.

(Section 105(c) of the Energy Reorganization Act of 1974 (Pub. L. 93-438))

Effective Date: January 19, 1975.

ROBERT C. SEAMANS, JR.,
Administrator.

OFFICIAL SEAL

Notice of Adoption

Pursuant to section 105(f) of the Energy Reorganization Act of 1974, the Administrator has adopted an official seal, the description of which is as follows:

A yellow gold sunburst with 28 pointed metallic silver rays encircled by fifty 5-pointed metallic silver stars all on a dark blue disc within a dark blue band rimmed in yellow on each side and inscribed Energy Research and Development Administration in white and at the base the letters USA, also in white. The sunburst is the symbol of energy. The 50 stars represent the 50 states.

The Official Seal is illustrated as follows:

The Administrator or his designee is responsible for custody of the impression seals and of replica (placque) seals.

(Sec. 105(f), Energy Reorganization Act of 1974, Pub. L. 93-438)

Effective Date: January 9, 1975.

ROBERT C. SEAMANS, JR.,
Administrator.

Memorandum Opinion and Order Enlarging Issues

Memorandum opinion and order enlarging issues. In re applications of Belo Broadcasting Corporation (WFAA-TV), Dallas, Texas, Docket No. 19744, File No. BRCT-33, for renewal of broadcast license; WADECO, Inc., Dallas, Texas, Docket No. 19745, File No. BPCT-4453, for construction permit for new television broadcast station.

1. This proceeding involves the mutually exclusive applications of Belo Broadcasting Corporation (Belo) for renewal of its license to operate on Channel 8, Dallas, Texas, and WADECO, Inc. (WADECO) for authorization to construct a new television station on that channel. These applications were designated for consolidated hearing by Commission Order, 40 FCC 2d 1131, 27 RR 2d 889, released May 24, 1973. The Review Board now has before it Belo's sixth motion to enlarge issues,[1] filed October 11,

[1] The Board also has before it the following related pleadings: (a) opposition, filed October 24, 1974, by WADECO; (b) comments, filed October 24, 1974, by the Broadcast Bureau; and (c) reply, filed November 5, 1974, by Belo.

1974,[2] requesting the addition of the following issues:

(1) To determine whether WADECO, Inc. omitted material information in its application regarding James K. Wade's financial condition in violation of § 1.514 and/or failed to amend its application with respect thereto in violation of § 1.65 of the Commission's rules.

(2) To determine whether WADECO, Inc. and/or James K. Wade misrepresented material facts concerning his personal financial condition.

(3) To determine, in the light of the foregoing issues, whether James K. Wade is qualified to be a principal of a Commission licensee.

(4) To determine, in the light of the evidence adduced under the preceding issues, whether WADECO, Inc. possesses the basic or comparative qualifications to be a licensee of the Commission.

2. In support of its petition, Belo alleges that WADECO and/or James K. Wade, president of WADECO, misled the Commission by failing to make timely disclosure of the hypothecation of Wade's life insurance cash surrender value and thus misrepresented the extent of his liquid assets. According to Belo, in an October 12, 1972, amendment to its application, WADECO submitted a balance sheet for Wade, dated October 6, 1972, which listed $47,178 as the cash surrender value of his life insurance.[3] Belo alleges that WADECO continued to rely on Wade's October 6, 1972 balance sheet; thus, in a September 25, 1974, opposition to Belo's fifth motion to enlarge issues, WADECO stated that Wade's liquid assets included the cash surrender value of life insurance in the amount of $47,178. However, petitioner continues, WADECO indicated the following for the first time in an erratum to the September 25 opposition, filed October 3, 1974:

> • • • that a substantial portion of the cash surrender value of Mr. Wade's life insurance has been pledged and is not a liquid asset. The pledged portion of that asset is included in the long-term liabilities recited in Mr. Wade's balance sheet.

Based upon the above, Belo asserts that WADECO's continued representation that the facts reflected in WADECO's October 6, 1972 balance sheet were accurate, represents a "continuing major deception by that applicant and its principal • • •" with respect to the extent of Wade's liquid assets.

[2] Although Belo's petition is untimely, the Board agrees with petitioner that WADECO's recent disclosure of information relating to the liquidity of Mr. Wade assets constitutes good cause for filing the motion at this time.

[3] Belo relates that WADECO submitted a 1971 financial statement for Wade with its original application on July 1, 1971, which reflected that Wade's life insurance had a cash surrender value of $5,200. Petitioner further notes that although by letter, dated November 4, 1971, the Commission questioned the sufficiency of Wade's liquid assets to meet his stock subscription commitment, WADECO did not respond to this specific matter until the above-mentioned amendment was submitted.

3. In opposition, WADECO alleges that the petition lacks specificity, and it is not verified by an affidavit of a person having personal knowledge of the facts alleged.[4] Moreover, WADECO asserts—without further elaboration—that Belo has ignored the statement in the erratum which indicates that the pledged portion of Wade's assets is reflected in the long-term liabilities reported on Wade's balance sheet. The Broadcast Bureau notes in its comments, however, that WADECO's erratum failed to indicate when the cash surrender value of Wade's life insurance was pledged, thereby negating its viability as a source of funds should WADECO be required to rely upon the stock subscriptions of its stockholders.[5]

4. The Review Board will add a Rule 1.65 issue against WADECO. Although Belo's petition is not supported by an affidavit of a person having personal knowledge of the facts alleged, the factual bases for petitioner's allegations appear in WADECO's own submissions to the Commission and, consequently, are matters of which the Board may properly take official notice. See Rule 1.229. Rule 1.65 requires an applicant to amend his application when the information furnished in the application is no longer substantially accurate and complete in all significant respects or when changes which may be of decisional significance have occurred. See, e.g., Star Stations of Indiana, Inc., 34 FCC 2d 632, 636, 24 RR 2d 165, 170 (1972). And, significant reductions in the amount of liquid assets shown on the balance sheet of a stock subscriber could constitute material changes affecting financial qualifications. Christian Voice of Central Ohio, 15 FCC 2d 303, 14 RR 2d 785 (1968); Star Stations of Indiana, Inc., supra.[6] WADECO's statement in its erratum of October 3, 1974, that the pledged portion of the cash surrender value of Wade's life insurance is included in the long-term liabilities recited in Wade's balance sheet dated October 6, 1972, raises a question of whether the pledge of that asset may have occurred as much as two years before WADECO indicated to the Commission that the cash surrender value of the life insurance was not fully a liquid asset. Moreover, we note that WADECO has not yet fully apprised the Commission of Wade's financial status, since the applicant has not stated precisely what amount of the surrender value of the policy is actually hypothecated. Thus, the Board concludes that an issue is warranted to determine whether WADECO complied with Rule 1.65.[7] However, a misrepresentation issue will not be added because petitioner's allegations in this respect are insufficient to warrant such an inquiry, and the general question of candor may be examined under the issue specified herein. Horne Industries, Inc., 28 FCC 2d 454, 21 RR 2d 851 (1971); Folkways Broadcasting Co., Inc., 21 RR 2d 211 n. 8 (1971).

5. *Accordingly, it is ordered,* That the motion for enlargement of issues, filed October 11, 1974, by Belo Broadcasting Corporation, is granted to the extent indicated below, and is denied in all other respects; and

6. *It is further ordered,* That the issues in this proceeding are enlarged to include the following issue: To determine whether WADECO, Inc., has failed to comply with the provisions of § 1.65 of the Commission's rules by not reporting a substantial change in the liquid assets of James K. Wade, and, if so, to determine the effect of such non-compliance on the applicant's basic or comparative qualifications to be a Commission licensee.

7. *It is further ordered,* That the burden of proceeding with the introduction of evidence under the issue added herein shall be on Belo Broadcasting Corporation, and the burden of proof under such issue shall be on WADECO, Inc.

Adopted: January 8, 1975.

Released: January 13, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

[FR Doc.75-1753 Filed 1-17-75;8:45 am]

[4] In its reply, Belo notes that it is unnecessary for it to verify facts contained in WADECO's earlier opposition and erratum and which have thus "already been certified to be true and correct by James K. Wade, a principal of WADECO and its President, and by counsel for WADECO."

[5] The Bureau favors the addition of Rule 1.65 and misrepresentation issues, but states that a Rule 1.514 issue is not warranted in the absence of specific allegations of fact or supporting affidavits pursuant to Rule 1.229 which indicate that WADECO's application was inaccurate or incomplete at the time of filing.

[6] FCC Form 301, section III, 4(b), states in part: "For each person (except financial institutions) who has agreed to furnish funds or purchase stock, but who has not already done so, submit a balance sheet or, in lieu thereof, a financial statement showing all liabilities and containing current and liquid assets sufficient in amount to meet current liabilities . . . and, in addition, to indicate financial ability to comply with the terms of the agreement.

[7] Since there is no indication that the original financial statement was incorrect, there is no basis for the addition of a Rule 1.514 issue. But cf. Horne Industries, Inc., 28 FCC 2d 454, 21 RR 2d 851 (1971).

[Docket No. 16070; FCC 75-23]

COMMUNICATIONS SATELLITE CORP.

Order Regarding Investigation

In the matter of Communications Satellite Corporation investigation into charges, practices, classifications, rates and regulations, Docket No. 16070.

1. The Commission has before it a motion filed January 7, 1975, by the separated Trial Staff of the Common Carrier Bureau (Trial Staff) and the

V40113 JAN20 75 XUM

Communications Satellite Corporation (Comsat) to postpone the last date for filing of Proposed Findings of Fact and Conclusions of Law in the above-captioned proceeding for a period of approximately one month.

2. The parties indicate that prolonged and serious illness of two key members of the Trial Staff has made it impossible to complete analysis of the record and to prepare proposed findings by the present deadline. They further state that Comsat needs a short extension to complete its findings but supports the request of the Trial Staff for a further extension.

3. We believe good cause has been shown for the requested extension. This is the second extension granted for the filing of proposed findings. By Order of the Chief, Common Carrier Bureau released November 27, 1974, the time for filing of proposed findings was extended until January 15, 1975, and that for replies to February 28, 1975.

4. In view of these two extensions, it has become clear that it will not be possible to reach a final decision by April 1, 1975, as we had hoped. We now anticipate that the two month filing extension will cause a comparable extension in the target date for our decision.

5. *Accordingly, it is ordered,* That the Memorandum Opinion and Order in the above-captioned matter, 48 F.C.C. 2d 86 (1974) is amended to allow proposed findings of fact and conclusions of law to be filed no later than February 12, 1975, and reply findings and briefs no later than March 26, 1975.

Adopted: January 13, 1975.

Released: January 14, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

[Docket Nos. 19882, 19884; FCC 75R-10]

JIMMIE H. HOWELL AND AARON J. WELLS

Memorandum Opinion and Order Enlarging Issues

In re applications of Jimmie H. Howell, Milton, Florida, Docket No. 19882, File No. BP-19402; Aaron J. Wells, Milton, Florida, Docket No. 19884, File No. BP-19430; for construction permits.

1. By Order, 38 FR 34150, published December 11, 1973, the Commission designated the above-captioned applications for hearing. Now before the Review Board is a motion to enlarge issues, filed October 25, 1974, by the Broadcast Bureau, requesting the addition of misrepresentation and Rule 1.65 issues against Jimmie H. Howell (Howell).[1]

2. In support, the Bureau asserts that the financial statement submitted with Howell's original application, filed on March 6, 1973, lists a dress shop owned by Mrs. Howell as an asset. However, the Bureau alleges, on October 7, 1974, the first day of hearing in the instant proceeding, Howell revealed that the shop had been sold approximately one year earlier. Howell's failure to inform the Commission of the sale earlier, the Bureau alleges, is a violation of Rule 1.65. With respect to its request for misrepresentation issue, the Bureau contends that it was also revealed at the hearing that Mrs. Howell's ownership interest in the shop extended only to the inventory, although the asset was listed under the real estate schedule on Howell's balance sheet. Moreover, the Bureau contends, Howell, in submissions to the Commission subsequent to the sale, continued to rely on the shop as real estate and as a source of income during the first year of operation.[2] Specifically, the Bureau submits that in a January 25, 1974, opposition to a petition to enlarge issues, filed by Aaron J. Wells (Wells), Howell placed direct reliance on his wife's income.[3] The Bureau concludes that appropriate issues are warranted. In his comments, Wells supports addition of the requested issues.

3. In opposition, Howell initially states that his wife was never paid for the sale of her interest in the dress shop and that a civil action has been commenced to reacquire it. Howell maintains that the transaction was not reported earlier pursuant to Rule 1.65 because Mrs. Howell is not the applicant and since Howell, in light of his bank loan and other assets, "is not and does not need to rely on this asset to finance the proposed station." Howell also submits that he may work part time at two other stations after his proposed station is constructed, and that he and Mrs. Howell will also live on the income from her job with a stock brokerage agency. Finally, admitting that his current balance sheet places the dress shop under the heading *Real Estate,* Howell notes that the store's assets are described therein as "Store Inventory, etc." Thus, Howell concludes, there was no concealment or misrepresentation of any former interest in real estate, nor any motive for such misrepresentation.

4. The Review Board agrees with the Bureau that a serious question as to Howell's compliance with Rule 1.65 has been raised. Specifically, the sale of Mrs. Howell's dress shop could constitute a significant changed circumstance, bearing directly on Howell's financial qualifications. As the Board's Memorandum Opinion and Order, ____ FCC 2d ____, 30 RR 2d 406 (1974), issued in response to the aforementioned Wells petition, makes clear, both the liquidity of the real estate represented on Howell's balance sheet and Mrs. Howell's income are in question. Howell, having relied on his wife's assets to make his financial showing, may not excuse his failure to amend his application to report their sale by disclaiming any personal interest in the assets. *Cf. Voice of Reason, Inc. (KICM),* 37 FCC 2d 686, 25 RR 2d 645 (1972). For these reasons, inquiry into these matters will be authorized.

5. Addition of a misrepresentation issue is also warranted. In his January 25, 1974 pleading defending his financial showing, Howell affirmatively relied on his June 30, 1973 balance sheet and his wife's property and income, even though the availability of the funds in question may have been terminated through sale several months earlier. Thus, the Board apparently reached its decision without the benefit of all pertinent information. Addition of the requested misrepresentation issue is therefore warranted regardless of the possibility that the Board would have added the financial issue even had it possessed all of the correct information, or whether or not Howell's bank loan and remaining assets would have been sufficient to meet his first year costs without relying on the dress shop. See *FCC* v. *WOKO, Inc.* 329 U.S. 223 (1946); *St. Cross Broadcasting, Inc.,* 39 FCC 2d 514, 26 RR 2d 941 (1973). Nor is the fact that the sale is disputed or in litigation sufficient to eliminate the obligation to truthfully represent information to the Commission. See *Voice of Reason, Inc. (KICM), supra.* Finally, in our opinion, the extent of Mrs. Howell's ownership interest in the dress shop and whether it too was misrepresented may be explored under the issue being added herein.[4]

6. *Accordingly, it is ordered,* That the motion to enlarge issues, filed October 25, 1974, by the Broadcast Bureau, is granted to the extent indicated herein, and IS DENIED in all other respects; and

7. *It is further ordered,* That the Rule 1.65 issue designated by the Commission by Order, 34 FR 34150, published December 11, 1974, is modified to encompass the matters raised herein; and

8. *It is further ordered,* That the issues in this proceeding are enlarged to include the following issues:

(a) To determine whether Jimmie H. Howell made misrepresentations to the Commission with reference to his financial qualifications.

(b) To determine, in light of the evidence adduced with respect to the foregoing issue, whether Jimmie H. Howell possesses the requisite and/or comparative qualifications to be a Commission licensee.

9. *It is further ordered,* That the burden of proceeding with the introduction of evidence under the issues added herein shall be on the Broadcast Bureau, and the burden of proof shall be on Jimmie H. Howell.

Adopted: January 8, 1975.

Released: January 13, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

[FR Doc.75-1755 Filed 1-17-75;8:45 am]

[Docket No. 20271; FCC 75-6]

INTERNATIONAL TELECOMMUNICATION UNION

Notice of Inquiry

In the matter of an inquiry relating to preparation for a General World Administrative Radio Conference of the International Telecommunication Union to consider revision of the Radio Regulations.

1. By Resolution Number 28, adopted by the 1973 Plenipotentiary Conference of the International Telecommunication Union (ITU), a General World Administrative Radio Conference (WARC) of the ITU for the general Revision of the international Radio Regulations will be convened in 1979. A copy of that Resolution is attached.

2. The last General WARC for such a purpose was held in 1959. Prior to that time the practice had been to revise the international Radio Regulations as a whole whenever necessary. However, the rapid growth of international communications services and the resulting complexities of the revision process has made it desirable to hold specialized WARC's dealing with one particular radio service. Five such specialized conferences have been held since 1959, and additional specialized conferences are scheduled to convene prior to the 1979 General WARC.

3. Although the Administrative Council of the ITU will subsequently determine the specific convening date, the duration and the draft agenda of the 1979 General WARC, and will invite comments from interested member nations, the nature and objectives of this Conference could result in the revision of any aspect of the international Radio Regulations. Because of the far reaching importance of this conference it is necessary that proposals for changes to the international Radio Regulations be received and considered at the earliest practicable date.

4. The purpose of this Inquiry, therefore, is to solicit comments or recommendations concerning changes or revisions to the international Radio Regulations which the public believes should be considered by the Commission in developing pertinent U.S. positions. Recommendations for inclusion of a particular subject or revision of certain regulations should be accompanied by adequate justification and/or supportive rationale. In this connection, the Commission will consider, by incorporation herein, those pertinent Petitions for Rule Making already on file as well as the results of the aforementioned specialized Radio Conferences. Typical of the questions or issues expected to be addressed is the following question:

What effect, if any, will 3 kHz channel spacing in the HF aeronautical mobile (R) bands have upon the need for and timing of an aeronautical satellite program?

5. In developing proposals for consideration by the Commission in preparation for the 1979 WARC, participants should keep in mind the importance of the conference results. Based upon past experience, decisions reached at this conference can be expected to provide the framework for the Table of Frequency Allocations through most of the remainder of this century. It is of the utmost importance to develop a U.S. position which effectively promotes that combination of telecommunications uses which offers the maximum social and economic contribution to the national welfare while at the same time retains the necessary flexibility to accommodate the important new applications of this dynamic technology as well as the unique requirements of our international partners in the ITU.

6. As in the past, the Commission will expect to coordinate its views with those of the Office of Telecommunications Policy and the Department of State in developing national proposals for the 1979 General WARC. Thus, it should be noted that this inquiry, and any of an anticipated number of additional Notices of Inquiry in this proceeding are not rule making actions and will not involve changes in, or additions to, Commission Rules and Regulations. Nonetheless, inputs to this proceeding may eventually lead to proposals for modification of the international Radio Regulations and consequent incorporations of such changes in the Commission's Rules.

7. Accordingly, interested persons desiring to submit comments, proposals, recommendations or changes to the international Radio Regulations for consideration by the 1979 WARC may do so on or before February 14, 1975. Replies to any such comments, proposals, recommendations or changes may be submitted on or before February 28, 1975. All relevant and timely filed comments as well as other pertinent information made available to the Commission will be considered.

8. Pursuant to § 1.419 of the Commission's rules, an original and fourteen copies of all statements, briefs, or comments filed in response to this Notice are required.

9. Authority for this action is contained in section 4(i) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i).

Adopted: January 3, 1975.

Released: January 10, 1975.

FEDERAL COMMUNICATIONS COMMISSION,[1]
[SEAL] VINCENT J. MULLINS,
Secretary.

RESOLUTION No. 28

WORLD ADMINISTRATIVE RADIO CONFERENCE FOR THE GENERAL REVISION OF THE RADIO REGULATIONS

The Plenipotentiary Conference of the International Telecommunication Union (Mala-Torremolines, 1973),

considering:

(a) That, since 1959, various world administrative radio conferences have amended the Radio Regulations and Additional Radio Regulations on specific points without having been able to harmonize the decisions taken because of the limited nature of their agenda;

(b) That, as a result of technical advances, some of the provisions in these Regulations should be reconsidered, particularly with regard to certain services which are developing rapidly;

(c) That, for these reasons, a general revision of the Radio Regulations and of the Additional Radio Regulations should be undertaken;

resolves:

That a World Administrative Radio Conference to revise, as necessary, the Radio Regulations and the Additional Radio Regulations shall be convened in 1979;

Instructs the Administrative Council to make preparations for convening that Conference.

[FR Doc.75-1757 Filed 1-17-75;8:45 am]

[Docket Nos. 20320, 20321; File Nos. 4304-C2-P-71, 6261-C2-P-71; FCC 75-21]

VEGAS INSTANT PAGE AND WUI/TAS OF LAS VEGAS, INC.

Memorandum Opinion and Order Designating Applications for Consolidated Hearing on Stated Issues

In re applications of Vegas Instant Page, Las Vegas, Nevada, Docket No. 20320, File 4304-C2-P-71; WUI/TAS of Las Vegas, Inc., Las Vegas, Nevada, Docket No. 20321, File No. 6261-C2-P-71.

1. The Commission has before it for consideration applications filed by Vegas Instant Page (VIP) on February 8, 1971 and by Vegas Valley Associates, Inc. (now WUI/TAS of Las Vegas, Inc., hereinafter WUI/TAS) on April 19, 1971, for new one-way facilities in the Domestic Public Land Mobile Radio Service (DPLMRS) in the Las Vegas, Nevada area. Both applications are for guardband frequency 158.70 MHz. Also before the Commission are: (a) A petition to return WUI/TAS's application as defective filed by VIP on March 30, 1973, (b) an amendment to the original Vegas Valley Associates application filed June 8, 1973 substituting WUI/TAS as the applicant; (c) a reply

[1] Also before the Review Board are: (a) Opposition, filed November 6, 1974, by Howell; (b) comments, filed November 7, 1974, by Aaron J. Wells; and (c) reply, filed November 13, 1974, by the Broadcast Bureau.

[2] The Bureau notes that in a financial statement dated June 30, 1973, submitted in an amendment dated August 7, 1973, Howell represented that he and his wife would "if necessary, sell, transfer, or hypothecate any or all of the above real estate to construct and/or operate the proposed station the first year."

[3] In his opposition, Howell defended his proposal not to draw a salary from the proposed station by declaring that his salary as a county official "• • • in addition to his wife's business, Margot's Dress Shop in Milton, is more than enough to sustain he and Mrs. Howell." In this regard, the Bureau points out that Howell has since lost his county employment.

[4] In this respect we note that although Howell claims innocent intent, his wife's dress shop is included on the balance sheet under the "Real Estate Mortgages" schedule as well.

[1] Commissioner Reid absent.

V40113 JAN20 75 XUM

by WUI/TAS to VIP's petition to return as defective filed July 6, 1973; (d) an amendment to its application filed by VIP on October 24, 1973; (e) WUI/TAS's "Petition to Dismiss and Return as Defective" the amended VIP application filed November 21, 1973; (f) an opposition filed by VIP on December 6, 1973; and (g) a reply to the opposition filed by WUI/TAS on January 4, 1974.

2. Both VIP and WUI/TAS presently provide paging services in the Las Vegas, Nevada area. VIP provides "tone-only" paging on a frequency of 35.58 MHz and "tone plus voice" paging on guardband frequency 152.24 MHz. WUI/TAS provides two-way mobile service primarily and one-way paging secondarily on a frequency of 152.03 MHz. According to VIP, their paging service at 35.58 MHz is subject to "skip" and inadequate building penetration in spite of significant attempts to remedy these problems. The quality of service to be afforded subscribers at the higher guardband channel applied for is expected to be technically far superior to that at the lower frequency. WUI/TAS asserts in its application and other documents that their request for the remaining guardband frequency is primarily to allow them to conform with the Commission's intent in granting the use of 152.03 MHz. If its application is approved, WUI/TAS states it will transfer its one way paging customers to the new channel and use 152.03 MHz exclusively for two-way service.

3. In its motion to oppose the grant of the WUI/TAS application, VIP argues first that the application is defective due to a failure to comply with Rule 21.15(c)(4),[1] which requires that a copy of the state authorization to provide service, if one is required, be submitted with the application filed with this Commission. Nevada does require such an authorization. Since the Nevada PSC reassigned the authorization of Vegas Valley to WUI/TAS on April 19, 1973, the argument goes, the application on file with this Commission on that date in the name of Vegas Valley was not in compliance with Rule 21.15(c)(4).

4. Failure to comply with the provisions of Rule 21.15(c)(4) has constituted a defect so serious that the Commission has rejected applications. See *Two Way Radio of Carolina*, 18 F.C.C. 2d 356 (1969); *Canaveral Communications*, 26 F.C.C. 2d 73 (1970). Those cases, however, are easily distinguished from the instant case. In *Two Way Radio*, the North Carolina PUC had refused to issue a certificate. In *Canaveral*, the adequacy of an existing certificate to cover a new service was in doubt. In the instant case, there is no claim that the certificate in the name of WUI/TAS, submitted with the amended application on June 8, 1973, is in any substantive way defective. True, there was a period between April 19 and June 8, 1973 when the certificate with the application on file (that in the name of Vegas Valley Associates) had been superceded. Under the circumstances, however, we will not consider the application defective. Vegas Valley Associates was being sold to WUI/TAS. Authorizations had to be gotten from this Commission and the Nevada PSC. Ideally, all paperwork could have been coordinated to avoid the present situation. The ideal is rarely achieved, and we will not require it here. Returning the application of WUI/TAS is much too drastic under the circumstances. See *Day Nite Radio Message Service*, 26 F.C.C. 2d 911 (1971).

5. VIP also asserts that the change in control (from Vegas Valley Associates to WUI/TAS) is a major amendment. As such, the application is a new application subject to Public Notice as provided for in § 21.27[2] of the Rules and the "cut off" provisions of § 21.30(b)[3] and 1.227(b)(3)[4] of the Rules.

6. On December 28, 1973, the Commission issued a *notice of proposed rulemaking*, Docket No. 19905, 44 F.C.C. 2d 556 (1973), to amend its definition of a major amendment to explicitly include a substantial change in ownership of an applicant. Pending final adoption, the proposed rules were to be effective not only for applications subsequently amended, but also to previously amended pending applications. Special waivers, however, would be granted to preclude unfair results. 46 F.C.C. 2d at 560. Unless a waiver is appropriate, the WUI/TAS application would be dismissed under the terms of the *notice of proposed rulemaking*.

7. We will grant a waiver of the "cut off" rule here. The application was originally filed in April, 1971. It was more than two years later, in June 1973, that the change in ownership was effective. This was also six months before WUI/TAS had notice that such a change would be considered a major amendment. Nor has VIP claimed it has been prejudiced in any way by the change in ownership. While we think our proposed amended rule is a good one, a waiver as provided for in the *notice of proposed rulemaking* is in order here. See *Racom, Inc.*, 48 F.C.C. 2d 217 (1974).

8. On October 24, 1973, VIP amended its application to provide for tone plus voice paging in lieu of tone only paging. WUI/TAS argues in its Petition to Dismiss and Return as Defective that the change is a major amendment, subject to the "cut off" rule. VIP, in its opposition to the petition to dismiss, points out that the emission designators shown in its original application would permit both tone only and tone plus voice paging. According to VIP, the amendment therefore only updates and supplements the information provided earlier and is a minor amendment. We agree, that under the circumstances, the amendment is a minor one. Not only were emission designators necessary for tone plus voice paging shown, but receivers capable of providing tone plus voice service were to be utilized as well. A grant of the application with the tone plus voice emission designator would have permitted VIP to provide that service. For that reason a change in descriptive words to more accurately reflect technical information already provided is a minor amendment.

9. Both applicants presently provide paging services in the Las Vegas area. Neither applicant has adequately shown there is any public need for the grant of its application. Further, there has been no showing that the existing facilities of each applicant are inadequate to serve whatever demand exists. *Empire Communications Company*, 47 F.C.C. 2d 329 (1974). Therefore, the capacity of each applicant's facilities in relation to the demand faced by that applicant will be in issue in the hearing.

10. Insofar as the contents of the two applications are concerned, they propose to use the same frequency in the same city and are thus mutually exclusive. Since both applicants appear to be legally, financially and technically qualified to construct and operate the proposed facilities, a comparative hearing must be held to determine which applicant is the better qualified to operate the proposed facilities in the public interest. *Ashbacker Radio Corp.* v. *F.C.C.*, 326 U.S. 327 (1945).

11. Issue 1 calls for a comparative determination of the nature and extent of the services proposed by each applicant. We are currently reexamining the comparative criteria use in the DPLMRS. Until we announce changes in these criteria, however, we will continue to take evidence and arguments addressed to the rates, charges, maintenance, personnel, practices, classifications, regulations and facilities to be offered by the competing carriers, and to use these factors as decisional factors in selecting among applicants.

12. In view of the foregoing, *It is ordered*, That pursuant to sections 309(d) and (e) of the Communications Act of 1934 as amended, (47 U.S.C. sections 309(d) and (e)) that the captioned applications of VEGAS INSTANT PAGE AND WUI/TAS of LAS VEGAS, INC. are designated for hearing in a consolidated proceeding upon the following issues:

1. To determine on a comparative basis the nature and extent of the services proposed by each applicant.

2. To determine the total area and population to be served by Vegas Instant Page within the 43 dbu contour of its proposed station based upon the standards set forth in § 21.504 of the F.C.C. Rules and Regulations, and to determine the need for its proposed service in that area.

3. To determine the total area and population to be served by WUI/TAS of Las Vegas, Inc. within the 43 dbu contour of its proposed station based upon the standards set forth in § 21.504 of the F.C.C. Rules and Regulations, and to determine the need for its proposed service in that area.

4. To determine the present and prospective channel loading by VIP of its presently assigned one-way paging frequencies.

5. To determine the present and prospective channel loading by WUI/TAS of its presently assigned two-way paging frequency.

6. To determine, in light of the evidence adduced pursuant to the foregoing issues, what disposition of the above-captioned applications would best serve the public interest, convenience and necessity.

13. *It is further ordered*, That the hearing shall be held at the Commission offices in Washington, D.C. at a time and place and before an Administrative Law Judge, to be specified in a subsequent order.

14. *It is further ordered*, That the Chief, Common Carrier Bureau, is made a party to the proceeding.

15. *It is further ordered*, That applicants may avail themselves of an opportunity to be heard by filing with the Commission pursuant to § 1.221(c) of the Rules within twenty days of the release date hereof, a written notice stating an intention to appear on the date set for the hearing and present evidence on the issues specified in this Memorandum Opinion and Order.

Adopted: January 8, 1975.

Released: January 13, 1975.

Federal Highway Administration

RHODE ISLAND

Notice of Proposed Action Plan

The Rhode Island Department of Transportation has submitted to the Federal Highway Administration of the U.S. Department of Transportation a proposed Action Plan as required by Policy and Procedure Memorandum 90-4 issued on June 1, 1973. The Action Plan outlines the organizational relationships, the assignments of responsibility, and the procedures to be used by the State to assure that economic, social and environmental effects are fully considered in developing highway projects and that final decisions on highway projects are made in the best overall public interest, taking into consideration: (1) needs for fast, safe and efficient transportation; (2) public services; and (3) costs of eliminating or minimizing adverse effects.

The proposed Action Plan is available for public review at the following locations:

1. Rhode Island Department of Transportation
Planning Division
State Office Building
Providence, Rhode Island 02903
2. Rhode Island Division Office—FHWA
Gardner Building, 3rd Floor
400 Fountain Street
Providence, Rhode Island 02903
3. FHWA Regional Office—Region 1
4 Normanskill Boulevard
Delmar, New York 12054
4. U.S. Department of Transportation
Federal Highway Administration
Environmental Development Division
Nassif Building—Room 3246
400-7th Street, SW
Washington, D.C. 20590

Comments from interested groups and the public on the proposed Action Plan are invited. Comments should be sent to the FHWA Regional Office shown above before February 21, 1975.

Issued on: January 9, 1975.

NORBERT T. TIEMANN,
Federal Highway Administrator.

[FR Doc.75-1706 Filed 1-17-75;8:45 am]

FEDERAL POWER COMMISSION

[Docket No. CP75-201]

ARKANSAS LOUISIANA GAS CO.

Notice of Application

JANUARY 13, 1975.

Take notice that on January 3, 1975, Arkansas Louisiana Gas Company (Applicant), P.O. Box 1734, Shreveport, Louisiana 71151, filed in Docket No. CP-75-201 an application pursuant to section 7(c) of the Natural Gas Act authorizing the sale of natural gas in interstate commerce by Applicant to Cities Service Gas Company (Cities) so as to modify, as a result of curtailment, existing sales arrangements between the two companies presently taking place near Jane, Missouri, authorizing a related exchange of gas, and authorizing the construction and operation of facilities to implement the exchange, all as more fully set forth in the application, which is on file with the Commission and open to public inspection.

Applicant requests authorization to deliver to Cities at a point near Jane, Missouri, up to 80,000 Mcf of gas per day, which shall consist of the volumes subject to curtailment Applicant is already authorized to deliver to Cities at Jane plus volumes equivalent to the volumes Cities shall deliver to Applicant at a proposed new exchange point between the two companies at an interconnection of their systems in McClain County, Oklahoma. Applicant proposes to charge 50 cents per Mcf for all volumes delivered at Jane regardless of the source of said volumes, subject to an annual adjustment to reflect purchased gas costs. Applicant further requests authorization to install a pipeline tap on its system in McClain County for the purpose of receiving the gas from Cities.

By order issued August 15, 1967, accompanying Opinion No. 527 (38 FPC 364), Applicant was authorized to sell up to an average daily volume of 100,000 Mcf of natural gas to Cities at a point near Jane. The rate computed by Applicant for the initial sale of the subject gas was 22.5 cents per Mcf. Applicant states that, as a result of curtailment on Applicant's system, Cities is receiving, and will continue to receive into the

V40I13 JAN20 75 XUM

foreseeable future, less gas from Applicant at Jane than is certificated. Applicant further states that Cities uses the gas delivered at Jane for service to the Springfield-Joplin, Missouri, area, and needs 80,000 Mcf per day during the winter. Applicant estimates that, as a result of curtailment, Applicant will only be delivering 44,000 Mcf per day to Cities at Jane. Cities, according to Applicant, can deliver to Applicant in McClain County sufficient gas so as to enable Applicant to supplement its deliveries at Jane to provide the 80,000 Mcf per day to Cities at that point. Applicant states that such an exchange would be of no benefit to Applicant from a supply standpoint, but would be highly desirable for Cities because of the unique location of the Jane supply point in relation to where the gas is needed in the Springfield-Joplin area. Applicant further states that Cities' alternative to this exchange agreement is to expand its own system capacity into the Springfield-Joplin area from the west at considerable investment.

Applicant states that the new proposed price of 50 cents per Mcf is calculated on the basis of the volume of gas Cities purchases from Applicant at Jane, with this amount to constitute payment not only for the gas purchased by Cities at Jane but also settlement with respect to the exchange aspect of the transaction. Applicant reserves the right not to accept any certificate issued in the instant docket authorizing the proposed exchange if the new price provided in the agreement is not approved and if Applicant cannot contemporaneously commence charging the new price upon issuance of the certificate.

Applicant states that the estimated cost of the pipeline tap in McClain County is $4,600 to be financed from funds on hand.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 4, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-1733 Filed 1-17-75;8:45 am]

[Docket No. CP73-329, PGA 75-5B]

CHATTANOOGA GAS CO.

Proposed PGA Rate Adjustment

JANUARY 13, 1975.

Take notice that on January 6, 1975, Chattanooga Gas Company, (Chattanooga) tendered for filing proposed changes to Original Volume No. 1 of its FPC Gas Tariff to be effective on January 1, 1975, consisting of the following revised tariff sheets: Ninth Revised Sheet No. 6.

Chattanooga states that the sole purpose of these Revised Tariff Sheets is to adjust Chattanooga's LNG rates pursuant to the PGA provision in Section 5 of the General Terms and Conditions of its FPC Tariff to reflect increased purchased gas costs resulting from an additional January 1, 1975 rate increase by one of its suppliers, Southern Natural Gas Company, (Southern) in Docket No. RP73-64 to reflect an additional increase in their purchased gas costs from United Gas Pipeline Company and Sea Robin Pipeline Company.

Chattanooga requests that its Ninth Revised Sheet No. 6 be made effective on January 1, 1975, or on such other date as the underlying filing of Southern Natural of December 19, 1974 becomes effective.

Chattanooga further states that it is relying on its alternative rate increase reflected on Substitute Eighth Revised Sheet No. 6 filed with the Commission on November 27, 1974 to be effective on January 1, 1975, in the event Ninth Revised Sheet No. 6 is not accepted to be effective on January 1, 1975.

Chattanooga states that copies of the filing have been mailed to all of its jurisdictional customers.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 30, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-1734 Filed 1-17-75;8:45 am]

[Dockets Nos. CP75-191, CP75-193, CP75-194]

LONE STAR GAS CO.

Notice of Applications

JANUARY 10, 1975.

Take notice that on December 30, 1974, Lone Star Gas Company (Applicant), 301 South Harwood Street, Dallas, Texas 75201, filed in Docket Nos. CP75-191, CP75-193 and CP75-194 applications pursuant to section 7 of the Natural Gas Act, as implemented by paragraphs (c), (g) and (b) of § 157.7 of the regulations thereunder (18 CFR 157.7 (b), (c) and (g)), respectively, for a certificate of public convenience and necessity authorizing the construction during the calendar year 1975 and operation of facilities for rearrangements of minor gas-sales or transportation facilities, for authorization for the construction, relocation, removal, or abandonment, also during the calendar year 1975, and operation of field compression and related metering and appurtenant facilities, and for a certificate of public convenience and necessity authorizing the construction during the calendar year 1975 and operation of gas purchase facilities, respectively, all as more fully set forth in the applications, which are on file with the Commission and open to public inspection.

The purposes of these budget-type applications are (1) to augment Applicant's ability to act with reasonable dispatch in the construction and abandonment of facilities which will not result in changing Applicant's system salable capacity or service from that authorized prior to the filing of the applications, (2) to augment Applicant's ability to act with reasonable dispatch in contracting for and connecting to its pipeline system supplies of natural gas in various producing areas generally co-extensive with said system, and (3) to enable Applicant to act with reasonable dispatch in making miscellaneous minor rearrangements on its system without the delay incident to the filing and processing of numerous individual certificate applications.

Applicant states that the total cost for construction of the gas purchase facilities will not exceed $3,000,000, with no single project to exceed $750,000, that the total cost of the miscellaneous rearrangements of gas-sales and transportation facilities will not exceed $300,000 with no single project to exceed $75,000, and that the abandonment, removal and relocation, and construction of field compression facilities will not exceed $800,000, with no single project to exceed $200,000. Such costs will be financed from working capital and cash on hand, according to Applicant.

Any person desiring to be heard or to make any protest with reference to said applications should on or before February 3, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on these applications if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificates and permission and approval for the proposed abandonments are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-1735 Filed 1-17-75;8:45 am]

[Dockets Nos. G-11817, G-11818, and CI71-549]

MARATHON OIL CO.

Petitions To Amend

JANUARY 14, 1975.

Take notice that on December 18, 1974, Marathon Oil Company (Marathon), 539 South Main Street, Findlay, Ohio 45840, submitted filings in Docket Nos. G-11817, G-11818 and CI71-549 to effect implementation of a proposed settlement in *Hilda B. Weinert and Jane W. Blumberg, et al.*, Docket No. G-2730, *et al.*, all as more fully set forth in said filings, which are on file with the Commission and open to public inspection.

The instant filings state that by order issued December 1, 1958, the Commission granted certificates of public convenience and necessity to Marathon pursuant to section 7(c) of the Natural Gas Act authorizing the sale of natural gas produced from specific properties in the La Gloria Field, Brooks and Jim Wells Counties, Texas, to Natural Gas Pipeline Company of America (Natural) in Docket No. G-11818 and to Transcontinental Gas Pipe Line Corporation (Transco) in Docket No. G-11817. On January 28, 1971, Marathon filed in Docket No. CI71-549 an application pursuant to section 7(b) of the Natural Gas Act for permission for and approval of the abandonment of the sale to Transco from the La Gloria Field.

In the order accompanying Opinion No. 655, issued on March 21, 1973 (49 FPC 738), the Commission authorized Marathon to increase its deliveries to Natural to the extent of its prior commitments to Transco and granted abandonment authorization for Marathon's sale to Transco, together with similar authorizations to other producers in the La Gloria Field. On November 12, 1973, the United States Court of Appeals for the District of Columbia Circuit reversed Opinion No. 655 and remanded it to the Commission for further proceedings.[1]

Marathon states that as a result of settlement negotiations a new and superseding gas purchase contract dated November 7, 1974, with Transco in Docket No. G-11817 and an amendment dated August 31, 1974, to Marathon's gas sales contract with Natural in Docket No. G-11818 were entered into to become effective subject to approval by the Commission of the settlement agreement in Docket No. G-2730, *et al.* Said settlement agreement was certified to the Commission on November 11, 1974. The new agreements with Transco and Natural, according to Marathon, provide for changes in the volumes delivered to Transco and Natural in accordance with the subject settlement agreement.

Marathon, accordingly, requests that upon approval of the subject settlement the orders issuing certificates in Docket Nos. G-11817 and G-11818 be amended in accordance with the terms of the applicable agreement in the respective dockets and that the proceeding on its application to abandon service in Docket No. CI71-549 be terminated.

According to Marathon's summary of the November 7, 1974, contract with Transco, Marathon will sell approximately 726,000 Mcf of gas per month at 14.65 psia, subject to upward and downward Btu adjustment from a base of 1,000 Btu per cubic foot, at a price of 54.1583 cents per Mcf, which Marathon maintains is the rate provided by § 2.56a of the Commission's General Policy and Interpretations (18 CFR 2.56a).

Any person desiring to be heard or to make any protest with reference to said petitions to amend and request for termination of proceeding should on or before January 28, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-1736 Filed 1-17-75;8:45 am]

[Docket No. RP72-149]

MISSISSIPPI RIVER TRANSMISSION CORP.

Proposed Change in Rates

JANUARY 13, 1975.

Take notice that Mississippi River Transmission Corporation (MRT) on December 23, 1974, tendered for filing Second Substitute Alternate Twenty-Fifth Revised Sheet No. 3A to its FPC Gas Tariff, First Revised Volume No. 1 to become effective January 1, 1975, and Substitute Twenty-Sixth Revised Sheet No. 3A to be effective February 1, 1975.

MRT states that both sheets are being filed pursuant to the provisions of MRT's Purchased Gas Cost Adjustment (PGA) clause to its tariff to reflect amended rate change filings of United Gas Pipe Line Company (United) and Natural Gas Pipeline Company of America (Natural), both of which were filed to be effective January 1, 1975.

MRT states that United initially filed a PGA rate change on November 14, 1974 to be effective January 1, 1975 and Natural filed a PGA rate change on November 21, 1974 to be effective January 1, 1975, which, among other things, reflected the PGA rate change of United. Such rate changes were reflected by MRT on Substitute Alternate Twenty-Fifth Revised Sheet No. 3A to its tariff. MRT further states that on December 17, 1974, United amended its November 14, 1974 PGA rate change filing to include as a part of its deferred purchased cost recovery an additional amount which reflects all Opinion No. 699 producer increases, prior to those prescribed in Opinion No. 699-H, up to the proposed January 1, 1975 effective date and Natural subsequently amended its PGA rate change filing to track such change of United. Both United's and Natural's amended PGA rate changes are reflected on Second Substitute Alternate Twenty-Fifth Revised Sheet No. 3A.

Finally, MRT states that it has also included herewith Substitute Twenty-Sixth Revised Sheet No. 3A to its tariff, which sheet is to be substituted for Twenty-Sixth Revised Sheet No. 3A which MRT filed on December 17, 1974, to be effective February 1, 1975.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 24, 1975. Protests will be

[1] *Transcontinental Gas Pipe Line Corporation v. FPC*, 488 F. 2d 1325 (D.C. Cir. 1973).

V40I13 JAN20 75 XUM

considered by the Commission to determine appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-1737 Filed 1-17-75;8:45 am]

NATIONAL POWER SURVEY COORDINATING COMMITTEE

Notice of Renewal

JANUARY 13, 1975.

This order renews the term of the National Power Survey Coordinating Committee, to a date not later than December 31, 1975. The Coordinating Committee was established by Commission order issued November 2, 1972, 37 FR 23868, for a period not to exceed two years.

By Notice of Determination and Certification with Respect to Renewal of National Power Survey Advisory Committees, published in the FEDERAL REGISTER on December 10, 1974, 39 FR 43113, the Chairman of this Commission has determined and certified that the renewal of the aforesaid committee of the National Power Survey for the period set forth herein is necessary in the public interest in connection with the performance of duties imposed upon the Commission by law. The Office of Management and Budget, Advisory Committee Management, has ascertained that renewal of the aforesaid advisory committee of the National Power Survey is in accord with the requirements of the Federal Advisory Committee Act, 86 Stat. 770, 773-4.

1. *Purpose.* The National Power Survey Coordinating Committee shall perform a liaison function with respect to the National Power Survey as constituted by the Federal Power Commission, together with all advisory committees, including any task forces thereto, which may be established by the Commission from time to time. The Commission contemplates that the National Power Survey Coordinating Committee, in performing this liaison function will assist in the implementation of requests for data, information, studies or other materials requested or recommended by the National Power Survey and its constituent advisory committees, including task forces thereto, as referred to above; will recommend work schedule assignments and work schedule priorities among such National Power Survey advisory committees, including task forces, as the Coordinating Committee considers appropriate to the implementation of requests for data, information, studies or other materials requested or recommended by the National Power Survey; and will assist in other ways as it may be called upon to act in performing its liaison function as requested from time to time by the Commission or its staff.

2. *Membership.* The chairman, coordinating representative, secretary, and members of the National Power Survey Coordinating Committee renewed herein, as selected by the Chairman of the Commission, with the approval of the Commission, are designated in the appendix hereto.

3. *Selection of Future Committee Members.* All future National Power Survey Coordinating Committee members and persons designated to act as committee chairmen, coordinating representatives, and secretary, shall be selected and designated by the Chairman of the Commission with the approval of the Commission; provided, however, the Chairman of the Commission may select and designate additional persons to serve in the capacity of alternate secretary.

4. The following paragraphs of the Commission order, dated June 29, 1972, 47 FPC 1740, 1742-3, as amended by Commission order issued December 19, 1972, 48 FPC 1468, 1471-4, and by Commission order issued August 7, 1974, 52 FPC ——, are hereby incorporated by reference:

3. Conduct of Meetings.
4. Minutes and Records.
5. Secretary of the Committee.
6. Location and Time of Meetings.
7. Advice and Recommendations Offered by the Committee.

5. The National Power Survey Coordinating Committee renewed herein shall terminate not later than December 31, 1975. Estimated operating cost for the calendar year 1975 for subject committee is $6,000.

The Secretary of the Commission shall file with the Chairman, Committee on Commerce, United States Senate, Chairman, Interstate and Foreign Commerce Committee, House of Representatives, and Librarian, Library of Congress, copies of this order.

This order is effective January 1, 1975, and the Secretary of the Commission shall cause prompt publication of this order to be made in the Federal Register.

By the Commission.

Secretary.
[SEAL] KENNETH F. PLUMB,

NATIONAL POWER SURVEY COORDINATING COMMITTEE MEMBERS

Chairman. Shearon Harris, Chairman, National Power Survey Executive Advisory Committee.

Coordinating Representatives. B. E. Biggerstaff, Bureau of Power, Bernard B. Chew, Bureau of Power, Alexander Gakner, Bureau of Power, Dr. Richard F. Hill, Bureau of Power, Drexel D. Journey, Office of General Counsel, William W. Lindsay, Bureau of Power.

Secretary. Daniel G. Lewis, Director, National Power Survey.

Members. Gordon R. Corey, Chairman, National Power Survey Technical Advisory, Committee on Finance.

M. F. Hebb, Chairman, National Power Survey Technical Advisory Committee on Power Supply.

Paul D. Martinka, Chairman, National Power Survey Technical Advisory Committee on Fuels.

Dr. Bruce Netschert, Chairman, National Power Survey Technical Advisory Committee on Conservation of Energy.

Dr. H. Guyford Stever, Chairman, National Power Survey Technical Advisory Committee on Research and Development.

Dr. Irwin Stelzer, Chairman, National Power Survey Technical Advisory Committee on the Impact of Inadequate Electric Power Supply.

[FR Doc.75-1750 Filed 1-17-75;8:45 am]

[Project 2455]

NEW YORK STATE ELECTRIC & GAS CORP.

Application To Withdraw Application for License

JANUARY 13, 1975.

Public notice is hereby given that application was filed on November 8, 1974, under the Federal Power Act (16 U.S.C. 791a-825r) by New York State Electric & Gas Corporation, Applicant (correspondence to: L. T. Everett, Senior Vice President, New York State Electric & Gas Corporation, P.O. Box 287, Ithaca, New York 14850; and Frederic H. Lawrence, Esq., Huber Magill Lawrence and Farrell, Attorneys, 99 Park Avenue, New York, New York 10016), requesting approval to withdraw the application filed April 1, 1964, for major license for its constructed Colliers Hydroelectric Project No. 2455. The Colliers project is located on the North Branch of the Susquehanna River, in the Towns of Milford and Middlefield, Otsego County, New York.

Project No. 2455 consists of: a reinforced concrete dam, 200 feet long and 36 feet high; a 520-acre reservoir known as Goodyear Lake (250 acre-feet of usable storage) with normal surface elevation 1150 feet m.s.l.; an intake structure, canal and forebay; a powerhouse containing four generating units having a total installed capacity of 3,810 KW; and appurtenant facilities.

Operation of the plant was discontinued in March 1969, and the generating facilities were removed in August 1970. The plant, constructed in 1908, was retired for economic reasons. The project is no longer useful to Applicant, nor would rehabilitation of the plant be economically feasible. The power plant has been replaced by centralized dispatching in Applicant's facilities at Binghamton, New York.

In the absence of acquisition of the project by the County of Otsego for recreational purposes, Applicant proposes to obtain authorization from the New York Department of Environmental Conservation to lower the level of Goodyear Lake and eventually to complete dewatering of the Lake.

Any person desiring to be heard or to make protest with reference to said application should on or before February 21, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP74-145]

NORTHERN NATURAL GAS CO.

Amendment to Application

JANUARY 10, 1975.

Take notice that on December 20, 1974, Northern Natural Gas Company (Applicant), 2223 Dodge Street, Omaha, Nebraska 68102, filed in Docket No. CP74-145 an amendment to its application filed in said docket pursuant to section 7(c) of the Natural Gas Act by requesting authority to establish an interconnection of Applicant's gathering system with that of Natural Gas Pipeline Company of America (Natural) and to operate same for receipt of exchange gas from Natural in Carson County, Texas, and to operate on a permanent basis certain existing facilities in Wheeler County, Texas, and to exchange gas with Natural in Carson, Hansford and Wheeler Counties, Texas, all as more fully set forth in the amendment, which is on file with the Commission and open to public inspection.

Applicant states that in its original application in the subject docket it requests authority to construct and operate certain facilities to exchange gas with Natural. Northern, according to the original application, has available, pursuant to its rights under an agreement with Kerr-McGee Corporation, gas produced from the Dobbs No. 1 Well located close to Natural's existing facilities in Wheeler County and Natural has gas available from the Lackey No. 1 Well in Hansford County, which well is connected to Applicant's gathering system. The original application, therefore, requests authorization for an exchange of up to 2,000 Mcf of gas per day between the two companies. In order to implement said exchange Applicant requested authorization to construct and operate 1,400 feet of 4-inch pipe and appurtenances in Wheeler County. In the instant amendment Applicant states that it constructed these facilities and commenced the exchange on March 15, 1974, pursuant to § 157.22 of the Commission's regulations under the Natural Gas Act (18 CFR 157.22).

In the instant amendment Applicant relates that Natural has encountered delay in executing the necessary gas purchase contract for the natural gas volumes produced from the Lackey No. 1 Well, and that in order to provide for a concurrent exchange of gas upon the issuance of certificate authority in the instant docket and to make available to Applicant's system at a suitable date supplies of natural gas from dedicated gas reserves in Wheeler County, Applicant and Natural have entered into an amended agreement providing for an additional point of exchange to be located in Carson County. The instant amendment to the original application further states that Natural has interest in the Lackey No. 2 and 3 Wells in Hansford County, which under the terms of the amended agreement, have been established as additional exchange points of delivery to Applicant.

Accordingly, Applicant requests authority to construct and operate measuring facilities and to establish an interconnection of its gathering facilities in Carson County, to provide an additional exchange point with Natural, and to operate on a permanent basis the existing 1,400 feet of 4-inch pipe previously constructed for delivery of gas to Natural in Wheeler County. Applicant estimates the cost of the facilities proposed in the original application and in the instant amendment to be $10,000. Applicant further requests authority to exchange gas with Natural in Carson, Hansford and Wheeler Counties as more fully set forth in the instant amendment to its application in the subject docket.

Any person desiring to be heard or to make any protest with reference to said amendment should on or before January 28, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8878]

POTOMAC EDISON CO.

Postponement of Hearing

JANUARY 13, 1975.

On January 8, 1975, The Potomac Edison Company filed a motion to postpone the hearing date fixed by order issued August 26, 1974, in the above-designated matter.

Upon consideration, notice is hereby given that the hearing date in the above matter is postponed until March 12, 1975, at 10 a.m. (e.d.t.).

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-1740 Filed 1-17-75;8:45 am]

[Rate Schedule Nos. 72 etc.]

TENNECO OIL CO., ET AL.

Rate Change Filings

JANUARY 13, 1975.

Take notice that the producers listed in the Appendix attached hereto have filed proposed increased rates to the applicable area new gas or national ceiling based on the interpretation of vintaging concepts set forth by the Commission in its Opinion No. 699-H, issued December 4, 1974.

The information relevant to each of these sales is listed in the Appendix.

Any person desiring to be heard or to make any protest with reference to said filing should on or before January 31, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP74-25]

TEXAS GAS TRANSMISSION CORP.

Rate Change

JANUARY 13, 1975.

Take notice that on December 26, 1974, Texas Gas Transmission Corporation (Texas Gas) tendered for filing the following revised tariff sheets to its FPC Gas Tariffs, Third Revised Volume No. 1 and Original Volume No. 2:

Third Revised Volume No. 1 and Effective date	
Fourth Substitute Eighth Revised Sheet No. 1, April 1, 1974.	

V40 I3 JAN 20 75 XUM

Third Substitute Ninth Revised Sheet No. 7, May 1, 1974.
Fourth Substitute Ninth Revised Sheet No. 7, August 1, 1974.
Second Substitute Tenth Revised Sheet No. 7, August 2, 1974.
First Revised Sheet No. 29, February 1, 1975.
First Revised Sheet No. 30, February 1, 1975.
First Revised Sheet No. 31, February 1, 1975.
First Revised Sheet No. 32, February 1, 1975.
Second Revised Sheet No. 102, February 1, 1975.

Original Volume No. 2

Third Substitute Sixth Revised Sheet No. 333, April 1, 1974.
Third Substitute Sixth Revised Sheet No. 363, April 1, 1974.
Fourth Substitute Sixth Revised Sheet No. 363, February 1, 1975.

Texas Gas states that the revised tariff sheets are being filed pursuant to a Commission order issued December 20, 1974, in Docket No. RP74-25 which approved a Stipulation and Agreement submitted by Texas Gas in Docket No. RP74-25. Texas Gas states that the tariff sheets are to become effective on the dates listed on the respective tariff sheets.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C., 20426, in accordance with §§ 1.8, and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 27, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-1743 Filed 1-17-75;8:45 am]

[Docket No. RP74-25]

TEXAS GAS TRANSMISSION CORP.

Notice of Rate Change

JANUARY 13, 1975.

Take notice that on December 26, 1974, Texas Gas Transmission Corporation (Texas Gas) tendered for filing Fifth Substitute Tenth Revised Sheet No. 7. The proposed effective date is February 1, 1974.

Texas Gas states that pursuant to a Commission order issued December 20, 1974, in Docket No. RP74-25, it would normally be filing Settlement rates as approved by the Commission to become effective February 1, 1974. However, Texas Gas states that on December 16, 1974, as amended December 23, 1974, Texas Gas filed its semi-annual PGA increase in Docket No. RP72-156, to become effective February 1, 1974. Therefore, Texas Gas states that its instant filing reflects the reductions contemplated by the Settlement, adjusted upward to reflect the PGA increase filed on December 16, 1974, as amended December 23, 1974.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 24, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-1744 Filed 1-17-75;8:45 am]

[Docket No. RP72-156, PGA75-2A]

TEXAS GAS TRANSMISSION CORP.

PGA Rate Increase

JANUARY 13, 1975.

Take notice that on December 23, 1974, Texas Gas Transmission Corporation (Texas Gas) tendered for filing Fourth Substitute Tenth Revised Sheet No. 7 to its FPC Gas Tariff, Third Revised Volume No. 1.

Texas Gas states that on December 16, 1974, it filed a PGA rate increase (Docket No. RP72-156, PGA75-2) to become effective February 1, 1974, and that the December 16, 1974, filing reflected purchased gas costs increases by United Gas Pipeline Company (United) and Texas Eastern Transmission Corporation (TETCO). Texas Gas states that subsequent to its December 16, 1974, filing United and TETCO revised their PGA filings to reflect estimated purchased gas costs pursuant to Opinion No. 699-G. Texas Gas states that its December 23, 1974, filing is necessary to reflect the additional increases to be incurred from United and TETCO. Texas Gas proposes an effective date of February 1, 1974.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 27, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP74-52]

TRANSWESTERN PIPELINE CO.

Further Extension of Procedural Dates

JANUARY 13, 1975.

On January 6, 1975, Transwestern Pipeline Company filed a motion to extend the procedural dates fixed by order issued November 18, 1974, as most recently modified by notice issued December 10, 1974, in the above-designated matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Company Rebuttal, February 14, 1975. Hearing, March 4, 1975 (10 a.m. e.d.t.).

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-1746 Filed 1-17-75;8:45 am]

[Docket Nos. CP75-196, CP75-197]

UNITED GAS PIPE LINE CO.

Notice of Applications

JANUARY 13, 1975.

Take notice that on December 31, 1974, United Gas Pipe Line Company (Applicant), 1500 Southwest Tower, Houston, Texas 77002, filed in Docket Nos. CP75-196 and CP75-197 applications pursuant to section 7(c) of the Natural Gas Act for permission and approval to abandon deliveries of natural gas in interstate commerce on January 1, 1975, to Atlas Processing Company (Atlas) at Shreveport, Caddo Parish, Louisiana, and to Oilnkraft, Inc. (Oilnkraft) at West Monroe, Ouachita Parish, Louisiana, respectively, and facilities related to such deliveries, all as more fully set forth in the applications which are on file with the Commission and open to public inspection.

Applicant states that deliveries of natural gas are currently being made to Atlas at its refinery plant and Oilnkraft at its paper mill pursuant to contracts dated November 17, 1969, and November 30, 1962, respectively, both of which expire by their terms on January 1, 1975. Applicant states that extension of the contract with Atlas is at Applicant's option and that extension of the contract with Oilnkraft was at Oilnkraft's option prior to January 2, 1974, which option Oilnkraft did not exercise. Applicant has advised Atlas and Oilnkraft that Applicant would not extend their respective contracts beyond January 1, 1975. Accordingly, Applicant herein seeks permission and approval to abandon the deliveries to Atlas and Oilnkraft and related facilities authorized by Commission orders issued January 27, 1959 (21 FPC 64), April 28, 1972 in Docket No. G-232, and May 24, 1965 (33 FPC 1058) and the order accompanying Commission Opinion No. 372 issued December 17, 1962 (28 FPC 1035).

Applicant states that the predominate use of the gas in question is as boiler fuel. It is stated that alternate fuels could effectively supplant 91 percent of Atlas' and 90 percent of Oilnkraft's respective gas receipts from Applicant.[1] Applicant states that because it has begun curtailments on its system and in view of the Commission's position that boiler fuel use is relegated to the lowest priority,[2] it is Applicant's policy that contracts with major industrial customers for gas used as boiler fuel will not be extended beyond the period of Applicant's contractual obligation.

Applicant states that it recognizes that Atlas and Oilnkraft must bear the cost of conversion to alternate fuel and the difference in cost between natural gas and the higher priced alternate fuels. Applicant points out that Atlas and Oilnkraft would incur such costs in the increasingly likely event that Applicant is forced to curtail completely deliveries to them. Applicant asserts its belief that since Applicant commenced curtailments on its system in 1970 Atlas and Oilnkraft have been on notice that their contracts for gas as boiler fuel would not be extended, and that they have had adequate time for conversion to alternate fuels. Finally, Applicant maintains that the economic impact of the proposed abandonment of service to Atlas and Oilnkraft will not preclude their continued operations.

Applicant also requests permission and approval to abandon, remove and salvage a sales meter, regulator station and 1,240 feet of 8-inch pipeline in Caddo Parish and a sales meter, regulator station and 297 feet of 8-inch, 10-inch and 12-inch pipeline in Ouachita Parish. Applicant states that all of the facilities proposed to be abandoned have been operated exclusively to serve Atlas or Oilnkraft.

Applicant explains that because the gas presently committed to Atlas and Oilnkraft will remain in Applicant's system, the proposed abandonment of sales will not result in a loss of gas to interstate commerce. Applicant claims that the proposed abandonment of services and facilities will in no way impair service to any of its other existing customers.

Any person desiring to be heard or to make any protest with reference to said applications should on or before February 4, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, hearings will be held without further notice before the Commission on these applications if no petitions to intervene are filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonments are required by the public convenience and necessity. If petitions for leave to intervene are timely filed, or if the Commission on its own motion believes that formal hearings are required, further notice of such hearings will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearings.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-1747 Filed 1-17-75;8:45 am]

[1] The applications state that according to Atlas' and Oilnkraft's responses to curtailment end-use data questionnaires in Docket Nos. RP71-29 and RP71-120, 9 percent of Atlas' basic requirements from Applicant are used in process applications and 91 percent are used as boiler fuel or in other industrial applications which can also be converted to use alternate fuels and 90 percent of Oilnkraft's basic requirements from Applicant are used as boiler fuel.

[2] Applicant points to Commission Opinion Nos. 647 (49 FPC 179) and 647-A (49 FPC 1211) and Commission Order to Show Cause issued January 17, 1973, in Docket No. CP73-189.

[Docket No. E-9189]

UTAH POWER & LIGHT CO.

Notice of Application

JANUARY 13, 1975.

Take notice that on December 23, 1974, Utah Power & Light Company (Applicant) tendered for filing pursuant to section 205 of the Federal Power Act and Part 35 of the Regulations issued thereunder, a December 3, 1973 Interconnection Agreement and Service Schedules A-1 (Emergency Assistance) and B-1 (Surplus Energy Sales) thereto, with Salt River Project Agricultural Improvement and Power District (Salt River). Applicant also tenders Amendment No. 1 to Service Schedule B-1 dated February 13, 1974, and Service Schedule C-1 (Transfer of Power and Energy) dated October 16, 1974.

The Interconnection Agreement, which became effective as of the December 3, 1973 date of execution and will remain in effect for an initial twenty-year period, to be thereafter terminated by either party upon three year's written notice, establishes terms and conditions for the exchange of generating capacity, and specifies Glen Canyon and the 345 kv Switchyard of the Four Corners Project as points of interconnection. For the twelve-month period from December, 1973, Salt River has received 439,772 mwh for $5,417,806.73 in revenue, while Applicant has received 75 mwh for $1,673.25 in November, 1974.

Amendment No. 1 to Service Schedule B-1, executed by the parties on February 13, 1974, amends the terms for return of surplus energy by the receiving party, when the supplying party's cost therefor is greater than the receiving party's avoided cost, to provide for either (1) the return of 120 percent of the energy received, or (2) payment of 115 percent of the supplier's costs of furnishing such energy. The return option is to be determined by mutual agreement, and Amendment No. 1 is to be effective as of January 1, 1974.

Service Schedule C-1, dated October 16, 1974, provides for Applicant's transfer of up to 100 mw capacity and 35 mw average energy received from Salt River to the Hot Springs point of delivery during the months from November 1974 through February 1975, for further transmission to Puget Sound Power & Light Company. During the months of June, July, August, and September 1977, Applicant will deliver to Salt River 137 mw of capacity plus 35 mw of average energy, for which Salt River will supply Applicant 50 mw of capacity during the months of December 1975, January 1976, December 1976, and January 1977. Salt River will also provide Applicant an additional 50 mw of capacity as compensation, subject to Salt River's having generating resources in operation or available for operation to supply such capacity and such deliveries having priorities over non-firm sales to others, during the months of December 1975, January 1976, December 1977, and January 1978. All energy related thereto will be returned by Applicant to Salt River.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 31, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. C172-440, et al.]

CERTIFICATES OF PUBLIC CONVENIENCE AND NECESSITY

Applications, Abandonment of Service and Petitions To Amend [1]

JANUARY 10, 1975.

Take notice that each of the applicants listed herein has filed an application or petition pursuant to section 7 of the

[1] This notice does not provide for consolidation for hearing of the several matters covered herein.

V40I13 JAN20 75 XUM

Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before January 23, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicants to appear or be represented at the hearing.

[Docket No. CI75-202, etc.]

CERTIFICATES OF PUBLIC CONVENIENCE AND NECESSITY

Applications, Abandonment of Service and Petitions To Amend [1]

JANUARY 10, 1975.

Take notice that each of the applicants listed herein has filed an application or petition pursuant to section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before January 31, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[1] This notice does not provide for consolidation for hearing of the several matters covered herein.

[Docket No. CS75-240, etc.]

"SMALL PRODUCER" CERTIFICATES[1]

Notice of Applications

JANUARY 10, 1975.

Take notice that each of the applicants listed herein has filed an application pursuant to section 7(c) of the Natural Gas Act and § 157.40 of the regulations thereunder for a "small producer" certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce, all as more fully set forth in the applications which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before February 5, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rule of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

NATIONAL ENDOWMENT FOR THE HUMANITIES

ADVISORY COMMITTEE; EDUCATION PANEL

Notice of Meeting

JANUARY 15, 1975.

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463) notice is hereby given that a meeting of the Education Panel will meet at Washington, D.C., on February 6, 1975.

The purpose of the meeting is to review Humanities Institutes applications submitted to the National Endowment for the Humanities for grants to educational institutions and nonprofit organizations.

Because the proposed meeting will consider financial information and personnel and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy, pursuant to authority granted me by the Chairman's Delegation of Authority to Close Advisory Committee Meetings, dated August 13, 1973, I have determined that the meeting would fall within exemptions (4) and (6) of 5 U.S.C. 552(b) and that it is essential to close the meeting to protect the free exchange of internal views and to avoid interference with operation of the Committee.

It is suggested that those desiring more specific information contact the Advisory Committee Management Officer, Mr. John W. Jordan, 806 15th Street NW., Washington, D.C. 20506, or call area code 202-382-2031.

JOHN W. JORDAN,
Advisory Committee Management Officer.

NATIONAL SCIENCE FOUNDATION

ADVISORY PANEL FOR METABOLIC BIOLOGY

Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given of a meeting of the Advisory Panel for Metabolic Biology to be held at 9 a.m. on February 6 and 7, 1975, in room 511, 1800 G Street, NW., Washington, D.C.

The purpose of this Panel is to provide advice and recommendations as part of the review and evaluation process for specific proposals and projects.

This meeting will not be open to the public because the Panel will be reviewing, discussing, and evaluating individual research proposals. These proposals contain information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within the exemptions of 5 U.S.C. 552(b). The closing of this meeting is in accordance with the determination by the Director of the National Science Foundation dated December 17, 1973, pursuant to the provisions of section 10(d) of Pub. L. 92-463.

For further information about this Panel, please contact Dr. Elijah B. Romanoff, Program Director, Metabolic Biology Program, Rm. 323, 1800 G Street, NW., Washington, D.C. 20550, telephone 202/632-4312.

Dated: January 14, 1975.

FRED K. MURAKAMI,
Committee Management Officer.

[FR Doc.75-1722 Filed 1-17-75;8:45 am]

ADVISORY PANEL FOR NEUROBIOLOGY

Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given of a meeting of the Advisory Panel for Neurobiology to be held at 9 a.m. on February 6 and 7, 1975, in room 338, 1800 G Street, NW., Washington, D.C.

The purpose of this Panel is to provide advice and recommendations as part of the review and evaluation process for specific proposals and projects.

This meeting will not be open to the public because the Panel will be reviewing, discussing, and evaluating individual research proposals. These proposals contain information of a proprietary or confidential nature, including technical information; financial data, such as salaries and personal information concerning individuals associated with the proposals. These matters are within the exemptions of 5 U.S.C. 552(b). The closing of this meeting is in accordance with the determination by the Director of the National Science Foundation dated December 17, 1973, pursuant to the provisions of section 10(d) of Pub. L. 92-463.

For further information about this Panel, please contact Dr. James H. Brown, Program Director, Neurobiology Program, Rm. 333, National Science Foundation, Washington, D.C. 20550, telephone, 202/632-4264.

Dated: January 14, 1975.

FRED K. MURAKAMI,
Committee Management Officer.

[FR Doc.75-1723 Filed 1-17-75;8:45 am]

ADVISORY PANEL FOR REGULATORY BIOLOGY

Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given of a meeting of the Advisory Panel for Regulatory Biology to be held at 9 a.m. on February 6 and 7, 1975, in room 621 at 1800 G Street, NW., Washington, D.C.

The purpose of the Panel is to provide advice and recommendations as part of the review and evaluation process for specific proposals and projects.

This meeting will not be open to the public because the Panel will be reviewing, discussing, and evaluating individual research proposals. These proposals contain information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within the exemptions of 5 U.S.C. 552(b). The closing of this meeting is in accordance with the determination by the Director of the National Science Foundation dated December 17, 1973, pursuant to the provisions of section 10(d) of Pub. L. 92-463.

For further information about this Panel, please contact Dr. Jack W. Hudson, Program Director, Regulatory Biology Program, Rm. 323, 1800 G Street, NW., Washington, D.C. 20550, telephone 202/632-4299.

Dated: January 14, 1974.

FRED K. MURAKAMI,
Committee Management Officer.

[FR Doc.75-1724 Filed 1-17-75;8:45 am]

ADVISORY PANEL ON SCIENCE EDUCATION PROJECTS

Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given of a meeting of the Instructional Scientific Equipment Program (ISEP) Subpanel to be held from 9 a.m. to 5 p.m. on February 6-8, 1975, in the Sir Francis Drake Hotel, San Francisco, California.

The purpose of this Subpanel is to provide advice and recommendations concerning the merit of specific proposals submitted for consideration by the Instructional Scientific Equipment Program.

This meeting will not be open to the public because the Subpanel will be reviewing, discussing, and evaluating individual proposals. These proposals contain information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within the exemptions of 5 U.S.C. 552(b). The closing of this meeting is in accordance with the determination by the Director of the National Science Foundation dated December 17, 1973, pursuant to the provisions of section 10(d) of Pub. L. 92-463.

For further information about the ISEP Subpanel, please contact Dr. James C. Kellett, Program Manager, Rm. 454, 5225 Wisconsin Avenue, NW., Washington, D.C. 20550, telephone 202/282-7760.

Dated: January 15, 1975.

FRED K. MURAKAMI,
Committee Management Officer.

AMERICAN STOCK EXCHANGE, INC.

Option Plan Declared Effective

The Securities and Exchange Commission announced today its decision to declare effective the American Stock Exchange, Inc. ("Amex" or "Exchange") plan regulating transactions in options on the Exchange ("plan") filed pursuant to Rule 9b–1 under the Securities Exchange Act of 1934 ("Rule 9b–1"), 17 CFR 240.9b–1.[1]

Under Rule 9b–1 (17 CFR 240.9b–1), it is unlawful for a national securities exchange to effect transactions in an option by the use of its facilities except in accordance with a plan regulating transactions in options on the exchange that is declared effective by the Commission. The plan must contain rules, by-laws, constitutional provisions and other exchange requirements relating solely or significantly to transactions in options on the exchange. If the Commission finds the plan necessary or appropriate in the public interest or for the protection of investors, it shall declare the plan effective, which we have determined to do after a review of the Amex plan in accordance with these standards. We note, however, that the Amex operation will be on a pilot basis, and ongoing surveillance of the Exchange's program may result in significant alterations in its option-related activity.

While it appears to us to be unnecessary to describe fully herein the somewhat voluminous rules and accompanying documentation submitted by the Exchange as a part of its plan, we believe that some discussion of the plan's background and general structure is desirable and that special mention should be made of several of the policy issues considered by us in connection with our review.

BACKGROUND

On November 14, 1973 in response to issues raised by emerging option trading patterns on the Chicago Board Options Exchange, Inc. ("CBOE") and over-the-counter option markets, and due to the interest expressed by other national securities exchanges (including Amex) in listing and trading options, the Commission scheduled a public hearing commencing on January 29, 1974.[2] On January 15, 1974 (39 FR 2774, January 24, 1974) we announced the formal submission by Amex of its plan for listing and trading options pursuant to Rule 9b–1 under the Securities Exchange Act of 1934.[3] We noted on the latter occasion that while the specific provisions of the Amex plan were not a subject of the previously announced hearing, resolution of a number of policy issues to be considered at that hearing would be necessary before the Commission could determine whether the Exchange's plan should be made effective under Rule 9b–1.[4]

In part as a result of the hearing and CBOE experience, it appeared to us that progress should be made in several areas prior to expansion of the existing CBOE program or initiation of multiple exchange option trading by Amex and other exchanges. Among the subjects which the exchanges were advised would have to be addressed in the exchange options market area were: development of programs common clearing; dissemination of last-sale data; standardized option terms; availability of options quotations; and appropriate regulatory controls relating to trading in away-from-the-money options.[5] On August 22, 1974, the Commission noted that substantial progress had been made both by Amex and CBOE in addressing these issues.[6] We further stated that in view of this progress, we expected to declare the Amex plan effective when certain other conditions concerned with requirements set forth in Rule 9b–1 were met.[7]

GENERAL NATURE OF THE PLAN

Under the terms of the plan, which calls for the initiation of a pilot project, Amex intends initially to limit its operations to call options on 20 underlying stocks that are registered and listed on the New York Stock Exchange. The stocks (like those underlying CBOE options) would be those characterized by a substantial number of outstanding shares which are widely held and actively traded;[8] however, Amex does not intend initially to undertake dual trading of options.[9] As experience is gained and the system enlarged the Exchange expects, with Commission authorization, to increase the number of underlying stocks for option trading.[10]

Existing Amex members will, upon the plan's effectiveness, automatically obtain option trading privileges on the Exchange and Amex expects that most of these members will participate in this program.[11] Non-member access will be achieved by permitting qualified non-member brokers to introduce orders for their customers' accounts to members at a commission discount not in excess of 40% on such transactions.[12] In general, Amex intends to apply clearing principles and contract standardization methods and terms substantially identical to those currently used by CBOE—that is, options would be made fungible by limiting the contract variable. Thus, at the outset options would normally expire (expiration date) on the last Monday

[1] All the materials composing Amex's plan are available for public inspection at the Commission's public reference room at 1100 L Street, NW, Washington, D.C. 20549. File No. S7–505. Public comments on the Amex plan were first requested in Securities Exchange Act Release No. 10602 (January 15, 1974). The plan has since that time been modified. Public comments on any submission under Rule 9b–1 may be made before or after such submission is declared effective. The Option Clearing Corporation described *infra* under the heading Common Clearing has filed a prospectus pursuant to the requirements of the Securities Act of 1933 covering the options to be traded which must be delivered to each customer prior to the time such customer's account is approved for option trading. Amex Rule 926. File No. S7–505.

[8] Amex Rule 915. File No. S7–505.

[9] As used here the term "dual trading" means the trading of options in respect of the same underlying security on more than one national securities exchange.

[10] The special procedures pursuant to Rule 9b–1 under the Securities Exchange Act relating to the adoption and alteration of rules of registered national securities exchanges concerning acts or transactions in options would be applicable to such expansion.

[11] As of December 6, 1974, Amex had 650 regular members and 169 associate members.

[12] Amex Constitution, Article VI, Section 2(n). File No. S7–505.

of the expiration month, and Amex expects to use the same months (i.e., January, April, July and October) as CBOE. The striking prices of Amex options (the price per share at which the underlying stock may be purchased upon exercise of the option) would be fixed at 5-point intervals for stock trading below $50, 10-point intervals for those stocks trading between $50 and $100, and 20-point intervals for stocks trading above $100, and, as in the case of CBOE, new series of Amex options would be introduced for trading as the underlying stock fluctuated in price. The Exchange can impose restrictions on trading in options, and under its present plan opening transactions in certain deep-out-of-the-money options, *i.e.*, those options selling below $0.50 and with their underlying stock more than $5.00 below the exercise price would automatically be restricted.[14]

Options will generally be traded in a manner very similar to that for other securities traded on the Amex, and a major difference between Amex's program and CBOE's is that Amex will, with certain modifications applicable to its floor trading system, utilize its present unitary specialist system instead of segregating the agent and dealer functions between board brokers and competing market makers.

A notable modification in the Amex Floor trading procedure is that its registered floor traders will be expected to trade in a way that assists the specialist in maintaining a fair and orderly market, and in furtherance of this obligation he may be called upon under certain circumstances by either a floor official or floor broker acting in an agency capacity to make quotations in the market.[14] In addition, at least 50 percent of a floor trader's option transactions must be in two or more classes of assigned options. Since the Exchange feels that such trading should be encouraged to help provide liquidity in all open series of options, it will therefore extend the same margin treatment to the floor traders in options that will be afforded to specialists.[15]

COMMISSION RATES

We have also considered Amex's proposed fixed minimum commission rate structure. In essence, the Exchange will prescribe minimum non-member commission rates only on that portion of an order above $2,000 and up to and including $30,000.[16] In addition, it will apply fixed minimum intra-member floor brokerage and specialist commission rates on the part of an order involving $30,000 or less, but its intra-member clearance commissions will be fully negotiated.[17] However, under the option plan fixed minimum commissions on Amex option transactions will terminate on April 30, 1975.[18] If adopted, proposed Rule 19b–3 under the Securities Exchange Act of 1934[19] will prohibit national securities exchanges from adopting or retaining any rule of the exchange that requires, or from otherwise directly or indirectly requiring, members to charge any person any fixed rate of commission for transactions executed on, or effected by use of any facility of, such exchanges, effective May 1, 1975.[20] Pending a determination as to whether to adopt Rule 19b–3, we have decided to permit, in the interim, a fixed minimum commission rate structure for Amex's option pilot.

Throughout its existence, Amex, like other major national securities exchanges, has had fixed minimum commission rates, and the Commission has consistently taken the position that this long history of fixed rates argues against their precipitate elimination. We have instead maintained that the exchanges should be given an opportunity to develop business strategies and adjust their operations to a competitive-rate environment by April 30, 1975.[21]

Therefore, when we declared effective the registration of CBOE as a national securities exchange, we also permitted CBOE, Amex's principal competitor in options at this time, to structure its commission rates for options trading in a manner analogous to those provided by all of the existing exchanges.[22] Similar treatment for the Amex now seems appropriate, particularly since under its option plan fixed minimum commissions will automatically terminate on April 30, 1975.

COMMON CLEARING

The Amex plan provides that the options will be issued, guaranteed and registered pursuant to the Securities Act of 1933 and pursuant to Section 12(b) of the Act by the Options Clearing Corporation (the "OCC").[23] In addition, the OCC will clear and settle all options transactions effected on the Amex, the CBOE and any other options exchange which becomes a participant in OCC. The Commission has reviewed the certificate of incorporation, by-laws and rules of the OCC, a stockholders agreement and a participant exchange agreement to be executed by options exchanges participating in the OCC, and other materials and undertakings pertaining to the formation and operation of the OCC and the conditions for access to OCC by participating exchanges and their members. In declaring the Amex plan effective, the Commission has concluded that the establishment and operation of OCC as a common clearing entity is necessary and appropriate for the trading of exchange-listed options and for the protection of investors involved in the trading of exchange-listed options.[24]

LAST-SALE REPORTING

The Amex and CBOE have addressed the basic issues of a common option tape and public reporting of last sale information by proposing the establishment of a policy-making body, the Option Price Reporting Authority ("OPRA"), to

[13] There are two related differences between the Amex and CBOE non-member commission rate provisions that should be noted. Amex's minimum commission rates on orders to purchase or sell options and for exercise of options include the 10–15 percent increases implemented by exchanges (except for CBOE) in September of 1973. Its commission rates to exercise an option will be the same as that for stocks; thus, the recently added 8 percent increase will also apply to exercise of options. The CBOE does not include these increases. The Amex provides for negotiated rates on orders involving $2,000 or less whereas CBOE's minimum rates on such orders, with certain exceptions for small trades, are fixed. A condition for our not objecting to the retention of the rate increases mentioned above through April 30, 1975 was that the exchanges adopting them assume the initiative for developing a program fostering limited price competition during this period prior to the introduction of unfixed rates. The exchanges, except CBOE which did not elect to institute an increase, therefore adopted competitive commission rates on orders up to $2,000.

[14] Amex Constitution Article VI, section 8(1). File No. S7–505. These rates will expire unless the Commission does not disapprove an extension proposed by Amex pursuant to Rule 9b–1.

[15] *See* Securities Exchange Act Release No. 11073 (October 24, 1974) in which the Commission published proposed Rule 19b–3 (17 CFR 240.19b–3) and 10b–22 (17 CFR 240.10b–22) under the Act and scheduled oral hearings commencing on November 19, 1974. Proposed Rule 10b–22 would, among other things, make it unlawful for any broker, dealer or member of any national securities exchange, directly or indirectly, to participate in any agreement or arrangement with another broker, dealer or member of any exchange with respect to the fixing of any amount to be charged to other persons in respect of transactions in securities executed on, or effected by using any facility of, such exchange.

[16] Securities Exchange Act Release No. 10383 (September 11, 1973) and Securities Exchange Act Release No. 11019 (September 19, 1974). *See* Securities Exchange Act Release No. 11093 (November 8, 1974) which contains a synopsis of actions previously taken by the Commission relating to fixed commission rates on securities transactions.

[17] Securities Exchange Act Release No. 10560 (December 14, 1973).

[18] Securities Exchange Act Release No. 9985 (February 1, 1973).

[19] Initially, the OCC will be jointly owned by Amex and CBOE. Thereafter, exchanges with options trading plans declared effective by the Commission will be eligible for OCC participation and partial ownership.

[20] These submitted materials concerning the operation and capital structure of the OCC have also been filed by the CBOE as an amendment to its Rule 9b–1 option plan. In declaring this part of the plan effective, the Commission has also considered and determined to not disapprove these changes to the CBOE plan.

[21] All Amex Constitution, Article VI, Section 8(n). File No. S7–505.

[22] Amex Rule 910. File No. S7–505.

[23] Amex Rule 958. File No. S7–505. This Rule was originally submitted by telephone on December 12, 1974 and was considered by the Commission as a part of the Amex plan declared effective on December 18, 1974.

[24] Amex Rule 940(b). File No. S7–505.

[25] In the case of a purchase or sale of an option, the amount involved in an order is measured by the premium. In the case of an exercise of an option, the amount of money involved in an order is the striking price multiplied by the number of shares.

V40113 JAN 20 75 XUM

coordinate the establishment and ongoing administration of a separate common option tape on the floor of both exchanges and the dissemination of option last sale data from these exchanges to vendors of automated interrogation devices. In addition, it has been represented to us that OPRA, after a suitable trial period, will make its common option tape available to interested subscribers for public dissemination in the form of a continuous tape or tapes separate from the existing national tape networks. The present Amex tape will not be utilized for that purpose. We are presently reviewing the OPRA proposals and, while we are thus unable to make a final determination at this time on the proposals,* we believe it appropriate to indicate here our concurrence in principle with this overall approach to the issue. Our action in declaring the Amex plan effective under Rule 9b–1 has been predicated on the substantial progress made by the exchanges in this area.

CONCLUSION

Accordingly, we find the Amex plan to be necessary and appropriate in the public interest and for the protection of investors, and therefore declare the plan effective pursuant to Rule 9b–1 under the Securities Exchange Act of 1934 (Part 240 of Chapter II of title 17 of the Code of Federal Regulations § 240.9b–1).

All interested persons are invited to submit their views and comments on the Amex plan. Written statements of views and comments should be addressed to the Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Reference should be made to file number S7–505. The plan and all amendments to the plan and all such comments will be available for public inspection at the Public Reference Room of the Securities and Exchange Commission at 1100 L Street NW., Washington, D.C.

SMALL BUSINESS ADMINISTRATION

[Declaration of Disaster Loan Area 1109]

MASSACHUSETTS

Declaration of Disaster Loan Area

Whereas, it has been reported that during the month of December, because of the effects of a certain disaster, damage resulted to property located in the State of Massachusetts;

Whereas, the Small Business Administration has investigated and received reports of other investigations of conditions in the area affected;

Whereas, after reading and evaluating reports of such conditions, I find that the conditions in such area constitute a catastrophe within the purview of the Small Business Act, as amended;;

Now, therefore, as Administrator of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provisions of section 7(b)(1) of the Small Business Act, as amended, may be received and considered by the office below indicated from persons or firms whose property situated in the Town of Middleboro, Plymouth County, Massachusetts, suffered damage or destruction resulting from a fire which occurred December 13, 1974.

OFFICE

Small Business Administration
District Office
150 Causeway Street
10th Floor
Boston, Massachusetts 02114

2. Applications for disaster loans under the authority of this declaration will not be accepted subsequent to March 10, 1975. EIDL applications will not be accepted subsequent to October 10, 1975.

Dated: January 9, 1975.

THOMAS S. KLEPPE,
Administrator.

[License No. 02/02–0163]

MID-ATLANTIC FUND, INC.

Notice of Approval of Application for Transfer of Control

Pursuant to the provisions of § 107.701 of the Small Business Administration's (SBA) rules and regulations (13 CFR 107.701 (1974)), a notice of filing of an application for transfer of control of Mid-Atlantic Fund, Inc., License No. 02/02–0163, 645 Madison Avenue—7th Floor, New York, New York 10022, was published in the FEDERAL REGISTER on November 8, 1974 (39 FR 39615).

Interested persons were given an opportunity to send their comments to SBA on the proposed transfer of control. No comments were received.

Upon consideration of the application and other relevant information, SBA hereby approves the transfer of control of Mid-Atlantic Fund, Inc.

Dated: January 7, 1975.

JAMES THOMAS PHELAN,
Deputy Associate Administrator for Investment.

[FR Doc. 75–1767 Filed 1–17–75;8:45 am]

* The Amex, of course, is subject to Rule 17a–15 under the Act (17 CFR 240.17a–15) and will be required to comply therewith prior to commencement of its option trading activities.

ORANGECO INVESTMENT CO.

[Application No. 09/09–5178]

Application for License as Small Business Investment Company

An application for a license to operate as a small business investment company under the provisions of section 301(d) of the Small Business Investment Act of 1958, as amended (15 U.S.C. 661 *et seq.*), has been filed by Orangeco Investment Company (applicant) with the Small Business Administration pursuant to 13 CFR 107.102 (1974).

The officers and directors are as follows:

James H. Jen Kin, President and Director, 16372 Maruffa Circle, Huntington Beach, Calif. 92649.
George Wong, Jr., Vice President, 3281 Pine Avenue, Long Beach, Calif. 90807.
Stanley J. Jay, Secretary-Treasurer, Manager, 195 West 31st St., Apt. 203, Long Beach, Calif. 90806.
Allan J. Blink, Director, 15728 East Dubesor Street, Valinda, Calif. 91744.
Joseph O'Campo, Director, 1149 S. Lowell Street, Santa Ana, Calif. 92707.

The applicant will maintain its principal place of business at 501 Golden Circle Drive, Suite 206, Santa Ana, California 92705.

It will begin operations with $315,000 of paid-in capital and surplus derived from the sale of 31,500 shares of common stock at $10 per share. Fifteen thousand shares will be purchased by Developcorp, Incorporated, a nonprofit corporation funded by the Office of Economic Opportunity, 8,000 shares by the Security Beneficial Investment Corporation, a small business investment company, and 8,500 shares by MESBIC Investment Company, a limited partnership whose members include directors of the applicant.

As a small business investment company under section 301(d) of the Act, the applicant has been organized and chartered solely for the purpose of performing the functions and conducting the activities contemplated under the Small Business Investment Act of 1958, as amended from time to time, and will provide assistance solely to small business concerns which will contribute to a well-balanced national economy by facilitating ownership in such concerns by persons whose participation in the free enterprise system is hampered because of social or economic disadvantages.

Matters involved in SBA's consideration of the applicant include the general business reputation and character of the proposed owner and management and the probability of successful operation of the applicant under their management, including adequate profitability and financial soundness, in accordance with the Small Business Investment Act and the SBA Rules and Regulations.

Any person may, not later than February 4, 1975, submit to SBA written comments on the proposed applicant. Any such communication should be addressed to the Deputy Associate Administrator for Investment, Small Business Administration, 1441 L Street, NW., Washington, D.C. 20416.

A copy of this notice shall be published in a newspaper of general circulation in Santa Ana, California.

Dated: January 10, 1975.

JAMES THOMAS PHELAN,
Deputy Associate Administrator for Investment.

Salant & Salant, Paris, TN; 11–26–74 to 11–25–75 (Men's and boys' shirts).

Slidell Ind., Inc., Slidell, LA; 12–9–74 to 12–8–75 (Misses' jeans).

Stapleton Garment Co., Stapleton, GA; 9–23–74 to 9–22–75 (Men's and boys' pants).

Sullcraft Mfg. Co., Inc., Dushore, PA; 10–4–74 to 10–3–75; 10 learners (Men's and boys' pajamas).

Toll-Gate Garment Corp., Hamilton, AL; 10–1–74 to 9–30–75 (Men's shirts).

Vernon Mfg. Co., Inc., Vernon, TX; 12–31–74 to 12–30–75 (Men's and boys' trousers and shirts).

Warsaw Mfg. Co., Kingstree, SC; 11–29–74 to 11–28–75 (Ladies' capris and shorts).

Wyoming Valley Garment Co., Wilkes-Barre, PA; 10–14–74 to 10–13–75; 10 learners (Men's pants).

V40113 JAN20 75 XUM

The following plant expansion certificate was issued authorizing the number of learners indicated.

Jarratt Sportswear Co., Inc., Jarratt, VA; 11–15–74 to 5–14–75; 10 learners (Children's dresses).

The following certificate was issued under the cigar industry learner regulations (29 CFR 522.1 to 522.9, as amended and 522.80 to 522.85, as amended).

Budd Tobacco Processing Co., Quincy, FL; 12–4–74 to 6–3–75; 5 learners for plant expansion purposes (Cigars).

The following certificates were issued under the glove industry learner regulations (29 CFR 522.1 to 522.9, as amended and 522.60 to 522.65 as amended).

Burnham-Edina Mfg. Co., Edina, MO; 10–4–74 to 10–3–75; 5 learners for normal labor turnover purposes (Work gloves).

Good Luck Glove Co., Rosiclare, IL; 11–8–74 to 11–7–75; 10 learners for normal labor turnover purposes (Work gloves).

St. Johnsbury Glovers, St. Johnsbury, VT; 10–4–74 to 10–3–75; 10 learners for normal labor turnover purposes (Ladies' knit gloves).

The following certificates were issued under the knitted wear industry learner regulations (29 CFR 522.1 to 522.9, as amended and 522.30 to 522.35, as amended).

Boonville Mfg. Corp., Boonville, IN; 11–1–74 to 10–31–75; 5 learners for normal labor turnover purposes in the manufacture of men's woven underwear (Men's underwear).

Junior Form Lingerie Corp., Boswell, PA; 9–25–74 to 9–24–75; 5 percent of the total number of factory production workers for normal labor turnover purposes (Ladies' underwear and pajamas).

The following learner certificate was issued in Puerto Rico to the company hereinafter named. The effective and expiration dates, learner rates, occupations, learning periods, and the number of learners authorized to be employed, are indicated.

Bayuk Caribe, Inc., Ciales, PR; 10–4–74 to 10–3–75; 16 learners for normal labor turnover purposes in the occupation of cigar making and packing for a learning period of 320 hours at the rates of $1.53 an hour for the first 160 hours and $1.63 an hour for the remaining 160 hours (Tobacco).

Each learner certificate has been issued upon the representations of the employer which, among other things, were that employment of learners at special minimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificate may be annulled or withdrawn, as indicated therein, in the manner provided in 29 CFR, Part 528. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof on or before February 4, 1975.

Signed at Washington, D.C., this 13th day of January 1975.

ARTHUR H. KORN,
Authorized Representative of the Administrator.

[Notice 218]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

JANUARY 20, 1975.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before February 10, 1975. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC–75594. By order of January 9, 1975, the Motor Carrier Board approved the transfer to Petersen Transfer, Inc., Osmond, Nebr., of Certificate No. MC 86194 issued by the Commission August 5, 1969, to Loyal F. Petersen and Gerald F. Petersen, a partnership, doing business as L. F. Petersen & Son, Osmond, Nebr., authorizing the transportation of general commodities, with exceptions, between Osmond, Nebr., and Sioux City, Iowa; livestock and agricultural products from points in Thompson, Plum Grove, Foster, and Logan Townships, Pierce County, Nebr., to Sioux City, Iowa; and feeds, repair parts for farm implements, farm machinery, hardware, building materials, lumber, and coal from Sioux City, Iowa, to points in Thompson, Plum Grove, Foster, and Logan Townships, Pierce County, Nebr.

Patrick E. Quinn, Esq., P.O. Box 82028, Lincoln, Nebr. 68501.

No. MC–FC–75596. By order entered 1–8–75, the Motor Carrier Board approved the transfer to Metro Heavy Hauling, Inc., Kent, Wash., of that portion of the operating rights set forth in Certificate No. MC 9325, issued November 10, 1970, to K Lines, Inc., Lake Oswego, Oreg., authorizing the transportation of machinery, contractors' equipment, construction materials (with exceptions), wood poles, reinforcing and construction steel, and steel piling, between points in Oregon and Washington. George R. LaBissoniere, Suite 101, 130 Andover Park East, Seattle, Wash. 98188, attorney for applicants.

No. MC–FC–75597. By order of January 9, 1975, the Motor Carrier Board approved the transfer to Charles E. Wertz, doing business as Wertz Motor Coaches, Marcus Hook, Pa., of the operating rights in Certificate No. MC 45276 issued April 25, 1942, to Charles E. Wertz and Christian B. Wertz, a partnership, doing business as Wertz Motor Coaches, Marcus Hook, Pa., authorizing the transportation of passengers and their baggage between Chester, Pa., and Claymont, Del.; in charter operations from Marcus Hook, Pa., and points within 15 miles thereof to points in Delaware, Maryland, New Jersey, and the District of Columbia, and specified points in Virginia and Pennsylvania and the New York, N.Y., Commercial Zone; and in special operations from Marcus Hook, Pa., and points within 5 miles thereof, to specified points in New York, New Jersey, Maryland, Virginia, and the District of Columbia. Peter J. Rohana, Jr., 10 East Fifth St., Chester, Pa., 19013, attorney for applicants.

ROBERT L. OSWALD,
Secretary.

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY
Elimination of Gateway Letter Notices

JANUARY 15, 1975.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR 1065(a)), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission January 30, 1975. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 31462 (Sub-No. E213), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Kansas on, south and east of a line beginning at the Kansas-Nebraska State line, thence along U.S. Highway 183 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Kansas-Colorado State line, on the one hand, and, on the other, points in that part of Wisconsin on and east of a line beginning at Bayfield, Wis., thence along Wisconsin Highway 13 to junction U.S. Highway 8, thence along U.S. Highway 8 to junction U.S. Highway 53, thence along U.S. Highway 53 to La Crosse, Wis. The purpose of this filing is to eliminate the gateway of any point in Missouri within 50 miles of Burlington, Iowa.

No. MC 31462 (Sub-No. E214), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Kansas, on the one hand, and, on the other, points in that part of Michigan east and south of a line beginning in the Upper Peninsula of Michigan at Hancock, Mich., thence along U.S. Highway 41 to junction Michigan Highway 28, thence along Michigan Highway 28 to junction U.S. Highway 141, thence along U.S. Highway 141 to the Michigan-Wisconsin State line. The

V 40 N 13 JAN 20 75 XUM

purpose of this filing is to eliminate the gateway of any point in Missouri within 50 miles of Burlington, Iowa.

No. MC 61592 (Sub-No. E14), filed June 13, 1974. Applicant: JENKINS TRUCK LINE, INC., R.R. 3, Box 697, Jeffersonville, Ind. 47130. Applicant's representative: Bob Jenkins (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wallboard, pulpboard, and wood molding*, from the plant site of Barclay Industries, Ind., at Lodi, N.J., to points in that part of West Virginia on and west of a line beginning at the West Virginia-Ohio State line, thence along U.S. Highway 21 to its junction with U.S. Highway 119, thence along U.S. Highway 119 to the West Virginia-Kentucky State line. The purpose of this filing is to eliminate the gateway of New Lexington, Ohio.

No. MC 61592 (Sub-No. E29), filed May 31, 1974. Applicant: JENKINS TRUCK LINE, INC., R.R. 3, Box 697, Jeffersonville, Ind. 47130. Applicant's representative: Bob Jenkins (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements, and attachments and parts for tractors, and tractors* (except those vehicle beds, bed frames, fifth wheels), from points in Rock Island County, Ill., to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Rhode Island, Vermont, Virginia, and Washington. The purpose of this filing is to eliminate the gateway of Port Washington, Wis.

No. MC 61592 (Sub-No. E32), filed May 31, 1974. Applicant: JENKINS TRUCK LINE, INC., R.R. 3, Box 697, Jeffersonville, Ind. 47130. Applicant's representative: Bob Jenkins (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements and attachments and parts for tractors, and tractors* (except those with vehicle beds, bed frames, and fifth wheels), from the plant and warehouse sites and experimental farms of Deere and Company in Wapello County, Iowa, to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Rhode Island, Vermont, and that part of Virginia on and east of a line beginning at the Virginia-North Carolina State line, thence along U.S. Highway 29 to its junction with U.S. Highway 250, thence along U.S. Highway 250 to the Virginia-West Virginia State line and on and south of U.S. Highway 211. The purpose of this filing is to eliminate the gateway of Port Washington, Wis.

No. MC 61592 (Sub-No. E34), filed June 3, 1974. Applicant: JENKINS TRUCK LINE, INC., R.R. 3, Box 697, Jeffersonville, Ind. 47130. Applicant's representative: Bob Jenkins (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural and garden tractors, and agricultural implements*, from St. Louis, Mo., to points in South Dakota. The purpose of this filing is to eliminate the gateways of Moline, Ill., and Ida Grove, Iowa.

No. MC 61592 (Sub-No. E37), filed June 3, 1974. Applicant: JENKINS TRUCK LINE, INC., R.R. 3, Box 697, Jeffersonville, Ind. 47130. Applicant's representative: Bob Jenkins (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors* (except truck tractors and those which because of size or weight, require the use of special equipment), from Baltimore, Md., to points in South Dakota, and in that part of Minnesota on and west of a line beginning at the Minnesota-South Dakota State line, thence along Minnesota Highway 19 to its junction with U.S. Highway 59, thence along U.S. Highway 59 to the Minnesota-Iowa State line. The purpose of this filing is to eliminate the gateways of Ida Grove, Iowa, O'Fallon Park, Mo., and Columbus, Ohio.

No. MC 61592 (Sub-No. E39), filed June 3, 1974. Applicant: JENKINS TRUCK LINE, INC., R.R. 3, Box 697, Jeffersonville, Ind. 47130. Applicant's representative: Bob Jenkins (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors* (except truck tractors and those which because size or weight require the use of special equipment), from New Orleans, La., to points in that part of Nebraska on and north of a line beginning at the Colorado-Nebraska State line, thence along Nebraska Highway 23 to its junction with U.S. Highway 34, thence along U.S. Highway 34 to the Nebraska-Iowa State line. The purpose of this filing is to eliminate the gateway of Ida Grove, Iowa.

No. MC 61592 (Sub-No. E40), filed June 3, 1974. Applicant: JENKINS TRUCK LINE, INC., R.R. 3, Box 697, Jeffersonville, Ind. 47130. Applicant's representative: Bob Jenkins (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel undercarriages and frames, iron and steel trailers, and iron and steel portable buildings*, from New Ulm, Minn., to points in that part of Illinois on and north of U.S. Highway 40 and on and south of a line beginning at the Illinois-Iowa State line, thence along U.S. Highway 30 to its junction with U.S. Highway 30 Alt., thence along U.S. Highway 30 Alt. to the Indiana-Illinois State line. The purpose of this filing is to eliminate the gateway of Davenport, Iowa.

No. MC 61592 (Sub-No. E42), filed May 31, 1974. Applicant: JENKINS TRUCK LINE, INC., R.R. 3, Box 697, Jeffersonville, Ind. 47130. Applicant's representative: Bob Jenkins (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, from points in that part of Iowa on and east of a line beginning at the Iowa-Missouri State line, thence along U.S. Highway 65 to its junction with U.S. Highway 20, thence along U.S. Highway 20 to the Iowa-Illinois State line (except Denmark), to points in Florida, Georgia, Louisiana, Mississippi, New Mexico, North Carolina, South Carolina, Texas, and Virginia. The purpose of this filing is to eliminate the gateway of Wright City, Mo.

No. MC 61592 (Sub-No. E44), filed June 10, 1974. Applicant: JENKINS TRUCK LINE, INC., R.R. 3, Box 697, Jeffersonville, Ind. 47130. Applicant's representative: Bob Jenkins (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Incinerators*, knocked down (except those which because of size or weight, require the use of special equipment), from the Memphis, Tenn., commercial zone as defined by the Commission, to points in Wisconsin and that part of Iowa on and north of a line beginning at the Iowa-Nebraska State line, thence along Interstate Highway 80 to its junction with Iowa Highway 60, thence along Iowa Highway 60 to its junction with U.S. Highway 34, thence along U.S. Highway 34 to the Iowa-Illinois State line. The purpose of this filing is to eliminate the gateway of Moline, Ill.

No. MC 61592 (Sub-No. E46), filed June 10, 1974. Applicant: JENKINS TRUCK LINE, INC., R.R. 3, Box 697, Jeffersonville, Ind. Applicant's representative: Bob Jenkins (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural machinery*, from Tarboro, N.C., to points in Colorado, Idaho, Montana, Nevada, North Dakota, Oregon, Utah, Washington, Wyoming, and points in that part of California on and north of a line beginning at the Pacific Ocean, thence along U.S. Highway 101 to its junction with California Highway 58, thence along California Highway 58 to the California-Nevada State line. The purpose of this filing is to eliminate the gateway of Port Washington, Wis.

No. MC 61592 (Sub-No. E49), filed July 4, 1974. Applicant: JENKINS TRUCK LINE, INC., R.R. 3, P.O. Box 697, Jeffersonville, Indiana 47130. Applicant's representative: Bob Jenkins (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors* (except truck tractors and tractors which because of their size or weight require the use of special equipment), from ports of entry on the U.S.-Canada International Boundary line in Maine, to points in Arizona, Arkansas, California, Colorado, Idaho, Illinois, Iowa, Kansas, Minnesota, Missouri, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, Wisconsin, Wyoming, and in that part of Louisiana on and west

of a line beginning at the Gulf of Mexico, thence along Louisiana Highway 27 to its junction with U.S. Highway 90, thence along U.S. Highway 90 to its junction with U.S. Highway 165, thence along U.S. Highway 165 to the Louisiana-Arkansas State line. The purpose of this filing is to eliminate the gateway of Port Washington, Wisconsin.

No. MC 61592 (Sub-No. E51), filed July 4, 1974. Applicant: JENKINS TRUCK LINE, INC., R.R. 3, P.O. Box 697, Jeffersonsville, Indiana 47130. Applicant's representative: Bob Jenkins (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural and garden tractors and agricultural implements in mixed loads with tractors* (except truck tractors and commodities which because of their size or weight require the use of special equipment), from O'Fallon Industrial Park, St. Charles County, Mo., to points in that part of Florida on and southeast of U.S. Highway 231. The purpose of this filing is to eliminate the gateway of Atlanta, Ga.

No. MC 61592 (Sub-No. E54), filed June 25, 1974. Applicant: JENKINS TRUCK LINE, INC., R.R. 3, Box 697, Jeffersonville, Ind. 47130. Applicant's representative: Bob Jenkins (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, from Beardstown, Ill., to points in Alabama, Arkansas, Colorado, Connecticut, Delaware, Florida, Georgia, Louisiana, Maryland, Massachusetts, Montana, New Hampshire, New Jersey, New Mexico, New York, North Carolina, Oklahoma, Rhode Island, South Carolina, Texas, Vermont, Virginia, Wyoming, and in that part of Missouri on and south of U.S. Highway 50. The purpose of this filing is to eliminate the gateway of Wright City, Mo.

No. MC 61592 (Sub-No. E63), filed July 4, 1974. Applicant: JENKINS TRUCK LINE, INC., R.R. 3, Box 697, Jeffersonville, Ind. 47130. Applicant's representative: Bob Jenkins (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Gas meters*, from Cedar Rapids, Iowa, to St. Louis, Mo., and points in that part of Illinois on and north of U.S. Highway 40 and on and south of a line beginning at the Iowa-Illinois State line, thence along Illinois Highway 2 to its junction with U.S. Highway 30 Alt., thence along U.S. Highway 30 Alt. to the Illinois-Indiana State line. The purpose of this filing is to eliminate the gateway of Rock Island, Ill.

No. MC 61592 (Sub-No. E64), filed July 4, 1974. Applicant: JENKINS TRUCK LINE, INC., R.R. 3, P.O. Box 697, Jeffersonville, Indiana 47130. Applicant's representative: Bob Jenkins (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Materials and supplies*, used in the manufacture of agricultural machinery, agricultural implements, forestry machinery, and grain bins, (except commodities in bulk, in tank vehicles), from points in Alabama, Connecticut, Delaware, Florida, Georgia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Vermont, Virginia, and West Virginia, to Omaha, Nebr. The purpose of this filing is to eliminate the gateway of Davenport, Iowa.

No. MC 61592 (Sub-No. E70), filed July 4, 1974. Applicant: JENKINS TRUCK LINE, INC., R.R. 3, Box 697, Jeffersonville, Ind. 47130. Applicant's representative: Bob Jenkins (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural machinery and implements*, other than hand (except such machinery and implements which because of size or weight, require the use of special equipment), from Memphis, Tenn., to points in that part of Iowa on and north of Interstate Highway 80. The purpose of this filing is to eliminate the gateway of Rock Island, Ill.

No. MC 61592 (Sub-No. E74), filed July 4, 1974. Applicant: JENKINS TRUCK LINE, INC., R.R. 3, P.O. Box 697, Jeffersonville, Indiana 47130. Applicant's representative: Bob Jenkins (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Materials, equipment, and supplies*, used in the manufacture and operation of (1) agricultural, industrial, and construction machinery and equipment, (2) Lawn, garden, and home maintenance equipment, and (3) recreational vehicles and equipment (except commodities in bulk), from the plant sites and warehouse facilities of Deere and Company in Dodge County, Wis., to St. Louis, Mo., Omaha, Nebr., and points in that part of Illinois on and west of U.S. Highway 67, restricted to the transportation of traffic originating at or destined to the above mentioned facilities of Deere and Company in Dodge County, Wis. The purpose of this filing is to eliminate the gateway of Moline, Ill.

No. MC 61592 (Sub-No. E75), filed July 4, 1974. Applicant: JENKINS TRUCK LINE, INC., R.R. 3, Box 697, Jeffersonville, Ind. 47130. Applicant's representative: Bob Jenkins (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Gas meters*, from Ottumwa, Iowa, to points in that part of Wisconsin on and south of U.S. Highway 10 and in that part of Illinois on and north of U.S. Highway 6. The purpose of this filing is to eliminate the gateway of Rock Island, Ill.

No. MC 61592 (Sub-No. E81), filed July 5, 1974. Applicant: JENKINS TRUCK LINE, INC., R.R. 3, Box 697, Jeffersonville, Ind. 47130. Applicant's representative: Bob Jenkins (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber and wood products* (except chemicals and liquid wood products), from ports of entry on the U.S.-Canada International Boundary line in Minnesota, to points in that part of Indiana on and south of a line beginning at the Indiana-Illinois State line, thence along Interstate Highway 74 to its junction with U.S. Highway 40, thence along U.S. Highway 40 to the Indiana-Illinois State line, and in Kentucky and Tennessee, restricted to the transportation of traffic moving in foreign commerce. The purpose of this filing is to eliminate the gateway of Beardstown, Ill.

No. MC 61592 (Sub-No. E86), filed June 4, 1974. Applicant: JENKINS TRUCK LINE, INC., R.R. 3, Box 697, Jeffersonville, Ind. 47130. Applicant's representative: Bob Jenkins (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements*, from Memphis, Tenn., to points in that part of Iowa on and north of a line beginning at the Iowa-Illinois State line, thence along U.S. Highway 34 to its junction with U.S. Highway 63, thence along U.S. Highway 63 to its junction with Iowa Highway 163, thence along Iowa Highway 163 to its junction with Interstate Highway 80, thence along Interstate Highway 80 to the Iowa-Nebraska State line, and points in Wisconsin on and south of U.S. Highway 10. The purpose of this filing is to eliminate the gateway of Moline, Ill.

No. MC 61592 (Sub-No. E87), filed September 4, 1974. Applicant: JENKINS TRUCK LINE, INC., R.R. 3, Box 697, Jeffersonville, Ind. 47130. Applicant's representative: Bob Jenkins (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural and garden tractors, and agricultural implements*, from Kewanee, Ill., to points in that part of Iowa on, north, and west of a line beginning at the Iowa-Illinois State line, thence along Iowa Highway 92 to its junction with U.S. Highway 69, thence along U.S. Highway 69 to the Iowa-Missouri State line, and to Omaha, Nebr., and St. Louis, Mo. The purpose of this filing is to eliminate the gateway of Moline, Ill.

No. MC 61592 (Sub-No. E90), filed June 4, 1974. Applicant: JENKINS TRUCK LINE, INC., R.R. 3, Box 697, Jeffersonville, Ind. 47130. Applicant's representative: Bob Jenkins (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, from Warren, Ark., to points in Maine, Michigan, Massachusetts, New Hampshire, Vermont, Wisconsin, and that part of Illinois on and north of a line beginning at the Missouri-Illinois State line, thence along U.S. Highway 24 to its junction with Illinois Highway 29, thence along Illinois Highway 29 to its junction with U.S. Highway 6, thence along U.S. Highway 6 to the Illinois-Indiana State

V40N20 JAN 75 XUM

line. The purpose of this filing is to eliminate the gateways of points in that part of Iowa east of U.S. Highway 65 and south of U.S. Highway 20 (except Denmark, Iowa).

No. MC 61592 (Sub-No. E94), filed June 4, 1974. Applicant: JENKINS TRUCK LINE, INC., R.R. 3, Box 697, Jeffersonville, Ind. 47130. Applicant's representative: Bob Jenkins (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors* (except truck tractors and those because of size or weight require the use of special equipment), from Philadelphia, Pa., to points in South Dakota, and that part of Minnesota on, south, and west of a line beginning at the Iowa-Minnesota State line, thence along U.S. Highway 59 to its junction with Minnesota Highway 19, thence along Minnesota Highway 19 to the Minnesota-South Dakota State line. The purpose of this filing is to eliminate the gateways of Columbus, Ohio, O'Fallon Park, Mo., and Ida Grove, Iowa.

No MC 61592 (Sub-No. E97), filed June 4, 1974. Applicant: JENKINS TRUCK LINE, INC., R.R. 3, Box 697, Jeffersonville, Ind. 47130. Applicant's representative: Bob Jenkins (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors* (except truck tractors and those which because of size or weight require the use of special equipment), from Glenfield, Pa., to points in Kansas, Missouri, Nebraska, South Dakota, and that part of Illinois on, south, and west of a line beginning at Cairo, thence along U.S. Highway 51 to its junction with Illinois Highway 29, thence along Illinois Highway 29 to its junction with U.S. Highway 136, thence along U.S. Highway 136 to the Illinois-Iowa State line. The purpose of this filing is to eliminate the gateways of Columbus, Ohio, and O'Fallon Park, Mo.

No. MC 61592 (Sub-No. E104), filed June 4, 1974. Applicant: JENKINS TRUCK LINE, INC., R.R. 3, Box 697, Jeffersonville, Ind. 47130. Applicant's representative: Bob Jenkins (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements and parts*, from points in that part of Illinois on and south of U.S. Highway 6 and on and north of U.S. Highway 40, to points in Arkansas, Connecticut, Delaware, Florida, Louisiana, Maine, Massachusetts, Minnesota, Mississippi, Missouri, Nebraska, New Hampshire, New Jersey, North Dakota, Oklahoma, Rhode Island, South Dakota, Texas, Vermont, and Virginia, restricted to the transportation of traffic (a) originating at the plant sites or warehouse facilities of International Harvester Co., and (b) destined to the destination points specified above, (except that the restriction in (b) shall not apply to traffic moving in foreign commerce). The purpose of this filing is to eliminate the gateway of Rock Island, Ill.

No. MC 61592 (Sub-No. E107), filed June 4, 1974. Applicant: JENKINS TRUCK LINE, INC., R.R. 3, Box 697, Jeffersonville, Ind. 47130. Applicant's representative: Bob Jenkins (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural and garden tractors, and agricultural implements in mixed loads with tractors* (except truck tractors and commodities, which, because of their size or weight, require the use of special equipment), from Columbus, Ohio, to points in Missouri, South Dakota, and that part of Illinois on and west of a line beginning at the Illinois-Missouri State line, thence along Illinois Highway 127 to its junction with Illinois Highway 16, thence along Illinois Highway 16 to its junction with U.S. Highway 67, thence along U.S. Highway 67 to its junction with U.S. Highway 136, thence along U.S. Highway 136 to the Illinois-Iowa State line. The purpose of this filing is to eliminate the gateway of O'Fallon Park, Mo.

No. MC 61592 (Sub-No. E115), filed June 4, 1974. Applicant: JENKINS TRUCK LINE, INC., R.R. 3, Box 697, Jeffersonville, Ind. 47130. Applicant's representative: Bob Jenkins (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural and garden tractors and agricultural implements* in mixed loads with tractors (except truck tractors and commodities which, because of their size or weight, require the use of special equipment), from Atlanta, Ga., to points in South Dakota and in that part of Minnesota on and west of a line beginning at the Minnesota-Iowa State line, thence along Minnesota Highway 15 to its junction with U.S. Highway 10, thence along U.S. Highway 10 to its junction with U.S. Highway 371, thence along U.S. Highway 371 to its junction with U.S. Highway 2, thence along U.S. Highway 2 to its junction with U.S. Highway 71, thence along U.S. Highway 71 to its junction with Minnesota Highway 72, thence along Minnesota Highway 72 to the U.S.-Canada International Boundary line. The purpose of this filing is to eliminate the gateways of O'Fallon Park, Mo., and Ida Grove, Iowa.

No. MC 109478 (Sub-No. E5), filed May 15, 1974. Applicant: WORSTER MOTOR LINES, INC., Gay Rd., P.O. Box 110, North East, Pa. 16428. Applicant's representative: Joseph F. MacKrell, 23 W. 10th St., Erie, Pa. 16501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned goods and cereal food preparations*, from Geneva, Ohio, to all points in Florida. The purpose of this filing is to eliminate the gateway of Holley, N.Y.

No. MC 113459 (Sub-No. E64), filed May 14, 1974. Applicant: H. J. JEFFRIES TRUCK LINE, INC., P.O. Box 94850, Oklahoma City, Okla. 73109. Applicant's representative: Robert A. Fisher (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) (1) *Commodities*, the transportation of which, by reason of size or weight, require the use of special equipment; (2) *Self-propelled articles*, each weighing 15,000 pounds or more, and *related machinery, tools, parts, and supplies* when moving in connection therewith, restricted to commodities which are transported on trailers; (3) *Machinery, equipment, materials, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and by-products, water or sewerage, restricted to the transportation of shipments moving to or from pipeline rights-of-way; (4) *Earth drilling machinery and equipment, and machinery, equipment, materials, supplies, and pipe* incidental to, used in, or in connection with: (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, and (d) the injection or removal of commodities into or from holes or wells; and (5) *Parts of commodities*, which, by reason of size or weight, require the use of special equipment, either when incidental to the transportation of such commodities, or when transported as separate and unrestricted shipments, between points in that part of Colorado on and east of a line beginning at the Colorado-Wyoming State line and extending along U.S. Highway 287 to its junction with Interstate Highway 25, thence along Interstate Highway 25 to its junction with U.S. Highway 50, thence along U.S. Highway 50 to its junction with Colorado Highway 101, thence along Colorado Highway 101 to its junction with U.S. Highway 160, thence along U.S. Highway 160 to its junction with U.S. Highway 287, thence along U.S. Highway 287 to the Colorado-Oklahoma State line, on the one hand, and, on the other, points in that part of New Mexico on and south of a line beginning at the New Mexico-Texas State line and extending along U.S. Highway 54 to its junction with U.S. Highway 82, thence along U.S. Highway 82 to its junction with Interstate Highway 10, thence along Interstate Highway 10 to the Colorado-Arizona State line (points in Oklahoma)*; (B) (1) *Commodities*, the transportation of which, by reason of size or weight, require the use of special equipment (except those used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of main or trunk pipelines and except farm machinery); and (2) *Machinery, equipment, materials, and supplies*, used in, or in connection with, the discovery, development, production, refining, manufacture,

processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, restricted against the stringing or picking up pipe in connection with main or trunk pipelines, between points in Nebraska, on the one hand, and, on the other, points in Alaska (points in Oklahoma and Wyoming)*, and between points in Nevada, on the one hand, and, on the other, points in Mississippi (points in Oklahoma)*; and (C) *Earth drilling machinery and equipment, and machinery, equipment, materials, supplies, and pipe* incidental to, used in, or in connection with: (1) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (2) the completion of holes or wells drilled, (3) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, and (4) the injection or removal of commodities into or from holes or wells; (a) between points in Nevada, on the one hand, and, on the other, points in Mississippi (points in Oklahoma)*; and (b) between Bullett, Hardin, Meade, Breckinridge, Hancock, Daviess, Henderson, Union, Webster, McLean, Crittenden, Hopkins, Ohio, Grayson, Edmondson, Hart, Warren, Butler, Muhlenberg, Logan, Todd, Christian, Trigg, Simpson, Lyon, Caldwell, and Jefferson Counties, Ky., on the one hand, and, on the other, points in Colorado (points in Illinois and Oklahoma)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 114211 (Sub-No. E390), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Cast iron pipe and fittings* for cast iron pipe from points in that part of Ohio on and south of a line beginning at the Indiana-Ohio State line, thence along U.S. Highway 40 to the Ohio-West Virginia State line to points in Montana, Wyoming, Colorado, South Dakota, Nebraska, and points in that part of North Dakota on and west of a line beginning at the North Dakota-Canada International Boundary line, thence along North Dakota Highway 1 to the North Dakota-South Dakota State line, and to points in that part of Kansas on and northwest of a line beginning at the Nebraska-Kansas State line, thence along U.S. Highway 73 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction Interstate Highway 70, thence along Interstate Highway 70 to junction U.S. Highway 156, thence along U.S. Highway 156 to junction U.S. Highway 281, thence along U.S. Highway 281 to junction U.S. Highway 54, thence along U.S. Highway 54 to junction U.S. Highway 183, thence along U.S. Highway 183 to junction Kansas Highway 1, thence along Kansas Highway 1 to the Kansas-Oklahoma State line, and to points in that part of New Mexico on and northwest of a line beginning at the Texas-New Mexico State line, thence along U.S. Highway 60 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction New Mexico Highway 18, thence along New Mexico Highway 18 to junction U.S. Highway 62/180, thence along U.S. Highway 62/180 to the New Mexico-Texas State line, and to points in that part of Oklahoma on and northwest of a line beginning at the Kansas-Oklahoma State line, thence along Oklahoma Highway 34 to junction Oklahoma Highway 15, thence along Oklahoma Highway 15 to junction U.S. Highway 283, thence along U.S. Highway 283 to junction Oklahoma Highway 51, thence along Oklahoma Highway 51 to the Oklahoma-Texas State line, and to points in that part of Texas on and north of a line beginning at the Oklahoma-Texas State line, thence along U.S. Highway 60 to the Texas-New Mexico State line and to that part of Texas on and north of a line beginning at the New Mexico-Texas State line, thence along U.S. Highway 62/180 to the Texas-Mexico International Boundary line. The purpose of this filing is to eliminate the gateway of the plant site—Griffin Pipe Co.—Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E391), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelsen (Same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron pipe* and *fittings* for cast iron pipe from points in that part of Michigan on and southeast of a line beginning at the Ohio-Michigan State line, thence along U.S. Highway 127 to junction Michigan Highway 78, thence along Michigan Highway 78 to junction Michigan Highway 21, thence along Michigan Highway 21 to Port Huron, Mich., and from points in that part of Ohio on and north of a line beginning at the West Virginia-Ohio State line, thence along U.S. Highway 40 to the Ohio-Indiana State line to points in Montana, South Dakota, Wyoming, Nebraska, Colorado; New Mexico, and points in that part of Oklahoma on and west of a line beginning at the Kansas-Oklahoma State line, thence along Oklahoma Highway 34 to junction Oklahoma Highway 15, thence along Oklahoma Highway 15 to junction U.S. Highway 283, thence along U.S. Highway 283 to junction Oklahoma Highway 51, thence along Oklahoma Highway 51 to the Oklahoma-Texas State line, and to points in that part of Texas on and west of a line beginning at the Oklahoma-Texas State line, thence along U.S. Highway 60 to junction U.S. Highway 87, thence along U.S. Highway 87 to junction Texas Highway 349, thence along Texas Highway 349 to junction U.S. Highway 80, thence along U.S. Highway 80 to junction Texas Highway 17, thence along Texas Highway 17 to junction U.S. Highway 67, thence along U.S. Highway 67 to the Texas-Mexico International Boundary line, and to points of North Dakota on and west of a line beginning at the South Dakota-North Dakota State line, thence along U.S. Highway 281 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction North Dakota Highway 8, thence along North Dakota Highway 8 to the North Dakota-Canada International Boundary line, and to points in that part of Kansas on and northwest of a line beginning at the Nebraska-Kansas State line, thence along U.S. Highway 73 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction Interstate Highway 70, thence along Interstate Highway 70 to junction U.S. Highway 281, thence along U.S. Highway 281 to junction U.S. Highway 54, thence along U.S. Highway 54 to junction U.S. Highway 183, thence along U.S. Highway 183 to junction Kansas Highway 1, to the Kansas-Oklahoma State line, and to points of North Dakota on and west of a line beginning at the South Dakota-North Dakota State line, thence along U.S. Highway 281 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction North Dakota Highway 8, thence along North Dakota Highway 8 to the North Dakota-Canada International Boundary line, and to points in that part of Kansas on and northwest of a line beginning at the Nebraska-Kansas State line, thence along U.S. Highway 73 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction Interstate Highway 70, thence along Interstate Highway 70 to junction U.S. Highway 281, thence along U.S. Highway 281 to junction U.S. Highway 54, thence along U.S. Highway 54 to junction U.S. Highway 183, thence along U.S. Highway 183 to junction Kansas Highway 1, thence along Kansas Highway 1 to the Kansas-Oklahoma State line. The purpose of this filing is to eliminate the gateway of the plant site—Griffin Pipe Co.—Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E392), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts, thereof*, from points in that part of Iowa on and northwest of a line beginning at the Iowa-Minnesota State line, thence along U.S. Highway 169 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Iowa-Nebraska State line to points in that part of New York on and east of a line beginning at Oswego, N.Y., thence along New York Highway 57 to Interstate Highway 81, thence along Interstate Highway 81 to junction New York Highway 13, thence along New York Highway 13 to junction New York Highway 14, thence along New York Highway 14 to the New York-Pennsylvania State line, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of the plant site—Stinar Corp.—Minneapolis, Minn.

No. MC 114211 (Sub-No. E393), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, from points in that part of Iowa on and northwest of a line beginning at the Iowa-Minnesota State line, thence along U.S. Highway 169 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Iowa-Nebraska State line to points in the Upper Peninsula of Michigan and to points in that part of Wisconsin on and north of a line beginning at the Wisconsin-Minnesota State line, thence along U.S. Highway 12 to junction Wisconsin Highway

V401375 JAN 20 75 XUM

29, thence along Wisconsin Highway 29 to Kewanee, Wis., and to points in that part of Florida on and south of a line beginning at Daytona Beach, Florida, thence along U.S. Highway 92 to junction U.S. Highway 17, thence along U.S. Highway 17 to junction Florida Highway 40, thence along Florida Highway 40 to junction U.S. Highway 27, thence along U.S. Highway 27 to junction Alternate U.S. Highway 27, thence along Alternate U.S. Highway 27 to junction Florida Highway 345, thence along Florida Highway 345 to junction Florida Highway 24, thence along Florida Highway 24 to Lukens, Fla., with no transportation for compensation on return except as otherwise authorized.

No. MC 114211 (Sub-No. E395), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements and parts thereof*, from points in that part of Kansas on and west of a line beginning at the Nebraska-Kansas State line, thence along U.S. Highway 75 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction Kansas Highway 99, thence along Kansas Highway 13, thence along Kansas Highway 13 to junction Kansas Highway 77, thence along Kansas Highway 77 to junction Kansas Highway 177, thence along Kansas Highway 177 to junction Kansas Highway 77, thence along Kansas Highway 77 to the Kansas-Oklahoma State line to points in that part of Ohio on and north of a line beginning at the Indiana-Ohio State line, thence along Ohio Highway 502 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction Ohio Highway 4, thence along Ohio Highway 4 to junction Ohio Highway 161, thence along Ohio Highway 161 to Ohio Highway 16, thence along Ohio Highway 16 to junction Ohio Highway 60, thence along Ohio Highway 60 to junction Ohio Highway 208, thence along Ohio Highway 208 to junction Ohio Highway 93, thence along Ohio Highway 93 to junction Ohio Highway 83, thence along Ohio Highway 83 to junction Ohio Highway 209, thence along Ohio Highway 209 to junction U.S. Highway 40, thence along U.S. Highway 40 to the Ohio-West Virginia State line, with no transportation for compensation of return except as otherwise authorized restricted against movement to oil field locations.

No. MC 114211 (Sub-No. E400), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, from points in that part of Iowa on and northeast of a line beginning at the Minnesota-Iowa State line, thence along U.S. Highway 69 to junction Interstate Highway 80 to the Iowa-Illinois State line to points in that part of Texas on and southwest of a line beginning at the Texas-Louisiana State line, thence along U.S. Highway 90 to junction U.S. Highway 290, thence along U.S. Highway 290 to junction Texas Highway 71, thence along Texas Highway 71 to junction U.S. Highway 87, thence along U.S. Highway 87 to junction U.S. Highway 83, thence along U.S. Highway 83 to junction Texas Highway 53, thence along Texas Highway 53 to junction Texas Highway 70, thence along Texas Highway 70 to junction U.S. Highway 84, thence along U.S. Highway 84 to junction U.S. Highway 28, thence along U.S. Highway 28 to the New Mexico-Texas State line, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Waterloo, Iowa.

No. MC 114211 (Sub-No. E401), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, from points in that part of Iowa on and northwest of a line beginning at the Minnesota-Iowa State line, thence along U.S. Highway 65 to junction Iowa Highway 214, thence along Iowa Highway 214 to junction Iowa Highway 175, thence along Iowa Highway 175 to junction Iowa Highway 14, thence along Iowa Highway 14 to junction U.S. Highway 30, thence along U.S. Highway 30 to the Iowa-Illinois State line to points in Texas, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Waterloo, Iowa.

No. MC 114211 (Sub-No. E406) filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled farm machinery and parts thereof*, from that part of Minnesota on and east of a line beginning at the Minnesota-Canada International Boundary line, thence along U.S. Highway 71 to junction Minnesota Highway 6, thence along Minnesota Highway 6 to junction Minnesota Highway 210, thence along Minnesota Highway 210 to junction Minnesota Highway 18, thence along Minnesota Highway 18 to junction U.S. Highway 169, thence along U.S. Highway 169 to junction U.S. Highway 12, thence along U.S. Highway 12 to the Minnesota-Wisconsin State line to points in Oregon, California, Nevada, Arizona, Missouri, Colorado, New Mexico, Texas, Oklahoma, Kansas, Nebraska, Iowa, Illinois, Arkansas, Louisiana, Mississippi, Alabama, Georgia, Florida, South Carolina, North Carolina, Tennessee, Kentucky, Ohio, Indiana, Utah, West Virginia, and to points in that part of Washington on and west of a line beginning at the Washington-Idaho State line, thence along Interstate Highway 90 to junction U.S. Highway 395, thence along U.S. Highway 395 to the Washington-Canada International Boundary line, and to points in that part of Idaho on and south of a line beginning at the Idaho-Montana state line, thence along Interstate Highway 90 to the Idaho-Washington State line, and to points in that part of Montana on and west of a line beginning at the Montana-Wyoming State line, thence along U.S. Highway 287, to junction Interstate Highway 90, thence along Interstate Highway 90 to the Montana-Idaho State line and to points in that part of Wyoming on and southwest of a line beginning at the Wyoming-Montana State line, thence along U.S. Highway 287 to junction U.S. Highway 26, thence along U.S. Highway 26 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Wyoming-Nebraska State line and to points in that part of Wisconsin on and southeast of a line beginning at the Wisconsin-Illinois State line, thence along Wisconsin Highway 15 to Lake Michigan, and to points in that part of Michigan on and south of a line beginning at Lake Michigan, thence along Interstate Highway 96 to the Michigan-Canada International Boundary line, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114211 (Sub-No. E407), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Grading, paving and finishing machinery, equipment, parts, accessories*, and *attachments*, between points in that part of Arizona on and south of a line beginning at the California-Arizona State line, thence along U.S. Highway 66 to the New Mexico-Arizona State line, on the one hand, and, on the other, points in Minnesota and points in that part of South Dakota on and east of a line beginning at the North Dakota-South Dakota State line, thence along South Dakota Highway 45 to junction South Dakota Highway 10, thence along South Dakota Highway 10 to junction South Dakota Highway 47, thence along South Dakota Highway 47 to the South Dakota-Nebraska State line, and to points in that part of Nebraska on and north of a line beginning at the South Dakota-Nebraska State line, thence along Nebraska Highway 11 to junction U.S. Highway 275, thence along U.S. Highway 275 to junction Nebraska Highway 91, thence along Nebraska Highway 91 to junction U.S. Highway 30, thence along U.S. Highway 30 to the Iowa-Nebraska State line, and to points in that part of Iowa on and north of a line beginning at the Nebraska-Iowa State line, thence along U.S. Highway 30 to junction Interstate

Highway 29, thence along Interstate Highway 29 to junction Interstate Highway 80N, thence along Interstate Highway 80N to junction Iowa Highway 163, thence along Iowa Highway 163 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction Iowa Highway 149, thence along Iowa Highway 149 to junction Iowa Highway 78, thence along Iowa Highway 78 to junction U.S. Highway 61, thence along U.S. Highway 61 to junction U.S. Highway 34, thence along U.S. Highway 34 to the Illinois-Iowa State line, and to points in that part of Illinois on and north of a line beginning at the Iowa-Illinois State line, thence along U.S. Highway 34 to junction Illinois Highway 17, thence along Illinois Highway 17 to junction Interstate Highway 57, thence along Interstate Highway 57 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Indiana-Illinois State line. The purpose of this filing is to eliminate the gateway of Canton, S. Dak.

No. MC 119988 (Sub-No. E44), filed June 3, 1974. Applicant: GREAT WESTERN TRUCKING CO., INC., P.O. Box Box 1384, Lufkin, Texas 75902. Applicant's representative: Joe E. Kinard, 201 W. Commerce St., Dallas, Texas 75208. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Printed advertising matter*, and (2) *newspaper supplements* otherwise exempt from economic regulation under section 203(b)(7) of the Act when transported in mixed loads with printed advertising matter, from the facilities of the Oklahoma Publishing Co., Web Offset Division, at or near Oklahoma City, Okla., to Washington, D.C. The purpose of this filing is to eliminate the gateway of Montgomery County, Kansas.

No. MC 119988 (Sub-No. E47), filed June 3, 1974. Applicant: GREAT WESTERN TRUCKING CO., INC., P.O. Box Box 1384, Lufkin, Texas 75902. Applicant's representative: Joe E. Kinard, 201 W. Commerce St., Dallas, Texas 75208. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Printed advertising matter*, and (2) *newspaper supplements* otherwise exempt from economic regulations under Section 203(b)(7) of the Act when transported in mixed loads with printed advertising matter, from the facilities of Allied Printers and Publishers at or near Tulsa, Okla., to points in California (except San Francisco) on and north of a line beginning at the California-Arizona State line and extending along Interstate Highway 40 to junction California Highway 58, thence along California Highway 58 to junction California Highway 99, thence along California Highway 99 to junction California Highway 46, thence along California Highway 46 to Pacific Ocean. The purpose of this filing is to eliminate the gateway of that part of Texas on and east of a line beginning at the Texas-Oklahoma boundary line and extending along U.S. Highway 81 to junction U.S. Highway 81, thence along U.S. Highway 181 to the Gulf of Mexico.

No. MC 128273 (Sub-No. E1), filed May 2, 1974. Applicant: MIDWESTERN DISTRIBUTION, INC., P.O. Box 189, Fort Scott, Kans. 66701. Applicant's representative: Harry Ross (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Paper and paper products*, (a) from Savannah, Ga. and the facilities of Union Camp Corp., in Autauga County, Ala., to Chicago, Ill.; (b) from Lock Haven, Pa., to Mobile Ala.; (c) from Franklin, Va., to points in that part of Tennessee on and west of U.S. Highway 45 and 45E; (d) from Memphis, Tenn., to points in Indiana, Illinois, Michigan, Wisconsin, Minnesota, Pennsylvania, New York, New Jersey, Delaware, Massachusetts, Connecticut, Rhode Island, New Hampshire, Vermont, Maine, and West Virginia, restricted to the transportation of traffic originating at the facilities of Kimberly-Clark Corporation at Memphis, Tenn.; and (e) from Mobile, Ala., and Moss Point, Miss., to points in Michigan, Minnesota, and Wisconsin; and (2) *Paper*, from points in Talladega County, Ala., to points in Michigan, Minnesota, and Wisconsin. The purpose of this filing is to eliminate the gateway of Wickliffe, Ky.

INTERSTATE COMMERCE COMMISSION
OFFICE OF PROCEEDINGS

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY—ELIMINATION OF GATEWAY APPLICATIONS

JANUARY 15, 1975.

The following applications to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR 1065(d)(2)), and notice thereof to all interested persons is hereby given as provided in such rules.

Carriers having a genuine interest in an application may file an original and three copies of *verified statements* in opposition with the Interstate Commerce Commission within 30 days from the date of publication. (This procedure is outlined in the Commission's report and order in *Gateway Elimination*, 119 M.C.C. 530.) A copy of the verified statement in opposition must also be served upon applicant or its named representative. The verified statement should contain all the evidence upon which protestant relies in the application proceeding including a detailed statement of protestant's interest in the proposal. No rebuttal statements will be accepted.

No. MC 564 (Sub-No. 10G), filed June 4, 1974. Applicant: DUDLEY'S TRANSCONTINENTAL MOVERS, 2120 Adams St., Lincoln, Nebr. 68501. Applicant's representative: Rolland C. Dudley, P.O. Box 82046, Lincoln, Nebr. 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, (1) between St. Louis, Mo., and points in Iowa, Nebraska, and Wisconsin, on the one hand, and, on the other, points in Pennsylvania, New York, New Jersey, Delaware, Maryland, Virginia, West Virginia, North Carolina, Ohio, Indiana, Illinois, Connecticut, Massachusetts, New Hampshire, Rhode Island, Maine, and the District of Columbia; (2) between points in Minnesota, on the one hand, and, on the other, points in Pennsylvania, New York, New Jersey, Delaware, Maryland, Virginia, West Virginia, North Carolina, Ohio, Indiana, Illinois, Connecticut, Massachusetts, New Hampshire, Maine, Rhode Island and the District of Columbia; (3) between points in Washington and Oregon; (4) between points in Washington and Oregon, on the one hand, and, on the other, West Virginia, Virginia, North Carolina, Delaware, Maryland, Pennsylvania, New Jersey, New York, Connecticut, Rhode Island, Massachusetts, New Hampshire, Maine, the District of Columbia, Indiana, Michigan, Wisconsin, Illinois, Iowa, Nebraska, Idaho, Montana, points in Minnesota, on, south, and east of a line beginning at the Iowa-Minnesota State line and extending along U.S. Highway 59 to its intersection with Minnesota Highway 23, thence along Minnesota Highway 23 to its intersection with Interstate Highway 35, thence along Interstate Highway 35 to its intersection with Minnesota Highway 70, thence along Minnesota Highway 70 to the Wisconsin-Minnesota State line, and points in Missouri south and west of a line beginning at the Kansas-Missouri State line and extending east along U.S. Highway 54 to its intersection with Missouri Highway 5, thence south along Missouri Highway 5 to the Arkansas-Missouri State line; (5) between points in Montana, North Dakota, South Dakota, Texas, Oklahoma and Arkansas, on the one hand, and, on the other, points in Maine, New Hampshire, Massachusetts, Connecticut, Rhode Island, New Jersey, New York, Delaware, Maryland, Pennsylvania, Virginia, North Carolina, West Virginia, Ohio, Indiana, Michigan, Wisconsin, Illinois, Iowa, Nebraska, the District of Columbia, points in Minnesota on, south, and east of a line beginning at the Iowa-Minnesota State line and extending north along U.S. Highway 59 to its intersection with Minnesota Highway 23, thence along Minnesota Highway 23 to its intersection with Interstate Highway 35, thence along Interstate Highway 35 to its intersection with Minnesota Highway 70, thence along Minnesota Highway 70 to the Wisconsin-Minnesota State line, and St. Louis, Mo.; (6) between points in Colorado, Missouri, Michigan, and Kansas, on the one hand, and, on the other, points in Nebraska, Minnesota, Iowa, Missouri, Illinois, Wisconsin, Michigan, Indiana, Ohio, West Virginia, Virginia, North Carolina, Maryland, New Jersey, Delaware, New York, Pennsylvania, Connecticut, Rhode Island, Massachusetts, New Hampshire,

V40I13 JAN20 75 XUM

Maine, and the District of Columbia. (7) between points in Nebraska, Colorado, Iowa, Wisconsin, Missouri, and points in Minnesota on, south, and east of a line beginning at the Iowa-Minnesota State line and extending north along U.S. Highway 59 to its intersection with Minnesota Highway 23, thence along Minnesota Highway 23 to its intersection with Interstate Highway 35, thence along Interstate Highway 35 to its intersection with Minnesota Highway 70, thence along Minnesota Highway 70 to the Wisconsin-Minnesota State line. (8) between points in Nebraska, Wisconsin, Iowa, and points in Minnesota on, south and east of a line beginning at the Iowa-Minnesota State line and extending along U.S. Highway 59 to its intersection with Minnesota Highway 23, thence along Minnesota Highway 23, to its intersection with Interstate Highway 35, thence along Interstate Highway 35 to its intersection with Minnesota Highway 70, thence along Minnesota Highway 70 to the Wisconsin-Minnesota State line, on the one hand, and, on the other, points in Kentucky and Tennessee. The purpose of this filing is to eliminate the gateways at Lincoln, Nebr., points in Illinois, Wenatchee, Wash., Austin, Minn., and points within 150 miles thereof, points in that part of Missouri south of U.S. Highway 54 and west of Missouri Highway 5 including points on the indicated portions of the highways specified and points in Montana.

No. MC 5470 (Sub-No. 92G), filed June 4, 1974. Applicant: TAJON, INC., R.D. #5, Mercer, Pa. 16137. Applicant's representative: Don Cross, 700 World Center Building, 918 Sixteenth Street NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Ferro alloys*, in dump vehicles, from Johnstown, Pa., to Weirton, W. Va. The purpose of this filing is to eliminate the gateway of North Lima, Ohio.

No. MC 29079 (Sub-No. 73G), filed June 4, 1974. Applicant: BRADA MILLER FREIGHT SYSTEM, INC., 1210 South Union Street, P.O. Box 935, Kokomo, Ind. 46901. Applicant's representative: Edward K. Wheeler, 704 Southern Building, 15th & H Streets NW., Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *Iron and steel products, die parts, die checking fixtures, die models and jigs, tools, patterns and templates* when moved in connection with dies, (1) from points in Ohio, to points in Michigan on and south of a line beginning at Ludington, Mich., and extending along U.S. Highway 10 to junction Business Route U.S. Highway 10, thence along Business Route U.S. Highway 10 to Midland, Mich., thence along Michigan Highway 20 to Saginaw River, thence along the Saginaw River to Saginaw Bay. The purpose of this filing is to eliminate the gateway at Toledo, Ohio. (A) (2) from points in Ohio, to points in Indiana (except Kokomo, Ind., and 50 miles thereof, Portage, Ind., and points in the Chicago, Ill., Commercial Zone). The purpose of this filing is to eliminate the gateway at Detroit, Mich. (A) (3) from points in Ohio on and north of Interstate Highway 70, to Louisville, Ky. The purpose of this filing is to eliminate the gateways at Detroit, Mich., and Kokomo, Ind. (A) (4) from points in Ohio, to points in Illinois and St. Louis, Mo. The purpose of this filing is to eliminate the gateways at Detroit, Mich., Portage-Gary and Kokomo, Ind. (A) (5) from points in Illinois and St. Louis, Mo., to points in Ohio. The purpose of this filing is to eliminate the gateways at Portage-Gary, Ind., and Toledo, Ohio. (A) (6) (a) from Silver Creek, N.Y., to Ann Arbor, Coldwater, Detroit, Jackson, Pontiac, Sturgis, Willow Run, and Ypsilanti, Mich.; (b) from Westfield, N.Y., to Ann Arbor, Battle Creek, Coldwater, Detroit, Flint, Jackson, Lansing, Pontiac, Sturgis, Willow Run, and Ypsilanti, Mich.; and (c) from Erie, Pa., to Ann Arbor, Battle Creek, Coldwater, Detroit, Flint, Grand Rapids, Jackson, Kalamazoo, Lansing, Pontiac, Port Huron, St. Joseph, Sturgis, Willow Run, and Ypsilanti, Mich. The purpose of this filing in (A) (6) above, is to eliminate the gateways at Toledo and Columbiana, Ohio. (A) (7) between points in New York on and west of U.S. Highway 62, points in West Virginia on and north of U.S. Highway 40, points in Pennsylvania on and west of U.S. Highway 219, on the one hand, and, on the other, points in Illinois and St. Louis, Mo. The purpose of this filing is to eliminate the gateways at Columbiana, Ohio, Detroit, Mich., Portage-Gary and Kokomo, Ind. (A) (8) from Detroit, Mich., Kelsey Hayes Company, Romulus, Mich., and Gilbraltar, Mich. (no die parts, die checking fixtures, die models and jigs, tools, patterns, and templates from Gilbraltar), to points in Erie County, Pa., and points in Chautauqua and Cattaraugus Counties, N.Y., on and east of U.S. Highway 62. The purpose of this filing is to eliminate the gateway at Columbiana, Ohio. (A) (9) from points in New York on and west of U.S. Highway 62, points in Pennsylvania on and west of U.S. Highway 219, and points in West Virginia on and north of U.S. Highway 40, to points in Indiana (except Gary-Portage and Kokomo and within a radius of 50 miles thereof. The purpose of this filing is to eliminate the gateways at Columbiana, Ohio, and Detroit, Mich. (B) *Iron, iron and steel products*, from Ashland, Ky., to points in Illinois and Indiana on and north of U.S. Highway 24. The purpose of this filing is to eliminate the gateways at Detroit, Mich., Gary-Portage and/or Kokomo, Ind. (C) *General commodities*, between Toledo, Ohio, and points in New York west of U.S. Highway 62 and Erie and Crawford Counties, Pa. The purpose of this filing is to eliminate the gateway at Columbiana, Ohio. (D) *Copper cable* (outbound) and *general commodities* (inbound), between Anaconda Wire and Cable Company plantsite near LaGrange, Ky., on the one hand, and, on the other, points in Washington and Green Counties, Pa., and points in West Virginia north of U.S. Highway 40. The purpose of this filing is to eliminate the gateway at Columbiana, Ohio.

No. MC 35628 (Sub-No. 358G), filed June 4, 1974. Applicant: INTERSTATE MOTOR FREIGHT SYSTEM, a Corporation, 134 Grandville SW., Grand Rapids, Mich. 49502. Applicant's representative: Chandler L. van Orman, 704 Southern Building, 15th & H Streets NW., Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Meat*, from Sioux Falls, S. Dak., to Oklahoma City, Okla. The purpose of this filing is to eliminate the gateway of Trenton, Mo. (2) *Meat*, (a) from Arkansas City, Kans., to Fremont, Nebr.; (b) between Wichita, Kans. and Fremont, Nebr.; (c) from Fremont, Nebr., to Topeka, Kans.; (d) from Fremont, Nebr., to Hutchinson, Kans.; and (e) from Fremont, Nebr., to Great Bend, Kans. The purpose of this filing in (2) above is to eliminate the gateway of St. Joseph, Mo.

No. MC 52565 (Sub-No. 8G), filed June 4, 1974. Applicant: MYERS TRANSFER & STORAGE CO., a Corporation, 418 Third Avenue, Huntington, W. Va. 25701. Applicant's representative: Bob E. Myers (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in West Virginia, Kentucky, and Ohio, on the one hand, and, on the other, points in Indiana, Illinois, the lower peninsula of Michigan, Maryland, New Jersey, New York, North Carolina, South Carolina, Florida, Georgia, Pennsylvania, Tennessee, Virginia, and the District of Columbia. The purpose of this filing is to eliminate the gateways at points in Lawrence County, Ohio, Boyd County, Ky., Cabell and Wayne Counties, W. Va.

No. MC 59393 (Sub-No. 7G), filed June 3, 1974. Applicant: BESTWAY VAN LINES, INC., P.O. Box 1748, Monterey, Calif. 93940. Applicant's representative: Sheldon Silverman, 1819 H St. NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Oklahoma, Kansas, and Texas. The purpose of this filing is to eliminate the gateways at points in Kiowa County, Okla., and points 50 miles thereof, and Hobart, Okla., and points within 20 miles thereof.

No. MC 70083 (Sub-No. 29G), filed June 4, 1974. Applicant: DRAKE MOTOR LINES, INC., 20 Olney Avenue, Cherry Hill, N.J. 08002. Applicant's representative: Herbert Burstein, 1 World Trade Center, New York, N.Y. 10048. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Such items* as are dealt in by retail department stores, between points in that part

of Pennsylvania, east of a line beginning at the Pennsylvania-New York State line and extending along U.S. Highway 11 to Lemoyne, Pa., thence along Interstate Highway 83 (formerly portion U.S. Highway 111) to York, Pa., thence along unnumbered highway (formerly portion U.S. Highway 111) through Jacobus, Loganville, and Shrewsbury, Pa., to the Pennsylvania-Maryland State line, on the one hand, and, on the other, points in the New York, N.Y., Commercial Zone. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

(2) *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between New York, N.Y., and points in Bergen, Hudson, Essex Counties, N.J., points in that part of Passaic County, N.J., east and south of an imaginary straight line running from Riverdale, N.J., to Oakland, N.J., and points in that part of Union County, N.J., east of an imaginary straight line running from the northern border of Union County through Union and Rahway, N.J., to the southern boundary of Union, N.J. The purpose of this filing is to eliminate the gateway of New York, N.Y. (3) *general commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between points in Massachusetts, Connecticut, Rhode Island, and those in New York east of the Hudson River and south of a line beginning at Newburgh, N.Y., to New York, Connecticut State line, including New York, N.Y., and points in Nassau County. The purpose of this filing is to eliminate the gateway of Boston, Mass.

No. MC 82063 (Sub-No. 50G), filed June 4, 1974. Applicant: KLIPSCH HAULING CO., a Corporation, 119 E. Loughborough, St. Louis, Mo. 63111. Applicant's representative: E. Stephen Heisley, 805 McLachlen Bank Building, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Liquid chemicals*, in bulk, in tank vehicles, (a) from Dupo, Ill., and points in its commercial zone, to points in Oklahoma and Texas (except Harris County, Tex.). The purpose of this filing is to eliminate the gateway of Springfield or Verona, Mo. (b) from Dupo, Ill., and points in its commercial zone, to points in Alabama, Mississippi, Louisiana, and Harris County, Tex. The purpose of this filing is to eliminate the gateway of Pine Bluff, Ark. (c) from Dupo, Ill., and points in its commercial zone, to points in Ohio. The purpose of this filing is to eliminate the gateway of Mt. Carmel, Ill. (d) from Pine Bluff, Ark., to points in Indiana (except the plant site of Commercial Solvents Corp., at Terre Haute), and Ohio. The purpose of this filing is to eliminate the gateway of Mt. Carmel, Ill. (e) from Pine Bluff, Ark., to points in Iowa. The purpose of this filing is to eliminate the gateway of Dupo, Ill. (f) from Springfield and Verona, Mo., to points in Alabama, Louisiana, and Mississippi. The purpose of this filing is to eliminate the gateway of Pine Bluff, Ark. (g) from Springfield and Verona, Mo., to points in Illinois, Indiana, Iowa, Kentucky, and Tennessee. The purpose of this filing is to eliminate the gateway of Dupo, Ill. (h) from Springfield and Verona, Mo., to points in Ohio. The purpose of this filing is to eliminate the gateways of Dupo, Ill., and Mt. Carmel, Ill. (i) from White Hall, Ill., to points in Arkansas, Kansas, Oklahoma, and Texas (except Harris County). The purpose of this filing is to eliminate the gateway of Springfield or Verona, Mo. (j) from White Hall, Ill., to points in Louisiana. The purpose of this filing is to eliminate the gateway of Springfield or Verona, Mo., and Pine Bluff, Ark. (2) *calcined clay residue*, dry, in bulk, from Owensville, Mo., to points in the St. Louis, Mo.-East St. Louis, Ill., Commercial Zone. The purpose of this filing is to eliminate the gateway of Venice, Ill. (3) *liquid sulfur trioxide*, in bulk, in tank vehicles, (a) from Fairmont City, Ill., to points in Arkansas, Oklahoma, and Texas (except Harris County, Tex.). The purpose of this filing is to eliminate the gateways of Springfield or Verona, Mo. (b) from Fairmont City, Ill., to points in Louisiana. The purpose of this filing is to eliminate the gateways of Springfield or Verona, Mo., and Pine Bluff, Ark. (c) from the St. Louis, Mo.-East St. Louis, Ill., Commercial Zone, as defined by the Commission, to points in Alabama, Colorado, Illinois, Indiana, Kansas, Michigan, Mississippi, Missouri, Ohio, South Carolina, and Wisconsin. The purpose of this filing is to eliminate the gateway of Fairmont City, Ill. (d) from the St. Louis, Mo.-East St. Louis, Ill., Commercial Zone, as defined by the Commission, to points in Oklahoma, Texas (except Harris County, Tex.), and Arkansas. The purpose of this filing is to eliminate the gateways of Fairmont City, Ill., and Springfield or Verona, Mo. (e) from the St. Louis, Mo.-East St. Louis, Ill., Commercial Zone as defined by the Commission, to points in Louisiana. The purpose of this filing is to eliminate the gateways of Fairmont City, Ill., Springfield or Verona, Mo., and Pine Bluff, Ark. (4) *liquid printers ink*, in bulk, in tank vehicles, (a) from the St. Louis, Mo.-East St. Louis, Ill., Commercial Zone as defined by the Commission, to points in Kansas, Nebraska, Iowa, Illinois, Kentucky, Tennessee, Arkansas, Oklahoma, Louisiana, Indiana, and Ohio. The purpose of this filing is to eliminate the gateway of the plant site of General Printing Ink Corp., at or near Overland, Mo. (b) from the St. Louis, Mo.-East St. Louis, Ill., Commercial Zone as defined by the Commission, to points in Colorado, North Dakota, South Dakota, and Wyoming. The purpose of this filing is to eliminate the gateways at the plant site of General Printing Ink Corp., at or near Overland, Mo., and North Kansas City, Mo., and its commercial zone. (c) from the St. Louis, Mo.-East St. Louis, Ill., Commercial Zone as defined by the Commission to points in Alabama, Mississippi, and Texas. The purpose of this filing is to eliminate the gateways of the plant site of General Printing Ink Corp., at or near Overland, Mo., and Pine Bluff, Ark.

No. MC 10788 (Sub-No. 6G), filed June 4, 1974. Applicant: TOM'S EXPRESS, INC., 555 West Federal Street, Youngstown, Ohio 44501. Applicant's representative: Paul F. Beery, 8 East Broad Street, Ninth Floor, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Iron and steel and manufactured products thereof:* (a) from points in Michigan south of a line beginning at Indiana/Michigan state line, thence north on Michigan Highway 66 to the intersection of Michigan Highway 66 and U.S. Highway 12, thence east on U.S. Highway 12 to the intersection of U.S. Highway 12, and U.S. Highway 127, thence north on U.S. Highway 127 to the intersection of U.S. Highway 127 and U.S. Highway 94, thence east on U.S. Highway 94 to the intersection of U.S. Highway 94 and Michigan Highway 14, thence east on Michigan Highway 14 to the city of Detroit, Mich., to points in Pennsylvania on and west of U.S. Highway 219; (b) from points in Michigan north and west of a line beginning at Indiana/Michigan state line, thence north on Michigan Highway 66 to the intersection of Michigan Highway 66 to U.S. Highway 12, thence east on U.S. Highway 12 to the intersection of U.S. Highway 12 and U.S. Highway 127, thence north on U.S. Highway 127 to the intersection of U.S. Highway 127 and U.S. Highway 94, thence east on U.S. Highway 94 to the intersection of U.S. Highway 94 and Michigan Highway 14, thence east on Michigan Highway 14 to the city of Detroit, Mich., to points in Pennsylvania bounded and described as follows, on the east by U.S. Highway 219, on the north by New York/Pennsylvania state line, on the west by the Pennsylvania/Ohio state line, then on the south by a line beginning at the Ohio/West Virginia state line, thence east on Pennsylvania Highway 68 to the intersection of Pennsylvania Highway 68 and U.S. Highway 80, thence west on U.S. Highway 80 to the intersection of U.S. Highway 80 and U.S. Highway 219; and (c) from points in Michigan on and south of a line beginning at the shores of Lake Michigan, then east along Michigan Highway 21 to the intersection of Michigan Highway 21, and Michigan Highway 131, thence north along U.S. Highway 131 to the intersection of U.S. Highway 131 and Michigan Highway 20, thence east along Michigan Highway 20 to the intersection of Michigan Highway 20 and U.S. Route 10, thence east along U.S. Route 10 to the intersection of

V 40 13 JAN 20 75 XUM

U.S. Route 10 and Michigan Highway 247, thence north along Michigan Highway 247 to the shores of Lake Huron to points in Ohio on, east, and south of a line beginning at Lake Erie and Interstate Highway 71, thence south on Interstate Highway 71 to the intersection of Interstate Highway 71 and Interstate Highway 70, thence west on Interstate Highway 70 to the Ohio/Indiana state line. The purpose of this filing is to eliminate the gateways at Weirton, W. Va.; Brooke and Ohio Counties, W. Va. (2) *Steel, and machinery, materials, supplies and equipment* incidental to or used in the operation and maintenance of steel mills, between points in Columbiana County, Ohio, on the one hand, and, on the other, points in the state of Michigan, on and south of U.S. Route 12, those in Pennsylvania on and west of a line beginning at the intersection of Pennsylvania state line and Pennsylvania Highway 68, thence north on Pennsylvania Highway 68 to the intersection of Pennsylvania Highway 68 and Pennsylvania Highway 66, thence north on Pennsylvania Highway 66 to the intersection of Pennsylvania Highway 66 and the Pennsylvania Highway 948, thence north on Pennsylvania Highway 948 to the intersection of Pennsylvania Highway 948 and U.S. No. 6, thence north on U.S. Highway No. 6 to the intersection of U.S. Highway No. 6 and U.S. Highway 62, thence north on U.S. Highway 62 to the Pennsylvania/New York state line. The purpose of this filing is to eliminate the gateway at Hancock County, W. Va.

No. MC 100666 (Sub-No. 281G), filed June 4, 1974. Applicant: MELTON TRUCK LINES, INC., P.O. Box 7666, Shreveport, La. 71107. Applicant's representative: Wilburn L. Williamson, 3535 N.W. 58th Street, 280 National Foundation Life Bldg., Oklahoma City, Okla. 73112. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Plastic pipe*, from Oklahoma City, Okla., to points in Arizona and New Mexico. The purpose of this filing is to eliminate the gateways at Waco, Tex., and McPherson, Kans. (2) *prefinished wall panels, composition board, wallboard, plywood, and mouldings, and accessories* incidental to the installation thereof, from Pittsburg, Kans., to points in Missouri. The purpose of this filing is to eliminate the gateway at Miami, Okla. (3) *composition board*, from the plantsite of U.S. Plywood-Champion Papers, Inc., located near Oxford, Miss., to points in Tennessee. The purpose of this filing is to eliminate the gateway at West Memphis, Ark. (4) *asphalt or composition lumber*, from Craig, Okla., to points in Virginia and West Virginia. The purpose of this filing is to eliminate the gateway at Miami, Okla. (5) *posts, poles, piling, qnd lumber*, from points in Arkansas, to points in and east of Maryland, New Jersey, and New York. The purpose of this filing is to eliminate the gateways at Texarkana, Tex., and Stone County, Miss. (6) *lumber*, from Memphis and Covington, Tenn., to points in and east of Delaware, Maryland, New Jersey, and New York. The purpose of this filing is to eliminate the gateways at Arkansas, Texarkana, Tex. and Stone County, Miss. (7) (a) *posts, poles, piling, pallets, and lumber*, from points in Texas over 250 miles from Texarkana, Tex., to points in Iowa, Kansas, Minnesota, Nebraska, North Dakota, Oklahoma, and South Dakota. The purpose of this filing is to eliminate the gateways at Arkansas, Louisiana, and Texas. (b) *lumber*, from points in Texas over 250 miles from Texarkana, Tex., to points in Colorado and New Mexico. The purpose of this filing is to eliminate the gateways at Hamlin, Acme, Rotan, Tex., and points in Oklahoma. (8) (a) *posts, poles, piling, pallets, and lumber*, from Missouri, to points in Georgia, Illinois, Iowa, Kentucky, Mississippi, Nebraska, North Carolina, Pennsylvania, South Dakota, Wisconsin, Tennessee, and points in and east of New York. The purpose of this filing is to eliminate the gateways at Arkansas, Texarkana, Tex., and Stone County, Miss. (b) *lumber*, from Missouri, to points over 250 miles from Texarkana, Tex., and points in Kansas, Oklahoma, and Texas. The purpose of this filing is to eliminate the gateways at points in Arkansas, Goodman, Tenn., and points in Texas. (9) *posts, poles, piling, and lumber*, from Mississippi, to points in Arkansas, Missouri, and points in and east of Delaware, Maryland, and New York. The purpose of this filing is to eliminate the gateways at Goodman, Tenn., Texarkana, Tex., and points in Louisiana. (10) *lumber*, from points in Mississippi, to points in Florida, Georgia, Illinois, Indiana, North Carolina, Ohio, and Virginia. The purpose of this filing is to eliminate the gateway at Urania, La.

No. MC 115703 (Sub-No. 7G), filed June 5, 1974. Applicant: KREITZ MOTOR EXPRESS, INC., 220 Park Road North, Wyomissing, Pa. 19610. Applicant's representative: Robert D. Gunderman, Suite 710, Statler Hotel, Buffalo, N.Y. 14202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Contractors equipment, heavy and bulky articles, machinery and machine parts, and articles* which require special handling or rigging, between points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, Virginia, West Virginia, and the District of Columbia, restricted against traffic between: (A) Connecticut, on the one hand, and, on the other, points in Massachusetts, and Rhode Island; (B) Massachusetts, on the one hand, and, on the other, points in Rhode Island; and (C) the District of Columbia, on the one hand, and, on the other, points in Delaware, North Carolina, and Virginia. The purpose of this filing is to eliminate the gateways at Berks, Luzerne, and York Counties, Pa.

No. MC 116400 (Sub-No. 4G), filed June 4, 1974. Applicant: LAWRENCE TRANSFER & STORAGE CORPORATION, 2727 Hollins Road NE., Roanoke, Va. Applicant's representative: Alan F. Wohlstetter, 1700 K Street NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods* as defined by the Commission, (1) between points in Delaware, the District of Columbia, Maryland, New Jersey, New York, North Carolina, Pennsylvania, South Carolina, Tennessee, and West Virginia, on the one hand, and, on the other, points in Virginia, Ohio, North Carolina, Maryland, Pennsylvania, West Virginia, and the District of Columbia. The purpose of this filing is to eliminate the gateways of Harrisonburg, Waynesboro or Staunton, Va. (2) between points in Tennessee, on the one hand, and, on the other, points in New York and Delaware. The purpose of this filing is to eliminate the gateway of points in Roanoke County, Va., within 35 miles of Roanoke, Va.

No. MC 17868 (Sub-No. 7G), filed June 4, 1974. Applicant: H. E. BRINKERHOFF AND SONS TRANSPORTATION CO., a Corporation, 1001 South 14th Street, Harrisburg, Pa. 17104. Applicant's representative: Thomas R. Kingsley, Suite 1030, 1819 H Street NW., Washington D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, (1) between points in Virginia, on the one hand, and, on the other, points in North Carolina, South Carolina, Georgia, Florida, Alabama, Michigan, Maryland, Tennessee, Kentucky, West Virginia, Ohio, Missouri, New York, Illinois, Indiana, Iowa, Louisiana, Texas, the District of Columbia, and those in Pennsylvania beyond a 75 mile radius of Harrisburg; (2) between points in New Jersey, on the one hand, and, on the other, points in New York, Massachusetts, Connecticut, Rhode Island, Vermont, New Hampshire, Maryland, Maine, Ohio, and those in Pennsylvania beyond a 75 mile radius of Harrisburg; (3) between points in New York, on the one hand, and, on the other, points in New Jersey, Connecticut, Rhode Island, Massachusetts, Illinois, Indiana, Ohio, Michigan, Iowa, Tennessee, Kentucky North Carolina, South Carolina, Georgia, Florida, West Virginia, and those in Pennsylvania beyond a 75 mile radius of Harrisburg; (4) between points in Pennsylvania beyond 75 miles of Harrisburg, Pa., on the one hand, and, on the other, points in Maryland, Indiana, Illinois, Iowa, Michigan, Kentucky, Tennessee, North Carolina, South Carolina, Georgia, Florida, Connecticut, Rhode Island, Massachusetts, Vermont, New Hampshire, Maine, Ohio, West Virginia, New Jersey, New York, and the District of Columbia. (5) between points in North Carolina, on the one hand, and, on the other, points in West Virginia, Maryland, and Indiana; (6) between points in the District of Columbia, on the one hand, and, on the other, points in Virginia, West Virginia,

North Carolina, and those in Pennsylvania beyond a 75 mile radius of Harrisburg; and (7) between points in Maryland, on the one hand, and, on the other, points in North Carolina, South Carolina, Georgia, Florida, Kentucky, Ohio, West Virginia, Indiana, Illinois, Iowa, Michigan, New York, New Jersey, Connecticut, Rhode Island, Massachusetts, Tennessee, Vermont, New Hampshire, Maine, and the District of Columbia. The purpose of this filing is to eliminate the gateways at points in Delaware, within a 75 mile radius of Harrisburg, Pa., and Powellsville, Md.

No. MC 119689 (Sub-No. 12G), filed June 4, 1974. Applicant: PEERLESS TRANSPORT CORP., 2700 Smallman Street, Pittsburgh, Pa. 15222. Applicant's representative: John A. Vuono, 2310 Grant Building, Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Proceessed cheese, raw cheese, pimentos, chemicals, and paper cartons* between West Virginia, Ohio, Kentucky, Illinois, Michigan, Indiana, Wisconsin, and Minnesota, on the one hand, and, on the other, points in New York, Massachusetts, Rhode Island, Connecticut, New Jersey, Delaware, Virginia, Maryland, North Carolina, Tennessee, Mississippi, and Missouri. The purpose of this filing is to eliminate the gateway of Curwensville, Pa.

MC 124211 (Sub-No. 246G), filed May 31, 1974. Applicant: HILT TRUCK LINE, INC., P.O. Box 988, D.T.S., Omaha, Nebr. 68101. Applicant's representative: Thomas L. Hilt (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Alcoholic beverages*, from points in Louisiana, Tennessee, and Texas, Pekin and Peoria, Ill., Frankfort, Ky., Detroit, Mich., Minneapolis, Minn., and St. Louis, Mo., and those points in Iowa, Kansas, Missouri, and Nebraska (except Glenwood, Iowa) along a line beginning at Lincoln, Nebr., thence along U.S. Highway 77 to its intersection with U.S. Highway 36, thence along U.S. Highway 36 to its intersection with U.S. Highway 59, thence along U.S. Highway 59 to its intersection with U.S. Highway 34, thence along U.S. Highway 34 to Lincoln, Nebr., to points in the United States on and west of U.S. Highway 61. The purpose of this filing is to eliminate the gateways at Omaha, Nebr., and various points in Nebraska. (2) *Unfrozen alcoholic beverages*, from Belleville, Chicago, and Quincy, Ill., Kansas City, Mo., La Crosse, Milwaukee, and Waukesha, Wis., and points in New Jersey, to points in the United States on and west of U.S. Highway 61, restricted against the transportation of commodities in bulk to points in Idaho and New Mexico, and further restricted against the transportation of whiskey, in containers, from Linden, N.J., to Omaha, Nebr. (3) *Alcoholic beverages* (except in bulk), from Lawrenceburg, Ind., Cincinnati, Ohio, and points in Kentucky (except Frankfort), to points in the United States on and west of U.S. Highway 61. The purpose of this filing in (2) and (3) above, is to eliminate the gateway at Omaha, Nebr. (4) *Alcoholic beverages* (except malt beverages and except in bulk), from points in Connecticut, Florida, Maryland, Massachusetts, New York, and Pennsylvania, to points in the United States on and west of U.S. Highway 61. The purpose of this filing is to eliminate the gateway at North Sioux City, S. Dak. (5) *Alcoholic beverages* (other than citrus and other than frozen), from Mobile, Ala., to points in the United States on and west of U.S. Highway 61, restricted against service to points in the Kansas City, Kans.-Mo., Commercial Zone, as defined by the Commission. The purpose of this filing is to eliminate the gateways at points in Nebraska.

No. MC 134029 (Sub-No. 3G), filed June 4, 1974. Applicant: SIGEL'S HAULING, INC., P.O. Box 146, Cadiz, Ohio 43907. Applicant's representative: Paul F. Beery, 8 East Broad St., Ninth Floor, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Mining machinery, equipment, and supplies*, between points in Washington, Allegheny, and Fayette Counties, Pa., on the one hand, and, on the other, points in West Virginia. The purpose of this filing is to eliminate the gateways at points in Wood and Pleasant Counties, W. Va. (2) *Contractor's equipment and construction machinery*, which because of size or weight require special equipment, between points in Calhoun, Wood, Pleasants, Wirt, Gilmer, Braxton, Randolph, Pocahontas, Webster, Mason, Putnam, Kanawha, Roane, Clay, Nicholas, Greenbrier, Monroe, Summers, Fayette, Raleigh, Boone, Lincoln, Wayne, Cabell, Mingo, Logan, Wyoming, McDowell, and Mercer Counties, W. Va., on the one hand, and, on the other, points in West Virginia; and (3) *Contractor's equipment and heavy machinery*, which because of size or weight requires the use of special equipment, between points in Putnam, Lincoln, Boone, Kanawha, Roane, Clay, Nicholas, Fayette, and Raleigh Counties, W. Va., on the one hand, and, on the other, points in West Virginia. The purpose of this filing in (2) and (3) above is to eliminate the gateways at points in Pleasants, Wood, Wirt, and Jackson Counties, W. Va.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

CONSUMER PRODUCT SAFETY COMMISSION

■

CHILDREN'S SLEEPWEAR; SIZES 7 THROUGH 14

Proposed Labeling and Recordkeeping Requirements, Policy Statement, and Solicitation of Comments

V40 I13 JAN20 75 XUM

CONSUMER PRODUCT SAFETY COMMISSION

[16 CFR Ch. II]

CHILDREN'S SLEEPWEAR; SIZES 7 THROUGH 14 (FF 5–74)

Proposed Amendment and Withdrawal of Finding of Possible Need for Amendment

In the FEDERAL REGISTER of May 1, 1974 (39 FR 15228), the Consumer Product Safety Commission announced that amendments may be needed to the Standard for the Flammability of Children's Sleepwear, sizes 7 through 14 (FF 5–74) (39 FR 15214) and instituted proceedings for the determination of appropriate amendments. The Standard was issued by the Commission under the Flammable Fabrics Act (15 U.S.C. 1191 et seq.). The Standard, which becomes effective on May 1, 1975, requires that all items of children's sleepwear in sizes 7 through 14 manufactured on or after the effective date must comply with the Standard.

The purpose of this notice is to propose an amendment to the Standard to require that items of sleepwear in sizes 7 through 14 which are manufactured on or after the effective date of the Standard must be labeled with an affirmative label stating that the item complies with the Standard. Under the terms of the Standard, all such items must comply with the Standard. This proposed amendment was one of four issues the Commission listed in the May 1, 1974 Notice of Possible Need for Amendment of the Standard.

In addition, in this notice, the Commission withdraws its finding of possible need for amendment to the Standard as to the three other possible amendments mentioned in the FEDERAL REGISTER notice of May 1, 1974 (39 FR 15228). These possible changes for which the Commission is withdrawing its finding of possible need for amendment include:

A. The possible need to define the term "manufacture" as used in the Standard to clarify which items of children's sleepwear in the production/distribution chain on the effective date of the Standard must comply with the Standard.

B. The possible need to clarify for the purpose of the Standard which items are to be considered "in inventory or with the trade" on the effective date of the Standard and therefore are exempt from the Standard.

C. The possible need to allow, in special cases, an exception to testing under oven-dry conditions under the Standard.

The Commission has determined that it is not necessary to amend the Standard to define the term "manufacture" or to clarify which items are to be considered "in inventory or with the trade" on the effective date of the Standard. Instead, the Commission has published elsewhere in the FEDERAL REGISTER today, a policy statement on these two issues and has invited comment on the policy statement. The reasons for this determination are discussed below under headings 2 and 3.

In addition, the Commission has decided to withdraw the finding that there is a possible need to amend the Standard to allow exceptions to testing under oven-dry conditions. The reasons for this decision are discussed under heading 4 below.

Comments. A total of 33 comments were received in response to the May 1, 1974 Notice of Possible Need for Amendment. The major comments and the Commission's responses to the comments are discussed below.

1. *Affirmative labeling.* The Commission stated in the May 1, 1974 Notice that it may be necessary to amend the Standard to require items which comply with the Standard to bear affirmative labeling to enable consumers to distinguish complying from noncomplying items of children's sleepwear in sizes 7 through 14. The Commission suggested that the labeling be required from the effective date of the Standard until stocks of noncomplying items can reasonably be expected to be exhausted. Fifteen commenters specifically mentioned affirmative labeling. Of these, only one was opposed to the concept. The major issues raised by the commenters and the Commission's views on the basis of comments received to date are as follows:

a. *Duration of labeling required.* Commenters suggested various lengths of time during which affirmative labeling should be required. Two commenters stated that affirmative labeling should be required for an indefinite period of time, or permanently. Some commenters stated that such labeling could serve as an educational tool to make consumers more aware of the dangers of flammable fabrics in general. It was also stated that permanent affirmative labeling is necessary to protect consumers from noncomplying children's sleepwear which could be accumulated in large quantities before the effective date of the standard (stockpiled) and which could remain on the marketplace for many years.

Other commenters suggested various time periods over which affirmative labeling should be required. The time periods suggested included: (1) an indefinite period until satisfactory evidence is presented that all noncomplying articles have cleared the marketplace, (2) one year with a provision that the matter be reevaluated toward the end of the period to determine whether noncomplying items have cleared the market, (3) one year, (4) at least one or two years, (5) 18 months, (6) two years, (7) three years, and (8) five years.

Discussion. None of the commenters provided data to support their suggestions regarding the length of time affirmative labeling should be required and none provided data to show how long it will take for noncomplying items of children's sleepwear in sizes 7 through 14 to clear the marketplace after the effective date of the Standard.

The Commission believes affirmative labeling is necessary only until such time as it can reasonably be expected that noncomplying items will be out of the marketplace. At this time, the Commission believes that three years will be sufficient to clear the market of noncomplying goods and has therefore proposed this time limit. However, the Commission seeks comment that would indicate the expected life of these items in the marketplace, including all types of retail and wholesale facilities.

The Commision believes that labeling is necessary in order to enable consumers to distinguish complying from noncomplying items of children's sleepwear, but it does not at this time believe that it is necessary to require such labeling indefinitely. The educational value of the labeling, while important, may be better achieved through providing more detailed information to the public through both governmental and private channels.

b. *Applicability to fabric.* One commenter stated that affirmative labeling should apply to yard goods intended or promoted for use in children's sleepwear in sizes 7 through 14 as well as to garments.

Discussion. The Commission agrees and proposes that both garments and fabric intended or promoted for use in children's sleepwear in sizes 7 through 14 and manufactured after the effective date of the Standard be affirmatively labeled. The Commission believes this requirement is necessary to protect all consumers, including those who purchase fabric to make sleepwear garments in sizes 7 through 14.

c. *Labeling as to noncompliance.* Two commenters suggested that the Commission require noncomplying items of children's sleepwear in sizes 7 through 14 sold after May 1, 1975 to be labeled with negative labels stating that they are not in compliance, or, in the alternative, that retailer segregation of complying and noncomplying garments be required.

Discussion. The Commission believes this requirement is unnecessary because the affirmative labeling requirement would enable consumers to distinguish complying from noncomplying children's sleepwear. In addition, elsewhere in the FEDERAL REGISTER today, the Commission is proposing rules and regulations under the Standard to require that noncomplying and complying items of children's sleepwear be physically separated at the point of sale to consumers and that signs identifying these items be posted.

d. *Language of label.* A retailer suggested that the language of the affirmative label be prescribed to prevent confusion, to have a greater educational impact on consumers, and to avoid any temptation to expand and exaggerate in promotional claims the performance of flame retardancy. This commenter also suggested that the Commission develop wording that could be used uniformly on garments complying with any governmental flammability standard—State or federal.

Other commenters suggested the Commission clearly specify the wording to appear on the label and suggested the wording should be as brief as possible. Some commenters stated that the Commission should allow affirmative labels to reference either FF5–74 or the Standard for Flammability of Children's Sleepwear (for sizes 0–6X) (FF 3–71). Another commenter suggested the use of a symbol to indicate flame retardancy.

Discussion. The Commission agrees that it should specify the wording to be used on affirmative labeling of items of sleepwear subject to the Standard and that the label statement should be concise and understandable. Therefore, the Commission proposes that items be labeled "Flame-resistant. U.S. Standard FF5–74." Items of children's sleepwear in sizes 7 through 14 that comply with the standard for Children's Sleepwear (sizes 0–6X) (FF 3–71) in addition to FF5–74 may be labeled to that effect in addition to the proposed required labeling. However, the Commission believes at this time that it would be unnecessarily confusing to allow items of sleepwear in sizes 7–14 to bear labels stating only that they are in compliance with FF3–71.

e. *Permanency of label.* Several commenters suggested that the affirmative labels need not be permanently affixed because the purpose of the labels is to identify complying goods to consumers at the point of sale. One commenter suggested that if permanent labels were required, that permanent care instructions should be allowed to be placed on the same label. Some commenters suggested that temporary labels be allowed to be stamped on the garment or item, affixed to the garment or item, stamped or affixed on the package, or contained on a hang tag. One commenter suggested the affirmative label be required to be permanently affixed to draw consumers attention to the fact other unlabeled garments are flammable. Another commenter stressed that the labels should be prominent, permanent, conspicuous, and legible.

Discussion. The Commission believes the major purposes of the affirmative labels would be to enable consumers to distinguish complying from noncomplying items of sleepwear at the point of sale. In addition the labeling would assist the Commission in its efforts to enforce compliance with the Standard. Therefore, at this time the Commission does not believe it is necessary to require that labels be permanently affixed. The Commission proposes that label statements may appear on a hang tag, on the item itself, or on the package enclosing the item as long as the statements are prominent, conspicuous, and legible and readily visible at the point of sale to the ultimate consumer. The Commission does not believe that stamping the affirmative label statement on items of sleepwear will meet these requirements. More detailed proposed requirements for the labels are contained elsewhere in the FEDERAL REGISTER today in a notice of a proposed regulation under the Standard.

f. *Preemption.* One commenter asked the Commission to rule in the preamble to the amended Standard that any affirmative labeling required by the Commission under the Standard would preempt any state requirements for different wording on affirmative labels for children's sleepwear in sizes 7 through 14.

The commenter also suggested that the Commission state that even after the labeling requirement expires, any State labeling requirement would be inconsistent with the federal flammability standard.

Discussion. This comment, in effect, seeks a Commission interpretation of the meaning of section 16 of the Flammable Fabrics Act. That section provides: "This Act is intended to supersede any law of any State or political subdivision thereof inconsistent with its provisions."

The comment is premature because in the present document the Commission is proposing an amendment rather than issuing a final amended standard for children's sleepwear in sizes 7 through 14. However, at this time, the Commission believes that if an affirmative labeling requirement is issued, the requirement would supersede any affirmative labeling requirement for children's sleepwear in sizes 7 through 14 issued by a State or political subdivision thereof.

2. *Application of the Standard.* The Standard applies to all items of children's sleepwear manufactured on or after the effective date of the Standard. In the May 1, 1974 Notice of Possible Need for Amendment, the Commission sought views on whether the term "manufacture" should be defined to clarify which items of children's sleepwear in the production/distribution chain on the effective date of the Standard must comply with the Standard. The Commission received a number of comments suggesting different definitions of the term "manufacture" for the purpose of the Standard. No commenters objected to clarifying the term.

3. *Clarification of exemption.* In the Notice of Possible Need for Amendment to the Standard, the Commission sought views on the time at which items, particularly imported items, are to be considered "in inventory or with the trade" for purposes of the Standard. The Commission also sought views on whether, or in what circumstances, the exemption should be limited. Section 4(b) of the Flammable Fabrics Act provides that items in inventory or with the trade on the effective date of the Standard are exempt from the Standard, except that the exemption may be limited or withdrawn if the Commission finds such items are so highly flammable as to be dangerous when used by consumers for the purpose for which they are intended. A number of commenters addressed the issues of clarification of the term "in inventory or with the trade" and withdrawing the exemption. No commenter objected to clarifying the term.

Discussion of 2 and 3. The Commission believes it is necessary to clarify both the definition of the term "manufacture" and the term "in inventory or with the trade" for the purposes of the Standard. However, it is not necessary to amend the Standard for this purpose because such clarification would be an interpretative rule, general statement of policy, or rule of agency procedure or practice and therefore notice of proposed rulemaking is not required under the Administrative Procedure Act (5 U.S.C. 553 (b)(3)(A)).

Therefore, for administrative expediency and to better provide notice to the public of the Commission policy, the Commission withdraws its Notice of Possible Need for Amendment of the Standard as to these two issues, and elsewhere in the FEDERAL REGISTER today the Commission publishes a policy statement clarifying the definitions of the terms "manufacture" and "in inventory or with the trade." The comments on these issues received in response to the May 1, 1974 Notice of Possible Need for Amendment are discussed in the policy statement. Although the Administrative Procedure Act does not require publication of general statements of policy or interpretive rules for comment, the Commission will consider additional comment on the policy statement.

4. *Testing exceptions.* Section .5(b) of the Standard requires that specimens from children's sleepwear items be conditioned before testing by placing them in a drying oven at 105° C. for 30 minutes. In the Notice of Possible Need, the Commission sought comment as to the feasibility and necessity for allowing exceptions to testing under oven-dry conditions, suggestions as to defining in what circumstances exceptions should be allowed, and comment as to the maximum relative humidity which should be allowed for testing under exceptions.

a. *Need for exceptions.* A number of commenters supported the need for exceptions to oven-dry conditioning. A number of commenters contended that oven-dry conditioning is inappropriate in that it does not relate to real-life situations. These arguments generally addressed two questions: (1) Do household conditions exist that would cause fabrics to reach an "oven-dry" state? and (2) What effect does the human body have on the moisture content of a garment fabric? One commenter indicated that "the home is never bone-dry! Under the most adverse outdoor conditions, the inside humidity approaches 50 percent." Another commenter stated that "relative humidities in various parts of the country are rarely below 25 percent." Several others expressed concern that theoretical extrapolations of outdoor conditions to indoor conditions by the National Bureau of Standards (NBS) may be inaccurate in that they do not take into account moisture input from human activity and home furnishings. Two commenters stated or implied that moisture from the body raises the moisture content in garments so that oven-dry conditions would be unlikely to occur. It was suggested that the Commission initiate a study to determine actual humidity conditions in homes and the moisture content of fabrics when being worn.

Discussion. A project was recently completed by NBS to determine the moisture content of garments in actual use in relation to the surrounding environment. The study included (1) determining the relative humidity garments normally encounter in the home, (2) reproducing these conditions and measuring the actual moisture content of the fabric, and (3) measuring the moisture content of

V 40 13 JAN 20 75 XUM

fabrics exposed to space heaters and open fires.

Indoor relative humidity was measured in three Washington area homes during a seven-day period between February and March, 1974. It was found that these actual measurements did not differ significantly from the theoretical values calculated for those outdoor conditions. The NBS study also cited a graphic representation of the frequency of occurrence of the hypothetical minimum indoor relative humidity for 25 major U.S. cities. This chart indicates that approximately 80 percent of the homes exhibit 40 percent RH or less during 7 months of the year and 75 percent of the homes exhibit 30 percent RH or less for 6 months. Actual measurements in homes indicated that relative humidities below 20 percent are not uncommon, especially during the heating season.

The second portion of the NBS study was devoted to measuring the surface moisture content of fabrics while being worn as compared to the relative humidity of the room. For natural fiber garments such as cotton and wool, it appeared from the data that the moisture content of close-fitting portions of a garment differ significantly from equilibrium room conditions. Loose-fitting portions, on the other hand, accurately reflect room conditions during wear. In the case of nylon and polyester garments, loose- and close-fitting configurations exhibit surface humidities close to the room conditions.

Another segment of the NBS study revealed that exposure to a commercial space heater for as little as five minutes can effectively "oven-dry" a garment. This heating can remove more moisture from flame retardant cotton and wool fabrics than the conditioning procedure of the Standard. About one-quarter of the FFACTS (Flammable Fabrics Accident Case and Testing System) apparel cases involve fabric ignitions by space heaters, gas stoves, and open fires. Since these accidents are often preceded by the victim warming himself in front of these heat sources, the conditioning requirements of the Standard do reflect real-life situations.

b. *Reasonableness of conditioning requirements.* Seven commenters supported testing exceptions for 100 percent wool and predominately wool textile products. These commenters indicated that oven-drying is an unreasonable conditioning requirement for wool because: (1) the oven-dry procedure would preclude the use of wool in children's sleepwear (sizes 7–14), (2) oven-drying removes moisture that is normally present in wool fibers, (3) wool has never been involved in a burn injury, and (4) oven-dry conditioning is unrealistic. They indicated conditioning at 65 percent RH and 70°F for 8 hours would be appropriate for wool products for several reasons: (1) the proposed standard required these conditions, (2) 65 percent RH and 70° F are standard for testing of textiles, (3) 65 percent RH, 70° F procedure gives excellent reproducibility, and (4) with today's technology, it is no problem to obtain the equipment for conditioning.

Discussion. The Commission is aware through testing in the Engineering Sciences Laboratory and at NBS that many natural wool fabrics do not meet the requirements of this Standard even if conditioned at 65 percent RH and 75°F. According to reports submitted by a wool industry representative, stabilizing treatments allow some washable wool fabrics to pass the test requirements when conditioned at relative humidities as low as 20 percent. The Commission concludes that wool fabrics are no different from others in that they require a flame retardant treatment in order to pass the vertical flammability test. The FFACTS contains eight cases of burn injuries involving wool and wool blend fabrics which make it clear that such injuries do occur. Just as 65 percent RH, 70°F is standard for some textile testing, so is oven drying a standard and reproducible procedure for determining moisture regain of textile materials.

One commenter representing cotton producers stated that FF 5–74 conditioning requirements are overly severe for cotton; that the oven-drying requirement is not representative of real life situations; and that it increases the cost of cotton products by requiring overtreatment. To take into consideration the high moisture regain of cotton, the cotton producers suggested amendment of FF 5–74 to allow testing of all fibers at 65 percent relative humidity or possibly 50 percent.

As previously stated, the Commission believes that oven-dry conditioning is representative of real-life conditions. In view of this, the Commission believes that testing exceptions for wool, cotton, and other fibers should not be allowed.

Further information regarding the studies mentioned in this Notice is available from the Office of the Secretary of the Commission.

On the basis of the foregoing, the Commission withdraws the Notice of Possible Need for Amendment as to the issue of testing exceptions and does not propose an amendment to the Standard on this issue.

5. *Other Topics.* (a) One commenter expressed concern that the word polymer had been added in paragraph .4(a) (4) of the Proposed and Final Standards. The Commission intended that production units of fabric dependent on chemical reactants to polymer, fiber, yarns, or fabrics should be tested after 50 launderings as required in FF 5–74. The Commission does not have the assurance that chemical reactants to polymers will remain effective through the lifetime of a garment.

(b) Another submission requested exempting close-fitting sleepwear, such as pajamas, from the requirements of FF 5–74. Data from accident cases show that a large number of burn injuries to children are caused by the ignition of pajamas. The data also shows that children encounter the same ignition sources regardless of whether their sleepwear is "close-fitting" like pajamas or "loose-fitting" like nightgowns. In view of the fact that pajamas do burn and are capable of causing burn injuries, the Commission has decided not to accept the exempting of close-fitting sleepwear such as pajamas from the Standard.

(c) One commenter representing Linen supply companies asked whether it may rent its inventories of noncomplying items of children's sleepwear in sizes 7 through 14 after the effective date of the Standard. Although the Commission is concerned that such action could endanger consumers, and urges companies not to rent noncomplying items, such rental of noncomplying items does not appear to violate the Flammable Fabrics Act.

(d) A number of commenters raised issues outside this proceeding. These issues include suggestions for amendment to the Standard for Flammability of Children's Sleepwear for sizes 0–6X (DOC FF 3–71), suggested provisions for rules and regulations under FF 5–74, and a recommendation that the Commission amend the procedure for issuing standards under the Flammable Fabrics Act. One commenter stated that consumers have difficulty in caring for garments that meet the Standard DOC FF 3–71 and suggested the Commission urge industry to develop flame retardant fabric that is safe, practical, and reasonably priced. Two commenters suggested that FF 5–74 apply to all clothing items.

The Commission believes it is inappropriate to address these issues in this proceeding.

Conclusion. The Consumer Product Safety Commission preliminarily finds that the following amendment to the Standard for the Flammability of Children's Sleepwear, sizes 7 through 14 (FF 5–74) is:

1. Needed for children's sleepwear in sizes 7 through 14 to adequately protect the public against unreasonable risk of the occurrence of fire leading to death, personal injury, or significant property damage; and

2. Reasonable, technologically practicable and appropriate, and stated in objective terms; and

3. Limited to items of children's sleepwear in sizes 7 through 14 which currently present unreasonable risks of the occurrence of fire leading to death, personal injury, or significant property damage.

Therefore, pursuant to provisions of the Flammable Fabrics Act (sec. 4, 67 Stat. 112, as amended 81 Stat. 569–70, 15 U.S.C. 1193) and under authority vested in the Consumer Product Safety Commission by the Consumer Product Safety Act (sec. 30(b), 86 Stat. 1231; 15 U.S.C. 2079(b)), the following amendment is proposed to the Standard for the Flammability of Children's Sleepwear; sizes 7 through 14 (FF 5–74), (39 FR 15214). If finalized, the Commission intends that the amendment would become effective on the effective date of the Standard, May 1, 1975.

The provision of Section .6 of the Standard appearing after the title

thereof, Labeling requirements, is designated as paragraph (a).

A new paragraph is added to section .6, paragraph (b), to read as follows:

(b) All items of children's sleepwear complying with this Standard and manufactured on or after May 1, 1975 through May 1, 1978, shall bear the following label: "Flame-resistant. U.S. Standard FF 5–74." The label must be prominent, conspicuous, and legible and readily visible at the point of sale to ultimate consumers. The label statement may be attached to the item itself, on a hang tag attached to the item, or on a package enclosing the item. The label need not be affixed permanently.

Interested persons are invited to submit on or before February 19, 1975, written comments regarding these proposed amendments. Comments received after that date will not be considered. Comments and any accompanying material should be submitted, preferably in five copies, to the Secretary, Consumer Product Safety Commission, Washington, D.C. 20207. Received comments may be seen in the Office of the Secretary, Room 1025, 1750 K Street, NW, Washington, D.C., during working hours, Monday through Friday.

Dated: January 14, 1975.

SADYE E. DUNN,
Secretary,
Consumer Product Safety Commission.

[FR Doc.75–1626 Filed 1–17–75;8:45 am]

[16 CFR Part 302]

CHILDREN'S SLEEPWEAR, SIZES 7 THROUGH 14

Proposed Labeling, Recordkeeping, and Other Requirements Under Standard FF 5–74

In this document, the Consumer Product Safety Commission proposes to issue a regulation (16 CFR 302.21) under the Standard for the Flammability of Children's Sleepwear; sizes 7 through 14 (FF 5–74) (39 FR 15214). The proposed regulation would set requirements for:

1. Labeling of items subject to the Standard;

2. Displaying of items of children's sleepwear in sizes 7 through 14 when those items are offered for sale to consumers in retail establishments;

3. Recordkeeping by persons who market or handle items of children's sleepwear subject to the Standard; and

4. Testing for guaranty purposes under the Standard.

The proposed regulation and the Standard for the Flammability of Children's Sleepwear; sizes 7 through 14 are issued under the Flammable Fabrics Act (15 U.S.C. 1191 et seq.). Functions under that Act were transferred to the Consumer Product Safety Commission effective May 14, 1973 by section 30(b) of the Consumer Product Safety Act (15 U.S.C. 2079(b)). Section 5 of the Flammable Fabrics Act authorizes this Commission to promulgate regulations for the enforcement and administration of the Flammable Fabrics Act.

The Standard FF 5–74 requires that all items of children's sleepwear in sizes 7 through 14 manufactured on or after May 1, 1975 comply with the Standard. The Commission intends that a final regulation issued under this Standard will become final on May 1, 1975, the effective date of the Standard.

The Commission administers, in addition to FF 5–74, the Standard for the Flammability of Children's Sleepwear for sizes 0–6X (DOC FF 3–71) (37 FR 14625, July 21, 1972), and the regulation issued thereunder (16 CFR 302.19; 39 FR 4852; February 7, 1974). The Commission also proposed an additional regulation under DOC FF 3–71 in the FEDERAL REGISTER of February 7, 1974 (39 FR 4855).

The regulation proposed in this document for children's sleepwear in sizes 7 through 14 is similar to the regulation and proposed amended regulation under the Standard for children's sleepwear in sizes 0 through 6X (DOC FF 3–71).

Paragraph .6 of the Standard for sizes 7 through 14 (FF 5–74) states that the Commission may establish rules and regulations governing the labeling of items subject to the Standard. The provisions of the proposed regulations which establish labeling requirements appear in § 302.21(b).

Elsewhere in the FEDERAL REGISTER today the Commission proposes to amend the Standard for sizes 7 through 14 to require that sleepwear subject to the Standard manufactured on or after May 1, 1975 through May 1, 1978 be affirmatively labeled to indicate compliance with the Standard. The proposed regulation published below at § 302.21(b)(8) would set requirements for items subject to the proposed amendment to the Standard. Neither the Standard for sizes 0 through 6X (DOC FF 3–71) nor the regulations under that Standard contain a provision of this kind.

The Standard applies to all items of children's sleepwear in sizes 7 through 14 manufactured on or after May 1, 1975. Experience with the flammability standard for children's sleepwear in sizes 0–6X indicates to the Commission that for some period of time after the effective date of FF 5–74 retail stores may continue to sell exempt items of children's sleepwear in sizes 7 through 14 which do not comply with the Standard, and at the same time begin to sell items which do comply with the Standard. Provisions of § 302.21(c) of the proposed regulation are intended to help consumers distinguish those items of children's sleepwear in sizes 7 through 14 which comply with the Standard from those which do not. This paragraph requires dealers who offer noncomplying items of children's sleepwear in sizes 7 through 14 for sale to consumers in retail establishments to segregate those items of children's sleepwear which comply with the Standard from those which do not, and to post clear and conspicuous signs at the location of the merchandise to identify displays of complying and noncomplying items of children's sleepwear in sizes 7 through 14.

Paragraph .4 of the Standard sets sampling and acceptance procedures and paragraph .5 of the Standard sets test procedures to be followed by those subject to the Standard. The purpose of § 302.21(d) of the proposed regulation is to establish recordkeeping requirements for manufacturers, importers, or other persons initially introducing items subject to the Standard into commerce. Generally, the regulation requires that the records establish a line of continuity through the process of manufacture of each production unit of items subject to the Standard to the sale and delivery of the finished items, and from the specific finished items back to the manufacturing records.

Provisions of proposed § 302.21(d)(1) set forth general requirements for records which must be maintained for both fabric production units and garment production units. Provisions of proposed § 302.21(d)(2) contain additional recordkeeping requirements applicable only to fabric production units; and proposed §§ 302.21(d)(3) and (4) contain additional recordkeeping requirements applicable only to garment production units.

The records required for every production unit must relate that unit to a production unit identification number, letter or date, which is required to be placed on a permanent, accessible and legible label on all items in that production unit in accordance with the provisions of § 302.21(b)(7) of the proposed regulation.

Provisions of proposed § 302.21(e) prescribe recordkeeping requirements for persons subject to the Flammable Fabrics Act who market or handle items subject to the Standard but who do not initially introduce those items into commerce. Those persons would be required to maintain records for a period of three years to: (1) identify the items marketed or handled; (2) identify the source of those items; (3) establish the date those items were received; (4) identify the purchaser of those items, except ultimate retail purchaser; and (5) establish the date of sale to ultimate retail purchasers, except the date of sale to ultimate retail purchasers.

Provisions of § 302.21(f) of the proposed regulation prescribe the testing which is required for issuing guaranties for items subject to the Standard under section 8 of the Flammable Fabrics Act.

Proposed § 302.21(g) provides that persons subject to the Standard must comply with the regulation at § 302.21.

Pursuant to provisions of the Flammable Fabrics Act (section 5, 67 Stat. 112–13, as amended 81 Stat. 571; 15 U.S.C. 1194) and under authority vested in the Consumer Product Safety Commission by the Consumer Product Safety Act (Pub. L. 92–573, section 30(b), 86 Stat. 1231; 15 U.S.C. 2079(b)), the Commission proposes to issue 16 CFR 302.21 as follows:

§ 302.21 Children's sleepwear sizes 7 through 14 labeling, recordkeeping, retail display, and guaranties under FF 5–74.

(a) *Definitions.* For the purpose of this section, the following definitions apply:

(1) "Standard" means the "Standard for the Flammability of Children's Sleepwear; Sizes 7 through 14 (FF 5–74)," promulgated by the Consumer

V40113 JAN20 75 XUM

Product Safety Commission in the FEDERAL REGISTER of May 1, 1974 (39 FR 15214).

(2) "Children's sleepwear" means "children's sleepwear" as defined in .2(a) of the Standard, that is, "any product of wearing apparel size 7 through 14, such as nightgowns, pajamas, or similar or related items, such as robes, intended to be worn primarily for sleeping or activities related to sleeping. Underwear and diapers are excluded from this definition."

(3) "Item" means "item" as defined in .2(c) of the Standard, that is, "any product of children's sleepwear or any fabric or related material intended or promoted for use in children's sleepwear."

(4) "Market or handle" means any one or more of the transactions set forth in Section 3 of the Flammable Fabrics Act (15 U.S.C. 1192).

(5) The definition of terms set forth in .2 of the Standard shall also apply to this section.

(b) *Labeling.* (1) Where any agent or treatment is known to cause deterioration of flame resistance or otherwise causes an item to be less flame resistant, such item shall be prominently, permanently, conspicuously, and legibly labeled with precautionary care and treatment instructions to protect the item from such agent or treatment.

(2) If the item has been initially tested under .5(c)(4) of the Standard after one washing and drying, it shall be prominently, permanently, conspicuously and legibly labeled with instructions to wash before wearing.

(3) Where any fabric or related material intended or promoted for use in children's sleepwear subject to the Standard is sold or intended for sale to the ultimate consumer for the purpose of conversion into children's sleepwear, each bolt, roll, or other units shall be labeled with the information required by this section. Each item of fabric or related material sold to an ultimate consumer must be accompanied by a label, as prescribed by this section, which can by normal household methods be permanently affixed by the ultimate consumer to any item of children's sleepwear made from such fabric or related material.

(4) Where items required to be labeled or stamped in accordance with the paragraphs (b)(1), (b)(2), (b)(3), and (b)(7), of this section are marketed at retail in packages, and the required label or stamp is not readily visible to prospective purchasers, the packages must also be prominently, conspicuously, and legibly labeled with the required information.

(5) Samples, swatches, or specimens used to promote or effect the sale of items subject to the Standard shall be labeled in accordance with this section with information required by this section: except that such information may appear on accompanying promotional materials attached to fabric samples, swatches, or specimens used to promote the sale of fabrics to garment manufacturers. This requirement shall not apply, however, to samples, swatches, or specimens prominently, permanently, conspicuously, truthfully and legibly labeled: "Flammable. Sample only. Not for use or resale. Does not meet Standard for the Flammability of Children's Sleepwear; Sizes 7 through 14 (FF5–74)."

(6) The information required on labels by this section shall be set forth separately from any other information appearing on the same label. Other information, representations, or disclosures not required by this section but placed on the same label with information required by this section, or placed on other labels elsewhere on the item, shall not interfere with the information required by this section. No person, other than the ultimate consumer, shall remove, mutilate, or cause or participate in the removal or mutilation of any label required by this section to be affixed to any item.

(7) Every manufacturer, importer, or other person (such as converter) initially introducing items subject to the Standard into commerce shall assign to each item a unit identification (number, letter or date, or combination thereof) sufficient to identify and relate to the fabric production unit or garment production unit of which the item is a part. Such unit identification shall be designated in such a way as to indicate that it is a production unit identification under the Standard. The letters "GPU" and "FPU" may be used to designate a garment production unit identification and fabric production unit identification, respectively, at the option of the labeler.

(i) Each garment subject to the Standard shall bear a label with minimum dimensions of 1.3 centimeters (0.5 inch) by 1.9 centimeters (0.75 inch) containing the appropriate garment production unit identification for that garment in letters at least 0.4 centimeter (one-sixth of an inch) in height and in a color which contrasts with the background of the label, or shall have such information clearly, conspicuously, and legibly stamped on the garment itself in letters at least 0.4 centimeters (one-sixth of an inch) in height, in a color which contrasts with the background, and at least 2.54 centimeters (1 inch) in every direction from any other information. The stamp or label containing the garment production unit identification must be of such construction, and affixed to the garment in such a manner, as to remain on or attached to the garment and legible and visible at the point of sale and throughout its intended period of use.

(ii) The fabric production unit identification shall appear in letters at least 0.4 centimeters (one-sixth of an inch) in height against a contrasting background on each label that relates to such fabric and is required by the Textile Fiber Products Identification Act (15 U.S.C. 70–70k) and the regulations thereunder (16 CFR 303.1 through 303.45) or by the Wool Products Labeling Act of 1939 (15 U.S.C. 68–68j) and the regulations thereunder (16 CFR 300.1 through 300.36). When the information required by the Textile Fiber Products Identification Act or by the Wool Products Labeling Act of 1939 appears on an invoice used in lieu of labeling, the fabric production unit identification required by this section may be placed clearly, conspicuously, and legibly on the same invoice in lieu of labeling.

(8) All items complying with Standard and manufactured on or after May 1, 1975, through May 1, 1978, shall bear the following label: "Flame-resistant. U.S. Standard FF 5–74." The label must be prominent, conspicuous, and legible and readily visible at the point of sale to ultimate consumers. The label statement may be attached to the item itself, on a hang tag attached to the item, or on a package enclosing the item. The label need not be affixed permanently. The letters of the label must be at least 0.4 centimeters (one-sixth of an inch) in height and in a color which contrasts with the background of the label.

(c) *Segregation of complying and noncomplying items by retailer.* Every person who sells non-complying items (as defined in paragraph .2(c) of the Standard and § 302.21(a)(3) of this section) at retail stores or other establishments open to the general public where goods are offered for sale shall:

(1) Display the items which comply with the Standard, and for which the seller has documentary evidence of such compliance, so that no other merchandise is intermingled with those items; and identify such complying items with at least one sign, with black letters at least 2.5 centimeters (one inch) in height against a solid white background, bearing the statement "Flame resistant. Complies with the Standard for the Flammability of Children's Sleepwear (FF 5–74)."

(2) Display all other items of children's sleepwear, sizes 7 through 14, at a separate location within the store and identify those items with at least one sign, with black letters at least 2.5 centimeters (1 inch) in height against a solid white background, bearing the statement "Flammable. Does Not Meet Standard for the Flammability of Children's Sleepwear (FF 5–74)."

(3) Segregate those items of children's sleepwear, sizes 7 through 14, which comply with the Standard, and for which the seller has documentary evidence of such compliance, so that they shall not be located within 91 centimeters (36 inches) of any other items of children's sleepwear, sizes 7 through 14, when displayed for sale to consumers.

(d) *Records—manufacturers, importers, or other persons initially introducing items into commerce.*—(1) *General.* Every manufacturer, importer, or other person (such as a converter) initially introducing into commerce items subject to the Standard, irrespective of whether guaranties are issued under paragraph (f) of this section, shall maintain written and physical records as hereinafter specified. The records required must establish a line of continuity through the process of manufacture of each production unit of articles of children's sleepwear, or fabrics or related materials intended or promoted for use in children's sleepwear, to the sale and delivery of the finished items and from the specific finished item to the manufacturing records. Such records shall show with respect to such items:

(i) Details, description and identification of any and all sampling plans engaged in pursuant to the requirements of the Standard. Such records must be sufficient to demonstrate compliance with such sampling plan(s) and must relate the sampling plan(s) to the actual items produced, marketed, or handled. This requirement is not limited by other provisions of this paragraph (d).

(ii) Garment production units or fabric production units of all garments or fabrics marketed or handled. The records must relate to an appropriate production unit identification on or affixed to the item itself in accordance with paragraph (b)(7) of this section, and the production unit identification must relate to the garment production unit or fabric production unit.

(iii) Test results and details of all tests performed both prototype and production, including char lengths of the samples required to be tested, details of the sampling procedure employed, name and signature of person conducting tests, date of tests, and all other records necessary to demonstrate compliance with the test procedures and sampling plan specified by the Standard or authorized alternate sampling plan.

(iv) Disposition of all failing or rejected items. Such records must demonstrate that the items were retested or reworked and retested in accordance with the Standard prior to sale or distribution and that such retested or reworked and retested items comply with the Standard, or otherwise show the disposition of such items.

(v) Fiber content and manufacturing specifications relating the same to prototype and production testing and to the production units to which applicable.

(vi) Data and test results relied on as a basis for inclusion of different colors or different print patterns of the same fabric as a single fabric or garment production unit under .4(a)(2) of the Standard.

(vii) Data and test results relied on as a basis for reduced laundering of fabric or garments during test procedures under .5(c)(4) of the Standard and any guarantees issued or received relating to laundering as well as details of the laundering procedure utilized.

(viii) Identification, composition, and details of application of any flame retardant treatments employed. All prototype and production records shall relate to such information.

(ix) Date and quantity of each sale or delivery of items subject to the Standard and the name and address of the purchaser or recipient relating such sale to the production unit or other unit identification.

(2) *Fabrics.* In addition to the information specified in paragraph (d)(1) of this section, the written and physical records maintained with respect to each fabric production unit shall include (i) finished fabric samples sufficient to repeat the fabric sampling procedure required by .4 of the Standard for each production unit marketed or handled; and (ii) records to relate the samples to the actual fabric production unit. Upon written request of any duly authorized employee or agent of the Commission, samples sufficient for the sampling and testing of any production unit in accordance with the Standard shall be furnished from these records within the time specified in the written request.

(3) *Garments—prototype testing.* In addition to the records specified in paragraph (d)(1) of this section, the following written and physical records shall be maintained with respect to the garment prototype testing required by the Standard:

(i) Specification; fiber content, and details of construction on all seams, fabrics, threads, stitches, and trims used in each garment style or type upon which prototype testing was performed, relating the same to such garment style or type and to all production units to which such prototype testing is applicable.

(ii) Samples sufficient to repeat the prototype tests required by .4 of the Standard for all fabrics, seams, threads, stitches, and trims used in such prototype testing, relating such samples to the records required by this paragraph (d), including the information required by paragraph (d)(3)(i) of this section. Upon the written request of any duly authorized employee or agent of the Commission, samples sufficient for the testing of any prototype specimens identical to those specimens that were actually tested pursuant to the Standard shall be furnished from these records within the time specified in the written request.

(iii) A complete untested garment from each style or type of garment marketed or handled.

(iv) Remains of all physical specimens tested in accordance with the prototype testing required by .4 of the Standard, relating such samples to the records required by this paragraph (d), including information required by paragraph (d)(3)(i) of this section.

(4) *Garments—production testing.* In addition to the records required by paragraph (d)(1) of this section, written and physical records shall be maintained and shall show with respect to each garment production unit:

(i) Source and fabric production unit identification of all fabrics subject to testing used in each garment production unit.

(ii) Identification and appropriate reference to all prototype records and prototype tests applicable to each production unit.

(iii) Any guaranty relied upon to demonstrate that the fabric utilized in such garments meets the laundering requirements of the Standard.

(iv) Data sufficient to show that tested samples were selected from the production unit at random from regular production.

(v) Written data that will enable the Commission to obtain and test garments under any applicable compliance market sampling plan.

(5) *Record retention requirements.* The records required by this paragraph (d) shall be maintained for 3 years, except that records relating to prototype testing shall be maintained for so long as they are relied upon as demonstrating compliance with the prototype testing requirements of the Standard and shall be retained for 3 years thereafter.

(e) *Records—persons not subject to paragraph (d) of this section.* Any person not subject to paragraph (d) of this section who markets or handles items subject to the Standard shall keep and maintain for 3 years records to show the source, date of receipt, and identity of items marketed or handled; the identity of purchasers (other than ultimate retail purchasers); and the date of sale (other than the date of sale to ultimate retail purchasers).

(f) *Tests for guaranty purposes.* Reasonable and representative tests for the purpose of issuing a guaranty under section 8 of the Flammable Fabrics Act (15 U.S.C. 1197) for items subject to the Standard shall be those tests performed pursuant to any sampling plan or authorized alternative sampling plan engaged in pursuant to the requirements of the Standard.

(g) *Compliance with this section.* No person subject to the Flammable Fabrics Act shall manufacture, import, distribute, or otherwise market or handle any item subject to the Standard, including samples, swatches, or specimens used to promote or effect the sale thereof, which is not in compliance with this section 302.21.

(section 5, 67 Stat. 11–13, as amended 81 Stat. 571; 15 U.S.C. 1194)

Interested persons are invited to submit on or before February 19, 1975, written comments regarding the matters proposed herein. Comment received after this date will not be considered. Comments and any accompanying material should be submitted, preferably in five copies, to the Secretary, Consumer Product Safety Commission, Washington, D.C. 20207. Received comments may be seen in the Office of the Secretary, Room 1025, 1750 K Street, NW, Washington, D.C., during working hours, Monday through Friday.

Dated: January 14, 1975.

SADYE E. DUNN,
Secretary, Consumer Product Safety Commission.

V 4 0 1 3 JAN 20 75 XUM

CONSUMER PRODUCT SAFETY COMMISSION

CHILDREN'S SLEEPWEAR; SIZES 7 THROUGH 14 (FF 5–74)

Policy Statement and Solicitation of Comments

The purpose of this notice is to announce and invite comment on a two part policy statement, regarding the applicability of the Standard for the Flammability of Children's Sleepwear; Sizes 7 through 14 (FF 5–74). The Standard was issued by the Consumer Product Safety Commission on May 1, 1974 (39 FR 15210) under the Flammable Fabrics Act (15 U.S.C. 1191 et seq.). on May 1, 1975 and applies to children's sleepwear. It becomes effective garments in sizes 7 through 14 and to fabric or related material intended or promoted for use in such children's sleepwear.

In the FEDERAL REGISTER of May 1, 1974, the Commission issued a Notice of Finding of Possible Need for Amendment to the Standard in four different respects (39 FR 15228). Elsewhere in the FEDERAL REGISTER today, the Commission proposes an amendment to the Standard, and withdraws the Notice of Possible Need for Amendment as to three of the items mentioned in the Notice.

The Commission has determined that two of the possible amendments mentioned in the May 1, 1974 Notice should be treated as policy statements rather than as amendments to the Standard. In this Notice, the Commission discusses the comments on these two possible amendments received in response to the May 1, 1974 Notice of Possible Need for Amendment, states the Commission policy on these issues, and invites further comment on the policy.

1. *Application of the Standard.* The Standard applies to all items of children's sleepwear in sizes 7 through 14 manufactured on or after May 1, 1975, the effective date of the Standard. In the May 1, 1974 Notice, the Commission stated it believed that the term "manufacture" should be defined to clarify which items of children's sleepwear in the production/distribution chain on the effective date of the Standard must comply with the Standard, so that all affected parties will know which items are subject to the Standard. Comment was invited on the necessity for clarification and suggested definitions were sought.

Comments. Eight commenters presented views on this issue. No commenter objected to clarifying the term "manufacture." One commenter stated that retailers consider manufacture to end with the completion of the last productive act on the article and that therefore storing, packing, and preparing goods for distribution and sale are not part of the manufacturing process.

Other commenters suggested the Commission focus on the beginning rather than the end of the manufacturing process because when fabric is cut, materials have been committed to the manufacture of children's sleepwear. Therefore, these commenters suggested that the Standard should be applicable to all items of sleepwear for which the manufacturing process begins after the Standard's effective date and manufacture should be defined as beginning when the fabric is cut to make garments. Another commenter agreed that the manufacturing process begins with cutting fabric and stated the process ends with placing garments in a warehouse for shipping.

One commenter assumed definition of the term "manufacture" would apply only to garments and not to fabric intended or promoted for use in children's sleepwear.

One commenter stated the term "manufacture" should be defined to include as many garments as possible within the protective framework of the Standard and that therefore the end of the manufacturing process should be defined at as late a time as is reasonably supportable. Another commenter suggested that a garment must be constructed, labeled, and packaged in a form suitable for immediate delivery to the seller of the goods before May 1, 1975 in order to be outside the scope of the Standard. This commenter stated that this definition would not preclude a retailer from being able to affix promotion and price labeling or to repackage individual items of sleepwear after the effective date of the Standard. However, the commenter stated that the addition of buttons or other functional materials, the assembly of cut pieces of sleepwear, or the packaging for commercial shipping should be considered part of the manufacturing process.

Discussion. The Commission believes the term "manufacture" must be defined as to both garments and fabric intended or promoted for use in children's sleepwear in sizes 7 through 14 to avoid any questions as to which items must comply with the Standard. The term "manufacture" must be defined in a manner consistent with the generally understood meaning of the term and in a manner that allows the Standard to be effectively enforced.

The term manufacture is generally understood to encompass the process of producing a final object or assembling materials into a final form. Therefore, the Commission believes that for the purposes of the Standard the manufacturing process ends when an item has been completely assembled, when all permanently affixed labels have been attached, and when all functional materials have been affixed. Until these actions have been completed, an item of children's sleepwear will not be deemed to have been "manufactured."

The Commission believes the operative time in the manufacturing process for the purposes of determining which items are covered by the Standard is the end of the manufacturing process.

The Standard was issued on May 1, 1974 but it will not go into effect until May 1, 1975. Therefore, there is a one year period for manufacturers and others subject to the Standard to come into compliance. The Commission believes that this time period will be sufficient for planning purposes and that it would not serve the public interest to allow manufactures to complete the manufacturing process for noncomplying sleepwear in sizes 7 through 14 after the effective date of the Standard. Therefore, the Commission will define the term as of the end of the manufacturing process of both garments and fabric.

The Commission does not believe that the packaging of items or their labeling with temporary hang tags or other sales or promotional materials come within the definition of the term "manufacture," because these actions are not an integral part of the manufacturing process.

Policy. It is the policy of the Commission that all items of children's sleepwear in sizes 7 through 14 (including garments and fabric intended or promoted for use in such children's sleepwear) are subject to the Standard FF 5–74 unless the manufacturing process has ended before May 1, 1975. The manufacturing process is deemed to end, for the purposes of the Standard, at the time the item is completely assembled, all functional materials have been affixed, and labeling of a permanent nature has been stamped, sewn, or otherwise permanently affixed to the item. Affixing of temporary price or promotional information or the packaging of items of sleepwear (including garments and fabrics intended or promoted for use in such sleepwear) does not affect the date on which the manufacturing process is deemed to end.

2. *Clarification of Exemption.* Section 4(b) of the Flammable Fabrics Act provides that products, fabrics, or related materials subject to a Standard, which are "in inventory or with the trade" on the effective date of the Standard, are exempt from the Standard, except that the exemption may be limited or withdrawn if the Commission finds that any such items are so highly flammable as to be dangerous when used by consumers for the purpose for which they are intended. In the May 1, 1974 Notice of Possible Need for Amendment to the Standard, the Commission sought views as to the time items, particularly imported items, are to be considered "in inventory or with the trade." The Commission also sought views as to whether or in what circumstances, the exemption should be limited.

Comments. Nine commenters addressed this issue. One commenter stated that goods are "in inventory or with the trade" when the manufacturer has completed the final production process. Thus, goods being stored, packaged, or prepared for shipment or distribution by a manufacturer, importer, or someone else would be "in inventory or with the trade." Other commenters stated that goods manufactured outside the United States are "in inventory or with the trade" when they have cleared customs, or when they have entered this country for consumption under the customs regulations. Others said that goods should be considered in inventory when they are delivered to the ship or other carrier by the foreign manufacturer, since that is

the time when the American company gains possession of the goods, and this time is easily documented.

One commenter stated imported items should be considered in inventory when they are shipped from the original FOB point. Another commenter stated the time should be when the garments are manufactured or ordered, whichever is earlier since at each of these times the manufacturer cannot reasonably change the flame retardant characteristics of the items.

Two commenters suggested withdrawing the exemption for items "in inventory or with the trade," on the ground that the Commission's findings in issuing the Standard on May 1, 1974 provide a basis for withdrawing the exemption. These commenters state that most manufacturers are now able to comply with the Standard and that no producer would be caught by surprise with noncomplying goods if such action were taken because there has been a one year lead time before the effective date of the Standard.

One commenter believes the exemption should apply only to items in the inventory of retailers or wholesalers, to protect wholesalers and retailers from hardship over which they may have little control. The commenter stated that manufacturers do not fall within the exemption because they are protected by provisions of the Flammable Fabrics Act which provide a one year hiatus before the effective date of a Standard and because a manufacturer has more control over its inventory than a retailer or distributor. This commenter also stated that section 9 of the Flammable Fabrics Act precludes importation of goods that do not comply with a standard in effect on the date of entry of the merchandise and therefore suggests that imported goods with an entry date on or after May 1, 1975 be excluded from the United States if they do not comply with the Standard FF 5–74.

One commenter suggested that the Commission take action under section 30(d) of the Consumer Product Safety Act to apply the provisions of section 9(d)(2) of that Act to items subject to FF 5–74. Section 9(d)(2) of that Act allows the Commission by rule to "prohibit a manufacturer of a consumer product from stockpiling any product to which a consumer product safety rule applies, so as to prevent such manufacturer from circumventing the purpose of such consumer product safety rule."

Discussion. The Commission has decided not to withdraw the exemption for items "in inventory or with the trade" on the effective date of the Standard because the Commission believes it may be unfair to manufacturers, distributors, retailers, and others who are marketing or handling noncomplying items manufactured in good faith prior to the effective date of the Standard. Moreover, the Commission does not believe it is necessary for the protection of consumers to withdraw the exemption for items subject to the Standard that are "in inventory or with the trade" on the effective date of the Standard. If the Commission amends the Standard to require affirmative labeling of complying items for three years after the Standard's effective date, consumers will be able to distinguish complying from noncomplying items of children's sleepwear. Proposed regulations under the Standard published elsewhere in the FEDERAL REGISTER today would require segregation of complying and noncomplying items at the point of sale to consumers.

In addition, for the foregoing reasons and because it is not clear that those subject to the Standard will be engaged in stockpiling children's sleepwear in sizes 7 through 14, the Commission declines to reach the issue of whether it can or should take action under section 30(d) of the Consumer Product Safety Act to apply the anti-stockpiling provisions of section 9(d)(2) of that Act to items subject to the Standard.

The Commission believes, as to domestically manufactured items, that they are "in inventory or with the trade" on the effective date of the Standard and thus subject to the exemption if they have been manufactured before May 1, 1975.

The definition of the term "manufacture" and the reasoning behind the definition are set forth in the previous section of this policy statement. The Commission has found no support in section 4(b) of the Flammable Fabrics Act or the legislative history of the Act for the contention that the exemption for items "in inventory or with the trade" is unavailable to manufacturers, and the Commission believes it may be unfair to prevent manufacturers from selling noncomplying items manufactured in good faith before the effective date of the Standard.

As to imported items, the Commission believes that section 9 of the Flammable Fabrics Act clearly requires that an imported item that fails to meet a Standard in effect on the date of entry of the item should not be allowed admission into the United States. The Commission recognizes that its policy as to imported goods must be somewhat different than the policy for domestically manufactured goods because the Commission's compliance staff is less able to verify the date manufacture of foreign-made goods has been completed. It is the Commission's policy that domestic manufacturers and importers must be subject to the same or similar requirements wherever possible under the laws the Commission administers. Thus, both foreign and domestically made goods must have been "manufactured" prior to May 1, 1975 to be considered "in inventory or with the trade" on the effective date of the Standard.

The Commission believes the exemption in section 4 of the Flammable Fabrics Act for items "in inventory or with the trade" on the effective date of the Standard was intended to apply to items in the United States, because the purpose of the Act is to protect consumers in the United States. This interpretation is consistent with section 9 of the Act. In addition, the Commission believes that there will have been sufficient lead time for compliance with the Standard when the Standard becomes effective on May 1, 1975. Therefore, the Commission believes that imported items should be considered "in inventory or with the trade" on the date the goods have been entered into the United States.

Policy. All items of children's sleepwear in sizes 7 through 14 (including garments and fabric intended or promoted for use in such children's sleepwear) which are in inventory or with the trade on the effective date of Standard FF 5–74 are exempt from the requirements of the Standard. For domestically made items of children sleepwear in sizes 7 through 14 to be considered "in inventory or with the trade" on the effective date of the Standard, the manufacturing process must have ended prior to May 1, 1975. For foreign-made items of children's sleepwear in sizes 7 through 14 to be considered "in inventory or with the trade" on the effective date of the Standard, the manufacturing process must have ended and the goods must have been entered into the United States before May 1, 1975.

Solicitation of Comments. This policy statement reflects the Commission's views as to two aspects of enforcement of the Standard for the Flammability of Children's Sleepwear, sizes 7 through 14. This matter is considered a general statement of policy, interpretative rule, or rule of agency procedure or practice and therefore exempt from the notice and public procedure provisions of 5 U.S.C. 553 (Administrative Procedure Act). However, the Commission has decided to allow public comment on the policy.

Therefore interested persons are invited to submit, on or before, February 19, 1975, written comments regarding the proposal. Comments received after that date will not be considered. Comments and any accompanying material should be submitted, preferably in five copies, addressed to the Secretary, Consumer Product Safety Commission, Washington, D.C. 20207. Received comments may be seen in the Office of the Secretary, Room 1025, 1750 K Street, NW, Washington, D.C. during normal working hours.

Dated: January 14, 1975.

SADYE E. DUNN,
Secretary, Consumer Product Safety Commission.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION

PART 213—EXCEPTED SERVICE

Department of the Treasury

Section 213.3305 is amended to show that the position of Adviser to the Secretary (Counselor to the Chairman, Economic Policy Board) is excepted under Schedule C.

Effective January 21, 1975, § 213.3305 (a) (59) is added as set out below.

§ 213.3305 Treasury Department.

(a) *Office of the Secretary.*

• • • • • •

(59) Adviser to the Secretary (Counselor to the Chairman, Economic Policy Board).

(5 U.S.C. 3301, 3302, E.O. 10577; 3 CFR 1954–58 Comp., p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,
JAMES C. SPRY,
Executive Assistant to the Commissioners.

Title 7—Agriculture

SUBTITLE A—OFFICE OF THE SECRETARY OF AGRICULTURE

PART 2—DELEGATIONS OF AUTHORITY BY THE SECRETARY OF AGRICULTURE AND GENERAL OFFICERS OF THE DEPARTMENT

Subpart H—Delegations of Authority by the Assistant Secretary for International Affairs and Commodity Programs

MANAGEMENT OF USDA ENERGY RESOURCES

Section 2.65, Title 7, Code of Federal Regulations is amended to revise the delegations of authority to the Administrator, Agricultural Stabilization and Conservation Service regarding energy management activities.

1. Section 2.65 is amended by adding new paragraph (a) (32) to read as follows:

§ 2.65 Administrator, Agricultural Stabilization and Conservation Service.

(a) • • •

(32) Administer energy management activities related to people and organizations served by the Department. Maintain liaison with other Government agencies in these matters.

Effective Date: This amendment shall become effective January 21, 1975.

Dated: January 16, 1975.

CLAYTON YEUTTER,
Assistant Secretary.

[FR Doc.75–1908 Filed 1–20–75;8:45 am]

PART 2—DELEGATIONS OF AUTHORITY BY THE SECRETARY OF AGRICULTURE AND GENERAL OFFICERS OF THE DEPARTMENT

Subpart J—Delegations of Authority by the Assistant Secretary for Administration

MANAGEMENT OF USDA ENERGY RESOURCES

Section 2.79, Title 7, Code of Federal Regulations is amended to revise the delegations of authority to the Director, Office of Operations, regarding energy management activities.

1. Section 2.79 is amended by adding new paragraph (a) (1) (xiv) to read as follows:

§ 2.79 Director, Office of Operations.

(a) *Delegations.*

(1) • • •

(xiv) Develop and implement energy management actions related to the internal operations of the Department. Maintain liaison with other Government agencies in these matters.

Effective date: This amendment shall become effective January 21, 1975.

Dated: January 16, 1975.

JOSEPH R. WRIGHT, JR.,
Assistant Secretary for Administration.

[FR Doc.75–1906 Filed 1–20–75;8:45 am]

PART 2—DELEGATIONS OF AUTHORITY BY THE SECRETARY OF AGRICULTURE AND GENERAL OFFICERS OF THE DEPARTMENT

Subpart C—Delegations of Authority to the Under Secretary, Assistant Secretaries and Directors

Management of USDA Energy Resources

Part 2, Subtitle A, of Title 7, Code of Federal Regulations, is amended to extend the delegations of authority to the Assistant Secretary for International Affairs and Commodity Programs and to the Assistant Secretary for Administration regarding matters pertaining to the conservation of the Department's energy resources.

1. Section 2.21 is amended by adding new paragraph (a) (32) to read as follows:

§ 2.21 Delegations of authority to the Assistant Secretary for International Affairs and Commodity Programs.

• • • • • •

(a) • • •

(32) Coordinate the energy management activities of the Department related to people and organizations served by the Department. Maintain liaison with other Government agencies in these matters.

2. Section 2.25 is amended by adding new paragraph (f) (1) (xiv) to read as follows:

§ 2.25 Delegations of authority to the Assistant Secretary for Administration.

• • • • • •

(f) *Related to operations.*

(1) • • •

(xiv) Develop and implement energy management actions related to the internal operations of the Department. Maintain liaison with other Government agencies in these matters.

• • • • • •

Effective Date: This amendment shall become effective January 21, 1975.

Dated: January 16, 1975.

EARL L. BUTZ,
Secretary.

[FR Doc.75–1907 Filed 1–20–75;8:45 am]

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Expenses and Rate of Assessment and Carryover of Unexpended Funds

This document authorizes expenses of $433,850 of the Navel Orange Administrative Committee, under Marketing Order No. 907, for the 1974–75 fiscal year, and fixes a rate of assessment of $0.0125 per carton of oranges handled during such year to be paid to the committee by each first handler as his pro rata share of such expenses.

On December 30, 1974, notice of proposed rulemaking was published in the FEDERAL REGISTER (39 FR 45019) regarding proposed expenses and related rate of assessment for the period November 1, 1974, through October 31, 1975 and carryover of unexpended funds from the period November 1, 1973, through October 31, 1974, pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California. This notice allowed interested persons 15 days to submit written data, views, or arguments pertaining to these proposals. None were submitted. This regulatory program is effective under the

V 40 14 JAN 21 75 XUM

Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). After consideration of all relevant matters presented, including the proposals set forth in such notice which were submitted by the committee, established pursuant to said marketing agreement and order, it is hereby found and determined that:

§ 907.212 Expenses and rate of assessment.

(a) *Expenses.* Expenses that are reasonable and likely to be incurred by the Navel Orange Administrative Committee, during the period November 1, 1974, through October 31, 1975, will amount to $433,850.

(b) *Rate of assessment.* The rate of assessment for said period, payable by each handler in accordance with § 907.41, is fixed at $0.0125 per carton of Navel oranges.

(c) *Reserve.* Unexpended funds in excess of expenses incurred during the fiscal year ended October 31, 1974, in the amount of $50,000 shall be carried over as a reserve in accordance with § 907.42 of said marketing agreement and order.

It is hereby further found that good cause exists for not postponing the effective date hereof until 30 days after publication in the FEDERAL REGISTER (7 U.S.C. 553) in that (1) shipments of oranges have already begun, (2) the relevant provisions of said marketing agreement and this part require that the rate of assessment herein fixed shall be applicable to all assessable oranges handled during the 1974–75 fiscal year; and (3) such year began on November 1, 1974, and the rate of assessment herein fixed will automatically apply to all assessable oranges beginning with such date.

(Secs. 1–19, 48 Stat. 31, as amended (7 U.S.C. 601–674)).

Dated: January 16, 1975.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.75–1902 Filed 1–20–75;8:45 am]

PART 906—ORANGES AND GRAPEFRUIT GROWN IN THE LOWER RIO GRANDE VALLEY IN TEXAS

Miscellaneous Amendments

Correction

In FR Doc. 74–30188, appearing at page 44736, in the issue for Friday, December 27, 1974, the second word in the ninth line of § 906.120 (b), now reading "is", should read "if".

CHAPTER XIV—COMMODITY CREDIT CORPORATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

PART 1430—DAIRY PRODUCTS

Subpart—Price Support Program for Milk

The United States Department of Agriculture has announced an increase in the price support program for milk, effective January 4, 1975, for the remainder of the 1974–75 marketing year and for the marketing year April 1, 1975, through March 31, 1976, through purchases by Commodity Credit Corporation (CCC) of dairy products as provided herein. Inasmuch as immediate action was required to increase the level of support in order to enable farmers to meet unusually high production costs and to assure adequate supplies of milk and dairy products next year, compliance with the notice of proposed rule making procedure would be impracticable and contrary to the public interest. Accordingly, § 1430.282 is revised to read as follows:

§ 1430.282 Price support program for milk.

(a) (1) The general levels of prices to producers for milk will be supported from January 4, 1975, through March 31, 1976, at $7.24 per hundredweight for manufacturing milk.

(2) Price support for milk will be through purchases by CCC of butter, nonfat dry milk, and Cheddar cheese, offered subject to the terms and conditions of purchase announcements issued by the Agricultural Stabilization and Conservation Service, United States Department of Agriculture.

(3) Commodity Credit Corporation may, by special announcements, offer to purchase other dairy products to support the price of milk.

(4) Purchase announcements setting forth terms and conditions of purchase may be obtained upon request from:

United States Department of Agriculture, Agricultural Stabilization and Conservation Service, Commodity Operations Division, Washington, D.C. 20250.

or

United States Department of Agriculture, Agricultural Stabilization and Conservation Service, ASCS Commodity Office, 6400 France Avenue South, Minneapolis, Minnesota 55435.

(b) (1) CCC will consider offers of butter, Cheddar cheese, and nonfat dry milk in bulk containers meeting specifications in the announcements at the following prices:

Commodity and location	Produced before Jan. 4, 1975	Produced on or after Jan. 4, 1975
	Cents per pound	*Cents per pound*
Cheddar cheese—U.S. Grade A or higher (standard moisture basis, 37.8 to 39.0 percent) [1]	70.75	77.25
Nonfat dry milk, spray process—U.S. Extra Grade [2]	56.6	60.6
Butter—U.S. Grade A or higher:		
New York, N.Y., and Jersey City, Newark, and Secaucus, N.J.	62.00	69.50
Alaska, Hawaii, Arizona, New Mexico, Texas, Louisiana, Mississippi, Alabama, Georgia, Florida, and South Carolina	61.00	68.50
Seattle, Wash.; San Francisco, Calif.; California, Idaho, Oregon, Washington	59.00	66.50

[1] For cheese which is offered on a "dry" basis (less than 37.8 percent moisture) the price per pound shall be as indicated in form ASCS–150. Copies are available in offices listed in (a)(4).

[2] If upon inspection bags do not fully comply with specifications, the price paid will be subject to a discount of 0.25 cent (¼ cent) per pound of nonfat dry milk.

(2) Offers to sell butter at any location not specifically provided for in this section will be considered at the price set forth in this section for the designated market (New York, San Francisco, or Seattle) named by the seller, less 80 percent of the lowest published domestic railroad carlot freight rate per pound gross weight for a 60,000 pound carlot, in effect at the beginning of each marketing year (April 1), from such other point to the designated market named by the seller. In the area consisting of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, and Virginia, CCC will purchase only bulk butter produced in that area; butter produced in other areas is ineligible for offering to CCC in these States. Butter produced in the area of California, Idaho, Oregon and Washington is ineligible for offering to CCC outside that four-state area.

(c) The butter shall be U.S. Grade A or higher. The nonfat dry milk shall be U.S. Extra Grade, except moisture content shall not exceed 3.5 percent. The Cheddar cheese shall be U.S. Grade A or higher.

(d) The products shall be manufactured in the United States from milk produced in the United States and shall not have been previously owned by CCC.

(e) Purchases will be made in carlot weights specified in the announcements. Grades and weights shall be evidenced by inspection certificates issued by the U.S. Department of Agriculture.

(Sec. 201, 401, 63 Stat. 1052, 1054, as amended; Sec. 4(d), 62 Stat. 1070, as amended; 7 U.S.C. 1446, 1421, 15 U.S.C. 714b(d))

Signed at Washington, D.C., on January 15, 1975.

GLENN A. WEIR,
Acting Executive Vice President, Commodity Credit Corporation.

Title 12—Banks and Banking

CHAPTER VII—NATIONAL CREDIT UNION ADMINISTRATION

PART 745—CLARIFICATION AND DEFINITION OF ACCOUNT INSURANCE COVERAGE

Change in Units

The Administrator of the National Credit Union Administration considers it necessary to amend Part 745 (12 CFR 745) in order to implement the provisions of Pub. L. 93–495 relating to changes in insurance coverage. Therefore, effective immediately, the Administrator amends §§ 745.2, 745.3, 745.4, 745.5, 745.6, 745.7, 745.8, and 745.9 by deleting "$20,000" each place it appears therein and inserting in lieu thereof "$40,000."

AUTHORITY: Sec. 120, 73 Stat. 635 (12 U.S.C. 1766) and Sec. 209, 84 Stat. 1014 (12 U.S.C. 1789.)

HERMAN NICKERSON, JR.,
Administrator.

JANUARY 13, 1975.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 74–EA–86; Amdt. 39–2077]

PART 39—AIRWORTHINESS DIRECTIVE

Bendix Corp.

The Federal Aviation Administration is amending § 39.13 of Part 39 of the Federal Aviation Regulations so as to amend AD 65–21–1 applicable to Bendix 756 and Garwin G–760 starters installed on Lycoming engines.

This amendment will delete Bendix Eclipse 397 and certain series of Bendix 756 starters from the requirements of the airworthiness directive and revise the applicable service bulletin number.

Since the foregoing is less restrictive, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 [31 FR 13697] § 39.13 of Part 39 of the Federal Aviation Regulations is amended by amending AD 65–21–1 as follows:

a. In the applicability paragraph delete "–9C, –9E, –21C, –21E, Bendix Eclipse 397 series".

b. In paragraphs (c) and (d) delete the numbers "93" and insert in lieu thereof "93a".

This amendment is effective January 28, 1975.

(Secs. 313(a), 601 and 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421 and 1423), sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Jamaica, N.Y., on January 14, 1975.

JAMES BISPO,
Acting Director, Eastern Region.

[FR Doc.75–1839 Filed 1–20–75;8:45 am]

[Docket No. 74–EA–97; 39–2078]

PART 39—AIRWORTHINESS DIRECTIVE

Fairchild Aircraft

The Federal Aviation Administration is amending § 39.13 of Part 39 of the Federal Aviation Regulations so as to amend and revise AD 73–12–5 applicable to Fairchild F–27 and FH–227 type airplanes.

There have been reports of corrosion on the vertical stabilizer fittings of a Fairchild F–27 which had been inactive for a number of years. AD 73–12–5 as published required inspections corollated only to service time. Since the foregoing can exist or develop in aircraft of similar type design, particularly those in storage, the airworthiness directive is being amended to include a calendar time requirement and is being revised for clarification purposes. Aircraft in storage need not be inspected until they are ready for return to operational status.

In view of the foregoing and because the deficiency is one which affects air safety, notice and public procedure hereon are impractical and good cause exists for making the amendment effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 [31 FR 13697] § 39.13 of Part 39 of the Federal Aviation Regulations is amended by amending and revising AD 73–12–5 as follows:

FAIRCHILD. Applies to all Fairchild F–27 and FH–227 Type Aircraft Certificated in all categories.

Compliance required as indicated:

1. Affects the vertical stabilizer fittings P/N's 27–233000–11, –12, –31, –32, –41 and –42 which have accumulated 2500 hours or more in service.

a. Within the next 30 days unless accomplished within the last 11 months, inspect stabilizer spar fittings for cracks using a dye penetrant method or a 10-power glass or an approved equivalent inspection.

b. Within the next 60 days unless accomplished within the last 10 months, inspect the fittings around the flanges and inner cavity for corrosion in accordance with Section 2 of Fairchild Service Bulletins F 27–55–20 and FH 227–55–11 dated December 4, 1974, or inspect in accordance with an approved equivalent procedure.

c. The inspection specified in "a" above shall be repeated at intervals not to exceed 12 calendar months or 2500 hours in service from the last inspection, whichever occurs first.

d. The inspection specified in "b" above shall be repeated at intervals not to exceed 12 calendar months from the last inspection.

2. Cracked parts shall be replaced and corroded parts shall be replaced or repaired prior to further flight.

a. Parts replacement shall be in accordance with Section 2 of Fairchild Service Bulletins F 27–55–20 and FH 227–55–11 dated December 4, 1974, and shall be the same part number or approved equivalent parts.

b. Parts repair shall be in accordance with Section 2 and Figures 2 and 3 of Fairchild Service Bulletin F 27–55–20 and FH 227–55–11 dated December 4, 1974, or approved equivalent rework.

3. The aircraft may be flown in accordance with FAR 21.197 to a base where the inspection or repairs can be performed.

4. Upon submission of substantiating data by an owner or operator through an FAA Maintenance Inspector, the Chief, Engineering and Manufacturing Branch, FAA, Eastern Region, may adjust the inspection interval specified in this AD. Equivalent inspections, parts or repair must be approved by the Chief, Engineering and Manufacturing Branch, FAA, Eastern Region.

This amendment is effective January 28, 1975.

(Secs. 313(a), 601 and 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421 and 1423), sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Jamaica, N.Y., on January 14, 1975.

JAMES BISPO,
Acting Director, Eastern Region.

[FR Doc.75–1840 Filed 1–20–75;8:45 am]

[Docket No. 75–NW–1–AD; Amendment 39–2074]

PART 39—AIRWORTHINESS DIRECTIVES

Boeing Model 707–300, –300B, –300C, and –400 Series Airplanes

Amendment 39–1829 (39 FR 15027), AD 74–09–07, as amended by Amendment 39–2002, requires X–Ray inspection of the upper wing skin, splice plate and rib cap at wing station 360 on Boeing 707–300, –300B, –300C, and –400 series airplanes. After issuing Amendment 39–2002, a 39 inch crack was reported in a 707–300C airplane. Six hundred seventy-three (673) landings had been made since the last X–Ray inspection was conducted which showed no cracks. Since significant cracks in the splice plate which seriously jeopardize the structural integrity of the airplane can occur earlier than the repetitive inspection interval of AD 74–09–07, the AD is being superseded by a new AD that reduces the repetitive inspection interval to each 400 flights.

Since a situation exists that requires immediate adoption of this regualtion, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

V40I14 JAN21 75 XUM

BOEING: Applicable to all Boeing 707-300, -300B/C, and -400 series airplanes listed in Boeing Service Bulletin No. 3157, Revision 2 or later FAA approved revisions, upon accumulation of the following number of landings since new, or since hole oversizing in accordance with Part IV of Boeing Service Bulletin No. 2510, Revision 3, or later FAA approved revisions:

Models:	*Since new or oversizing*
707-300, -400	13,000 or more landings.
707-300B	11,000 or more landings.
707-300C	8,000 or more landings.

Compliance required as indicated.

To detect cracks in the upper wing skin, upper wing skin splice plate and upper rib cap at wing station 360, accomplish the following:

(A) Unless X-Ray inspected within the last 350 landings, X-Ray inspect the upper wing surface, splice plate and rib cap at wing station 360 within the next 50 landings from the effective date of this AD and at intervals thereafter not to exceed 400 landings, in accordance with the instructions in Boeing Alert Service Bulletin No. 3157 dated April 10, 1974, or later FAA approved revisions, or in a manner approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region. If cracks are found, repair as necessary prior to further flight in accordance with Paragraph (B) below.

(B) If cracks are found, repair prior to further flight in accordance with Boeing Service Bulletin No. 2510, Revision 3, or later FAA approved revisions, or in a manner approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region. The repetitive inspections of Paragraph (A) must be accomplished in areas not covered by repairs per Part VII of Boeing Service Bulletin No. 2510, Revision 3, or later FAA approved revisions. Airplanes which have accomplished repairs per Part VII and the oversizing per Part IV in areas not covered by the repair, need not be reinspected until the thresholds called out in the applicability statement hereof have been reached.

(C) The inspections required by this AD may be terminated when the following is accomplished:

(1) Splice plate, skin and rib cap fastener holes are oversized to remove fatigued material per Part IV of Boeing Service Bulletin No. 2510, Revision 3, or later FAA approved revisions, and complete external doublers are installed in accordance with Part VIII of Boeing Service Bulletin No. 2510, Revision 3, or later FAA approved revisions, or

(2) Other modifications are made in a manner approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region.

(D) For the purpose of complying with this AD, subject to acceptance by the assigned FAA maintenance inspector, the number of landings may be determined by dividing each airplane's hours' time in service by the operator's fleet average time from takeoff to landing for the airplane type.

(E) Upon request of the operator, an FAA maintenance inspector, subject to prior approval of the Chief, Engineering and Manufacturing Branch, FAA Northwest Region, may adjust the repetitive inspection intervals specified in this AD to permit compliance at an established inspection period of the operator if the request contains substantiating data to justify the change for that operator.

This supersedes Amendment 39-1829 (39 FR 15027), AD 74-09-07, as amended by Amendment 39-2002.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1).

All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to Boeing Commercial Airplane Company, P.O. Box 3707, Seattle, Washington 98124. The documents may be examined at FAA Northwest Region, 9010 East Marginal Way South, Seattle, Washington.

This amendment becomes effective January 27, 1975.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423); of sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

NOTE.—The incorporation by reference provisions in the document were approved by the Director of the Federal Register on June 19, 1967.

Issued in Seattle, Washington, January 13, 1975.

C. B. WALK, Jr.,
Director, Northwest Region.

[FR Doc.75-1837 Filed 1-20-75;8:45 am]

[Docket No. 74-NW-08-AD; Amendment 39-2073]

PART 39—AIRWORTHINESS DIRECTIVES

Boeing Model 727 Series Airplanes

A proposal to amend § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39-1836 (39 FR 16875), AD 74-10-08, to require a nut torque check inspection of the P/N 69-67076-2 rod installations or any other rod installations utilizing a rod with a Class 2 thread on Boeing 727 Series airplanes was published in 39 FR 40036.

Interested persons have been afforded an opportunity to participate in the making of the amendment. No objections were received.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39-1836 (39 FR 16875), AD 74-10-08, is amended by adding the following new paragraph at the end thereof:

(D) If a threaded rod, P/N 69-67076-2, or an equivalent fabricated rod made from threaded rod NAS 1454-()-(), or any other rod with a Class 2 thread has been installed, unless already accomplished, conduct, before September 6, 1975, the hinge pin retainer nut torque inspection in accordance with Paragraph III, Part II of Boeing Alert Service Bulletin No. 727-55-59, Revision 2, or later FAA approved revisions, or in a manner approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region. If the torque required to rotate the self-locking nut is less than 30 inch-pounds, replace the rod in accordance with Boeing Alert Service Bulletin No. 727-55-59, Revision 3, or later FAA approved revisions, or in a manner approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423), sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Effective on February 27, 1975.

Issued in Seattle, Washington, January 13, 1975.

C. B. WALK, Jr.,
Director, Northwest Region.

[FR Doc.75-1836 Filed 1-20-75;8:45 am]

[Docket No. 74-EA-88; 39-2071]

PART 39—AIRWORTHINESS DIRECTIVE

Fairchild Hiller Aircraft

The Federal Aviation Administration is amending § 39.13 of Part 39 of the Federal Aviation Regulations so as to issue an airworthiness directive applicable to Fairchild Hiller 1100 and FH1100 type helicopters.

There have been reports of fractures in the tail fin spar surface of the subject helicopters. Since this is a deficiency which can exist or develop in helicopters of similar type design, an airworthiness directive is being issued which will require a repetitive inspection and repair where necessary of the affected area.

In view of the foregoing and because the deficiency is one which affects air safety, notice and public procedure hereon are impractical and good cause exists for making the amendment effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 [31 FR 13697] section 39.13 of Part 39 of the Federal Aviation Regulations is amended by issuing a new Airworthiness Directive as follows:

FAIRCHILD (Hiller). Applies to models 1100 and FH1100 type helicopters certificated in all categories including military type OH-5A.

To detect cracks in the tail fin spar channel, P/N 24-62030-7 or P/N 24-62030-43 in the area of the tail rotor gear box mount, P/N 24-62006-3, accomplish the following inspection or an equivalent inspection approved by the Chief, Engineering and Manufacturing Branch, FAA, Eastern Region, within the next five hours in service after receipt of this message unless already accomplished within the last 45 hours in service and at every 50 hours in service thereafter:

1. Remove tail rotor gear box in accordance with paragraph 25-1-10 of Fairchild FH1100 Service Manual.

2. Clean the aft ten inches of tail fin spar (channel to which the tail rotor gear box mount is attached by ten huck bolts) with metachlor or equivalent grease and oil remover by light scrubbing with a stiff bristle brush.

3. Inspect the aft ten inches of the tail fin spar channel section for cracks with at least a ten power magnifying glass. This inspection includes the area around the ten tail rotor gear box mount attachment bolts, five on each side. The inspection should be accomplished by looking down through the tail rotor gear box mount fitting opening and through the front end of the tail rotor gear box mount fitting.

4. If a crack is found, remove fin assembly and replace with an uncracked fin assembly that has been inspected in accordance with the above procedure before further flight.

5. If the spar is not cracked, reinstall tail rotor gear box in accordance with paragraph 25-1-11 of Fairchild FH1100 Service Manual.

6. Report the results of the above inspection to Chief, Engineering and Manufacturing Branch, FAA, Eastern Region. (Reporting approved by the Bureau of Budget under BOB NO. 04.R0174.)

This amendment is effective January 27, 1975, and was effective for all recipients of the telegram of December 6, 1974, upon receipt.

(Secs. 313(a), 601 and 603, Federal Aviation Act of 1958 [49 U.S.C. 1354(a), 1421 and 1423], sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Jamaica, N.Y., on January 13, 1975.

JAMES BISPO,
Acting Director,
Eastern Region.

[FR Doc.75-1835 Filed 1-20-75;8:45 am]

[Docket No. 74-RM-18]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Establish Transition Area

On December 12, 1974, a notice of proposed rulemaking was published in the Federal Register (39 FR 43315) stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would establish a transition area at Forsyth, Montana.

Interested persons were given 30 days in which to submit written comments, suggestions or objections. No objections have been received and the proposed amendment is hereby adopted without change.

Effective date. This amendment shall be effective 0901 G.m.t., March 27, 1975.

(Sec. 307(a), Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)); sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Aurora, Colorado, on January 13, 1975.

M. M. MARTIN,
Director,
Rocky Mountain Region.

In § 71.181 (40 FR 441) the following transition area is added:

FORSYTH, MONT.

That airspace extending upward from 700 feet above the surface within an 8-mile radius of the Forsyth Airport (latitude 46°16'14" N., longitude 106°37'00" W.); within 4 miles north and 5 miles south of the 075° bearing from the Forsyth NDB (latitude 46°16'10" N., longitude 106°31'01" W., extending from the NDB to 10 miles east of the NDB; and that airspace extending upward from 1200 feet above the surface within 9.5 miles north and 5 miles south of 089° bearing from the Forsyth NDB, extending from the NDB to 18.5 miles east of the NDB, excluding that portion which overlies the Miles City, Mont. transition area.

[FR Doc.75-1841 Filed 1-20-75;8:45 am]

[Airspace Docket 74-EA-72]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Amendment to Docket

The Federal Aviation Administration issued the subject docket so as to alter the Westminster, Md. Transition Area and designate a Westminster, Md. (Clearview Airpark) Transition Area effective January 30, 1975. Due to a change of one degree in the instrument approach procedure to Clearview Airpark, a similar change is required in the overlying transition area.

Since the amendment is minor in nature, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

In view of the foregoing, Docket 74-EA-72 is amended effective upon publication in the Federal Register as follows:

1. In the description of the Westminster, Md. (Clearview Airpark) Transition Area delete the figures "048°" where they appear and insert in lieu thereof "047°".

(Sec. 307(a), Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1346), sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Jamaica, N.Y., on January 9, 1975.

JAMES BISPO,
Acting Director,
Eastern Region.

[FR Doc.75-1842 Filed 1-20-75;8:45 am]

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

SEMIRIGID AND RIGID ACRYLIC AND MODIFIED ACRYLIC PLASTICS

The Commissioner of Food and Drugs, having evaluated the data in a petition (FAP 4B2952) filed by American Cyanamid Co., Wayne, NJ 07470, and other relevant material, concludes that the food additive regulations should be amended as set forth below to provide for safe use of di(2-ethlyhexyl) phthalate as a flow promoter in semirigid and rigid acrylic and modified acrylic plastics intended for contact with food.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under authority delegated to the Commissioner (21 CFR 2.120), § 121.2591(a)(8) is amended by alphabetically inserting a new item as follows:

§ 121.2591 Semirigid and rigid acrylic and modified acrylic plastics.

* * * * * *

(a) * * *

(8) Miscellaneous materials:

* * * * * *

Di(2-ethylhexyl) phthalate, for use only as a flow promoter at a level not to exceed 3 weight-percent based on the monomers.

* * * * * *

Any person who will be adversely affected by the foregoing order may at any time on or before February 20, 1975, file with the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order, specify with particularity the provisions of the order deemed objectionable, and state the grounds for the objections. If a hearing is requested, the objections shall state the issues for the hearing, shall be supported by grounds factually and legally sufficient to justify the relief sought, and shall include a detailed description and analysis of the factual information intended to be presented in support of the objections in the event that a hearing is held. Six copies of all documents shall be filed. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date. This order shall become effective January 21, 1975.

(Sec. 409(c)(1), 72 Stat. 1786 (21 U.S.C. 348(c)(1)))

Dated: January 15, 1975.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Compliance.

Title 26—Internal Revenue

CHAPTER I—INTERNAL REVENUE SERVICE, DEPARTMENT OF THE TREASURY

SUBCHAPTER A—INCOME TAX

[T.D. 7344]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Carryover of Inventories and Accounting Methods in Certain Corporate Acquisitions

Correction

In FR Doc. 75-1068, appearing at page 2683 in the issue of Wednesday, January 15, 1975, insert a PARAGRAPH 2. between PARAGRAPHS 1. and 3., to read as follows:

PAR. 2. Section 1.381(c)(5)-1 as set forth in paragraph 2 of the notice of proposed rulemaking is further changed by deleting the last sentence of paragraph (b)(2)(i), by deleting the last

V 4014 JAN 21 75 XUM

sentence of paragraph (b)(3)(i) and by revising paragraphs (c)(1) and (c)(2) to read as set forth below.

Title 33—Navigation and Navigable Waters

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 74-215]

PART 117—DRAWBRIDGE OPERATION REGULATIONS

Bayou Little (Petit) Caillou, La.

This amendment changes the regulations for the drawbridges across Bayou Little Caillou at mile 26.6 and mile 29.9 to require that the draw open on signal from 9 p.m. to 5 a.m. if at least 12 hours notice is given. From 5 a.m. to 9 p.m. the draw will open on signal. This amendment was circulated as a public notice dated 25 September 1974 by the Commander, Eighth Coast Guard District and was published in the FEDERAL REGISTER as a notice of proposed rule making (CGD 74-215) on September 19, 1974 (39 FR 33710). The three responses received had no objection to the proposal.

Accordingly, Part 117 of Title 33 of the Code of Federal Regulations is amended as follows:

In § 117.540(b)(2), insert the words "Bayou Little (Petit) Caillou, mile 26.6, S-56 highway (Smith River) drawbridge near Montegut" and "Bayou Little (Petit) Caillou, mile 29.9, S-56 highway (Duplantis) drawbridge near Bourg" immediately after the words "Bayou Little (Petit) Caillou, mile 25.7, S-58 highway drawbridge at Sarah" in the listing.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937 (33 U.S.C. 499, 49 U.S.C. 1655 (g)(2)); 49 CFR 1.46(c)(5), 33 CFR 1.05-1(c)(4))

Effective date. This revision shall become effective on February 21, 1975.

Dated: January 14, 1975.

R. I. PRICE,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

CHAPTER II—OFFICE OF FEDERAL MANAGEMENT POLICY, GENERAL SERVICES ADMINISTRATION

SUBCHAPTER C—PROPERTY MANAGEMENT

[FMC 74-1, Supp. 2]

PART 232—FEDERAL ENERGY CONSERVATION

Amendments to Federal Energy Conservation Policies

This regulation provides additional information related to the background and policy intent of Part 232 and references other related energy issuances.

The table of contents for Part 232 is amended by the addition of the following new entry:

Sec.
232.8-1 Related energy issuances.

1. Section 232.4 is revised to read as follows:

§ 232.4 **Background.**

This part is issued in recognition of the need to bring about immediate and long-term savings in Federal energy consumption through formal conservation programs. It is prepared pursuant to a Federal Energy Office memorandum dated January 17, 1974; and pursuant to Executive Order 11717 of May 9, 1973, subject: Transferring Certain Functions from the Office of Management and Budget to the General Services Administration and the Department of Commerce; under authority vested in the Administrator of General Services by the Federal Property and Administrative Services Act of 1949, as amended; and OMB letter of August 24, 1973, which assigned to the General Services Administration the management responsibility for the development, coordination, and implementation of policy concerning the provision of parking facilities by executive agencies for their employees. This part is also prepared in accordance with the President's memorandum of October 18, 1974, in which he asked the Administrator of the Federal Energy Administration and the Administrator of General Services to develop a multiyear program for increasing energy efficiency in all Federal facilities and operations.

2. Section 232.5 is revised to read as follows:

§ 232.5 **Policy intent.**

a. The intent of this part is to bring about more efficient use of energy resources through revised Federal motor vehicle management policies; Federal employee carpooling; more judicious lighting, heating, and cooling of Federal buildings; and procurement policies governing acquisition of air-conditioners.

b. This part is also intended to establish the overall goal for energy reduction by Federal departments and establishments for fiscal year 1975 as 15 percent below energy consumed in fiscal year 1973. This part reflects certain adjustments to the details of the energy conservation program announced by the Federal Energy Administration on April 5, 1974. These detail adjustments were implemented by changes to the appropriate Federal Property Management Regulations. It should be noted that implementation of the provisions of this part may require consultation, as appropriate, with recognized labor organizations.

3. Section 232.8-1 is added as follows:

§ 232.8-1 **Related energy issuances.**

The details of the Federal energy conservation program are reflected in the following Federal Property Management Regulations and other issuances:

FPMR 101-20.116, Conservation of energy by executive agencies (39 FR 39266, Nov. 6, 1974)
FPMR Temporary Regulation D-47, Federal employee parking, and Supplement 1 thereto
FPMR Temporary Regulation G-17, Reduction in motor vehicle fuel consumption
GSA Bulletin FPMR G-99, Conservation of motor vehicle fuels
FPMR 101-26.5, GSA Procurement Programs (39 FR 37379, Oct. 21, 1974)
FPMR 101-39.6, Official use of Government Motor Vehicles and Related Motor Pool Services (39 FR 37380, Oct. 21, 1974)

(Federal Energy Office memorandum dated January 17, 1974; Executive Order 11717 (38 FR 12315, May 11, 1973); and Presidential memorandum dated October 18, 1974)

Effective date. This regulation is effective November 15, 1974.

Dated: January 13, 1975.

ARTHUR F. SAMPSON,
Administrator of General Services.

[FR Doc.75-1807 Filed 1-20-75;8:45 am]

Title 36—Parks, Forests, and Public Property

CHAPTER II—FOREST SERVICE, DEPARTMENT OF AGRICULTURE

PART 231—GRAZING

The average fee for grazing livestock on the National Forests in the western States in 1975 will be $1.11 per animal unit month, the same as in 1974, instead of the scheduled $1.60. The adjustment is in recognition of the difficult economic and drought conditions which exist for much of the livestock industry throughout the western States.

Effective Date. This revision takes effect January 20, 1975.

In accordance with exception to rulemaking procedures in 5 U.S.C. 553 and USDA policy (36 FR 13804), it has been found and determined that advance notice and request for comments would be impracticable. Delay in making a decision and request for comments would delay timely issuance of grazing permits and delay the billing of affected livestock operators until late February or early March 1975, and thereby fail to meet the requirement for payment of fees in advance of livestock entering the public lands.

(Sec. 1, 30 Stat. 35, as amended; sec. 1, 33 Stat. 628 (16 U.S.C. 551, 472); sec. 32, 50 Stat. 525, as amended (7 U.S.C. 1011); sec. 501, 65 Stat. 290 (31 U.S.C. 483a))

In consideration of the foregoing, subparagraph (a)(4), § 231.5, Part 231 of Chapter II of Title 36 of the Code of Federal Regulations is revised to read as follows:

§ 231.5 **Fees, Payments, and Refunds or Credits.**

(a) *Fees.* • • •

(4) Adjustment between the 1966 average fair market value (base rate) of $1.23 and fees paid in 1966 will be made in annual installments and will be completed by 1980. An average installment of 7.2 cents was added in 1969, 1971, 1973, and 1974, and the installments will be completed by 1980. In addition, increases or decreases in the base rate because of changes in fair market value as determined by the index of private land grazing lease rates will be made each year. Changes in fair market value between 1966 and 1974 increased the base rate by 73 cents to $1.96 per animal unit month for the 1975 fee year. Where competitive bidding is used to establish a fee structure representing fair market value, the fee established shall remain unchanged during the period specified in the bid. For 1975, fees on the National Grasslands and the Land Utilization Projects in the six western Forest Service Regions will also be limited to their 1974 levels.

• • • • • •

(Sec. 501, 65 Stat. 290 (31 U.S.C. 483a))

ROBERT W. LONG,
Assistant Secretary for Conservation, Research, and Education.

JANUARY 16, 1975.

Title 41—Public Contracts and Property Management

CHAPTER 5—GENERAL SERVICES ADMINISTRATION

CANCELLATION OF CHAPTER

CROSS REFERENCE.—For a document cancelling Chapter 5 of Title 41 of the Code of Federal Regulations, see FR Doc. 75-1703, *infra.*

CHAPTER 5A—FEDERAL SUPPLY SERVICE, GENERAL SERVICES ADMINISTRATION

[ADM 2806.4]

PART 5A-60—CONTRACT APPEALS

Rules of GSA Board of Contract Appeals

1. *Purpose.* This order sets forth revised rules to be followed by the GSA Board of Contract Appeals in processing contract appeals. The internal operating procedures of the Board are set forth in GSA Order ADM 2806.2A.

2. *Cancellation.* Chapter 5 of Title 41 of the Code of Federal Regulations is canceled.

3. *Background.* The Public Contract Section of the American Bar Association and the Government Contract Committee of the Federal Bar Association have frequently urged the adoption of uniform Contract Appeals Boards' rules of procedure for the handling of appeals. Our Board and the Armed Services Board are the largest, both in size and in number of appeals handled, and are thus taking the lead in this effort.

4. *Publication in Federal Register.* The rules of the GSA Board of Contract Appeals are set forth below.

5. *Effective date.* The revised rules prescribed by this order shall take effect December 31, 1974. They shall not apply to appeals which have been docketed prior to this date, except as otherwise directed by the Board and agreed to by both parties.

ARTHUR F. SAMPSON,
Administrator of General Services.

JANUARY 9, 1975.

Section 5A-60.000 and Subpart 5A-60.1 consisting of § 5A-60.101 are added to 41 CFR Part 5A-60 as follows.

§ 5A-60.000 **Scope of part.**

This part sets forth the rules of the GSA Board of Contract Appeals and establishes policies and procedures regarding matters to be considered by the Board.

Subpart 5A-60.1—Rules of the GSA Board of Contract Appeals.

§ 5A-60.101 **Rules of the GSA Board of Contract Appeals (GSBCA)**

The rules of the GSBCA prescribed by the Administrator of General Services in GSA Order ADM2806.4 dated January 9, 1975, are as follows:

PREFACE TO RULES

1. *Jurisdiction for considering appeals.* (1) Except as stated in (2) below, the General Services Administration Board of Contract Appeals (referred to herein as "the Board") shall consider and determine appeals from decisions of contracting officers arising under contracts which contain provisions requiring the determination of appeals by the head of an agency or his duly authorized representative or board. In addition the Board shall have jurisdiction over other matters assigned to it by the Administrator. The Board has authority to determine appeals falling within the scope of its jurisdiction as fully and finally as might the Administrator himself.

(2) The authority of the Board does not apply to any matters arising from complaints originating under the Equal Opportunity clause in contracts.

2. *Organization and location of the Board.* (1) The Board is located in Washington, D.C., and is part of the staff of the Administrator.

(2) The Board consists of a Chairman and six other members, all of whom shall be attorneys at law duly licensed by any state, commonwealth, territory, or the District of Columbia, in addition to clerical personnel. In general, the appeals are assigned to a panel of at least three members of the Board. The decision of a majority of the panel constitutes the decision of the Board. Board members are designated as Administrative Judges and the Chairman is designated as Chief Administrative Judge.

3. *Decisions on questions of law.* When an appeal is taken pursuant to a Disputes clause in a contract which limits appeals to disputes concerning questions of fact, the Board may in its discretion, hear, consider, and decide all questions of law necessary for the complete adjudication of the issue. In the consideration of an appeal, should it appear that a claim is involved which is not cognizable under the terms of the contract, the Board may make findings of fact with respect to such a claim without expressing an opinion on the question of liability.

4. *Board of Contract Appeals procedure—*(1) *Rules.* Appeals referred to the Board are handled in accordance with the rules of the Board.

(2) *Administration and interpretation of rules.* Emphasis is placed upon the sound administration of these rules in specific cases, because it is impracticable to articulate a rule to fit every possible circumstance which may be encountered. These rules will be interpreted so as to secure a just and inexpensive determination of appeals without unnecessary delay.

(3) *Preliminary procedures.* Preliminary procedures are available to encourage full disclosure of relevant and material facts, and to discourage unwarranted surprise.

(4) *Time, computation, and extensions.* (a) All time limitations specified for various procedural actions are computed as maximums, and are not to be fully exhausted if the action described can be accomplished in a lesser period. These time limitation are similarly eligible for extension in appropriate circumstances, on good cause shown.

(b) Except as otherwise provided by law, in computing any period of time prescribed by these rules or by any order of the Board, the day of the event from which the designated period of time begins to run shall not be included, but the last day of the period shall be included unless it is a Saturday, Sunday, or a legal holiday, in which event the period shall run to the end of the next business day.

(c) Requests for extensions of time from either party shall be made in writing and stating good cause therefor.

(5) *Representation of parties.* An appellant may appear before the Board in person or may be represented by counsel or by any other duly authorized representative. Whenever reference is made to contractor, appellant, contracting officer, respondent and parties, this shall include respective counsel for the parties, as soon as appropriate notices of appearance have been filed with the Board.

PRELIMINARY PROCEDURES

1. *Appeals, how taken.* Notice of an appeal must be in writing, and the original, together with two copies, may be filed with the contracting officer from whose decision the appeal is taken. The notice of appeal must be mailed or otherwise filed within the time specified therefor in the contract or allowed by applicable provision of directive or law.

2. *Notice of appeal, contents of.* A notice appeal should indicate that an appeal is thereby intended, and should identify the contract (by number), the department and agency or bureau cognizant of the dispute, and the decision from which the appeal is taken. The notice of appeal should be signed personally by the appellant (the contractor making the appeal), or by an officer of the appellant corporation or member of the appellant firm, or by the contractor's duly authorized representative or attorney. The complaint referred to in Rule 6 may be filed with the notice of appeal, or the appellant may designate the notice of appeal as a complaint, if it otherwise fulfills the requirements of a complaint.

3. *Forwarding of appeals.* When a notice of appeal in any form has been received by the contracting officer, he shall endorse thereon the date of mailing (or date of receipt, if otherwise conveyed) and within 10 days shall forward said notice of appeal to the Board. Following receipt by the Board of the original notice of an appeal (whether through the contracting officer or otherwise), the contractor will be furnished a copy of these rules.

4. *Preparation, contents, organization, forwarding, and status of appeal file—*(a) *Duties of Contracting Officer.* Within 30 days of receipt of an appeal, or advice that an appeal has been filed, the contracting officer shall assemble and transmit to the Board, through the Assistant General Counsel, Claims and Litigation Division, an appeal file consisting of all documents pertinent to the appeal, including:

(1) the decision and findings of fact from which appeal is taken;

(2) the contract, including specifications, plans and drawings and pertinent amendments;

(3) all correspondence between the parties pertinent to the appeal, including the letter or letters of claim in response to which decision was issued;

(4) transcripts of any testimony taken during the course of proceedings, and affidavits or statements of any Government witnesses on the matter in dispute made prior to the filing of the notice of appeal with the Board; and

(5) any additional information considered pertinent.

V40I14 JAN 21 75 XUM

Within the same time above specified, the Assistant General Counsel, Claims and Litigation Division shall furnish the appellant a copy of each document he transmits to the Board, except those stated in subparagraph (a)(2) and (a)(3) above, as to which a list furnished appellant indicating specific contractual documents transmitted will suffice, and those stated in subparagraph (d), below.

(b) *Duties of the appellant.* Within 30 days after receipt of a copy of the appeal file assembled by the contracting officer, the appellant shall supplement the same by transmitting to the Board any documents not contained therein which he considers pertinent to the appeal, and furnishing two copies of such documents to the Government trial attorney.

(c) *Organization of appeal file.* Documents in the appeal file may be originals or legible facsimile or authenticated copies thereof, and shall be arranged in chronological order where practicable, numbered sequentially, tabbed, and indexed to identify the contents of the file.

(d) *Lengthy documents.* The Board may waive the requirement of furnishing to the other party copies of bulky, lengthy, or out-of-size documents in the appeal file when a party has shown that doing so would impose an undue burden. At the time a party files with the Board a document as to which such a waiver has been granted, he shall notify the other party that the same or a copy is available for inspection at the offices of the Board or of the party filing same.

(e) *Status of documents in appeal file.* Documents contained in the appeal file are considered, without further action by the parties, as part of the record upon which the Board will render its decision, unless a party objects to the consideration of a particular document in advance of hearing or of settling the record in the event there is no hearing on the appeal. If objection to a document is made, the Board will rule upon its admissibility into the record and/or the weight to be attached to it as evidence in accordance with Rules 13 and 20, hereof.

5. *Dismissal for lack of jurisdiction.* Any motion addressed to the jurisdiction of the Board shall be promptly filed. Hearing on the motion shall be afforded on application of either party, unless the Board determines that its decision on the motion will be deferred pending hearing on both the merits and the motion. The Board shall have the right at any time and on its own motion to raise the issue of its jurisdiction to proceed with a particular case, and shall do so by an appropriate order, affording the parties an opportunity to be heard thereon.

6. *Pleadings.* (a) Within 30 days after receipt of notice of docketing of the appeal, the appellant shall file with the Board an original and two copies of a complaint setting forth simple, concise and direct statements of each of his claims, alleging the basis, with appropriate reference to contract provisions, for each claim, and the dollar amount claimed. This pleading shall fulfill the generally recognized requirements of a complaint, although no particular form or formality is required. Upon receipt thereof, the Clerk of the Board shall serve a copy upon the respondent. Should the complaint not be received within 30 days, appellant's claim and appeal, if in the opinion of the Board the issues before the Board are sufficiently defined, may be deemed to set forth his complaint and the respondent shall be so notified.

(b) Within 30 days from receipt of said complaint, or the aforesaid notice from the Clerk of the Board, respondent shall prepare and file with the Board an original and two copies of an answer thereto, setting forth simple, concise, and direct statements of respondent's defenses to each claim asserted by appellant. This pleading shall fulfill the generally recognized requirements of an answer, and shall set forth any affirmative defenses or counter-claims as appropriate. Upon receipt thereof, the Clerk shall serve a copy upon appellant. Should the answer not be received within 30 days, the Board may, in its discretion, enter a general denial on behalf of the Government, and the appellant shall be so notified.

7. *Amendments of pleadings or record.* The Board upon its own initiative or upon application by a party may, in its discretion, order a party to make a more definite statement of the complaint or answer, or to reply to an answer.

The Board may, in its discretion, and within the proper scope of the appeal, permit either party to amend his pleading upon conditions just to both parties. When issues within the proper scope of the appeal, but not raised by the pleadings or the documentation described in Rule 4, are tried by express or implied consent of the parties, or by permission of the Board, they shall be treated in all respects as if they had been raised therein. In such instances, motions to amend the pleadings to conform to the proof may be entered, but are not required. If evidence is objected to at a hearing on the ground that it is not within the issues raised by the pleadings or the Rule 4 documentation (which shall be deemed part of the pleadings for this purpose), it may be admitted within the proper scope of the appeal, provided, however, that the objecting party may be granted a continuance if necessary to enable him to meet such evidence.

8. *Hearing election.* Upon receipt of respondent's answer or the notice referred to in the last sentence of Rule 6(b), above, appellant shall advise whether he desires a hearing, as prescribed in Rules 17 through 25, or whether in the alternative he elects to submit his case on the record without a hearing, as prescribed in Rule 11. In appropriate cases, the appellant shall also elect whether he desires the optional accelerated procedure prescribed in Rule 12.

9. *Prehearing briefs.* Based on an examination of the documentation described in Rule 4, the pleadings, and a determination of whether the arguments and authorities addressed to the issues are adequately set forth therein, the Board may in its discretion require the parties to submit prehearing briefs in any case in which a hearing has been elected pursuant to Rule 8. In the absence of a Board requirement therefor, either party may in its discretion, and upon appropriate and sufficient notice to the other party, furnish a prehearing brief to the Board. In any case where a prehearing brief is submitted, it shall be furnished so as to be received by the Board at least 15 days prior to the date set for hearing, and a copy shall simultaneously be furnished to the other party as previously arranged.

10. *Prehearing or presubmission conference.* Whether the case is to be submitted pursuant to Rule 11, or heard pursuant to Rules 17 through 25, the Board may upon its own initiative or upon the application of either party, call upon the parties to appear before a member or examiner of the Board for a conference to consider:

(a) the simplification or clarification of the issues;

(b) the possibility of obtaining stipulations, admissions, agreements on documents, understandings on matters already of record, or similar agreements which will avoid unnecessary proof;

(c) the limitation of the number of expert witnesses, or avoidance of similar cumulative evidence, if the case is to be heard;

(d) the possibility of agreement disposing of all or any of the issues in dispute; and

(e) such other matters as may aid in the disposition of the appeal.

The results of the conference shall be reduced to writing by the Board member or examiner in the presence of the parties, and this writing shall thereafter constitute part of the record.

11. *Submission without a hearing.* Either party may elect to waive a hearing and to submit his case upon the record before the Board, as settled pursuant to Rule 13. Submission of a case without hearing does not relieve the parties from the necessity of proving the facts supporting their allegations or defenses. Affidavits, depositions, admissions, answers to interrogatories, and stipulations may be employed to supplement other documentary evidence in the Board record. The Board may permit such submission to be supplemented by oral argument (transcribed if requested), and/or by briefs, arranged in accordance with Rule 23.

12. *Optional accelerated procedure.* In appeals involving $25,000 or less, either party may elect, in his notice of appeal, complaint, answer, or by separate correspondence or statement prior to commencement of hearing or settlement of the record, to have the appeal processed under a shortened and accelerated procedure. For application of this rule the amount in controversy will be determined by the sum of the amounts claimed by either party against the other in the appeal proceeding. If no specific amount of claim is stated, a case will be considered to fall within this rule if the sum of the amounts which each party represents in writing that it could recover as a result of a Board decision favorable to it does not exceed $25,000. Upon such election, a case shall then be processed under this rule unless the other party objects and shows good cause why the substantive nature of the dispute requires processing under the Board's regular procedures and the Board, acting through the Chairman, sustains such objection. In cases proceeding under this rule, parties are encouraged, to the extent possible consistent with adequate presentation of their factual and legal positions, to waive pleadings, discovery, and briefs.

Written decision by the Board in cases proceeding under this rule normally will be short and contain summary findings of fact and conclusions only. The Board will endeavor to render such decisions within 30 days after the appeal is ready for decision. Such decisions will be rendered for the Board by a single Board member with the concurrence of the Chairman; except that in cases involving $5,000 or less where there has been a hearing, the single Board member presiding at the hearing may, in his discretion, at the conclusion of the hearing and after entertaining such oral arguments as he deems appropriate, render on the record oral summary findings of fact, conclusions and decision of the appeal. In the latter instance, the Board will subsequently furnish the parties a typed copy of such oral decision for record and payment purposes and to establish the date from which the period for filing a motion for reconsideration under Rule 29 commences.

Except as herein modified, these rules otherwise apply in all respects.

13. *Settling the record.* (a) The record upon which the Board's decision will be rendered consists of the appeal file described in Rule 4, and, to the extent the following items have been filed, pleadings, prehearing conference memoranda or orders, prehearing briefs, depositions or interrogatories received in evidence, admissions, stipulations, transcripts of conferences and hearings, hearing exhibits, posthearing briefs, and documents which the Board has specifically designated be made a part of the record. The record will

at all reasonable times be available for inspection by the parties at the office of the Board.

(b) Except as the Board may otherwise order in its discretion, no proof shall be received in evidence after completion of an oral hearing or, in cases submitted on the record, after notification by the Board that the case is ready for decision.

(c) The weight to be attached to any evidence of record will rest within the sound discretion of the Board. The Board may in any case require either party, with appropriate notice to the other party, to submit additional evidence on any matter relevant to the appeal.

14. *Discovery—depositions*—(a) *General policy and protective orders.* The parties are encouraged to engage in voluntary discovery procedures. In connection with any deposition or other discovery procedure, the Board may make any order which justice requires to protect a party or person from annoyance, embarrassment, oppression, or undue burden or expense, and those orders may include limitations on the scope, method, time and place for discovery, and provisions for protecting the secrecy of confidential information or documents.

(b) *When depositions permitted.* After an appeal has been docketed and complaint filed, the parties may mutually agree to, or the Board may, upon application of either party and for good cause shown, order the taking of testimony of any person by deposition upon oral examination or written interrogatories before any officer authorized to administer oaths at the place of examination, for use as evidence or for purpose of discovery. The application for order shall specify whether the purpose of the deposition is discovery or for use as evidence.

(c) *Orders on depositions.* The time, place, and manner of taking depositions shall be as mutually agreed by the parties, or failing such agreement, governed by order of the Board.

(d) *Use as evidence.* No testimony taken by depositions shall be considered as part of the evidence in the hearing of an appeal unless and until such testimony is offered and received in evidence at such hearing. It will not ordinarily be received in evidence if the deponent is present and can testify personally at the hearing. In such instances, however, the deposition may be used to contradict or impeach the testimony of the witness given at the hearing. In cases submitted on the record, the Board may in its discretion receive depositions as evidence in supplementation of that record.

(e) *Expenses.* Each party shall bear its own expenses associated with the taking of any deposition.

15. *Interrogatories to parties, production and inspection of documents*—(a) *Interrogatories to parties.* After an appeal has been filed with the Board, a party may serve on the other party written interrogatories to be answered separately in writing, signed under oath and returned within 15 days. Upon timely objection by the party, the Board will determine the extent to which the interrogatories will be permitted. The scope and use of interrogatories will be controlled by Rule 14.

(b) *Production and inspection of documents.* Upon motion of any party showing good cause therefor, and upon notice, the Board may order the other party to produce and permit the inspection and copying or photographing of any designated documents or objects, not privileged, specifically identified, and their relevance and materiality to the cause or causes in issue explained, which are reasonably calculated to lead to the discovery of admissible evidence. If the parties cannot themselves agree thereon, the Board shall specify just terms and conditions in making the inspection and taking the copies and photographs.

16. *Service of papers.* Papers shall be served personally or by mailing the same, addressed to the party upon whom service is to be made. All copies of complaints, answers and simultaneous briefs shall be filed directly with the Board. The party filing any other paper with the Board shall send a copy thereof to the opposing party, noting on the paper filed with the Board, or on the letter transmitting the same, that a copy has been so furnished.

HEARINGS

17. *Where and when held.* Hearings will ordinarily be held in Washington, D.C., except that upon request seasonably made and upon good cause shown, the Board may in its discretion set the hearing at another location. Hearings will be scheduled at the discretion of the Board with due consideration to the regular order of appeals and other pertinent factors. On request or motion by either party and upon good cause shown, the Board may in its discretion advance a hearing.

18. *Notice of hearings.* The parties shall be given at least 15 days notice of the time and place set for hearings. In scheduling hearings, the Board will give due regard to the desires of the parties and to the requirement for just and inexpensive determination of appeals without unnecessary delay. Notices of hearing shall be promptly acknowledged by the parties. A party failing to acknowledge a notice of hearing shall be deemed to have submitted his case upon the Board record as provided in Rule 11.

19. *Unexcused absence of a party.* The unexcused absence of a party at the time and place set for hearing will not be occasion for delay. In the event of such absence, the hearing will proceed and the case will be regarded as submitted by the absent party as provided in Rule 11.

20. *Nature of hearings.* Hearings shall be as informal as may be reasonable and appropriate under the circumstances. Appellant and respondent may offer at a hearing on the merits such relevant evidence as they deem appropriate and as would be admissible under the generally accepted rules of evidence applied in the courts of the United States in non-jury trials, subject, however, to the sound discretion of the presiding member or examiner in supervising the extent and manner of presentation of such evidence. In general, admissibility will hinge on relevancy and materiality. Letters or copies thereof, affidavits, or other evidence not ordinarily admissible under the generally accepted rules of evidence, may be admitted in the discretion of the presiding member or examiner. The weight to be attached to evidence presented in any particular form will be within the discretion of the Board, taking into consideration all the circumstances of the particular case. Stipulations of fact agreed upon by the parties may be regarded and used as evidence at the hearing. The parties may stipulate the testimony that would be given by a witness if the witness were present. The Board may in any case require evidence in addition to that offered by the parties.

21. *Examination of witnesses.* Witnesses before the Board will be examined orally under oath or affirmation, unless the facts are stipulated, or the Board member or examiner shall otherwise order. If the testimony of a witness is not given under oath, the Board may, if it seems expedient, warn the witness that his statements may be subject to the provisions of Title 18, United States Code, Sections 287 and 1001, and any other provisions of law imposing penalties for knowingly making false representations in connection with claims against the United States or in any matter within the jurisdiction of any department or agency thereof.

22. *Copies of papers.* When books, records, papers, or documents have been received in evidence, a true copy thereof or of such part thereof as may be material or relevant may be substituted therefor, during the hearing or at the conclusion thereof.

23. *Posthearing briefs.* Posthearing briefs may be submitted upon such terms as may be agreed upon by the parties and the presiding member or examiner at the conclusion of the hearing. Ordinarily, they will be simultaneous briefs, exchanged within 30 days after receipt of transcript.

24. *Transcript of proceedings.* Testimony and argument at hearings shall be reported verbatim, unless the Board otherwise orders. Transcripts of the proceedings shall be supplied to the parties at such rates as may be fixed by General Services Administration.

25. *Withdrawal of exhibits.* After a decision has become final the Board may, upon request and after notice to the other party, in its discretion permit the withdrawal of original exhibits, or any part thereof, by the party entitled thereto. The substitution of true copies of exhibits or any part thereof may be required by the Board in its discretion as a condition of granting permission for such withdrawal.

REPRESENTATION

26. *The appellant.* An individual appellant may appear before the Board in person, a corporation by an officer thereof, a partnership or joint venture by a member thereof, or any of these by an attorney at law duly licensed in any state, commonwealth, territory, or in the District of Columbia.

27. *The respondent.* Government counsel may, in accordance with their authority, represent the interest of the Government before the Board. They shall file notices of appearance with the Board, and notice thereof will be given appellant or his attorney in the form specified by the Board from time to time. Whenever at any time it appears that appellant and Government counsel are in agreement as to disposition of the controversy, the Board may suspend further processing of the appeal: *Provided, however,* That if the Board is advised thereafter by either party that the controversy has not been disposed of by agreement, the case shall be restored to the Board's calendar without loss of position.

DECISIONS

28. Decisions of the Board will be made in writing and authenticated copies thereof will be forwarded simultaneously to both parties. The rules of the Board and all final orders and decisions shall be open for public inspection at the offices of the Board in Washington, D.C. Decisions of the Board will be made solely upon the record, as described in Rule 13.

MOTION FOR RECONSIDERATION

29. A motion for reconsideration, if filed by either party, shall set forth specifically the ground or grounds relied upon to sustain the motion, and shall be filed within 30 days from the date of the receipt of a copy of the decision of the Board by the party filing the motion.

DISMISSALS

30. *Dismissal without prejudice.* In certain cases, appeals docketed before the Board are required to be placed in a suspense status and the Board is unable to proceed with disposition thereof for reasons not within the control of the Board. In any such case where the suspension has continued, or it appears that it will continue, for an inordinate length of time, the Board may in its discretion dismiss such appeals from its docket without

V4014 JAN 21 75 XUM

prejudice to their restoration when the cause of suspension has been removed. Unless either party or the Board acts within three years to reinstate any appeal dismissed without prejudice, the dismissal shall be deemed with prejudice.

31. *Dismissal for failure to prosecute.* Whenever a record discloses the failure of either party to file documents required by these rules, respond to notices or correspondence from the Board, or otherwise indicates an intention not to continue the prosecution or defense of an appeal, the Board may issue an order requiring the offending party to show cause why the appeal should not be either dismissed or granted, as appropriate. If the offending party shall fail to show such cause, the Board may take such action as it deems reasonable and proper under the circumstances.

EX PARTE COMMUNICATIONS

32. No member of the Board or of the Board's staff shall entertain, nor shall any person directly or indirectly involved in an appeal submit to the Board or the Board's staff, off the record any evidence, explanation, analysis, or advice, whether written or oral, regarding any matter at issue in an appeal. This provision does not apply to consultation among Board members nor to ex parte communications concerning the Board's administrative functions or procedures.

SANCTIONS

33. If any party fails or refuses to obey an order issued by the Board, the Board may make such order in regard to the failure as it considers necessary to the just and expeditious conduct of the appeal.

CHAPTER 9—ATOMIC ENERGY COMMISSION

PART 9-5—SPECIAL AND DIRECTED SOURCES OF SUPPLY

Subpart 9-5.52—Procurement of Special Items

AEC FORMS

This revision to AECPR 9-5.5206-3 is being made in order to delete paragraph (b) thereof and to change paragraph (c) to (b). This action is being taken since it is not considered appropriate to cite in the AECPRs the material set forth in paragraph (b).

In Subpart 9-5.52, Procurement of Special Items, § 9-5.5206-3, paragraph (b) is deleted and paragraph (c) is redesignated as (b) to read as follows:

§ 9-5.5206-3 AEC forms.

* * * * *

(b) Cost-type contractors shall obtain their requirements for AEC forms through the AEC.

AUTHORITY: Sec. 161 of the Atomic Energy Act of 1954, as amended, 68 Stat. 948, 42 U.S.C. 2201; Sec. 205 of the Federal Property and Administrative Services Act of 1949, as amended, 63 Stat. 390, 40 U.S.C. 486.

Effective Date: This amendment is effective January 21, 1975.

Dated at Germantown, Maryland this 9th day of January, 1975.

For the U.S. Atomic Energy Commission.

JOSEPH L. SMITH,
Director,
Division of Contracts.

Title 42—Public Health

CHAPTER I—PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER C—MEDICAL CARE AND EXAMINATIONS

PART 37—SPECIFICATIONS FOR MEDICAL EXAMINATIONS OF UNDERGROUND COAL MINERS

Second Round of Chest Roentgenographic Examinations; Further Extension of Time for Submission of X-rays

On September 18, 1974, the regulations governing the second round of medical examinations of underground coal miners, which were promulgated in 1973 (38 FR 20076), were amended to extend the examination period to December 30, 1974 (39 FR 33518).

During a work stoppage in the coal mining industry which began on November 12, 1974, and continued for some time, it has not been possible to afford miners an adequate opportunity to obtain their second round examination.

In view of the foregoing and to permit the second round examination of all underground miners in accordance with section 203 of the Federal Coal Mine Health and Safety Act (30 U.S.C. 843), (1) it is necessary to extend the date for the completion of the second round examinations to March 31, 1975 and (2) it is found, pursuant to section 553 of Title 5, United States Code, that it would be impracticable and contrary to the public interest to give notice of proposed rulemaking and opportunity for public participation in the rulemaking which extends the date.

Therefore, § 37.3(a) is amended as set forth below, effective on December 30, 1975."

(Sec. 203, 83 Stat. 763 (30 U.S.C. 843))

Dated: January 13, 1975.

CHARLES C. EDWARDS,
Assistant Secretary for Health.

Approved: January 15, 1975.

CASPAR W. WEINBERGER,
Secretary.

§ 37.3 [Amended]

In the first sentence of paragraph (a) of § 37.3, the date reading "December 30, 1974" is changed to read "March 31, 1975."

Title 43—Public Lands: Interior

CHAPTER II—BUREAU OF LAND MANAGEMENT, DEPARTMENT OF THE INTERIOR

SUBCHAPTER A—GENERAL MANAGEMENT (1000)

[Circular No. 2366]

PART 1780—COOPERATIVE RELATIONS

Subpart 1784—Advisory Boards

PROCEDURES FOR THE OPERATION OF ADVISORY BOARDS

On pages 35800 and 35801 of the FEDERAL REGISTER of October 4, 1974, there was published a notice and text of proposed rules amending Subchapter A of Chapter II, Title 43, Code of Federal Regulations. The purpose of this amendment is to provide regulations to implement requirements of the Federal Advisory Committee Act (86 Stat. 770; 5 App. I U.S.C.). The regulations provide procedures for the establishment, operation, control and termination of advisory boards created to advise the Secretary of the Interior and the Director, State Directors, and District Managers of the Bureau of Land Management on matters pertaining to the use and management of lands under the administration of the Bureau of Land Management.

Separate regulations dealing specifically with structuring of district, state and national advisory boards are being published in the FEDERAL REGISTER for public review and comment.

Interested persons were given until November 8, 1974, to submit comments, suggestions, or objections to the proposed amendment. Thirty-five comments were received. Most commentors objected to any change in the present structure and operation of grazing district advisory boards. As indicated above, separate regulations that would provide for district boards are being published. This suggestion must therefore be considered premature.

One commentor suggested that one-year terms for board members are too short to allow an individual to contribute to the program. The one-year appointment provision is intended to provide the appointing officer an opportunity to review the appointment and determine if an individual is performing the functions required by the board charter. The provision does not preclude reappointment of an individual who continues to meet the requirements of the position.

Several commentors questioned the meaning of the language in § 1784.2(a) which states that a person will not be qualified as an advisor with respect to an industry, service, or discipline if he has a substantial relationship to a conflicting or competing interest. The intent of this provision is to secure the most objective advice possible and to avoid questions that could arise if an individual, chosen to represent an industry, service, or discipline were to be employed by or have a substantial relationship to an interest that could be considered conflicting. This provision has been clarified by incorporating new language, including some from the Federal Advisory Committee Act into the regulations.

Other comments dealt with composition and methods of selecting representatives on the boards, and most particularly the district boards. These comments anticipate other regulations, noted above, which are being prepared separately and will deal with composition of the boards, how the members will be selected, and who will select the members. The suggestions therefore were not considered pertinent to this amendment.

Other changes from the proposed rulemaking have been made to clarify the regulations and to make the organization of the regulations consistent through-out. A new paragraph (d) has been added to § 1784.2 to assure that appointment of advisory board members is conducted in a non-discriminatory manner.

The proposed amendment is hereby adopted as set forth below and will become effective February 24, 1975.

Group 1700 of Chapter II, Title 43 of the Code of Federal Regulations is amended as follows:

1. The heading of Part 1780 and a Subpart 1784 are added to read as follows:

Group 1700—Program Management

PART 1780—COOPERATIVE RELATIONS

Subpart 1784—Advisory Boards

Sec.
1784.0-1 Purpose.
1784.0-2 Objectives.
1784.0-3 Authority.
1784.0-4 Definitions.
1784.1 Establishment, termination, and renewal.
1784.2 Appointment of members.
1784.3 Termination of appointments.
1784.4 Operating procedures.

AUTHORITY: The act of Oct. 6, 1972 (86 Stat. 770; 5 App. I U.S.C.).

Subpart 1784—Advisory Boards

§ 1784.0-1 Purpose.

This subpart contains guidelines and procedures for advisory boards created to advise the Secretary of the Interior and Director, State Directors, and district Managers of the Bureau of Land Management on matters relating to the use and management of lands and resources under the administrative jurisdiction of the Bureau of Land Management.

§ 1784.0-2 Objectives.

The objective of advisory boards under these regulations is to make available to the Department of the Interior and the Bureau of Land Management expert counsel by concerned people who are knowledgeable by experience, training, or education about the use and management of lands and their natural resources and the environment.

§ 1784.0-3 Authority.

The Act of October 6, 1972 (86 Stat. 770; 5 App. I U.S.C.) authorizes the establishment of a system governing the creation, operation, and termination of advisory boards in the executive branch of the Federal Government and specifies responsibilities, policies, and procedures in the creation, management, and termination of those boards.

§ 1784.0-4 Definitions.

An "advisory board" has the same meaning as an "advisory committee" which is defined in section 3 of the Federal Advisory Committee Act.

§ 1784.1 Establishment, termination, and renewal.

(a) An advisory board not specifically authorized by statute or by the President shall become established if and when the Secretary of the Interior determines, as a matter of formal record, after consultation with the Director, Office of Management and Budget, with timely notice published in the FEDERAL REGISTER, that establishment of the board is in the public interest in connection with duties imposed on the Department of the Interior by law. No advisory board shall meet or take any action until an advisory committee charter is filed as required by the Act.

(b) (1) Each nonstatutory advisory board (i.e. not established by statute or reorganization plan) which is in existence on January 5, 1973, shall terminate no later than January 5, 1975, unless it is renewed by the Secretary of the Interior prior to January 5, 1975, in accordance with the regulations of the Office of Management and Budget. Any advisory board which is renewed shall continue for not more than two years unless, prior to the expiration of that period, it is renewed. Each such advisory board established by the Secretary of the Interior after January 5, 1973, shall terminate not later than two years after its establishment unless prior to that time it is renewed.

(2) Each advisory board established by statute or reorganization plan which is in existence on January 5, 1973, shall terminate by January 5, 1975, unless its duration is otherwise provided for by law.

(i) Each such advisory board established by statute or reorganization plan which is established after January 5, 1973, shall terminate not later than two years after its establishment unless its duration is otherwise provided for by law.

(ii) Any such statutory advisory board shall file a new charter upon the expiration of each successive two-year period following the date of enactment of the statute establishing the board.

§ 1784.2 Appointment of members.

(a) The membership of the advisory board shall be fairly balanced in terms of points of view represented and the functions to be performed by the advisory board. To be qualified for appointment to an advisory board, a person must be capable, through education, training, or experience, to give informed advice as to a specified industry, service, or discipline. To assure that the advice and recommendations of the advisory board will not be inappropriately influenced, a person will not be qualified as an advisor with respect to an industry, service, or discipline if, in the judgment of the appointing officer, he has substantial relationship to a conflicting or competing industry, service, or discipline.

(b) Appointments to an advisory board will terminate 365 days from and after the beginning of appointment, unless a shorter period is specified in the appointing document. An individual may serve on any one advisory board for not more than a total of 10 years. Exceptions will be made only on demonstration to the Secretary or his delegate that longer service will yield substantially more benefits to the public interest than appointment of another individual.

(c) For purposes of compensation, members of advisory boards are considered nonsalaried employees of the Bureau of Land Management. While on advisory board business, they will receive reimbursement for travel costs and per diem as authorized by section 5703 of Title 5, United States Code.

(d) Minorities and women are to be given every opportunity and consideration for appointment to an advisory board. No person is to be denied an opportunity to serve on any board or committee because of race, sex, religion, national origin or age.

§ 1784.3 Termination of appointments.

(a) The Secretary or his authorized representative may, after due notice, terminate the services of an advisor if the person: (1) no longer meets the criteria or requirements under which appointed, or (2) fails to or is unable to serve, or (3) in the opinion of the Secretary or his authorized representative should be removed in the public interest.

§ 1784.4 Operating procedures.

(a) Unless otherwise provided for by statute, all activities of advisory boards chartered under the regulations of this subpart shall conform to the committee management requirements set forth in Part 308 of the Department of the Interior Manual which incorporates the requirements of relevant statutes, executive orders, and executive agency directives.

(b) The function of advisory boards is solely advisory to the official or officials to whom they report. Members of advisory boards may not act individually or collectively as advisory board members in any other capacity. Additionally, no board member may offer advice or make recommendations on any matter before a board if he has a financial or other interest in such matter. Membership on advisory boards, however, shall not diminish the exercise of rights of members as private individuals or members of other organizations or offices. Determinations of action to be taken on advisory board reports and recommendations shall be made solely by the Secretary of the Interior or his delegate.

V 40 14 JAN 21 75 XUM

(c) Advisory board meetings shall be held only at the call of the Secretary of the Interior or his authorized representative after at least 15-day published notice in the FEDERAL REGISTER. The authorized representative of the Secretary shall give such advance notice of time, place, and general subject matter of scheduled meetings as, in his judgment, will provide interested parties adequate opportunity to participate in or attend the meeting. The time and place of meetings shall be scheduled with the objective of permitting such participation or attendance. The authorized representative may adjourn a meeting at any time if he determines it to be in the public interest for any reason including, but not limited to, any instance where continuance of the meeting would be inconsistent (1) with governing laws, rules, or regulations, or (2) with the purpose for which the board convened. All meetings shall be held in the presence of an authorized representative of the Secretary. Each meeting shall be conducted in accordance with an agenda approved by the Secretary or his authorized representative prior to the meeting. All meetings of advisory boards shall be open to the public. Interested persons may attend, appear before, or file statements with any advisory board. The number of observers or participants at any advisory board meeting may be limited to the extent that available accommodations and time require limitation.

(d) Detailed minutes shall be kept of each advisory board meeting. The minutes shall include: the time and place of the meeting; a list of advisory board members and staff and agency employees present at the meeting; a complete summary of matters discussed and conclusions reached; copies of all reports received, issued, or approved by the advisory board; a description of the extent to which the meeting was open to the public; and a description of public participation, including a list of members of the public who presented oral or written statements and an estimate of the number of members of the public who attended the meeting. The chairman of the advisory board shall certify to the accuracy of the minutes.

(e) Subject to section 552 of Title 5, U.S.C., the records, reports, studies, working papers, or other documents which were made available to or prepared for or by an advisory board shall be available for public inspection and copying in the office of the authorized officer responsible for support services for that board under the regulations in this subpart until the advisory board ceases to exist. Departmental rules issued pursuant to the Freedom of Information Act (5 U.S.C. 552) and contained in Part 2 of this title apply to such documents.

JACK O. HORTON,
Assistant Secretary of the Interior.

[FR Doc.75-1864 Filed 1-20-75;8:45 am]

[Docket No. 74-31; Notice 04]

PART 576—RECORD RETENTION

Response to Petition for Reconsideration

This notice responds to a petition for reconsideration of Record Retention regulations published August 20, 1974 (39 FR 30045), that require manufacturers of motor vehicles to retain records regarding vehicle malfunctions that may be related to motor vehicle safety. The regulation was established as a temporary requirement until final requirements, based upon a proposal published concurrently (39 FR 30048), are issued.

One petition for reconsideration, from American Motors Corporation, was received. The petitioner requests that the regulation be revoked and that the agency refrain from issuing any similar final rule until comments received in response to the proposed rule are evaluated. American Motors Corporation lists the following reasons for its request: (1) the regulation was made effective without prior notice and before its publication in the FEDERAL REGISTER, (2) the classification of materials required to be retained is too broad, (3) the definition of "malfunctions that may be related to motor vehicle safety" is ambiguous, and (4) certain materials required to be retained may be privileged and confidential. American Motors' petition is hereby denied. The NHTSA has concluded for the following reasons that each of the petitioner's objections is invalid.

The decision by the NHTSA not to provide prior notice, and to impose an effective date prior to publication (in this case, the day the document was "posted" at the FEDERAL REGISTER) was within the agency's authority under relevant provisions of the Administrative Procedures Act. An agency need not publish prior notice when it finds that such notice would be "contrary to the public interest" (5 U.S.C. § 553(b)) and a rule may be made effective less than 30 days from publication "for good cause found and published with the rule" (5 U.S.C. § 553(d)). The NHTSA found and published its reasons for finding that prior notice of these requirements would be contrary to the public interest. The purpose of the requirements is to prevent the destruction of certain manufacturer records relating to motor vehicle malfunctions that are safety related. Both prior notice of the requirements and an effective date following initial public release of the requirements could induce the destruction of the records. In either case, their destruction would very likely be detrimental to the discovery and remedy of motor vehicle safety defects which would clearly be contrary to the public interest. This justification was published with the regulation in accordance with the statutory requirements, and the agency's action was therefore fully authorized by law.

The petitioner also complains that the classification of records is too broad and that the burden of retaining this number of documents outweighs the safety benefits that may be achieved. This argument is unpersuasive, especially in light of the temporary nature of the rule in question. The purpose of the interim rule is to keep a broad range of records from being destroyed while the agency decides on the proper outlines of a permanent rule. To serve this purpose the interim rule must be at least as broad as any permanent rule that is likely to be issued after consideration of all comments. Since this rule is to serve a temporary situation, the cost of maintaining any excess records will be small and transient. The NHTSA does not concede, however, that the scope of records covered in the interim rule is overly broad. The basic fund of historical materials concerning vehicle problems, of which the manufacturer is necessarily the custodian, must be maintained intact in order for later retrospective determinations concerning vehicle defects to be made. Manufacturer allegations that certain types of records are unnecessary, unprobative, or unreliable indicators of true problems, are manifestly self-serving. Since a determination that particular records may be destroyed is unsupervised and irreversible, as well as self-serving, the rules concerning their retention must be comprehensive.

Much the same response applies to AMC's argument that the definition of "malfunctions that may be related to motor vehicle safety" is insufficiently precise. The agency is concerned here with broad categories of future problems. The problems cannot be defined in advance. Any suggestions that may be received in the comments that would help to clarify the rule will be welcomed. But at this stage the NHTSA does not agree that the terms attacked by AMC—"normal deterioration," "unintended deviation," "injury to a person," "flaw," and "accident"—are too ambiguous to serve the purpose of the rule. In any case of doubt as to a particular type of record, a manufacturer has two viable choices: keep the record, or ask the NHTSA for an interpretation as to whether the rule covers it.

The petitioners final argument, that some of the material covered by the regulation is confidential, misconstrues the purpose of the rule. The rule does not determine what shall be revealed—it only relates to what shall not be destroyed. It does not prevent the manufacturer from questioning the propriety or legality of an agency request in a particular case, nor from requesting under appropriate statutory provisions that certain information be kept confidential. The NHTSA does not agree that the concepts of confidentiality or privilege include the right to destroy records that may contain information relevant to the public's safety.

For the reasons stated above the petition of American Motors Corporation is denied.

(Secs. 108, 112, 113, 119, Pub. L. 89-563, 80 Stat. 718; (15 U.S.C. 1397, 1401, 1402, 1407); delegation of authority at 49 CFR 1.51)

Issued on January 15, 1975.

Title 50—Wildlife and Fisheries

CHAPTER I—U.S. FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 28—PUBLIC ACCESS, USE AND RECREATION

Park River National Wildlife Refuge, Mass.

The following special regulations are issued and are effective during the period January 15, 1975 through December 31, 1975.

§ 28.28 Special regulations, public access, use, and recreation; for individual wildlife refuge areas.

MASSACHUSETTS

PARKER RIVER NATIONAL WILDLIFE REFUGE

Entrance into those portions of the refuge not posted as closed is permitted for certain uses specified herein during the hours that are designated at the entrance gate (generally dawn to dusk). Sightseeing, nature study, photography, hiking, snowshoeing, and cross-country skiing are encouraged.

Boating is permitted on navigable tidal waters which lie within the refuge. Boats may be landed only at the refuge boat launching site near the entrance gate.

The entire refuge beach has no lifeguards. Swimming will be at the visitor's own risk.

A limit of one-half bushel of plums and cranberries per family per year may be picked from August 25 through October 31. Cranberry rakes or scoops are not permitted.

Access to clam flats for clamming is permitted across refuge marshes. Permits are required and may be obtained at the refuge.

Small cooking fires are permitted only on the ocean beach. No other fires are permitted at other locations on the refuge.

Alcoholic beverages, camping, tents, camping trailers, floating devices, and nudity in any form, are not permitted on the refuge.

Pets under full control on a leash not exceeding 10 feet in length are permitted on the refuge from November 1 to March 31 and on weekdays only from April 1 through May 23 and September 3 through October 31. Pets are not permitted on the refuge at any other time.

Organized group activities must be confined to the northern one-quarter mile of beach east of Lot 1. Advance reservations are required and there must be at least one adult supervisor for every 10 children.

The possession of any drugs or substances, or immediate precursors, identified in schedules I, II, III, IV, or V of Part B of the Controlled Substances Act, 21 U.S.C. 812, or any drugs or substances added to these schedules pursuant to the terms of the Act is prohibited on the refuge, unless such drugs or substances were obtained in accordance with the law. Presence in the refuge when under the influence of a controlled substance to a degree that may endanger oneself, or another person, or property, or may cause interference with another person's enjoyment of the refuge is prohibited.

Bicycles and registered motor vehicles are permitted on the main refuge road and in numbered parking areas only. Snowmobiles, air-cushion, all-terrain, or other similar vehicles deemed improper by refuge agents are not permitted on the refuge.

SURF FISHING (WALK-IN FISHERMAN)

Entire year, day only, no permit required.

May 1 through October 15, day and night, night permit required.

SURF FISHING (OVER-THE-SAND SURF FISHING VEHICLES)

May 1 through October 15 only, permit required.

May 1 through May 23, day and night.

May 24 through September 1, night (6 p.m. to 8 a.m.) only: No vehicle shall be operated on the beach between the hours of 8 a.m. to 6 p.m. During these hours all vehicles shall remain in the designated surf fishing vehicle parking area at the east end of Beach Access Trail #2 or exit from the beach area. This same designated daytime parking area must, however, be vacated by 8 p.m. each evening not to be reoccupied before 6 a.m. the next morning.

September 2 through October 15, day and night.

No fishing is permitted on the northern one-quarter mile of beach east of Lot 1 from 8 a.m. to 6 p.m.

Permit requirements are as follows:

Night permittees may enter the refuge only until dusk except they may enter until 10 p.m. from May 24 through September 1. Night permittees may remain on the refuge, or may exit through a one-way gate at any time.

Vehicles with the special permit may be on the ocean beach only when the occupants are actively engaged in surf fishing.

All vehicle permits must be affixed to the vehicles as instructed at the time of issuance.

Motocycles, or any vehicle deemed improper by refuge agents, may not receive the permit.

Over-the-sand surf fishing vehicles must be equipped with spare tire, shovel, jack, tow rope or chain, board or similar support for jack, and low-pressure tire gauge.

Vehicles, under the terms of an over-the-sand surf fishing permit, may drive only on designated beach access routes and on the beach east of the line formed by the eastern base of the dunes.

No vehicle is permitted on the northern one-quarter mile of beach east of Lot 1 at any time.

Ruts or holes resulting from freeing a stuck vehicle shall be promptly filled by the operator.

Riding on fenders, tailgates, roof, or any other position outside of the vehicle is prohibited.

Failure to comply with any regulation shall be grounds for immediate cancellation of all permits.

A map of the refuge is available from the Refuge Manager, Parker River National Wildlife Refuge, Northern Boulevard, Plum Island, Newburyport, Massachusetts 01950, or from the Regional Director, U.S. Fish and Wildlife Service, John W. McCormack Post Office and Courthouse, Boston, Massachusetts 02109.

The provisions of this special regulation supplement the regulations governing recreation on wildlife refuge areas generally, which are set forth in 50 CFR Part 28, and are effective through December 31, 1975.

RICHARD E. GRIFFITH,
Regional Director, U.S. Fish and Wildlife Service.

JANUARY 7, 1975.

PART 33—SPORT FISHING

Wildlife Refuges in Oklahoma and Texas

The following special regulations are issued and are effective January 21, 1975.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

OKLAHOMA

SEQUOYAH NATIONAL WILDLIFE REFUGE

Sport fishing on the Sequoyah National Wildlife Refuge, Oklahoma, is permitted only on the areas designated by signs as open to fishing. These open areas, comprising 10,100 acres, are delineated on maps available at refuge headquarters, Sallisaw, Oklahoma, and from the Regional Director, U.S. Fish and Wildlife Service, P.O. Box 1306, Albuquerque, New

V40I14 JAN21 75 XUM

Mexico 87103. Sport fishing shall be in accordance with all applicable State regulations subject to the following special conditions:

(1) The open season for sport fishing on the refuge extends from January 1 through December 31, 1975, inclusive, except for an area of approximately 2,200 acres south of Vian Creek, as posted, to be closed during the period October 1, 1975 through March 31, 1976, inclusive.

(2) Some refuge roads leading to waters open to fishing may be closed during the period October 1, 1975 through March 31, 1976, inclusive, as posted.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1975.

WASHITA NATIONAL WILDLIFE REFUGE

Sport fishing is permitted on all waters of the Washita National Wildlife Refuge, Oklahoma, during open season in areas designated by signs as open to fishing. These open areas, comprising 3,367 acres, are delineated on maps available at refuge headquarters, Butler, Oklahoma, and from the Regional Director, U.S. Fish and Wildlife Service, P.O. Box 1306, Albuquerque, New Mexico 87103. Fishing shall be in accordance with all applicable State regulations subject to the following special conditions:

(1) The open season for sport fishing on the refuge extends from April 1 through October 14, 1975, inclusive.

(2) Seining is prohibited in all refuge waters.

(3) All trotlines must be removed from refuge waters on or before October 14, 1975.

(4) From State Highway 33 south to Big Panther Creek, a "no visible wake zone" is in effect for all boats.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through October 14, 1975.

TEXAS

ANAHUAC NATIONAL WILDLIFE REFUGE

Sport fishing and crabbing on the Anahuac National Wildlife Refuge, Texas, is permitted only on the areas designated by signs as open to fishing. These open areas, comprising 2¾ miles of roadside drain and pond edge and 7 miles of East Bay and Oyster Bayou shoreline, are delineated on maps available at refuge headquarters, Anahuac, Texas, and from the Regional Director, U.S. Fish and Wildlife Service, P.O. Box 1306, Albuquerque, New Mexico 87103. Sport fishing shall be in accordance with all applicable State regulations subject to the following special conditions:

(1) Boats and floating devices may not be used for fishing on inland waters.

(2) In inland waters, fishing is permitted only by ordinary pole and line, rod and reel, or hand-held line. Trotlines, throw lines, set lines, bows and arrows, gigs, and spears may not be used in inland waters.

The provisions of this special regulations supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1975.

BRAZORIA NATIONAL WILDLIFE REFUGE

Sport fishing on the Brazoria National Wildlife Refuge, Texas, is permitted only on the areas designated by signs as open to fishing. These open areas, comprising 900 acres of inland salt lakes and 18 miles of shoreline, are delineated on maps available at refuge headquarters, Angleton, Texas, and from the Regional Director, U.S. Fish and Wildlife Service, P.O. Box 1306, Albuquerque, New Mexico 87103. Sport fishing shall be in accordance with all applicable State regulations subject to the following special condition:

(1) Fishing is not permitted on interior waters except Nicks Lake, Salt Lake and Lost Lake.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1975.

BUFFALO LAKE NATIONAL WILDLIFE REFUGE

Due to the lack of water in Buffalo Lake, the Buffalo Lake National Wildlife Refuge, Texas, is closed to fishing for Calendar Year 1975.

LAGUNA ATASCOSA NATIONAL WILDLIFE REFUGE

Sport fishing on the Laguna Atascosa National Wildlife Refuge, Texas, is permitted from January 1 through December 31, 1975, inclusive, but only on the area designated by signs as open to fishing. This open area, comprising 140 acres, is limited to the Arroyo Colorado Navigation District (Harlingen) Ship Channel and the banks of the channel as it extends through the refuge. Maps, delineating the area, are available at refuge headquarters, Harlingen, Texas, and from the Regional Director, U.S. Fish and Wildlife Service, P.O. Box 1306, Albuquerque, New Mexico 87103. Fishing shall be in accordance with all applicable State regulations governing sport fishing subject to the following special conditions:

(1) Fishing with trotlines is not permitted.

(2) The refuge officer in charge may at his discretion close the fishing area for public safety, to protect wildlife, or to protect government property.

The provisions of this special regulation supplement the regulations which govern sport fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1975.

MULESHOE NATIONAL WILDLIFE REFUGE

Due to the lack of water in fishing lakes, Muleshoe National Wildlife Refuge, Texas is closed to fishing for Calendar Year 1975.

JERRY L. STEGMAN,
Acting Regional Director, U.S. Fish and Wildlife Service, Albuquerque, New Mexico.

JANUARY 14, 1975.

[FR Doc.75-1811 Filed 1-20-75;8:45 am]

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF THE TREASURY

Customs Service

[19 CFR Part 111]

CUSTOMHOUSE BROKERS

Application Fee for License To Transact Business in Additional District

Notice is hereby given that under the authority of 5 U.S.C. 301, R.S. 251, as amended (19 U.S.C. 66), sections 624, 641, 46 Stat. 759, as amended (19 U.S.C. 1624, 1641), and section 501, 65 Stat. 290 (31 U.S.C. 483(a)), it is proposed to amend § 111.19(b) of the Customs Regulations (19 CFR 111.19(b)) to increase the Customs fee required to accompany an application by a customhouse broker for a license to transact Customs business in an additional Customs district.

On July 25, 1974, Treasury Decision 74-200 (39 FR 27127) amended § 111.12 (a) of the Customs Regulations, increasing the fee required to accompany the application for a customhouse broker's license from $150 to $200. This increase was necessary in order to more nearly recover the actual costs incurred by the United States Customs Service in rendering this service to the public. Section 111.19(b) currently specifies that a fee of $150 is required to accompany an application by a customhouse broker for a license to transact Customs business in an additional Customs district. However, no significant difference exists in the costs incurred by the United States Customs Service in processing an initial application for a customhouse broker's license and those incurred in processing an application for a license to transact business in an additional Customs district. Therefore, in order to more nearly recover the actual costs incurred in processing applications for licenses to transact business in additional Customs districts and to again conform the fee specified in § 111.19(b) with that specified in § 111.12(a), it is necessary to amend § 111.19(b) to increase the amount of the specified fee from $150 to $200.

Accordingly, it is proposed to amend § 111.19(b) of the Customs Regulations (19 CFR 111.19(b)) to read as follows:

§ 111.19 Licenses for additional districts.

* * * * *

(b) Submitting the fee of $200 with the application; and

* * * * *

Data, views, or arguments with respect to the foregoing proposal may be addressed to the Commissioner of Customs, Attention: Regulations Division, Washington, D.C. 20229. To insure consideration of such Communications, they must be received on or before February 5, 1975.

Written material or suggestions submitted will be available for public inspection in accordance with § 103.8(b) of the Customs Regulations (19 CFR 103.8(b)), at the Regulations Division, Headquarters, United States Customs Service, Washington, D.C., during regular business hours.

[SEAL] G. R. DICKERSON,
Acting Commissioner of Customs.

Approved: January 9, 1975.

DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

[FR Doc.75-1895 Filed 1-20-75;8:45 am]

Internal Revenue Service

[26 CFR Parts 31, 301]

EMPLOYMENT TAX, PROCEDURE AND ADMINISTRATION REGULATIONS

Notice of Proposed Rule Making

Notice is hereby given that the regulations set forth in tentative form in the attached appendix are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments pertaining thereto which are submitted in writing (preferably six copies) to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224, by February 20, 1975. Pursuant to 26 CFR 601.601(b), designations of material as confidential or not to be disclosed, contained in such comments, will not be accepted. Thus, a person submitting written comments should not include therein material that he considers to be confidential or inappropriate for disclosure to the public. It will be presumed by the Internal Revenue Service that every written comment submitted to it in response to this notice of proposed rule making is intended by the person submitting it to be subject in its entirety to public inspection and copying in accordance with the procedures of 26 CFR 601.702(d)(9). Any person submitting written comments who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner by February 20, 1975. In such case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER, unless the person or persons who have requested a hearing withdraw their requests for a hearing before notice of the hearing has been filed with the Office of the Federal Register. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] DONALD C. ALEXANDER,
Commissioner of Internal Revenue.

This document contains proposed amendments to the Employment Tax Regulations (26 CFR Part 31) and the Regulations on Procedure and Administration (26 CFR Part 301) in order to conform such regulations to the provisions of sections 123(b), 502 (a) and (c), and 504 (a) and (b) of the Social Security Amendments of 1967 (81 Stat. 845, 934, 935), sections 203(b) and 204 of the Act of March 17, 1971 (Pub. L. 92-5, 85 Stat. 11), sections 203(b) and 204 (a) and (b) of the Act of July 1, 1972 (Pub. L. 92-336, 86 Stat. 419, 421), sections 135 (a) and (b), 144(c), and 293 of the Social Security Amendments of 1972 (86 Stat. 1362, 1370, 1459), section 203 (b) and (d) of the Act of July 9, 1973 (Pub. L. 93-66, 87 Stat. 153), and sections 5 (b), (d), and (f) and 6 (a) and (b) of the Act of December 31, 1973 (Pub. L. 93-233, 87 Stat. 954, 955).

Several of the above statutory amendments revised the tax rates under the Federal Insurance Contributions Act, and several of the amendments revised the amount of the earnings base which is subject to the tax. For taxable years beginning after 1974, the taxable earnings base may be increased by the Secretary of the Department of Health, Education, and Welfare under section 230 of the Social Security Act if he provides a cost-of-living increase in benefits under section 215(i) of that Act.

The Social Security Amendments of 1967 added an exclusion from "wages" for purposes of the Federal Insurance Contributions Act and the Federal Unemployment Tax Act for certain deferred compensation payments. This provision provides that the term "wages" does not include any payment or series of payments by an employer to an employee or any of his dependents which is paid (1) upon or after the termination of an employee's employment relationship because of the retirement or death of the employee, and (2) under a plan established by the employer which makes provision for his employees generally or a class or classes of his employees, or for such employees or class or classes of such employees and their dependents. In the case of payments made upon or after termination of employment because of retirement, the exclusion applies only if the retirement is for disability or after

V40-14 JAN 21 75 XUM

attaining an age specified in the plan. Furthermore, payments which would have been paid if the employment relationship had not been so terminated are not excluded.

The 1967 Amendments amended the Internal Revenue Code of 1954 to extend Federal Insurance Contributions Act coverage to domestic employment performed in an employer-employee relationship by a parent for his son or daughter where there is a need for the parent to perform such work. Such employment is covered if the employer has living in his home a son or daughter (including an adopted child or stepchild) who is under age 18 or whose mental or physical condition requires the personal care and supervision of an adult for at least 4 continuous weeks in the quarter, and the employer either is widowed or divorced (and has not remarried) or has a spouse living in the home who, because of a mental or physical condition, is incapable of caring for the child for a least 4 continuous weeks in the quarter.

The 1967 Amendments also provided a credit or refund, under certain circumstances, in respect of the hospital insurance tax in the case of a railroad employee or employee representative subject to tax under the Railroad Retirement Tax Act who has other employment or is self-employed and is therefore also subject to tax under the Federal Insurance Contributions Act. The purpose of this change was to prevent the imposition of a double tax burden on an individual with respect to hospital insurance.

The 1967 Amendments also amended the Internal Revenue Code of 1954 to require railroad employers to furnish employees with statements showing the total amount of compensation on which railroad retirement employee tax was deducted and the amount of tax so deducted. This legislative change was intended to provide employees subject to both railroad retirement and social security taxes with information upon which to base a claim for credit or refund of excess hospital tax.

The Social Security Amendments of 1972 deleted this requirement. Instead, the 1972 Amendments require such employers to notify employees that they may be eligible for a credit or refund of any excess hospital tax. Also, such employers are to provide certain tax information to an employee with dual coverage upon his request.

The proposed regulations provide that the use of railroad employee's wage and tax statements (Form W–2 (RR)) is optional for 1968 and 1969. They require the use of that form for 1970 and 1971 unless the employer has been authorized by the Internal Revenue Service to use Form W–2 in lieu of Form W–2 (RR). This relaxation of the statutory rule is proposed because employers had difficulty including the data required by the 1967 Amendments on timely statements.

PROPOSED AMENDMENTS TO THE REGULATIONS

In order to conform the Employment Tax Regulations (26 CFR Part 31) and the Regulations on Procedure and Administration (26 CFR Part 301) to the amendments made to the Internal Revenue Code of 1954 by sections 123(b), 502 (a) and (c), and 504 (a) and (b) of the Social Security Amendments of 1967 (81 Stat. 845, 934, 935), sections 203(b) and 204 of the Act of March 17, 1971 (Pub. L. 92–5, 85 Stat. 11), sections 203(b) and 204 (a) and (b) of the Act of July 1, 1972 (Pub. L. 92–336, 86 Stat. 419, 421), sections 135 (a) and (b), 144(c), and 293 of the Social Security Amendments of 1972 (86 Stat. 1362, 1370, 1459), sections 203 (b) and (d) of the Act of July 9, 1973 (Pub. L. 93–66, 87 Stat. 153), and sections 5 (b), (d), and (f) and 6 (a) and (b) of the Act of December 31, 1973 (Pub. L. 93–233, 87 Stat. 954, 955), such regulations are amended as follows:

PARAGRAPH 1. Section 31.3101 is amended to read as follows:

§ 31.3101 Statutory provisions; rate of tax.

Sec. 3101. *Rate of tax*—(a) *Old-age, survivors, and disability insurance.* In addition to other taxes, there is hereby imposed on the income of every individual a tax equal to the following percentages of the wages (as defined in section 3121(a)) received by him with respect to employment (as defined in section 3121(b))—

(1) With respect to wages received during the calendar year 1968, the rate shall be 3.8 percent;

(2) With respect to wages received during the calendar years 1969 and 1970, the rate shall be 4.2 percent;

(3) With respect to wages received during the calendar years 1971 and 1972, the rate shall be 4.6 percent;

(4) With respect to wages received during the calendar year 1973, the rate shall be 4.85 percent;

(5) With respect to wages received during the calendar years 1974 through 2010, the rate shall be 4.95 percent; and

(6) With respect to wages received after December 31, 2010, the rate shall be 5.95 percent.

(b) *Hospital insurance.* In addition to the tax imposed by the preceding subsection, there is hereby imposed on the income of every individual a tax equal to the following percentages of the wages (as defined in section 3121(a)) received by him with respect to employment (as defined in section 3121(b))—

(1) With respect to wages received during the calendar years 1968, 1969, 1970, 1971, and 1972, the rate shall be 0.60 percent;

(2) With respect to wages received during the calendar year 1973, the rate shall be 1.0 percent;

(3) With respect to wages received during the calendar years 1974 through 1977, the rate shall be 0.90 percent;

(4) With respect to wages received during the calendar years 1978 through 1980, the rate shall be 1.10 percent;

(5) With respect to wages received during the calendar years 1981 through 1985, the rate shall be 1.35 percent; and

(6) With respect to wages received after December 31, 1985, the rate shall be 1.50 percent.

[Sec. 3101 as amended by sec. 208(b), Social Security Amendments 1954; sec. 202(b), Social Security Amendments 1956; sec. 401(b), Social Security Amendments 1958; sec. 201 (b), Social Security Amendments 1961; secs. 111(c)(5) and 321(b), Social Security Amendments 1965; sec. 109 (a)(2) and (b)(2), Social Security Amendments 1967; sec. 204(a)(1), Act of March 17, 1971 (Pub. L. 92–5, 85 Stat. 11); sec. 204 (a)(2) and (b)(2), Act of July 1, 1972 (Pub. L. 92–336, 86 Stat. 421); sec. 135 (a)(2) and (b)(2), Social Security Amendments 1972; sec. 6 (a)(1) and (b)(2), Act of December 31, 1973 (Pub. L. 93–233, 87 Stat. 954, 955)]

PAR. 2. Section 31.3101–2 is amended to read as follows:

§ 31.3101–2 Rates and computation of employee tax.

(a) *Old-age, survivors, and disability insurance.* The rates of employee tax for old-age, survivors, and disability insurance with respect to wages received in calendar years after 1954 are as follows:

Calendar years:	Percent
1955 and 1956	2
1957 and 1958	2.25
1959	2.5
1960 and 1961	3
1962	3.125
1963 to 1965, both inclusive	3.625
1966	3.85
1967	3.9
1968	3.8
1969 and 1970	4.2
1971 and 1972	4.6
1973	4.85
1974 to 2010, both inclusive	4.95
2011 and subsequent calendar years	5.95

(b) *Hospital insurance.* The rates of employee tax for hospital insurance with respect to wages received in calendar years after 1965 are as follows:

Calendar years:	Percent
1966	0.35
1967	.50
1968 to 1972, both inclusive	.60
1973	1.0
1974 to 1977, both inclusive	0.90
1978 to 1980, both inclusive	1.10
1981 to 1985, both inclusive	1.35
1986 and subsequent calendar years	1.50

(c) *Computation of employee tax.* The employee tax is computed by applying to the wages received by the employee the rate in effect at the time such wages are received.

Example. In 1972, employee A performed for employer X services which constituted employment (see § 31.3121(b)–2). In 1973 A receives from X $1,000 as remuneration for such services. The tax is payable at the 5.85 percent rate (4.85 percent plus 1.0 percent) in effect for the calendar year 1973 (the year in which the wages are received) and not at the 5.2 percent rate which was in effect for the calendar year 1972 (the year in which the services were performed).

PAR. 3. Section 31.3111 is amended to read as follows:

§ 31.3111 Statutory provisions; rate of tax.

Sec. 3111. *Rate of tax*—(a) *Old-age, survivors, and disability insurance.* In addition to other taxes, there is hereby imposed on every employer an excise tax, with respect to having individuals in his employ, equal to the following percentages of the wages (as defined in section 3121(a)) paid by him with respect to employment (as defined in section 3121(b))—

(1) With respect to wages paid during the calendar year 1968, the rate shall be 3.8 percent;

(2) With respect to wages paid during calendar years 1969 and 1970, the rate shall be 4.2 percent;

(3) With respect to wages paid during the calendar years 1971 and 1972, the rate shall be 4.6 percent;

(4) With respect to wages paid during the calendar year 1973, the rate shall be 4.85 percent;

(5) With respect to wages paid during the calendar years 1974 through 2010, the rate shall be 4.95 percent; and

(6) With respect to wages paid after December 31, 2010, the rate shall be 5.95 percent.

(b) *Hospital insurance.* In addition to the tax imposed by the preceding subsection, there is hereby imposed on every employer an excise tax, with respect to having individuals in his employ, equal to the following percentages of the wages (as defined in section 3121(a)) paid by him with respect to employment (as defined in section 3121(b))—

(1) With respect to wages paid during the calendar years 1968, 1969, 1970, 1971, and 1972, the rate shall be 0.60 percent;

(2) With respect to wages paid during the calendar year 1973, the rate shall be 1.0 percent;

(3) With respect to wages paid during the calendar years 1974 through 1977, the rate shall be 0.90 percent;

(4) With respect to wages paid during the calendar years 1978 through 1980, the rate shall be 1.10 percent;

(5) With respect to wages paid during the calendar years 1981 through 1985, the rate shall be 1.35 percent; and

(6) With respect to wages paid after December 31, 1985, the rate shall be 1.50 percent.

[Sec. 3111 as amended by sec. 208(c), Social Security Amendments 1954; sec. 202(c), Social Security Amendments 1956; sec. 401 (c), Social Security Amendments 1958; sec. 201(c), Social Security Amendments 1961; secs. 111(c)(6) and 321(c), Social Security Amendments 1965; sec. 109 (a)(3) and (b)(3), Social Security Amendments 1967; sec. 204(a)(2), Act of March 17, 1971 (Pub. L. 92–5, 85 Stat. 11); sec. 204 (a)(3) and (b)(3), Act of July 1, 1972 (Pub. L. 92–336, 86 Stat. 421); sec. 135 (a)(3) and (b)(3), Social Security Amendments 1972; sec. 6 (a)(2) and (b)(3), Act of December 31, 1973 (Pub. L. 93–233, 87 Stat. 954, 955)]

PAR. 4. Paragraphs (a) and (b) of § 31.3111–2 are amended to read as follows:

§ 31.3111–2 Rates and computation of employer tax.

(a) *Old-age, survivors, and disability insurance.* The rates of employer tax for old-age, survivors, and disability insurance with respect to wages paid in calendar years after 1954 are as follows:

Calendar years:	Percent
1955 and 1956	2
1957 and 1958	2.25
1959	2.5
1960 and 1961	3
1962	3.125
1963 to 1965, both inclusive	3.625
1966	3.85
1967	3.9
1968	3.8
1969 and 1970	4.2
1971 and 1972	4.6
1973	4.85
1974 to 2010, both inclusive	4.95
2011 and subsequent calendar years	5.95

(b) *Hospital insurance.* The rates of employer tax for hospital insurance with respect to wages paid in calendar years after 1965 are as follows:

Calendar years:	Percent
1966	0.35
1967	.50
1968 to 1972, both inclusive	.60
1973	1.0
1974 to 1977, both inclusive	0.90
1978 to 1980, both inclusive	1.10
1981 to 1985, both inclusive	1.35
1986 and subsequent calendar years	1.50

• • • • • •

PAR. 5. Section 31.3121(a)–1 is amended by revising paragraphs (a), (b), and the portion of paragraph (j) which precedes subparagraph (1), to read as follows:

§ 31.3121(a)–1 Wages.

(a) Whether remuneration paid after 1954 for employment performed after 1936 constitutes wages is determined under section 3121(a). This section and §§ 31.3121(a)(1)–1 to 31.3121(a)(15)–1, inclusive (relating to the statutory exclusions from wages), apply with respect only to remuneration paid after 1954 for employment performed after 1936. Whether remuneration paid after 1936 and before 1940 for employment performed after 1936 constitutes wages shall be determined in accordance with the applicable provisions of law and of 26 CFR (1939) Part 401 (Regulations 91). Whether remuneration paid after 1939 and before 1951 for employment performed after 1936 constitutes wages shall be determined in accordance with the applicable provisions of law and of 26 CFR (1939) Part 402 (Regulations 106). Whether remuneration paid after 1950 and before 1955 for employment performed after 1936 constitutes wages shall be determined in accordance with the applicable provisions of law and of 26 CFR (1939) Part 408 (Regulations 128).

(b) The term "wages" means all remuneration for employment unless specifically excepted under section 3121(a) (see §§ 31.3121(a)(1)–1 to 31.3121(a)(15)–1, inclusive) or paragraph (j) of this section.

• • • • • •

(j) In addition to the exclusions specified in §§ 31.3121(a)(1)–1 to 31.3121(a)(15)–1, inclusive, the following types of payments are excluded from wages:

• • • • • •

PAR. 6. Section 31.3121(a)(1) is amended to read as follows:

§ 31.3121(a)(1) Statutory provisions; definitions; wages; annual wage limitation.

Sec. 3121. *Definitions*—(a) *Wages.* • • •

(1) That part of the remuneration which, after remuneration (other than remuneration referred to in the succeeding paragraphs of this subsection) equal to the contribution and benefit base (as determined under section 230 of the Social Security Act) with respect to employment has been paid to an individual by an employer during any calendar year, is paid to such individual by such employer during such calendar year. If an employer (hereinafter referred to as a successor employer) during any calendar year acquires substantially all the property used in a trade or business of another employer (hereinafter referred to as a predecessor), or used in a separate unit of a trade or business of a predecessor, and immediately after the acquisition employs in his trade or business an individual who immediately prior to the acquisition was employed in the trade or business of such predecessor, then, for the purpose of determining whether the successor employer has paid remuneration (other than remuneration referred to in the succeeding paragraphs of this subsection) with respect to employment equal to the contribution and benefit base (as determined under section 230 of the Social Security Act) to such individual during such calendar year, any remuneration (other than remuneration referred to in the succeeding paragraphs of this subsection) with respect to employment paid (or considered under this paragraph as having been paid) to such individual by such predecessor during such calendar year prior to such acquisition shall be considered as having been paid by such successor employer;

(Sec. 3121(a)(1) as amended by sec. 204(a), Social Security Amendments 1954; sec. 402 (b), Social Security Amendments 1958; sec. 320(b)(2), Social Security Amendments 1965; sec. 108(b)(2), Social Security Amendments 1967; sec. 203(b)(2), Act of March 17, 1971 (Pub. L. 92–5, 85 Stat. 11); sec. 203 (b)(2), Act of July 1, 1972 (Pub. L. 92–336, 86 Stat. 419); sec. 203(b)(2) and (d), Act of July 9, 1973 (Pub. L. 93–66, 87 Stat. 153); sec. 5(b)(2), (d), and (f), Act of December 31, 1973 (Pub. L. 93–233, 87 Stat. 954))

PAR. 7. Section 31.3121(a)(1)–1 is amended by revising paragraph (a)(1), by revising so much of paragraph (a)(3) as precedes example (1), and by revising paragraph (b)(1), to read as follows:

§ 31.3121(a)(1)–1 Annual wage limitation.

(a) *In general.* (1) The term "wages" does not include that part of the remuneration paid by an employer to an employee within any calendar year—

(i) After 1954 and before 1959 which exceeds the first $4,200 of remuneration,

V40I14 JAN21 75 XUM

(ii) After 1958 and before 1966 which exceeds the first $4,800 of remuneration,
(iii) After 1965 and before 1968 which exceeds the first $6,600 of remuneration,
(iv) After 1967 and before 1972 which exceeds the first $7,800 of remuneration,
(v) After 1971 and before 1973 which exceeds the first $9,000 of remuneration,
(vi) After 1972 and before 1974 which exceeds the first $10,800 of remuneration,
(vii) After 1973 and before 1975 which exceeds the first $13,200 of remuneration, or
(viii) After 1974 which exceeds the amount equal to the contribution and benefit base (as determined under section 230 of the Social Security Act) which is effective for such calendar year

(exclusive of remuneration excepted from wages in accordance with paragraph (j) of § 31.3121(a)–1 or §§ 31.3121 (a)(2)–1 to 31.3121(a)(15)–1, inclusive) paid within the calendar year by an employer to the employee for employment performed for him at any time after 1936. For provisions relating to the treatment of tips for purposes of the annual wage limitation see § 31.3121(q)–1.

• • • • •

(3) If during a calendar year the employee receives remuneration from more than one employer, the annual wage limitation does not apply to the aggregate remuneration received from all of such employers, but instead applies to the remuneration received during such calendar year from each employer with respect to employment after 1936. In such case the first remuneration received in any calendar year after 1974 up to the amount equal to the contribution and benefit base (as determined under section 230 of the Social Security Act) (the first $13,200 received in 1974, the first $10,800 received in 1973, the first $9,000 received in 1972, the first $7,800 received in any calendar year after 1967 and before 1972, the first $6,600 received in any calendar year after 1965 and before 1968, the first $4,800 received in any calendar year after 1958 and before 1966, or the first $4,200 received in any calendar year after 1954 and before 1959) from each employer constitutes wages and is subject to the taxes, even though, under section 6413(c), the employee may be entitled to a special credit or refund of a portion of the employee tax deducted from his wages received during the calendar year. In this connection and in connection with the two examples immediately following, see § 31.6413(c)–1, relating to special credits or refunds of employee tax. In connection with the annual wage limitation in the case of remuneration paid for services performed in the employ of the United States or a wholly owned instrumentality thereof, see § 31.3122. In connection with the annual wage limitation in the case of remuneration paid for services performed in the employ of the Government of Guam, the Government of American Samoa, the District of Columbia, a political subdivision of the Government of Guam, or the Government of American Samoa, or any instrumentality of any of the foregoing which is wholly owned thereby, see § 31.3125. In connection with the application of the annual wage limitation, see also paragraph (b) of this section, relating to the circumstances under which wages paid by a predecessor employer are deemed to be paid by his successor.

• • • • •

(b) *Wages paid by predecessor attributed to successor.* (1) If an employer (hereinafter referred to as a successor) during any calendar year acquires substantially all the property used in a trade or business of another employer (hereinafter referred to as a predecessor), or used in a separate unit of a trade or business of a predecessor, and if immediately after the acquisition the successor employs in his trade or business an individual who immediately prior to the acquisition was employed in the trade or business of such predecessor, then, for purposes of the application of the annual wage limitation set forth in paragraph (a) of this section, any remuneration (exclusive of remuneration excepted from wages in accordance with paragraph (j) of § 31.3121(a)–1 or §§ 31.3121 (a)(2)–1 to 31.3121(a)(15)–1, inclusive) with respect to employment paid (or considered under this paragraph as having been paid) to such individual by the predecessor during such calendar year and prior to the acquisition shall be considered as having been paid by the successor.

• • • • •

PAR. 8. Section 31.3121(a)(12) is amended to read as follows:

§ 31.3121(a)(12) Statutory provisions; definitions; wages; tips.

Sec. 3121. *Definitions*—(a) *Wages.* For purposes of this chapter, the term "wages" means all remuneration for employment, including the cash value of all remuneration paid in any medium other than cash; except that such term shall not include—

• • • • •

(12) (A) Tips paid in any medium other than cash;

(B) Cash tips received by an employee in any calendar month in the course of his employment by an employer unless the amount of such cash tips is $20 or more;

(Sec. 3121(a)(12) as added by sec. 313(c)(3), Social Security Amendments 1965; as amended by sec. 504(a), Social Security Amendments 1967; sec. 122(b), Social Security Amendments 1972)

PAR. 9. The following sections are inserted immediately following § 31.3121(a)(12)–1:

§ 31.3121(a)(13) Statutory provisions; definitions; wages; payments under certain employers' plans after retirement, disability, or death.

Sec. 3121. *Definitions*—(a) *Wages.* For purposes of this chapter, the term "wages" means all remuneration for employment, including the cash value of all remuneration paid in any medium other than cash; except that such term shall not include—

• • • • •

(13) Any payment or series of payments by an employer to an employee or any of his dependents which is paid—

(A) Upon or after the termination of an employee's employment relationship because of (i) death, (ii) retirement for disability, or (iii) retirement after attaining an age specified in the plan referred to in subparagraph (B) or in a pension plan of the employer, and

(B) Under a plan established by the employer which makes provision for his employees generally or a class or classes of his employees (or for such employees or class or classes of employees and their dependents), other than any such payment or series of payments which would have been paid if the employee's employment relationship had not been so terminated;

(Sec. 3121(a)(13) as added by sec. 504(a), Social Security Amendments 1967; as amended by sec. 122(b) and 138(b), Social Security Amendments 1972)

§ 31.3121(a)(13)–1 Payments under certain employers' plans after retirement, disability, or death.

(a) *In general.* The term "wages" does not include the amount of any payment or series of payments made after January 2, 1968, by an employer to, or on behalf of, an employee or any of his dependents under a plan established by the employer which makes provisions for his employees generally (or for his employees generally and their dependents) or for a class or classes of his employees (or for a class or classes of his employees and their dependents), which is paid or commences to be paid upon or within a reasonable time after the termination of an employee's employment relationship because of the employee's—

(1) Death,
(2) Retirement for disability, or
(3) Retirement after attaining an age specified in the plan established by the employer or in a pension plan of the employer at the age at which a person in the employee's circumstances is eligible for retirement.

A payment or series of payments made under the circumstances described in the preceding sentence is excluded from "wages" even if made pursuant to an incentive compensation plan which also provides for the making of other types of payments. However, any payment or series of payments which would have been paid if the employee's relationship had not been terminated is not excluded from "wages" under this section and section 3121(a)(13). For example, lump-sum payments for unused vacation time or a final paycheck received after retirement are payments which the employee would have received whether or not he retired and therefore are not excluded from "wages" under this section. Further, if any payment is made upon or after termination of employment for any reason other than those set out in subparagraphs (1), (2), and (3) of this paragraph such payment is not excludable from "wages" by this section. For example, if a pension plan provides for retirement upon disability, completion of 30 years of service, or attainment of age 65, and if an employee who is not disabled retires at age 61 after 30 years of service, none of the retirement payments made to the employee under the pension plan (including any made after he is 65) is excludable from "wages" under this section. However, if the pension plan had conditioned retirement after 30 years of service upon attainment of age 60, all of the retirement payments would have been excludable.

(b) *Plan.* The plan or system established by an employer need not provide for payments because of termination of employment for all the reasons set out in subparagraphs (1), (2), and (3) of paragraph (a), but such plan or system may provide for payments because of termination for any one or more of such reasons. Payments because of termination of employment for any one or more of such reasons under a plan or system established by an employer solely for the dependents of his employees are not within this exclusion from wages.

(c) *Dependents.* Dependents of an employee include the employee's husband or wife, children, and any other members of the employee's immediate family.

(d) *Benefit payment.* It is immaterial for purposes of this exclusion whether the amount or possibility of benefit payments is paid on account of services rendered or taken into consideration in fixing the amount of an employee's remuneration or whether such payments are required, expressly or impliedly, by the contract of service.

(e) *Example.* The application of this section may be illustrated by the following example:

Example. A, an employee, receives a salary of $1,500 a month, payable on the 5th day of the month following the month for which the salary is earned. A's employer has established an incentive compensation plan for a class of his employees, including A, providing for the payment of deferred compensation on termination of employment, including termination upon an employee's death, retirement at age 65 (the retirement age specified in the plan), or retirement for disability. On March 1, 1973, A attains the age of 65 and retires. On March 5, 1973, A receives $5,500 from his employer of which $1,500 represents A's salary for services he performed in February 1973, and $4,000 represents incentive compensation paid under the employer's plan.

The amount of $4,000 is excluded from "wages" under this section. The amount of $1,500 is not excluded from "wages" under this section.

PAR. 10. The following sections are inserted immediately following § 31.3121(a)(13)–1:

§ 31.3121(a)(14) Statutory provisions; definitions; wages; payments by employer to survivor or estate of former employee.

Sec. 3121. *Definitions*—(a) *Wages.* For purposes of this chapter, the term "wages" means all remuneration for employment, including the cash value of all remuneration paid in any medium other than cash; except that such term shall not include—

• • • • •

(14) Any payment made by an employer to a survivor or the estate of a former employee after the calendar year in which such employee died; or

(Sec. 3121(a)(14) as added by sec. 122(b), Social Security Amendments 1972)

§ 31.3121(a)(14)–1 Payments by employer to survivor or estate of former employee. [Reserved]

§ 31.3121(a)(15) Statutory provisions; definitions; wages; payments by employer to disabled former employee.

Sec. 3121. *Definitions*—(a) *Wages.* For purposes of this chapter, the term "wages" means all remuneration for employment, including the cash value of all remuneration paid in any medium other than cash; except that such term shall not include—

• • • • •

(15) Any payment made by an employer to an employee, if at the time such payment is made such employee is entitled to disability insurance benefits under section 223(a) of the Social Security Act and such entitlement commenced prior to the calendar year in which such payment is made, and if such employee did not perform any services for such employer during the period during which such payment is made.

(Sec. 3121(a)(15) as added by sec. 138(b), Social Security Amendments 1972)

§ 31.3121(a)(15)–1 Payments by employer to disabled former employee. [Reserved]

PAR. 11. Section 31.3121(b)(3) is amended by revising section 3121(b)(3)(B) and the historical note. These amended provisions read as follows:

§ 31.3121(b)(3) Statutory provisions; definitions; employment; family employment.

Sec. 3121. *Definitions.* • • •

(b) *Employment.* For purposes of this chapter, the term "employment" means • • • any service, of whatever nature, performed after 1954 • • •; except that • • • such term shall not include—

• • • • •

(3)(A) Service performed by an individual in the employ of his spouse, and service performed by a child under the age of 21 in the employ of his father or mother;

(B) Service not in the course of the employer's trade or business, or domestic service in a private home of the employer, performed by an individual in the employ of his son or daughter; except that the provisions of this subparagraph shall not be applicable to such domestic service if—

(i) The employer is a surviving spouse or a divorced individual and has not remarried, or has a spouse living in the home who has a mental or physical condition which results in such spouse's being incapable of caring for a son, daughter, stepson, or stepdaughter (referred to in clause (ii) for at least 4 continuous weeks in the calendar quarter in which the service is rendered, and

(ii) A son, daughter, stepson, or stepdaughter of such employer is living in the home, and

(iii) The son, daughter, stepson, or stepdaughter (referred to in clause (ii)) has not attained age 18 or has a mental or physical condition which requires the personal care and supervision of an adult for at least 4 continuous weeks in the calendar quarter in which the service is rendered;

(Sec. 3121(b)(4) redesignated paragraph (3) by sec. 205(b), Social Security Amendments 1954; as amended by sec. 104(b), Social Security Amendments 1960; sec. 123(b), Social Security Amendments 1967)

PAR. 12. Paragraphs (a) and (b) of § 31.3121(b)(3)–1 are revised to read as follows:

§ 31.3121(b)(3)–1 Family employment.

(a) Certain services are excepted from employment because of the existence of a family relationship between the employee and the individual employing him. The exceptions are as follows:

(1) Services performed by an individual in the employ of his or her spouse;

(2) (i) Services performed before 1961 by a father or mother in the employ of his of her son or daughter;

(ii) Services not in the course of the employer's trade or business, or domestic service in a private home of the employer, performed after 1960 but prior to 1968 by a father or mother in the employ of his or her son or daughter;

(iii) Services not in the course of the employer's trade or business, or domestic service in a private home of the employer, performed after 1967 by a father or mother in the employ of his or her son or daughter unless (*a*) the employer has a child (including an adopted child or stepchild) living in his or her home who is under age 18 or who has a mental or physical condition which requires the personal care and supervision of an adult for at least 4 continuous weeks in the calendar quarter in which the services are rendered; and (*b*) the employer is during the calendar quarter in which the services are rendered:

(*1*) A widow or widower;

(*2*) A divorced person who has not remarried; or

(*3*) A married person who has a spouse living in the home who has a mental or physical condition which results in such spouse's being incapable of caring for such child for at least 4 continuous weeks in the calendar quarter in which the services are rendered; and

(3) Services performed by a son or daughter under the age of 21 in the employ of his or her father or mother.

(b) Under paragraph (a)(1) and (2)(i) of this section, the exception is conditioned solely upon the family relationship between the employee and the individual employing him. Under paragraph (a)(2)(ii) and (iii) of this section, in addition to the family relationship, there is a further requirement that

V 40 14 JAN 21 75 XUM

the services performed after 1960 and before 1968 for purposes of paragraph (a)(2)(ii) and after 1967 for purposes of paragraph (a)(2)(iii) shall be services not in the course of the employer's trade or business or shall be domestic service in a private home of the employer. The terms "services not in the course of the employer's trade or business" and "domestic service in a private home of the employer" have the same meaning as when used in § 31.3121(a)(7)–1, except that it is immaterial under paragraphs (a)(2)(ii) and (iii) of this section whether or not such services are performed on a farm operated for profit. The mere fact that a mental or physical disability, whether temporary or permanent, renders a child or spouse incapable of self-support does not necessarily mean that the child requires the personal care and supervision of an adult or that the spouse is incapable of caring for a child within the meaning of paragraph (a)(2)(iii) of this section. A written statement by a doctor of the existence of the mental or physical condition of the child or spouse which states that the child requires the personal care and supervision of an adult or that the spouse is incapable of caring for a child and which sets forth the period of time during which the condition has existed and is likely to exist will usually be sufficient evidence to establish the existence and duration of the condition at the time of the statement. Under paragraph (a)(3) of this section, in addition to the family relationship, there is a further requirement that the son or daughter shall be under the age of 21, and the exception continues only during the time that the son or daughter is under the age of 21.

• • • • • •

PAR. 13. Section 31.3122 is amended to read as follows:

§ 31.3122 Statutory provisions; Federal service.

Sec. 3122. *Federal service.* In the case of the taxes imposed by this chapter with respect to service performed in the employ of the United States or in the employ of any instrumentality which is wholly owned by the United States, including service, performed as a member of a uniformed service, to which the provisions of section 3121(m)(1) are applicable, and including service, performed as a member of a uniformed service, to which the provisions of section 3121(m)(1) are applicable, and including service, performed as a volunteer or volunteer leader within the meaning of the Peace Corps Act, to which the provisions of section 3121(p) are applicable, the determination whether an individual has performed service which constitutes employment as defined in section 3121(b), the determination of the amount of remuneration for such service which constitutes wages as defined in section 3121(a), and the return and payment of the taxes imposed by this chapter, shall be made by the head of the Federal agency or instrumentality having the control of such service, or by such agents as such head may designate. The person making such return may, for convenience of administration, make payments of the tax imposed under section 3111 with respect to such service without regard to the contribution and benefit base limitation in section 3121(a)(1), and he shall not be required to obtain a refund of the tax paid under section 3111 on that part of the remuneration not included in wages by reason of section 3121(a)(1). Payments of the tax imposed under section 3111 with respect to service, performed by an individual as a member of a uniformed service, to which the provisions of section 3121(m)(1) are applicable, shall be made from appropriations available for the pay of members of such uniformed service. The provisions of this section shall be applicable in the case of service performed by a civilian employee, not compensated from funds appropriated by the Congress, in the Army and Air Force Exchange Service, Army and Air Force Motion Picture Service, Navy Exchanges, Marine Corps Exchanges, or other activities, conducted by an instrumentality of the United States subject to the jurisdiction of the Secretary of Defense, at installations of the Department of Defense for the comfort, pleasure, contentment, and mental and physical improvement of personnel of such Department; and for purposes of this section the Secretary of Defense shall be deemed to be the head of such instrumentality. The provisions of this section shall be applicable also in the case of service performed by a civilian employee, not compensated from funds appropriated by the Congress, in the Coast Guard Exchanges or other activities, conducted by an instrumentality of the United States subject to the jurisdiction of the Secretary, at installations of the Coast Guard for the comfort, pleasure, contentment, and mental and physical improvement of personnel of the Coast Guard; and for purposes of this section the Secretary shall be deemed to be the head of such instrumentality.

[Sec. 3122 as amended by secs. 202(c) and 203(a), Social Security Amendments 1954; sec. 411(b), Servicemen's and Veterans' Survivor Benefits Act (70 Stat. 879); sec. 402(c), Social Security Amendments 1958; sec. 70, Technical Amendments Act 1958 (72 Stat. 1660); sec. 202(a)(3), Peace Corps Act (75 Stat. 626); sec. 320(b)(3), Social Security Amendments 1965; sec. 108(b)(3), Social Security Amendment 1967; sec. 203(b)(3), Act of March 17, 1971 (Pub. L. 92–5, 85 Stat. 11); sec. 203(b)(3), Act of July 1, 1972 (Pub. Law 92–336, 86 Stat. 419); sec. 203(b)(3) and (d), Act of July 9, 1973 (Pub. Law 93–66, 87 Stat. 153); sec. 5(b)(3), (d), and (f), Act of December 31, 1973 (Pub. L. 93–233, 87 Stat. 954)]

PAR. 14. Section 31.3125 is amended to read as follows:

§ 31.3125 Statutory provisions; returns in the case of Government employees in Guam, American Samoa, and the District of Columbia.

Sec. 3125. *Returns in the case of Government employees in Guam, American Samoa, and the District of Columbia*—(a) *Guam.* The return and payment of the taxes imposed by this chapter on the income of individuals who are officers or employees of the Government of Guam or any political subdivision thereof or of any instrumentality of any one or more of the foregoing which is wholly owned thereby, and those imposed on such Government or political subdivision or instrumentality with respect to having such individuals in its employ, may be made by the Governor of Guam or by such agents as he may designate. The person making such return may, for convenience of administration, make payments of the tax imposed under section 3111 with respect to the service of such individuals without regard to the contribution and benefit base limitation in section 3121(a)(1).

(b) *American Samoa.* The return and payment of the taxes imposed by this chapter on the income of individuals who are officers or employees of the Government of American Samoa or any political subdivision thereof or of any instrumentality of any one or more of the foregoing which is wholly owned thereby, and those imposed on such Government or political subdivision or instrumentality with respect to having such individuals in its employ, may be made by the Governor of American Samoa or by such agents as he may designate. The person making such return may, for convenience of administration, make payments of the tax imposed under section 3111 with respect to the service of such individuals without regard to the contribution and benefit base limitation in section 3121(a)(1).

(c) *District of Columbia.* In the case of the taxes imposed by this chapter with respect to service performed in the employ of the District of Columbia or in the employ of any instrumentality which is wholly owned thereby, the return and payment of the taxes may be made by the Commissioners of the District of Columbia or by such agents as they may designate. The person making such return may, for convenience of administration, make payments of the tax imposed by section 3111 with respect to such service without regard to the contribution and benefit base limitation in section 3121(a)(1).

(Sec. 3125 as added by sec. 103(q)(1), Social Security Amendments 1960; amended by secs. 317(c)(1), (2), 320(b)(4), Social Security Amendments 1965; sec. 108(b)(4), Social Security Amendments 1967; sec. 203(b)(4), Act of March 17, 1971 (Pub. L. 92–5, 85 Stat. 11); sec. 203(b)(4), Act of July 1, 1972 (Pub. L. 92–336, 86 Stat. 419); sec. 203(b)(4) and (d), Act of July 9, 1973 (Pub. L. 93–66, 87 Stat. 153); sec. 5(b)(4), (d), and (f), Act of December 31, 1973 (Pub. L. 93–233, 87 Stat. 954))

PAR. 15. The following sections are inserted immediately following § 33.3306(b)(9)–1:

§ 31.3306(b)(10) Statutory provisions; definitions; wages; payments under certain employers' plans after retirement, disability, or death.

Sec. 3306. *Definitions.* • • •

(b) *Wages.* For purposes of this chapter, the term "wages" means all remuneration for employment, including the cash value of all remuneration paid in any medium other than cash; except that such term shall not include—

• • • • • •

(10) Any payment or series of payments by an employer to an employee or any of his dependents which is paid—

(A) Upon or after the termination of an employee's employment relationship because of (i) death, (ii) retirement for disability, or (iii) retirement after attaining an age specified in the plan referred to in subparagraph (B) or in a pension plan of the employer, and

(B) Under a plan established by the employer which makes provisions for his employees generally or a class or classes of his employees (or for such employees or class or classes of employees and their dependents),

other than any such payment or series of payments which would have been paid if the employee's employment relationship had not been so terminated.

(Sec. 3306(b)(10) as added by sec. 504(b), Social Security Amendments 1967 (81 Stat. 935))

§ 31.3306(b)(10)–1 Payments under certain employers' plans after retirement, disability, or death.

(a) *In general.* The term "wages" does not include the amount of any payment or series of payments made after January 2, 1968, by an employer to, or on behalf of, an employee or any of his dependents under a plan established by the employer which makes provisions for his employees generally (or for his employees generally and their dependents) or for a class or classes of his employees (or for a class or classes of his employees and their dependents), which is paid or commences to be paid upon or within a reasonable time after the termination of an employee's employment relationship because of the employee's—

(1) Death,

(2) Retirement for disability, or

(3) Retirement after attaining an age specified in the plan established by the employer or in a pension plan of the employer as the age at which a person in the employee's circumstances is eligible for retirement.

A payment or series of payments made under the circumstances described in the preceding sentence is excluded from "wages" even if made pursuant to an incentive compensation plan which also provides for the making of other types of payments. However, any payment or series of payments which would have been paid if the employee's relationship had not been terminated is not excluded from "wages" under this section and section 3306(b)(10). For example, lump-sum payments for unused vacation time or a final paycheck received after retirement are payments which the employee would have received whether or not he retired and therefore are not excluded from "wages." Further, if any payment is made upon or after termination of employment for any reason other than those set out in subparagraphs (1), (2), and (3) of this paragraph such payment is not excludable from "wages" by this section. For example, if a pension plan provides for retirement upon disability, completion of 30 years of service, or attainment of age 65, and if an employee who is not disabled retires at age 61 after 30 years of service, none of the retirement payments made to the employee under the pension plan (including any made after he is 65) is excludable from "wages" under this section. However, if the pension plan had conditioned retirement after 30 years of service upon attainment of age 60, all of the retirement payments would have been excludable.

(b) *Plan.* The plan or system established by an employer need not provide for payments because of termination of employment for all the reasons set out in subparagraphs (1), (2), and (3) of paragraph (a), but such plan or system may provide for payments because of termination for any one or more of such reasons. Payments because of termination of employment for any one or more of such reasons under a plan or system established by an employer solely for the dependents of his employees are not within this exclusion from wages.

(c) *Dependents.* Dependents of an employee include the employee's husband or wife, children, and any other members of the employee's immediate family.

(d) *Benefit payments.* It is immaterial for purposes of this exclusion whether the amount or possibility of such benefit payments is paid on account of services rendered or taken into consideration in fixing the amount of an employee's remuneration or whether such payments are required expressly or impliedly by the contract of service.

(e) *Example.* The application of this section may be illustrated by the following example:

Example. A, an employee, receives a salary of $1,500 a month, payable on the 5th day of the month following the month for which the salary is earned. A's employer has established an incentive compensation plan for a class of his employees, including A, providing for the payment of deferred compensation on termination of employment, including termination upon an employee's death, retirement at age 65 (the retirement age specified in the plan), or retirement for disability. On March 1, 1973, A attains the age of 65 and retires. On March 5, 1973, A receives $5,500 from his employer of which $1,500 represents A's salary for services he performed in February 1973, and $4,000 represents incentive compensation paid under the employer's plan. The amount of $4,000 is excluded from "wages" under this section. The amount of $1,500 is not excluded from "wages" under this section.

PAR. 16. Section 31.6051 is amended by revising subsection (a) of section 6051, by adding new subsection (e) at the end of section 6051, and by revising the historical note. These amended and added provisions read as follows:

§ 31.6051 Statutory provisions; receipts for employees.

Sec. 6051. *Receipts for employees*—(a) *Requirement.* Every person required to deduct and withhold from an employee a tax under section 3101 or 3402, or who would have been required to deduct and withhold a tax under section 3402 (determined without regard to subsection (n)) if the employee had claimed no more than one withholding exemption, shall furnish to each such employee in respect of the remuneration paid by such person to such employee during the calendar year, on or before January 31 of the succeeding year, or, if his employment is terminated before the close of such calendar year, on the day on which the last payment of remuneration is made, a written statement showing the following:

(1) The name of such person,

(2) The name of the employee (and his social security account number if wages as defined in section 3121(a) have been paid),

(3) The total amount of wages as defined in section 3401(a),

(4) The total amount deducted and withheld as tax under section 3402,

(5) The total amount of wages as defined in section 3121(a), and

(6) The total amount deducted and withheld as tax under section 3101.

In the case of compensation paid for service as a member of a uniformed service, the statement shall show, in lieu of the amount required to be shown by paragraph (5), the total amount of wages as defined in section 3121(a), computed in accordance with such section and section 3121(i)(2). In the case of compensation paid for service as a volunteer or volunteer leader within the meaning of the Peace Corps Act, the statement shall show, in lieu of the amount required to be shown by paragraph (5), the total amount of wages as defined in section 3121(a), computed in accordance with such section and section 3121(i)(3). In the case of tips received by an employee in the course of his employment, the amounts required to be shown by paragraphs (3) and (5) shall include only such tips as are included in statements furnished to the employer pursuant to section 6053(a).

• • • • • •

(e) *Railroad employees*—(1) *Additional requirement.* Every person required to deduct and withhold tax under section 3201 from an employee shall include on or with the statement required to be furnished such employee under subsection (a) a notice concerning the provisions of this title with respect to the allowance of a credit or refund of the tax on wages imposed by section 3101(b) and the tax on compensation imposed by section 3201 or 3211 which is treated as a tax on wages imposed by section 3101(b).

(2) *Information to be supplied to employees.* Each person required to deduct and withhold tax under section 3201 during any year from an employee who has also received wages during such year subject to the tax imposed by section 3101(b) shall, upon request of such employee, furnish to him a written statement showing—

V40N14 JAN 21 75 XUM

(A) The total amount of compensation with respect to which the tax imposed by section 3201 was deducted,

(B) The total amount deducted as tax under section 3201, and

(C) The portion of the total amount deducted as tax under section 3201 which is for financing the cost of hospital insurance under part A of title XVIII of the Social Security Act.

(Sec. 6051 as amended by sec. 412, Servicemen's and Veterans' Survivor Benefits Act (70 Stat. 879); sec. 202(a)(4), Peace Corps Act (75 Stat. 626); secs. 107 and 313(e)(1), Social Security Amendments 1965 (79 Stat. 337, 384); sec. 502(c), Social Security Amendments 1967; sec. 805(f)(2), Tax Reform Act 1969 (83 Stat. 708); sec. 293, Social Security Amendments 1972)

PAR. 17. Section 31.6051-1 is amended by redesignating paragraph (f) thereof as paragraph (g), and by inserting a new paragraph (f) immediately after paragraph (e), to read as follows:

§ 31.6051-1 Statements for employees.

* * * * *

(f) *Statements with respect to compensation, as defined in the Railroad Retirement Tax Act, paid after December 31, 1967*—(1) *Required information relating to excess medicare tax on compensation paid after December 31, 1971*—(i) *Notification of possible credit or refund.* With respect to compensation (as defined in section 3231(e)) paid after December 31, 1971, every employer (as defined in section 3231(a)) who is required to deduct and withhold from an employee (as defined in section 3231(b)) a tax under section 3201, shall include on or with the statement required to be furnished such employee under section 6051(a), a notice concerning the provisions of this title with respect to the allowance of a credit or refund of the tax on wages imposed by section 3101 (b) and the tax on compensation imposed by section 3201 or 3211 which is treated as a tax on wages imposed by section 3101(b). Such notice shall inform such employee of the eligibility of persons having a second employment, in addition to railroad employment, for a credit or refund of any excess hospital insurance tax which such persons have paid because of employment under both social security (including employee and self-employment coverage) and railroad retirement. See section 6413(c)(3) and paragraph (c) of § 31.6413(c)-1, relating to special refunds with respect to compensation as defined in the Railroad Retirement Tax Act.

(ii) *Information to be supplied to employees upon request.* With respect to compensation (as defined in section 3231(e)) paid after December 31, 1971, every employer (as defined in section 3231(a)) who is required to deduct and withhold tax under section 3201 from an employee (as defined in section 3231(b)) who has also received wages during such year subject to the tax imposed by section 3101(b), shall upon request of such employee furnish to him a written statement showing—

(*a*) The total amount of compensation with respect to which the tax imposed by section 3101(b) was deducted,

(*b*) The total amount of employee tax under section 3201 deducted and withheld (increased by any adjustment in the calendar year for overcollection, or decreased by any adjustment in such year for undercollection, of such tax during any prior year), and

(*c*) The proportion thereof (expressed either as a dollar amount, or a percentage of the total amount of compensation as defined in section 3231(e), or as a percentage of the total amount of employee tax under section 3201) withheld as tax under section 3201 for financing the cost of hospital insurance benefits.

(2) *Statements on Form W-2 (RR).* (i) *Compensation paid during 1970 or 1971.* With respect to compensation (as defined in section 3231(e)) paid during 1970 or 1971, every employer (as defined in section 3231(a)) who is required to deduct and withhold from an employee (as defined in section 3231(b)) a tax under section 3402 with respect to compensation, or who would have been required to deduct and withhold a tax under section 3402 (determined without regard to section 3402(n)) if the employee had claimed no more than one withholding exemption, shall furnish to each such employee in respect of such compensation the tax return copy and the employee's copy of a statement on Form W-2 (RR) instead of Form W-2, unless such employers are permitted by the Internal Revenue Service to continue to use Form W-2 in lieu of Form W-2 (RR). If the wage bracket method of withholding provided in section 3402(c)(1) is used in respect of such compensation, a statement on Form W-2 (RR) must be furnished to each employee whose wages during any payroll period are equal to or in excess of the smallest wage from which tax must be withheld in the case of an employee claiming one exemption. If the percentage method is used, a statement on Form W-2 (RR) must be furnished to each employee whose wages during any payroll period are in excess of one withholding exemption for such payroll period as shown in the percentage method withholding table contained in section 3402(b)(1). Each statement on Form W-2 (RR) shall show the following:

(*a*) The name, address, and identification number of the employer,

(*b*) The name and address of the employee and his social security account number,

(*c*) The total amount of wages as defined in section 3401(a),

(*d*) The total amount deducted and withheld as tax under section 3402,

(*e*) The total amount of compensation as defined in section 3231(e), and

(*f*) The total amount of employee tax under section 3201 deducted and withheld (increased by any adjustment in the calendar year for overcollection, or decreased by any adjustment in such year for undercollection, of such tax during any prior year) and the proportion thereof (expressed either as a dollar amount, as a percentage of the total amount of compensation as defined in section 3231(e), or as a percentage of the total amount of employee tax under section 3201) withheld as tax under section 3201 for financing the cost of hospital insurance benefits.

The provisions of this chapter applicable to Form W-2, other than those relating solely to the Federal Insurance Contributions Act, are hereby made applicable to Form W-2 (RR). See paragraph (d) of this section for provisions relating to the time and place for furnishing the statement required by this subparagraph.

(ii) *Compensation paid during 1968 or 1969.* At the option of the employer, the provisions of subdivision (i) of this subparagraph may apply with respect to compensation paid during 1968 or 1969.

(iii) Every employer who, pursuant to subdivision (i) or (ii) of this subparagraph, does not provide Form W-2 (RR) with respect to compensation must furnish the additional information required by Form W-2 (RR) upon request by the employee.

(g) *Cross references.* * * *

PAR. 18. Section 31.6413(c) is amended by revising paragraphs (1) and (2) (A) of section 6413 (c), by adding a new paragraph (3) at the end of section 6413 (c) and by revising the historical note. These amended and added provisions read as follows:

§ 31.6413(c) Statutory provisions; special rules applicable to certain employment taxes; special refunds.

Sec. 6413. *Special rules applicable to certain employment taxes.* * * *

(c) *Special refunds*—(1) *In general.* If by reason of an employee receiving wages from more than one employer during a calendar year after the calendar year 1950 and prior to the calendar year 1955, the wages received by him during such year exceed $3,600, the employee shall be entitled (subject to the provisions of section 31(b)) to a credit or refund of any amount of tax, with respect to such wages, imposed by section 1400 of the Internal Revenue Code of 1939 and deducted from the employee's wages (whether or not paid to the Secretary or his delegate), which exceeds the tax with respect to the first $3,600 of such wages received; or if by reason of an employee receiving wages from more than one employer (A) during any calendar year after the calendar year 1954 and prior to the calendar year 1959, the wages received by him during such year exceed $4,200, or (B) during any calendar year after the calendar year 1958 and prior to the calendar year 1966, the wages received by him during such year exceed $4,800, or (C) during any calendar year after the calendar year 1965 and prior to the calendar year 1968, the wages received by him during such year exceed $6,600, or (D) during any calendar year after the calendar year 1967 and prior to the calendar year 1972, the wages received by him during such year exceed $7,800, or (E) during any calendar year after the calendar year 1971 and prior to the calendar year 1973, the wages received by him during such year exceed $9,000, or (F) during any calendar year after the calendar year 1972 and prior to the calendar year 1974, the wages received by him during such year exceed $10,800, or (G) during any calendar year after the calendar year 1973 and prior to the calendar year 1975, the wages received by him during such year exceed $13,200, or (H) during any calendar year after 1974, the wages received by him during such year exceed the contribution and benefit base (as determined under section 230 of the Social Security Act) which is effective with respect to such year; and the employee shall be entitled (subject to the provisions of section 31(b)) to a credit or refund of any amount of tax, with respect to such wages, imposed by section 3101 and deducted from the employee's wages (whether or not paid to the Secretary or his delegate), which exceeds the tax with respect to the first $4,200 of such wages received in such calendar year after 1954 and before 1959, or which exceeds the tax with respect to the first $4,800 of such wages received in such calendar year after 1958 and before 1966, or which exceeds the tax with respect to the first $6,600 of such wages received in such calendar year after 1965 and before 1968, or which exceeds the tax with respect to the first $7,800 of such wages received in such calendar year after 1967 and before 1972, or which exceeds the tax with respect to the first $9,000 of such wages received in such calendar year after 1971 and before 1973, or which exceeds the tax with respect to the first $10,800 of such wages received in such calendar year after 1972 and before 1974, or which exceeds the tax with respect to the first $13,200 of such wages received in such calendar year after 1973 and before 1975, or which exceeds the tax with respect to an amount of such wages received in such calendar year after 1974 equal to the contribution and benefit base (as determined under section 230 of the Social Security Act) which is effective with respect to such year.

(2) *Applicability in case of Federal and State employees, employees of certain foreign corporations, and Governmental employees in Guam, American Samoa, and the District of Columbia*—(A) *Federal employees.* In the case of remuneration received from the United States or a wholly owned instrumentality thereof during any calendar year, each head of a Federal agency or instrumentality who makes a return pursuant to section 3122 and each agent, designated by the head of a Federal agency or instrumentality, who makes a return pursuant to such section shall, for purposes of this subsection, be deemed a separate employer, and the term "wages" includes for purposes of this subsection the amount, not to exceed $3,600 for the calendar year 1951, 1952, 1953, or 1954, $4,200 for the calendar year 1955, 1956, 1957, or 1958, $4,800 for the calendar year 1959, 1960, 1961, 1962, 1963, 1964, or 1965, $6,600 for the calendar year 1966 or 1967, $7,800 for the calendar year 1968, 1969, 1970, or 1971, or $9,000 for the calendar year 1972, $10,800 for the calendar year 1973, $13,200 for the calendar year 1974, or an amount equal to the contribution and benefit base (as determined under section 230 of the Social Security Act) for any calendar year after 1974 with respect to which such contribution and benefit base is effective, determined by each such head or agent as constituting wages paid to an employee.

* * * * *

(3) *Applicability with respect to compensation of employees subject to the Railroad Retirement Tax Act.* In the case of any individual who, during any calendar year after 1967, receives wages from one or more employers and also receives compensation which is subject to the tax imposed by section 3201 or 3211, such compensation shall, solely for purposes of applying paragraph (1) with respect to the tax imposed by section 3101(b), be treated as wages received from an employer with respect to which the tax imposed by section 3101(b) was deducted.

(Sec. 6413(c) as amended by sec. 202(a)(1), Social Security Amendments 1954; sec. 402 (d), Social Security Amendments 1958; sec. 103(r)(3), (4), Social Security Amendments 1960; sec. 317(f)(1), (2), sec. 320(b)(5), (6), Social Security Amendments 1965; sec. 108(b)(5), (6), sec. 502(a), Social Security Amendments 1967; sec. 203(b)(5), (6), Act of March 17, 1971 (Pub. Law 92-5, 85 Stat. 11); sec. 203(b)(5), (6), Act of July 1, 1972 (Pub. Law 92-336, 86 Stat. 419); sec. 144(c), Social Security Amendments 1972; sec. 203 (b)(5), (6), Act of July 9, 1973 (Pub. Law 93-66, 87 Stat. 153); sec. 5(b)(5), (6) and (f), Act of December 31, 1973 (Pub. Law 93-233, 87 Stat. 954). The provisions of section 6413(c)(2)(D) are not applicable, for the reason that a certification by the Governor of Guam, for which there is provision in sec. 103(v)(1), Social Security Amendments 1960, has not been received by the Secretary of the Treasury. Such a certification was made by the Governor of American Samoa and was received by the Secretary of the Treasury on December 29, 1960. Such a certification was made by the Commissioners of the District of Columbia and was received by the Secretary of the Treasury on August 12, 1965)

PAR. 19. Section 31.6413(c)-1 is amended by revising subparagraphs (1) (i), (2), (5) and (6) of paragraph (a) and by adding a new paragraph (c) at the end thereof. These amended and added provisions read as follows:

§ 31.6413(c)-1 Special refunds.

(a) *Who may make claims*—(1) *In general.* (i) If an employee receives wages, as defined in section 3121(a), from two or more employers in any calendar year:

(*a*) After 1954 and before 1959 in excess of $4,200,

(*b*) After 1958 and before 1966 in excess of $4,800,

(*c*) After 1965 and before 1968 in excess of $6,600,

(*d*) After 1967 and before 1972 in excess of $7,800,

(*e*) After 1971 and before 1973 in excess of $9,000,

(*f*) After 1972 and before 1974 in excess of $10,800,

(*g*) After 1973 and before 1975 in excess of $13,200, or

(*h*) After 1974 in excess of the contribution and benefit base (as determined under section 230 of the Social Security Act) which is effective with respect to such year,

the employee shall be entitled to a special refund of the amount, if any, by which the employee tax imposed by section 3101 with respect to such wages and deducted therefrom (whether or not paid) exceeds the employee tax with respect to the amount specified in (*a*) through (*h*) of this subdivision for the calendar year in question. Employee tax imposed by section 3101 with respect to tips reported by an employee to his employer and collected by the employer from funds turned over by the employee to the employer (see section 3102(c)) shall be treated, for purposes of this paragraph, as employee tax deducted from wages received by the employee. If the employee is required to file an income tax return for such calendar year (or for his last taxable year beginning in such calendar year) he may obtain the benefit of the special refund only by claiming credit as provided in § 1.21-2 of this chapter (Income Tax Regulations).

* * * * *

(2) *Federal employees.* For purposes of special refunds of employee tax, each head of a Federal agency or of a wholly-owned instrumentality of the United States who makes a return pursuant to section 3122 (and each agent designated by a head of a Federal agency or instrumentality who makes a return pursuant to such section) is considered a separate employer. For such purposes, the term "wages" includes the amount which each such head (or agent) determines to constitute wages paid an employee, but not in excess of the amount specified in subparagraph (1)(i)(*a*) through (*h*) of this paragraph for the calendar year in question. For example, if wages received by an employee during calendar year 1974 are reportable by two or more agents of one or more Federal agencies and the amount of such wages is in excess of $13,200 the employee shall be entitled to a special refund of the amount, if any, by which the employee tax imposed with respect to such wages and deducted therefrom exceeds the employee tax with respect to the first $13,200 of such wages. Moreover, if an employee receives wages during any calendar year from an agency or wholly-owned instrumentality of the United States and from one or more other employers, either private or governmental, the total amount of such wages shall be taken into account for purposes of the special refund provisions.

* * * * *

(5) *Governmental employees in American Samoa.* For purposes of special refunds of employee tax, the Governor of American Samoa and each agent desig-

V40114 JAN21 75 XUM

nated by him who makes a return pursuant to section 3125(b) (see § 31.3125) is considered a separate employer. For such purposes, the term "wages" includes the amount which the Governor (or any agent) determines to constitute wages paid an employee, but not in excess of the amount specified in subparagraph (1)(i) (*a*) through (*h*) of this paragraph for the calendar year in question. For example, if wages received by an employee during calendar year 1974 are reportable by two or more agents pursuant to section 3125(b) and the total amount of such wages is in excess of $13,200, the employee shall be entitled to a special refund of the amount, if any, by which the employee tax imposed with respect to such wages and deducted therefrom exceeds the employee tax with respect to the first $13,200 of such wages. Moreover, if an employee receives wages during any calendar year from the Government of American Samoa, from a political subdivision thereof, or from any wholly-owned instrumentality of such government or political subdivision and from one or more other employers, either private or governmental, the total amount of such wages shall be taken into account for purposes of the special refund provisions.

(6) *Governmental employees in the District of Columbia.* For purposes of special refunds of employee tax, the Commissioner of the District of Columbia (or, prior to the transfer of functions pursuant to Reorganization Plan No. 3 of 1967 (81 Stat. 948), the Commissioners of the District of Columbia) and each agent designated by him who makes a return pursuant to section 3125(c) (see § 31.3125) is considered a separate employer. For such purposes, the term "wages" includes the amount which the Commissioner (or any agent) determines to constitute wages paid an employee, but not in excess of the amount specified in subparagraph (1)(i) (*a*) through (*h*) of this paragraph for the calendar year in question. For example, if wages received by an employee during calendar year 1974 are reportable by two or more agents pursuant to section 3125(c) and the total amount of such wages is in excess of $13,200 the employee shall be entitled to a special refund of the amount, if any, by which the employee tax imposed with respect to such wages and deducted therefrom exceeds the employee tax with respect to the first $13,200 of such wages. Moreover, if an employee receives wages during any calendar year from the Government of the District of Columbia or from a wholly-owned instrumentality thereof and from one or more other employers, either private or governmental, the total amount of such wages shall be taken into account for purposes of the special refund provisions.

* * * * *

(c) *Special refunds with respect to compensation as defined in the Railroad Retirement Tax Act*—(1) *In general.* In the case of any individual who, during any calendar year after 1967, receives wages (as defined by section 3121(a)) from one or more employers and also receives compensation (as defined by section 3231(e)) which is subject to the tax imposed on employees by section 3201 or the tax imposed on employee representatives by section 3211 such compensation shall, solely for purposes of applying section 6413(c)(1) and this section with respect to the hospital insurance tax imposed by section 3101(b), be treated as wages (as defined by section 3121(a)) received from an employer with respect to which the hospital insurance tax imposed by section 3101(b) was deducted. For purposes of this section, compensation received shall be determined under the principles provided in chapter 22 of the Code and the regulations thereunder (see section 3231(e) and § 31.3231(e)–1). Therefore, compensation paid for time lost shall be deemed earned and received for purposes of this section in the month in which such time is lost, and compensation which is earned during the period for which a return of taxes under chapter 22 is required to be made and which is payable during the calendar month following such period shall be deemed to have been received for purposes of this section during such period only. Further, compensation is deemed to have been earned and received when an employee or employee representative performs services for which he is paid, or for which there is a present or future obligation to pay, regardless of the time at which payment is made or deemed to be made.

(2) *Example.* The application of this paragraph may be illustrated by the following example.

Example. Employee A rendered services to X during 1973 for which he was paid compensation at the monthly rate of $650 which was taxable under the Railroad Retirement Tax Act. A was paid $550 by X in January 1973 which was earned and deemed received in December 1972 and $650 in January of 1974 which was earned and deemed received in December of 1973. A also earned and received wages in 1973 from employer Y, which were subject to the employee tax under the Federal Insurance Contributions Act, in the amount of $6,000. A paid hospital insurance tax on $13,800 ($7,800 compensation from X including $650 earned and deemed received in December 1973 but paid in January 1974 and not including $550 paid in January 1973 but earned and deemed received in December 1972, $6,000 compensation from Y) received or deemed received or earned in 1973. For purposes of the hospital insurance tax imposed by section 3101(b), these amounts are all wages received from an employer in 1973. Therefore, A is entitled to a special refund for 1973 under section 6413(c) and this section of $30 (1.0% x $13,800—1.0% x $10,800).

PAR. 20. Section 301.6051 is amended by revising subsection (a) of section 6051, by adding new subsection (e) at the end of section 6051, and by revising the historical note. These amended and added provisions read as follows:

§ 301.6051 Statutory provisions; receipts for employees.

Sec. 6051. *Receipts for employees*—(a) *Requirement.* Every person required to deduct and withhold from an employee a tax under section 3101 or 3402, or who would have been required to deduct and withhold a tax under section 3402 (determined without regard to subsection (n)) if the employee had claimed no more than one withholding exemption, shall furnish to each such employee in respect of the remuneration paid by such person to such employee during the calendar year, or or before January 31 of the succeeding year, or, if his employment is terminated before the close of such calendar year, on the day on which the last payment of remuneration is made, a written statement showing the following:

(1) The name of such person,

(2) The name of the employee (and his social security account number if wages as defined in section 3121(a) have been paid),

(3) The total amount of wages as defined in section 3401(a),

(4) The total amount deducted and withheld as tax under section 3402,

(5) The total amount of wages as defined in section 3121(a), and

(6) The total amount deducted and withheld as tax under section 3101.

In the case of compensation paid for service as a member of a uniformed service, the statement shall show, in lieu of the amount required to be shown by paragraph (5), the total amount of wages as defined in section 3121(a), computed in accordance with such section and section 3121(i)(2). In the case of compensation paid for service as a volunteer or volunteer leader within the meaning of the Peace Corps Act, the statement shall show, in lieu of the amount required to be shown by paragraph (5), the total amount of wages as defined in section 3121(a), computed in accordance with such section and section 3121(i)(3). In the case of tips received by an employee in the course of his employment, the amounts required to be shown by paragraphs (3) and (5) shall include only such tips as are included in statements furnished to the employer pursuant to section 6053(a).

* * * * *

(e) *Railroad employees*—(1) *Additional requirement.* Every person required to deduct and withhold tax under section 3201 from an employee shall include on or with the statement required to be furnished such employee under subsection (a) a notice concerning the provisions of this title with respect to the allowance of a credit or refund of the tax on wages imposed by section 3101(b) and the tax on compensation imposed by section 3201 or 3211 which is treated as a tax on wages imposed by section 3101(b).

(2) *Information to be supplied to employees.* Each person required to deduct and withhold tax under section 3201 during any year from an employee who has also received wages during such year subject to the tax imposed by section 3101(b) shall, upon request of such employee, furnish to him a written statement showing—

(A) The total amount of compensation with respect to which the tax imposed by section 3201 was deducted,

(B) The total amount deducted as tax under section 3201, and

(C) The portion of the total amount deducted as tax under section 3201 which is for financing the cost of hospital insurance under part A of title XVIII of the Social Security Act.

(Sec. 6051 as amended by sec. 412, Servicemen's and Veterans' Survivor Benefits Act (70 Stat. 879); sec. 202(a)(4), Peace Corps Act (75 Stat. 626); secs. 107 and 313(e)(1), Social Security Amendments 1965 (79 Stat. 337, 384); sec. 502(c), Social Security Amendments 1967 (81 Stat. 934); sec. 805(f)(2), Tax Reform Act 1969 (83 Stat. 708); sec. 293, Social Security Amendments 1972 (86 Stat. 1459))

PAR. 21. Section 301.6413 is amended by revising paragraphs (1) and (2)(A) of section 6413(c), by adding a new paragraph (3) at the end of section 6413 (c) and by revising the historical note. These amended and added provisions read as follows:

§ 301.6413 Statutory provisions; special rules applicable to certain employment taxes.

Sec. 6413. *Special rules applicable to certain employment taxes.* * * *

(c) *Special refunds*—(1) *In general.* If by reason of an employee receiving wages from more than one employer during a calendar year after the calendar year 1950 and prior to the calendar year 1955, the wages received by him during such year exceed $3,600, the employee shall be entitled (subject to the provisions of section 31(b)) to a credit or refund of any amount of tax, with respect to such wages, imposed by section 1400 of the Internal Revenue Code of 1939 and deducted from the employee's wages (whether or not paid to the Secretary or his delegate), which exceeds the tax with respect to the first $3,600 of such wages received; or if by reason of an employee receiving wages from more than one employer (A) during any calendar year after the calendar year 1954 and prior to the calendar year 1959, the wages received by him during such year exceed $4,200, or (B) during any calendar year after the calendar year 1958 and prior to the calendar year 1966, the wages received by him during such year exceed $4,800, or (C) during any calendar year after the calendar year 1965 and prior to the calendar year 1968, the wages received by him during such year exceed $6,660, or (D) during any calendar year after the calendar year 1967 and prior to the calendar year 1972, the wages received by him during such year exceed $7,800, or (E) during any calendar year after the calendar year 1971 and prior to the calendar year 1973, the wages received by him during such year exceed $9,000, or (F) during any calendar year after the calendar year 1972 and prior to the calendar year 1974, the wages received by him during such year exceed $10,800, or (G) during any calendar year after the calendar year 1973 and prior to the calendar year 1975, the wages received by him during such year exceed $13,200, or (H) during any calendar year after 1974, the wages received by him during such year exceed the contribution and benefit base (as determined under section 230 of the Social Security Act) which is effective with respect to such year; and the employee shall be entitled (subject to the provisions of section 31(b)) to a credit or refund of any amount of tax, with respect to such wages, imposed by section 3101 and deducted from the employee's wages (whether or not paid to the Secretary or his delegate), which exceeds the tax with respect to the first $4,200 of such wages received in such calendar year after 1954 and before 1959, or which exceeds the tax with respect to the first $4,800 of such wages received in such calendar year after 1958 and before 1966, or which exceeds the tax with respect to the first $6,600 of such wages received in such calendar year after 1965 and before 1968, or which exceeds the tax with respect to the first $7,800 of such wages received in such calendar year after 1967 and before 1972, or which exceeds the tax with respect to the first $9,000 of such wages received in such calendar year after 1971 and before 1973, or which exceeds the tax with respect to the first $10,800 of such wages received in such calendar year after 1972 and before 1974, or which exceeds the tax with respect to the first $13,200 of such wages received in such calendar year after 1973 and before 1975, or which exceeds the tax with respect to an amount of such wages received in such calendar year after 1974 equal to the contribution and benefit base (as determined under section 230 of the Social Security Act) which is effective with respect to such year.

(2) *Applicability in case of Federal and State employees, employees of certain foreign corporations, and Governmental employees in Guam, American Samoa, and the District of Columbia*—(A) *Federal employees.* In the case of remuneration received from the United States or a wholly owned instrumentality thereof during any calendar year, each head of a Federal agency or instrumentality who makes a return pursuant to section 3122 and each agent, designated by the head of a Federal agency or instrumentality, who makes a return pursuant to such section shall, for purposes of this subsection, be deemed a separate employer, and the term "wages" includes for purposes of this subsection the amount, not to exceed $3,600 for the calendar year 1951, 1952, 1953, or 1954, $4,200 for the calendar year 1955, 1956, 1957, or 1958, $4,800 for the calendar year 1959, 1960, 1961, 1962, 1963, 1964, or 1965, $6,600 for the calendar year 1966 or 1967, $7,800 for the calendar year 1968, 1969, 1970, or 1971, $9,000 for the calendar year 1972, $10,800 for the calendar year 1973, $13,200 for the calendar year 1974, or an amount equal to the contribution and benefit base (as determined under section 230 of the Social Security Act) for any calendar year after 1974 with respect to which such contribution and benefit base is effective, determined by each such head or agent as constituting wages paid to an employee.

* * * * *

(3) *Applicability with respect to compensation of employees subject to the Railroad Retirement Tax Act.* In the case of any individual who, during any calendar year after 1967, receives wages from one or more employers and also receives compensation which is subject to the tax imposed by section 3201 and 3211, such compensation shall, solely for purposes of applying paragraph (1) with respect to the tax imposed by section 3101(b), be treated as wages received from an employer with respect to which the tax imposed by section 3101(b) was deducted.

* * * * *

[Sec. 6413 as amended by sec. 202(a)(1), Social Security Amendments 1954 (68 Stat. 1089); sec. 402(d), Social Security Amendments 1958 (72 Stat. 1043); sec. 103(r)(2), (3), and (4), Social Security Amendments 1960 (74 Stat. 940); sec. 317(e) and (f)(1) and (2), sec. 320(b)(5) and (6), Social Security Amendments 1965 (79 Stat. 389); sec. 108(b)(5) and (b), Social Security Amendments 1967 (81 Stat. 835); sec. 203(b)(5), (6), Act of March 17, 1971 (Pub. L. 92–5, 85 Stat. 11); sec. 203(b)(5), (6), Act of July 1, 1972 (Pub. L. 92–336, 86 Stat. 419); sec. 144(c), Social Security Amendments 1972 (86 Stat. 1370); sec. 203(b)(5), (6), Act of July 9, 1973 (Pub. L. 93–66, 87 Stat. 153); sec. 5(b)(5), (6) and (f), Act of December 31, 1973 (Pub. L. 93–233, 87 Stat. 954). The provisions of section 6413(c)(2)(D) are not applicable, for the reason that a certification by the Governor of Guam, for which there is a provision in sec. 103(v)(1), Social Security Amendments 1960, has not been received by the Secretary of the Treasury. Such a certification was made by the Governor of American Samoa and was received by the Secretary of the Treasury on Dec. 29, 1960. Such a certification was made by the Commissioners of the District of Columbia and was received by the Secretary of the Treasury on Aug. 12, 1965]

[25 CFR Part 41]

PREPARATION OF ROLLS OF INDIANS

Proposed Enrollment of Northern Paiute Indians

This notice is published in the exercise of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2.

Notice is hereby given that it is proposed to amend § 41.3, Part 41, Subchapter F, Chapter I, of Title 25 of the Code of Federal Regulations by the addition of a new paragraph (t). These regulations are proposed pursuant to the authority contained in the Northern Paiute plan for use and distribution of judgment funds which was prepared pursuant to the Act of October 19, 1973 (87

V 40 14 JAN 21 75 XUM

Stat. 466), and which became effective October 10, 1974. The Northern Paiute plan was published on page 43412 of the December 13, 1974, FEDERAL REGISTER (39 FR 43412). The proposed regulations will govern the preparation of a roll of Northern Paiute Indians as provided in the October 10, 1974, plan to be used for the per capita distribution of the award of the Indian Claims Commission in Docket 87.

It is the policy of the Department of the Interior, whenever practicable, to afford the public an opportunity to participate in the rulemaking process. Accordingly, interested persons may submit written comments, suggestions or objections regarding the proposed regulations to the Director, Office of Indian Services, Bureau of Indian Affairs, Washington, D.C. 20245, on or before February 20, 1975.

It is proposed to amend § 41.3, Part 41, Subchapter F, Chapter I, Title 25 of the Code of Federal Regulations by the addition of a new paragraph (t) to read as follows:

§ 41.3 Qualifications for enrollment and the deadline for filing applications.

* * * * *

(t) *Northern Paiute Indians.* (1) All persons who meet the following requirements shall be entitled to be enrolled to share in the distribution of judgment funds awarded the Northern Paiute Indians in Indian Claims Commission Docket 87:

(i) Persons who were born on or prior to and living on October 10, 1974, and

(ii) who are lineal descendants of Northern Paiute Indians and

(iii) whose name or whose lineal ancestor's name appears on any available census roll or other record or evidence acceptable to the Secretary, and who is identified as being of Northern Paiute ancestry.

(2) Any person who has shared in the awards granted by the Indian Claims Commission in Dockets 88, 330 and 330–A, to the Southern Paiute Indian Nation; or in Dockets 31, 37, 80, 80–D, 176, 215, 333, and 347, to "Certain Indians of California"; or in Dockets 351 and 351–A to the Chemehuevis; or in Docket 17, to the Malheur Paiutes; or whose Indian ancestry is derived solely from the Walpapi Paiutes, Yahooskin Snakes, Bannocks, or Western Monos; or who is a member of the Quechan Tribe or of the Washoe Tribe of Nevada and California shall not be eligible to be enrolled to share in the Northern Paiute judgment funds.

(3) Applications for enrollment must be filed with the Superintendent, Bureau of Indian Affairs, Nevada Agency, Stewart, Nevada 89437, on the form provided for that purpose, and must be received by the Superintendent by close of business no later than 180 days from the date final regulations are published in the Federal Register.

No further amendments are made to the text of Part 41.

MORRIS THOMPSON,
Commissioner of Indian Affairs.

Notice of Determination Regarding 1973 Crop

Correction

NOTE: FR Doc. 75–1267, which appeared at page 2726 in the issue for Wednesday, January 15, 1975, was a notice of proposed rulemaking. It was published in error in the "Notices" section of the FEDERAL REGISTER. This correction is made to show that this document should have appeared in the "Proposed Rules" section of the issue.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Federal Insurance Administration

[24 CFR Parts 1909, 1911]

[Docket No. R–75–315]

NATIONAL FLOOD INSURANCE PROGRAM

Notice of Proposed Rulemaking

Pursuant to the authority contained in 82 Stat. 574. 42 U.S.C. 4012, the Federal Insurance Administrator is considering the addition of a new § 1911.12 to Part 1911 of Title 24 of the Code of Federal Regulations, and two new definitions in Part 1909 in conformity with the new section, as set forth below.

The Housing and Community Development Act of 1974, Pub. L. 93–383; 88 Stat. 739, added a new section 1307(e) of Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90–448; 82 Stat. 587; 42 U.S.C. SS 4001–4127), as amended, necessitating this revision of the regulations governing the National Flood Insurance Program.

The proposed new section implements section 1307(e), and provides a procedure by which communities that have made adequate progress towards completion of a flood protection system may obtain flood insurance at rates applicable as if that system was complete. The proposed amendment to Part 1909 adds definitions for "flood protection system" and "project cost", terms which are used in the new section.

Interested persons are invited to participate in the making of the proposed rule by submitting such written comments or suggestions as they may desire. Communications should identify the above Docket No. and should be submitted in triplicate to the Rules Docket Clerk, Office of General Counsel, Department of Housing and Urban Development, Room 10245, 451 Seventh Street, SW., Washington, D.C. 20410. All communications received on or before Feb. 19, 1975, will be considered by the Administrator before taking action on the proposals. The proposals contained in this notice may be changed in light of comments received. A copy of each submission will be available for public inspection during business hours of the above address.

Accordingly, Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is proposed to be amended as follows:

PART 1909—GENERAL PROVISIONS

1. Section 1909.1 is amended by adding new definitions in alphabetical order to read as follows:

§ 1909.1 Definitions.

* * * * *

"Flood protection system" means those physical structural works constructed specifically to modify flooding in order to reduce the extent of the area within a community subject to a "special flood hazard" and of the depths of associated flooding for which public funds have been authorized, appropriated and expended. Such a system typically includes hurricane tidal barriers and levees or dikes. These specialized flood modifying works are those constructed in conformance with sound federal engineering standards, and must involve federal funds for construction of the system.

* * * * *

"Project cost" means the total financial cost of a flood protection system (including design, land acquisition, construction, fees, overhead, and profits) unless the Federal Insurance Administrator determines a given "cost" not to be a part of such project cost because not within the meaning of section 1307 (e) of the National Flood Insurance Act of 1968, as amended.

* * * * *

PART 1911—INSURANCE COVERAGE AND RATES

2. A new § 1911.12 is amended to read as follows:

§ 1911.12 Rates based on flood protection system.

(a) Pursuant to Section 1307 of the Act, where the Federal Insurance Administrator (Administrator) determines that a community has made adequate progress on the construction of a flood protection system involving federal funds which will significantly limit the area with "special flood hazard" (area with one percent chance of annual flood), the applicable rates for any property, located within any area within the community having a "special flood hazard", intended to be protected directly by such system's local effect will be those rates which would be applicable when the system is complete.

(b) Adequate progress in paragraph (a) of this section means that the community has provided information to the Administrator sufficient to determine that substantial completion of the flood control system has been effected because:

(1) 100 percent of the total financial project cost of the completed flood protection system has been authorized;

(2) At least 60 percent of the total financial project cost of the completed flood protection system has been appropriated;

(3) At least 50 percent of the total financial project cost of the completed flood protection system has been expended;

(4) The flood protection system's physical features are under construction and 50 percent completed as measured by the actual expenditure of the estimated construction budget funds; and

(5) The community has not been responsible for any delay in the completion of the system.

(c) Each request by a community for a determination must be submitted in writing to the Division of Engineering and Hydrology of the Federal Insurance Administration, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410, and contain a complete statement of all relevant facts relating to the flood protection system, including, but not limited to, supporting technical data (e.g., U.S. Army Corps of Engineers flood protection project data), cost schedules, budget appropriation data and the extent of federal funding of the system's construction. Such facts shall include information sufficient to identify all persons affected by such flood protection system or by such request; a full and precise statement of intended purposes of the flood protection system; and a carefully detailed description of such project, including construction completion target dates. In addition, true copies of all contracts, agreements, leases, instruments, and other documents involved must be submitted with the request. Relevant facts reflected in documents, however, must be included in the statement and not merely incorporated by reference, and must be accompanied by an analysis of their bearing on the requirements of paragraph (b) of this section, specifying the pertinent provisions. The request must contain a statement whether, to the best of the knowledge of the person responsible for preparing the application for the community, the flood protection system is currently the subject matter of litigation before any Federal, state, or local court or administrative agency, and the purpose of that litigation. The request must also contain a statement as to whether the community has previously requested a determination with respect to the same subject matter from the Federal Insurance Administrator, detailing the disposition of such previous request. As documents become part of the file and cannot be returned, the original documents should not be submitted.

(d) The effective date for any premium rates established under this section shall be the date of final determination by the Administrator that adequate progress toward completion of a flood protection system has been made in a community.

(e) A responsible official of a community which received a determination that adequate progress has been made towards completion of a flood protection system must certify annually on the anniversary date of receipt of such determination to the Administrator that no present delay in completion of the system is attributable to local sponsors of the system, and that a good faith effort is being made to complete the project.

(f) To the extent that partial completion of the flood protection system modifies flooding in the area of "special flood hazard", the Administrator will make appropriate adjustments in actuarial rates only after sufficient scientific and technical data have been supplied by the community to justify such an adjustment.

(g) A community with respect to which actuarial rates have been made available under section 1307(e) of the National Flood Insurance Act of 1968, as Amended, shall notify the Federal Insurance Administrator if, at any time, all progress on the completion of the flood control system has been halted or if the project for the completion of the flood control system has been canceled.

(Sec. 1304(a), 82 Stat. 574 (42 U.S.C. 4012); sec. 7(d), 79 Stat. 670 (42 U.S.C. 3535(d)))

Issued in Washington, D.C. on January 14, 1975.

J. ROBERT HUNTER,
Acting Federal Insurance Administrator.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[33 CFR Part 117]

[CGD 75 013]

NORTH MIAMI BEACH, FLA.

Proposed Drawbridge Operation Regulations

At the request of Metropolitan Dade County, Florida, the Coast Guard is considering revising the regulations for the N.E. 163rd Street drawbridge across the Atlantic Intracoastal Waterway, mile 361.0 to permit closed periods from 7 a.m. to 6 p.m., Monday through Friday and from 10 a.m. to 6 p.m. Saturdays and Sundays. This change is being considered because of an increase in vehicular traffic.

Interested persons may participate in this proposed rule making by submitting written data, views, or arguments to the Commander (oan), Seventh Coast District, Room 1018, Federal Building, 51 SW. 1st Avenue, Miami, Florida 33130. Each person submitting comments should include his name and address, identify the bridge, and give reasons for any recommended change in the proposal. Copies of all written communications received will be available for examination by interested persons at the office of the Commander, Seventh Coast Guard District.

The Commander, Seventh Coast Guard District, will forward any comments received before February 21, 1975, with his recommendations to the Chief, Office of Marine Environment and Systems, who will evaluate all communications received and take final action on this proposal. The proposed regulations may be changed in the light of comments received.

In consideration of the foregoing, it is proposed that Part 117 of Title 33 of the Code of Federal Regulations, be amended by adding a new § 117.446g immediately after § 117.446f to read as follows:

§ 117.446g N.E. 163rd Street, A.I.W.W., North Miami Beach, Florida.

(a) From 7 a.m. to 6 p.m., Monday through Friday, and 10 a.m. to 6 p.m., Saturdays, Sundays, and holidays, the draw need not open for the passage of vessels except that on the quarter hour and three quarter hour the draw shall open to pass any waiting vessels. At all other times the draw shall open on signal.

(b) The draw shall open at any time for the passage of public vessels of the United States, tugs with tows, cruise boats on a regular schedule, and vessels in distress. The opening signal from these vessels is four blasts of a whistle or horn or by shouting.

(c) The owner of or agency controlling the bridge shall conspicuously post notice containing the substance of these regulations, both upstream and downstream, in such a manner that they can easily be read at all times from an approaching vessel.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5), 33 CFR 1.05–1(c)(4))

Dated: January 14, 1975.

R. I. PRICE,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

[46 CFR Part 167]

[CGD 74–201]

MANNING OF NAUTICAL SCHOOL SHIPS

Notice of Proposed Rulemaking

The Coast Guard is considering amending the nautical school ship regulations to provide that manning requirements be stated in the Certificate of Inspection.

This change is being considered in order to assure continuity and adequate manning for all Coast Guard certificated vessels. It is felt that whether or not the vessel is documented, the minimum number of officers and crew necessary for the safe navigation of all manned vessels should be stated in the Certificate of Inspection.

The amendment also permits students on school ships to perform required watchstanding duties when they are considered qualified to do so by the Master of the vessel.

On February 7, 1969, the Coast Guard issued a notice of a public hearing (34 FR 1835) on this subject. The proposed rule was contained in the Merchant Marine Council Public Hearing Agenda (CG–249) dated March 24, 1969. Because of the length of time that has elapsed since the amendment was originally proposed, a new proposal is being published in this document.

Interested persons are invited to participate in this rulemaking by submitting written comments, data, views, or arguments to the Executive Secretary,

V40 14 JAN 21 75 XUM

Marine Safety Council (G-CMC/82), 400 Seventh Street SW., Washington, D.C. 20590 (Phone 202-426-1477). Written comments should include the docket number of this notice, the name and address of the person submitting the comments, the specific section of the proposal to which each comment is addressed, and the reasons for each suggested change.

All relevant communications received before March 6, 1975 will be fully considered in the drafting of the final rule. Copies of comments received will be available for examination in Room 8234, Coast Guard Headquarters. This proposal may be changed in the light of the comments received.

In consideration of the foregoing, it is proposed that Part 167 of Title 46 be amended as follows:

By revising § 167.60-15 to read as follows:

§ 167.60-15 Manning and Persons Allowed to be Carried.

(a) The Officer in Charge, Marine Inspection, shall specify in the Certificate of Inspection the minimum complement of officers and crew necessary for the safe navigation of the vessel and shall specify the total number of persons allowed to be carried.

(b) Students who are specifically accepted by the Master of the vessel as being qualified to perform the appropriate duties may fill the unlicensed crew requirements.

(R.S. 4405, as amended, R.S. 4462, as amended, Sec. 6(b)(1), 80 Stat. 937; (46 U.S.C. 375, 416, 49 U.S.C. 1655(b)(1)); 49 CFR 1.46(b))

Dated: January 12, 1975.

W. M. BENKERT,
Rear Admiral, U.S. Coast Guard, Chief, Office of Merchant Marine Safety.

Federal Aviation Administration

[14 CFR Part 39]

[Airworthiness Docket No. 74-NW-24-AD]

BOEING MODEL 727 SERIES AIRPLANES

Proposed Airworthiness Directives

Stress corrosion cracking has been discovered in the horizontal stabilizer rear spar center section fittings on Boeing Model 727 series airplanes. The fittings which were found cracked were made from 7079-T6 aluminum which has a high susceptibility to this failure mechanism. Even though the rear spar stabilizer assembly is failsafe, cracking could initiate and grow to the point of fitting failure unless inspections are made; failure results in an understrength stabilizer. Flight time of the airplanes on which the cracks were discovered ranged from 5,500 hours to 30,000 hours.

Therefore, since this condition is likely to exist or develop in other airplanes of the same type design, the Federal Aviation Administration is considering amending Part 39 of the Federal Aviation Regulations by adding an airworthiness directive requiring inspections, repair, and/or replacements, as necessary, of the 7079-T6 aluminum horizontal stabilizer rear spar center section fittings on Boeing Model 727 series airplanes.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Department of Transportation, Federal Aviation Administration, Northwest Region, Attention: The Regional Counsel, Airworthiness Rules Docket, 9010 East Marginal Way South, Seattle, Washington 98108. All communications received on or before March 18, 1975 will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

In consideration of the foregoing, it is proposed to amend 39.13 of Part 39 of the Federal Aviation Regulations by adding the following new airworthiness directive:

BOEING: Applies to Boeing Model 727 series airplanes, certificated in all categories, line numbers 1 through 641 inclusive. Compliance required as indicated.

To detect cracking in the horizontal stabilizer rear spar center section fitting, accomplish the following:

A. Within the next 750 flight hours after the effective date of this AD, unless accomplished within the last 2250 flight hours, inspect the horizontal stabilizer rear spar center section fitting in accordance with Paragraph II.A of Boeing Service Bulletin 727-55-34, Revision 1, or later FAA approved revisions, or superseding service bulletins, or in a manner approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region.

1. If no cracks are found in the fitting, repeat the inspections at intervals not to exceed 3000 flight hours, until replaced per Paragraph (B).

2. If crack(s) are found in the fitting, repair in a manner approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region, prior to further flight, and inspect thereafter at intervals not to exceed 1500 flight hours.

3. Fittings with cracks exceeding the limits specified in Boeing Service Bulletin No. 727-55-34, Revision 1, or later FAA approved revisions, or superseding service bulletins, must be replaced with a new improved fitting per Paragraph (B) before further flight.

B. As terminating action for this AD, replace the horizontal stabilizer rear spar center section fitting with a new improved 7075-T73 aluminum fitting.

This amendment is proposed under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

C. B. WALK, JR.,
Director, Northwest Region.

Issued in Seattle, Washington, JANUARY 13, 1975.

[FR Doc.75-1844 Filed 1-20-75;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 74-SW-53]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations to designate a transition area at Van Horn, Tex.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101. All communications received on or before February 20, 1975 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Texas. An informal docket will also be available for examination at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth.

In § 71.181 (40 FR 441), the following transition area is added:

VAN HORN, TEX.

That airspac extending upward from 700 feet above the surface within an 8.5-mile radius of the Culberson County Airport (latitude 31°03'42" N., longitude 104°47'09" W.) and extending 6.0 miles north and 9.5 miles south of the 054°T (043°M) bearing from the airport coordinates to a point 19 miles northeast of the airport coordinates.

The proposed transition area will provide controlled airspace for aircraft executing the proposed NDB runway 21 instrument approach procedure.

This amendment is proposed under the authority of sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Fort Worth, TX., on January 10, 1975.

ALBERT H. THURBURN,
Acting Director, Southwest Region.

[FR Doc.75-1845 Filed 1-20-75;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 74-GL-56]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to alter the transition area at Sturgis, Michigan.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018. All communications received on or before Feburary 20, 1975 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

A new instrument approach has been developed for the Kirsch Airport, Sturgis, Michigan, and the original procedure revised. The controlled airspace is revised to protect the procedures.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (39 F.R. 440), the following transition area is amended to read:

STURGIS, MICHIGAN

That airspace extending upward from 700 feet above the surface within a 5.5 mile radius of Kirsch Airport, Sturgis, Michigan (Latitude 41°48'35" N., Longitude 85°26'10" W.); within 3½ miles either side of the 059° bearing from the airport, extending from the 5.5 mile radius area to 13 miles northeast of the airport and within 3 miles either side of the 341° bearing from the airport, extending from the 5.5 mile radius area to 8 miles north of the airport.

This amendment is proposed under the authority of Section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)].

Issued in Des Plaines, Illinois, on January 2, 1975.

JOHN M. CYROCKI,
Director, Great Lakes Region.

[FR Doc.75-1843 Filed 1-20-75;8:45 am]

CIVIL SERVICE COMMISSION

[5 CFR Part 294]

AVAILABILITY OF OFFICIAL INFORMATION

Proposed Uniform Schedule of Fees for Information Furnished Under Freedom of Information Act

Notice is hereby given that, under authority of section 552, title 5, United States Code, it is proposed to amend Part 294 of title 5, Code of Federal Regulations, by adding § 294.104(e) to establish a uniform schedule of fees for searching and duplicating information requested under the provisions of the Freedom of Information Act, as amended.

Interested parties may submit comments, objections, or suggestions on this proposed amendment to the Director, Bureau of Management Services, U.S. Civil Service Commission, Washington, D.C. 20415, on or before before February 13, 1975.

Section 294.104(e) is proposed to read as follows:

§ 294.104 Service charges for information.

* * * * *

(e) When a request is made for information under the Freedom of Information Act, the Commission will charge a fee for searching and duplicating such information. The fees charged shall be as follows:

Photocopies, per page	$.10
Printed material, per 25 pages or fraction thereof	.25
Manual records search, per hour	5.00
Automated records search:	
Programming, per hour	14.00
Key punching, per hour	8.75
Computer time, per hour	65.00
Duplication, per hour	47.00

Unless the request specifically states that whatever cost is involved will be acceptable, or acceptable up to a specified limit that covers anticipated costs, a request that is expected to involve assessed fees in excess of $5.00 will not be deemed to have been received until the requester is advised promptly on physical receipt of the request of the anticipated cost and agrees to bear it.

When the anticipated fees exceed $50.00, a deposit of 20 percent of the amount must be made within 5 days after the requester has been advised that the anticipated fees exceed this amount.

Charges will be assessed in cases of unproductive or unsuccessful searches unless waived by the appropriate Commission official. Services performed that are not required under the Freedom of Information Act such as formal certification of records as true copies may be subject to charges under the Federal User Charge Statute (31 U.S.C. 483a) or other applicable statute depending upon the services performed.

UNITED STATES CIVIL SERVICE COMMISSION,
JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.75-2043 Filed 1-20-75;8:45 am]

NATIONAL SCIENCE FOUNDATION

[45 CFR Part 612]

FREEDOM OF INFORMATION ACT

Proposed Regulations

Proposed regulations of the National Science Foundation implementing the Freedom of Information Act are published herewith for comment.

Interested persons may comment in writing upon these proposed regulations by submitting written data, views and arguments to the Assistant Director for Administrative Operations, National Science Foundation, 1800 G Street, NW, Washington, D.C. 20550, on or before February 20, 1975.

The proposed regulations are set forth below.

Dated: January 16, 1975.

H. GUYFORD STEVER,
Director.

PART 612—PUBLIC INFORMATION

Sec.
612.1 Scope.
612.2 Information Policy.
612.3 Procedures applicable to the public—requests and appeals.
612.4 Copies of records.
612.5 Creation of records.
612.6 Fees.
612.7 Agency actions on receipt of properly presented request for record.
612.8 Records available.
612.9 Records not available.
612.10 Records and reports on requests for information.

AUTHORITY: 5 U.S.C. 552, as amended by Pub. L. 93-502.

§ 612.1 Scope.

This part establishes procedures for the National Science Foundation (NSF) to implement the provisions of the Administrative Procedure Act (5 U.S.C. 552(a)) relating to the availability to the public of records of NSF.

§ 612.2 Information policy.

(a) It is the policy of NSF to make the fullest possible disclosure of information to any person who requests information, without unjustifiable expense or delay. The Deputy Director, NSF, may, in particular instances except where prohibited by law, order disclosure in the public interest of records exempt from mandatory disclosure under § 612.9.

(b) A collection of NSF policy documents, staff instructions, and of agency opinions and orders in the adjudication of cases, with respective indices, shall be physically located in the National Science Foundation library at 1800 G Street,

V40-14 JAN 21 75 XUM

NW., Washington, D.C. where they will be available for inspection by the public during regular working hours on Monday through Friday. Copies of such documents shall be furnished in accordance with these regulations.

(c) The Assistant Director for Administrative Operations (AD/AO) shall be responsible for maintaining, publishing, distributing and making available for inspection and copying the current indexes and supplements thereto which are required by 5 U.S.C. 552(a)(2). Such indexes, shall promptly be published, quarterly or more frequently, unless the ADAO determines by order published in the FEDERAL REGISTER that the publication would be unnecessary. The fee for furnishing copies of indexes and supplements shall not exceed the direct cost of duplication.

§ 612.3 Procedures applicable to the public—requests and appeals.

(a) *Publications excluded.* For the purpose of public requests for records the term "record" does not include publications which are available to the public in the FEDERAL REGISTER, or by sale or free distribution. Such publications may be obtained from the Government Printing Office, the National Technical Information Service, the NSF Distribution Section or NSF grantees or contractors. Requests for such publications will be referred to or the requester informed of the appropriate source.

(b) *Form of request.* A request need not be in any particular format, but it (1) must be in writing, (2) must be clearly identified both on the envelope and in the letter as a Freedom of Information Act or FOIA request, (3) must describe the records sought with sufficient specificity to permit identification, and (4) must state that the requester promptly will pay the fees chargeable under this regulation. In appropriate instances, such as when the requester places an inadequate limit on the amount he will pay or the requester has failed to make payment for previous requests, the notice of determination whether or not to comply with the request will be furnish within ten days as provided it § 612.7 but no copies will be furnished until appropriate payment is received.

(c) *Place of request.* Any request for a record under FOIA shall be addressed to the National Science Foundation, Public Information Office, 1800 G Street, NW., Washington, D.C. 20550. A request which meets the requirements of subsection (a) above and is properly addressed shall be deemed received on the date of arrival in the NSF mailroom. Since NSF liaison offices located outside of Washington, D.C. maintain no permanent records, any request received by such offices will be returned to the requester with instructions for submission as provided herein.

(d) *Time for appeal.* A person whose request has been denied or partially denied may initiate an appeal by filing a request for review within ten days of the receipt of the denial, Saturdays, Sundays, and legal public holidays excluded.

(e) *Form of appeal.* The appeal shall include a copy of the written request and the denial together with any written argument the requester wishes to submit, and shall be signed by the requester.

(f) *To whom appeal is made.* An appeal shall be addressed to the Deputy Director, National Science Foundation, 1800 G Street NW., Washington, D.C. 20550.

(g) *Decisions on appeal.* Decisions on appeal shall be made by the Deputy Director in writing within 20 days (excepting Saturdays, Sundays, and legal public holidays) from receipt of the appeal. If the decision is in favor of the requester it shall order the record made available promptly to the requester. If adverse to the requester in whole or in part it shall briefly state the reasons for the decision and shall notify the requester that he may seek judicial review of the decision pursuant to paragraph (4) of section 552(a), Title 5, United States Code. Before final denial the Deputy Director, acting through the Office of General Counsel, shall consult the Department of Justice concerning the proposed denial.

§ 612.4 Copies of records.

If it is determined that a requested record may be disclosed, copies will be furnished the requester as promptly as possible provided payment of fees has been arranged for pursuant to § 612.6(a) of this regulation. Copying service shall be limited to not more than two copies of any page, except that additional copies may be made where administrative considerations permit. Records shall not be released for copying by non-NSF personnel. When a determination not to disclose a portion of a record has been made, those exempt portions shall be masked and copies made only of the non-exempt portions. Records which are published or are otherwise available for sale need not be copied. The booklet "Publications of the National Science Foundation" which is available without charge from the Central Processing Section, National Science Foundation, Washington, D.C. 20550, identifies Annual Reports, Descriptive Brochures, Program Announcements, Science Resources Studies, Special Studies, and Periodicals descriptive of Foundation activities, policies, and procedures, sets forth the cost of each, and tells how copies may be obtained.

§ 612.5 Creation of records.

A record will not be created by compiling selected items from other documents at the request of a member of the public nor will a record be created by analysis, computation or other processing specifically for the requesting party. If such analysis or computation is available in the form of a record, copies shall be made available as provided in this regulation.

§ 612.6 Fees.

(a) *General.* User fees shall be charged according to the schedule contained in paragraph (b) of this section for services rendered in responding to requests for NSF records under this regulation. Copies shall be furnished without charge or at a reduced charge where it is determined that waiver or reduction of the fee is in the public interest because furnishing the information can be considered as primarily benefitting the general public. Fees shall be charged only where they amount to more than $3.00 in the aggregate for a request or series of related requests. Ordinarily, fees shall not be charged if the records requested are not found, or if all of the records located are withheld as exempt.

(b) *Services charged for, and amounts charged.* For the services listed below expended in locating or making available records or copies thereof, the following charges will be assessed:

(1) Copies. For photocopies of documents $0.10 per copy of each page. Where records are not susceptible to photocopying, e.g., punchcards, magnetic tapes, or oversize materials, the amount charged will be actual cost as determined on a case-by-case basis.

(2) Clerical searches. For each one quarter hour spent by clerical personnel after the first quarter hour, in searching for producing a requested record, $1.25.

(3) Certification or authentication of true copies—each: $3.00.

(4) Nonroutine, nonclerical searches. Where a search cannot be performed by clerical personnel, for example, where the task of determining which records fall within a request and collecting them requires the time of professional or managerial personnel, and where the amount of time that must be expended in the search and collection of the requested records by such higher level personnel is substantial, charges for the search may be made at a rate in excess of the clerical rate, namely for each one quarter hour spent in excess of the first quarter hour by such higher level personnel in searching for a requested record, $3.75.

(5) Examination and related tasks in screening records. No charge shall be made for the time spent in resolving legal or policy issues affecting access to records of known contents. In addition, no charge shall ordinarily be made for the time involved in examining records in connection with determining whether they are exempt from mandatory disclosure and should be withheld as a matter of sound policy. However, where a broad request requires NSF personnel to devote a substantial amount of time to examining records for the purpose of screening out certain records or portions thereof in accordance with determinations that material of such a nature is exempt and should be withheld as a matter of sound policy, a fee may be assessed for the time consumed in such examination. Where such examination can be performed by clerical personnel, time will be charged for at the rate of $1.25 per quarter hour, and where higher level personnel are required, time will be charged for at the rate of $3.75 per quarter hour.

(6) Computerized Records. Fees for services in processing requests maintained in whole or in part in computerized form shall be in accordance with this section so far as practicable. Services of personnel in the nature of a search shall be charged for at rates prescribed in paragraph (c)(4) of this section unless the level of personnel involved permits rates in accordance with paragraph (c)(2) of this section. A charge shall be made for the direct cost of the computer time involved, based upon the prevailing level of costs to governmental organizations and upon the particular types of computer and associated equipments and the amounts of time on such equipments that are utilized. A charge shall also be made for the direct costs of special supplies or materials used to contain, present, or make available the output of the computers. Nothing in this paragraph shall be construed to entitle any person as of right, to any special processing of computerized records such as a reordered listing of or special summaries of file contents.

(c) *Notice of anticipated fees in excess of $25.00.* Where it is anticipated that the fees chargeable under this section will amount to more than $25.00, and the requester has not indicated in advance his willingness to pay fees as high as are anticipated, the requester shall be notified of the amount of the anticipated charges. In appropriate cases, an advance deposit may be required. The notice or request for an advance deposit shall extend an offer to the requester to confer with knowledgeable NSF personnel in an attempt to reformulate the request in a manner which will reduce the fees and meet the needs of the requester.

(d) *Form of payment.* Payment should be made by check or money order payable to the Treasury of the United States.

§ 612.7 Agency actions on receipt of a properly presented request for record.

(a) *Monitoring of requests.* The NSF Public Information Office (PIO) will serve as central office for internal administration of these regulations. PIO will control incoming requests, assign them to appropriate action offices, monitor compliance, consult with action offices on disclosure, approve unavoidable extensions, dispatch denial letters, maintain administrative records and prepare annual reports to Congress required under these regulations.

(b) *Action offices.* Upon assignment of a particular request, the head of the action office shall be responsible to obtain the requested record so that appropriate agency action can be completed within 10 days (excepting Saturdays, Sundays, and legal public holidays). In a situation where the record may exist only in a retired file which has been placed in storage, the head of the action office shall immediately notify the requester by letter that the record has been ordered from storage and that the time limit for acting on the request is extended by the length of time required to obtain the record, setting forth the date on which a determination is expected to be dispatched. If the request seeks a voluminous amount of separate and distinct records requiring an unusual length of time for search, collection, and appropriate examination, and determination on the request cannot be made within 10 working days after agency receipt, the office head shall within such ten-day period furnish to the requester written notice extending the period for not more than ten working days. This notice shall set forth the reasons for such extension and the date on which a determination is expected to be dispatched. If the record has not been obtained and examined and notice of the determination whether to comply with the request has not been given by the last day of the period as extended, the requester shall be notified on that last day that the request is denied because the record has not yet been found and examined. Such denial shall state that NSF will reconsider the denial as soon as the search and examination is complete, which should be within a specifically stated number of days, but that the requester may, if he wishes, file an administrative appeal with the Deputy Director of NSF within 10 days from receipt of the denial. This same procedure for extending the period shall be followed if the nature of the record requires consultation with another agency having a substantial interest in the determination of the request or requires consultation among two or more components of NSF having substantial subject-matter interest therein.

(c) *Denial of request.* No written request for record shall be denied except by the Director of the Office of Government and Public Programs. Notice of the denial of a request shall briefly set forth the reasons therefor which shall be based solely upon one or more of the exemptions specified in § 612.9 of this regulation. Each notice of denial also shall set forth the names and title or positions of each person responsible for the denial and shall inform the requester of the right to appeal as provided in § 612.3 of this regulation.

Nothing in these regulations shall be deemed to preclude NSF from honoring oral requests for information where feasible, but if the requester is dissatisfied with the disposition of such a request, he shall be asked to put the request in writing.

§ 612.8 Records available.

The following categories of records shall, unless exempted under the provisions of § 612.9, be made available in addition to the policy documents and final opinions and orders in adjudicated cases specified in 5 U.S.C. 552(a)(1) and (2):

(a) *Correspondence.* Correspondence between NSF or any official of NSF and individuals or organizations outside the executive branch of the Federal Government relating to or resulting from the conduct of the official business of the agency.

(b) *Records pertaining to grants and fellowships.* (1) Portions of funded grant applications and other supporting documents submitted by applicants which are not exempt from disclosure under this regulation; (2) Grant award documents; (3) Portions of funded fellowship applications and other supporting documents submitted by applicants, the disclosure of which would not constitute a clearly unwarranted invasion of personal privacy.

(c) *Contracts.* (1) Contract instruments, (2) Portions of offers reflecting final prices submitted in negotiated procurements.

(d) *Reports on grantee or contractor performance.* Final reports of audits, surveys, reviews, or evaluations by, for, or on behalf of NSF or performance by any grantee or contractor under any NSF financed or supported program or activity, which reports have been transmitted to the grantee or contractor.

(e) *Reports and other items prepared by grantees and contractors.* The final report of a grantee or contractor of the performance under any grant or contract. To the extent that NSF has taken delivery of other items produced in connection with grants and contracts, such as films, computer software, other copyrightable materials and reports of inventions, such materials will be made available except that considerations relating to obtaining copyright and patent protection may require delay in disclosure for such period as necessary to accomplish such protection. Release of records which are copyrightable or which disclose patentable inventions shall not confer upon the requester any license or other interest in the subject matter or the expression thereof.

§ 612.9 Records not available.

(a) *Exemptions.* The following types of records are not normally available for inspection and copying:

(1) Records specifically authorized and in fact properly classified pursuant to Executive Order to be kept secret in the interest of national defense or foreign policy.

(2) Records related solely to the internal personnel rules and practices of NSF. This exemption does not apply to rules relating to the work hours, leave, and working conditions of NSF personnel, or similar matters, to the extent that they can be disclosed without harm to the functions to which they pertain. Examples of exempt records of the type specified in the first sentence of this paragraph include, but are not limited to:

(i) Operating rules, guidelines, manuals on internal procedure, schedules and methods utilized by NSF auditors and examiners;

(ii) Negotiating positions and limitations involved in a negotiation prior to the execution of a contract or the completion of the action to which the negotiating positions or limitations were applicable except as they may be exempt pursuant to other provisions of this section.

(iii) Personnel policies, procedures and instructions, internal staffing plans, requirements, authorizations, controls, and supporting data relating to position

V40N14 JAN21 75 XUM

management and manpower utilization and information involved in the determination of the qualifications of candidates for employment or advancement.

(3) Records specifically exempted from disclosure by statute such as 18 U.S.C. 1905 which prohibits disclosure of information which concerns or relates to the trade secrets, processes, operations, style of work, or apparatus or to the identity, confidential statistical data, amount or source of any income, profits, losses, or expenditures of any person, firm, partnership, corporation or association.

(4) Trade secrets and commercial or financial information obtained from a person and privileged or confidential. Matter subject to this exemption is that which is customarily held in confidence by the originator without regard to whether or not the originator is, or is not employed by, a nonprofit organization. It includes, but is not limited to:

(i) Information received in confidence, such as grant applications, fellowship applications and research proposals prior to award;

(ii) Statistical data or information if received in confidence from a contractor or potential contractor concerning contract performance, income, profits, losses, and expenditures.

(5) Inter-agency or intra-agency memoranda or letters which would not be available by law to a private party in litigation with NSF. To the extent not so available by law, examples include, but are not limited to:

(i) Reports, memoranda, correspondence, workpapers, minutes of meetings (other than those governed by the Federal Advisory Committee Act), and staff papers prepared for use within NSF or within the Executive Branch of the Government by personnel and consultants of NSF, or any Government agency.

(ii) Advance information on proposed NSF plans to procure, lease, or otherwise acquire, or dispose of materials, real estate, facilities, services or functions, when such information would provide undue or unfair competitive advantage to any person;

(iii) Records prepared for use in proceedings before any Federal or State court or administrative body;

(iv) Evaluations of and comments on specific grant applications, research proposals, or potential contractors, whether made by NSF personnel or by external reviewers acting either individually or in committees;

(v) Preliminary, draft unapproved recommendations, evaluations, and opinions, such as evaluations of invention disclosures, of research projects, and of incomplete studies conducted or supported by NSF;

(vi) Proposed budget requests and supporting projections used or arising in the preparation and/or execution of a budget; proposed annual and multi-year policy, priorities, program and financial plans and supporting papers.

(6) Personnel and medical files and similar files, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy. Information in such files which is not otherwise exempt from disclosure pursuant to other provisions of this section will be released to the subject or to his designated legal representative, and it may be disclosed to others with his written consent. Examples of personnel files exempt from disclosure include, but are not limited to, files containing reports, records, and other materials pertaining to individual cases in which disciplinary or other administrative action has been or may be taken, including records of proceedings pertaining to the conduct of or performance of duties by NSF personnel. Opinions and orders resulting from those proceedings shall be disclosed without identifying details if used, cited, or relied upon as precedent.

(7) Investigatory records compiled for law enforcement purposes, but only to the extent that the production of such records would (i) interfere with enforcement proceedings, (ii) deprive a person of a right to a fair trial or an impartial adjudication, (iii) constitute an unwarranted invasion of personal privacy, (iv) disclose the identity of a confidential source and, in the case of a record compiled by a criminal law enforcement authority in the course of a criminal investigation, or by an agency conducting a lawful national security intelligence investigation, confidential information furnished only by the confidential source, (v) disclose investigative techniques and procedures, or (vi) endanger the life or physical safety of law enforcement personnel.

(8) Matters contained in or related to examination, operating, or condition reports prepared by, or on behalf of, or for the use of any government agency responsible for the regulation or supervision of financial institutions.

(9) Geological and geophysical information and data (including maps) concerning wells.

(10) Records belonging to another government agency or dealing with subject matter as to which government agency, other than NSF, has exclusive or primary responsibility. Requests for such records shall be promptly forwarded to the appropriate government agency.

(b) *Deletion of exempt portion and identifying details.* Any reasonably segregable portion of a record shall be provided to any person requesting such record after deletion of the portions which are exempt. Whenever any final opinion, order, or other materials required to be made available relates to a private party or parties and the release of the name or names of other identifying details will constitute a clearly unwarranted invasion of personal privacy, the record shall be published or made available with such identifying details left blank, or shall be published or made available with obviously fictitious substitutes and with a notification such as the following as a preamble:

Names of parties and certain other identifying details have been removed (and fictitious names substituted) in order to prevent a clearly unwarranted invasion of the personal privacy of the individuals involved.

(c) *Records of other agencies.* If a requested record is one of another government agency or deals with subject matters as to which a government agency other than NSF has exclusive or primary responsibility, the request for such a record shall be promptly referred by NSF to that government agency for disposition or for guidance with respect to disposition.

§ 612.10 Records and reports on requests for information.

The Director of the Office of Government and Public Programs will be responsible for maintaining a record of denials of written requests for information. On or before March 1 of each year, OGPP shall prepare and submit it to the Speaker of the House of Representatives and President of the Senate for referral to the appropriate committees of the Congress a report concerning requests received during the preceding calendar year. The report shall include: (a) The number of determinations made not to comply with requests for records and the reasons for each such determination; (b) the number of appeals made, the result of such appeals, and the reason for the action upon each appeal that results in a denial of information; (c) the names and titles or positions of each person responsible for the denial of records requested under this section, and the number of instances of participation for each; (d) the results of each court order which requires the production of a record, including a report of the disciplinary action taken against the officer or employee who was primarily responsible for improperly withholding records or an explanation of why disciplinary action was not taken; (e) a copy of every rule made by NSF regarding this section; (f) a copy of the fee schedule and the total amount of fees collected by the agency for making records available under this section; and (g) such other information as indicates efforts to administer fully the provisions of 5 U.S.C. 502.

PANAMA CANAL CO.

[35 CFR Part 9]

AVAILABILITY OF INFORMATION

Proposed Schedule of Fees

Notice is hereby given that, in accordance with the requirement of section 552 (a) (4) (A) of Title 5, United States Code, as added by Pub. L. 93-502, the Panama Canal Company proposes to amend Part 9 of Title 35, Code of Federal Regulations to add thereto a schedule of fees which will be assessed against persons requesting information and copies of records under the Freedom of Information Act, 5 U.S.C. § 552. It is proposed to make the amendment effective on February 19, 1975.

Inquiries may be addressed, and data, views and arguments concerning the proposed amendment may be submitted to the Secretary, Panama Canal Company, 425 13th Street NW (Room 312), Washington, DC 20004 or to the Comptroller, Panama Canal Company, Box M, Balboa Heights, Canal Zone. All material received on or before February 12, 1975 will be considered. All comments in response to this notice will be available for public inspection during normal business hours at the foregoing addresses.

It is therefore proposed to amend Part 9 by adding thereto a new section 9.5 reading as follows:

§ 9.5 Uniform schedule of fees.

(a) Except as provided in paragraph (d) of this section, persons requesting information or copies of records from the Panama Canal Company under the Freedom of Information Act, 5 U.S.C. § 552, and this Part shall be charged for the direct search and duplication costs incurred by the Company in accordance with the following schedule:

(1) The fee for copies shall be $.07 per page.

(2) The search fee shall be $5.00 per hour for services performed by clerical personnel and $12.50 per hour for services performed by supervisory and professional personnel.

(3) The fee for searches requiring the use of computers shall be $100.00 for the first two hours or fraction thereof and $50.00 for each additional hour.

(b) A request that is expected to involve fees in excess of $50.00 will not be deemed to have been received until the requester has been advised of the anticipated costs and agrees to bear it.

(c) Except as provided in paragraph (d) of this section, search fees are assessable against a requester even when no records responsive to the request, or no records exempt from duplication under the Freedom of Information Act, 5 U.S.C. § 552, are found.

(d) Information and documents shall be furnished without charge, or at a reduced charge, when the Administrative Assistant to the President, Panama Canal Company, or, if the request is on appeal, the Vice President, Panama Canal Company, determines that waiver or a reduction of the fees provided for in paragraph (a) of this section is in the public interest because furnishing the information can be considered as primarily benefiting the public. In the case of a reduced charge, the Administrative Assistant, or the Vice President if the request is on appeal, shall determine the amount of the reduction.

(5 U.S.C. 552(a)(4)(A))

Dated: January 8, 1975.

RICHARD L. HUNT,
Vice President,
Panama Canal Company.

RAILROAD RETIREMENT BOARD

[20 CFR Part 200]

EMPLOYEES' BENEFITS

Proposed Procedures and Forms

Proposed amendments to the Board's regulations to implement the 1974 Freedom of Information Act amendments are in process of preparation. The amendments will include a fee schedule for search and duplication of Board records. The proposed schedule is set forth below. Interested persons may comment upon the proposed fee schedule by submitting written data, views, and arguments to the Chief Executive Officer, Room 536, Railroad Retirement Board, 844 Rush Street, Chicago, Illinois 60611, not later than February 15, 1975.

As amended, paragraph (g) of § 200.3 would read as follows:

§ 200.3 Availability of information to public.

* * * * *

(g) The Chief Executive Officer may charge the person or persons making a request for records under paragraph (f) of this section a fee in an amount not to exceed the costs actually incurred in complying with the request. Any such fees charged by the Chief Executive Officer shall be in accordance with the following schedule.

(1) The fee for copies shall be $.10 per copy per page.

(2) The charge for making a manual search for records shall be $6.00 per man hour.

(3) The maximum computer search charge shall be $268.00 per hour ($4.50 per minute).

(4) Any or all fees may be waived or reduced by the Chief Executive Officer whenever he or she determines that it is in the public interest to do so.

(5) All fees shall be paid to the Board's Director of Budget and Fiscal Operations.

Dated: January 13, 1975.

By Authority of the Board.

[SEAL] R. F. BUTLER,
Secretary of the Board.

[FR Doc.75-1818 Filed 1-20-75;8:45 am]

UNITED STATES INFORMATION AGENCY

[22 CFR Part 503]

FREEDOM OF INFORMATION ACT

Notice of Proposed Rule Making

The United States Information Agency (USIA) is considering an amendment to Chapter V, Part 503 of Title 22 of the Code of Federal Regulations, that would establish a uniform schedule of fees for search and duplication of documents requested pursuant to the Freedom of Information Act, as amended (5 USC 552).

Interested persons may participate in the proposed rulemaking by submitting written data, views, and arguments to the Assistant Director, Office of Public Information (I/R), USIA, 1750 Pennsylvania Ave., NW., Washington, D.C. 20547. No public hearing will be held.

Section 503.6(c)(2)—(9) of Title 22 of the Code of Federal Regulations is proposed to be revised as follows:

§ 503.6 [Amended]

* * * * *

(c) * * *

(2) *Schedule of fees.* The following specific fees shall apply with respect to services rendered to the public:

(i) Making of copies (Xerox or comparable) per page—$0.20.

(ii) Searching for records, per hour or fraction thereof—$5.

(iii) Duplication of architectural photographs and drawings—$2.

(iv) For signed statement of non-availability of record—No fee.

(3) When no specific fee has been established for a service, for example, when the search involves computer time of special travel, transportation, or communications cost, the Assistant Director, Office of Public Information, is authorized to determine the direct costs of the service and include such costs in the fees chargeable under this section.

(4) Where it is anticipated that the fees chargeable under this section will amount to more than $25.00, and the requestor has not indicated in advance his willingness to pay fees as high as are anticipated, the requestor shall be promptly notified of the amount of the anticipated fee or such portion thereof as can readily be estimated. In appropriate cases an advance deposit may be required. The notice or request for an advance deposit shall extend an offer to the requestor to confer with knowledgeable Agency personnel in an attempt to reformulate the request in a manner which will reduce the fees and meet the needs of the requestor. Dispatch of such a notice or request shall suspend the running of the period for response by the Agency until a reply is received from the requestor.

(5) Search costs are due and payable even if the record which was requested cannot be located after all reasonable efforts or if the Agency determines that a record which has been requested but which is exempt from disclosure under this part is to be withheld.

(6) Fees must be paid in full prior to issuance of requested copies.

(7) Remittances shall be in the form either of a personal check or bank draft drawn on a bank in the United States, a postal money order, or cash. Remittances shall be made payable to the order of the Treasurer of the United States and mailed to the Assistant Director, Office of Public Information, USIA, 1750 Pennsylvania Ave., NW., Washington, D.C., 20547. The Agency will assume no responsibility for cash which is lost in the mail.

(8) A receipt for fees paid will be given only upon request. Refund of fees paid for services actually rendered will not be made.

(9) The Assistant Director, Office of Public Information, or an officer designated by the Assistant Director, may waive all or part of any fee provided for in this section when the Assistant Director or the designated officer deems it to be in either the Agency's interest or in the general public's interest.

This revision is proposed under the authority of 5 USC 552 as amended by Public Law 93-502.

GORDON W. MURCHIE,
Deputy Assistant Director,
Office of Public Information.

Internal Revenue Service

[Order No. 47 (Rev. 9)]

ASSISTANT COMMISSIONERS, ET AL.

Authorizing Delegation

Authority to Authorize or Approve Attendance at Meetings at Government Expense.

1. There is hereby delegated to the following officials the authority vested in the Commissioner of Internal Revenue to authorize or approve attendance of employees performing functions under their general supervision, at Government expense, within the geographic limits authorized by the Consolidated Travel Authorization, at meetings of scientific or professional societies, municipal, state, federal, or international organizations, congresses and law enforcement or other groups for the purpose of transmitting or receiving information or knowledge relating to the substantive or administrative activities of the Internal Revenue Service:

Assistant Commissioners
Chief Counsel
Assistant to the Commissoner (Public Affairs)
Regional Commissioners
Regional Counsel
Regional Inspectors

2. The authority delegated herein to Regional Commissioners, Regional Counsel, and Regional Inspectors does not include attendance at meetings which are national in scope. The authorization or approval of the Assistant Commissioner (Administration), Assistant Commissioner (Compliance), Assistant Commissioner (ACTS), Assistant Commissioner (Employee Plans and Exempt Organizations), Assistant Commissioner (Inspection), Assistant to the Commissioner (Public Affair), or the Chief Counsel, in their respective areas of operation, must be obtained for employees under the general supervision of Regional Commissioners, Regional Counsel, or Regional Inspectors to attend meetings which are national in scope.

3. The authority herein delegated may not be redelegated except by Regional Commissioners to (1) Assistant Regional Commissioners and District Directors to authorize or approve attendance of employees under their supervision at meetings not national in scope held within their respective regions; and (2) Service Center Directors to authorize or approve attendance of service center employees at meetings not national in scope held within the geographical area serviced.

4. The authorization or approval of the Regional Commissioner must be obtained for attendance of employees under the general supervision of Assistant Regional Commissioners and District Directors at meetings held outside their respective regions. Attendance of district or service center employees at meetings national in scope requires approval of the Assistant Commissioner (Administration), Assistant Commissioner (Compliance), Assistant to the Commissioner (Public Affairs), Assistant Commissioner (Employee Plans and Exempt Organizations) or Assistant Commissioner (ACTS) in their respective areas of operation.

5. The restrictions (other than on redelegation) set forth in Sections 2, 3 and 4, above, do not apply to meetings or conventions held by recognized employee groups, organizations, or associations. Assistant Commissioners, the Assistant to the Commissioner (Public Affairs), the Chief Counsel, and Regional Commissioners are authorized to approve attendance of employees under their general supervision at meetings held by such employee groups, organizations, or associations when attendance is for the purpose of transmitting or receiving information or knowledge relating to the substantive or administrative activities of the Internal Revenue Service.

6. This Order supersedes Delegation Order No. 47 (Rev. 8), issued July 19, 1972.

Date of issue: January 13, 1975.

Effective Date: January 13, 1975.

DONALD C. ALEXANDER,
Commissioner.

[Order No. 35 (Rev. 6)]

ASSISTANT REGIONAL COMMISSIONERS, ET AL.

Authority Delegation; Agreements Treated as Determinations

1. Pursuant to the authority granted to the Commissioner of Internal Revenue and District Directors by 26 CFR 301.7701-9 and 26 CFR 1.1313(a)-4, the authority to enter into agreements pursuant to section 1313(a)(4), Internal Revenue Code of 1954, relating to agreements treated as determinations, is hereby delegated to the following officials:

a. Assistant Regional Commissioners (Employee Plans and Exempt Organizations),

b. Assistant Regional Commissioners (Appellate),

c. Chiefs and Assistant Chiefs of Appellate Branch Offices,

d. Director of International Operations,

e. Assistant District Directors,

f. Chiefs of Audit Divisions, and

g. Chiefs of Employee Plans and Exempt Organizations Divisions.

2. This authority may be redelegated only by District Directors and the Director of International Operations, who may redelegate to the Chief of Review Staff (or to the Chief of Technical Branch where that position has been established); Chief of Conference Staff; to Revenue Agents and Tax Law Specialists (Reviewers or Conferees) not lower than GS-11 for field audit cases; and to Revenue Agents and Tax Technicians (Reviewers or Conferees) not lower than GS-9 for office audit cases.

3. This Order supersedes Delegation Order No. 35 (Rev. 5), issued November 23, 1970.

Effective date: January 13, 1975.

Dated: January 13, 1975.

DONALD C. ALEXANDER,
Commissioner.

[FR Doc.75-1828 Filed 1-20-75;8:45 am]

[Order No. 42 (Rev. 6)]

ASSISTANT REGIONAL COMMISSIONERS, ET AL.

Authority Delegation

Authority to Execute Consents Fixing the Period of Limitations on Assessment or Collection Under Provisions of the 1939 and 1954 Internal Revenue Codes.

1. Pursuant to authority vested in the Commissioner of Internal Revenue by Treasury Department Order No. 120, dated July 31, 1950; Order No. 150-2, dated May 15, 1972; 26 CFR 301.6501(c)-1; 26 CFR 301.6502-1; 26 CFR 301.6901-1(d); and 26 CFR 301.7701-9; I hereby delegate authority to sign all consents fixing the period of limitations on assessment or collection to the following officials:

a. Assistant Regional Commissioners (Appellate).

b. Assistant Regional Commissioners (Employee Plans and Exempt Organizations).

c. Service Center Directors.

d. District Directors.

e. Director of International Operations.

2. This authority may be redelegated but not below the following level for each activity:

a. Service Centers—Chief, Accounting Branch; Chief, Correspondence Audit Branch.

b. Collection—Revenue Officer.

c. Audit—Conferees and Reviewers, Grade GS-11; Group Managers; Case Managers; and Returns Program Managers.

d. Intelligence — Chief, Intelligence Division.

e. Appellate—Appellate Conferee.

f. Office of International Operations—Conferees and Reviewers, Grade GS-11; Group Managers, Case Managers and Returns Program Managers; Representatives at foreign posts; and Revenue Agents, Tax Auditors and Special Agents on foreign assignments; and Revenue Officers.

g. Employee Plans and Exempt Organizations—Conferees and Reviewers, Grade GS-11; Group Managers.

3. This Order supersedes Delegation Order No. 42 (Rev. 5), issued September 24, 1974.

Date of issue: January 13, 1975.

Effective Date: January 13, 1975.

DONALD C. ALEXANDER,
Commissioner.

DEPARTMENT OF DEFENSE

Office of the Secretary

DEFENSE PANEL ON INTELLIGENCE

Establishment, Organization and Functions

In accordance with provisions of Pub. L. 92-463, Federal Advisory Committee Act, notice is hereby given that the Defense Panel on Intelligence has been found to be in the public interest in connection with the performance of duties imposed on the Department of Defense by law. The Office of Management and Budget has also reviewed the justification for this advisory committee and concurs with its extension.

The panel has reviewed the Department of Defense Intelligence Organization and activities with a view toward recommending actions which should be undertaken to achieve improvements in management and general effectiveness. Reports have been received from all Defense Intelligence Organizations and studies have been undertaken on a number of issues in more detail. A draft report of the Panel is now under preparation and will be reviewed by Panel members prior to submission to the Deputy Secretary of Defense.

MAURICE W. ROCHE,
Director, Correspondence and Directives, OASD (Comptroller).

CROW INDIAN RESERVATION DRAFT ENVIRONMENTAL STATEMENT

Public Hearing on Projected Coal Development

A public hearing will be held at 10:00 a.m. February 26, 1975 at the Crow Tribal Headquarters, Crow Agency, Montana, to receive public comments regarding the Department of the Interior's Draft Programmatic Environmental Impact Statement which presents the anticipated environmental impacts of various levels of coal development on the Crow Indian Reservation and ceded area.

Oral and written statements by interested parties are invited. Oral statements by any party will be limited to no more than ten minutes. Written statements can be entered into the record by filing a copy with the presiding officer.

Additional information on the hearings and copies of the Draft Statement may be obtained from the Office of the Billings Area Director, Bureau of Indian Affairs, 316 North 26th Street, Billings, Montana 59101, Telephone (406) 245-6711, extension 6315.

Dated: January 16, 1975.

STANLEY D. DOREMUS,
Deputy Assistant Secretary of the Interior.

[INT DES 75-2]

CROW INDIAN RESERVATION AND CEDED AREA

Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared an environmental programmatic statement which projects the anticipated environmental impacts of coal development on the Crow Reservation and Ceded Area. Written comments are invited before March 10, 1975.

Copies are available for inspection at the following locations:

Bureau of Indian Affairs
Division of Environmental Quality
Room 3429—Department of Interior Bldg.
Washington, D.C. 20245
Telephone (202) 343-2139

Bureau of Indian Affairs
Billings Area Office
316 North 26th Street
Billings, Montana 59101
Telephone (406) 245-6315

V40-14 JAN 21 75 XUM

Copies of the draft statement may be obtained without cost by writing to the Billings Area Director, Bureau of Indian Affairs, 316 North 26th Street, Billings, Montana 59101.

Dated: JANUARY 16, 1975.

STANLEY D. DOREMUS,
Deputy Assistant Secretary of the Interior.

Bureau of Land Management

[Serial No. I-7435]

IDAHO

Partial Termination of Proposed Withdrawal and Reservation of Lands

JANUARY 14, 1975.

Notice of an application, Serial No. I-7435, for withdrawal and reservation of lands was published as FR Doc. 74-2518 on page 3977 of the issue for January 31, 1974. The Atomic Energy Commission has canceled its application insofar as it involved the lands described below. Therefore, pursuant to the regulations contained in 43 CFR, Part 2300, such lands will be at 10 a.m. on February 14, 1975 relieved of the segregative effect of the above-mentioned application.

The lands involved in this notice of termination are:

BOISE MERIDIAN, IDAHO

T. 14 S., R. 25 E.,
Secs. 23, 24, 25, 26, 27, 34 and 35.
T. 15 S., R. 25 E.,
Secs. 1, 2, 3, 10, 11, 12, 13, 14, 15 and 22.

The areas described aggregate 10,017.62 acres.

VINCENT S. STROBEL,
Chief,
Branch of L&M Operations.

Geological Survey

PLATFORMS, STRUCTURES, AND ASSOCIATED EQUIPMENT

Revision of OCS Order No. 8, Gulf of Mexico Area

By Notice in the FEDERAL REGISTER dated June 3, 1974, (39 FR 19513) comments were solicited on a proposed revision of OCS Order No. 8, Platforms and Structures, for the Gulf of Mexico Area. As a result of these comments and additional input from field office personnel of the Geological Survey, a modified revision of this Order is now proposed and included herein.

A meeting to discuss the technical aspects of this Order will be held with the Offshore Operators Committee commencing at 9 a.m., February 25, 1975, at the Ramada Inn, Terrace Room, 2261 North Causeway Boulevard, Metairie, Louisiana. This meeting will be open to the public and all interested parties are invited to attend.

W. A. RADLINSKI,
Acting Director.

OCS ORDER NO. 8

PLATFORMS, STRUCTURES, AND ASSOCIATED EQUIPMENT

This Order is established pursuant to the authority prescribed in 30 CFR 250.11 and in accordance with 30 CFR 250.19(a). Section 250.19(a) provides as follows:

(a) The supervisor is authorized to approve the design, other features, and plan of installation of all platforms, fixed structures, and artificial islands as a condition of the granting of a right of use or easement under Paragraphs (a) and (b) of § 250.18 or authorized under any lease issued or maintained under the Act.

The operator shall be responsible for compliance with the requirements of this Order in the installation and operation of all platforms and structures, including all facilities installed on a platform or structure, whether or not operated or owned by the operator. All departures from the requirements specified in this Order shall be subject to approval pursuant to 30 CFR 250.12(b). All applications for approval under the provisions of this Order shall be submitted to the appropriate District Supervisor. References in this Order to approvals, determinations, or requirements are to those given or made by the Area Oil and Gas Supervisor or his delegated representative.

1. *Design, application and certification.* The following requirements are applicable to all platforms and structures approved and installed subsequent to the effective date of this Order. When structural or equipment modifications to existing platforms and structures are proposed, only requirements relevant to the modifications shall be applicable.

A. *Platform design.* (1) *General design.* A platform or structure shall be designed for safe installation and operation for its intended use and service life at a specific site. Steel structures shall be designed in accordance with those provisions of API RP 2A, January 1974, Planning Designing and Constructing Fixed Offshore Platforms, that are not in conflict with this Order. The design of structures other than steel shall be evaluated on an individual basis. Consideration shall be given to conditions which may contribute to structural damage such as:

(a) Wind, wave and current forces and other environmental loading forces.

(b) Functional loading conditions including the weight of the structure and all permanently fixed equipment, and the effects of static and dynamic functional load conditions during installation and the designed operational service period.

(c) Water depth, topography, surface and subsurface soil conditions, slope stability, scour conditions and other pertinent geologic conditions based on information from on-site investigations.

B. *Application.* Prior to construction of a fixed platform or structure, the operator shall submit for approval, in duplicate, an application showing all essential features of the platform or structure and supporting design information including the following:

(1) *General information.* (a) Identification data, which shall include the platform or structure designation, lease number, area name, block number, and operator.

(b) Location data including plat showing the distance from the nearest two block lines.

(c) Primary use and other intended functions including planned drilling and production operations, storage, etc.

(d) Personnel facilities, personnel access to living quarters, boat landings, heliports.

(e) Procedures for installation of the platform or structure and its foundation.

(f) Operational plans including a description of each phase of operation and planned simultaneous operations for the service life of the platform or structure.

(g) The application should include design drawings and plats to clearly illustrate all essential parts including number and location of well slots, dimensions, and specifications of the platform or structure and the foundation.

(2) *Environmental information.* (a) Description of all pertinent environmental data which may have a bearing on the installation, operation or design of the platform or structure including the source of the data.

(b) Information on the type and magnitude of the design environmental loading conditions.

(3) *Foundations.* (a) Information on methods and extent of on-site investigations and tests including the results and supporting data.

(b) A description of foundation loads and loading conditions.

(4) *Design features.* (a) A description of the critical design loading and design criteria taking into consideration maximum environmental and operational loading conditions expected over the service life of the platform or structure. This shall include those conditions considered under paragraph 1.A.(1) (a), (b), and (c) above.

(b) For steel structures, a description of the materials, specification, strength analyses, and allowable stresses over the design service life.

(c) For concrete structures, a description of the materials, specification, strength and serviceability requirements and analysis of the reinforcing systems.

(d) An analysis of slope and soil stability in relation to the foundation and the foundation design loads.

(e) Method of corrosion protection.

C. *Certification.* (1) Detailed structural plans certified by a registered professional engineer shall be on file and maintained by the operator or his designee.

(2) The following certifications, signed and dated by a company representative shall accompany the application.

(a) Operator certifies that this platform has been certified by a registered professional engineer and the structure will be constructed, operated and maintained as described in the application, and any approved modification thereto. Certified Plans are on file at _____.

(b) Certification that the mechanical and electrical systems of the facility will be designed and installed under the supervision of a registered professional engineer. Maintenance of these systems will be by qualified personnel.

D. *Design features of production facilities.* Information relative to design features, as follows, shall be submitted in duplicate prior to installation:

(1) A flow schematic showing size, capacity, and design working pressure of separators, treaters, storage tanks, compressors, pipeline pumps, and metering devices.

(2) A schematic diagram showing pollution and safety control equipment identified according to nomenclature (Definition, Symbols and Identification) contained in API RP 14C, June 1974, Analysis, Design, Installation and Testing of Basic Surface Safety Systems on Offshore Production Platforms, accompanied by an explanation as to the function and sequence of operation. The basic platform surface safety systems shall be in accordance with the guidelines set forth in API RP 14C when not in conflict with the provisions of this Order.

(3) A schematic piping diagram showing the size and design working pressure with reference to welding specification(s) or code(s) used.

(4) A diagram of the fire-fighting system.

(5) Electrical system information shall include the following:

(a) Plan view of each platform deck outlining any nonhazardous area—areas which are unclassified with respect to electrical equipment installations, and areas in which potential ignition sources, other than electrical are to be installed. The area outline should include the following:

(i) Any surrounding production or other hydrocarbon source and a description of deck, overhead and firewall.

(ii) Location of generators, control rooms, panel boards, major cabling—conduit routes and identification of wiring method.

(b) One line electrical schematic which includes the following information:

(i) Type, rating and the operating and safety controls of generators and prime movers.

(ii) Main generator switchboard including interlocks, controls and indicators.

(iii) Feeder and branch circuits, including circuit load, wire type and size, motor running protection and circuit breaker setting.

(c) Elementary electrical schematic of any platform safety-shutdown system with functional legend.

2. *Operations on platforms and structures.* A. *Safety and Pollution Control Equipment and Procedures.* Operators of platforms and structures installed prior to the effective date of this Order shall comply with the requirements of the following subparagraphs (1) (g), (2) (e), (4) (e), and (4) (f) within six months and with the requirements of the following sub-paragraphs (1) (e), (1) (h), (1) (i), (3) (a), (3) (c) and (3) (d) within one year from the effective date of this Order. Any device on wells, vessels, or flowlines temporarily out of service shall be flagged. Safety devices and systems on wells which are capable of producing shall not be bypassed or locked out of service unless necessary during start-up or maintenance operations, and then only with personnel on duty aboard the platform.

(1) *Shut-in devices.* The following shut-in devices shall be installed and maintained in an operating condition on all vessels and water separation facilities when such vessels and separation facilities are in service:

(a) Separators shall be equipped with high and low pressure shut-in sensors and a relief valve. Vessels connected together by a system of adequate piping not containing valves which can isolate any vessel may be considered as one unit having an effective working pressure equal to the lowest rated working pressure of any compenent. All separators shall be equipped with low liquid level shut-in controls. High liquid level shut-in control devices shall be installed when the vessel can discharge to a flare.

(b) Pressure surge tanks shall be equipped with high and low pressure shut-in sensors, a high liquid level shut-in control, flare line, and relief valve.

(c) Atmospheric tanks that may contain possible pollutants, including oil production tanks, surge tanks, etc., shall be equipped with a high liquid level shut-in control. When two or more tanks are connected in series or parallel and the operating levels are equalized, only one high liquid level shut-in control is required, providing it is located so that it cannot be isolated from any tank and will provide adequate high-level protection for all tanks.

(d) Other hydrocarbon-handling pressure vessels shall be equipped with high and low pressure shut-in sensors and relief valves. Vessels connected together by a system of adequate piping not containing valves which can isolate any vessel may be considered as one unit having an effective working pressure equal to the lowest rated working pressure of any component. In addition, such pressure vessels shall be equipped with high and low liquid level shut-in controls.

(e) The following requirements shall apply to all gas-fired production vessels:

(i) Fuel supply lines to the main and pilot burners shall be equipped with manually operated shut-off valves.

(ii) A flame detector or heat sensor to determine if the pilot is adequate to light the main burner shall be installed; and, on vessels in which the pilot is not continuously lighted, shall indicate a main burner flame failure.

(iii) The exhaust stack of natural draft heaters shall be equipped with spark arrestors.

(iv) Natural draft air intakes shall be equipped with a flame arrestor.

(v) Forced draft burners shall be equipped with a low pressure or low flow rate shut-in sensor.

(vi) Vessels in which the media in contact with the fire tubes is not the primary product to be heated shall be protected by high temperature and low level shut-in sensors in the heat exchange media stream.

(vii) Pressure relief valves shall be designed, installed, and maintained in accordance with applicable provisions of Sections I, IV, and VIII of the ASME Boiler and Pressure Vessel Code, July 1, 1974. All relief valves and vents shall be piped in such a way as to minimize the possibility of fluid striking personnel or ignition sources.

(viii) Required sensors and monitors shall respond to an abnormal condition in the vessel by automatically: 1) shutting off fuel supply and 2) shutting off combustible media inflow to the vessel. However, in closed heat-transfer systems where the heated media is temperature degradable and flows through tubes located in the fired chamber, circulation of the media shall continue until the heat exchange area has cooled below the temperature at which the media degrades.

(ix) Steam generators shall be equipped with low water level controls in accordance with applicable provisions of Sections I and IV of the ASME Boiler and Pressure Vessel Code, July 1, 1974.

(x) An operating procedure shall be posted in a prominent location near the controls of the unit, and personnel responsible for the unit's operation shall be properly trained.

(f) All relief valves shall be set to start relieving at the design working pressure of the vessel and shall be sized to prevent the pressure from rising more than 10 percent above the design working pressure of the vessel or as otherwise provided by Section VIII of the ASME Boiler and Pressure Vessel Code, July 1, 1974. The high pressure shut-in sensor shall activate sufficiently below the design working pressure to positively insure operation before the relief valve starts relieving. The low pressure shut-in sensor shall activate no lower than 15 percent or 5 psi, whichever is greater, below the lowest pressure in the operating range.

(g) Pressure sensors may be of the automatic or nonautomatic reset type, but where the automatic reset types are used, a nonautomatic reset relay must be installed. All pressure sensors shall be equipped to permit testing with an external pressure source.

(h) All flare lines shall be equipped with a scrubber with a high liquid level shut-in control.

(i) Surge tanks and all hydrocarbon storage tanks shall be equipped with an automatic fail-close shut-in valve located in the pump suction line as close to the tank as practical. Such valve is to be activated by pump shutdown controls and the platform emergency shutdown system.

(2) *Wellhead and Flowline Safety Devices.* The following safety devices shall be installed and maintained in an operating condition at all times. When wells are disconnected from producing facilities and blind-flanged or equipped with a tubing plug, compliance with subparagraphs (a), (b), and (c) below is not required.

(a) All wellhead assemblies shall be equipped with an automatic fail-close surface safety valve. All new wells drilled and completed after the effective date of this Order shall be equipped with a surface safety valve installed in the vertical run of the Christmas tree.

(b) All flowlines from wells shall be equipped with high and low pressure shut-in sensors located downstream of the well choke. If there is more than 10 feet of line between the wellhead wing valve and the primary choke, an additional low pressure shut-in sensor shall be installed in this section. The high pressure shut-in sensor shall be set no higher than 10 percent above the highest operating pressure of the line, but in no case shall it exceed 90 percent of the shut-in pressure of the well or the gas lift supply pressure. The low pressure shut-in sensor shall be set no lower than 10 percent or 5 psi, whichever is greater, below the lowest operating pressure of the section of the line in which it is installed.

(c) All headers shall be equipped with check valves on the individual flowlines.

(d) The flowline and valve from each well located upstream of and including the header valves, shall be able to withstand the shut-in pressure of that well unless protected by a relief valve bypass system with connections to rejoin the main production stream at the separator or at a point upstream of the separator. If there is an inlet valve to a separator, the valve, flowline, and all equipment upstream of the valve shall also be able to withstand shut-in wellhead pressure, unless protected by a relief valve bypass system with connections to rejoin the main production stream at the separator, or at a point upstream of the separator. In the event a well flows directly to pipeline before separation, the flowline and valves from the well located upstream of, and including the header inlet valve shall be able to withstand the maximum shut-in pressure of the well unless protected by a relief valve connected to either the platform flare scrubber or some other approved location other than into the departing pipeline.

(e) On all gas lift wells, a check valve shall be installed on the gas input line to the casing.

(f) All pneumatic shut-in systems shall be equipped with fusible material at strategic points.

(g) Remote shut-in controls shall be located on the helicopter deck and on all exit stairway landings, including at least one on each boat landing. These controls shall be quick-opening valves, except that those on the boat landing may be a plastic loop.

(3) *Other equipment.*

(a) All engine exhausts with temperatures greater than 400° F. (205°C.) shall be insulated and piped away from fuel sources. Exhaust piping from diesel engines shall be equipped with spark arrestors.

(b) All pressure or fired vessels used in the production of oil or gas installed after the effective date of this Order shall conform to the requirements stipulated in the edition of the ASME Boiler and Pressure Vessel Code, Sections I, IV, and VIII, as appropriate, in effect at the time the vessel is installed. Uncoded vessels now in use shall be hydrostatically tested to a pressure 1.5

V 4014 JAN 21 75 XUM

times their normal working pressure. The test date, test pressure, and working pressure shall, within six months after the effective date of this Order, be marked on the vessel in a prominent place. A record of the test shall be maintained by the operator.

(c) A hydrocarbon separator shall be installed in the glycol return line on all glycol dehydration units.

(d) The following requirements shall apply to hydrocarbon gas compressors:

(i) Each compressor suction line and associated suction scrubber vessel shall be protected by high and low pressure shut-in sensors, high and low liquid level shut-in controls in the suction scrubber, and a pressure relief valve.

(ii) Each compressor discharge line shall be protected by a pressure relief valve and high and low pressure shut-in sensors.

(iii) Each compressor interstage scrubber shall be protected by high and low pressure and high and low liquid level shut-in controls and a pressure relief valve.

(iv) High and low pressure shut-in sensors and low liquid level shut-in controls protecting compressor suction and discharge piping and associated suction and interstage scrubbers shall be designed to actuate automatic isolation valves located in each compressor suction and fuel gas line so that the compressor unit and associated vessels can be isolated from all input sources. If the compressor unit is installed in a building, the isolation valves shall be located outside the building. Each suction and interstage high liquid level shut-in control shall, as a minimum, be designed to shutdown the compressor prime mover. As an alternative, low liquid level shut-in control(s) installed in suction and interstage scrubber(s) may be designed to actuate automatic shutoff valve(s) installed in the scrubber dump line(s).

(v) Each compressor discharge line shall be equipped with a check valve to prevent back flow. If the compressor unit is installed in a building, the check valve shall be located outside the buildings.

(vi) Compressor units installed in inadequately ventilated buildings or enclosures shall be protected by a gas detector designed to actuate automatic isolation valves installed in the compressor suction and fuel gas lines.

(vii) Automatic isolation valves installed in compressor suction and fuel gas piping shall be actuated by the platform remote manual shut-in system and fire loop, as well as by any abnormal pressure or level condition sensed in the compressor piping or associated scrubber vessels.

(viii) Each compressor discharge line shall be equipped with an automatic blowdown valve actuated by the platform fire loop and remote manual shut-in system and by the compressor's gas detection system. The blowdown system must be piped to vent at a nonhazardous location away from all possible sources of ignition.

(4) *Safety device testing.* The safety devices required in sub-paragraphs 2A (1) and (2) above shall be tested by the operator as follows or at more frequent intervals. Records shall be maintained at the field headquarters for a period of one year, showing the present status and past history of each device, including dates and details of inspection, testing, repairing, adjustment, and reinstallation. Such records shall be available to any authorized representative of the Geological Survey.

(a) All pressure relief valves shall be tested for operation annually. Pressure relief valves shall either be bench-tested or equipped to permit testing with an external pressure source. Bench tests not witnessed by Geological Survey personnel must be certified by a third party.

(b) All pressure sensors shall be tested at least once each calendar month, but at no time shall more than six weeks elapse between tests. Any sensor which consistently varies more than ±5 percent from its set pressure shall be repaired or replaced.

(c) All automatic wellhead safety valves and check valves on all flowlines shall be checked for operation and holding pressure once each calendar month, but at no time shall more than six weeks elapse between tests. For any valve which these monthly tests indicate a shorter time interval is needed, such shorter interval shall be instituted. If any wellhead safety valve indicates leakage, it shall be repaired or replaced. A check valve sustaining a liquid flow in excess of 400 cc./min. or gas flow exceeding 15 cubic ft./min. shall be repaired or replaced.

(d) All liquid level shut-in controls shall be tested at least once within each calendar month, but at no time shall more than six weeks elapse between tests. These tests shall be conducted by raising or lowering the liquid level across the level-control detector.

(e) All automatic inlet shut-off valves actuated by a sensor on a vessel or a compressor shall be tested for operation at least once within each calendar month, but at no time shall more than six weeks elapse between tests.

(f) All automatic shut-off valves located in liquid discharge lines and actuated by vessel low-level sensors shall be tested for operation once within each calendar month, but at no time shall more than six weeks elapse between tests.

(5) *Curbs, gutters, and drains.* Curbs, gutters, and drains shall be constructed in all deck areas in a manner necessary to collect all contaminants, unless drip pans or equivalent are placed under equipment and piped to a sump which will automatically maintain the oil at a level sufficient to prevent discharge of oil into Gulf waters. Sump piles or open-ended sumps shall be used to collect only produced water and liquids from drip pans and deck drains. Closed sumps or sump transfer tanks shall be equipped with a high liquid level shut-in device.

(6) *Fire-fighting system.* A fire-fighting system shall be installed and maintained in an operating condition in accordance with the following:

(a) A fire water system of rigid pipe with fire hose stations shall be installed and may include a fixed water spray system. Such a system shall be installed in a manner necessary to provide needed protection in areas where production-handling equipment is located. A fire-fighting system using chemicals may be used in lieu of a fire water system if determined to provide equivalent fire protection control.

(b) Pumps for the fire water systems shall be inspected and test operated weekly. A record of the tests shall be maintained at the field headquarters for a period of one year. An alternate fuel or power source shall be installed to provide continued pump operation during platform shutdown, unless an alternate fire-fighting system is provided.

(c) Portable fire extinguishers shall be located in the living quarters and in other strategic areas.

(d) A diagram of the fire-fighting system showing the location of all equipment shall be posted in a prominent place on the platform or structure.

(7) *Automatic Gas Detectors.* An automatic gas detector and alarm system shall be installed and maintained in an operating condition in accordance with the following:

(a) Gas detection systems shall be installed in all enclosed areas containing production facilities or equipment. Gas detectors shall be installed in all enclosed areas where fuel gas is used; however, the use of fuel gas odorant is an acceptable alternate. In partially open buildings, enclosures or meter houses where adequate ventilation is provided in lieu of a gas detector installation, ventilation shall, as a minimum, be by natural draft at a rate not less than one enclosure air change per five minutes.

(b) All gas detection systems shall be capable of continuously monitoring for the presence of combustible gas in the areas in which the detection devices are located. The gas detector power supply must be from a continually energized power source.

(c) The central control shall be capable of giving an alarm at a point not greater than 25 percent of the lower explosive limit of the gas or vapor being monitored.

(d) A high-level setting of not more than 75 percent of the lower explosive limit of the gas or vapor being monitored shall be used for platform shut-in sequences and the operation of emergency equipment.

(e) Records of maintenance and calibration shall be maintained in the field headquarters for a period of one year and made available to any authorized representative of the Geological Survey. The system shall be tested for operation and recalibrated semi-annually.

(f) An application for the installation and maintenance of any gas detection system shall be filed with the appropriate District office for approval. The application shall include the following:

(i) Type, location, and number of detection heads.

(ii) Type and kind of alarm, including emergency equipment to be activated.

(iii) Method used for detection of combustible gases.

(iv) Method and frequency of calibration.

(v) A functional block diagram of the gas detection system, including the electric power supply.

(vi) Other pertinent information.

(g) A diagram of the gas detection system showing the location of all gas detection points shall be posted in a prominent place on the platform or structure.

(8) *Electrical Equipment.* The following requirements shall be applicable to all electrical equipment and systems installed:

(a) All engines shall be equipped with a low-tension ignition system of a low fire hazard-type and shall be designed and maintained to minimize release of sufficient electrical energy to cause ignition of an external combustible mixture.

1. Description of operations.

2. Schematic plans showing areas of activities.

3. Identification of critical areas of simultaneous activities.

4. Plan for mitigation of potential undesirable events including provisions for coordination and supervision of activities such that all persons involved will be informed as to all activities and be aware of critical areas.

C. *Welding practices and procedures.* The following requirements shall apply to all platforms and structures, including mobile drilling and workover structures. The period of time during which these requirements are considered applicable to mobile drilling structures is the interval from the drilling out of the drive conductor or shoe of the casing until the BOP stack and riser are pulled in the final abandonment, suspension, or completion. These requirements shall apply to workover rigs when such rigs are performing remedial work on any wells open to hydrocarbon bearing zones.

For the purpose of this Order, the term "burning and welding" is defined to include arc or acetylene cutting and arc or acetylene welding.

Each operator shall prepare and submit to the District Supervisor for approval a Welding and Burning Safe Practices and Procedures Plan, which includes company qualification standards or requirements for welders. Any person designated as a welding supervisor must be thoroughly familiar with this plan.

Prior to burning or welding operations, the operator shall establish approved welding areas. Such areas shall be constructed of noncombustible or fire-resistant materials free of combustible or flammable contents and be suitably segregated from adjacent areas. NFPA Bulletin No. 51B, Cutting and Welding Processes, 1971, shall be used as a guide to designate these areas.

(b) All electrical generators, motors, and lighting systems shall be installed, protected, and maintained in accordance with the edition of the National Electrical Code and API RP 500 B in effect at the time of installation.

(c) Wiring methods which conform to the National Electrical Code or IEEE 45 in effect at the time of installation are acceptable.

(d) An auxiliary power supply shall be installed to provide emergency power capable of operating all electrical equipment required to maintain safety of operations in the event of a failure in the primary electrical power supply.

(9) *Erosion.* A program of erosion control shall be in effect for wells having a history of sand production. The erosion control program may include sand probes, X-ray, ultrasonic, or other satisfactory monitoring methods. A report on the results of the program shall be submitted annually to the District Supervisor.

B. *Simultaneous facility operation.* Prior to conducting activities on a facility simultaneously with production operations, which could increase the possibility of undesirable events occurring such as damage to equipment, harm to personnel or the environment, a plan shall be filed and approved by the District Supervisor which will provide for the mitigation of such events. Activities requiring a plan are drilling, workover, wireline, and major construction operations. Such plans submitted for approval may cover sequential or individual operations. The plan shall include:

All welding which cannot be done in the approved welding area shall be performed in compliance with the procedures outlined below:

(1) All welding and burning shall be minimized.

(2) Such welding and burning as are necessary on a structure shall adhere to the following practices:

(a) Prior to the commencement of any burning or welding operations on a structure, the operator's designated welding supervisor at the installation shall personally inspect the qualifications of the welder or welders to insure that they are properly qualified in accordance with the approved company qualification standards or requirements for welders. The designated welding supervisor and the welders shall personally inspect the area in which the work is to be performed for potential fire and explosion hazards. After it has been determined that it is safe to proceed with the welding or burning operation, the welding supervisor shall issue a written authorization for the work.

(b) All welding equipment shall be inspected prior to beginning any burning or welding. Welding machines located on production or process platforms shall be equipped with spark arresters and drip pans. Welding leads shall be completely insulated and in good condition; oxygen and acetylene bottles secured in a safe place; and hoses leak-free and equipped with proper fittings, gauges, and regulators.

(c) During all welding and burning operations, one or more persons as necessary shall be designated as a Fire Watch. Persons assigned as a Fire Watch shall have no other duties while actual burning or welding operations are in progress.

(d) Prior to any welding or burning, the Fire Watch shall have in his possession fire-fighting equipment in a condition ready to use.

(e) No welding shall be done on containers, tanks, or other vessels which have contained a flammable substance unless the contents of the vessels have been rendered inert and determined to be safe for welding or burning by the designated welding supervisor.

(f) No welding shall be permitted during wireline operations.

(g) All production shall be shut in at the surface safety valves while welding or burning in the wellhead or production area.

D. *Requirements for drilling rigs.* The requirements of subparagraphs 2.A.(5), 2.A.(8), and 2.C. above shall apply to all drilling rigs used to conduct drilling or workover operations on Federal leases in the Gulf of Mexico.

E. *Employee orientation, qualification, and motivation programs for personnel working offshore.* The following API documents should be utilized as appropriate for personnel working offshore:

(1) API RP T-1, January 1974, Orientation Program for Personnel Going Offshore for the First Time.

MONTANA

Definition of Known Geologic Structure of Producing Oil and Gas Field

Pursuant to 43 CFR 3100.7 and delegations of authority in 220 Departmental Manual 41. G, Geological Survey Manual 220.2.2B(2), and Conservation Division Supplement (Geological Survey Manual) 220.2.1F(2), notice is hereby given that the known geologic structure of a producing oil and gas field has been defined as follows:

(26) MONTANA

Bell Creek field (Montana) Known Geologic Structure; May 25, 1974; 27,289 acres.

Map and diagram showing the boundary of the defined structure has been filed with the appropriate land office of the Bureau of Land Management. Copy of the diagram and the land description may be obtained from the Regional Conservation Manager, U.S. Geological Survey, Building 25, Federal Center, Denver, Colorado 80225.

GEORGE H. HORN,
Conservation Manager,
Central Region.

PROPOSED ILIAMNA NATIONAL RESOURCE RANGE; ALASKA

Availability of Final Environmental Statement

Pursuant to § 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a final environmental statement for the proposed Iliamna National Resource Range in Alaska. The proposal is made in accordance with the Alaska Native Claims Settlement Act of 1971. The environmental statement considers the legislative establishment of the Iliamna National Resource Range and its management by the agencies indicated below.

Proposal recommends that: Approximately 3.0 million acres of public lands and waters west of Cook Inlet, Alaska, be designated by Congress as the Iliamna National Resource Range and that a 47-mile segment of the Alagnak River be designated as a Wild River in accordance with the National Wild and Scenic Rivers Act of 1968.

Management by: Fish and Wildlife Service and Bureau of Land Management.

The final environmental statement is available for inspection at the following locations.

PROPOSED YUKON-CHARLEY NATIONAL RIVERS; ALASKA

Availability of Final Environmental Statement

Pursuant to § 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a final environmental statement for the proposed Yukon-Charley National Rivers in Alaska. The proposal is made in accordance with the Alaska Native Claims Settlement Act of 1971. The environmental statement considers the legislative establishment of the Yukon-Charley National Rivers and their management by the agency indicated below.

Proposal recommends that: Approximately 2.0 million acres of public lands and waters along the upper Yukon River be designated by Congress as the Yukon-Charley National Rivers.

Management by: National Park Service.

The final environmental statement is available for inspection at the following locations.

PROPOSED CAPE ROMAIN WILDERNESS AREA

Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, Public Law 91-190, the Department of the Interior has prepared a final environmental statement for the proposed Cape Romain Wilderness Area, Charleston County, South Carolina.

The proposal recommends that approximately 28,000 acres of Cape Romain National Wildlife Refuge in Charleston County, South Carolina be designated as wilderness within the National Wilderness Preservation System.

Copies of the final statement are available for inspection at the following locations:

Regional Director
U.S. Fish and Wildlife Service
17 Executive Park Drive, NE.
Atlanta, Georgia 30329

Refuge Manager
Cape Romain National Wildlife Refuge
Route 1, Box 191

TONGASS NATIONAL FOREST LAND USE PLAN AND DRAFT ENVIRONMENTAL STATEMENT

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for the land use plan for the Tongass National Forest, USDA-FS-R10-75-05.

This environmental statement concerns a land use plan for the 16 million acre Tongass National Forest in Alaska.

This draft environmental statement was transmitted to the CEQ on January 13, 1975.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service
South Agriculture Bldg., Room 3230
126th St. & Independence Ave., SW
Washington, D.C. 20230

USDA Forest Service
Alaska Region
Federal Office Building
Juneau, Alaska 99802

Forest Supervisor, Chatham Area
Tongass National Forest
Federal Building
Sitka, Alaska 99835

Forest Supervisor, Ketchikan Area
Tongass National Forest
Federal Building, Room 313

Forest Supervisor, Stikine Area
Tongass National Forest
Federal Building
Petersburg, Alaska 99833

Forest Supervisor
Chugach National Forest
121 W. Fireweed Lane, Suite 205
Anchorage, Alaska 99503

A limited number of single copies are available upon request to Regional Forester C. A. Yates, U.S. Forest Service, Federal Office Building, Juneau, Alaska 99802.

Copies of the environmental statement have been sent to various Federal, state, and local agencies as outlined in the CEQ guidelines.

Comments are invited from the public and from state and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Regional Forester C. A. Yates, U.S. Forest Service, Federal Office Building, Juneau, Alaska 99802. Comments must be received by March 24, 1975 in order to be considered in the preparation of the final environmental statement.

C. A. YATES,
Regional Forester,
Alaska Region.

Domestic and International Business Administration

COLGATE UNIVERSITY

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scien-

V 40 14 JAN 21 75 XUM

tific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89–651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 74–00466–33–46500. Applicant: Colgate University, Hamilton, New York 13346. Article: Ultramicrotome, Model Om U3. Manufacturer: C. Reichert Optische Werke AG, Austria. Intended use of article: The article is intended to be used in the course Biology 412-Ultrastructural Cytology designed to familiarize the students with modern concepts of plant and animal cellular ultrastructure through electron microscopy. The main objective of the laboratory portion of the course is to provide training in the use of the electron mircoscope and the techniques employed in preparing tissue for examination with this instrument.

Comments: Comments with respect to this application were received on July 19, 1974, from DuPont Instruments (DuPont) who alleges inter alia, that its Sorvall Model MT2–B is scientifically equivalent to the foreign article for the applicant's intended purposes. DuPont noted further that the applicant concedes the Sorvall microtome can cut the desired sections and that the request for free entry of the article is based on personal preferences which are not a basis for duty-free entry under § 701.9(4)(iii).

Decision: Application denied. An instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as the article is intended to be used, is being manufactured in the United States.

Reasons: In reply to question 7 the applicant indicates the article is intended to be used in a course in Ultrastructural Cytology (Biology 412). The applicant states that the course is designed to familiarize the student with modern concepts of plant and animal ultrastructure through electron microscopy and includes laboratory sessions which stress training in the use of the ultramicrotome and both transmitting and scanning electron microscopes.

The applicant states in reply to question 8C(3) that "The only reason for purshasing the OmU3 is to allow us to provide our students with training in the use of a microtome with a thermal advance mechanism in addition to the training they currently receive on microtomes with mechanical advance (we are currently using Sorvall Porter Blum MT–2B's)." The applicant indicates further that since both types of microtomes are used in laboratories around the world, the "extra training" the foreign article would provide would better prepare the students for the job market. The Department of Commerce considers the Sorvall Model MT2–B manufactured by DuPont Instruments as the domestic instrument most closely comparable to foreign article.

The basic purpose of the course in Ultracellular Cytology is to familiarize the students with the concepts of plant and animal cellular ultrastructure. The use of the ultramicrotome in this connection, is as a tool to prepare sections of plant and animal tissue for viewing through both scanning and transmission electron microscopes. The applicant concedes that the domestic MT2–B's presently used in the University's laboratories are capable of performing the tissue sectioning needed in connection with this course. In fact, the applicant states the only reasons for purchasing the foreign article is to provide the added training which would result from exposure to an instrument with a design feature (thermal advance) which differs from the design feature (mechanical advance) of the presently utilized domestic article. The applicant does not allege that the domestic article is not scientifically equivalent to the foreign article for the purposes for which it is intended to be used in this course, but only that the foreign article is different from the domestic instrument and that exposure to both types would be desirable from an educational viewpoint.

The Department of Commerce recognizes that there may be collateral educational benefits accuring to students who are given exposure to the widest range of instruments possible in their courses. However, the Department does not consider such collateral benefits to present an adequate justification for duty-free entry under the Act. The scientific equivalency test contained in the Act would be effectively circumvented if the desirability of exposure to instruments with differing design features or handling characteristics were to serve as a justification for duty-free entry.

Thus, the Department of Commerce finds that the Model MT–2B ultramicrotome is of equivalent scientific value to the foreign article for such purposes as this article is intended to be used.

A. H. STUART,
Director, Special Import Programs Division.

[FR Doc.75–1876 Filed 1–20–75;8:45 am]

COLORADO STATE UNIV.

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89–651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket number: 75–00127–98–74600. Applicant: Colorado State University, Department of Physics, College Avenue, Ft. Collins, Colorado 80521. Article: "Malvern" High Speed Correlator, Type K7023 with Photon Detection System, High Speed Punch Output, TTY Serial Interface. Manufacturer: Precision Devices and Systems Ltd., United Kingdom. Intended use of article: The article is intended to be used to determine and analyze the correlation spectrum of the laser light scattered from the turbulent flow (either laboratory flow or the real atmospheric flow) of either clear air or disturbed air under investigation.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article provides a time resolution of 50 nanoseconds and the ability to correlate every photon with every previous photon. The National Bureau of Standards (NBS) advises in its memorandum dated December 17, 1974 that the capabilities described above are pertinent to the applicant's intended purposes. NBS also advises that the most closely comparable domestic instrument, the Saicor SA1–42 digital correlator, does not provide either of the capabilities of the article found to be pertinent. In addition, NBS advises that it knows of no domestically available digital correlator or other combination of [domestic] instruments which is of equivalent scientific value to the foreign article for the applicant's intended use.

MEHARRY MEDICAL COLLEGE ET AL.

Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89–651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, on or before February 10, 1975.

Amended regulations issued under cited Act, as published in the February 24, 1972 issue of the FEDERAL REGISTER, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C. 20230.

Docket Number: 75–00286–33–46500. Applicant: Meharry Medical College, 1005 18th Avenue North, Nashville, Tennessee 37208. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used to study a wide variety of biological materials, mostly from mammalian sources, which exhibit both normal and pathologic structure. These materials will come from experimental animals as well as from human surgical and cadaveric sources. The article will also be used in a training program in microscopic anatomy and in research techniques. Application received by Commissioner of Customs: December 19, 1974.

Docket Number: 75–00287–63–46500. Applicant: Department of Plant Pathology and Weed Science, P.O. Drawer PG, Mississippi State, MS 39762. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used to provide ultra-thin microtomy in carrying out the following projects:

(1) Ultrastructural and morphological investigations of resistance mechanisms in Southern Pines to *Cronartium fusiforme.*

(2) Investigations of Loblolly Pine selected for resistance to *Scirrhia acicola*—Mechanisms of Resistance and Disease impact.

(3) Investigations of Sycamore Anthracnose.

(4) Cultural, physiological and pathological studies of certain greenhouse florist crops.

(5) Develop and evaluate technologies for the production and processing of tomatoes.

(6) Virus diseases of certain horticultural plants and their control.

The article will also be used in the courses PW 8123: Virology and PW 8513: Methods in Plant Pathology and Weed Science for educational purposes. Application received by Commissioner of Customs: December 19, 1974.

Docket Number: 75–00288–33–46500. Applicant: VA Hospital 3900 Loch Raven Blvd., Baltimore, Md. 21218. Article: Ultramicrotome, Model LKB 8800A and Cryokit. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used for diagnostic electron microscopy and preparation of ultrathin sections of human biopsy and autopsy tissues for determination of tissue electrolyte distributions. The article will also be used in a residency training program to familiarize students with electron microscopy and its application in the early diagnosis of pathological conditions. Application received by Commissioner of Customs: December 19, 1974.

Docket Number: 75–00289–33–46500. Applicant: Veterans Administration Hospital, Middleville Road, Northport, N.Y. 11768. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used to prepare sections of a variety of diseased human and animal tissues including tumors, inflammatory lesions, skeletal muscle, renal, skin, lung, liver, brain and gastrointestinal mucosal biopsies for electron microscopic examination. Among the studies to be done is the establishment of cell of origin of poorly differentiated tumors. identification of infectious agents, recognition of antigen-antibody complexes in various tissues and identification of ultrastructural abnormalities in muscle cells as well as in the epithelial cells of intestine and skin. Specimens from animal experiments related to immune complex diseases are also examined. Application received by commissioner of customs: December 19, 1974.

Docket Number: 75–00290–33–46500. Applicant: University of Michigan, Great Lakes Research Division, Institute of Science & Tech. Bldg., Ann Arbor, Michigan. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used for thick and thin sectioning of biological tissues and cells, which, in turn, will be examined in transmission electron microscope for polyphosphate deposition as well as be analyzed by X-ray energy dispersive analysis. Application received by commissioner of customs: December 19, 1974.

Docket Number: 75–00291–33–46500. Applicant: Meharry Medical College, 1005 18th Avenue North, Nashville, Tennessee 37208. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used to study a wide variety of biological materials, mostly from mammalian sources, which exhibit both normal and pathologic structure. These materials will come from experimental animals as well as from human surgical and cadaveric sources. The article will also be used in a training program in microscopic anatomy and in research techniques. Application received by Commissioner of Customs: December 19, 1974.

Docket Number: 75–00295–65–77045. Applicant: University of Wisconsin, 750 University Avenue, Madison, WI 53706. Article: Combined X-ray Diffractometer/Spectrometer. Manufacturer: Rigaku Denki Co. Ltd., Japan. Intended use of article: The article is intended to be used to determine the chemical composition of plant and animal tissue, soils, rocks, ores, aerosolic dust, suspended particulate matter and the mineral species of the crystalline fraction of the above materials. This information will be used to study soil-plant-animal relationships and to determine the sources, sinks, and modes of transport of nutrients, contaminants, and elements in the environment. The article will also be used in the courses: Soil Chemistry, Soil Science and Plant Nutrition and Properties and Weathering of Soil Minerals, which provide the basic information and techniques to the above research. Application received by Commissioner of Customs: December 23, 1974.

NATIONAL INDUSTRIAL ENERGY CONSERVATION COUNCIL

Rescheduled Meeting

On December 31, 1974, a notice appeared in the FEDERAL REGISTER (39 FR 45348) announcing a meeting of the National Industrial Energy Conservation Council for January 29, 1975, in Room 4830 of the Main Commerce Building, 14th & Constitution Avenue, NW, Washington, D.C. 20230, from 10 a.m. to 12 noon.

This advisory committee meeting has been rescheduled for February 6, 1975, in Room 4830, Main Commerce Building, 14th & Constitution Avenue, NW, Washington, D.C. 20230, from 10 a.m. to 12 noon.

HERBERT K. SCHMITZ,
Executive Director, National Industrial Energy Conservation Council.

National Bureau of Standards

FEDERAL INFORMATION PROCESSING STANDARDS TASK GROUP 13 WORKLOAD DEFINITION AND BENCHMARKING

Meeting

Pursuant to the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. III, 1973), notice is hereby given that the Federal Information Processing Standards Task Group 13 (FIPS TG–13), "Workload Definition and Benchmarking," will hold a meeting from 10:00 a.m. to 4:00 p.m. on Thursday, March 6, 1975, in Room B–255, Building 225, of the National Bureau of Standards at Gaithersburg, Maryland.

The purpose of this meeting is to review the progress of four workgroups which are addressing the areas of Problem Definition, Benchmark Program Transferability, Preliminary Benchmarking Guidelines, and Workload Definition.

The public will be permitted to attend, to file written statements, and, to the extent that time permits, to present oral statements. Persons planning to attend should notify the Executive Secretary, Mr. John F. Wood, Institute for Computer Sciences and Technology, National Bureau of Standards, Washington, D.C., 20234 (Phone—301–921–3485).

ERNEST AMBLER,
Acting Director.

National Oceanic and Atmospheric Administration

COASTAL ZONE MANAGEMENT ADVISORY COMMITTEE

Public Meeting

Pursuant to section 10(a)(2) of 5 U.S.C. App. I (Supp. II, 1972), notice is hereby given of the meeting of the Coastal Zone Management Advisory Committee (the "Committee") on Thursday and Friday, March 6 and 7, 1975. The meeting will commence at 9 a.m. on each day at the Bourbon Orleans Ramada, 717 Orleans Street, New Orleans, Louisiana.

Interested persons are invited to attend and participate in the meeting, subject to the procedures which follow. From approximately 11:25 a.m. until 12 noon on March 6, interested persons will be permitted to make oral statements to the Committee which are relevant to topics on the agenda. Depending on the level of interest expressed in making oral statements, the number of persons permitted to make oral statements that day may be limited to five, the length of oral statements may be limited to no more than five minutes, and preference may be given based upon the relevance of statements to items on the agenda; such decisions will be made by the Chairman in consultation with the Committee. Interested persons wishing to make oral statements must register on March 6 with the Executive Secretary between 8:30 a.m. and 9 a.m. in the meeting room and must provide their name, legal address, a list of any affiliations relevant to their intended topic(s). A written version of an oral statement or a written statement may be submitted to the Executive Secretary before or after the meeting, or may be mailed within five days to: Office of Coastal Zone Management, National Oceanic and Atmospheric Administration, 6001 Executive Blvd., Rockville, Maryland 20852; (Attn: Executive Secretary, CZM Advisory Committee). All statements received in typewritten form will be distributed to the Committee for consideration with the minutes of the meeting.

The items for Committee discussion at the meeting will include the following:

March 6

9 am	Call to Order and Announcements.
9:15 am	Consideration of Possible Changes in Committee's "Operating Procedures."
9:45 am	*Substantive Topic #1:* Consideration of the Accelerated Outer Continental Shelf Oil and Gas Exploration Program and its Relationship to States' Coastal Zone Management Programs.
10:30 am	Brief Recess.
10:45 am	Continuation of Substantiv Topic #1.
11:25 am	Oral Statements (if any) by Interested Persons.
12 noon	Recess for Lunch.
1:30 pm	Continuation of Substantive Topic #1.
3:15 pm	Brief Recess.
3:30 pm	Committee Consideration of Possible Actions on Substantive Topic #1.
4:30 pm	Adjourn.

March 7

9 am	Call to Order.
9:15 am	*Substantive Topic #2:* Staff Presentation of Federal Consistency Study.
10:20 am	Brief Recess.
10:30 am	*Substantive Topic #3:* Staff Presentation on Options for Segmented Management Program Approval (Functional and Geographic).
12:15 pm	Recess for Lunch.
1:30 pm	Reserved for Additional Discussion on Matters Related to Items 2 and 3.
3:15 pm	Brief Recess.
3:30 pm	Consideration of Agenda and Time and Place of Next Meeting.
4:30 pm	Adjourn.

Dated: January 13, 1975.

ROBERT L. CARNAHAN,
Acting Assistant Administrator for Administration, National Oceanic and Atmospheric Administration.

Meeting

Correction

In FR Doc. 75-1274, appearing on page 2738 in the issue of Wednesday, January 15, 1975, the heading should read as set forth above.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[CGD 74 302]

EQUIPMENT, CONSTRUCTION, AND MATERIALS

Approval Notice

1. Certain laws and regulations (46 CFR Ch. I) require that various items of lifesaving, firefighting and miscellaneous equipment, construction, and materials used on board vessels subject to Coast Guard inspection, on certain motorboats and other recreational vessels, and on the artificial islands and fixed structures on the outer Continental Shelf be of types approved by the Commandant, U.S. Coast Guard. The purpose of this document is to notify all interested persons that certain approvals have been granted as herein described during the period from October 31, 1974 to November 14, 1974 (List No. 25-74). These actions were taken in accordance with the procedures set forth in 46 CFR 2.75-1 to 2.75-50.

2. The statutory authority for equipment, construction, and material approvals is generally set forth in sections 367, 375, 390b, 416, 481, 489, 526p, and 1333 of Title 46, United States Code, section 1333 of Title 43, United States Code, and section 198 of Title 50, United States Code. The Secretary of Transportation has delegated authority to the Commandant, U.S. Coast Guard with respect to these approvals (49 CFR 1.46 (b)). The specifications prescribed by the Commandant, U.S. Coast Guard for certain types of equipment, construction, and materials are set forth in 46 CFR Parts 160 to 164.

3. The approvals listed in this document shall be in effect for a period of 5 years from the date of issuance, unless sooner cancelled or suspended by proper authority.

LADDERS, EMBARKATION-DEBARKATION (FLEXIBLE), FOR MERCHANT VESSELS

Approval No. 160.017/36/4, Model 11 PL-S, Type II embarkation-debarkation ladder, chain suspension, steel ears, dwg. dated June 15, 1965 and revised November 18, 1968, approval limited to ladders 65 feet or less in length, superseding Nos. 1 and 2 passed over as requested by Mfg. and to agree with lot 1, manufactured by H. K. Metalcraft Manufacturing Corporation, 35 Industrial Road, P.O. Box 275, Lodi, New Jersey 07644, effective November 8, 1974. (It is an extension of Approval No. 160.017/36/4 dated January 30, 1970.)

DAVITS FOR MERCHANT VESSELS

Approval No. 160.032/199/0, Type SS 1404 small survival capsule launching system (winch-type); approved as an alternate to a lifeboat davit for a maximum working load of 6,000 lbs. on a single fall; identified by general arrangement drawing SS 1404, dated August 1, 1974, electrical system acceptable in Class I, Group D hazardous locations as defined by 46 CFR 111.80-5, approved for installation with Lake Shore, Inc. Model LS-555-DS lifeboat winch (Approval #160.015/106/0) for use on artificial islands, fixed structures, and drilling rigs, both self-propelled and nonself-propelled, manufactured by Whittaker Corporation, 5159 Baltimore Drive, La Mesa, California 92041, effective October 31, 1974.

HAND PROPELLING GEAR, LIFEBOATS, FOR MERCHANT VESSELS

Approval No. 160.034/18/0, Type M, hand-propelling gear identified by dwg. list Type M dated August 16, 1974, manufactured by Marine Safety Equipment Corporation, Foot of Wycoff Road, Farmingdale, New Jersey 07727, effective November 7, 1974.

LIFEBOATS

Approval No. 160.035/474/1, Model 1401 survival capsule, 11.2' diameter x 3.33' depth, fibrous glass reinforced plastic (FRP) motor-propelled, totally enclosed model, 14-person capacity, alternate for lifeboat, inflatable life raft or life float, identified by general arrangement dwg. No. 1401-101 dated October 5, 1974, and drawing list No. Model 1401 dated October 5, 1974, approved for use only on artificial islands, fixed structures, and drilling rigs, both self-propelled semi-submersible and nonself-propelled,

Marking, Weights: Condition "A"=2,310 pounds; Condition "B"=5,483 pounds, manufactured by Whittaker Corporation, Survival Systems Division, 5159 Baltimore Drive, La Mesa, California 92041, effective November 5, 1974. (It supersedes Approval No. 160.035/474/0 dated April 24, 1974.)

BUOYANT CUSHIONS, KAPOK, OR FIBROUS GLASS

Approval No. 160.048/1/0, group approval for rectangular and trapezoidal kapok buoyant cushions, U.S.C.G. Specification Subpart 160.048, sizes and weights of kapok filling to be as per Table 160.048-4(c)(1)(i), Type IV PFD, manufactured by Atlantic-Pacific Manufacturing Corporation, 124 Atlantic Avenue, Brooklyn, New York 11201, effective November 8, 1974. (It is an extension of Approval No. 160.048/1/0 dated January 19, 1970.)

Approval No. 160.048/238/0, special approval for 13" x 18" x 2" rectangular ribbed-type kapok buoyant cushion, 21-oz. kapok, Ero dwgs. Nos. 1 and 2 dated February 1, 1965, and Bill of Materials dated February 10, 1965, Type IV PFD, manufactured by Ero Manufacturing Company, 308 William Street, Hazlehurst, Georgia 31539, for Sears, Roebuck and Company, 925 South Homan Avenue, Chicago, Illinois 60607, effective November 8, 1974. (It is an extension of Approval No. 160.048/238/0 dated January 14, 1970.)

LIGHT (WATER); ELECTRIC FLOATING, (WITH BRACKET FOR MOUNTING) FOR MERCHANT VESSELS

Approval No. 161.010/5/0, Model S1307 Seastar Distress Marker, floating electric water light, manufactured by Soderberg Manufacturing Company, Inc., 20821 Currier Road, Walnut, California 91789, effective November 4, 1974.

SAFETY VALVES (POWER BOILERS)

Approval No. 162.001/220/0, Type 1910Fc, consolidated safety valve, steel body, 300 p.s.i., 450° F., dwg. No. 1905F-1908F, Rev. July 1, 1957, approved for 1½", manufactured by DRESSER, Industrial Valve & Instrument Division, P.O. Box 1430, Alexandria, Louisiana 71301, effective November 8, 1974. (It is an extension of Approval No. 162.001/220/0 dated January 29, 1970.)

BROMOTRIFLUOROMETHANE-TYPE FIRE EXTINGUISHING SYSTEMS

Approval No. 162.035/1/1, Kidde Bromotrifluoromethane ($CBrF_3$) Fire Extinguishing Systems for Hydrofoil Craft, Typical Installation dwg. No. L-98754-C dated February 28, 1962, Rev. C dated October 10, 1974, manufactured by Walter Kidde & Company, Inc., Belleville, New Jersey 07109, effective November 12, 1974. (It supersedes Approval No. 162.-035/1/0 dated June 5, 1972 to show modified and updated dwg.)

BACKFIRE FLAME CONTROL, GASOLINE ENGINES; FLAME ARRESTER; FOR MERCHANT VESSELS AND MOTORBOATS

Approval No. 162.041/113/0, Volvo-Penta flame control device, stainless steel cover, brass elements 0.016" thick, Model No. 886601, show on Volvo-Penta drawings 886600, 886601, 824663, 824699, and 827004, this approval is for flame arresting elements and housing only, carburetor assembly is not included, identical to U.S.C.G. Approval No. 162.-041/107/0, manufactured by Volvo Penta of America, Inc., P.O. Box 12758, Norfolk, Virginia 23502, formerly Volvo, Inc., effective November 12, 1974. (It is an extension of Approval No. 162.041/113/0 dated December 12, 1969, and change of name and address of manufacturer.)

DECK COVERINGS FOR MERCHANT VESSELS

Approval No. 164.006/50/0, "O'Neill's Insulating Underlayment" perlite aggregate oxychloride cement deck covering, identical to that described in E. H. O'Neill Floors Company letter dated October 29, 1963, approved for use without other insulating material as meeting Class A-60 requirements in a 1-inch thickness, manufactured by E. H. O'Neill Company, Inc., 5515 Belair Road, Baltimore, Maryland 21206, formerly E. H. O'Neill Floors Company, effective November 4, 1974. (It supersedes Approval No. 164.006/50/0 dated September 10, 1973, to show change of name and address of manufacturer.)

BULKHEAD PANELS FOR MERCHANT VESSELS

Approval No. 164.008/64/1, E. F. Hauserman's "Double Wall" marine bulkhead panel system identical to that described in National Bureau of Standards Test Report No. FR 3815 dated August 29, 1972, and as shown on Hauserman's drawing 27063 dated February 16, 1972; approved as meeting Class B-15 requirements, finishes shall be UL listed/labeled materials or materials tested to prove compliance with Paragraph 164.012-10(a) and as accepted by the U.S. Coast Guard, manufactured by the E. F. Hauserman Company, 5711 Grant Avenue, Cleveland, Ohio 44105, effective November 14, 1974. (It supersedes Approval No. 164.008/64/0 dated September 29, 1972, to show revised remarks; limitation removed.)

INCOMBUSTIBLE MATERIALS FOR MERCHANT VESSELS

Approval No. 164.009/16/1, "No. 100 Ultralite MC Insulation", glass wool insulation type incombustible material identical to that described in National Bureau of Standards Test Report No. TG3610-1519: FR 2622 dated May 19, 1948, approved in a one-pound per cubic foot density, product manufactured by Certain-Teed Products Corporation at Plant #5, 3000 Fairfax Road, Kansas City, Kansas for Certain-Teed Products Corporation, CSG Group, Old Route 202, Eagle School Road, Valley Forge, Pennsylvania 19481, effective November 5, 1974. (It supersedes Approval No. 164.009/16/1 dated May 7, 1974 to show change of name and address of company.)

Approval No. 164.009/23/0, "No. 75 Ultralite MC Insulation", glass wool insulation type incombustible material identical to that described in National Bureau of Standards Test Report No. TG10210-1656: FP2855 (Test No. 122822) dated December 13, 1949, approved in a density of 0.75 pound per cubic foot, product manufactured by Certain-Teed Products Corporation at Plant #5, 3000 Fairfax Road, Kansas City, Kansas for Certain-Teed Products Corporation, CSG Group, Old Route 202, Eagle School Road, Valley Forge, Pennsylvania 19481, effective November 5, 1974. (It supersedes Approval No. 164.009/23/0 dated May 7, 1974 to show change of name and address of company.)

Approval No. 164.009/24/0, "No. 150 Ultralite MC Insulation", glass wool insulation type incombustible material identical to that described in National Bureau of Standards Test Report No. TG10210-1656:FP2855 (Test No. 122822) dated December 13, 1949, approved in a density of 1.48 pounds per cubic foot, product manufactured by Certain-Teed Products Corporation at Plant #5, 3000 Fairfax Road, Kansas City, Kansas for Certain-Teed Products Corporation, CSG Group, Old Route 202, Eagle School Road, Valley Forge, Pennsylvania 19481, effective November 5, 1974. (It supersedes Approval No. 164.009/24/0 dated May 7, 1974 to show change of name and address of company.)

Approval No. 164.009/82/1, "Ultrafine CG #1 through CG #7", fibrous glass type incombustible material identical to that described in National Bureau of Standards Test Report Nos. TG10210-2120:FR3651 dated June 7, 1965, and TG10210-2122:FR3653 dated September 17, 1965, approved in a range from ½ through 3 pounds per cubic foot density, product manufactured at Plant #7, 3031 Fiberglas Road, Kansas City, Kansas 66115, Mountaintop, Pennsylvania Plant, Crestwood Industrial Park, Mountaintop, Pennsylvania 18707 & Berlin, New Jersey Plant, New Booklyn & New Freedom Roads, Williamstown Junction, New Jersey 08009, for Certain-Teed Products Corporation, CSG Group, Old Route 202, Eagle School Road, Valley Forge, Pennsylvania 19481, effective November 5, 1974. (It supersedes Approval No. 164.-009/82/1 dated April 30, 1970 to show change of name and address of company.)

Dated: January 12, 1975.

D. H. CLIFTON,
Captain U.S. Coast Guard, Acting Chief, Office of Merchant Marine Safety.

[FR Doc.75-1883 Filed 1-20-75;8:45 am]

Federal Highway Administration

TRUCKS ON INTERSTATE SYSTEM HIGHWAYS

Maximum Weight; Interpretation

The purpose of this notice is to advise interested persons of the contents of a significant new interpretation issued by the Federal Highway Administration, pertaining to the construction of 23 U.S.C. 127, as amended by section 106 (b) of the Federal-Aid Highway Amendments of 1974. Those provisions of law pertain to maximum weight of motor

V 40 14 JAN 21 75 XUM

vehicles that may lawfully be permitted to use Interstate System highways.

Since this interpretation is of general interest, the Federal Highway Administrator is publishing it for the information of all persons concerned. The text of the interpretation is set forth below.

This notice is issued under the authority of 23 U.S.C. 127, 315, and the delegation of authority by the Secretary of Transportation at 49 CFR 1.48.

Issued on January 13, 1975.

NORBERT T. TIEMANN,
Federal Highway Administrator.

Construction of the "Grandfather Clause" in 23 U.S.C. 127 As Amended by Section 106(b) of the Federal-Aid Highway Amendments of 1974. It has come to the attention of the Federal Highway Administrator that there may be some confusion as to the correct meaning of the amendments made to the "grandfather clause" of 23 U.S.C. 127 by section 106(b) of the Federal-Aid Highway Amendments of 1974, P.L. 93-643. As amended, the statute provides, in pertinent part, as follows (language added by the 1974 amendments is italicized):

No [Interstate] funds • • • shall be apportioned to any State within the boundaries of which the Interstate System may lawfully be used by vehicles with weight in excess of [single axle, 20,000 lbs.; tandem axle, 34,000 lbs.; gross weight, by formula up to 80,000 lbs.] • • • or the corresponding maximum weights or maximum widths permitted for vehicles using the public highways of such State under laws or regulations established by appropriate State authority in effect on July 1, 1956, except in the case of the overall gross weight of any group of two or more consecutive axles, on the date of enactment of the Federal-Aid Highway Amendments of 1974, whichever is the greater.

• • • • • •

This section shall not be construed to deny apportionment to any State allowing the operation within such State of any vehicles or combinations thereof that could be lawfully operated within such State on July 1, 1956 except in the case of the overall gross weight of any group of two or more consecutive axles, on the date of enactment of the Federal-Aid Highway Amendments of 1974.

Since, on January 4, 1975, the date of enactment of the 1974 amendments, 13 western States had laws which provided for weights of over 80,000 pounds for vehicles using highways off the Interstate System, and lower weights for vehicles using the Interstate System, the question arises whether the revised grandfather language quoted above refers to the lower or the higher limits. The Federal Highway Administrator interprets the revised section 127 as referring to the lower State limits for Interstate System use.

In the 13 States concerned, the "corresponding maximum weights • • • permitted • • • under laws or regulations established by appropriate authority in effect on • • • [January 4, 1975]" were of a dual nature, and geographically restrictive. Specifically, a vehicle weighing over 80,000 pounds was restricted to operation on highways off the Interstate System. Likewise, while such a vehicle "could be lawfully operated within such State," the operation would not have been lawful on the Interstate System. The primary purpose of 23 U.S.C. 127 is to protect the Interstate System highways from premature damage. This purpose can best be achieved by construing the "grandfather clause" so as to permit use of Interstate highways by only those vehicles having gross weights that would have allowed their lawful operation on the Interstate System on the "grandfather" date.

Further, it is necessary to read subsections (a) and (b) together. With respect to gross weight, subsection (a) introduces the new concept of "group of axles" weight determined by a formula which permits gross weight to rise in increments with increasing vehicle lengths and increasing number of axles, up to a fixed ceiling of 80,000 pounds. This language, providing for incremental gross weight increases, replaces the non-incremental, single-figure limit of 73,280 pounds in prior law which was applicable without regard to how short or long a vehicle was, or the number of axles it had.

Subsection (b) changes the grandfather date for vehicle gross weights, as determined by the formula, to the date of enactment of the Act. One clear result is that States which had single-figure Interstate gross weight limits on the date of enactment are not required to roll them back to the more restrictive incremental limits of the Federal formula. Another is that States which employed Interstate gross weight formulas different than the Federal formula may retain them. Still a third is to permit two States, Hawaii and New Mexico, to continue in effect their laws providing for Interstate System limits in excess of 80,000 pounds.

Reading subsections (a) and (b) together in this manner results in a harmonious construction of the section as a whole. It is also consistent with the intent of Congress as expressed in the legislative history of the section. The conference report, H. Rept. No. 93-1622 (at p. 19), for example, indicates the one purpose of the amended "grandfather clause" was to permit certain vehicles "to continue to operate on the Interstate System," a result which could not be achieved if those vehicles had not lawfully operated there before. Conversely, the legislative history provides no support for the view that Congress intended to confer a special status, by making a broad special exemption from the 80,000-pound gross weight ceiling, upon 13 States concentrated in one corner of the Nation.

Therefore, the Federal Highway Administrator advises all interested persons that, in reviewing State sections for conformity with 23 U.S.C. 127, he will do so in the light of the foregoing interpretation of 23 U.S.C. 127.

ADMINISTRATIVE CONFERENCE OF THE UNITED STATES

COMMITTEE ON COMPLIANCE AND ENFORCEMENT PROCEEDINGS

Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given of a meeting of the Committee on Compliance and Enforcement Proceedings of the Administrative Conference of the United States to be held at 10 a.m., February 7, 1975 in the Library of the Administrative Conference of the United States, 2120 L Street, NW, Suite 500, Washington, D.C. 20037.

The Committee will meet to consider:

1. Professor Jan Vetter's revised report and recommendations concerning affirmative action regulations in university faculty employment;
2. Professor Jerry Mashaw's final report and recommendation concerning citizens suit provisions in federal regulatory statutes;
3. William R. Shaw's report and recommendation concerning procedures to ensure federal facility compliance with environmental quality standards; and
4. Any other matters.

Attendance is open to the interested public, but limited to the space available. Persons wishing to attend should notify this office at least one day in advance. The Committee Chairman may, if he deems it appropriate, permit members of the public to present oral statements at the meeting; any member of the public may file a written statement with the Committee before, during or after the meeting.

For further information concerning this Committee meeting contact William R. Shaw, (phone 202-254-7065). Minutes of the meeting will be available on request.

RICHARD K. BERG,
Executive Secretary.

JANUARY 15, 1975.

CIVIL AERONAUTICS BOARD

[Docket No. 26494, Order 75-1-67]

JOINT TRAFFIC CONFERENCES OF THE INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Relating to South Pacific Air Fares Agreement

JANUARY 14, 1975.

An agreement has been filed with the Board, pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and part 261 of the Board's Economic regulations, between various air carriers, foreign air carriers, and other carriers, embodied in the resolutions of the Joint Traffic Conferences of the International Air Transport Association (IATA). The agreement, proposed to be effective April 1, 1975 through March 31, 1976 would establish fares over the South Pacific.

The agreement would increase, with certain exceptions, all fares for U.S. originating travel over the South Pacific by 13 percent;[1] and impose stopover restrictions on various promotional fares not heretofore so restricted. Free stopovers in connection with the 28 day excursion and 35 day individual inclusive tour fare would be limited to a total of five with additional stopovers available at a charge of $25 each.

The purpose of this order is to establish dates for the submission of carrier justifications in support of the subject agreements, and comments from other interested persons. The carriers' justifications should include historical data, as reported to the Board in form 41 reports by functional account, for total Pacific services for the year ended September 30, 1974, adjusted to exclude all charter and cargo operations so as to establish the present economic status of passenger services in the areas covered by the subject agreement.[2] The carriers will also be expected to include a forecast for the year ending March 31, 1976, both including and excluding the increased fares for which they seek approval.

In addition to the above information, we request that the South Pacific carriers also address the question of fare structure on this route; including proposed continuation of a number of promotional fares at discounts in excess of 50 percent, the relatively high yields from west coast-Papeete and Honolulu-Sydney fares compared with fares between west coast-Sydney and Honolulu-Papeete and the rationale for the same dollar fares for affinity group, individual inclusive tour and group inclusive tour fares between Honolulu and Papeete.

Accordingly, it is ordered That:

1. All United States air carrier members of the International Air Transport Association shall file within twenty days after the date of service of this order, full documentation and economic justification (as described above) in support of the subject agreement;
2. Comments and/or objections from interested persons shall be submitted within thirty days after the date of service of this order; and
3. Tariffs implementing the subject agreements shall not be filed in advance of Board action on the agreements.

This order will be published in the FEDERAL REGISTER.

By James L. Deegan, *Chief, Passenger and Cargo Rates Division, Bureau of Economics.*

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[1] The agreement would increase the Honolulu-Papeete and west coast-Papeete normal economy fares by 20 and 15 percent respectively. The Honolulu-Papeete first class fare would be increased by 18 percent.

[2] A suggested format is shown in the Appendix, which should also be used to set forth historical and forecast information relating to traffic and capacity.

CONSUMER PRODUCT SAFETY COMMISSION

SWIMMING POOL SLIDES

Acceptance of Offer To Develop Safety Standard; Summary of Terms of Acceptance

By notice in the FEDERAL REGISTER of October 24, 1974 (39 FR 37804) the Consumer Product Safety Commission commenced a proceeding pursuant to section 7 of the Consumer Product Safety Act (15 U.S.C. 2056) for the development of a consumer product safety standard applicable to swimming pool water slides. The notice invited any person to submit to the Commission, on or before November 25, 1974, either of the following:

1. One or more existing standards as a proposed consumer product safety standard in this proceeding; or,
2. An offer to develop one or more proposed consumer product safety standards applicable to swimming pool slides to reduce or eliminate any or all of the unreasonable risks of injury associated with swimming pool slides identified in this notice.

In response to the October 24 FEDERAL REGISTER notice, the Commission received two offers to develop a recommended standard applicable to swimming pool water slides. The purpose of this notice is to announce the acceptance of one of these offers.

V 40 14 JAN 21 75 XUM

The Commission has accepted the offer of the National Swimming Pool Institute, 2000 K Street, NW, Washington, D.C. 20006 to develop a recommended consumer product safety standard applicable to swimming pool water slides. The Commission has determined that the NSPI (1) is technically competent, (2) is likely to develop an appropriate standard within the 120 day period provided by the Commission and (3) will comply with the regulations issued by the Commission under section 7 of the Consumer Product Safety Act (16 CFR 1105; 39 FR 16206) applicable to the development of the standard.

Method of development. The National Swimming Pool Institute (NSPI) intends to develop the standard with the help of a management committee consisting of technical and use-oriented consumers. Experts from industry, medicine, and human factors, water safety organizations, and safety engineering and standard writing firms will participate in the activities of the management committee. This committee will solicit information from the public, consumer groups, and individual consumers and experts about swimming pool water slide problems.

A development committee, utilizing experts of different disciplines as well as technical and use-oriented consumers, will gather information affecting the standard through technical research, personal experience and public hearings. The committee will be supported by a project engineer and technical support working groups. Consumer input will be provided to the committee through participation of use-oriented and technically-oriented consumer volunteers. The committee will be responsible for drafting the recommended standard.

Meetings of the management committee, the development committee and other subcommittees which will be set up will be open to attendance and participation by all interested persons.

In its technical program, NSPI will compile available accident data on swimming pool water slides. Accidents will be categorized into: (1) product or installation caused accidents and (2) product misuse accidents. Existing engineering analysis from studies by Utah and Nova Universities will be analyzed. Medical and human factor input will be incorporated in the standards development process.

Test programs to augment the committee's work which might become necessary to verify or extend earlier testing will be carried out at facilities arranged by NSPI and its members. Additionally, swimming pool water slide test programs will be carried out at facilities of Aqua Slide 'N' Dive, Brownsville, Texas or Los Angeles.

Participation by consumers and other interested persons. In accordance with the Commission's regulations and the terms of NSIP's offer, all persons are invited to participate in the standard development process. In order to ensure this participation, the NSPI will distribute a detailed questionnaire about swimming pool water slides to persons and organizations which can be identified as accident and safety sources for data. Additional public participation will be accomplished using technically and use-oriented consumers from the American Red Cross and the National Safety Council. Furthermore, four technically and use-oriented consumers have been invited to serve on the NSPI development committee to make a direct input to the standard.

Offer acceptance agreement. NSPI has agreed to develop a recommended standard applicable to swimming pool water slides in accordance with the terms of the October 24 notice of proceedings (39 FR 37804), the Commission's regulations for developing Consumer Product Safety Standards (16 CFR 1105; 39 FR 16206) and the terms of the agreement entered into with the Commission on January 14, 1975.

The Commission has agreed to contribute $14,000 toward the cost of developing the recommended standard. These funds will be used to defray consumer travel and per diem expenses as specified in the agreement.

The Consumer Product Safety Act specifies in section 7(b) (15 U.S.C. 2056 (b)) that the period in which a recommended standard is to be developed shall end on June 20, 1975 after publication in the FEDERAL REGISTER of a notice inviting any person to submit an offer to develop a proposed standard which in this case is March 23, 1975. The Commission, however, in accepting the offer of NSPI specified that NSPI shall have a period of 120 days beginning January 6, 1975, in which to develop a standard, with this period to end on May 6, 1975.

The Commission finds that the additional period is appropriate due to the complex nature of the swimming pool water slide problem and the need by the offeror to conduct various human factor studies. The extended development period will also ensure the opportunity for adequate participation by all interested parties, and provide the offeror with sufficient opportunity to evaluate all comments on the standard it drafts. The Commission may, by notice in the FEDERAL REGISTER, extend the period for development if it finds for good cause that a different period of time is appropriate.

Copies of NSPI's offer and a copy of the formal agreement entered into between the Commission and NSPI are available for inspection in the Office of the Secretary, Room 1025, 1750 K Street, NW., Washington, D.C.

All persons interested in participating in the development of the standard applicable to swimming pool slides should contact Mr. Larry Paulick, NSPI Program Coordinator, National Swimming Pool Institute, 2000 K Street, NW., Washington, D.C. 20006, telephone (202) 331–8844.

Dated: January 15, 1975.

SADYE E. DUNN,
Secretary,
Consumer Product Safety Commission.

ENVIRONMENTAL PROTECTION AGENCY

[FRL323–1]

AREAWIDE WASTE TREATMENT

Management Planning Approvals; Area and Agency Designations

Pursuant to section 208 of the Federal Water Pollution Control Act Amendments of 1972, notice is hereby given of approvals and disapprovals of designation of areawide waste treatment management planning areas and agencies for the period December 3, 1974, through January 7, 1975.

The following area and agency designations have been approved by the Environmental Protection Agency:

Augusta-Cobbossee, Maine (Southern Kennebec Valley Regional Planning Commission, 154 State Street, Augusta, Maine 04330).

Lewiston-Auburn, Maine (Androscoggin Valley Regional Planning Commission, 34 Court Street, Auburn, Maine 04210).

Southeast Wisconsin (Southeastern Wisconsin Regional Planning Commission, 916 N. East Avenue, Waukesha, Wisconsin 53186).

Fredericksburg, Virginia (Rappahannock Area Development Commission, Planning District 16, P.O. Box 863, Fredericksburg, Virginia 22401).

In addition, the designation of Bonneville County, Idaho and of the Bonneville Council of Governments as a 208 area and agency, respectively, was disapproved. The area does not appear to have sufficiently complex water quality problems to warrant an intensive areawide planning and management program for water quality at the local level. The surface water quality problems seem to be minor and readily correctable through effective use of discharge permits for municipal and industrial pollutants. Furthermore, the groundwater problems appear to be localized and can be solved by traditional control measures such as tighter zoning controls.

G. M. DIETRICH,
Acting Assistant Administrator for Water and Hazardous Materials.

JANUARY 15, 1975.

FEDERAL POWER COMMISSION

[Docket No. RP75–50]

PENNSYLVANIA GAS AND WATER CO. AND TENNESSEE GAS PIPELINE COMPANY, A DIVISION OF TENNECO INC.

Notice of Complaint

Take notice that on January 3, 1975, Pennsylvania Gas and Water Company (Complainant), 30 North Franklin Street, Wilkes-Barre, Pennsylvania 18701, filed in Docket No. RP75–50 a complaint against Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Defendant), P.O. Box 2511, Houston, Texas 77001, alleging violation of section 4 of the Natural Gas Act as a result of Defendant's unreasonable, preferential, discriminatory and unlawful implementation of its curtailment plan for sales of natural gas made pursuant to authorizations issued under the Natural Gas Act and requesting that the Commission issue an order providing for an immediate formal hearing on the issues raised in the instant complaint and to provide interim relief from Defendant's curtailment implementation pending consideration of said complaint, all as more fully set forth in the complaint which is on file with the Commission and open to public inspection.

The complaint asserts that Defendant notified Complainant on December 13, 1974, that on the basis of certain recently collected customer end-use data Defendant's system curtailment rate during the period December 16, 1974, through March 31, 1975, would be raised from 5.1 percent to 14 percent and that curtailment of Complainant's requirements would be increased from 5.1 percent to 45 percent. The complaint alleges that by establishing such revised curtailment rates on the basis of this recently collected but untested and unverified data Defendant is acting in an unreasonable, preferential and unduly discriminatory manner in violation of section 4(b) of the Natural Gas Act. The complaint cites as further violation of the Act Defendant's refusal to allow Complainant an opportunity to correct a patent discrepancy in the end-use data it furnished Defendant and which forms a part of the unverified and untested data relied on by Defendant in establishing revised curtailment rates for its customers. The complaint asserts that a 45 percent curtailment of Complainant's winter requirements would wreak havoc on the economy of its market areas and that Complainant is processing data in contemplation of filing a petition for extraordinary relief from the implementation of Defendant's curtailment plan. Complainant argues, however, that such extraordinary relief would not be required if Defendant were curtailing on the basis of meaningful end-use data.

Complainant is a public utility corporation engaged in the supply and distribution of water and natural gas within the Commonwealth of Pennsylvania. Natural Gas service is said to be provided by Complainant to the public in parts of the following Pennsylvania counties: Lackawanna, Wyoming, Luzerne, Columbia, Northumberland, Snyder, Montour, Union and Lycoming. Complainant states that its market is mostly residential, commercial and small process-use industrial and that it does not meet the needs of large interruptible or boiler fuel consumers. Complainant states that it is imperative that the recently collected data of Defendant be made subject to evidentiary scrutiny, particularly in comparison with the data submitted by these same customers in 1973 (as estimated customer end-use requirements for 1974) which Defendant offered into the record at the hearing in Docket No. RP74–24 as Exhibit 2. Complaint alleges that Defendant stated at that time that its capacity entitlement during 1974 would be implemented on the basis of the end-use data reflected in Exhibit 2, which data were evaluated to ascertain whether such customer projections were in line with past experience and the customer contacted where projections were not in line, that Defendant is now-basing curtailments on recently collected unverified data. Complaint states that after notification of the new curtailment level by Defendant it sought an explanation of the massive disparity in curtailments between Defendant's system curtailment of 14 percent and Complainant's curtailment of 45 percent of requirements. The complaint alleges that on reviewing the end-use data report submitted by Complainant to Defendent early in December 1974, Complainant first noticed a blatent discrepency in which Priority 3 requirements had been listed as increasing from 5.3 percent of total requirements to 39.7 percent of total requirements with a corresponding reduction in reported Priority 2 requirements. Complainant states that on further investigation it discovered that this discrepancy resulted from an improper priority categorization in its preparation of the December 1974 submittal.[1] The complaint states that whereas in the data submittal reflected in Exhibit 2, Complainant properly included firm process gas requirements in Priority 2, in the December 1974 submittal all firm process gas was erroneously categorized as Priority 3 load.

The complaint states that Defendant refused to allow Complainant to correct the erroneous December 1974 data and that Defendant took the position that time did not permit its customary review of this recently collected end-use data. Moreover Defendant's position is stated to be that such review by it would not necessarily support the accuracy of the data reported by its customers and that the current implementation of its curtailment plan is being based on raw untested end-use data as furnished by all customers. Complainant alleges that Defendant, while recognizing the patent nature of the discrepancy, informed Complainant that the data it submitted could not be revised or corrected and that Complainant would have to seek relief from the Commission which Defendant would not oppose.

Complainant argues that in view of the fact that Defendant is relying on unverified data developed unilaterally by its customers and that Defendant does not purport to support the accuracy of such data it is clearly an unreasonable and unduly discriminatory practice on the part of Defendant to refuse to accede to Complainant's request to be permitted to revise data with data that Defendant previously reviewed and supported at the hearing in Docket No. RP74–24. The complaint states that a curtailment by Defendant of 45 percent of Complainant's winter requirement could have an adverse impact on the economies of its market areas particularly in and around Scranton and Wilkes-Barre. The economy of these areas is said to be already severely depressed due, in large measure, to the disastrous flooding in the spring of 1972. Complainant states that a 45 percent curtailment would severely reduce the gas supply for its firm industrial consumers, which have almost no alternate fuel capabilities, and that said consumers would have to cease their operations in the event Complainant could not supply their gas needs. Complainant alleges that this would result in an irreparable impact on the economy of these areas.

In light of the impact of Defendant's curtailment on Complainant and other customers, and the availability of more reliable end-use data Complainant requests that the Commission provide for interim relief pending resolution of the instant complaint. Specifically, Complainant requests that Defendant be ordered to implement its curtailment plan on the basis of end-use data underlying Exhibit 2 in Docket No. RP74–24 or that Defendant be directed to base Complainant's curtailment requirements on the corrected end-use data reflected in the instant complaint. In addition, Complainant requests that all customers of Defendant be put on immediate notice that deliveries by Defendant during its present period of curtailment will be made subject to later pay-back in the event that a final order in this proceeding shall disclose that as a result of incorrect end-use data reporting some customers have received an unfair portion of Defendant's gas.

It appears reasonable and consistent with the public interest in this case to provide a shortened period for the filing of petitions to intervene and protests. Therefore, any person desiring to be heard or to make any protest with reference to said complaint should on or before January 30, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a pro-

[1] See the following table:

End-use data submittals by Penn Gas

	Per exhibit 2, docket No. RP74–24		December 1974	
	Million cubic feet	*Percent*	*Million cubic feet*	*Percent*
Company use and unaccounted	176	1.4	124	1.0

test in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

A copy of the instant complaint was served upon Defendant on January 10, 1975. It appears reasonable and consistent with the public interest in this case to call upon Defendant to satisfy the complaint or answer the same in writing by January 30, 1975.

KENNETH F. PLUMB,
Secretary.

JANUARY 14, 1975.

[FR Doc.75-1848 Filed 1-20-75;8:45 am]

[Docket No. CP75-32]

ARKANSAS LOUISIANA GAS COMPANY

Notice of Petition To Amend

Take notice that on January 3, 1975, Arkansas Louisiana Gas Company (Applicant), P.O. Box 1734, Shreveport, Louisiana 71151, filed in Docket No. CP75-32 a petition to amend the order issuing a budget-type certificate of public convenience and necessity in said docket on October 31, 1974, pursuant to section 7(c) of the Natural Gas Act, as implemented by § 157.7 of the Regulations thereunder (18 CFR 157.7), by authorizing an increase in the maximum single project cost from $1 million to $1.5 million and by authorizing Petitioner to use its budget certificate to implement exchanges of gas with other pipeline companies, all as more fully set forth in the petition to amend, which is on file with the Commission and open to public inspection.

Petitioner's certificate in the instant docket authorizes Petitioner to construct during the calendar year 1975 and operate natural gas facilities to enable Petitioner to take into its certificated main pipeline system natural gas which would be purchased from producers in the general vicinity thereof. Total expenditures for facilities is limited, pursuant to § 157.7(b) of the regulations under the Natural Gas Act, to $7 million with no single project to exceed a cost of $1 million.

Petitioner states that it could arrange exchange agreements with other pipeline companies more expeditiously if it were authorized to use its budget-type certificate in lieu of having to apply for separate authorization. Petitioner further states inflation has greatly increased construction, material and installation costs in recent years as justification for the increase in the single project cost maximum to $1.5 million.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before February 4, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

JANUARY 14, 1975.

[Docket No. RI73-227]

AUSTRAL OIL CO.

Extension of Time

JANUARY 7, 1975.

On January 6, 1975, Austral Oil Company Incorporated filed a motion to extend the time for filing briefs on exceptions to the decision of the Presiding Administrative Law Judge issued November 6, 1974, in the above-designated matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the time for filing briefs on exceptions is extended to January 13, 1975 and the date for filing briefs opposing exceptions is extended to February 3, 1975.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-9109]

CONSUMERS POWER CO. AND THE DETROIT EDISON CO.

Tariff Change

JANUARY 14, 1975.

Take notice that Consumers Power Company (Consumers Power) on November 13, 1974 tendered for filing proposed changes in data supporting the Electric Coordination Agreement between Consumers Power Company and The Detroit Edison Company (Detroit Edison), designated Consumers Power Company Rate Schedule FPC No. 33. The proposed changes would increase the charges under the Agreement for seasonal, weekly and daily capacity reservations by approximately five percent (5%).

The increased rates are necessitated by changes in the generating facilities designated to provide the capacity and by the addition of several new transmission lines.

Copies of the filing were mailed to Detroit Edison and to the Michigan Public Service Commission.

Any person desiring to be heard or to protest said Agreement should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE, Washington, DC. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 28, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this Agreement are on file with the Commission and are available for public inspection. (Order No. 487, 38 FR 19967, July 26, 1973)

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8843]

HOLYOKE WATER POWER CO., HOLYOKE POWER AND ELECTRIC CO.

Extension of Procedural Dates

JANUARY 14, 1975.

On January 10, 1975, Chicopee, Massachusetts Electric Light Department filed a motion to extend the procedural dates fixed by order issued August 9, 1974, as most recently modified by notice issued December 31, 1974 in the above-designated matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Intervenor's Testimony, February 18, 1975.
Service of Company Rebuttal, February 28, 1975.
Hearing, March 11, 1975 (10:00 a.m. e.d.t.).

KENNETH F. PLUMB,
Secretary.

[FR Doc. 75-1858 Filed 1-20-75;45 am]

[Docket No. R175-76]

EXXON CORP.

Order Setting Date for Hearing and Consolidating Proceedings

JANUARY 8, 1975.

On November 18, 1974, Exxon filed with the Commission a contract amendment dated October 28, 1974, designated as Supplement No. 42 to its Rate Schedule No. 357 and a notice of change in rate designated as Supplement No. 43 to its Rate Schedule No. 357, for gas sold to Columbia Gas Transmission Corporation (Columbia) from acreage in the Louisiana and offshore Louisiana areas. The amendment to Exxon's June 28, 1963 basic contract adds an area rate clause, excess royalty reimbursement clause and a deregulation clause as consideration for Exxon to undertake a work program involving the drilling of additional wells on acreage presently committed to Columbia and for making other investments to increase deliverability. The October 28, 1974, amendment and resulting notice of change in rate will increase the prices Exxon receives for the sale of gas up to the applicable area rates established by the Commission in Opinion No. 598[1] and Opinion No. 699[2]. The proposed increase were suspended for one day from the dates they would otherwise become effective by order issued December 18, 1974, in the above-entitled proceeding.

The proposed rates do not exceed the applicable ceiling rates established by this Commission. There is a question, however, as to whether Exxon is entitled to amend its basic contract, as it has done in its October 28, 1974 agreement, in light of the permanent certificate issued to it on November 15, 1963, in Docket No. CI64-5, 30 FPC 1297. Therefore, we deem it necessary that a hearing be held in this matter to decide the issues raised by Exxon's filings herein.

There is currently set for hearing on January 7, 1975, in Docket No. RI75-46 a closely related contractual issue raised by Exxon's notice of change in rate designated as Supplement No. 41 to its Rate Schedule No. 357 for gas sold to Columbia from the same acreage. Consolidation of Docket Nos. RI75-46 and RI75-76 will permit a complete and comprehensive hearing on all related matters and reduce the administrative burden on the parties.

The Commission permitted Columbia to intervene in Docket No. RI75-46 by order dated December 20, 1974. Columbia need not file a further petition to intervene in the consolidated proceeding we hereby set for hearing.

The Commission finds:

It is in the public interest and convenience that Docket Nos. RI75-46 and RI75-76 be consolidated and set for hearing.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4, 5, 7, 14 and 16 thereof, the Commission's Rules of Practice and Procedure, and the Regulation under the Natural Gas Act (18 CFR, Chapter I), Docket Nos. RI75-46 and RI75-76 are consolidated and set for hearing and disposition.

(B) A public hearing on the contractual and certificate issues presented by the filings herein shall be held commencing on March 12, 1975, 10:00 a.m. (e.s.t.) in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426.

(C) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5(d)), shall preside at the hearing in this proceeding pursuant to the Commission's rules of practice and procedure.

(D) Exxon Corporation and parties in support shall file their direct testimony and evidence on or before February 18, 1975. All testimony and evidence shall be served upon the Presiding Administrative Law Judge, the Commission Staff, and all parties to this proceeding.

(E) The Commission Staff, shall file their direct testimony and evidence on or before February 28, 1975. All testimony and evidence shall be served upon the Presiding Administrative Law Judge, and all other parties to this proceeding.

(F) All rebuttal testimony and evidence shall be served on or before March 7, 1975. All parties submitting rebuttal testimony and evidence shall serve such testimony upon the Presiding Administrative Law Judge, the Commission Staff, and all parties to the proceeding.

(G) Notice of intervention or petitions seeking leave to intervene in this proceeding shall be filed with the Federal Power Commission, Washington, D.C., 18 CFR 1.8 and 1.37(f), on or before January 15, 1975.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket No. RP73-43; PGA75-2]

MID LOUISIANA GAS CO.

Proposed Change in Rates

JANUARY 14, 1975.

Take notice that Mid Louisiana Gas Company (Mid Louisiana), on December 20, 1974, tendered for filing as a part of First Revised Volume No. 1 of its FPC Gas Tariff, Eleventh Revised Sheet No. 3a.

Mid Louisiana states that the purpose of the filing is to reflect a Purchased Gas Cost Current Adjustment to Mid Louisiana's Rate Schedules G-1, SG-1, 101 and E-1; that the revised tariff sheet is proposed to be effective February 1, 1975, and that the filing is being made in accordanace with section 19 of Mid Louisiana's FPC Gas Tariff and in compliance with Commission Order Nos. 452 and 452-A; and that copies of the filing were served on interested customers and state commissions.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 27, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8547]

MISSOURI EDISON CO.

Further Extension of Procedural Dates

JANUARY 14, 1975.

On January 8, 1975, Staff Counsel filed a motion to indefinitely suspend the procedural dates fixed by order issued February 15, 1974, as most recently modified by notice issued December 16, 1974, in the above-designated matter.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Staff's Testimony, February 7, 1975.
Service of Company Rebuttal, February 21, 1975.
Prehearing Conference, February 25, 1975 (10:00 a.m. e.s.t.).
Hearing, March 4, 1975 (10:00 a.m. e.d.t.).

KENNETH F. PLUMB,
Secretary.

[Docket No. CP75-202]

NATURAL GAS PIPELINE COMPANY OF AMERICA

Application

JANUARY 14, 1975.

Take notice that on January 7, 1975, Natural Gas Pipeline Company of America (Applicant), 122 South Michigan Avenue, Chicago, Illinois 60603, filed in Docket No. CP75-202 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the exchange of natural gas with Michigan Wisconsin Pipe Line Company (Michigan Wisconsin) and the construction

[1] *Southern Louisiana Area Rate Proceeding*, 46 FPC 86 (1971), affirmed, *sub nom. Placid Oil Co. v. F.P.C.*, 5th Cir. 483 F.2d 880 (1973), affirmed, *sub nom. Mobil Oil Corp. v. F.P.C.*, ---- U.S. ---- 42 U.S.L. Week 4842 (June 10, 1974).

[2] ---- FPC ---- (1974). Rehearing of Opinion No. 699 for purposes of further consideration was granted by the Commission's order of August 2, 1974. ---- FPC ---- amended, ---- FPC ---- (August 12, 1974).

V 40 14 JAN 21 75 XUM

and operation of the facilities required to implement such exchange, all as more fully set forth in the application, which is on file with the Commission and open to public inspection.

Applicant states that Applicant and Michigan Wisconsin have entered into a long-term contract dated November 13, 1974, to exchange gas in Wheeler and Hansford Counties, Texas. Pursuant to such agreement, Applicant will receive up to 10,000 Mcf of gas per day, or whatever quantity is otherwise mutually agreed upon, from Michigan Wisconsin through a proposed tap connection on Applicant's existing 26-inch pipeline in Section 2, AB & M Survey, Wheeler County, Texas; Michigan Wisconsin will deliver gas to Applicant from reserves committed to Michigan Wisconsin in the vicinity of Applicant's Wheeler County facilities.

Applicant proposes to deliver concurrently exchange volumes to Michigan Wisconsin at an existing point of interconnection between the systems of Applicant and Michigan Wisconsin in Hansford County, Texas, which is presently used for the exchange of gas between Applicant and Michigan Wisconsin under an existing exchange agreement.

Applicant further states that all volumes of gas exchanged will be adjusted for Btu content and all gas balances will be calculated on a volume weighted average Btu basis. Aside from a 1.25 percent adjustment for fuel gas used by Applicant, no compensation is provided for in the exchange agreement, it being understood that the transaction is to be a gas-for-gas exchange, according to Applicant.

Applicant further proposes to construct and operate a 4-inch tap connection on its existing 26-inch pipeline in Wheeler County at an estimated cost of $5,350, which cost will be reimbursed to Applicant by Michigan Wisconsin.

Applicant asserts that the proposed exchange is mutually beneficial to Applicant and Michigan Wisconsin in that it provides a means for each party to connect remote sources of gas supply into their respective systems while obviating the necessity to construct and operate duplicate facilities otherwise required if they were to proceed independently. Applicant states the exchange will have no effect on any of the other sales or services now rendered by Applicant nor will there be any change in Applicant's operations occasioned thereby.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 6, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-1861 Filed 1-20-75;8:45 am]

[Docket No. RP73-8; PGA75-5]

NORTH PENN GAS CO.

Notice of Proposed Changes in FPC Gas Tariff

JANUARY 14, 1975.

Take notice that North Penn Gas Company (North Penn) on January 2, 1975, tendered for filing proposed changes in its FPC Gas Tariff, First Revised Volume No. 1, pursuant to its PGA clause for rates to be effective February 1, 1975. The proposed rate increase would generate $222.9 thousand annually in additional jurisdictional revenues based on the twelve-month period ending November 30, 1974.

North Penn states that the PGA filing was triggered by a PGA rate increase filed by Consolidated Gas Supply Corporation on December 26, 1974, to become effective February 1, 1975, and a general rate increase filed by Transcontinental Gas Pipe Line Corporation at Docket No. RP75-3 to become effective February 1, 1975.

North Penn is requesting a waiver of the 45-day notice requirement contained in its PGA clause since it did not receive the suppliers' revised rates in sufficient time to make a timely filing and further asks for a waiver of any other of the Commission's rules and regulations in order to permit the proposed rates to go into effect on February 1, 1975.

Copies of this filing were served upon North Penn's jurisdictional customers as well as interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 27, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-1860 Filed 1-20-75;8:45 am]

[Docket No. RP71-119; Docket No. RP74-31-25]

PANHANDLE EASTERN PIPE LINE CO. (OKIE PIPE LINE CO.)

Petition for Extraordinary Relief

JANUARY 16, 1975.

By Order issued November 6, 1973, in Docket No. RP71-119, we accepted and made effective as of November 1, 1973, certain revised tariff sheets tendered by Panhandle Eastern Pipe Line Company (Panhandle). Those revised tariff sheets contain a curtailment plan filed by Panhandle which conformed to the curtailment procedures contained in the Commission's Statement of Policy, issued in Docket No. R-469, Order 467-B.

Numerous petitions for extraordinary relief from this curtailment plan have been filed by Panhandle's customers. The Commission by order issued on December 13, 1973, in Docket Nos. RP74-31-1, *et al.* set numerous petitions for formal hearing and assigned the various petitions for extraordinary relief filed thereafter by customers of Panhandle an appropriate docket number in this series.

Take notice that on January 8, 1973, Okie Pipe Line Company filed a petition pursuant to § 1.7(b) of the Commission's Rules of Practice and Procedure requesting extraordinary relief from the natural gas curtailments imposed under the provision of the presently effective 467-B interim plan which was filed by Panhandle on November 6, 1973.

Okie Pipe Line owns and operates a gas liquids pumping station located at Liberal, Kansas. The station operates a stand-by natural gas powered engine used to pump gas liquids in the event of failure of primary electric pumps. Okie Pipe Line also owns homes at Liberal Station used by company employees, each of which relies upon natural gas for heating and cooking. Panhandle is the source of supply of Liberal Station.

In its petition Okie Pipe Line alleges that it was advised by Panhandle that pursuant to its effective curtailment plan that deliveries to the Liberal Station would be completely curtailed during the course of the winter months.

Okie Pipe Line asserts in its petition that the projected curtailment creates an emergency at its Liberal Station. If auxiliary power is needed, there would be no alternative source to turn to at this station. In addition, Okie Pipe Line's employees will have no source of heating during the winter.

Okie Pipe Line notes in its petition that Panhandle has granted it temporary emergency relief for a period of 60 days, commencing December 1, 1974. However, it contends that it has no prospect for supply in February or in the remaining winter months. It thus contends that permanent emergency relief is warranted.

In its petition it further reflects that it requires varying volumes during the course of the different months with a maximum monthly volume of 3,530 Mcf in January and a minimum volume of 1200 Mcf in the month of August.

It appears reasonable and consistent with the public interest in this proceeding to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to protest said petition should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10) on or before January 31, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene in accordance with the Commission's Rules. This filing which was made with the Commission is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 75-1880 Filed 1-16-75;2:38 pm]

[Docket No. RP75-45]

TENNESSEE GAS PIPELINE CO.

Investigation of Revised Curtailment Level on System; Order Amending Order To Include Additional Parties

JANUARY 14, 1975.

Pursuant to Section 16 of the Natural Gas Act, the Commission herewith amends its order issued December 24, 1974, that initiated the investigation into the level of curtailment on Tennessee Gas Pipeline Company's (Tennessee) system to include as parties therein persons selling and delivering gas to Tennessee under Commission certificate authority in excess of 5,000 Mcf per day. This amendment is necessary to accomplish a full and complete evidentiary record upon which the Commission can obtain all of the relevant and necessary facts and data required in ascertaining the reasons for and determining the remedies underlying the instant investigation.

The Commission finds: Good cause exists to amend our order of December 24, 1974, as hereinafter ordered.

The Commission orders: (A) Our order of December 24, 1974, in this proceeding is hereby amended to include therein a new ordering paragraph (F) that will read as follows:

(F) All parties selling and delivering gas to Tennessee under FPC certificate authority in excess of 5,000 Mcf per day are deemed to be parties to this proceeding and may be required to present testimony and evidence as circumstances dictate and as may be determined by the Administrative Law Judge.

(B) In all other respects, our order of December 24, 1974, remains in full force and effect.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket No. RI74-240]

TERRA RESOURCES, INC.

Final Decision

JANUARY 14, 1975.

On December 2, 1974, the Presiding Administrative Law Judge in the above-designated matter issued an initial decision on petition for special relief from area rates.

No exceptions having been filed by the parties or Staff Counsel and no review having been initiated by the Commission, the decision is final, effective January 13, 1975, pursuant to § 1.30(d)(3) of the Commission's rules of practice and procedure.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8997]

IOWA-ILLINOIS GAS AND ELECTRIC CO.

Extension of Procedural Dates

JANUARY 14, 1975.

On January 8, 1975, Staff Counsel filed a motion to extend the procedural dates fixed by order issued September 27, 1974 in the above-designated matter.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Staff's Testimony, February 13, 1975.
Service of Intervenor's Testimony, February 27, 1975.
Service of Company Rebuttal, March 13, 1975.
Hearing, March 25, 1975 (10:00 a.m. e.d.t.).

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-1854 Filed 1-20-75;8:45 am]

[Docket No. CI75-406]

PHILLIPS PETROLEUM CO.

Application

JANUARY 14, 1975.

Take notice that on December 30, 1974, Phillips Petroleum Company (Applicant), Bartlesville, Oklahoma 74004, filed in Docket No. CI75-406 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of Natural gas in interstate commerce to Transcontinental Gas Pipe Line Corporation (Transco) from the Read "B" No. 1 Well in Evangeline Parish, Louisiana, all as more fully set forth in the application, which is on file with the Commission and open to public inspection.

Applicant states that it commenced an emergency sale from the subject acreage to Transco on December 17, 1974, for sixty days within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 175.29) and proposes to continue said sale after the end of the emergency period for one year at 85.0 cents per Mcf at 15.025 psia, subject to upward and downward Btu adjustment from a base of 1,000 Btu per cubic foot, within the contemplating of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicant estimates monthly deliveries at 10,850 Mcf.

Applicant states that it and Transco have entered into a one-year contract in order to test the subject well, drilled as an exploratory well, under producing conditions at pipeline pressure and that during this period Applicant will evaluate reserves underlying the well and determine whether additional development is justified on acreage held by Applicant in the area. Applicant, therefore, asserts that the supply of gas will be available only for the limited period for which certification is sought until the well can be tested and reserves evaluated. Applicant further states that the subject gas is available to it in excess of its present requirements.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 4, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

V40N14 JAN 21 75 XUM

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-1859 Filed 1-20-75;8:45 am]

[Docket No. RI75-100]

SOUTHERN UNION PRODUCTION CO.

Order Relating to Proposed Rate Change

JANUARY 14, 1975.

Respondent has filed a proposed change in rate and charge for the jurisdictional sale of natural gas, as set forth in Appendix A hereof.

The proposed changed rate and charge may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon a hearing regarding the lawfulness of the proposed change, and that the supplement herein be suspended and its use be deferred as ordered below.

The Commission orders: (A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto [18 CFR, Chapter I], and the Commission's rules of practice and procedure, a public hearing shall be held concerning the lawfulness of the proposed change.

(B) Pending hearing and decision thereon, the rate supplement herein is suspended and its use deferred until date shown in the "Date Suspended Until" column. This supplement shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the Respondent or by the Commission. Respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplement, nor the rate schedule sought to be altered, shall be changed until disposition of this proceeding or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

Docket No.	Respondent	Rate schedule No.	Supplement No.	Purchaser and producing area	Amount of annual increase	Date filing tendered	Effective date unless suspended	Date suspended until—	Cents per Mcf[1]		Rate in effect subject to refund in dockets No.

[1] Unless otherwise stated, the pressure base is 15.025 lb/in²a.
[2] Plus applicable tax and Btu adjustment.
[3] Applicable to production from wells completed prior to June 1, 1970.
[4] Applicable to production from wells completed on or after June 1, 1970.

The proposed rate increase of Southern Union exceeds the applicable area ceiling in Opinion No. 658 and is suspended for five months.

In regard to any sale of natural gas for which the proposed increased rate is filed under the provisions of Opinion No. 699-H, issued December 4, 1974, in Docket No. R-389-B, no part of the proposed rate increase above the prior applicable area ceiling rate may be made effective until the seller submits a statement in writing demonstrating that Opinion No. 699-H is applicable to the particular increased rate filing, in whole or in part. The proposed increased rates for which such support shall have been satisfactorily demonstrated on or before January 31, 1975, will be made effective as of June 21, 1974.

[FR Doc.75-1741 Filed 1-20-75;8:45 am]

[Docket No. RP74-85]

WESTERN GAS INTERSTATE CO.

Order Approving Settlement Agreement

JANUARY 13, 1975.

On October 16, 1974, Western Gas Interstate Company (Western) tendered for filing a Stipulation and Agreement of Settlement in this proceeding and a motion for Commission approval thereof. The Presiding Administrative Law Judge in the above referenced docket certified the proposed agreement to the Commission on November 8, 1974. If approved, this settlement would resolve all issues in this proceeding.

This case involves a proposed increase in Western's rates filed April 24, 1974, which would have resulted in annual increased jurisdictional revenues of $1,702,147. The increased rates were suspended for one day until June 16, 1974, by order issued June 14, 1974.

A hearing was held in this proceeding on October 16, 1974, at which Western's prepared testimony was adopted by attestation. The Stipulation and Agreement along with the agreed upon settlement cost of service were also copied into the record. During the hearing on October 16, 1974, all parties stated on the record their support of the settlement agreement. The agreement was certified to the Commission on November 8, 1974, by the Presiding Administrative Law Judge with comments due on or before November 27, 1974. To date, no comments have been received.

The principal provisions of the settlement agreement may be summarized as follows:

Article I. This Article provides for the filing of revised tariff sheets within ten days after Commission approval of the agreement that will reduce Western's effective rates by 0.7¢ per Mcf (See Appendix A). It also provides for Western to refund the difference from the period June 16, 1974, to the effective date of the tariff sheets filed to make such reductions.

Article II. This Article states that none of the provisions of this Agreement shall become effective until the Commission has entered an order unconditionally accepting this Agreement as final and non-appealable.

In addition, nothing in this Agreement shall limit the right of Western to file a rate increase application. This Agreement shall not be terminated by any changes filed by Western applicable to purchased gas adjustment provisions of its tariff.

Article III. This Article states that the provisions of this Agreement constitute a negotiated dollar settlement of this proceeding, and neither Western, the Commission Staff, nor any other party shall be deemed to have approved, accepted, agreed to, or consented to any rate of return, rate making principle, or any method of cost of service or other determination, or any other allocation underlying or supposed to underlie the settlement.

Rate base and rate of return. These appendices to the Agreement reflect a rate base of $841,207, and an 8.7 percent rate of return yielding a 10.25 percent return on common equity. (See Appendix A for settlement cost of service)

Based on our review of the record in this proceeding, including the filing by Western and the proposed settlement agreement, we find that the proposed settlement is reasonable and in the public interest, and accordingly should be approved subject to the terms and conditions of this order. Pursuant to Article I of the Agreement, Western shall file within 10 days of the issuance of this order new rates to be effective on or before June 16, 1974, which reflect a reduction of 0.7¢ per Mcf from the presently effective rates. Western shall refund the difference, including interest of 7 percent per annum, from the period June 16, 1974 to the effective date of the tariff sheets filed to make such reductions.

The Commission finds: The settlement of this proceeding on the basis of the settlement agreement filed herein by Western on October 16, 1974, and certified to the Commission on November 8, 1974, is reasonable and proper and in the public interest in carrying out the provisions of the Natural Gas Act, and such agreement should be approved as hereinafter ordered.

The Commission orders: (A) The settlement agreement filed by Western Gas Interstate Company on October 16, 1974, and certified to the Commission on November 8, 1974, is incorporated herein by reference, approved and made effective as of June 16, 1974, subject to the terms and conditions of this order.

(B) Western shall file, within 10 days of the issuance of this order, new rates to be effective immediately which reflect a reduction of 0.7¢ per Mcf from the presently effective rates to Western's jurisdictional customers.

(C) Western shall refund the difference, including interest of 7 percent per annum, from the period June 16, 1974 to the effective date of the tariff sheets filed to make the reductions provided for in paragraph (A).

(D) This order is without prejudice to any findings or orders which have been made or which may hereafter be made by the Commission, and is without prejudice to any claims or contentions which may be made by the Commission, its Staff, Western, or by any other party or person affected by this order in any proceedings now pending or hereafter instituted by or against Western or any other person or party.

(E) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

APPENDIX A

Line No.	Description (a)	Southern division (b)	Northern division (c)	Total (d)
1	Gas purchases—Transmission	$115,263	$1,056,456	$1,171,719
2	Transferred—Field system		292,380	292,380

Approval of Divestiture Plan

Correction

FR Doc. 75-1255, appearing at page 2677 in the issue of Wednesday, January 15, 1975, was incorrectly published as a rule. This document, which is a notice, should have appeared in the "Notices" section of the FEDERAL REGISTER, with headings as set forth above.

ARCHER-DANIELS-MIDLAND CO. AND NATIONAL CITY BANCORPORATION

Order Denying Acquisition of Bank

Archer-Daniels-Midland Company, Decatur, Illinois ("ADM"), and its wholly-owned subsidiary National City Bancorporation, Minneapolis, Minnesota ("NCB"), bank holding companies within the meaning of the Bank Holding Company Act, have applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent (less directors' qualifying shares) of the voting shares of National City Bank of Ridgedale, Minnetonka, Minnesota ("Bank"), a proposed new bank. The proposed acquisition would be made directly by NCB and, as a result, ADM would indirectly acquire voting shares of the Bank.

Notice of the applications, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the applications and all comments received in light of the general purposes of the Act and the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicants control one bank with aggregate deposits of approximately $131 million, representing about 1 percent of the commercial bank deposits in Minnesota.[1] Since Bank is a proposed new bank, its acquisition by Applicants would not significantly increase their share of deposits in any relevant area.

NCB is the fifth largest commercial banking organization in the relevant banking market, which is approximated by the Minneapolis-St. Paul RMA. Its present subsidiary bank, National City Bank, controls about 2 percent of deposits in that market and is located approximately 12 miles east of Bank. Because Bank is a proposed de novo bank, no existing competition would be eliminated. In addition, it does not appear that any significant potential competition would be foreclosed as a result of consummation of the proposal. Accordingly, the Board concludes that competitive considerations are consistent with approval of the application.

The financial and managerial resources and future prospects of Applicants, their subsidiary bank and Bank are satisfactory and consistent with approval of the applications. Considerations relating to convenience and needs lend some weight for approval of the applications, since the area to be served by Bank has undergone considerable growth and there are currently no banks in the immediate vicinity.

While the considerations discussed above indicate that approval of the applications would be consistent with the factors set forth in section 3 of the Bank Holding Company Act, other considera-

[1] Banking data are as of December 31, 1973, and reflect holding company acquisitions approved through July 31, 1974.

V40N14 JAN 21 75 XUM

tions in the record indicate that approval of the proposal would be contrary to the general purposes of the Act and, therefore, the applications should be denied.

ADM is one of the largest domestic soybean processors and operates one of the largest flour mills in the United States. As a result of the 1970 Amendments to the Bank Holding Company Act, ADM became a bank holding company and, pursuant to section 4(c)(12) of the Act and § 225.4(d) of the Board's Regulation Y, has filed with the Board an irrevocable declaration that it will cease to be a bank holding company by 1981. As a result of the filing of this declaration, ADM has available to it expedited procedures and greater latitude in acquiring additional non-banking interests than it would have otherwise. In the Board's view, permitting ADM to expand its banking interests while ADM is relatively free to pursue its non-banking interests without regard to the prohibitions in section 4 of the Act would be clearly contrary to one of the major purposes of the Act, i.e., the separation of banking and commerce, and such action should not be sanctioned.

The Board has, however, approved such an application in the past based upon a commitment from the applicant that it would separate its banking and non-banking interests at a date earlier than that to which it was already committed under its irrevocable declaration.[2] Although ADM, in its original application to the Board, presented a plan whereby it would "spin off" its shares of NCB to ADM's shareholders, this plan has now been postponed indefinitely and it does not appear that ADM's divestiture of its banking interests will occur at an early date. Accordingly, it is the Board's judgment that approval of the applications would frustrate the purposes of the Act, namely, the separation of banking and commerce, and should therefore be denied.

On the bases of all the facts in the record, it is the Board's judgment that approval of the subject applications would not be in the public interest. Accordingly, the applications are denied for the reasons summarized above.

By order of the Board of Governors,[3] effective January 13, 1975.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

BANCORPORATION OF MONTANA

Acquisition of Bank

Bancorporation of Montana, Great Falls, Montana, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares (less directors' qualifying shares) of Bank of Montana, Helena, Montana. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Minneapolis. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than February 10, 1975.

Board of Governors of the Federal Reserve System, January 9, 1975.

[SEAL] GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

BURLINGAME BANKSHARES, INC.

Proposed Acquisition of First State Insurance Agency

Burlingame Bankshares, Inc., Burlingame, Kansas, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire the assets of First State Insurance Agency, Burlingame, Kansas. Notice of the application was published on December 5, 1974 in The Enterprise-Chronicle, a newspaper circulated in Burlingame, Kansas.

Applicant states that the proposed subsidiary would engage in general insurance agency activities, including the sale of joint or single, reducing or level term credit life insurance or credit disability insurance, mortgage redemption, homeowners, life, fire (including extended coverage), liability, theft, and automobile insurance, and surety, fiduciary, and performance bonds. Such activities will be conducted at offices in Burlingame, Kansas, a town of less than 5,000 persons. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Kansas City.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than February 12, 1975.

Board of Governors of the Federal Reserve System, January 13, 1975.

[SEAL] GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

FEDERAL OPEN MARKET COMMITTEE

Authorization for Domestic Open Market Operations

In accordance with § 271.3(a)(4) and (5) of the rules regarding availability of information of the Federal Open Market Committee, there is set forth below paragraph 1(b) of the Committee's Authorization for Domestic Open Market Operations, as amended by action of the Committee effective November 11, 1974:

1. The Federal Open Market Committee authorizes and directs the Federal Reserve Bank of New York, to the extent necessary to carry out the most recent domestic policy directive adopted at a meeting of the Committee:

• • • • •

(b) To buy or sell in the open market, from or to acceptance dealers and foreign accounts maintained at the Federal Reserve Bank of New York, on a cash, regular, or deferred delivery basis, for the account of the Federal Reserve Bank of New York at market discount rates, prime bankers' acceptances with maturities of up to nine months at the time of acceptance that (1) arise out of the current shipment of goods between countries or within the United States, or (2) arise out of the storage within the United States of goods under contract of sale or expected to move into the channels of trade within a reasonable time and that are secured throughout their life by a warehouse receipt or similar document conveying title to the underlying goods; provided that the aggregate amount of bankers' acceptances held at any one time shall not exceed $1 billion.

By order of the Federal Open Market Committee, January 13, 1975.

ARTHUR L. BROIDA,
Secretary.

[FR Doc.75-1795 Filed 1-20-75;8:45 am]

FEDERAL OPEN MARKET COMMITTEE

Domestic Policy Directives of October 14-15, 1974

In accordance with § 271.5 of its rules regarding availability of information, there is set forth below the Committee's Domestic Policy Directive issued at its meeting held on October 14-15, 1974.[1]

[1] The Record of Policy Actions of the Committee for the meeting of October 14-15, 1974, is filed as part of the original document. Copies are available on request to the Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

The information reviewed at this meeting suggests that real output of goods and services declined somewhat further in the third quarter and that price and wage increases continued large. In September industrial production increased somewhat, reflecting settlement of work stoppages that had reduced output in August. An upsurge in the labor force, following several months of relatively slow growth, raised the unemployment rate from 5.4 to 5.8 per cent. The rise in wholesale prices of industrial commodities moderated, although it remained substantial, and prices of farm products and foods declined after having increased sharply in July and August.

On October 8 the President recommended a program to combat inflation and to mitigate the impact of monetary and fiscal restraint on certain sectors of the economy. The tax and expenditure proposals included in the program would, on balance, have approximately a neutral effect on the size of the Federal deficit.

In recent weeks the dollar has declined against leading foreign currencies. The U.S. foreign trade deficit increased substantially in August, as imports of petroleum and industrial materials rose while exports held steady.

The narrowly defined money stock rose slightly in September and grew at an annual rate of about 2 per cent over the third quarter, compared with a rate of 8 per cent in the first half of the year. The money supply measure more broadly defined to include bank time and savings deposits other than money market CD's—as well as the measure that includes deposits at other thrift institutions—also rose only slightly in September. Over-all business credit demands slackened last month, and outstanding business loans at banks leveled off. Since early September interest rates on short-term market instruments have fallen considerably, while yields on Treasury and State and local government bonds have declined modestly. Yields on corporate bonds have risen somewhat further, on balance, reflecting the large volume of offerings in prospect.

In light of the foregoing developments, it is the policy of the Federal Open Market Committee to foster financial conditions conducive to resisting inflationary pressures, supporting a resumption of real economic growth, and achieving equilibrium in the country's balance of payments.

To implement this policy, while taking account of the forthcoming Treasury financing and of developments in domestic and international financial markets, the Committee seeks to achieve bank reserve and money market conditions consistent with resumption of moderate growth in monetary aggregates over the months ahead.

By order of the Federal Open Market Committee, January 13, 1975.

ARTHUR L. BROIDA,
Secretary.

[FR Doc.75-1799 Filed 1-20-75;8:45 am]

FIRST COMMUNITY BANCORPORATION

Order Approving Acquisition of Bank

First Community Bancorporation, Joplin, Missouri, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 80 percent or more of the voting shares of the Bank of Wheaton, Wheaton, Missouri ("Bank").

The application has been processed by the Federal Reserve Bank of Kansas City, pursuant to authority delegated by the Board of Governors of the Federal Reserve System, under the provisions of § 265.2(f)(24) of the Rules regarding delegation of authority.

Notice of the application, affording an opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The Federal Reserve Bank has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the twenty-second largest banking organization in Missouri, controls three operating banks with aggregate deposits of $82.1 million,[1] representing .55 percent of the commercial bank deposits in the State. Acquisition of Bank would increase Applicant's share of deposits only slightly, and would not result in a significant increase in the concentration of banking resources in Missouri. Applicant's ranking among banking organizations in the State would remain unchanged.

Consummation of the proposed acquisition would neither eliminate any significant existing competition nor foreclose the development of potential competition between any of Applicant's subsidiary banks and Bank. Bank ($5 million in deposits) is the third largest of seven banking organizations in the Barry County banking market (approximated by Barry County less the northern portion of the County including Monett) and holds 11.57 percent of the deposits in commercial banks in the market. None of Applicant's subsidiary banks are located in Bank's market area. Current population per banking office ratios suggest that de novo entry is unlikely. Although four smaller banks compete in the market, the 76 percent market share of the two largest banks suggest that Bank may be viewed as a foothold acquisition. Competitive considerations are, therefore, consistent with approval of the application.

The financial and managerial resources and future prospects of Applicant and its subsidiaries and Bank appear satisfactory. Affiliation with Applicant should enable Bank to offer expanded banking services, including improved agricultural lending and trust services. These factors, as they relate to the convenience and needs of the community to be served, lend some weight for approval of the application. It is the Reserve Bank's judgment that consummation of the proposed acquisition is in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Kansas City, pursuant to delegated authority.

[SEAL] WILBUR T. BILLINGTON,
Senior Vice President.

JANUARY 8, 1975.

[FR Doc.75-1800 Filed 1-20-75;8:45 am]

[1] All banking data are as of December 31, 1973, and reflect bank holding company formations and acquisitions approved by the Board to October 23, 1974.

PAN AMERICAN BANCSHARES, INC.

Acquisition of Bank

Pan American Bancshares, Inc., Miami, Florida, has applied for the Board's approval under section 3(a)(5) of the Bank Holding Company Act (12 U.S.C. 1842(a)(5)) to merge with General Financial Systems, Inc., Riviera Beach, Florida. General Financial Systems, Inc., is a registered bank holding company owning voting shares in the stated percentages of the following banks in Florida: Marine National Bank of West Jacksonville, Jacksonville, a proposed new bank (100 per cent); First Marine Bank and Trust Company of the Palm Beaches, Riviera Beach, (82.5 per cent); First National Bank and Trust Company of Lake Worth, Lake Worth, (98.8 per cent); First National Bank and Trust Company, Jupiter/Tequesta, Tequesta, (93.7 per cent); Tri City Bank, Palm Beach Gardens, (24.9 per cent); The Peoples Bank, Gainesville (24.9 per cent); Marine National Bank of Jacksonville, Jacksonville, (24.5 per cent); Congress National Bank, Palm Springs, Lake Worth, (20.9 per cent); First Community Bank of Boca Raton, Boca Raton, (17.8 per cent); and First Commercial Bank of Live Oak, Live Oak (15.2 per cent). The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Pan American Bancshares, Inc. is also engaged in the following nonbank activities: mortgage banking, acting as investment advisor to a real estate investment trust and loan servicing. In addition to the factors considered under section 3 of the Act (banking factors), the Board will consider the proposal in the light of the company's nonbanking activities and the provisions and prohibitions in section 4 of the Act (12 U.S.C. 1843).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Atlanta. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than February 11, 1975.

Board of Governors of the Federal Reserve System, January 10, 1975.

SYB CORP.

Formation of Bank Holding Company

SYB Corporation, Oklahoma City, Oklahoma, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 80 per cent or more of the voting shares of Stock Yards Bank, Oklahoma City, Oklahoma. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Kansas City. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551 to be received not later than February 13, 1975.

UNION BOND & MORTGAGE CO.

Order Denying Acquisition of Union Bond Insurance Agency, Inc.

Union Bond & Mortgage Company, Port Angeles, Washington, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y to acquire 51 per cent of the shares of Union Bond Insurance Agency, Inc., Port Angeles, Washington ("Agency") and thereafter to engage in the sale as agent or broker in the following types of insurance: credit life and disability insurance, auto insurance covering collision, fire, theft, property damage, bodily injury, uninsured motorist, and medical payments on occupants; commercial and residential fire insurance; marine insurance; trailer and mobile home insurance; cycle insurance; general liability insurance; commercial insurance including blanket bond and registered mail liability, fidelity bonds, and a small percentage of non-credit-related insurance of the types mentioned above as a matter of convenience to the public (excepting credit life and disability insurance). The sale of certain insurance coverages is an activity that has previously been determined by the Board to be closely related to banking (12 CFR 225.4(a)(9)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (39 FR 21090). The time for filing comments and views has expired, and the Board has considered the application and all comments received, including those of the National Association of Insurance Agents, Inc., the Independent Insurance Agents and Brokers of Washington, and the Clallam County Insurance Agents Association, in the light of the public interest factors set forth in section 4(c)(8) of the Act (12 U.S.C. 1843(c)(8)).

Applicant controls for banks holding aggregate deposits of $86.8 million representing about 1 per cent of the total deposits in commercial banks in Washington. Applicant is the eleventh largest banking organization in the State.

Agency was organized in 1954 to assume the insurance business formerly operated by Applicant's lead bank. Agency presently operates as a general insurance agency in a community with a population in excess of 20,000 persons. Its annual gross premiums represent less than 3 per cent of the total gross premiums accounted for by members of the Clallam County Insurance Agents Association. The operation of a general insurance agency is an activity not previously determined by the Board to be closely related to banking. Moreover, Board authorization permitting a bank holding company to engage in the sale of insurance otherwise sold as a matter of convenience to the purchaser is not designed to permit entry into the general insurance agency business (see 12 CFR 225.128(e)). It appears that Agency's current scope of operations includes the sale of certain insurance coverages which have not previously been determined by the Board to be permissible under § 225.4(a)(9) of Regulation Y. Such insurance coverages currently being offered by Agency include registered mail liability, comprehensive blanket policies for commercial vendors, miscellaneous indemnity bonds, and court bonds.

Applicant has provided a summary of the total insurance premiums obtained by Agency in 1973 which indicates that approximately 60 percent of its insurance premiums were derived through the sale of insurance that was directly related to extensions of credit by its lead bank, First National Bank of Port Angeles. In addition, 4.6 percent of Agency's premiums in 1973 were derived through the sale of insurance covering the First National Bank of Port Angeles and its employees; the remainder of all insurance sold by Agency appears to be noncredit-related. Approximately 4.9 percent of Agency's premium income is classified by Applicant as "walk-in" business representing new business that Agency had not solicited through any business relationship, while the remainder, approximating 30 percent is classified as "renewal" business representing a continuation of insurance policies *originated* through extensions of credit but which are no longer credit related and do not require a loss payee endorsement.

In order to approve the subject application, section 4(c)(8) of the Act requires the Board to determine initially that the activities of Agency are so closely related to banking or managing or controlling banks as to be a proper incident thereto. It appears that many of the insurance coverages sold by Agency protect collateral in which Applicant's lead bank has a security interest as a result of an extension of credit and therefore would qualify as permissible insurance agency activities under § 225.4(a)(9)(ii)(a) of the Board's Insurance Regulation. However, as noted above, approximately 30 per cent of Agency's premium income is derived from renewal business that originally supported the lending transactions of a bank or bank-related firm in the holding company system but is sold now only as a convenience to the purchaser since the credit extension has been repaid. Applicant contends that such renewal business does not constitute a significant portion of the aggregate insurance premium income since it was originally credit related.

The Board has previously indicated through an interpretation to § 225.4(a)(9) of Regulation Y that a renewal of insurance, after the credit extension has been repaid, would be regarded as closely related to banking only to the extent that such renewal is permissible under § 225.4(a)(9)(ii)(c) of Regulation Y (12 CFR 225.128(c)(3)). In the Board's judgment, the nexus between insurance protecting collateral in which a bank or bank-related firm has a security interest and an extension of credit or provision of other financial service by such bank or bank-related firm is severed upon repayment of the credit extension or termination of the financial service. Consequently, the permissibility of such renewal business, and its close relationship to banking, is dependent upon its ability to qualify as "convenience" sales under § 225.4(a)(9)(ii)(c) of the Insurance Regulation, which limits the sale of such insurance to:

> Insurance that is otherwise sold as a matter of convenience to the purchaser, so long as the premium income from sales within . . . subdivision (ii)(c) does not constitute a significant portion of the aggregate insurance premium income of the holding company from insurance sold pursuant to this subdivision (ii).

The Board has previously defined the term "significant portion" as used with regard to premium income attributable to convenience sales of the holding company as income amounting to "less than 5 percent of the aggregate insurance premium income of the holding company system from insurance sold pursuant to § 225.4(a)(9)(ii)." (See 12 CFR 225.128(e)(3).) The Board hereby reaffirms its view that this limitation, or one similar to it, is a necessary and proper means of insuring that the close relationship originally found between banking and certain insurance agency activities deemed permissible under the Insurance Regulation continues to exist.[1] The proposal now before the Board goes well beyond the prescribed limitation for "convenience" sales, as Agency's renewal business alone represents 30 percent of its total premium income. Accordingly, the Board is unable to find a close relationship between the activities of Agency and the business of banking or managing or controlling banks.

[1] The Board's view in this respect would not be affected by a proposed revision to clarify the definition of insurance sold as a matter of convenience to borrowers under Regulation Y which would, in effect, limit the amount of convenience insurance sold by each insurance-selling subsidiary office to less than 5 percent of that office's total insurance premium income (see 39 FR 28538 and 39 FR 34682). The Board's decision in the instant Order is based solely on the Insurance Regulation as presently drafted; no determination has been made by the Board on the proposed revision, nor is any implied herein.

Based upon the foregoing and other considerations reflected in the record, the Board has determined, in accordance with the provisions of section 4(c)(8), that the insurance agency activities conducted by Agency are not closely related to banking and that the application should be, and hereby is, denied.

By order of the Board of Governors,[2] effective January 8, 1975.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.75-1805 Filed 1-20-75;8:45 am]

UNION COMMERCE CORP.

Order Approving Acquisition of Union Commerce Life Insurance Co.

Union Commerce Corporation, Cleveland, Ohio, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y, to acquire all of the voting shares of Union Commerce Life Insurance Company ("Company"), Phoenix, Arizona, a company to be organized de novo to engage in the underwriting, as reinsurer, of credit life insurance and credit accident and health insurance in connection with extensions of credit by Applicant's subsidiaries. Such activity has been determined by the Board to be closely related to banking (12 CFR 225.4(a)(10)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (39 FR 39916). The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 4(c)(8) of the Act (12 U.S.C. 1843(c)(8)).

Applicant controls three banks with aggregate deposits of $1.1 billion representing about 4 per cent of the total deposits in commercial banks in Ohio.[1] Company will be organized under Arizona law as a full reserve life insurance company. Since Company will be qualified to underwrite insurance directly only in Arizona, its activities will be limited to acting as reinsurer of credit life and credit accident and health insurance policies made available in connection with extensions of credit by Applicant's subsidiaries located in Ohio. Such insurance would be directly underwritten by an insurer qualified to underwrite in Ohio and would thereafter be assigned or ceded to Company under a reinsurance agreement.

Credit life and credit accident and health insurance is generally made available by banks and other lenders and is designed to insure payment of a loan in the event of death or disability of a borrower. In connection with the addition of the underwriting of such insurance to the list of permissible activities for bank holding companies, the Board has stated:

> To insure that engaging in the underwriting of credit life and credit accident and health insurance can reasonably be expected to be in the public interest, the Board will only approve applications in which an Applicant demonstrates that approval will benefit the consumer or result in other public benefits. Normally, such a showing would be made by projected reduction in rates or increase in policy benefits due to bank holding company performance of this service.

Applicant has stated that it will provide credit life insurance at rates that are about 4 percent below those presently being charged by Applicant's holding company system and credit accident and health insurance at rates 5 percent below its prevailing rates. The Board believes that such a reduction in the price of credit life and credit accident and health insurance is a consideration favorable to the public interest. The Board concludes, therefore, that such public benefits, in the absence of any evidence in the record indicating the presence of any adverse statutory factors, provides support for approval of the application.

Based upon the foregoing and other considerations reflected in the record, the Board has determined, in accordance with the provisions of section 4(c)(8), that consummation of this proposal can reasonably be expected to produce benefits to the public that outweigh possible adverse effects. Accordingly, the application is hereby approved. This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of the holding company or any of its subsidiaries as the Board finds necessary to insure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder or to prevent evasion thereof.

The transaction shall be made not later than three months after the effective date of this Order unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Cleveland pursuant to authority delegated herein.

By order of the Board of Governors,[2] effective January 13, 1975.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.75-1798 Filed 1-20-75;8:45 am]

WORCESTER BANCORP, INC.

Order Approving Acquisition of Bank

Worcester Bancorp, Inc., Worcester, Massachusetts, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares of The Peoples National Bank of Marlborough, Marlborough, Massachusetts.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the seventh largest bank holding company in Masschusetts, controls two banks with aggregate deposits of $466.8 million, representing 3.2 per cent of total deposits in commercial banks in the State.[1] Acquisition of Bank (deposits of $15 million) would increase Applicant's share of State deposits by 0.11 of one per cent and would not result in a significant increase in the concentration of banking resources in Massachusetts.

Bank ranks 48th out of 79 commercial banking organizations in the Boston banking market (approximated by the Boston RMA) and controls less than 1 per cent of the total commercial bank deposits in the market. Applicant's principal subsidiary bank, Worcester County National Bank, Worcester, Massachusetts ("Worcester Bank"), operates primarily in the Worcester banking market (approximated by the Worcester RMA), which is contiguous to the western boundary of the Boston banking market. However, both Bank and Worcester Bank compete to some extent in the same local area in the most western portion of the Boston banking market. Bank operates a total of three offices—two in Marlborough and one in Hudson. Worcester Bank has a branch office approximately three miles from one of Bank's Marlborough offices. The deposit and loan overlap figures do not appear to be significant in relation to the entire Boston market; however, consummation of this proposal would result in the elimination of some existing competition.

Since branching across county lines is prohibited in Massachusetts, neither Worcester Bank nor Bank can branch directly into towns where the other maintains offices. Due to the low population per commercial bank ratio and the proximity of Worcester Bank's offices, it is unlikely that Applicant would enter this portion of the Boston market through de novo expansion. On the other hand, despite the wide geographic area

[1] All deposit data are as of June 30, 1974.

[2] Voting for this action: Chairman Burns and Governors Mitchell, Sheehan, Bucher, Holland, Wallich, and Coldwell.

[1] All banking data are as of June 30, 1974 and reflect bank holding company formations and acquisitions approved through December 31, 1974.

[2] Voting for this action: Vice Chairman Mitchell and Governors Bucher, Holland, and Coldwell. Absent and not voting: Chairman Burns and Goverhors Sheehan and Wallich.

V 4014 JAN 21 75 XUM

and the large number of competitors in the Boston banking market, the five largest commercial banking organizations control 77 per cent of the total deposits. Thus, entry of Applicant into the Boston banking market through the subject acquisition should have procompetitive effects on the structure of the market by strengthening Bank's competitive position vis a vis the larger banks in the market. Furthermore, as a result of the acquisition, Applicant may be able to exert a further competitive influence by having Bank establish additional branches sometime in the future. Accordingly, although consummation of the proposal would result in the elimination of some existing competition, the Board concludes, based on the record before it, that the overall competitive considerations are consistent with approval of the application.

The financial and managerial resources and future prospects of Applicant, its subsidiaries and Bank are regarded as generally satisfactory and consistent with approval of the application. Affiliation with Applicant will make available to Bank a number of expanded services including equipment leasing, real estate development, second mortgages, new commercial credit services, expanded trust capabilities, and expanded municipal and international financing. Although it appears that similar services are presently available in the market, the increased and improved services that Bank will be able to offer will provide customers with an additional convenient source of full-service banking. Therefore, convenience and needs considerations lend weight toward approval and outweigh any slightly adverse effect the proposal would have on existing competition. It is the Board's judgment that the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Boston pursuant to delegated authority.

By order of the Board of Governors,[1] effective January 13, 1975.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

GENERAL ACCOUNTING OFFICE

REGULATORY REPORTS REVIEW

Receipt of Report Proposals

The following request for clearance of a report intended for use in collecting information from the public was received by the Regulatory Reports Review Staff, GAO, on January 15, 1975. See 44 U.S.C. 3512 (c) & (d). The purpose of publishing this notice in the FEDERAL REGISTER is to inform the public of such receipt. The questionnaire was originally submitted to GAO on December 27, 1974 (see 40 FR 1324), and withdrawn by FTC on January 9, 1975, for further consideration and possible revision (see 40 FR 2767). The questionnaire has been resubmitted without change.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed FTC form are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed form, comments must be received on or before February 4, 1975, and should be addressed to Mr. Monte Canfield, Jr., Director, Office of Special Programs, United States General Accounting Office, 425 I Street, NW, Washington, D.C. 20548.

Further information about the items on this list may be obtained from the Regulatory Reports Review Officer, 202-376-5425.

FEDERAL TRADE COMMISSION

Request for review and clearance of a new one-time statistical survey or report entitled Special Report Form—Natural Gas Survey. The Federal Trade Commission plans to collect information concerning natural gas reserves, production, and producible shut-in leases. The questionnaire also requests data concerning natural gas contracts and the provisions therein. Responses are mandatory under the FTC Act, 15 U.S.C. 41. Potential respondents are 60 of the largest natural gas producers. The amount of time required to respond to the questionnaire will vary considerably according to the size of the reporting firm. Estimated average burden required per response is 700 man hours.

CARL F. BOGAR,
Assistant Director,
Regulatory Reports Review.

INTERNATIONAL TRADE COMMISSION

[337-36]

DOXYCYCLINE

Denial of Stay Motion and Continuation of Investigation

Notice is hereby given that the United States International Trade Commission has denied the motion of International Rectifier Corp. and USV Pharmaceutical Corp. that the Commission stay its investigation No. 337-36, Doxycycline, during the pendency of two Federal court actions, namely, International Rectifier Corp. v. American Cyanamid Co., Pfizer, Inc., et al., D. Minn. 4-74-372, and Pfizer, Inc. v. International Rectifier Corp. and USV Pharmaceutical Corp., D. Minn. 4-73 Civ. 188. The Commission is continuing its investigation.

Notice of the institution of the investigation and the ordering of a public hearing for July 9, 1974, was published in the FEDERAL REGISTER on May 29, 1974 (39 FR 18723-24). Notice of the withholding of proceedings and postponement of the public hearing scheduled for July 9, 1974, was published in the FEDERAL REGISTER on June 20, 1974 (39 FR 22196-97). Notice of the public hearing on the above motion held on September 23, 1974, and the further withholding of proceedings pending the hearing and disposition of the motion was published in the FEDERAL REGISTER on September 19, 1974 (39 FR 33751-52).

Statements of reasons by individual Commissioners for denial of the stay motion are on file with the Secretary of the Commission.

Issued: January 15, 1975.

By Order of the Commission.

KENNETH R. MASON,
Secretary.

NUCLEAR REGULATORY COMMISSION

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS

Meeting

In accordance with the purposes of sections 29 and 182 b. of the Atomic Energy Act (42 U.S.C. 2039, 2232 b.), the Advisory Committee on Reactor Safeguards' Subcommittee on Regulatory Guides will hold a meeting at 8:30 a.m. on February 5, 1975 in Room 1062 at 1717 H Street, NW., Washington, D.C. This meeting will be closed to the public.

The Subcommittee will meet in closed session with the AEC Regulatory Staff to discuss the following working papers:

(1) Tornado Design Classification;
(2) Revision 1 to Regulatory Guide 1.20, Comprehensive Vibration Assessment Program for Reactor Internals; and
(3) Flood Protection for Nuclear Power Plants.

In connection with this matter, the Subcommittee may hold Executive Sessions, not open to the public, prior to and at the conclusion of the meeting with the AEC Regulatory Staff, to exchange opinions and formulate recommendations to the ACRS.

I have determined, in accordance with subsection 10(d) of Pub. L. 92-463, that the closed session will consist of exchanges of opinions and formulation of recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b). Any factual material that may be presented during this portion of the meeting will be inextricably intertwined with such exempt material and no separation of exempt and non-exempt material is considered practical. It is essential to close this meeting to protect the free interchange of internal views and to avoid undue interference with Subcommittee and agency operation.

ROBERT A. KOHLER,
Advisory Committee
Management Officer.

[FR Doc.75-1919 Filed 1-20-75;8:45 am]

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS

Meeting

In accordance with the purposes of sections 29 and 182 b. of the Atomic Energy Act (42 U.S.C. 2039, 2232 b.), the Advisory Committee on Reactor Safeguards' Subcommittee on Resolution of Generic Items will hold a meeting on February 5, 1975 in Room 1046 at 1717 H Street NW., Washington, D.C.

The purpose of the meeting will be to discuss generic issues relating to the current generations of light water reactors.

The following constitutes that portion of the Subcommittee's agenda for the above meeting which will be open to the public:

WEDNESDAY, FEBRUARY 5, 1975,
11:00 A.M.-4:00 P.M.

Discussions with the AEC Regulatory Staff. Representatives of the AEC Regulatory Staff will make presentations regarding actions taken to resolve items identified by the ACRS and the Staff as being generic to the current generations of light water reactors.

In connection with the above agenda, the Subcommittee will hold executive sessions prior to, and at the close of the day's public session, which will involve a discussion of its preliminary views, and an exchange of opinions of the Subcommittee members and internal deliberations and formulation of recommendations to the ACRS.

I have determined, in accordance with subsection 10(d) of Pub. L. 92-463, that the executive sessions at the beginning and end of each day's session will consist of an exchange of opinions and formulation of recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b).

Further, any non-exempt material that will be discussed during the above closed sessions will be inextricably intertwined with exempt material, and no further separation of this material is considered practical. It is essential to close such portions of the meeting to protect the free interchange of internal views and to avoid undue interference with agency or Committee operation.

Practical considerations may dictate alterations in the above agenda or schedule.

The Chairman of the Subcommittee is empowered to conduct the meeting in a manner that in his judgment will facilitate the orderly conduct of business, including provisions to carry over an incompleted open session from one day to the next.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda item may do so by mailing 25 copies thereof, postmarked no later than January 29, 1975 to the Executive Secretary, Advisory Committee on Reactor Safeguards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Such comments shall be based upon documents which are on file and available for public inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545.

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statement and its usefulness to the Subcommittee. To the extent that the time available for the meeting permits, the Subcommittee will receive oral statements during a period of no more than 30 minutes at an appropriate time, chosen by the Chairman of the Subcommittee, between the hours of 1:30 p.m. and 3:30 p.m. on February 5, 1975.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Subcommittee who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to whether the meeting has been cancelled or rescheduled and in regard to the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted, can be obtained by a prepaid telephone call on February 3, 1975 to the Advisory Committee on Reactor Safeguards (telephone 202-634-1371) between 8:30 a.m. and 5:15 p.m., Eastern Time.

(e) Questions may be propounded only by members of the Subcommittee and its consultants.

(f) Seating for the public will be available on a first-come, first-served basis.

(g) The use of still, motion picture, and television cameras, the physical installation and presence of which will not interfere with the conduct of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(h) Persons desiring to attend portions of the meeting where proprietary information is to be discussed may do so by providing to the Executive Secretary, Advisory Committee on Reactor Safeguards, 1717 H Street, NW., Washington, D.C. 20545, 7 days prior to the meeting, a copy of an executed agreement with the owner of the proprietary information to safeguard this material.

(i) A copy of the transcript of the open portions of the meeting will be available for inspection on or after February 6, 1975 at the Atomic Energy Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. 20545. Copies of the transcript may be reproduced in the Public Document Room or may be obtained from Ace Federal Reporters, Inc., 415 Second Street, NE., Washington, D.C. 20002 (telephone 202-547-6222) upon payment of appropriate charges.

(j) On request, copies of the minutes of the meeting will be made available for inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545 after May 5, 1975. Copies may be obtained upon payment of appropriate charges.

ROBERT A. KOHLER,
Acting Advisory Committee
Management Officer.

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS

Meeting

In accordance with the purposes of sections 29 and 182 b. of the Atomic Energy Act (42 U.S.C. 2039, 2232 b.), the ACRS Procedures Subcommittee will hold a closed meeting at 4:00 p.m. on February 5, 1975, in Washington, D.C. to discuss ACRS policy and internal practices with regard to the functioning of the Committee and the conduct of its activities.

I have determined, in accordance with subsection 10(d) of Pub. L. 92-463 that the meeting will consist of exchanges of opinions and formulation of recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b). Any factual material that may be presented during the meeting will be inextricably intertwined with such exempt material, and no separation of this material is considered practical. It is essential to close this meeting to protect the free interchange of internal views and to avoid undue interference with Subcommittee and agency operation.

ROBERT A. KOHLER,
Acting Advisory Committee
Management Officer.

REGULATORY GUIDE

Notice of Issuance and Availability

The Atomic Energy Commission has issued a new guide in its Regulatory Guide Series. This series has been developed to describe and make available to the public methods acceptable to the AEC Regulatory staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

Regulatory Guide 10.1, "Compilation of Reporting Requirements for Persons Subject to AEC Regulations," presents a compilation of all reporting requirements applicable to the various types of AEC licensees and other persons subject to AEC regulations. The guide identifies the proper AEC addressee or addressees for each report and designates the number of copies required.

Since this guide may apply to all persons subject to AEC regulations, it is being sent to recipients of regulatory guides in all divisions.

Comments and suggestions in connection with (1) items for inclusion in guides currently being developed or (2) improvements in all published guides are encouraged at any time. Public comments on Regulatory Guide 10.1 will, however, be particularly useful in evaluating the need for an early revision if received by March 20, 1975.

[1] Voting for this action: Chairman Burns and Governors Mitchell, Sheehan, Wallich and Coldwell. Voting against this action: Governor Holland. Absent and not voting: Governor Bucher.

V 4 0 1 4 JAN 21 75 XUM

Comments should be sent to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Docketing and Service Section.

Regulatory Guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Requests for single copies of issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides should be made in writing to the Director of Regulatory Standards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Telephone requests cannot be accommodated. Regulatory Guides are not copyrighted and Commission approval is not required to reproduce them.

(5 U.S.C. 552(a))

Dated at Rockville, Maryland, this 13th day of January 1975.

For the Atomic Energy Commission.

ROBERT B. MINOGUE,
Acting Director of Regulatory Standards.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

ARCHITECTURE AND ENVIRONMENTAL ARTS ADVISORY PANEL

Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given that a closed meeting of the Architecture and Environmental Arts Advisory Panel to the National Council on the Arts will be held on February 13, 14, 1975 from 9:30 a.m.-5:30 p.m. at the Shoreham Building, 806 15th Street, NW, Washington, D.C.

This meeting is for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman published in the FEDERAL REGISTER of January 10, 1973, this meeting, which involves matters exempt from the requirements of public disclosure under the provisions of the Freedom of Information Act (5 U.S.C. 552(b)(4), (5)), will not be open to the public.

Further information with reference to this meeting can be obtained from Mrs. Luna Diamond, Advisory Committee Management Officer, National Endowment for the Arts, Washington, D.C. 20506, or call (202) 634-6110.

EDWARD M. WOLFE,
Administrative Officer, National Endowment for the Arts, National Foundation on the Arts and the Humanities.

SMALL BUSINESS ADMINISTRATION

NORTHERN CALIFORNIA SMALL BUSINESS INVESTMENT CO.

Surrendering of License

Notice is hereby given that Northern California Small Business Investment Company, P.O. Box 242, Los Altos, California 94022, has surrendered its License No. 12/12-0004, issued by the Small Business Administration (SBA) on October 29, 1959.

Northern California Small Business Investment Company has complied with all conditions set forth by SBA for surrender of its license. Therefore, under the authority vested by the Small Business Investment Act of 1958, as amended, and pursuant to the regulations promulgated thereunder, the surrender of the license of Northern California Small Business Investment Company is hereby accepted and it is no longer licensed to operate as a small business investment company.

Dated: January 10, 1975.

JAMES THOMAS PHELAN,
Deputy Associate Administrator for Investment.

[FR Doc.75-1819 Filed 1-20-75; 8:45 am]

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

CONNECTICUT STATE STANDARDS

Notice of Approval

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (hereinafter called the Act) by which the Assistant Regional Director for Occupational Safety and Health (hereinafter called the Assistant Regional Director) under a delegation of authority from the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter called the Assistant Secretary), (29 CFR 1953.4) will review and approve standards promulgated pursuant to a State plan which has been approved in accordance with section 18(c) of the Act and 29 CFR Part 1902. On January 4, 1974, notice was published in the FEDERAL REGISTER (39 FR 1012) of the approval of the Connecticut plan and the adoption of Subpart X to Part 1952 containing the decision.

The Connecticut plan provides for the adoption of Federal standards as State standards. § 1952.300(c) of Subpart X sets forth the State's schedule for the adoption of Federal standards. By letter dated September 19, 1974 from Jack A. Fusari, Commissioner, Connecticut Department of Labor to Vernon A. Strahm, Assistant Regional Director and incorporated as part of the plan, the State submitted State standards comparable to 29 CFR Part 1910, Subparts D through S; 29 CFR Part 1915, Subparts A through L; 29 CFR Part 1916, Subparts A through L; 29 CFR Part 1917, Subparts A through I; 29 CFR Part 1918, Subparts A through I; 29 CFR Part 1919, Subparts A through H; and 29 CFR Part 1926, Subparts B through X. These standards, which are contained in three volumes, namely: General Industry Standards, Safety and Health Regulations for Maritime Employment, and Construction Safety and Health Regulations, were promulgated after public comment requested on May 21, 1974, by a resolution adopted by Connecticut Labor Department on September 11, 1974, pursuant to Chapter 571, Section 31-372 of the Connecticut State laws.

2. *Decision.* Having reviewed the State submission in comparison with the Federal standards, it has been determined that the State standards are identical to the Federal standards.

3. *Location of supplement for inspection and copying.* A copy of the standards supplement, along with the approved plan, may be inspected and copied during normal business hours at the following locations: Office of the Assistant Regional Director, 18 Oliver Street, 5th Floor, Boston, Massachusetts 02110; State of Connecticut Department of Labor, 200 Folly Brook Boulevard, Wethersfield, Connecticut 06109; and Office of the Associate Assistant Secretary for Regional Programs, Room 850, 1726 M Street, NW., Washington, D.C. 20210.

4. *Public Participation.* Under 29 CFR 1953.2(c) the Assistant Secretary may prescribe alternative procedures to expedite the review process or for other good cause which may be consistent with applicable laws. The Assistant Secretary finds that good cause exists for not publishing the supplement to the Connecticut state plan as a proposed change and making the Assistant Regional Director's approval effective upon publication for the following reasons:

1. The standards are identical to the Federal standards and are therefore deemed to be at least as effective.

2. The standards were adopted in accordance with the procedural requirements of State law and further participation would be unnecessary.

This decision is effective January 21, 1975.

(Sec. 18, Pub. L. 91-596, 84 Stat. 1608 (29 U.S.C. 667))

Signed at Boston, Massachusetts this 11th of December 1974.

VERNON A. STRAHM,
Assistant Regional Director.

V4014 JAN 21 75 XUM

NATIONAL ADVISORY COMMITTEE ON OCCUPATIONAL SAFETY AND HEALTH

Cancellation of Meeting

The meeting of the National Advisory Committee on Occupational Safety and Health scheduled for January 24 and 25, 1975, in Phoenix, Arizona, is hereby cancelled. Notice of this meeting was published on December 31, 1974 (39 FR 45334). The meeting will be rescheduled at a later date. Details will be published in the FEDERAL REGISTER.

Signed at Washington, D.C., this 17th day of January, 1975.

J. GOODELL,
Executive Secretary.

DEPARTMENT OF JUSTICE

Law Enforcement Assistance Administration

ADVISORY COMMITTEE OF THE NATIONAL INSTITUTE OF LAW ENFORCEMENT AND CRIMINAL JUSTICE

Notice of Meeting

Notice is hereby given that the Advisory Committee of the National Institute of Law Enforcement and Criminal Justice to the Law Enforcement Assistance Administration, will meet February 1, 1975, at the Ramada Inn in Arlington, Virginia.

Topics for discussion will include recommendations for conducting a national evaluation of LEAA's Career Criminal Initiative, proposed methods for implementing the Juvenile Justice and Delinquency Prevention Act of 1974, proposed research initiative on white collar crime and official corruption, and the Institute strategy for testing new technologies.

The meeting will be open to the public.

Failure to give fifteen day notice developed from an administrative error although notice of the meeting was provided in numerous public communications and criminal justice publications. To reschedule would create considerable confusion and mislead prospective attendees.

For further information, please contact Gerald M. Caplan, National Institute of Law Enforcement and Criminal Justice, LEAA, U.S. Department of Justice, 633 Indiana Avenue, NW, Washington, D.C. 20530. (202) 386–3164.

GERALD YAMADA,
Attorney-Advisor,
Office of General Counsel.

ADULT EDUCATION

Proposed State Program Regulations

V40-14 JAN21 75 XUM

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

[45 CFR Part 166]

STATE ADULT EDUCATION PROGRAMS

Notice of Proposed Rule Making

In accordance with the requirements of the Education Amendments of 1974 (Pub. L. 93-380) and pursuant to the authority contained in the Adult Education Act, as amended, 20 U.S.C. 1201 et seq., the Commissioner of Education, with the approval of the Secretary of Health, Education, and Welfare, proposes to amend Title 45, Part 166 of the Code of Federal Regulations to read as set forth below. The Commissioner also proposes to establish national priorities for the program which are set forth following the text of the proposed regulations.

1. *Program purpose.* The Adult Education Act provides for the encouragement of State-administered programs of adult public education. Section 306 of the Act provides for programs of instruction that will enable all adults to continue their education to at least the level of completion of secondary school and make available the means to secure training that will enable them to become more employable, productive, and responsible citizens. Section 309 provides support for special experimental demonstration projects and for training persons engaged, or preparing to engage, as personnel in programs designed to carry out the purposes of the Act. Authority for the administration of section 309 was transferred from the U.S. Commissioner of Education to the State educational agencies by the Education Amendments of 1974.

2. *Procedure for Submitting General Application and Annual Program Plan.* Section 434(b) of the General Education Provisions Act, as added by section 511 of the Education Amendments of 1974 (Pub. L. 93-380), provides a new procedure in lieu of submitting State plans for State administered programs. Section 434(b), which became effective July 1, 1974, requires any State which wishes to participate in an applicable program in which Federal funds are made available to local educational agencies through or under the supervision of the State educational agency (as in Adult Education), to maintain on file with the Commissioner a general application. Such general application must include five assurances stipulated in section 434(b)(1)(A), including an assurance that the State will submit an annual program plan to the Commissioner. The annual program plan must be prepared and administered in a manner consistent with the specific State plan requirements of the appropriate applicable statutes affecting the program for which the annual program plan is applicable.

Regulations implementing section 434(b) and instructions will be issued by the Commissioner as soon as possible. Since section 434(b) did not revoke statutory references to State plans, this Notice of Proposed Rule Making retains such references. However, States are advised that the new procedures are effective for fiscal year 1975.

3. *Section 503, Education Amendments of 1972 (Pub. L. 92-318), procedures and effect.* In accordance with section 503 of the Education Amendments of 1972, a Notice of Proposed Rule Making to amend these regulations (45 CFR Part 166) was published in the FEDERAL REGISTER on May 31, 1974, at 39 FR 19223, and a public hearing was held on July 2, 1974 in Washington, D.C. However, following the public hearing and before final regulations could be published in the FEDERAL REGISTER, the Education Amendments of 1974 (Pub. L. 93-380) were enacted. Inasmuch as the Education Amendments of 1974 authorize new provisions under the Adult Education Act, this Notice of Proposed Rule Making contains both the final changes resulting from the section 503 study and the new provisions of Pub. L. 93-380, and it supersedes and replaces the Notice of Proposed Rules published in the FEDERAL REGISTER on May 31, 1974.

The following comments were submitted either in writing or at the July 2 public hearing in response to the proposed rules issued as a result of the section 503 study. After the summary of each comment, a response is set forth stating the changes which have been made in the regulations or the reasons why no change is deemed necessary or appropriate. The comments are grouped based upon the section of the regulations proposed to be affected, with sections affected arranged in sequence.

(a) Section 166.13 *Development of program policies, procedures and criteria. Comment.* A commenter expressed concern that some of the programs listed in this section are no longer in existence.

Response. Some of the programs which no longer exist are listed in section 306(a)(5) of the Act and therefore cannot be changed without an amendment to the legislation. Thus no change is necessary.

(b) Section 166.14(b) *Certification of the State's Attorney General. Comment.* A commenter inquired: Is the Attorney General acting on behalf of the State when he certifies that a State will comply with the ten percent matching requirement?

Response. The Attorney General of a State certifies for only those items contained in § 166.14(b) of the proposed regulations, which does not include a certification of compliance with the ten percent matching requirement. The State official who is authorized to sign the State-Federal Agreement assures that the responsible State Agency (which is designated in the certification of the Attorney General) will comply with applicable regulations and thereby assures that the State agency will comply with the non-Federal share requirement, as specified in § 166.43(b) of these regulations. Thus no change is necessary.

(c) Section 166.15 *Amendment of State Plan. Comment.* A commenter suggested that if a State submits an amendment to its State plan and the Office of Education takes no action on the amendment within 40 working days, that approval of the amendment to the plan is automatic as far as the State is concerned.

Response. The procedure suggested is not in line with departmental policy and would require a change in the legislation which gives the Commissioner authority to approve State plans and amendments thereto. Thus no change is necessary.

(d) Section 166.42 *Limitation on administrative expenses.*

Comment. One commenter was concerned that this section "interprets the Act in such a way as to limit State administrative expenditures for the program to no more than five percent of the amount granted to the State under section 313(a) of the Adult Education Act." This interpretation says that it was the intent of Congress to apply the five percent limitation for administration (as authorized in section 313(b) of the Act) to program funds provided under section 313(a).

Response. After reexamination of the interpretation contained in § 166.42, it is our opinion that Congress intended for one appropriation under section 313 of the Act to provide for all provisions contained therein. The language contained in § 166.42 of the attached proposed rules has been changed to read as follows:

> The U.S. Commissioner of Education shall determine annually (based upon the amounts so appropriated for this purpose or, in the absence of such appropriation, in amounts based upon the funds appropriated pursuant to section 313(a) and the limitation prescribed in section 313(b) of the Act) the maximum allowable amount awarded pursuant to section 313(b) of the Act. The non-Federal share of funds available under the State plan may also be utilized to pay such administrative costs.

Comment. A commenter suggested that without an appropriation for States to pay the cost of administration and the development of plans and other activities that are delineated in the law, the five percent limitation on administrative costs should not be incorporated into the rules and regulations.

Response. The limitation on expenditures for administration of State plan programs is required under section 313(b) of the Act and therefore must be adhered to in the regulations.

(e) Section 166.45 *Tuition and fees. Comment.* A commenter questioned if this section means that persons enrolled in adult education programs at the secondary level can be required to pay tuition and fees for materials.

Response. The absence of provision for adult secondary education in this section was an omission. Section 166.46 has been amended to read as follows:

> Adults enrolled in adult basic education programs and adult secondary programs conducted under this part may not be charged tuition, fees, or any other charges, or be required to purchase any books or any other materials that are needed for participation in the program.

4. *New provisions enacted by the Education Amendments of 1974.* The Education Amendments of 1974 extend the authority of the Act to July 1, 1978, and provide the following new provisions:

(a) *Clearinghouse on Adult Education.* Section 309A of the Act provides for the establishment of a clearinghouse on adult education within the U.S. Office of Education. The clearinghouse will collect and disseminate information pertaining to the education of adults and adult education programs, together with ways of coordinating adult education programs with manpower and other education programs;

(b) *Transfer of section 309 authority to the States.* Beginning in fiscal year 1975, authority for the administration of section 309 of the Act was transferred from the U.S. Commissioner of Education to the State educational agencies. Of the funds allotted to any State under the Act for any given fiscal year, not less than 15 percent of such funds shall be used for special experimental demonstration projects and teacher training as prescribed by section 309;

(c) *Institutionalized persons.* Section 306(a)(1) of the Act provides that an amount not to exceed 20 percent of the total funds available for any given fiscal year to carry out the purposes of the Act may be used by the State educational agency for the education of institutionalized persons, as defined by § 166.2 of the proposed rules;

(d) *Program coordination.* Section 306(a)(6) of the Act provides for cooperation with manpower development and training programs and occupational education programs, and for coordination of programs carried out under this part with other programs, including reading improvement programs, designed to provide reading instruction for adults carried out by State and local agencies;

(e) *Adult secondary education.* Section 306(a)(7) of the Act provides that the State educational agency will make available an amount not to exceed 20 percent of the State's allotment for programs of equivalency or a certificate of graduation from a secondary school;

(f) *Bilingual adult education programs.* Section 306(a)(11) of the Act provides that special assistance be given to the needs of persons with limited English-speaking ability by providing bilingual adult education programs in which instruction is given in English and, to the extent necessary to allow such persons to progress effectively through the adult education program, in the native language of such persons;

(g) *State advisory councils.* Section 310A of the Act provides that any State may establish and maintain a State advisory council, or may designate and maintain an existing State advisory council on adult education. In order for such State advisory council to be eligible for support from Federal funds allotted to the State under the Act, the Commissioner must certify that the council is in compliance with the requirements set forth in section 310A of the Act; and

(h) *Community school program.* The term "community school program" is defined as a program in which a public building, including but not limited to a public elementary or secondary school or a community or junior college, is used as a community center operated in conjunction with other groups in the community, community organizations, and local governmental agencies, to provide educational, recreational, cultural, and other related community services for the community that center serves in accordance with the needs, interests, and concerns of that community."

5. *Effect of Office of Education General Provisions Regulations.* These proposed regulations differ from the earlier proposed regulations in that they omit provisions relating to general fiscal and administrative matters which are covered under the overall Office of Education General Provisions Regulations, published in the FEDERAL REGISTER on November 6, 1973 at 38 FR 30654 in connection with the same study under section 503 of the Education Amendments of 1972 of which this publication is a part. (Reference is made in particular to the provisions of Part 100b of Title 45 Code of Federal Regulations containing general provisions for State-administered programs, including civil rights assurances contained in § 100b.262, which are applicable to the State-administered programs under the Adult Education Act.)

6. *Priorities for programs of national significance.* Based on the findings of surveys and studies conducted by the U.S. Office of Education, recommendations of the National Advisory Council on Adult Education, and on evaluations by State educational agencies, the Commissioner has suggested that the priorities set forth in Appendix B of this part merit special consideration by the States in planning activities to meet the special project and personnel training needs of their adult education programs.

7. *Citations of legal authority.* As required by section 431(a) of the General Education Provisions Act (20 U.S.C. 1232(a)) and section 503 of the Education Amendments of 1972, a citation of statutory or other legal authority for each section of the regulations has been placed in parentheses on the line following the text of the section.

On occasion, a citation appears at the end of a subdivision of the section. In that case the citation is to all that appears in that section between the citation and the next preceding citation. When the citation appears only at the end of the section, it applies to the entire section.

8. *Technical changes.* Certain minor technical and clarifying changes were also made in the proposed rules.

9. *Written comments.* Interested parties are invited to submit written comments and suggestions to the U.S. Office of Education, 400 Maryland Avenue, SW., Federal Office Building 6, Room 2085, Washington, D.C. 20202, Attention: Chairman, Office of Education Task Force on Rules and Regulations. All relevant materials must be received not later than February 20, 1975.

(Catalog of Federal Domestic Assistance Program No. 13.400, Adult Education—Grants to States)

Dated: December 23, 1974.

T. H. BELL,
U.S. Commissioner of Education.

Approved: January 13, 1975.

CASPER W. WEINBERGER,
Secretary of Health, Education, and Welfare.

PART 166—STATE ADULT EDUCATION PROGRAMS

Subpart A—General

Sec.
166.1 Purpose, scope, and other references.
166.2 Definitions.

Subpart B—State Advisory Councils
166.4 Establishment and certification.
166.5 Membership.
166.6 Functions and responsibilities.
166.7 Meetings and rules.
166.8 Staff.
166.9 Compensation.
166.10 Allowable costs.

Subpart C—State Plan Provisions
166.11 State plan; general.
166.12 Annual program plan for use of grants.
166.13 Development of program policies, procedures, and criteria.
166.14 Certification of State plan.
166.15 Amendment of State plan.
166.16 Approval of State plan.

Subpart D—Special Experimental Demonstration Projects and Teacher Training
166.21 Applicability.
166.22 Eligible projects.
166.23 Eligible applicants.
166.24 Project applications.
166.25 Establishment of national priorities in adult education.
166.26 Program evaluation procedures.
166.27 Allowable costs.
166.28 Stipends and travel allowances for teacher training participants.
166.29 Reporting requirements for special projects and teacher training.
166.30 Dissemination of results of projects.

Subpart E—Federal Financial Participation
166.41 Use of Federal funds.
166.42 Limitation on administrative expenses.
166.43 Federal and non-Federal share of expenditures.
166.44 Use of funds for sectarian or religious purposes.
166.45 Tuition and fees.

Subpart F—Payments and Reports
166.51 Conditions for payments to States.
166.52 Reports.

APPENDIX A: Cover Sheet and State-Federal Agreement.
APPENDIX B: Priorities for Programs of National Significance.

AUTHORITY: Secs. 302-314 of Pub. L. 89-750, as amended; 84 Stat. 159-164 (20 U.S.C. 1201-1211a), unless otherwise noted.

Subpart A—General

§ 166.1 Purpose, scope and other references.

(a) *Purpose.* The regulations in this part implement the provisions of the

V40114 JAN 21 75 XUM

Adult Education Act which provides Federal assistance to expand educational opportunity and encourage the establishment of programs of adult public education that will enable all adults to continue their education to at least the level of completion of secondary school thus making available the means to secure training that will enable them to become more employable, productive and responsible citizens.

(20 U.S.C. 1201)

(b) *Scope.* The regulations in this part cover grants to States for adult basic education, adult secondary education, and other adult education programs pursuant to section 304 of the Act.

(20 U.S.C. 1201)

(c) *General Education Provisions Regulations.* Assistance provided under this part is subject to applicable provisions contained in subchapter A of this Chapter (entitled "General Provisions for Office of Education Programs") relating to fiscal, administrative, property management and other matters, hereinafter called "General Education Provisions Regulations" (GEPR).

(20 U.S.C. 1201, 1221)

§ 166.2 Definitions.

The terms "adult," "adult education," "adult basic education," "community school program," "local educational agency," "State," "State educational agency," and "academic education," as used in this part, are defined in section 303 of the Act.

(20 U.S.C. 1202)

"Act," means the Adult Education Act.

(20 U.S.C. 1201 (note on short title))

"GEPR" means the "General Education Provisions Regulations" (entitled "General Provisions for Office of Education Programs"), which may be found in subchapter A of this Chapter.

The term "nonprofit," "private," and "public agency" as used in this part, are defined in § 100.1 of GEPR.

"Institutionalized person" means (1) an adult sixteen years of age or older who does not have a certificate of graduation from a school providing secondary education and is an inmate, patient, or resident of a penal institution, reformatory, residential training school, orphanage, or general or special institution, or hospital; or (2) an adult in a residential school for the physically or mentally handicapped.

The term "limited English-speaking ability," when used with reference to adults, means adults who come from environments where a language other than English is dominant, and, by reason thereof, have difficulty speaking and understanding instruction in the English language.

(20 U.S.C. 880b-1)

"Institution of higher education" means an educational institution in any State which:

(a) Admits as regular students only individuals having a certificate of graduation from a high school, or the recognized equivalent of such a certificate;

(b) Is legally authorized within such State to provide a program of education beyond high school;

(c) Provides an educational program for which it awards a bachelor's degree, or provides not less than a two-year program which is acceptable for full credit toward such a degree, or offers a two-year program in engineering, mathematics, or the physical or biological sciences which is designed to prepare the student to work as a technician and at a semiprofessional level in engineering, scientific, or other technological fields which require the understanding and application of basic engineering, scientific, or mathematical principles or knowledge;

(d) Is a public or other nonprofit institution; and

(e) Is accredited by a nationality recognized accrediting agency or association listed by the Commissioner pursuant to this paragraph or, if not so accredited, is an institution whose credits are accepted, on transfer, by not less than three institutions which are so accredited, for credit on the same basis as if transferred from an institution so accredited: Provided, however, that in the case of an institution offering a two-year program in engineering, mathematics, or the physical or biological sciences which is designed to prepare the student to work as a technician and at a semiprofessional level in engineering, scientific, or technological fields which requires the understanding and application of basic engineering, scientific or mathematical principles or knowledge, if the Commissioner determines that there is no nationally recognized accrediting agency or association qualified to accredit such institutions, he shall appoint an advisory committee composed of persons specially qualified to evaluate training provided by such institutions, which shall prescribe the standards of content, scope, and quality which must be met in order to qualify such institutions to participate under this Act and shall also determine whether particular institutions meet such standards. For the purpose of this paragraph the Commissioner shall publish a list of nationally recognized accrediting agencies or associations which he determines to be reliable authority as to the quality of education or training offered.

(20 U.S.C. 801; 20 U.S.C. 1202)

Subpart B—State Advisory Councils

§ 166.4 Establishment and certification.

(a) *Establishment.* Each State which receives funds under section 304 of the Act and the regulations in this part for any fiscal year may establish and maintain a State advisory council, or may designate and maintain an existing State advisory council, which shall be, or has been, appointed by the Governor or, in the case of a State in which members of the State board which governs the State education agency are elected (including election by the State legislature), by such board.

(b) *Certification.* The State educational agency shall notify the U.S. Commissioner of Education of the establishment of, and membership of, its State advisory council. The notification shall be attached to the State plan or be submitted as an amendment thereto in such cases where an advisory council is established after the State plan has been approved. Such notification shall include the name, education, experience, and current position of each person serving on the State advisory council and shall specify which interest under § 166.5 each person represents. Forms for the certification of State advisory councils may be obtained from the U.S. Office of Education, Division of Adult Education, Regional Office Building No. 3, 7th and D Streets, SW., Washington, D.C. 20202. Upon receiving such notification, the Commissioner shall, as appropriate, certify that each such council is in compliance with the membership requirements set forth in the Act and in this subpart.

(20 U.S.C. 1208b)

§ 166.5 Membership.

In order to effectively reflect the diverse interests and needs of the general public served by the Act, the membership of the State advisory council should include a significant proportion of women, the elderly, minorities, and educationally disadvantaged. The membership of the council shall also be organized to include:

(a) Persons who, by reason of experience or training, are knowledgeable in the field of adult education or who are officials of the State educational agency or of local educational agencies of that State;

(b) Persons who are receiving or have received adult educational services; and

(c) Persons who are representative of the general public.

(20 U.S.C. 1208b)

§ 166.6 Functions and responsibilities.

The State advisory council shall:

(a) Advise the State educational agency on the development and administration of the State plan approved pursuant to the Act and the regulations in this part;

(b) Advise the State educational agency on policy matters arising in the administration of the Act and the regulations in this part;

(c) Advise the State educational agency with respect to long-range planning;

(d) Advise the State educational agency with respect to studies for evaluating adult education programs, services, and activities assisted under the Act; and

(e) Prepare and submit to the State educational agency, the National Advisory Council on Adult Education, established pursuant to section 311 of the Act, and the U.S. Commissioner of Education, an annual report of its recommendations, accompanied by such additional comments of the State educational agency as that agency deems appropriate.

(20 U.S.C. 1208b)

§ 166.7 Meetings and rules.

Each State advisory council shall meet within 30 days after certification by the Commissioner and select from among its membership a chairman. The time, place, and manner of subsequent meetings shall be provided by the rules of the State advisory council. Such rules shall provide for not less than four meetings each year, including at least one public meeting at which the public is given the opportunity to express views concerning adult education.

(20 U.S.C. 1208b)

§ 166.8 Staff.

Each State advisory council is authorized to obtain the services of such professional, technical, and clerical personnel as may be necessary to enable it to carry out its functions under the act.

(20 U.S.C. 1208b)

§ 166.9 Compensation.

Members of the State advisory council and its staff, while serving on the business of the council, may receive subsistence, travel allowances, and compensation in accordance with State law, regulations, and practices applicable to persons performing comparable duties and services.

(20 U.S.C. 1208b)

§ 166.10 Allowable costs.

Costs incurred by State advisory councils established pursuant to section 310A of the Act are allowable expenditures of Federal funds granted to the States under section 304 of the Act and of the non-Federal share of State and local funds necessary to earn such Federal funds.

(20 U.S.C. 1203; 1208b)

Subpart C—State Plan Provisions

§ 166.11 State plan; general.

(a) *Purpose.* The purpose of the State plan is to provide a framework within which the State will encourage the establishment or expansion of programs to carry out the purpose set forth in § 166.1(a), and to provide the basis on which Federal payments to the State under this part are made. State agencies desiring to participate under the Act must submit a State plan in accordance with the requirements of the Act and the regulations in this part. Such plan shall include a description of the adult education needs of the State, services and activities to meet those needs, a schedule of implementation, and procedures for evaluating program effectiveness.

(b) *Format.* The State plan consists of the cover sheet and the State-Federal agreement (the texts of both are attached as Appendix A of these regulations). The annual program plan must be submitted annually to the U.S. Commissioner of Education through the appropriate Regional Director, Occupational and Adult Education Programs, and received by such Regional Director on or before June 30 of the fiscal year preceding that for which funds are sought.

(20 U.S.C. 1205a; 20 U.S.C. 1232c)

§ 166.12 Annual program plan for use of grants.

(a) *General.* (1) The State agency must develop, an annual program plan for establishing or expanding adult basic education programs, adult secondary education programs, and other adult education programs to be carried out by local educational agencies, and public and private nonprofit agencies in the State. The annual program must meet applicable requirements, including those set forth in the Act, section 434(b)(1)(B) of the General Education Provisions Act, the regulations in this part, the GEPR contained in Subchapter A of this Chapter, and the State-Federal agreement contained in Appendix A of this part, and must be developed and operated in accordance with the policies, procedures and criteria established by the State pursuant to §§ 166.12(b) and 166.13.

(2) The annual program plan must be revised each year to reflect proposed activities for the ensuing fiscal year, and must be submitted to the U.S. Commissioner of Education for approval in accordance with the requirements set forth in section 434(b)(1)(A) of the General Education Provisions Act.

(b) *Content.* (1) The annual program plan must contain a statement of the policies, procedures and criteria to be followed by the State agency in approving local educational agency, and public and private nonprofit agency programs which will assure substantial progress in the establishment or expansion of adult basic education, adult secondary education programs, and other adult education programs.

(2) The annual program plan shall set forth the policies, procedures and criteria to be used by the State educational agency to administer section 309 of the Act. The State plan shall include such criteria and procedures for each of the following functions:

(i) Announcement of the availability of Federal funds for special projects and teacher training to assure free competition in the award of such funds;

(ii) Establishment of statewide priorities in adult education;

(iii) Criteria for the review of special projects and teacher training applications;

(iv) Procedures for submission of applications;

(v) Criteria for the establishment of application review panels, if such panels are to be used;

(vi) Criteria for the selection of participants for teacher training projects;

(vii) Procedures for the disposition of applications;

(viii) Procedures for hearings, as required by section 425 of the General Education Provisions Act;

(ix) Program evaluation procedures;

(x) Allowable costs;

(xi) Provisions for stipends and travel allowances for teacher training participants;

(xii) Report requirements; and

(xiii) Procedures for the dissemination of project results.

(3) The information to be provided in the annual program plan, in accordance with paragraphs (b) (1) and (2) of this section, shall be in sufficient detail that it will be possible for the U.S. Commissioner of Education to determine if the provisions of the Act and these regulations are being administered in an efficient and prudent manner, and to determine whether and to what extent substantial progress (with respect to all appropriate segments of the adult population in need of adult education, including institutionalized persons and persons of limited English-speaking ability) is being made in meeting the educational needs of adults in all areas of the State.

(4) The annual program plan shall describe procedures which will be used for conducting an annual evaluation of the activities which shall be carried out in the year for which funds are sought. Such annual evaluation should be conducted either by the State agency or by other parties. A copy of any reports of such evaluations shall be sent to the U.S. Commissioner of Education. Results of the evaluation must also be reflected, as appropriate, in the performance report which must be submitted annually with the Financial Status Report in accordance with Subpart P of the GEPR.

(20 U.S.C. 1205(a); 45 CFR Part 100b; Subpart P)

(c) *Programs.* Funds available under this part may be used to assist in establishing or carrying out adult basic education programs and programs of high school equivalency or for a certificate of graduation from a secondary school. The total annual expenditure of funds available under this part for adult secondary education shall in no event exceed 20 percent of the total annual allotment of Federal funds granted to the State under section 304 of the Act. No limitation is made on the amount of State and local funds (including those State and local funds that are necessary to earn such Federal funds) that may be used by the State for adult secondary education programs. For example, a State's Federal allotment is $100,000. The State must not use more than $20,000 (20% of $100,000) of this Federal allotment for adult secondary education. The State may add any amount of its own funds to the $20,000 for adult secondary education programs.

(d) *Programs for institutionalized persons.* Each State educational agency may use not more than 20 percent of the total funds available for any fiscal year (including State and local funds necessary to earn Federal funds, and including any funds brought forward from the prior year allotment) under this part for establishing and carrying out adult basic education programs and adult secondary education programs for institutionalized adults. For example, a State's Federal

V4014 JAN21 75 XUM

allotment is $100,000. The State matches with $10,000 for its adult education program. The State must not use more than $22,000 of its total adult education funds (20% of $110,000) for carrying out programs for institutionalized adults.

(e) *Bilingual adult education programs.* The State educational agency shall be responsible for providing bilingual adult education programs for persons of limited English-speaking ability (as defined in § 166.2) of this part by providing bilingual adult education programs in which instruction is given in English and, to the extent necessary to allow such persons to progress effectively through the adult education program, in the native language of such persons.

(20 U.S.C. 1201, 1203(b), 1205(a); Senate Report No. 634, 91st Congress, 2nd Sess., p. 71 (1970); 20 U.S.C. 1232, 1231b-2; 20 U.S.C. 880b-1)

§ 166.13 Development of program policies, procedures and criteria.

In developing the policies, procedures and criteria referred to in § 166.12(b)(1), the State agency must give consideration to such factors as to whether and to what extent a program:

(a) Will serve adults, including institutionalized persons and persons with limited English-speaking ability, in those geographic areas of the State which have high concentrations of adults in need of basic education;

(b) Will serve adults with the greatest basic educational deficiencies which are impairing their ability to obtain employment and become more productive and responsible citizens;

(c) Will provide special assistance for persons of limited English-speaking ability by providing bilingual adult education programs in which instruction is given in English and to the extent necessary to allow such persons to progress effectively through the adult education program, in the native language of such persons. The bilingual adult education programs shall be carried out in coordination with programs of bilingual education assisted under Title VII of the Elementary and Secondary Education Act of 1965, as amended, and bilingual vocational education programs under the Vocational Education Act of 1963, as amended;

(d) Will meet the need for adult secondary programs in the State to the fullest extent possible with funds provided by the Act and set forth in § 166.12(c) of these regulations;

(e) Has been planned and will be conducted in cooperation with Community Action programs, Work Experience programs, VISTA, Work-Study programs, programs designed to provide reading instruction for adults, and other programs relating to the antipoverty effort;

(f) Has been planned and will be conducted in cooperation with manpower development and training programs, including programs under the Comprehensive Employment and Training Act (CETA), and occupational education programs;

(g) Has been planned and will be conducted in cooperation with other State and local community school programs, consumer education programs, career education programs, metrication education programs for adults, equal education programs for women, bilingual instructional programs for persons with limited English-speaking ability, and with agencies responsible for institutionalized persons;

(h) Will provide health information and services, to the extent available, through cooperative arrangements with State health authorities and will further the cooperative arrangements between the State educational agency and the State health authority for the use of such information and services;

(i) Incorporates the results of research or techniques which have proven to be effective;

(j) Incorporates innovative or imaginative instructional methods; and

(k) Is desirable in light of the findings and recommendations of recent independent evaluation reports available to or sponsored by the State agency.

(20 U.S.C. 1205(a); 20 U.S.C. 880b-1)

§ 166.14 Certification of State plan.

(a) *Certification by State Education Agency.* The annual State plan and any amendments thereto, as required by §§ 166.12 and 166.15, shall include an attachment, executed by the authorized official of the State educational agency to submit the State plan, which certifies to the effect that: (1) The plan or amendment has been adopted by the State educational agency, and (2) the plan, or plan as amended, will constitute the basis for operation and administration of the adult education program in which Federal financial participation will be made. The State educational agency shall provide for a review of the State plan by the State advisory council, if such council exists, and for a review at a scheduled public meeting.

(20 U.S.C. 1205(a))

(b) *Certification by the State's Attorney General.* The State plan and all amendments thereto shall include a certification by the State's Attorney General, or other official designated in accordance with State law to advise the State agency on legal matters, that all plan provisions and amendments thereto are consistent with State law. The Attorney General must further certify (a) the official title of the officers authorized to submit the State plan; (b) that the State agency named in the plan has authority under State law to submit the State plan; and (c) that the State Treasurer (or, if there should be no State Treasurer, the officer identified by title exercising similar functions for the State) has authority under State law to receive, hold, and disburse Federal funds under the State plan.

(20 U.S.C. 1205(a))

§ 166.15 Amendment of State plan.

(a) Budget revisions must be made in accordance with GEPR § 100b.29.

(b) The State plan must also be amended as necessary to reflect any change in organization or operation which results from an amendment of State or Federal laws and policies, and to show any other changes in the designation or organization of operations, policies, and methods of administration to be followed by the State. Notification of such amendments will be submitted and certified in the same manner as the State plan.

(20 U.S.C. 1205(a); 20 U.S.C. 1232c(b))

§ 166.16 Approval of State plan.

(a) *Governor's comments.* The State educational agency must afford the Governor of such State an opportunity to comment upon the State plan or any amendment thereto in accordance with GEPR § 100b.15 and assurance (13) of the State-Federal agreement contained in Appendix A to the regulations in this part.

(20 U.S.C. 1205(a))

(b) *Approval by the Commissioner.* The Commissioner will not approve a State plan or amendment thereto unless he determines that the plan or amendment complies with all applicable requirements. The Commissioner will not finally disapprove a State plan or any modification thereof without first affording the State reasonable notice and opportunity for a hearing.

(20 U.S.C. 1205(a) and (b))

Subpart D—Special Experimental Demonstration Projects and Teacher Training

§ 166.21 Applicability.

(a) The regulations in this subpart apply to Federal assistance provided by the State educational agency for special projects in adult education under subsection (1) and adult education personnel training under subsection (2) of section 309 of the Act.

(b) Assistance provided under this subpart is subject to applicable provisions contained in the Act, the regulations in this part, and the GEPR.

(20 U.S.C. 1208)

§ 166.22 Eligible projects.

The State educational agency shall establish and set forth in its annual program plan the policies and procedures under which it will use not less than 15 percent of the funds allotted to it for any given fiscal year under section 305 of the Act for special projects and teacher training, as prescribed by section 309 of the Act. The State educational agency shall use the 15 percent of each annual Federal allotment which is reserved for the purposes of section 309 of the Act to provide support for both special projects and teacher training programs. The distribution of such funds among special projects and teacher training shall be determined by the State educational agency in light of the overall objectives of its annual program plan.

(a) *Special projects.* From each annual Federal allotment to the State educational agency for the purposes of the Act, funds will be available under section 309(1) for special projects which:

(1) Involve the use of innovative methods, systems, materials, or programs which:

(i) may have national significance, or

(ii) may be of special value in promoting effective programs under the Act; or

(2) Involve programs of adult education which are part of a community school program, carried out in cooperation with other Federal, or federally assisted State or local programs which have unusual promise in promoting a comprehensive or coordinated approach to the problems of persons with educational deficiencies.

(b) *Teacher training.* From each annual Federal allotment to the State educational agency, funds will be available under section 309(2) of the Act to train persons engaged, or preparing to engage, as personnel in programs designed to carry out the purposes of this Act.

(20 U.S.C. 1208)

§ 166.23 Eligible applicants.

(a) *Special projects and teacher training.* Federal funds authorized for the purposes of section 309 of the Act may be used for grants, contracts, or other arrangements, if appropriate under applicable State laws, to provide support for special projects and teacher training. Eligible recipients include the following:

(1) State educational agencies;

(2) Local educational agencies;

(3) Public and private agencies, institutions, and organizations; and

(4) Individuals.

(20 U.S.C. 1208)

(b) *Ineligible applicants.* No funds may be used from the State's allotment under this part for programs conducted by any school or department of divinity, as defined in section 312 of the Act.

(20 U.S.C. 1210)

§ 166.24 Project applications.

(a) Funds to support special projects and teacher training under section 309 of the Act will be available from the appropriate State educational agency. Information on policies and procedures for applying for such support may be obtained from the State educational agency.

(b) In its use of section 309 funds, the State educational agency may not assign any part of its responsibility to another agency. This does not, however, prevent a State agency from exercising its authority under the Act to coordinate activities with other Federal, or federally assisted, State and local programs, nor prevent two or more applicants in one or more States from conducting a joint program or project (including a planning project) through a combined use of funds made available to them.

(c) A State educational agency may award funds under section 309 of the Act to eligible applicants outside the boundaries of the State if such an award is deemed to be in the best interest of the State in meeting the purposes of the Act.

(20 U.S.C. 1208)

§ 166.25 Establishment of national priorities in adult education.

Based on the findings of surveys and studies conducted by the U.S. Office of Education, recommendations of the National Advisory Council on Adult Education, and on evaluations by State educational agencies, and State advisory councils, if such councils exist, the U.S. Office of Education will review and identify, for the guidance of the State educational agencies, national priorities annually in the field of adult education and, as necessary, will publish current priorities in the FEDERAL REGISTER. The State educational agency may take these priorities into consideration for its guidance in the development of its annual program of priorities and objectives under the State plan. Each State is requested in its annual program plan to indicate how the priorities established by the State agency related to the published national priorities. Such national priorities are contained in these regulations as Appendix B.

(20 U.S.C. 1208)

§ 166.26 Program evaluation procedures.

(a) The State educational agency shall set forth in its annual program plan the procedures that it will follow for obtaining an independent third party evaluation of each program or project funded under section 309 of the Act.

(b) Each program or project supported under section 309 of the Act shall be evaluated annually, if appropriate, by an independent third party, and a report of each such evaluation shall be submitted to the U.S. Commissioner of Education within 60 days after the end of the fiscal year.

(20 U.S.C. 1208)

§ 166.27 Allowable costs.

(a) Allowable costs of programs and projects funded under section 309 of the Act shall be in accordance with § 100b, Subpart G, and Appendix B, C, or D (as appropriate) of GEPR.

(b) With respect to teacher training programs under section 309(2) of the Act, only those allowances which are provided for in applicable State law, policies and procedures, and under the provisions of Subpart G and Appendix B, C, or D (as appropriate) of GEPR may be included as direct costs of the project.

(20 U.S.C. 1208; 45 CFR 100b)

§ 166.28 Stipends and travel allowances for teacher training participants.

Participants in teacher training programs funded under section 309 of the Act and these regulations may receive support and travel allowances. Such support and travel allowances, if paid, shall be in accordance with State law, policies and procedures.

(20 U.S.C. 1208)

§ 166.29 Reporting requirements for special projects and teacher training.

In order for the State educational agency to comply with Federal reporting requirements, as set forth in § 166.52 of these regulations, and Subparts P and Q of 45 CFR 100b, recipients of funds administered under section 309 of the Act shall submit, as a condition of funding, such reports as the State educational agency deems necessary.

(20 U.S.C. 1205(a), (8))

§ 166.30 Dissemination of results of projects.

(a) The State educational agency shall develop and set forth in its annual program plan procedures for providing a copy of final reports and evaluation reports of special projects and teacher training programs supported under section 309 of the Act to:

(1) The U.S. Commissioner of Education; and

(2) The U.S. Office of Education, Clearinghouse on Adult Education.

(b) Except for the requirements contained in paragraphs (a) (1) and (2) of this section, it shall be the responsibility of the State educational agency to distribute (as the State agency deems appropriate) the results of projects supported under section 309 of the Act.

(20 U.S.C. 1208-1)

Subpart E—Federal Financial Participation

§ 166.41 Use of Federal funds.

All Federal funds (and State or local funds necessary to earn such Federal funds) must be expended in accordance with applicable requirements and only for programs, services, and activities related to adult education. The annual program plan shall set forth a program for the use of grant funds which affords assurance that in all areas of the State, special emphasis will be given to adult basic education needs in accordance with the policies, procedures, criteria and considerations established in accordance with §§ 166.12(b) and 166.13.

(20 U.S.C. 1205(a))

§ 166.42 Limitation on administrative expenses.

The U.S. Commissioner of Education shall determine annually (based upon the amounts so appropriated for this purpose or, in the absence of such appropriation, in amounts based upon the funds appropriated pursuant to section 313(a) and the limitation prescribed in section 313(b) of the Act) the maximum allowable amount awarded pursuant to section 313(b) of the Act. The non-Federal share of funds available under the State plan may also be utilized to pay such administrative costs.

(20 U.S.C. 1211)

§ 166.43 Federal and non-Federal share of expenditures.

(a) *Federal share.* The Federal share of expenditures incurred under the State plan and payable to a State from its allotment shall not exceed 90 per centum, except that with respect to the Trust Territory of the Pacific Islands such Federal share shall be 100 per centum.

(20 U.S.C. 1206(a))

V40I14 JAN 21 75 XUM

(b) *Non-Federal share.* The non-Federal share of expenditures under the State plan shall be the difference between the Federal share meeting the requirements of paragraph (a) of this section and the total expenditures for the purposes for which the Federal share is paid. The non-Federal share of expenditures under the State plan may be computed on a statewide basis and may come from any source other than Federal assistance for a specific purpose so long as such expenditures are made in furtherance of the purposes of the State plan approved under this part and do not inure to the personal benefit of any donor. The criteria and procedures for determining the allowability and valuation of inkind contributions applicable to State agencies for the purpose of meeting the non-Federal share are included in Subpart H of Part 100b of the GEPR.

(20 U.S.C. 1206(a))

§ 166.44 Use of funds for sectarian or religious purposes.

No payment may be made from a State's allotment under the Act for any program, service, or activity related to sectarian instruction or religious worship, or provided by a school or department of divinity, as defined in section 312 of the Act. An institution which has a school, branch, department, or other administrative unit within the definition of "school or department of divinity" is not precluded for that reason from participating in programs, services, or activities under this part if the program is not offered by that school, branch, department, or administrative unit and, as in all other cases, the program, service, or activity is not related to sectarian instruction or religious workship.

(20 U.S.C. 1212)

§ 166.45 Tuition and fees.

Adults enrolled in adult basic education and adult secondary programs conducted under this part may not be charged tuition, fees, or any other charges, or be required to purchase any books or any other materials that are needed for participation in the program.

(20 U.S.C. 1203(b), 1205(a)(1); 45 CFR 100b, Subpart G)

Subpart F—Payments and Reports

§ 166.51 Conditions for payments to States.

(a) *Approved State plan.* Payments to States under the Act will be made only after the Commissioner has approved the State plan submitted in accordance with the requirements of the Act, these regulations, and GEPR.

(b) *Maintenance of effort.* The State shall certify to the Commissioner that there will be available for expenditure by the State, including its political subdivisions, for adult education from non-Federal sources during the fiscal year for which the allotment is made an amount equal to not less than the total amount expended for such purposes from such sources during the preceding fiscal year. No State will be required to use its funds to supplant any portion of the Federal share.

(20 U.S.C. 1206)

§ 166.52 Reports.

(a) *Financial reports.* The State agency shall submit financial reports annually, 90 days after the end of the grant year, in accordance with Subpart P of Part 100b of the GEPR.

(b) *Performance reports.* The State agency shall submit performance reports annually, 90 days after the end of the fiscal year, in accordance with Subpart Q of Part 100b of the GEPR.

(c) *Independent evaluations.* The State shall forward to the Commissioner a copy of any independent evaluations of projects and programs (including projects under section 309 and programs of instruction under section 306 of the Act). Each such evaluation shall include a summary of its operation, objectives, conclusions, or any studies of a similar nature which may be sponsored by the State agency, in addition to and including those conducted and submitted in accordance with § 166.12(b)(2).

(d) *Other reports.* (1) Within 15 days after the State agency's approval of a project under section 306(a)(4) and section 309 of the Act for special projects, teacher training, and research, the State agency shall forward to the Commissioner an informational copy of the approved proposal for which the award was made. The State agency shall submit to the Commissioner, within 120 days after completion of the project, copies of final reports of programs or projects conducted by awardees under section 306(a)(4) and section 309 of the Act;

(2) The State educational agency shall submit, within 60 days after the end of any fiscal year, a report on the use of Federal funds as required by section 437(a) of the General Education Provisions Act;

(3) The State educational agency shall provide, in accordance with section 424 of the General Education Provisions Act a compilation of all inovative projects for each fiscal year in which funds under sections 306(a)(4) and 309 of the Act are used to carry out such programs. Such compilation shall be indexed according to subject, descriptive terms, and location. Such indexing shall be in accordance with guidelines to be provided by the U.S. Office of Education, Clearinghouse on Adult Education; and

(4) The State educational agency shall submit along with its annual program plan a copy of any adult education legislation enacted by the State and a summary of the approved level of funding for each by fiscal year.

State Plan

(State-Federal Agreement)

Adult Education Act, as Amended

(Public Law 91-230)

The _____
(Officially designated State agency)

of the State of _____, hereinafter called the State Agency, hereby agrees and assures that this State Plan which serves as an agreement between State and Federal Governments under the Adult Education Act, will be administered in accordance with the following provisions:

(1) The State Agency will provide for such methods of administration, as are necessary to assure proper and efficient administration of the program authorized by the Act; and has adequate fiscal and legal authority to do so (a certificate of legal authority in compliance with § 166.14 must be attached;

(20 U.S.C. 1202(g) and 1205(2)(9))

(2) The State Agency has entered into cooperative arrangements with the State Health Authority, authorizing the use of such health information and services for adults as may be available from such authorities and as may reasonably be necessary to enable them to benefit from the instruction provided pursuant to the Act;

(20 U.S.C. 1205(a)(3))

(3) The State Agency will provide support to local educational agencies, and public and private nonprofit agencies for special projects, teacher training, and research projects;

(20 U.S.C. 1205(a)(4))

(4) The State Agency will provide for cooperation with Community Action programs, Work Experience programs, VISTA, Work-Study programs, programs designed to provide reading instruction for adults, and other programs relating to the antipoverty effort;

(20 U.S.C. 1205(a)(5))

(5) The State agency will provide for cooperation with manpower development and training programs, including programs under the Comprehensive Employment and Training Act (CETA), and occupational education programs;

(20 U.S.C. 1205(a)(6))

(6) The State Agency will make such reports, including reports of evaluations, in such form and containing such information as the Commissioner may reasonably require to carry out his functions under the Act, and to determine the extent to which funds provided under the Act have been effective in carrying out its purpose;

(20 U.S.C. 1205(a)(8))

(7) The State Agency will keep such records and afford such access thereto as the Commissioner may find necessary to assure the correctness and verification of all reports submitted to him;

(20 U.S.C. 1205(a)(8))

(8) The State agency has provided for such fiscal control and fund accounting procedures as will assure proper disbursement of, and accounting for, Federal funds paid to the State under the Act (including any funds paid by the State to local educational agencies and public and private nonprofit agencies under this State plan);

(20 U.S.C. 1205(a)(12))

(9) The State Agency will ensure that special emphasis will be given to adult basic education programs;

(20 U.S.C. 1205(a)(10))

(10) The State Agency will provide such further information and assurances as may be required by applicable regulations;

(20 U.S.C. 1205(a)(12))

(11) The State Agency, including its political subdivisions, has available from non-Federal sources for expenditure for adult education, in the fiscal year for which the allotment is made, an amount not less than the amount expended for such purpose from such sources during the preceding fiscal year;

(20 U.S.C. 1206(b))

(12) (a) The State Agency assures that the program will be conducted in compliance with all requirements imposed by or pursuant to the regulations in 45 CFR Part 80 to effectuate the provisions of Title VI of the Civil Rights Act of 1964 (Pub. L. 88-352);

(b) The State Agency was submitted or is hereby submitting as an attachment to this agreement the methods of administration to give reasonable assurance that the applicant and all recipients of Federal financial assistance under the State plan will comply with all requirements imposed by or pursuant to the regulations in 45 CFR Part 86 (prohibition of sex discrimination) Title IX of the Education Amendments of 1972 (Public Law 92-318);

(42 U.S.C. 2000d; P.L. 92-318, Title IX)

(13) The State plan has been submitted to the Governor for review; and his/her comments (or a statement that no comments have been made) will be attached to the annual program plan. Any amendments to this plan, as well as other periodic reports required under the program, if any, will be submitted for the Governor's review. The Governor's comments (or a statement that no comments were made) will accompany the materials when they are submitted to the U.S. Office of Education;

(20 U.S.C. 1205(a))

(14) Assurance is hereby given that the total annual expenditure of Federal funds for adult secondary education shall not exceed 20 percent of the total annual allotment granted to the State under section 305 of the Act;

(20 U.S.C. 1205(a)(7))

(15) Assurance is hereby given that special assistance will be provided for persons of limited English-speaking ability by providing bilingual adult education programs, in accordance with the criteria specified in § 166.12(e) of these regulations;

(20 U.S.C. 1205(a)(11))

(16) Assurance is hereby given that not more than 20 percent of the total funds available for expenditures for any fiscal year for the purposes of this Act shall be used for adult basic education and adult secondary education programs for institutionalized adults;

(20 U.S.C. 1205(a)(1))

(17) The program for the use of grants has been developed by the State Agency in accordance with section 306 of the Act and affords assurance for substantial progress with respect to all segments of the adult population and all areas of the State toward carrying out the purpose of the Act and applicable regulations;

(20 U.S.C. 1205(a)(1))

(18) The State Agency assures that it will not approve an application for a program of instruction unless it determines that the program will (a) utilize qualified administrative personnel and instructional staff, adequate facilities, equipment, materials, and guidance and counseling services; (b) provide for effective recruitment and retention of participants in adult education programs; and (c) provide for effective administration and supervision and assure efficient and economical operation in providing an adequate learning environment;

(20 U.S.C. 1205(a), 1232(c)(b))

(19) The State agency will submit for approval by the U.S. Commissioner of Education an annual program plan, in accordance with section 434(b)(1)(A)(V) of the General Education Provisions Act. Such annual program plan will include a certification by the State's Attorney General or other appropriate official, as specified in § 166.14 of the regulations.

Such program for use of grants is set forth in _____ which is

APPENDIX B

PRIORITIES FOR PROGRAMS OF NATIONAL SIGNIFICANCE

The Commissioner has suggested for the guidance of State educational agencies that the following priorities merit special consideration by States in meeting the special project and staff development needs of their adult education program.

1. *Dissemination in adult education.*

Administrators and practitioners of adult education have only limited means for learning of and assessing the kinds and quality of improved practices and products generated in adult education. Many States do not have a mechanism for systematic retrieval, review, assessment, and diffusion of improved practices and products. Without these capabilities, programs suffer from duplication of effort, lack of planning ability, and the continuation of traditional, non-progressive educational strategies.

Characteristics of such a mechanism include the ability to locate improved practices and products, identify specific users, disseminate the practices and products to these users, and provide training and technical assistance for adoption and implementation by local adult educators. A Statewide dissemination program would develop these capabilities as part of the overall State Department of Education concern and planning for dissemination in education. If no such effort is presently being undertaken by a particular State Department of Education, the adult education program could play an important leadership role in developing departmental interest in a Statewide dissemination system. It will also be useful for State systems to coordinate plans and activities with the U.S. Office of Education, Clearinghouse on Adult Education.

2. *Adult performance level implementation.*

By the end of fiscal year 1975, the Adult Performance Level (APL) test and objectives will be completed and available for implementation. States should plan to utilize section 309 and other funds in support of projects to conduct a Statewide literacy assessment and to develop instructional programs designed to meet APL objectives. Also encouraged are staff development or special projects which focus on the translation of APL objectives into curriculum and teacher competencies. Careful attention should be paid to the avoidance of overlap and duplication in these developments.

3. *Role of the employer in adult learning.*

At the 1974 Summer Commencement of Ohio State University, the President asked the students and faculty to help bring the domains of education, employment and labor closer together to foster a community of learning. A major aim of this endeavor is to release the intellectual energy of America's youth to stimulate greater productivity on and off the job.

Adult educators can assist this effort by developing programs which identify the educative aspects of work and which structure the work environment and personnel policies to facilitate adult learning and career development. This may require restructuring the responsibilities of the employee to provide opportunities to learn new knowledge and skills which will prepare the employee to assume more or different job responsibilities.

This concept assumes that the organization of production around learning experiences for employees will ultimately lead to increased cost effectiveness of that production system.

4. *Adult education staff development.*

As part of the continuing staff development effort, each region and State has developed an adult education staff development plan. It is recommended that each State continue the implementation of its plan, and carefully assess the desirability of supporting the continuation of a regional approach to staff development.

5. *Experimental and demonstration project continuation.*

States are encouraged to review current experimental and demonstration projects funded under Pub. L. 91-230 in fiscal year 1974 to determine the appropriateness of assuming support for those projects which are of significance to State Adult Education Programs.

■

INORGANIC ARSENIC

Proposed Exposure Standard

V40-14 JAN21 75 XUM

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[29 CFR Part 1910]

[Docket No. OSH-37]

STANDARD FOR EXPOSURE TO INORGANIC ARSENIC

Notice of Proposed Rulemaking

Pursuant to sections 6(b) and 8(c) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1593, 1599; 29 U.S.C. 655, 657), Secretary of Labor's Order No. 12–71 (36 FR 8754), and 29 CFR Part 1911, it is proposed to amend Part 1910 of Title 29, Code of Federal Regulations, by adding a new occupational safety and health standard for exposure to inorganic arsenic as § 1910.93r, and by deleting the present standards for arsenic and its compounds, calcium arsenate and lead arsenate, contained in Table G–1 of § 1910.93.

I. *Introduction.* The toxic effects of inorganic arsenic compounds on man, following oral ingestion, are well known. Some of the effects of acute inorganic arsenic poisoning are vomiting, nausea; diarrhea, irritation, inflammation and ulceration of the mucous membranes and skin; and kidney damage. Among the effects of chronic arsenic poisoning are increased pigmentation and keratinization of the skin, dermatitis, muscular paralysis, visual disturbances, and liver and kidney damage. Both acute and chronic poisoning by ingestion can lead to death.

Findings of excess cancer mortalities among worker populations exposed to airborne concentrations of various inorganic arsenic compounds have implicated inorganic arsenic as an occupational carcinogen. Results of a number of studies have shown sodium arsenite, arsenic trioxide, lead arsenate and calcium arsenate to be cancer-suspect agents (See Section III of this notice). Additionally, such effects as perforation of the nasal septum, conjunctivitis and dermatitis resulting from occupational exposure to airborne concentrations of inorganic arsenic compounds have been cited in the National Institute for Occupational Safety and Health (NIOSH) document, "Criteria for a Recommended Standard.—Occupational Exposure to Inorganic Arsenic."

In view of the observed effects and suspected carcinogenicity of these substances, the Occupational Safety and Health Administration (OSHA) has concluded that a comprehensive occupational health standard is needed to protect employees from the harmful effects of exposure to inorganic arsenic compounds.

In developing this proposed standard, OSHA has considered the NIOSH criteria document; written comments on the NIOSH document received in response to the OSHA advance notice of proposed rulemaking, published in the FEDERAL REGISTER on June 11, 1974 (39 FR 20494); recommended modifications of the criteria document, submitted by NIOSH on November 8, 1974; and the complete record of the fact-finding hearing announced in the FEDERAL REGISTER on August 30, 1974 (39 FR 31644) and held on September 20, 1974, including all of the evidence presented at the hearing and all written comments received prior to the close of the hearing record on October 20, 1974.

II. *Background.* Inorganic arsenic, for the purpose of this standard, is defined as arsenic and all inorganic compounds containing arsenic, except arsine. Elemental arsenic (As), a gray metalloid, is primarily found in the ores of metals such as copper, lead, zinc, gold and silver. Arsenic is also widely distributed, in small amounts, throughout the soils and waters of the world. Traces are found in foods, particularly seafood, and in some meats and vegetables.

Arsenic trioxide, the compound used in the synthesis of many other arsenic compounds, is released and obtained primarily as a by-product of the smelting of sulfide ores of copper, zinc or lead. The U.S. consumption of arsenic trioxide has been estimated at 25,000–30,000 tons annually.

Arsenic compounds are manufactured and used as herbicides and pesticides due to their toxic effects on plants and insects. Calcium arsenate and lead arsenate are two of the arsenicals commonly used as insecticides. Calcium, sodium, and zinc arsenites are used as herbicides for the control of weed growth. Arsenic acid is used as a defoliant and desiccant, e.g., in the treatment of cotton prior to machine picking.

In addition to agricultural uses, arsenicals are used in the production of glass, wood preservatives and nonferrous alloys. Small quantities are used in cattle and sheep-dips, pyrotechnics, pigments, poultry feed additives, pharmaceuticals, leather tanning, and anti-fouling paints.

History of the Standard. In 1943, the American Standards Association (now the American National Standards Institute or ANSI) proposed a standard for arsenic of not more than 0.015 milligrams elemental arsenic per cubic meter of air (mg As/cu m). However, by 1945, this standard was increased by a factor of ten to 0.15 mg As/cu m.

The American Conference of Governmental Industrial Hygienists (ACGIH) recommended a Maximum Airborne Concentration (MAC) of 0.1 mg As/cu m, in 1947. This was changed the following year to a Threshold Limit Value (TLV) of 0.5 mg As/cu m. It appears that this level was set to protect against the hazard of dermatitis from arsenic trioxide and without consideration for possible carcinogenicity.

The ACGIH has separate standards for lead arsenate and calcium arsenate. A limit for lead arsenate of 0.15 mg lead arsenate/cu m has remained in effect since 1957. (There are at least six forms of lead arsenate compounds, depending upon the molecular formula. The arsenic content (as As) can range from approximately 0.02 to 0.055 mg As/cu m.) According to ACGIH documentation, lead arsenate was considered to present the double threat of chronic toxicity due to its lead content and acute toxicity due to its arsenic content. The limit for calcium arsenate of 0.1 mg/cu m, adopted by ACGIH in 1957, was later changed to the present 1.0 mg calcium arsenate/cu m (equivalent to 0.38 mg As/cu m).

The present OSHA standard for "arsenic and its compounds" in Table G–1 of § 1910.93 is 0.5 mg As/cu m, as determined on an eight-hour time-weighted average basis. The present OSHA standards for lead arsenate and calcium arsenate are 0.15 mg/cu m and 1.0 mg/cu m, respectively. These levels were based on the 1968 ACGIH list of Threshold Limit Values for Chemical Substances and Physical Agents in the Workroom Environment (TLV's).

III. *Environmental and epidemiological studies.* Historically, attention has focused upon issues concerning the specific toxicity of arsenic compounds, the overall toxic mode of respiratory versus skin effects, the lack of animal toxicity data and the question of carcinogenicity. These differences in emphasis are evidenced by the wide variation and numerous changes in the threshold limit values for inorganic arsenic compounds. NIOSH attempted to clarify these issues with an examination of the available studies on various inorganic arsenic compounds (except lead arsenate and arsine) in the criteria document submitted to OSHA in January, 1974.

The first significant study involved a two-part investigation of the worker population of an English factory which manufactured a sodium arsensite sheep dip. The first part of the study, reported by Hill and Fanning, compared mortality data of the factory worker population with that of workers in other occupations in the same community, during the years 1910 to 1943. Hill and Fanning reported 22 cancer deaths (29.3 percent) among 75 deceased factory workers as compared to 157 cancer deaths (12.9 percent) among 1,216 deceased workers from other occupations in the community. The excess of cancer deaths due to cancer of the respiratory system was 31.8 percent for the sodium arsenite workers, compared to 15.9 percent for the control group, and 13.6 percent from skin cancer as compared to 1.3 percent for the general population.

The second part of the study, by Perry et al., consisted of a clinical and environmental investigation of the same factory during 1945 and 1946. Although the study was limited in scope and design, Perry's results showed some correlations between the levels of arsenic found in the hair and urine of workers and the levels of airborne arsenic contamination to which workers were exposed.

Snegireff and Lombard (1951) conducted a statistical study of cancer mortality in the metallurgical industry. They concluded that the frequency of cancer deaths of all types among the employees of a plant handling arsenic trioxide was not significantly different from that of

the control population (a plant identical to the first except that it handled no arsenic trioxide). As a result of this lack of statistical significance, the authors concluded that arsenic trioxide was not carcinogenic.

However, NIOSH's evaluation of the Snegireff and Lombard data found the authors' conclusions to be of questionable validity. NIOSH's analysis revealed a large excess of lung cancer mortality in the worker populations for both plants, when the data were compared to the respiratory cancer death rates for the states in which the plants were located. NIOSH concluded that the authors should have placed more emphasis on the significance of the lung cancer data.

Further, NIOSH questioned the choice of control population. Since both plants were in the metallurgical industry and nearly identical, it may be assumed that both were metal smelters. Thus, based on the information available on the release of arsenic during the smelting of metal ores, there is a question as to whether the control population of employees was not, in fact, exposed to some arsenic trioxide. According to NIOSH, had a more suitable control population been chosen the excess of respiratory cancer might have been more readily apparent.

Pinto and McGill (1953) studied the effects of arsenic trioxide exposure in a copper smelter producing arsenic trioxide as a by-product. Without the use of air measurements, Pinto and McGill divided the workers into "exposed" and "nonexposed" groups. The authors measured the workers' urinary arsenic levels and noted that the urinary arsenic levels for those "nonexposed" averaged 0.13 milligrams of arsenic per liter (mg As/l) while those "exposed" averaged 0.82 mg As/l. As will be discussed below, the division of workers into the two exposure categories is questionable. The authors concluded that arsenic trioxide dust produced an irritant effect on body surfaces, but that systemic toxicity from inhalation was rare.

Milham and Strong, who measured urinary arsenic levels of residents downwind from the smelter studied by Pinto and McGill, found that the residents' urinary arsenic levels decreased with the distance from the smelter. Milham and Strong also collected samples of vacuum cleaner dust and reported that arsenic content of the dust declined from a high of 1300 parts per million parts of dust (ppm) at a distance of 0 to .4 mile from the smelter to 70 ppm at a distance of 2.0 to 2.4 miles. This would suggest that arsenic exposure was not confined to only one section of the smelter, but extended to the surrounding community. Thus, the "nonexposed" control group of smelter workers very likely also had a significant degree of arsenic exposure.

In 1963, Pinto and Bennett analyzed the causes of death for 229 plant workers and pensioners at the same smelter investigated by Pinto and McGill. On the basis of the average urinary arsenic levels found in the Pinto and McGill study, Pinto and Bennett divided the working population into "exposed" and "nonexposed" groups. Pinto and Bennett concluded that arsenic exposures had no significant effect on the amount of cancer mortalities observed in the plant workers as compared to the cancer mortality rates for the state as a whole. However, these findings have since been challenged.

NIOSH's evaluation of the Pinto and Bennett study showed an increase in lung cancer mortality. As noted above, the "nonexposed" workers probably had, in fact, been subjected to significant occupational exposures. When the "exposed" and "nonexposed" worker populations were combined, 18 lung cancer deaths were found where only 8.6 would have been expected. Further, Dr. Milham stated at the OSHA fact-finding hearing that he had found an additional seven lung cancer deaths among Pinto and Bennett's study population (See fact-finding hearing transcript, hereinafter refered to as FTR, pages 111–116). Combining the 18 lung cancer deaths with the seven additional cases, increases the lung cancer deaths among the workers in the smelter to three times the number expected.

Further, the excess lung cancer mortalities found in the analysis of the Pinto and Bennett study were confirmed by the findings of a study by Milham and Strong, who examined death certificates of former smelter workers who had worked in the same smelter studied by Pinto and Bennett. For the years between 1950 and 1971, 40 lung cancer deaths were found among former smelter workers, where only 18 would have been expected (P less than .001).

In 1969, Lee and Fraumeni, in an effort to clarify the role of arsenic in human carcinogenesis, studied and compared the mortality data of 8,047 white male smelter workers exposed to both arsenic trioxide and sulfur dioxide during 1938–1963, with that of a similar population in the same states. As of December 1963, of the 8,047 workers, 5,397 were known to be alive; 1,877 deceased; and 773 had status unknown. Hence, there were 1,877 observed deaths compared to 1,634 expected deaths (P less than 0.01). The authors divided the deceased workers by duration and degree of exposure to arsenic trioxide and sulfur dioxide. Excesses of lung cancer deaths were found to increase with increasing lengths of exposure to arsenic trioxide. These increases ranged from 2.03 to 4.7 times expected. These groups were further subdivided into "heavy," "medium," and "light" exposures to arsenic trioxide. Lung cancer mortalities for each group were found to increase with increasing degrees of exposure to arsenic trioxide.

Similarly, workers were grouped according to duration and degree of exposure to sulfur dioxide. Again, excess lung cancer mortality was found with increasing exposure to sulfur dioxide. The greatest excesses of lung cancer were found among workers exposed to high concentrations of arsenic trioxide and medium or high concentrations of sulfur dioxide. Lee and Fraumeni concluded that their findings were "consistent with the hypothesis that exposure to high levels of arsenic trioxide, perhaps in interaction with sulfur dioxide or unidentified chemicals in the work environment, is responsible for the threefold excess of respiratory cancer deaths among smelter workers."

Animal Studies. In its criteria document, NIOSH evaluated 18 animal studies involving inorganic arsenic exposures. However, only two of these were studies of the effects of exposure to airborne concentrations, and neither of these studies were designed to observe lung cancer.

The first of these was an inhalation study, by Rozenshtein, on albino rats exposed to arsenic trioxide for 24 hours per day, for three months. The study was designed to observe the effects of atmospheric pollution. The second study, by Bencko and Symon, involved an evaluation of hairless mice exposed to fly ash containing .1% arsenic trioxide. The authors observed an accumulation of arsenic in the animals' livers and kidneys from exposures to the fly ash.

At the OSHA fact-finding hearing, Dr. Kraybill, of the National Cancer Institute, discussed the overall lack of carcinogenic animal data, and the important elements to be considered in evaluating animal studies. Of significance, Kraybill said, is the dose given the animal, the adequacy of the numbers of animals within the test and control groups to permit statistical evaluation of the data, and the time frame of the study.

Dr. Kraybill discussed the findings of 20 animal studies included in a review published by the International Agency for Research on Cancer. These studies were primarily concerned with routes of entry other than inhalation. Dr. Kraybill referred to two preliminary reports suggesting possible carcinogenic effects in mice exposed to sodium arsenate, potassium arsenate, and arsenic trioxide. However, Kraybill said that these studies were difficult to interpret and must await further confirmation. Kraybill commented, "Arsenic stands out as the one substance for which human carcinogenicity has been demonstrated, but for which an animal model has yet to be found to reproduce this effect." (FTR 36–40)

IV. *Recent studies and comments.* On July 8, 1974, in response to the Notice of Proposed Rulemaking, the Dow Chemical Company submitted a retrospective mortality study, by Ott et al., of the relationship between respiratory cancer and occupational exposure to dry arsenicals (FTR Exhibit #3). Arsenic trioxide was the compound used for the synthesis of the other dry arsenicals. Therefore, OSHA concludes that there may have been some worker exposure to arsenic trioxide as well as to the following dry arsenicals, listed by extent of production, over the 37-year period of the study: lead arsenate (59 percent), calcium arsenate (34 percent), copper aceto-arsenate (5 percent), and magnesium arsenate (2 percent).

The Dow study compared the proportionate mortality experience among the

V 4014 JAN 21 75 XUM

arsenic-exposed employees with the experience among nonexposed employees, for the period from 1919 to 1956. The exposed employee population included only those who had spent one or more days in the arsenical production area. The control group had never worked in the arsenic exposure area. Noteworthy was the fact that of the 173 deaths among exposed employees, 138 of these had worked in the exposure areas for a period of less than one year. Of these 138, 16 died of lung cancer. An increased percentage of cancer deaths was observed among the exposed (32.9 percent) versus the nonexposed (20.7 percent). The authors' analysis of the data indicated an approximate threefold increase in lung cancer for the exposed (16.2 percent) over the nonexposed (5.7 percent). Lymphatic cancer occurred 2.5 times the expected rate (3.5 percent versus 1.4 percent). Fewer cancers of the digestive system were found in the exposed than expected.

In addition, Ott performed a cohort analysis to supplement the results of the above study by examining mortality data for 603 men who had worked for at least one month in the exposure area. Death rates of this group were compared to those of the U.S. white male population. There were 35 cancer deaths observed among the exposed group versus 19.4 expected. Of the total cancer deaths, 20 lung cancer deaths were observed where 5.8 would have been expected. Additionally, there were 5 deaths attributable to lymphatic cancer, where 1.3 were expected. Hence, the results of the cohort analysis confirmed the findings of the earlier mortality study.

The Allied Chemical Corporation submitted a mortality study to OSHA and NIOSH with findings similar to the Dow study for respiratory and lymphatic cancer deaths (FTR Exhibit #24). The Allied facility had also been engaged in the manufacturing of dry arsenicals for pesticides. Like the Dow process, arsenic trioxide was the starting compound for the subsequent synthesis of lead arsenate, calcium arsenate and other chemicals.

The Allied study, performed by Baetjer et al., compared the mortality experience of retirees with that of the general population of Baltimore, Maryland, the location of the pesticide facility. The study focused on 27 deaths occurring between 1690 and 1972. Of the total deaths, 19 were due to cancer, including 10 from respiratory cancer and 3 from leukemia or lymphosarcoma. The expected numbers of deaths, based on figures adjusted for the combined age, race and sex-specific relative frequencies in the general population of Baltimore, were 5.6, 1.5 and 0.18, respectively.

When an analysis was carried out on death rates among male retirees from this plant, Baetjer found even greater differences between observed and expected deaths from all cancer, as well as respiratory and leukemia-lymphatic cancers. Specifically, there were 17 deaths from all forms of cancer versus 1.35 expected; 10 respiratory cancer deaths versus 0.4 expected; and 3 deaths from leukemia-lymphatic cancers with .05 expected.

Kennecott Copper Corporation (KCC) submitted a survey of mortalities from respiratory diseases observed among its active and retired employees. The study, performed by Drs. T. H. Milby and C. H. Hine, compared the ratios of observed employee deaths to the expected ratios. Additionally, the authors compared the proportion of deaths due to cancers of all types, respiratory cancer, and nonmalignant respiratory diseases among KCC employees with corresponding data for the United States and the State of Utah. They found that the proportion of respiratory cancer deaths among KCC employees was not very different from the U.S. respiratory cancer death rate or that of Utah State.

Milby and Hine also compared results of their study with three earlier studies of copper smelter workers (Snegireff and Lombard, Pinto and Bennett, and Lee and Fraumeni). Their results of lung cancer deaths were well below those found by the other groups of investigators.

NIOSH's evaluation of the KCC study showed it to be inadequate in several ways. For example, although the study showed no excess lung cancer, it utilized a relatively insensitive technique (analysis by proportionate mortality ratios); it excluded some of the exposed population (workers who left KCC before retirement); and it apparently included many workers who did not have significant exposure to arsenic (e.g. miners).

A study by Kuratsune et al., reported a high frequency of respiratory cancer mortality among workers at a Japanese copper smelter. Kuratsune stated that the results of his study were reported to both the Ministry of Labor and to the employer. On the basis of Kuratsune's findings, the Ministry judged that the cases of lung cancer were due to occupational exposure to arsenic trioxide and other compounds released during the smelting of copper ores. Kuratsune's study confirms the findings of excess mortalities in some American smelters.

In 1973, W. C. Nelson et al., of the Environmental Protection Agency (EPA) published a follow-up mortality study for a cohort of 1,231 individuals in Wenatchee, Washington, who had participated in a 1938 mortality survey of the effects of exposures to lead arsenate insecticide spray. (Neal et al., Public Health Bulletin 267, 1941). The population surveyed was classified by spray exposure, duration of exposure, age and sex. Additionally, three exposure groups were identified: orchardists, those having the highest exposure; consumers, those having no exposure; and a third group, having intermediate exposures.

Nelson located over 97 percent of the original 1938 study group. The Standard Mortality Ratio (SMR) technique was used to compare the total death rate to the expected death ratio in the State of Washington. The authors concluded that excess mortality did not occur consistently from the amount of exposure to lead arsenate spray. In fact, the orchardists, the most highly exposed group, had the lowest SMR of the three groups analyzed.

Especially noteworthy, however, is the authors' discussion of their study design. In this discussion, the authors noted that it was difficult to be sure of the exposure dosage categories and that they lacked data for individual exposure measurements. Nelson stated that they could not be positive as to whom the most exposed individuals were, and that the dosage levels were especially a problem for the intermediate group, who had the most heterogeneous exposure. He also admited difficulty with interpretation of the study results due to the relatively small number of individuals involved. In fact, Nelson stated that some of the more suggestive excesses in mortality cannot be considered significant because of small numbers. Moreover, many of the volunteers in the 1938 study "are still too young to have reached high risk mortality age." (FTR Exhibit #28)

Because the results of the Nelson study were at a variance with previous evidence on the long-term effects of arsenic exposure, NIOSH queried EPA regarding possible explanations for the differences, and reviewed data from other sources which might confirm the findings. Upon review of the life table procedure used by Nelson, NIOSH suggested that the unexpected differences noted might have resulted from use of an incorrect statistical technique for computing the expected numbers of deaths. While EPA reported to NIOSH that the statistical method used was entirely appropriate, EPA confirmed the authors' conclusions that the paper had unfortunate methodologic limitations.

Using two types of data sources, NIOSH attempted to independently evaluate the Nelson study findings. The first data source reviewed was occupational mortality data for adult white males in the State of Washington for the period 1950–1971 (FTR Exhibit #34). Dr. Samuel Milham of the Washington Department of Social and Health Services compared disease frequencies of approximately 400 distinct occupational groups and found that deaths due to respiratory cancer were 19 percent higher than expected for the decendents classified as "orchardists". Further, during the most recent 11 years (1961–1971) an increase of 27 percent was observed for lung cancer among orchardists.

The second data source reviewed was age-adjusted mortality rates for specific types of cancers for the three-county area from which the Nelson orchardist sample was drawn. The mortality rates for the three counties during the period 1950 to 1969 were compared to the rates for the state as a whole to identify unusual cancer patterns. NIOSH found that the rates were highest for Chelan County, the county in which the majority of the persons in the Nelson study resided. The mortality data on orchardists and men residing in Chelan

County indicate a significant excess of lung cancer.

Because the two independent sources of information contradicted, rather than confirmed, the Nelson study, NIOSH questioned the negative results found by Nelson. While no explanation for the contradictory results could be determined it appears that the Nelson study did not correctly depict the cancer experience of the persons exposed to lead arsenate in the Wenatchee Valley.

V. *Conclusions.* From an analysis of available studies and consistent with the findings of the National Institute for Occupational Safety and Health and the National Cancer Institute, OSHA considers exposure to airborne concentrations of inorganic arsenic compounds to be strongly implicated as a cause in occupational carcinogenesis.

In six epidemiological studies, excess lung cancer mortalities were observed among worker populations having had exposure to inorganic arsenic compounds. The authors of four other epidemiological studies concluded that there was no significant excess of cancer mortalities among inorganic arsenic workers. However, in the analysis of three of these studies, both NIOSH and OSHA confirmed that excess lung cancer mortalities were involved, but were not observed due to inadequate study designs. No definitive conclusions could be ascribed to the fourth study. Further, it is recognized that the retrospective epidemiological mortality studies are deficient in providing accurate occupational exposure data. However, most of the available studies, including the data submitted by Dow and Allied, do show significant excesses of lung cancer mortalities for workers exposed to a variety of inorganic arsenic compounds.

In the epidemiological studies to date, both the trivalent compounds (such as arsenic trioxide) and pentavalent compounds (such as lead and calcium arsenate) have been observed to be carcinogenic, eliciting lung cancer, lymphatic cancer and skin cancer. While little is known about relative carcinogenic activity of the two valence states of arsenic in the various inorganic compounds, there is no evidence supporting a distinction between the various inorganic arsenic compounds.

The evidence to date, including both environmental and epidemiological studies, shows that exposure to airborne concentrations of inorganic arsenic presents the most significant occupational health hazard. The proposed standard is directed primarily to protect employees from the hazard of airborne concentrations of inorganic arsenic. We have found only limited evidence to date implicating the ingestion of inorganic arsenic and no evidence implicating the ingestion of organic arsenic as a cause of cancer. The proposed standard, however, does protect employees from poisoning due to ingestion of inorganic arsenic. OSHA has no evidence that inhalation of organic arsenic compounds causes cancer and therefore, organic arsenic compounds are not included in this standard.

With respect to the permissible exposure limits, the proposal sets a limit of .004 mg As/cu m with an action level of .002 mg As/cu m. NIOSH originally recommended, in the criteria document, that the standard for controlling inorganic arsenic exposure, except for lead arsenate and arsine, be set at .05 mg As/cu m. This limit resulted from their evaluation of the then available data, from which they concluded that respiratory cancer was associated with occupational exposure to inorganic arsenic.

However, based on the presently available evidence, which strongly indicates that inorganic arsenic causes cancer, NIOSH now recommends that the standard be set at a "non-detectable" level for all inorganic compounds, except arsine. NIOSH defines non-detectable as "the limit of analytical sensitivity when general workroom air samples are collected for 15 minutes at a flow rate of 10 liters a minute." Application of NIOSH's factors of analytical sensitivity, flow rate, and sampling time, results in an air concentration of .002 mg As/cu m.

OSHA feels that the evidence clearly establishes the need to limit occupational exposures to inorganic arsenic in order to prevent harmful health effects on workers. Since inorganic arsenic is considered to be a carcinogen, and since there is no evidence of a safe level of exposure, it is felt that the exposure levels must be reduced as low as feasible. For the purposes of controlling worker exposures to inorganic arsenic, OSHA believes that a range of .002 to .004 mg As/cu m will significantly reduce, if not prevent arsenic-induced cancer. At the same time, it is felt that such a range will facilitate employer surveillance of exposure conditions, the implementation and maintenance of control measures, and compliance enforcement.

For the implementation of this range, OSHA proposes that employer measurement of inorganic arsenic levels begin at an action level of .002 mg As/cu m, as determined on an eight-hour time-weighted average basis. This level of exposure would also trigger the requirements concerning medical surveillance, regulated areas, and protective clothing.

A ceiling limit of .01 mg As/cu m over any 15 minute period during the work shift is proposed to prohibit significant excursions above the permissible exposure limit.

VI. *The proposed standard.* The proposed standard would include the following major points:

(1) *Scope and application.* The proposed standard would apply to all employers having establishments where inorganic arsenic and its compounds are produced, reacted, released, packaged, repackaged, stored, handled or used, except that this section will not apply to working conditions with respect to which the Mining Enforcement and Safety Administration, Department of the Interior, or the Environmental Protection Agency have exercised statutory authority to prescribe or enforce standards or regulations affecting occupational safety or health. Further, the proposal would apply to transportation of the substances except that this section will not apply to working conditions with respect to which the Department of Transportation has exercised statutory authority to prescribe or enforce standards or regulations affecting occupational safety or health. Although the proposal's scope is broad, including nearly every use of inorganic arsenic, the specific provisions of the proposed standard that would apply to any particular employer, depend upon the amount of the substance actually released in the workplace.

The proposal would apply to all inorganic compounds containing arsenic, with the exception of arsine. In its criteria document, NIOSH excluded lead arsenate and arsine. NIOSH felt that

V40114 JAN21 75 XUM

lead arsenate poses a double threat of chronic lead poisoning as well as acute arsenic intoxication, and should be considered separately. However, following their analysis of new studies by Dow, Allied and EPA, NIOSH concluded and we agree that lead arsenate should be included in this proposed rulemaking.

Since arsine has different toxicological properties than other inorganic arsenic compounds, NIOSH felt and we agree that it should be excluded from this standard.

(2) *Permissible exposure limit.* The proposed standard sets a maximum limit for employee exposure of .004 milligrams of arsenic (As) per cubic meter of air averaged over an eight-hour period. Additionally, a ceiling limit of .01 mg As/cu m is proposed for any 15 minute time period during the work shift. These limits set levels above which no employee exposure is permitted.

Further, the proposal prohibits all skin contact with liquid arsenic trichloride, and repeated skin contact with other liquid or solid forms of inorganic arsenic compounds which are likely to cause skin irritation. The strict requirement for arsenic trichloride is due to the particularly hazardous nature of this compound. It has an extremely high vapor pressure at room temperature, and can be absorbed directly through the skin. Repeated contact with other inorganic arsenic compounds may result in skin irritation.

(3) *Action level.* The proposed standard sets an "action level" of .002 mg As/cu m averaged over an eight hour period. The purpose of the action level is to set a level at which airborne inorganic arsenic can be practicably detected by the employer, and above which precautionary measures such as medical surveillance and monitoring are warranted. Regulated areas would be established for all areas in which levels of inorganic arsenic exceed the action level. Where it has been determined that operations involving inorganic arsenic do not exceed the action level, provisions of this standard such as requirements for medical surveillance and regulated areas do not apply.

In OSHA's judgment, exposures below the action level do not present a sufficient hazard to warrant application of the entire standard to places of employment which have such exposures.

It should be noted, however, that certain provisions of the proposed standard, such as employee training and information, apply wherever inorganic arsenic is released as a result of operations, without regard to the airborne concentrations.

(4) *Monitoring.* Under the provisions of this proposed standard, the employer would be required to make an initial determination of employee exposure to airborne concentrations of inorganic arsenic. This initial determinaiton may be an observation based on the amount of inorganic arsenic present, type of operations being performed, the amount and type of ventilation, and the proximity of employees to the sources of emission. Initially, the employer is not required to sample or measure airborne concentrations. However, the employer must be certain that the determination accurately reflects employee exposure conditions over the working day. If the employer chooses to perform any measurements at this time, these must be considered in the determination.

If the results of the initial determination are negative, that is, if the employer determines that no employee is exposed above the action level, a written record of this determination must be made. This record must include any information or observations that indicate an employee may be exposed in excess of the action level, such as employee complaints of signs or symptoms that may be attributed to overexposure. Further, the determination record must include any measurements of inorganic arsenic exposures taken, and the names and social security numbers of the employees considered under this determination.

In establishments having more than one work operation involving the use of inorganic arsenic, an initial determination must be made for each operation. Also, the determination must be repeated each time there is a change in production, process or control measures which could result in new or additional exposures, or whenever the employer has any other reason to suspect that a change in exposure conditions has occurred.

If the results of the initial determination are positive, indicating that an employee is exposed to concentrations in excess of the action level, the employer would be required to implement a program to measure the exposures of affected employees. Because the determination has indicated exposure in excess of the action level, thus triggering the monitoring program, no written record of the determination need be made.

The results of the exposure measurement program would determine further action to be taken by the employer: (1) If measurements show that an employee is exposed to concentrations above the action level, but below the permissible exposure limit, measurements of that employee's exposure must be made at least every two months. (2) If measurements show that an employee is exposed to concentrations above the permissible limit, the employer would be required to measure that employee's exposure at least monthly. Such exposures also trigger other actions on the part of the employer, such as notifying the employee of his overexposure and institution of engineering and work practice controls to reduce the exposure to within permissible limits. (3) If the results of two consecutive measurements, taken at least five working days apart, show that an employee is not exposed above the action level, the measurement program may be terminated for that employee.

The monitoring provisions are designed so that employers having work places in which use of inorganic arsenic is controlled, without regard to the use of respirators, to the extent that exposures are below the action level, would not be required to make any measurements. The intent of this procedure is to provide adequate protection for employees while minimizing unnecessary burdens on employers.

The frequency of measurement would depend on the degree of employee exposure. Bimonthly measurement for employees whose exposures are in the range between the action level and permissible level would be required to provide sufficient warning when exposures are approaching the permissible limit. A minimum bimonthly sampling frequency would be required because the data from fewer samples would not provide statistical information of an accuracy necessary to assure protection of employees.

For work places in which exposures are above the permissible limit, monthly measurements would be required because OSHA believes that exposure above the permissible level presents a hazard to the employee. Monthly measurements would be required even when employees routinely wear respirators, because the type of respirator to be worn is determined by the concentrations of inorganic arsenic present in the work place air.

The proposal provides for the termination of exposure measurement when two samples indicate levels below the action level. Two samples, rather than one, are required in order to allow for the normal variability of individual exposure measurements, which may produce unrepresentative samples. A requirement for a period of five working days between samples has been included to ensure that any recorded decrease in exposure levels is not merely a short-term reduction. It should be noted that the termination of measurement would be effective only as long as there is no change in production, process or control which could result in new or additional exposure. If such a change occurs, the procedure, beginning with the initial determination, must be repeated.

(5) *Methods of measurement.* The proposal would require that exposure measurements reflect the actual exposure conditions for each employee. No specification is made for the location of the samples taken. Thus, the employer is free to choose to perform either personal breathing zone samples or general air samples, provided that the method chosen gives accurate indication of the employees' exposures. Further, any appropriate combination of long-term or short-term samples would be acceptable, although the proposal would require that all exposures be calculated on an eight-hour time-weighted average basis.

The provisions state that the accuracy of the sampling method must have a confidence level of 95 percent. The term accuracy refers to the difference between the measured value and the true concentration. It allows for both the random variation of the method (its precision) and the difference between the average result from the method and the true value (bias of the method). The required accuracy for concentrations above the action level is 25 percent at a 95 percent confidence level. This means that out of a long series of measurements, 95 percent must be within 25 percent of the true value. The required accuracy values allow the use of relatively inexpensive collection and analytical equipment.

(6) *Regulated area.* The proposal requires that regulated areas be established, that access be limited to authorized persons and that a roster of persons authorized to enter be made daily and maintained for at least 40 years. One purpose of establishing regulated areas is to limit the exposures above the action level to as few people as possible. The 40 year record retention requirement is based on the observed latency period for inorganic arsenic-induced cancer. The burden on the employer is considered to be minimal because the provisions require the employer merely to identify and control such areas.

(7) *Methods of compliance.* The proposed standard requires that employers immediately institute feasible engineering controls to reduce employee exposures to inorganic arsenic to at or below .004 mg As/cu m. In establishments where controls that can be instituted immediately will not reduce exposure to the permissible level, they must nonetheless be implemented to reduce exposures to the lowest practicable level, and be supplemented by the use of work practice controls or respirators to provide the necessary protection.

Engineering controls for inorganic arsenic may include mechanical ventilation and closed processing systems. When mechanical ventilation is used for engineering control, checks of air system efficiency, such as air velocity, static pressure, or air volume, must be made at least every three months. Engineering controls, which reduce levels of exposure in the work place environment by removing airborne contaminants, are the preferred means of compliance because of the problems generally associated with the use of respirators and work practice controls.

As part of its modified criteria document, NIOSH has included recommendations for the use of "standby rooms" under positive air pressure, with a filtered air supply for controlling exposure to inorganic arsenic. OSHA believes that this may be a useful method, particularly in the smelting industry, although we question the uniform application of standby rooms for all types of industry. The proposed standard does not specifically require the use of standby rooms.

Administrative or work practice controls which distribute exposures over a large number of workers are less desirable than engineering controls since this increases the population of employees at risk from exposure to potentially harmful levels of inorganic arsenic.

Respirators are capable of providing very good protection if they are properly selected, properly fitted, and if they are worn by the employee. The proposal would require proper selection and fitting, and that the employer ensure their proper use. However, because of the difficulties inherent in the use of respirators, they are less favored than engineering controls.

Where compliance with this standard cannot be achieved immediately through the institution of engineering controls, they must nevertheless be used to control exposures to the lowest practicable level. In addition, a program must be established and implemented to reduce exposures to the permissible exposure limit, or to the greatest extent feasible, solely by means of engineering controls. Written plans for this program must be developed and be furnished upon request for examination and copying to representatives of the Assistant Secretary of Labor for Occupational Safety and Health, U.S. Department of Labor, or his designee and the Director, National Institute for Occupational Safety and Health, U.S. Department of Health, Education, and Welfare, or his designee. These plans must be reviewed and updated to reflect the current status of exposure control. The revisions must be made at least every six months.

(8) *Respiratory protection.* When engineering controls and work practices are not feasible or are inadequate, respirators would be required. Additionally, the proposed standard provides for the use of respirators in other specific situations, including during installation of engineering controls, in hazardous operations, and in emergencies.

The proposal requires the employer to select respirators that have been approved by the Mining Enforcement and Safety Administration or NIOSH. Further, the employer must select the type of respirator to be used from the table provided in the proposed standard. This table lists the type of respirator to be used based on the concentrations of inorganic arsenic in the workplace. For situations in which the airborne concentrations are unknown, respirators which afford the maximum protection, as stated in the table, are required.

NIOSH recommended that only two types of respirators be permitted, based on their recommendation of a nondetectable level of exposure. These respirators are capable of providing protection for conditions of unknown or massive concentrations of inorganic arsenic. However, OSHA feels that other respirators provide adequate employee protection as long as their use is limited to specific ranges of concentrations. For this reason, OSHA has provided an expanded respirator table in the standard, which requires that particular types of respirators be used for specific concentrations.

(9) *Hazardous operations.* Certain operations are inherently hazardous due to the working conditions, amount of toxic material used, or the toxic properties of the materials. Examples of such hazardous operations are the cleaning of electrostatic precipitators or dust collection systems; maintenance operations on smelter furnaces; arsenic kitchen operations; loading and unloading of bulk quantities of inorganic arsenic compounds; other maintenance operations; and operations involving arsenic trichloride.

The proposed standard requires that employees wear respirators when engaged in hazardous operations because it might be expected that these operations will result in the release of inorganic arsenic in excess of the permissible limit. Appropriate protective clothing is required during hazardous operations to prevent employees from having any skin contact with arsenic trichloride.

(10) *Emergency situations.* The proposed standard would require employers to prepare a written plan of action to be followed in the event of occurrences which result in massive releases of inorganic arsenic. Examples of such emergencies are ruptures of containers and control or operating equipment failures. Emergency plans are necessary to inform employees of actions required for personal protection and for reduction of hazards in the event of an emergency. Employees not engaged in correcting the emergency situations must be restricted from the area and normal operations halted until the emergency is abated.

(11) *Protective clothing.* The proposal requires the employer to provide, and ensure that employees wear, clean protective clothing, such as but not limited to coveralls, smocks, aprons, face shields, gloves, shoes, hats and dust proof goggles, where exposures are in excess of the action level. This requirement is intended to prevent the accumulation of inorganic arsenic dust on the body or street clothes of the employee.

The proposed standard requires the employer to ensure that all protective clothing is removed in special change rooms and that contaminated protective clothing is removed from these rooms only in closed, impermeable containers. The employer is also required to ensure that no employee removes contaminated protective clothing from the change rooms, except those employees authorized by the employer to do so for the purpose of disposal, maintenance or laundering. The employer is responsible for disposal, maintenance and laundering of protective clothing and equipment. The employer must ensure that the person who is charged with laundering contaminated protective clothing is apprised of the harmful effects of exposure to inorganic arsenic.

(12) *Housekeeping.* Removal and prevention of accumulations of inorganic arsenic dust deposits on all surfaces in the work environment are an important aspect in dust control. Thus, for the purpose of ensuring that inorganic arsenic dust and particles are not reintroduced into the workplace air, the proposal prohibits dry sweeping or the use of compressed air for cleaning of floors and other surfaces. Vacuuming and water spray methods of dust removal are both safe and adequate, provided the practices outlined in the standard are followed.

V 40 14 JAN 21 75 XUM

(13) *Hygiene facilities and practices.* The proposal prohibits smoking, nonfood chewing products, application of cosmetics, or consumption of food in areas where exposures to airborne concentrations of inorganic arsenic are above the action level or in areas where skin contact with inorganic arsenic may occur. Storage of such items is also prohibited in these areas. Further, all employees must be required to wash hands, forearms, face and neck before eating or smoking or at the end of the work shift. Workers exposed above the action level, must shower at the end of the work shift, prior to changing into street clothes. Employers must also provide eye wash facilities wherever eye contact with inorganic arsenic could occur, and both eye wash facilities and emergency showers where arsenic trichloride is handled.

This section of the proposed standard requires the employer to provide for the number and placement of facilities such as change rooms, toilets, lavatories and showers in accordance with 29 CFR 1910.141.

(14) *Medical surveillance.* Medical surveillance provisions have been included in this proposal to provide for early diagnosis of health effects of inorganic arsenic exposure. The employer must make medical examinations and tests available to all employees who are exposed or will be exposed to inorganic arsenic in excess of the action level. All medical examinations and procedures must be performed by, or under the supervision of a physician, and provided during the employee's normal working hours, without cost to the employee. Examinations must be repeated every 6 months for employees who have had 10 years or more of occupational exposure to inorganic arsenic, and annually for all other employees exposed above the action level.

OSHA has placed special emphasis on medical surveillance of employees exposed for 10 years or more by requiring a medical examination every 6 months. More frequent examinations of these employees are required because their past exposure may have been at high levels, and these examinations may help in early diagnoses of any harmful effects resulting from their past exposures.

The medical examination includes such items as a medical and work history; 14 x 17 posterior-anterior chest X-ray; a complete blood count; palpation of the superficial lymph nodes; and examination of body surfaces for hyperpigmentation, keratoses or other skin lesions. NIOSH suggested the use of periodic sputum cytologic examination for early detection of lung cancer. OSHA recognizes that this particular examination may be useful in a medical surveillance program, but feels that the necessity for a sputum cytological analysis is more appropriately determined by the examining physician. Therefore, a recommendation for this type of test is mentioned in the Medical Surveillance Guidelines (Appendix C), but not required by the proposed standard.

Additionally, periodic urine analysis for arsenic content has been suggested as a useful indication of arsenic exposure. However, because of the ubiquitous nature of arsenic (it is found in food, water, etc.) it is difficult to relate occupational exposure to the amount excreted in the urine. A urine sample program might benefit the medical surveillance program provided background levels for each employee are established. Since such background levels are difficult to establish, the proposal does not require arsenic urine analysis.

The employer must provide the examining physician with a copy of the standard for inorganic arsenic, including appendices; a description of the employee's duties; a description of any personal protective equipment used by the employee; and information concerning actual and estimated exposures to which the employee has been or may be exposed. The employer must also provide any available employee medical history information requested by the physician.

Following the medical examination, the employer must obtain a written opinion from the examining physician stating whether the employee has any medical condition that would place him at increased risk to his health, or that would be aggravated by exposure to inorganic arsenic. Additionally, the physician's opinion must state any recommended limitations upon the employee's exposure or upon the use of protective equipment and respirators. Also, the opinion must state that the employee has been informed of any medical conditions which require further examination or treatment; however, the written opinion shall not contain specific findings or diagnoses unrelated to the employee's exposure to inorganic arsenic. The employer must provide a copy of the physician's opinion to each employee.

If, based on the physician's opinion, the employer determines that exposure of an employee to inorganic arsenic would materially impair the employee's health, it is the responsibility of the employer to remove that employee from exposure.

(15) *Employee information and training.* The proposal would require the employer to provide an annual training program for all employees assigned to the workplace areas within the scope of the standard. The program must be provided at the time of initial assignment to such work areas, and at least annually thereafter.

The program must, at a minimum, present the information contained in Appendices A and B; inform the employee of the quantity, location, and manner of use, release or storage of inorganic arsenic; inform the employee of necessary protective steps; inform the employee of the purpose for, proper use of, and limitations of respiratory protection devices; explain the purpose for, and a description of the medical surveillance program; and explain emergency procedures to be followed. Additionally, the training program must include a review of this standard. A copy of the standard and its appendices must be readily available to employees.

Training and information are essential factors in the protection of employees. An employee can do a great deal to protect himself from harmful exposures to inorganic arsenic; but only if he is aware of the nature of the hazard and what actions are needed for prevention of overexposure.

(16) *Signs and labels.* Due to the hazardous nature of inorganic arsenic, OSHA feels that emphasis should be placed on warning employees and other persons about the dangers of exposure. For this reason, the proposed standard includes a section on signs and labels for regulated areas, areas in which hazardous operations exist, or where exposures exceed the permissible limit, and for containers of inorganic arsenic.

The signs to be posted at regulated areas inform employees of the suspected carcinogenicity of inorganic arsenic and alert them to the fact that only persons authorized by the employer should enter the area. Signs posted for hazardous operations or where exposure exceeds the permissible limit, where personal protective equipment is mandated by the standard, reiterate the warning of carcinogenicity, and advise that respiratory equipment is necessary for entry and that such entry is limited to authorized personnel.

Containers of inorganic arsenic are required to be labeled with a more detailed description of the hazard and practices to be followed in use of the substance. These labels may be applied in addition to or in combination with labels required by other statutes, regulations or ordinances. In addition, no sign or instruction may contradict or detract from the effect of the warnings, information, or instructions required for labels in this section.

(17) *Records.* The proposed standard would require employers to make written records of the following: negative initial determinations; measurements of employee exposures; tests of mechanical ventilation systems (where such systems are used for engineering control); respirator usage; annual training and information sessions; rosters of persons authorized to enter regulated areas; and records required under medical surveillance provisions. Records of exposure determinations and respirator usage have to be retained five years. Exposure measurements and regulated area rosters would be required to be maintained for 40 years. Medical surveillance records would have to be maintained for 40 years, or for the duration of employment plus 20 years, whichever is longer. The other records required would only have to be retained for two years.

Additionally, this portion of the proposal would provide for access to records of exposure measurements by employees, former employees or their representatives, and access to medical records by

physicians designated by employees or former employees.

Further, the proposed standard would require that in the event the employer ceases to do business, the successor shall retain all records for the required length of time. If there is no successor to receive and maintain his records, the employer shall send the records to the Director, by registered mail, and individually notify each employee of the transfer.

(18) *Observation of monitoring.* The proposed standard would require employers to assure that affected employees or their representatives are given an opportunity to observe any measuring of employee exposure to inorganic arsenic conducted pursuant to this standard. The proposal requires the observers to use whatever personal protective devices are required, and to comply with all other applicable safety procedures.

Observers would be entitled to receive an explanation of the measurement procedure, observe all the steps related to the measurement procedure that are performed at the place of exposure, and to record the results obtained.

(19) *Reports.* The proposal would require the employer to notify the OSHA Area Director within one month of establishment of a regulated area. This report would include the address and location of each establishment having one or more regulated areas and the approximate number of employees authorized to enter such areas during normal operations. Further, this portion of the proposal would require the employer to report all emergencies, and the facts obtainable at the time, to the Area Director within 24 hours of their occurrence.

VII. *Public Participation.* Interested persons are invited to comment on the proposed standard on or before March 3, 1975. Written data, views, and arguments must be submitted in quadruplicate to Ms. N. Hucke, OSHA Committee Management Office, Docket OSH 37, 1726 M Street, NW, Room 200, U.S. Department of Labor, Washington, D.C. 20210 (Phone: 202/961-2248 or 2487). Written submissions must clearly identify the provision of the proposal addressed and the position taken with respect to each such provision. The data, views, and arguments will be available for public inspection and copying at the above address. All written submissions received will be made a part of the record of this proceeding.

In order to expedite this rulemaking proceeding and in anticipation of requests for a hearing; we are scheduling an informal public hearing, pursuant to section 6(b) of the Act and 29 CFR Part 1911, to begin on April 8, 1975, in the Departmental Auditorium, U.S. Department of Labor, Constitution Avenue between 12th and 14th Streets, NW., Washington, D.C. All aspects of the proposed standard, including environmental impact, will be at issue in the hearing. Beginning at 9:30 a.m. e.d.t. on April 8, 1975, the presiding Administrative Law Judge will hold a pre-hearing conference in order to settle any matters relating to the proceedings. All persons intending to make presentations should attend the pre-hearing conference which is open to the public. The hearing will be conducted, and the decisions made, in accordance with 29 CFR Part 1911.

Persons desiring to appear at the hearing must file a notice of intention to appear on or before March 17, 1975, with Ms. N. Hucke, OSHA Committee Management Office, Docket OSH-37, 1726 M Street, NW., Room 200, U.S. Department of Labor, Washington, D.C. 20210 (Phone: 202/961-2248 or 2487). The notice must contain the following information:

(1) The name and address of the person to appear;

(2) The capacity in which he will appear;

(3) The approximate amount of time required for the presentation;

(4) The specific provisions of the proposal that will be addressed;

(5) A brief statement of the position that will be taken with respect to each provision addressed; and

(6) A summary of the evidence with respect to each such provision proposed to be adduced at the hearing.

The oral proceedings will be reported verbatim. All statements and documents that are intended to be submitted for the record of the hearing must be submitted in quadruplicate. The use of prepared statements by witnesses is encouraged.

The Administrative Law Judge shall have all the powers necessary or appropriate to conduct a fair and full informal hearing, including the powers:

(a) To regulate the course of the proceedings;

(b) To dispose of procedural requests, objections, and comparable matters;

(c) To confine the presentations to matters pertinent to the proposed standard;

(d) To regulate the conduct of those present at the hearing by appropriate means;

(e) In his discretion, to question and permit questioning of any witnesses; and

(f) In his discretion, to keep the record open for a reasonable, stated time to receive written information from any person who has participated in the oral proceeding.

Following the close of the hearing, the presiding Administrative Law Judge shall certify the record thereof to the Assistant Secretary of Labor for Occupational Safety and Health.

The proposed standard will be reviewed after consideration of all relevant oral and written information, data, views, or arguments and will be modified appropriately if the submissions so warrant.

Accordingly, pursuant to sections 6(b) and 8(c) of the William-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1593, 1599; 29 U.S.C. 655, 657), Secretary of Labor's Order No. 12-71 (36 FR 8754), and 29 CFR Part 1911, it is hereby proposed to amend Part 1910 of Title 29 of the Code of Federal Regulations as set forth below:

§ 1910.93 [Amended]

1. In § 1910.93, Table G-1 would be amended by deleting the following substances:

Arsenic and compounds (as As)	0.5
Calcium arsenate	.15
Calcium arsenate	1
Lead arsenate	.15

2. A new § 1910.93r would be added to Part 1910 of Title 29 of the Code of Federal Regulations to read as follows:

§ 1910.93r Inorganic arsenic.

(a) *Scope and application.* (1) This section includes requirements for the control of employee exposure to inorganic arsenic.

(2) This section applies to the production, reaction, synthesis, release, packaging, repackaging, storage, handling or use of inorganic arsenic except that this section will not apply to working conditions with respect to which the Mining Enforcement and Safety Administration, Department of the Interior, or the Environmental Protection Agency have exercised statutory authority to prescribe or enforce standards or regualtions affecting occupational safety or health.

(3) This section applies to the transportation of inorganic arsenic except that this section will not apply to working conditions with respect to which the Department of Transportation has exercised statutory authority to prescribe or enforce standards or regulations affecting occupational safety or health.

(b) *Definitions.* (1) "Inorganic arsenic" means arsenic and all inorganic compounds containing arsenic except arsine.

(2) "Action level" means a concentration of inorganic arsenic of 0.002 milligrams Arsenic per cubic meter of air (mg As/cu m) as determined on an eight-hour, time-weighted average basis.

(3) "Emergency" means any occurrence such as, but not limited to equipment failure, rupture of containers, or failure of control equipment which is likely to, or does, result in the massive release of inorganic arsenic.

(4) "Hazardous operation" means any operation, procedure or activity where a release of inorganic arsenic might be expected as a consequence of the operation or because of an accident in the operation which would result in an employee exposure in excess of the permissible exposure limit. All operations involving the release of, or direct skin contact with arsenic trichloride shall be considered hazardous.

(5) "Authorized person" means any person specifically authorized by the employer whose duties require him to enter a regulated area or any person entering such an area as a designated representative of employees for the purpose of exercising an opportunity to observe monitoring and measuring procedures.

(6) "Assistant Secretary" means the Assistant Secretary of Labor for Occupational Safety and Health, U.S. Department of Labor, or his designee.

(7) "Director" means the Director, National Institute for Occupational Safety and Health, U.S. Department of Health, Education, and Welfare, or his designee.

(8) "OSHA Area Director" means the Director of the Occupational Safety and Health Administration Area Office having jurisdiction over the geographic

V 4014 JAN 21 75 XUM

area in which the employer's establishment is located.

(c) *Permissible exposure limit.* (1) No employee may be exposed to airborne concentrations of inorganic arsenic greater than 0.004 mg As/cu m as determined on an eight-hour, time-weighted average basis; or a ceiling limit greater than .01 mg As/cu m averaged over any 15 minute period during the working day.

(2) No employee may be exposed to any skin contact with liquid arsenic trichloride, or to repeated skin contact with liquid or solid inorganic arsenic likely to cause skin irritation.

(d) *Determination and monitoring of exposure.* (1) Each employer who has a place of employment in which inorganic arsenic is produced, reacted, synthesized, released, packaged, repackaged, stored, handled or used shall inspect each work place and work operation to accurately determine if any employee may be exposed, without regard to the use of respirators, to inorganic arsenic above the action level.

(2) Such a determination shall be based on the following, along with any other relevant considerations:

(i) Any information, observations, or calculations which would indicate employee exposure to inorganic arsenic; and

(ii) Any measurements of inorganic arsenic; and

(iii) Any employee complaints of symptoms which may be attributable to exposure to inorganic arsenic.

(3) When a determination is made that no employee is exposed, without regard to the use of respirators, in excess of the action level, the employer shall make a record of such determination which shall include at least the information specified in paragraph (d)(2) and shall also include the date of determination, work being performed at the time, location within work site, name and social security number of employees considered.

(4) Where a determination conducted under paragraphs (d)(1) and (d)(2) of this section shows the possibility of any employee exposure in excess of the action level, without regard to the use of respirators, the employer shall immediately make measurements to accurately determine the actual exposure for each such employee.

(i) Such measurements shall be repeated at least monthly for any employee who is exposed, without regard to the use of respirators, in excess of the permissible exposure limit.

(ii) Such measurements shall be repeated at least bimonthly for any employee who is exposed, without regard to the use of respirators, in excess of the action level.

(iii) Such measurements may be discontinued for any employee only when at least two consecutive measurements, made not less than five working days apart, show exposures for the employee are at or below the action level.

(5) Whenever there has been a production, process or control change which may result in new or additional exposures or whenever the employer has any other reason to suspect a change in exposure conditions, a new determination under this paragraph shall be made.

(6) A record of measurements of employee exposure to airborne concentrations of inorganic arsenic shall be made and shall include at least the information required in paragraph (q)(2) of this section.

(7) The employer shall individually notify in writing, within 10 working days after the occurrence, every employee who is found to be exposed to inorganic arsenic above the permissible exposure limit. Such notification need not be given more frequently than once a month. The employee shall also be notified of the corrective action being taken to reduce exposure to or below the permissible exposure limit.

(8) The method of monitoring and measurement shall have an accuracy (with a confidence level of 95 percent) of not less than plus or minus 25 percent for concentrations of inorganic arsenic greater than or equal to .002 mg As/cu m. (Some methods meeting the accuracy requirements are available in the "NIOSH Manual of Analytical Methods.")

(e) *Regulated area.* (1) A regulated area shall be established where inorganic arsenic concentrations are in excess of the action level.

(2) Access to regulated areas shall be limited to authorized persons.

(3) A daily roster shall be made of authorized persons who enter a regulated area.

(f) *Methods of compliance.* Employee exposures to inorganic arsenic shall be controlled to or below the permissible exposure limit provided in paragraph (c) of this section by engineering controls, work practices, and personal protection controls as follows:

(1) Engineering controls shall be instituted immediately to reduce exposures to or below the permissible exposure limit, except to the extent that such controls are not feasible.

(2) Wherever feasible engineering controls which can be instituted immediately are not sufficient to reduce exposures to the permissible exposure limit, they shall nonetheless be used to reduce exposures to the lowest practicable level, and shall be supplemented by work practice controls and by respiratory protection in accordance with paragraph (g) of this section. A program shall be established and implemented to reduce exposures to or below the permissible exposure limit, or to the greatest extent feasible, solely by means of engineering controls, as soon as practicable.

(3) Written plans for such a program shall be developed and furnished upon request for examination and copying to the Assistant Secretary and the Director. Such plans shall be reviewed and revised as necessary, at least every six months, to reflect the current status of such a program.

(4) When mechanical ventilation is used to control exposure, measurements which demonstrate the effectiveness of the system to control such exposure, such as air velocity, static pressure or air volume, shall be made at least every three months. Measurements of the system's effectiveness to control exposure shall also be made within five days of any change in production, process or control which might result in an increase in airborne concentrations of inorganic arsenic.

(g) *Respiratory protection.* (1) Where respiratory protection is required under this section, compliance with the permissible exposure limit may not be achieved by the use of respirators except:

(i) During the time period necessary to install engineering controls; or

(ii) In work operations in which engineering controls are not feasible; or

(iii) In work situations in which engineering controls are insufficient to reduce exposure to or below the permissible exposure limit; or

(iv) In emergencies.

(2) Where respiratory protection is required under this section, the employer shall select and provide the appropriate respirator from the Table below and shall ensure that the employee uses the respirator provided.

RESPIRATORY PROTECTION FOR INORGANIC ARSENIC

Concentration of inorganic arsenic	*Required respirator*
(i) Unknown or greater than 4.0 mg As/m³.	(A) Self-contained breathing apparatus, pressure-demand type (positive pressure), with full facepiece; or (B) Combination constant flow or pressure demand full facepiece, supplied-air respirator type with auxiliary self-contained air supply.
(ii) Not greater than 4.0 mg As/m³.	(A) Supplied air respirator (positive pressure), continuous flow, with full facepiece, hood, helmet, or suit; or (B) Supplied air respirator, pressure demand, with full facepiece.
(iii) Not greater than 0.8 mg As/m³.	(A) Powered air purifying respirator, with high efficiency filter[1] and full facepiece, hood, or helmet.
(iv) Not greater than 0.40 mg As/m³.	(A) Supplied air respirator, pressure-demand type, with full facepiece; or (B) Air purifying respirator, with high efficiency filter,[1] with full facepiece.
(v) Not greater than 0.04 mg As/m³.	(A) Air purifying respirator, with high efficiency filter,[1] with half mask; or (B) Supplied air respirator, pressure demand, with half mask.

[1] High efficiency filter—99.97 percent efficient against 0.3-micron size particles.

(3) Respirators shall be selected from those approved by the Mining Enforcement and Safety Administration (formerly called the Bureau of Mines) or by the National Institute for Occupational Safety and Health under the provisions of 30 CFR Part 11.

(4) The employer shall institute a respiratory protection program in accordance with § 1910.134.

(5) Respirators prescribed for higher concentration may be used for any lower concentration.

(6) Employees who wear respirators shall be allowed to leave work areas to wash the face and respiratory facepiece to prevent potential skin irritation associated with respirator use.

(h) *Hazardous operations.* (1) Employees engaged in hazardous operations, as defined in paragraph (b)(4), such as, but not limited to, cleaning of electrostatic precipitators or dust collection systems, maintenance of smelter furnaces, arsenic kitchen operations, loading and unloading operations, or other maintenance operations or exposed to the release of or direct skin contact with arsenic trichloride shall be provided with and required to wear and use:

(i) Respiratory protection in accordance with paragraph (g) of this section; and

(ii) Appropriate protective clothing, in accordance with paragraph (j) of this section, to prevent skin irritation due to contact with inorganic arsenic and any skin and eye contact with arsenic trichloride. The protective clothing shall be selected for the operation and its possible exposure conditions.

(2) In addition to the requirements of paragraph (h)(1) of this section, all operations involving arsenic trichloride shall be performed under well ventilated conditions.

(i) *Emergency situations.* (A) A written plan for emergency situations shall be developed for each facility involved in an inorganic arsenic operation in which there is a possibility of an emergency as defined in paragraph (b)(3) of this section. Appropriate portions of the plan shall be implemented in the event of an emergency.

(B) The plan shall specifically provide that employees engaged in correcting emergency conditions shall be equipped as required in paragraphs (g) and (j) of this section until the emergency is abated.

(C) Employees not engaged in correcting the emergency shall be restricted from the area and normal operations in the affected area(s) shall not be resumed until the emergency is abated.

(j) *Protective equipment.* (1) Where exposures are in excess of the action level, the employer shall provide and ensure that the employees wear appropriate clean protective equipment such as, but not limited to, coveralls, smocks, aprons, face shields, gloves, shoes, hats, or dust proof goggles to prevent contamination of the employee's street clothing and to prevent skin contact.

(2) Clean and dry protective equipment shall be provided at least daily to each affected employee.

(3) The employer shall ensure that all protective equipment is removed only in change rooms as prescribed in paragraph (m)(3) of this section and shall ensure that used protective equipment is removed from the facility only in accordance with paragraph (k) of this section.

(4) Where required by this section, the employer shall provide and ensure that the employee wears eye and face protection in accordance with § 1910.133(a)(2) through (a)(6).

(k) *Laundering.* (1) The employer shall launder, maintain, and dispose of protective equipment used in inorganic arsenic operations.

(2) The employer shall ensure that employees remove contaminated protective equipment only in change rooms as required in paragraph (m)(3) of this section.

(3) The employer shall ensure that no employee removes contaminated protective equipment from the change room except for those employees authorized to do so for the purpose of laundering, maintenance, and disposal.

(4) Inorganic arsenic contaminated protective equipment shall be placed in impermeable closed containers.

(5) Containers of contaminated protective equipment which are to be removed from change rooms or from the work place for laundering or disposal, or for any other reason, shall bear labels in accordance with paragraph (p)(3) of this section.

(6) Dust removal may not be done by blowing or shaking of clothing.

(7) The employer shall inform any person who launders or cleans inorganic arsenic protective equipment of the potentially harmful effects of exposure to inorganic arsenic.

(l) *Housekeeping.* (1) All external surfaces shall be maintained free of accumulation of inorganic arsenic if, with their dispersion, there would be an excessive air concentration.

(2) Floors and other surfaces may not be cleaned by dry sweeping or the use of compressed air.

(3) Where vacuuming methods are selected, either portable units or permanent systems shall be used. (i) If a portable unit is selected, the exhaust shall be attached to the exhaust of the work place ventilation system or collected with the vacuum unit so that inorganic arsenic is not reintroduced into the work place air; and

(ii) Portable vacuum units used to collect inorganic arsenic may not be used for other cleaning purposes and shall be labeled as prescribed in paragraph (p)(3) of this section.

(4) Cleaning of floors and other contaminated surfaces may not be performed by washing down with a hose, unless a fine spray has first been laid down.

(m) *Hygiene facilities and practices.* (1) The presence or consumption of food or beverages, the presence or use of smoking or non-food chewing products, and the presence or application of cosmetics are prohibited in areas where airborne concentrations of inorganic arsenic are in excess of the action level and in areas where skin contact with inorganic arsenic may occur.

(2) Employees shall be required to wash hands, forearms, face, and neck before leaving work areas specified in paragraph (m)(1) of this section, for the purpose of drinking, eating, or smoking and at the end of each work shift.

(3) Where employees wear protective clothing and equipment, clean change rooms shall be provided, in accordance with § 1910.141(e).

(4) Where toilets are in regulated areas, such toilets shall be in a separate room.

(5) Where employees are required by this section to wash, washing facilities shall be provided, in accordance with § 1910.141(d)(1) and (2)(ii) through (vii).

(6) The employer shall provide eye wash facilities that are suitable for quick drenching or flushing of the eyes for immediate emergency use in locations where eye contact with inorganic arsenic may occur.

(7) The employer shall provide eye wash facilities and emergency showers that are suitable for quick drenching or flushing of the eyes and body for immediate emergency use where arsenic trichloride is handled.

(8) Workers exposed above the action level, without regard to the use of respirators, shall be required to shower prior to changing into street clothes.

(9) Where employees are required by this section to shower, shower facilities shall be provided in accordance with § 1910.141(d)(3).

(n) *Medical surveillance.* (1) Each employer who has a place of employment in which employees are, or have been exposed, without regard to the use of respirators, to inorganic arsenic in excess of the action level shall institute a medical surveillance program.

(2)(i) The program shall provide each employee exposed or who will be exposed above the action level, without regard to the use of respirators, with medical examinations and tests in accordance with this paragraph.

(ii) If any employee refuses any required medical examination, the employer shall inform the employee of the possible health consequences of such refusal and shall obtain a signed statement from the employee indicating that the employee understands the risk involved in the refusal to be examined.

(3) All medical examinations and procedures shall be performed by or under the supervision of a licensed physician, and shall be provided during the employee's normal working hours without cost to the employee.

(4) At the time of initial assignment, or upon institution of medical surveillance, the following shall be performed by the physician:

(i) A medical and work history;

(ii) A medical examination which must include as a minimum the following:

(A) A 14 x 17 posterior-anterior chest X-ray giving particular attention to parenchymal and hilar changes;

V 4 0 1 4
JAN 21 75
XUM

(B) A complete blood count to include differential;

(C) Palpation of the superficial lymph nodes for indication of neoplastic changes;

(D) Careful examination of the skin for the presence of hyperpigmentation, keratoses or other skin lesions.

(5) Examinations provided in accordance with this paragraph shall be performed at least:

(i) Every 6 months for each employee who has been employed in operations involving inorganic arsenic for 10 years or more, except that chest X-rays shall be given annually only; and

(ii) Annually for all other employees as specified in paragraph (n)(2)(i).

(6) Each employee exposed to an emergency shall be given appropriate medical surveillance.

(7) The employer shall provide to the examining physician the following information: (i) A copy of this regulation for inorganic arsenic including all the appendices;

(ii) A description of the affected employee's duties as they relate to his exposure;

(iii) A description of any personal protective equipment used;

(iv) The results of the employee's exposure measurement, if available;

(v) The employee's anticipated exposure level; and

(vi) Upon request of the physician, information from previous medical examinations of the affected employee.

(8)(i) The employer shall obtain a written opinion from the examining physician containing the following:

(A) The physician's opinion as to whether the employee has any detected medical condition which would place the employee at increased risk of material impairment of the employee's health from exposure to inorganic arsenic or would directly or indirectly aggravate any detected medical condition;

(B) Any recommended limitations upon the employee's exposure to inorganic arsenic and upon the use of protective equipment and respirators;

(C) A statement that the employee has been informed by the physician of any medical conditions which require further examination or treatment;

(ii) The written opinion shall not reveal specific findings or diagnoses unrelated to exposure to inorganic arsenic.

(iii) A copy of the physician's written opinion shall be provided to each employee.

(9) If the employer determines, on the basis of the physician's written opinion, that any employee's health would be materially impaired by continued exposure to inorganic arsenic, such employee shall be withdrawn from possible exposure to inorganic arsenic.

(o) *Employee information and training.* (1) The employer shall provide a training program for employees assigned to workplace areas where any inorganic arsenic is produced, reacted, synthesized, released, packaged, repackaged, stored, handled, or used. The training program shall be provided at the time of initial assignment, and at least annually thereafter, and shall include informing each employee of:

(i) The information contained in the substance data sheets for inorganic arsenic, which are contained in Appendix A and B; and

(ii) The quantity, location, manner of use, release or storage of inorganic arsenic and the specific nature of operations which could result in exposure to inorganic arsenic in excess of the action level as well as any necessary protective steps; and

(iii) The purpose for, proper use, and limitations of respiratory devices as specified in § 1910.134; and

(iv) The purpose for, and a description of, the medical surveillance program as required by paragraph (n) of this section and the information contained in Appendix C; and

(v) Emergency procedures as required by paragraph (o)(1)(i) of this section; and

(vi) A review of the standard.

(2) A copy of this standard and its appendices shall be made readily available to all employees exposed to inorganic arsenic.

(3) All materials relating to the employee information and training program shall be provided upon request to the Assistant Secretary and the Director.

(p) *Signs and labels.* (1) Entrances or access ways to regulated areas shall be posted with legible signs bearing the legend:

CANCER-SUSPECT AGENT IN THIS AREA AUTHORIZED PERSONNEL ONLY

(2) Areas containing hazardous operations or where exposures exceed the permissible exposure limit shall be posted with legible signs bearing the legend:

CANCER-SUSPECT AGENT IN THIS AREA RESPIRATORY EQUIPMENT REQUIRED AUTHORIZED PERSONNEL ONLY

(3) Containers of inorganic arsenic shall bear the following label, in addition to or in combination with labels required by other statutes, regulations, or ordinances:

Name of Compound
Danger! Contains Arsenic
Cancer-Suspect Agent
Harmful if Inhaled or Swallowed
Avoid Contact with Skin and Eyes
Use only with adequate ventilation

(4) No statement shall appear on or near any required sign, label or instruction which contradicts or detracts from the effect of any required warning, information, or instruction.

(q) *Recordkeeping.* (1) *Exposure determination.* The employer shall keep an accurate record of all determinations as prescribed in paragraphs (d)(1), (d)(2), and (d)(3) of this section.

(i) This record shall include the written determination and any supporting documentation required in paragraph (d)(3) of this section.

(ii) This record shall be maintained for at least five years and shall include at least the most recent determination.

(2) *Measurement.* The employer shall keep an accurate record of all measurements taken to determine employee exposure to inorganic arsenic.

(i) This record shall include:

(A) The date of measurements;

(B) The operation involving exposure to inorganic arsenic which is being monitored;

(C) Sampling and analytical methods used and evidence of their accuracy;

(D) Number, duration, and results of samples taken;

(E) Name and social security number and exposure of the employee monitored.

(ii) This record shall be maintained for at least 40 years.

(3) *Mechanical ventilation measurements.* When mechanical ventilation is used as an engineering control, the employer shall maintain a record of the measurements, required by paragraph (f)(4) of this section, demonstrating the effectiveness of such ventilation.

(i) This record shall include:

(A) Date of measurement;

(B) Type of measurement taken;

(C) Result of measurement;

(ii) This record shall be maintained for at least two years.

(4) *Respirator usage.* The employer shall keep and maintain an accurate record of all respirator usage pursuant to paragraph (g) of this section.

(i) The record shall include:

(A) Type of respirator used;

(B) The nature, duration, and names and social security numbers of employees in each operation; and

(C) Airborne concentrations of inorganic arsenic if known.

(ii) This record shall be maintained for at least five years.

(5) *Employee information and training.* The employer shall keep an accurate record of all employee training required by paragraph (o) of this section.

(i) The record shall include:

(A) Date of training;

(B) Name and social security number of employee trained;

(C) Content or scope of training provided.

(ii) This record shall be maintained for at least two years.

(6) *Medical surveillance.* The employer shall keep an accurate medical record for each employee subject to medical surveillance required by paragraph (n) of this section.

(i) The record shall include:

(A) Physician's written opinion required in paragraph (n)(8)(i);

(B) Any employee medical complaints related to exposures to inorganic arsenic;

(C) A signed statement of any refusal to be examined;

(D) A copy of the information provided to the physician pursuant to paragraph (n)(7) of this section.

(ii) This record shall be maintained for at least 40 years, or for the duration of employment plus 20 years, whichever is longer.

(7) *Rosters.* Authorized personnel rosters required in paragraph (e)(3) of this

section shall be maintained for at least 40 years.

(8) *Availability.* (i) All records required to be maintained by this section shall be made available upon request to the Assistant Secretary and the Director for examination and copying.

(ii) Written determinations and employee exposure measurements required by paragraphs (d)(3) and (d)(6) of this section shall be made available for examination and copying to employees, former employees, and their designated representatives.

(iii) Employee medical records required to be maintained by this section shall be made available upon request for examination and copying to a physician designated by the employee or former employee.

(9) *Transfer of records.* (i) In the event the employer ceases to do business, the successor shall receive and retain all records required to be maintained by this section.

(ii) In the event the employer ceases to do business and there is no successor to receive and retain his records for the prescribed period, these records shall be transmitted by registered mail to the Director, National Institute for Occupational Safety and Health, U.S. Department of Health, Education, and Welfare, Washington, D.C. 20852.

(r) *Observation of monitoring.* (1) The employer shall give affected employees or their representatives an opportunity to observe any measuring of employee exposure to inorganic arsenic which is conducted pursuant to this section.

(2) When observation of the monitoring of employee exposure to inorganic arsenic requires entry into an area where the use of personal protective devices is required, the observer shall be provided with and required to use such equipment and shall comply with all other applicable safety procedures.

(3) Without interfering with the measurement, observers shall be entitled to:

(i) Receive an explanation of the measurement procedure;

(ii) Observe all steps related to the measurement of airborne concentration of inorganic arsenic performed at the place of exposure; and

(iii) Record the results obtained.

(s) *Reports.* (1) Not later than one month after the establishment of a regulated area, the following information shall be reported to the OSHA Area Director:

(i) The address and location of each establishment which has one or more regulated areas; and

(ii) The approximate number of employees authorized to enter each regulated area including during maintenance operations; and

(iii) Any changes in such information shall be reported within 15 days.

(2) Emergencies, and the facts obtainable at that time, shall be reported within 24 hours to the OSHA Area Director. Upon request of the Area Director, the employer shall submit all additional information in writing relevant to the nature and extent of employee exposures and corrective measures taken to prevent similar emergencies.

(t) *Effective date.* This standard shall become effective January 21, 1975.

(u) *Startup dates.* (i) Determinations and measurements prescribed in paragraph (d) of this section shall be instituted within three months of the promulgation of the final standard, except that for new production areas or operations such determinations and measurements shall be instituted within 30 days of startup of operation.

(ii) Medical surveillance prescribed in paragraph (n) of this section shall be instituted within three months of the promulgation of the final standard.

APPENDIX A

SUBSTANCE SAFETY DATA SHEET

Inorganic Arsenic

I. SUBSTANCE IDENTIFICATION

A. *Substance:* Inorganic Arsenic.

B. *Permissible Exposure:* 0.004 milligrams of arsenic per cubic meter of air (mg As/cu m) as determined on an eight hour time weighted average or a ceiling limit of .01 mg As/cu m averaged over any 15 minute period. No employee may be exposed to any skin contact with arsenic trichloride, or to repeated skin contact with inorganic arsenic which is likely to cause skin irritation.

C. *Appearance:* Inorganic arsenic is usually a white powder. Metallic arsenic is a gray powder. Arsenic trichloride is a clear, almost colorless to pale yellow corrosive oily liquid.

II. HEALTH HAZARD DATA

A. *Comments:* The health hazard of inorganic arsenic is high.

B. *Ways in which the chemical affects your body:* Inorganic arsenic can affect your body if you inhale it, or if it comes in contact with your skin. Inorganic arsenic may also affect your body if swallowed. Arsenic trichloride is especially dangerous because it can be absorbed through the skin. Because inorganic arsenic is a poison, you could be poisoned if you eat or smoke without thoroughly washing your hands after working in an inorganic arsenic work area.

C. *Effects of Overexposure:* If you are exposed to high concentration of inorganic arsenic you may be affected in various ways. You may feel nauseous, weak, and have a loss of appetite. Gradually your skin may harden and darken which may be followed by a feeling of "pins and needles." Excessive inhalation of inorganic arsenic compounds may cause cancer.

III. EMERGENCY AND FIRST AID PROCEDURES

A. *Eye and face exposure:* If arsenic trichloride is splashed in your eyes, wash it out immediately with large amounts of water. Remove contact lenses if worn. Call a doctor as soon as possible.

B. *Skin exposure:* If arsenic trichloride is spilled on your clothing or your skin, wash the exposed skin and clothes under an emergency shower with large amounts of water. You are required to wear protective clothing to prevent repeated skin contact with inorganic arsenic which is likely to cause skin irritation. All inorganic arsenic protective clothing shall be provided by and washed by the employer or any launderer he designates before you wear it again. You may not take your protective clothing home.

C. *Swallowing* (Ingestion): Upon ingestion of any inorganic arsenic compounds, seek immediate medical attention.

IV. PROTECTIVE CLOTHING AND EQUIPMENT

A. *Respirators:* Respirators can only be required for routine use if your employer is in the process of installing engineering controls or where engineering controls are not feasible or insufficent. You must wear respirators for nonroutine activities (e.g., maintenance operations) where you are likely to be exposed to levels of inorganic arsenic above the permissible exposure limit. You must wear respirators in emergencies. Where respirators are worn, they must have a label of approval from the Mining Enforcement and Safety Administration or the National Institute for Occupational Safety and Health. (Older respirators may have a Bureau of Mines approval label). If you experience difficulty in breathing while wearing a respirator, tell your employer.

B. *Protective clothing:* Your employer is required to provide and you must wear appropriate impervious protective clothing (such as boots, gloves, aprons, etc.) over any parts of your body that could be exposed to arsenic trichloride. Your employer is required to provide appropriate protective clothing where repeated skin contact with inorganic arsenic is likely to cause skin irritation.

C. *Eye and face protection.* Your employer is required to provide and you must wear eye and face protection where you may be splashed by arsenic trichloride, or in cases where handling any other inorganic arsenic compounds which may cause eye or face irritation.

V. PRECAUTIONS FOR SAFE USE, HANDLING, AND STORAGE

Cleanup crews shall wear respirators. Because inorganic arsenic is a poison, you must wash your hands thoroughly before eating and smoking. You shall not eat or smoke in a work area where there is skin contact with inorganic arsenic. You shall not wear your work clothes home. You shall shower, when required by this standard, at the end of each workday before going home. Ask your supervisor where inorganic arsenic is used in your work area and for any additional plant rules.

APPENDIX B

SUBSTANCE TECHNICAL GUIDELINES

Arsenic, Arsenic Trioxide, and Arsenic Trichloride

I. PHYSICAL AND CHEMICAL PROPERTIES

A. Arsenic (metal).
1. Formula: As.
2. Appearance: Gray metal.
3. Melting Point: Sublimes without melting at 613C.
4. Specific Gravity ($H_2O=1$): 5.73.
5. Solubility in Water: Insoluble.

B. Arsenic Trioxide.
1. Formula: As_2O_3.
2. Appearance: White powder.
3. Melting Point. 315C.
4. Specific Gravity ($H_2O=1$): 3.74.
5. Solubility in Water: 3.7 grams in 100 cc of water at 20°C.

C. Arsenic Trichloride (liquid).
1. Formula: $AsCl_3$.
2. Appearance: Colorless or pale yellow liquid.
3. Melting Point: −8.5C.
4. Boiling Point: 130.2C.
5. Specific Gravity ($H_2O=1$): 2.16 at 20C.
6. Vapor Pressure: 10 mm Hg at 23.5C.
7. Solubility in Water: Decomposes in water.

V40114 JAN 21 75 XUM

II. Fire, Explosion and Reactivity Hazard Data

A. Fire: Arsenic, Arsenic Trioxide, and Arsenic Trichloride are nonflammable.

B. Reactivity:

1. Conditions contributing to instability: heat.

2. Incompatibility: hydrogen gas can react with inorganic arsenic to form the highly toxic gas arsine.

III. Spill or Leak Procedures

Steps to be taken if substance is released or spilled: No one should enter areas where massive amounts of arsenic (or inorganic arsenic) have been released into the air without appropriate protective equipment until a determination is made that the hazard is abated. Respirators as prescribed in the table of paragraph (g) of this section shall be used during emergencies, cleanup, and repair work. Because of its high vapor pressure and because it can be directly absorbed through the skin, operations involving arsenic trichloride require appropriate protective equipment and shall be handled only under well ventilated conditions.

IV. Monitoring and Measurements Procedures

Measurements taken for the purpose of determining employee exposure under this section shall be taken in a manner such that the average eight-hour exposure can be determined. Air samples shall accurately reflect the exposure conditions of each employee. The method of sampling and analysis of inorganic arsenic shall have an accuracy of not less than 25% (with a confidence limit of 95%) for concentrations of inorganic arsenic at or above .002 milligrams arsenic per cubic meter (mg As/cu m).

V. Miscellaneous Precautions

A. The employer shall provide and ensure that the employee wear clean protective clothing each day. The employer shall not allow any employee to take protective clothing home. The employer must inform the launderer of inorganic arsenic protective clothing of the hazardous properties of inorganic arsenic. Eating and smoking are prohibited in regulated areas or anywhere where skin contact with inorganic arsenic may occur.

B. Employers must advise employees of all plant areas and operations where exposure to inorganic arsenic can occur. Inorganic arsenic is primarily produced in the smelting of ores of copper, zinc, and lead and is most commonly used in pesticide production, glass manufacture, paint anti-fouling, sludge control in lubricating oils, and as an alloying agent.

Appendix C

Medical Surveillance Guidelines

Arsenic and Its Inorganic Compounds Excluding Arsine

Physical and Chemical Properties.—Arsenic is a gray lustrous metal which is stable at room temperature. Arsenic trioxide is a white powder released as a by-product of the roasting of copper, zinc, and lead ores in the smelting industry and is the starting material for the synthesis of most other arsenicals such as arsenic acid, lead arsenate, calcium arsenate, and sodium arsenite. Arsenic trichloride is a clear, almost colorless to pale yellow corrosive oily liquid which has a very high vapor pressure and is particularly hazardous because it can be absorbed through the skin. Some of the most serious exposures to inorganic arsenic may occur in the smelting of copper, zinc, lead, and iron ores and in the manufacture and use of insecticides.

Route of Entry.—Inhalation, skin absorption (arsenic trichloride) and ingestion.

Toxicology.—The health hazard is high. Inorganic arsenic is principally absorbed via the lungs and is a skin irritant. Inorganic arsenic has been implicated as a cause of dermatitis, lung cancer, skin cancer, and lymphatic cancer. Dermatitis can be a problem where the rubber of respirators is in direct contact with the skin.

Symptoms and signs.—Acute—Irritation of eyes and mucous membranes of upper respiratory tract. Excessive skin contact may produce a dermatitis. Chronic—Excess skin contact may produce hyperpigmentation and keratoses.

Surveillance and Preventive Examinations. General.—Inorganic arsenic is considered to be of high toxicity and extensive experience indicates it is a high health hazard.

Medical and Work History Preplacement.—Routine medical histories and physical examinations are required for each employee subject to exposures in excess of the action level. In addition to the medical history, a complete physical examination shall be given that shall include a minimum of the following:

a. 14 x 17 posterior-anterior chest X-ray giving particular attention to parenchymal and hilar changes; and

b. A complete blood count to include differential; and

c. Palpation of superficial lymph nodes for indication of neoplastic changes; and

d. Careful examination of the skin for the presence of hyperpigmentation, keratoses, or other skin lesions.

Periodic Examinations.—The above examinations are to be given to each employee subject to exposure above the action level. These examinations are to be repeated every 6 months for each employee who has been employed in operations involving inorganic arsenic for 10 years or more, with the exception of X-rays shall be given only annually; for all other employees exposed above the action level.

It is highly recommended that the physician become familiar with the conditions under which inorganic arsenic is used.

Recommended Supplementary Procedures.—Sputum cytological analysis is a recommended procedure for early detection of lung cancer.

federal register
Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Weekly List of Public Laws

This is a listing of public bills enacted by Congress and approved by the President, together with the law number, the date of approval, and the U.S. Statutes citation. Subsequent lists will appear every Wednesday in the FEDERAL REGISTER, and copies of the laws may be obtained from the U.S. Government Printing Office.

Note.—No acts approved by the President were received by the Office of the Federal Register from Friday, January 10 to Friday, January 17, 1975.

V40I15 JAN22 75 XUM

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION

PART 213—EXCEPTED SERVICE

Department of Commerce

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

PART 959—ONIONS GROWN IN SOUTH TEXAS

Expenses and Rate of Assessment

This document authorizes the South Texas Onion Committee to spend not more than $94,311 for its operations during the fiscal period ending July 31, 1975, and to collect two cents ($0.02) per 50-pound container on assessable onions, or equivalent quantity handled by first handlers under the program.

The committee is the administrative agency established under Marketing Agreement No. 143 and Order No. 959, both as amended, regulating the handling of onions grown in South Texas. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

Notice was published in the December 9 FEDERAL REGISTER (39 FR 43848) regarding the proposals. It afforded interested persons an opportunity to submit written comments not later than January 6, 1975. None was received.

After consideration of all relevant matters, including the proposals in the notice, it is found that the following expenses and rate of assessment should be approved.

It is further found that good cause exists for not postponing the effective date of this section until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) because this part requires that the rate of assessment for a particular period shall apply to all assessable onions from the beginning of such period.

The regulation follows:

§ 959.215 Expenses and rate of assessment.

(a) The reasonable expenses that are likely to be incurred during the fiscal period ending July 31, 1975, by the South Texas Onion Committee for its maintenance and functioning, and for such purposes as the Secretary determines to be appropriate, will amount to $94,311.

(b) The rate of assessment to be paid by each handler in accordance with the marketing agreement and this part shall be two cents ($0.02) per 50-pound container of onions, or equivalent quantity, handled by him as the first handler thereof during said fiscal period.

(c) Unexpended income in excess of expenses for the fiscal period ending July 31, 1975, may be carried over as a reserve.

(d) Terms used in this section have the same meaning as when used in the said marketing agreement and this part.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: January 17, 1975.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.75–2035 Filed 1–21–75;8:45 am]

Title 8—Aliens and Nationality

CHAPTER I—IMMIGRATION AND NATURALIZATION SERVICE, DEPARTMENT OF JUSTICE

Miscellaneous Amendments

Pursuant to section 552 of Title 5 of the United States Code (80 Stat. 383) and the authority contained in section 103 of the Immigration and Nationality Act (66 Stat. 173; 8 U.S.C. 1103), 28 CFR 0.105(b) and 8 CFR 2.1, miscellaneous amendments, as set forth herein, are prescribed in Parts 100, 108, 238, 242, and 299 of Chapter I of Title 8 of the Code of Federal Regulations.

In § 100.4(d) of Part 100, Border Patrol Sectors Nos. 7, 8, and 20, are being updated to reflect specified substation redesignations and additions.

In Part 108, published December 3, 1974 (39 FR 41832), effective January 2, 1975, the fifth sentence of § 108.2 provides that where an application for asylum is denied for the reason that it is clearly lacking in substance, notification of the denial shall be furnished the Department of State, with opportunity to supply a statement containing matter favorable to the application, and departure shall not be enforced until 30 days following the date of notification. In order to avoid any possible misconstruction of the departure clause, the fifth sentence is being amended to clarify that departure shall not be enforced until 30 days following the date of notification of denial to the Department of State unless a reply has been received from the Department of State prior to the expiration of the 30-day period.

An agreement for preinspection at Hamilton, Bermuda, of flights of Atlanta Skylarks Air Travel Club destined to the United States, has been entered into between that line and the Commissioner of Immigration and Naturalization pursuant to sections 103 and 238(b) of the Immigration and Nationality Act. Likewise, agreements have been entered into between the Commissioner of Immigration and Naturalization and Westours, Inc., and the Commissioner, Department of Public Works, State of Alaska, for the preinspection at Prince Rupert, B.C., Canada, of the sailings of those lines destined to the United States. Accordingly, in Part 238, § 238.4 is amended by adding the specified lines to the listings of transportation lines which have entered into agreements for the preinspection of their passengers and crews at places outside the United States.

In Part 242, § 242.2(e) is amended by adding Poland to the list of countries with which existing treaties require immediate consular or diplomatic officers whenever a national thereof is detained in exclusion or expulsion proceedings. This addition to the listing is made in accordance with the provisions of Article 29, section 2, of the Consular Convention between the United States and the Polish People's Republic, effective July 6, 1973.

A number of immigration forms listed in Part 299 have been reissued and now reflect more recent edition dates. Accordingly, § 299.1 is amended to reflect the current edition dates of the specified forms.

In the light of the foregoing, the following amendments to Chapter I of Title 8 of the Code of Federal Regulations are hereby prescribed:

PART 100—STATEMENT OF ORGANIZATION

In § 100.4(d), the Border Patrol Sectors are being updated to reflect the following substation redesignations and additions: in Sector No. 7, the redesignation of Browning, and Malta, Montana, and the addition of Plentywood, and Sweetgrass, Montana, as substations; in Sector No. 8, the addition of Roosville, Montana as a substation; and in Sector No. 20, the redesignation of Pensacola, Florida as a substation. As amended, § 100.4(d) reads, in pertinent part, as follows:

§ 100.4 Field Service.

* * * * * * *

(d) *Border Patrol Sectors.* Border Patrol sector headquarters and stations are situated at the following locations:

Miami, Okla.
Mobile, Ala. (Pensacola, Fla.).
New Orleans, La.

* * * * * * *

PART 108—ASYLUM

In § 108.2, the fifth sentence is amended to read as follows:

V40N15 JAN22 75 XUM

§ 108.2 Decision.

• • • If an application is denied for the reason that it is clearly lacking in substance, notification shall be given to the Department of State, with opportunity to supply a statement containing matter favorable to the application, and departure shall not be enforced until 30 days following the date of notification unless a reply has been received from the Department of State prior to that time. • • •

PART 238—CONTRACTS WITH TRANSPORTATION LINES

§ 238.4 [Amended]

The listing of transportation lines under "At Bermuda" in § 238.4 Preinspection outside the United States is amended by adding thereto in alphabetical sequence: "Atlanta Skylarks Air Travel Club"; the listing of transportation lines in § 238.4 is further amended by adding at the end thereof under "At Prince Rupert" the following: "State of Alaska Department of Public Works", and "Westours, Inc.".

PART 242—PROCEEDINGS TO DETERMINE DEPORTABILITY OF ALIENS IN THE UNITED STATES: APPREHENSION, CUSTODY, HEARING, AND APPEAL

In § 242.2(e), the list of countries is amended by adding Poland thereto in alphabetical sequence, and by redesignating as footnote one the parenthetical clause immediately following the listing of Ireland. As amended, § 242.22(e) reads as follows:

§ 242.2 Apprehension, custody, and detention.

• • • • • •

(e) *Privilege of communication.* Every detained alien shall be notified that he may communicate with the consular or diplomatic officers of the country of his nationality in the United States. Existing treaties require immediate communication with appropriate consular or diplomatic officers whenever nationals of the following countries are detained in exclusion or expulsion proceedings, whether or not requested by the alien, and, in fact, even if the alien requests that no communication be undertaken in his behalf:

China	Poland [2]
Costa Rica	Sierra Leone
Cyprus	Singapore
Gambia	Tanzania
Ghana	Trinidad & Tobago
Ireland [1]	Uganda
Jamaica	United Kingdom:
Kenya	England
Kuwait	Northern Ireland
Malawi	Scotland
Malaysia	Southern Rhodesia
Malta	Wales
Nigeria	Zambia
Philippines	

[1] Unless national requests that such information not be transmitted.

[2] If national is an alien admitted to lawful permanent residence, communication will be made with Polish consulate only upon the request of such national.

PART 299—IMMIGRATION FORMS

In § 299.1, the listing of forms is amended to reflect the current edition dates of the following forms:

§ 299.1 Prescribed forms. • • •

Form No.	Title and description
• • •	• • •
I–53 (1–1–75)	Alien Address Report.
• • •	• • •
I–328 (6–5–74)	Order on Motion to Reopen.
• • •	• • •
I–418 (7–1–74)	Passenger List-Crew List.
• • •	• • •
I–571 (6–1–74)	Refugee Travel Document.
• • •	• • •

(Sec. 103, 66 Stat. 173; 8 U.S.C. 1103)

Compliance with the provisions of section 553 of Title 5 of the United States Code (80 Stat. 383) as to notice of proposed rule making and delayed effective date is unnecessary in this instance and would serve no useful purpose because the amendments to § 100.4(d) relate to agency management and organization; the amendment to § 108.2 is clarifying in nature; the amendments to § 238.4 add transportation lines to the listings; the amendment to § 242.2(e) is in conformity with the Consular Convention between the United States and the Polish People's Republic; and the amendments to § 299.1 are editorial in nature.

Effective date. The amendments made in this order shall become effective January 22, 1975.

Dated: January 16, 1975.

L. F. CHAPMAN, JR.,
Commissioner of Immigration and Naturalization.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 74–NE–42; Amdt. 39–2025]

PART 39—AIRWORTHINESS DIRECTIVE

Hamilton Standard Model 54H60 Propellers

There have been hydraulic control failures in Hamilton Standard Model 54H60 propellers used on certain Lockheed aircraft resulting in propeller pitch-locking which can cause overspeeding and inability to feather. Loss of pitch control is caused by loosening and separation of a threaded extension sleeve, P/N 541859, allowing internal bypassing of hydraulic fluid and loss of control pressure.

Since this condition is likely to exist or develop in all 54H60 propellers used on Lockheed Models L–188 and L–382 type aircraft, an Airworthiness Directive is being issued to require modification of all applicable Model 54H60 propellers.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are not practicable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new Airworthiness Directive:

HAMILTON STANDARD. Applies to propeller Models 54H60–63, –81, –91, –111, –117, and –125.

Compliance required as indicated, unless already accomplished.

To prevent inflight separation of the extension sleeve, P/N 541850, Change B or earlier revision, from the pitch lock regulator assemply resulting in propeller pitchlocking, accomplish the following:

A. Propellers with a total of 2500 or more hours in service as of the effective date of this AD or whose total time in service is unknown, accomplish the requirements of Paragraph (C) below within the next 100 hours time in service.

B. Propellers with less than 2500 hours total time in service as of the effective date of this AD, accomplish the requirements of Paragraph (C) below prior to the accumulation of 2600 hours total time in service.

C. 1. Replace the fluid transfer housing extension sleeve, P/N 541850B or earlier revision, with an extension sleeve, P/N 541850C or later revision, or with a modified extension sleeve in accordance with Hamilton Standard Service Bulletin HS Code 54B60, No. 59, Revision No. 1, dated August 1, 1972, or later FAA approved revision, or in a manner approved by the Chief, Engineering and Manufacturing Branch, FAA, New England Region.

2. Replace the surge valve housing, P/N 543734B or earlier revision, with housing P/N 543734O or later revision, or replace surge valve housing, P/N 535299E or earlier revision with housing P/N 535299F or later revision.

The Manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1). All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to Hamilton Standard, Division of United Aircraft Corporation, Windsor Locks, Connecticut 06096. These documents may also be examined at the Office of the Regional Counsel, New England Region, Federal Aviation Administration, 12 New England Executive Park, Burlington, Massachusetts 01803.

This amendment becomes effective on February 5, 1975.

(Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c))

Issued in Burlington, Massachusetts, on January 14, 1975.

WILLIAM E. CROSBY,
Acting Director,
New England Region.

NOTE: The incorporation by reference provisions in this document was approved by the Director of the Federal Register on June 19, 1967.

[FR Doc.75–1949 Filed 1–21–75;8:45 am]

[Airspace Docket No. 74–SO–110]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On December 6, 1974, a notice of proposed rule making was published in the FEDERAL REGISTER (39 FR 42697) stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Augusta, Ga., transition area.

Interested persons were afforded an opportunity to participate in the rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., March 27, 1975, as hereinafter set forth.

In § 71.181 (40 FR 441), the Augusta, Ga., transition area is amended as follows:

"• • • excluding the portion within R-6004 • • •" is deleted and "• • • within a 7-mile radius of Thomson-McDuffie Airport, Thomson, Ga. (Lat. 33°31'45" N., Long. 82°31'00" W.); within 9.5 miles north and 4.5 miles south of the 090° bearing from McDuf RBN (Lat. 33°31'45" N., Long. 82°26'30" W.), extending from the RBN to 18.5 miles east of the RBN • • •" is substituted therefor.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in East Point, Ga., on January 13, 1975.

PHILLIP M. SWATEK,
Director, Southern Region.

[FR Doc.75–1950 Filed 1–21–75;8:45 am]

[Airspace Docket No. 75–SO–4]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Bainbridge, Ga., transition area.

The Bainbridge transition area is described in § 71.181 (40 FR 441). In the description, an extension is predicated on the Bainbridge VOR 352° radial. Since the final approach radial has been changed to Bainbridge VOR 356°, it is necessary to amend the description. Since this amendment is minor in nature, notice and public procedure herein are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective immediately, as hereinafter set forth.

In § 71.181 (40 FR 441), the Bainbridge, Ga., transition area is amended as follows:

"• • • Bainbridge VOR 352° • • •" is deleted and "• • • Bainbridge VOR 356° • • •" is substituted therefor.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in East Point, Ga., on January 14, 1975.

PHILLIP M. SWATEK,
Director, Southern Region.

CHAPTER II—CIVIL AERONAUTICS BOARD

SUBCHAPTER F—POLICY STATEMENT

[Regulation PS–61, Amdt. 40]

PART 399—STATEMENTS OF GENERAL POLICY

Minimum Rates for Military Airlift Command

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. January 17, 1975.

In notice of rule making EDR–278,[1] which proposed to increase the minimum rates for Military Airlift Command (MAC) foreign and overseas charter services set forth in Part 288 of the Board's Economic Regulations (14 CFR Part 288), the Board indicated that it was reexamining the economic basis of the minimum charges for transportation of Category Z individually ticketed military passengers set forth in Part 399 of its statements of general policy (14 CFR Part 399). The Board further stated that in the event its review was not completed prior to the finalization of the increased rates proposed in EDR–278, it intended to adjust the Category Z charges to the level of the one-way Category B charter rates as determined in that proceeding, in order to preserve the existing relationship between the rates until a definitive determination could be made. By ER–896, adopted contemporaneously herewith, the Board has adopted the proposed increases in the MAC foreign and overseas charter rates as modified therein. Since the Board has not as yet completed its review of the economic basis of Category Z scheduled service, consistent with the statement in EDR–278, we are herein amending § 399.16(b) to adjust the minimum charges set forth therein to the level of the Category B one-way rate adopted in ER–896. However, since it has been our policy for some time to adjust the Category Z rates consistent with changes in the one-way Category B passenger rate established in § 288.7 of Part 288, we have determined that rather than amend § 399.16 (b) by establishing revised minimum charges in terms of cents per passenger-mile, we will provide instead that the minimum charges considered fair and reasonable for the transportation of Category Z individually ticketed passengers will be the same as the one-way Category B passenger rate set forth in § 288.7. In this way, we will eliminate the need for further amendments of § 399.16(b) whenever the rates in § 288.7 are adjusted.

At present, the minimum rates established in § 288.7 are subject to a surcharge based upon fuel prices which is reviewed monthly and adjusted to reflect price changes reported as of the first of each month compared to the base fuel prices reflected in the minimum rates. By tying the minimum charge for Category Z transportation directly to the one-way Category B passenger rate, the Category Z minimum will likewise fluctuate on a monthly basis. We would expect the carriers to revise their tariffs whenever the adjustments in the Category B rate result in significant changes in the Category Z fares. Should the carriers fail to adjust the fares, the Board can act to suspend the tariffs.

In view of the carriers' need for prompt rate relief, we find good cause exists to make this Statement of General Policy effective on less than thirty (30) days' notice. The carriers may file tariffs reflecting the rates established in ER–896 for effectiveness January 27, 1975, on not less than one day's notice.

For the reasons set forth in ER–896, the Civil Aeronautics Board hereby amends Part 399 of its Statements of General Policy (14 CFR Part 399), effective January 17, 1975, as follows:

Amend § 399.16(b) to read as follows:

§ 399.16 Military Exemptions.

• • • • • •

(b) The minimum charges considered fair and reasonable for the transportation of Category Z individually ticketed passengers in foreign and overseas air transportation and in air transportation between the 48 contiguous States, on the one hand, and Hawaii or Alaska, on the other hand, will be the same as the Category B one-way passenger rate per mile set forth in § 288.7 of Part 288 of the Board's Economic Regulations, applied to the shortest mileage between the commercial air carrier points as shown in the current IATA mileage manual to compute point-to-point passenger fares.

(Secs. 204, 403 and 416 of the Federal Aviation Act of 1958, as amended; 72 Stats. 743, 758 and 771, as amended; 49 U.S.C. 1324, 1373 and 1386.)

By the Civil Aeronautics Board.

Effective: January 17, 1975.

Adopted: January 17, 1975.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.75–2027 Filed 1–21–75;8:45 am]

[1] July 25, 1974 (Docket 26899).

Title 28—Judicial Administration

CHAPTER I—DEPARTMENT OF JUSTICE

[Order No. 589–75]

PART 0—ORGANIZATION OF THE DEPARTMENT OF JUSTICE

Subpart A—Organizational Structure of the Department of Justice

Subpart G–2—Office of Special Review

Office of Special Review

This order establishes an Office of Special Review in the Department of Justice. Its function will be to serve as a special investigating unit to assist the Attorney General and the Deputy Attorney General in promoting the integ-

V40N15 JAN 22 75 XUM

rity of the programs, activities, and personnel of the Department.

By virtue of the authority vested in me by 28 U.S.C. 509, 510, and 5 U.S.C. 301, Part 0 of Chapter I of Title 28, Code of Federal Regulations, is amended as follows:

§ 0.1 [Amended]

1. Section 0.1 of Subpart A is amended by adding "Office of Special Review" immediately after "Office of the Pardon Attorney".

2. The following new Subpart G–2 is added immediately after Subpart G–1:

Subpart G–2—Office of Special Review

§ 0.39 Organization.

The Office of Special Review shall be under the direction of a Director appointed by the Attorney General. The Director shall operate independently from other offices of the Department and shall report directly to the Attorney General and Deputy Attorney General. He shall maintain a small centralized staff, and draw on Department resources as required. All personnel in the Department of Justice assigned to work with or for the Office of Special Review in connection with any investigation shall be under the direction of the Director.

§ 0.39a Functions.

The Director shall: (a) Conduct investigations of Department personnel at the request of the Attorney General or the Deputy Attorney General concerning alleged violations of law or Department regulations or standards of conduct. The Director shall have no authority to initiate such investigations except at the request of the Attorney General or Deputy Attorney General.

(b) File with the Attorney General and Deputy Attorney General and the appropriate office, division, bureau, or board investigative reports containing facts, conclusions, and recommendations.

(c) Formulate and develop proposals concerning special investigation policies, standards, plans, programs and procedures for the Attorney General and Deputy Attorney General.

(d) Review, monitor, and evaluate the capacity and activities of internal inspection units within the Department.

(e) Receive complaints or evidence of alleged violations of law or Department regulations or standards of conduct and recommend to the Attorney General and Deputy Attorney General the initiation of investigations. However, this provision does not preempt the primary responsibility of internal inspection units of the Department to receive such complaints or evidence and to conduct investigations pursuant thereto.

§ 0.39b Relationship to internal inspection units.

(a) Internal inspection units of the Department shall provide such information and assistance as the Director may request in connection with investigations, reviews and evaluations conducted or coordinated by the Director, and shall keep the Director informed of major investigations which they are conducting.

(b) When allegations of improper conduct are lodged against personnel within a single office, division, bureau or board, primary responsibility for initially investigating such allegations will normally be given to its head or its internal inspection unit.

Dated: January 15, 1975.

W. B. SAXBE,
Attorney General.

[FR Doc.75–1944 Filed 1–21–75;8:45 am]

Title 18—Conservation of Power and Water Resources

CHAPTER I—FEDERAL POWER COMMISSION

SUBCHAPTER A—GENERAL RULES

[Docket No. RM75–2; Order No. 522]

PART 2—GENERAL POLICY AND INTERPRETATIONS

SUBCHAPTER E—REGULATIONS UNDER NATURAL GAS ACT

PART 157—APPLICATIONS FOR CERTIFICATES OF PUBLIC CONVENIENCE AND NECESSITY AND FOR ORDERS PERMITTING AND APPROVING ABANDONMENT UNDER SECTION 7 OF THE NATURAL GAS ACT

Commission Increases Cost Limitations for Budget-Type Gas-Purchase Facilities and Expands Definition of "Gas-Purchase Facilities"

JANUARY 16, 1975.

By notice issued August 12, 1974, and published in the FEDERAL REGISTER on August 19, 1974 (39 FR 29938), as amended by notice issued September 10, 1974, and published in the FEDERAL REGISTER on September 17, 1974 (39 FR 33378), the Commission proposes to amend § 157.7 of Part 157—Applications for Certificates of Public Convenience and Necessity and for Orders Permitting and Approving Abandonment Under Section 7 of the Natural Gas Act, Subchapter E—Regulations under Natural Gas Act, and § 2.58 of Part 2—General Policy and Interpretations, Subchapter A—General Rules, Chapter I, Title 18 of the Code of Federal Regulations by revising the definition of "gas-purchase facilities" and by increasing the maximum total annual and single project cost limitations for such facilities.

Subparagraph (4) of paragraph (b) of § 157.7 currently defines gas-purchase facilities as follows: [1]

(4) "Gas-purchase facilities" means those facilities, subject to the jurisdiction of the Commission, necessary to connect applicant's system with the facilities of an independent producer or other similar seller authorized by this Commission to make a sale to the applicant for resale in interstate commerce.

The proposal to amend the regulation and statement of general policy was to expand the definition of gas-purchase facilities to include facilities to connect producer facilities with the facilities of another natural gas company authorized to transport for the account of or for exchange with the applicant-company, gas purchased by the applicant-company. We noted that in recent years there has been increasing use of transportation and exchange arrangements among pipelines because of the monetary savings involved in having other companies with existing facilities nearer a particular production area transport or exchange gas and that these types of arrangements should be encouraged.

Subparagraphs (1) (i) and (ii) of paragraph (b) of § 157.7 of the regulations under Natural Gas Act and paragraphs (a) (1) and (a) (2) of § 2.58 of the Commission's general policy and interpretations currently provide that the total estimated cost of gas purchase facilities proposed in an application shall not exceed 2 percent of the applicant's gas plant account (Account 101 of the Uniform System of Accounts for Natural Gas Companies, 18 CFR, Part 201) or $7,000,000, whichever is lesser, except that an applicant with less than $5,000,000 in such gas plant account may have a total gas purchase budget amount of $100,000. Further, the cost of gas purchase facilities for any single project must not exceed 25 percent of the total budget amount or $1,000,000, whichever is lesser, except that a single offshore project is limited only to 25 percent of the total budget amount, which, based on the maximum total budget amount, would be $1,750,000.

In order to increase the ability of pipelines to make more effective use of budget-type authorizations to attach additional gas supplies to their systems, we proposed to permit an annual total gas purchase budget amount of $12,000,000 or 2 percent of applicant's gross gas plant, whichever is the lesser. The limitation for any single onshore project was proposed to be increased to 25 percent of the total budget amount or $1,500,000, whichever is the lesser, with the maximum expenditure for any single offshore project limited to $2,500,000 or the total budget amount, whichever is the lesser. It was further proposed that an applicant with less than $5,000,000 in its gas plant account would be allowed a total annual budget amount of $150,000. Our Order No. 395 issued February 25, 1970, in Docket No. R–373, provided for the current ceilings for gas purchase budget facilities. Inflationary pressures in the economy since that date, as evidenced by the Bureau of Labor Statistics price index, together with the increasing depths and costs of offshore pipeline construction convince us that raising the budget ceilings as proposed herein is appropriate and justified.

Sixteen responses to the notice of proposed rule-making have been received.[2] All respondents support the proposed rule, with six companies suggesting modifications.

[1] Paragraph (d) of § 2.58 of the Commission's general policy and interpretations contains a shorter, but similar definition.

[2] Public Service Electric and Gas Company; Montana-Dakota Utilities Co.; Pacific Gas Transmission Company; Sea Robin Pipeline Company and its affiliate, Trunkline Gas Company, request that the maximum limitation on single offshore projects should be $3,000,000 instead of the proposed $2,500,000. They state that Trunkline has substantial pipeline facilities in the Gulf of Mexico and indicate from their experience in offshore construction that in 1968 at depths of 100 feet, 8 miles of pipeline could be constructed for $1,750,000 and in 1971 at the same depths 7 miles of pipeline could be constructed for the same amount. They also indicate that in 1974 at depths of 300 feet, less than 2 miles of pipeline can be constructed for $1,750,000 and that $2,500,000 will support construction of 3.2 miles of pipeline. Further, they state that in 1974 at depths of 300 feet, $3,000,000 will support construction of 4.8 miles of pipeline and suggest that a $3,000,000 limitation is more realistic than the proposed $2,500,000. All of the other respondents appear satisfied with the $2,500,000 limitation for single offshore projects, and we do not believe that an increase above that herein proposed should be authorized at this time. Authorization for any specific project costing in excess of $2,500,000 can be applied for in a separate non-budget certificate application.

Kansas-Nebraska Natural Gas Company, Inc., Montana-Dakota Utilities Co., and Sea Robin Pipeline Company are medium size pipeline companies with gross plant accounts much greater than $5,000,000, however, their total budget amounts would be limited to 2 percent of their gross plant accounts. They indicate that the 2 percent is not adequate for companies of their size. Montana-Dakota suggests that 3 percent instead of 2 percent of the gross plant should be the limit; Kansas-Nebraska suggests 4 percent or 5 percent should be the amount allowed; and Sea Robin suggests the entire elimination of the percentage ceiling for pipeline companies of its size operating strictly offshore. Sea Robin requests that all companies with gross plant accounts of more than $5,000,000 be allowed a total budget limitation of $12,000,000.

Reports from these three respondents received by the Commission in fiscal years 1973 and 1974 show that the actual annual budget expenditures for each was well under their authorized limitation. We do not believe that there has been shown sufficient justification to increase the 2 percent limitation. If good cause can be shown, a company can be granted a waiver of the cost limitation pursuant to § 157.7(b) (2) of the Commission's Regulations. In fact, Sea Robin was granted such waiver in Docket Nos. CP72–45 and CP73–35 and was permitted to construct in each docket a total amount of $5,000,000; Sea Robin expended only $1,249,112 and $588,311 in each docket, respectively. These amounts actually spent were well within 2 percent of the amount recorded in Sea Robin's Account 101.

Montana-Dakota and Cities Service Gas Company request that the Commission expand the proposed definition of gas purchase budget facilities so that facilities constructed by a company transporting gas for or exchanging gas with the purchaser to connect the system of such company with the producer's facilities will be included. Montana-Dakota asserts that the transporters of gas usually construct wellhead and other connections and gas gathering facilities in areas remote from the systems of the gas purchaser, and Cities Service states that in all of its exchange agreements provision is made for the receiving party to install measuring facilities, taps, and side gates for the receipt of gas into its system. In our view, this suggestion to expand the proposed definition of gas-purchase facilities has merit and is more specific than our proposed definition. Accordingly, we shall revise the proposed definition to include such arrangements.

Although no respondent has complained about the proposed total budget limitation of $150,000 for companies with gas plant accounts less than $5,000,000, we note that the $150,000 limitation is greater than the amount to be permitted for companies with gas plant accounts between $5,000,000 and $7,499,000. Such companies would be permitted total budget amounts of 2 percent of their gas plant accounts, or $100,000 to $149,960, whereas companies with plant accounts less than $5,000,000 would under the proposed limitation be permitted total budget amounts of $150,000. Upon consideration, it appears inappropriate to permit a greater total budget amount for companies with plant accounts less than $5,000,000 than for companies with plant accounts between $5,000,000 and $7,499,000. Accordingly, we shall provide for a gas plant account cut-off of $7,500,000 instead of $5,000,000. Companies with plant accounts less than $7,500,000 will be allowed a total budget amount of $150,000, the same as those with $7,500,000. This will conform with the current limitation which now permits a total budget amount of $100,000 for companies with plant accounts less than $5,000,000.

The Commission finds. (1) The notice and opportunity to participate in this proceeding through the submission in writing of data, views, comments, and suggestions in the manner described above are consistent and in accordance with the procedural requirements prescribed in 5 USC 553.

(2) The amendments hereinafter set forth are necessary and appropriate in the administration of the Natural Gas Act.

(3) Since the revisions made herein do not represent substantial departures from the amendment as proposed or impose additional burdens on persons subject to these regulations, further notice prior to adoption is unnecessary.

The Commission, acting pursuant to the authority granted by the Natural Gas Act, particularly sections 7(c), 7(d), 7(e), and 16 thereof (52 Stat. 825, as amended, 56 Stat. 83, 15 U.S.C. 717f(c); 56 Stat. 84, 15 U.S.C. 717f(d); 56 Stat. 84, 15 U.S.C. 717f(e); 52 Stat. 830, 15 U.S.C. 717o), and in accordance with 5 U.S.C. 553, orders:

(A) Section 157.7 in Part 157, Subchapter E of Chapter I, Title 18 of the Code of Federal Regulations is amended as follows:

1. Subparagraphs (b) (1) (i), (b) (1) (ii) and (b) (4) are amended to read as follows:

§ 157.7 Abbreviated applications

* * * * *

(b) *Gas-purchase facilities—budget-type applications.*

* * * * *

(1) (i) The total estimated cost of the gas purchase facilities proposed in the application does not exceed 2 percent of the applicant's gas plant (Account 101, Uniform System of Accounts Prescribed for Natural Gas Companies) or $12 million, whichever is the lesser, except that an applicant with less than $7.5 million in such gas plant account may have a total gas purchase budget amount of $150,000.

(ii) The cost of gas-purchase facilities for any single project to be installed during the authorized construction period does not exceed 25 percent of the total budget amount or $1.5 million, whichever is the lesser, except that a single off-shore project, including any in the disputed zone, is limited to $2,500,000, or the total budget amount, whichever is the lesser.

* * * * *

(4) "Gas-purchase facilities" means those facilities, subject to the jurisdiction of the Commission, necessary to connect the facilities of an independent producer or other similar seller, authorized by this Commission to make a sale of gas to a gas purchaser for resale in interstate commerce, with the system of the gas purchaser or the system of another natural gas company authorized to transport such gas for the account of, or for the exchange of such gas with, the gas purchaser. Budget-type applications to construct and operate "gas-purchase facilities" may be filed by either or both the gas purchaser and another natural gas company authorized to transport gas for the account of, or for the exchange of gas with, the gas purchaser, depending upon which company or companies will actually construct and operate the budget facilities.

* * * * *

(B) Section 2.58 in Part 2, Subchapter A of Chapter I, Title 18 of the Code of Federal Regulations is amended as follows:

[2] Co.; Consolidated Gas Supply Corporation; Panhandle Eastern Pipe Line Company and Trunkline Gas Company; Natural Gas Pipeline Company of America; Tennessee Gas Pipeline Company, a Division of Tenneco, Inc.; Transcontinental Gas Pipe Line Corporation; Northern Natural Gas Company; Columbia Gulf Transmission Company and Columbia Gas Transmission Corporation; Interstate Natural Gas Association of America; El Paso Natural Company; Kansas-Nebraska Natural Gas Company, Inc.; Cities Service Gas Company; and Colorado Interstate Gas Company, a division of Colorado Interstate Corporation.

V 40 15 JAN 22 75 XUM

1. Subparagraphs (a)(1), (a)(2), and (d) are amended to read as follows:

§ 2.58 Budget-type certificate applications gas purchase facilities.

• • • • •

(a)(1) The total estimated cost of the facilities to be installed in a given 12-month period does not exceed 2 percent of the applicant company's plant account or $12 million whichever is the lesser, except that an applicant with less than $7.5 million in such gas plant account may have a total gas purchase budget amount of $150,000.

(2) The total cost of any single project facilities to be installed during the authorization period does not exceed 25 percent of the total budget amount or $1.5 million, whichever is the lesser, except that a single offshore project, including any in the disputed zone, is limited to $2,500,000 or the total budget amount, whichever is the lesser.

• • • • •

(d) "Gas-purchase facilities" means those facilities, subject to the jurisdiction of the Commission, necessary to connect the facilities of an independent producer or other similar seller, authorized by this Commission to make a sale of gas to a gas purchaser for resale in interstate commerce, with the system of the gas purchaser or the system of another natural gas company authorized to transport such gas for the account of, or for the exchange of such gas with, the gas purchaser. Budget-type applications to construct and operate "gas purchase facilities" may be filed by either or both the gas purchaser and another natural gas company authorized to transport gas for the account of, or for the exchange of gas with, the gas purchaser, depending upon which company or companies will actually construct and operate the budget facilities.

(C) The amendments adopted herein shall be effective February 21, 1975.

(D) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

Title 49—Transportation

SUBTITLE A—OFFICE OF THE SECRETARY OF TRANSPORTATION

[OST Docket No. 1, Amdt. 1-103]

PART 1—ORGANIZATION AND DELEGATION OF POWERS AND DUTIES

Delegation to Federal Railroad Administrator and Assistant Secretary for Administration

The purpose of this amendment is to delegate to the Federal Railroad Administrator and the Assistant Secretary for Administration functions vested in the Secretary by the Amtrak Improvement Act of 1974, Pub. L. 93-496. That Act amends the Rail Passenger Service Act of 1970 (45 U.S.C. 501 et seq.), the High-Speed Ground Transportation Act (49 U.S.C. 1631 et seq.), and the Department of Transportation Act (49 U.S.C. 1651 et seq.).

Section 13 of the Amtrak Improvement Act of 1974 requires the Secretary to investigate the feasibility of a high-speed ground transportation system from Tijuana, Mexico, to Vancouver, British Columbia. Section 17 of the Act requires the Secretary to study the potential for integrating rail passenger service with other modes of transportation. Responsibility for conduct of these studies and preparation of the associated reports to the Congress and the President will be assigned by internal DOT Order 1323.2C, Coordination and Transmittal of Reports to the Congress.

Since this amendment relates to Departmental management, procedures and practices, notice and public procedure thereon are unnecessary and it may be made effective in fewer than 30 days after publication in the FEDERAL REGISTER.

In consideration of the foregoing, Part 1 of Title 49 of the Code of Federal Regulations is amended as follows:

1. § 1.49, *Delegations to Federal Railroad Administrator*, paragraphs (b) and (l) are amended and a new paragraph (r) is added, to read as follows:

§ 1.49 Delegations to Federal Railroad Administrator.

• • • • •

(b) Carry out the Act of September 30, 1965, as amended (79 Stat. 893, 49 U.S.C. 1631 et seq.), relating generally to high speed ground transportation, except issuance of reports required by section 13(c) (49 U.S.C. 1643(c)).

• • • • •

(l) Carry out the functions vested in the Secretary by the Rail Passenger Service Act, except Title II, those functions relating to the Secretary's membership on the board of directors of the National Railroad Passenger Corporation, and subsection (i)(7) of section 305(d)(1) as it relates to the conduct of audits (Pub. L. 91-518; Pub. L. 93-496; 45 U.S.C. 501 et seq.).

• • • • •

(r) Carry out the functions vested in the Secretary by subsection 4(h) of the Department of Transportation Act (49 U.S.C. 1653(h)).

2. In § 1.60, *Delegations to Assistant Secretary for Administration*, paragraph (l) is amended to read as follows:

§ 1.60 Delegations to Assistant Secretary for Administration.

• • • • •

(l) *Audit.* (1) Carry out the functions vested in the Secretary by sections 203, as applicable (except authority to issue subpoenas), 212(b), and 402(g)(2) of the Regional Rail Reorganization Act of 1973 (Pub. L. 93-236).

(2) Carry out the functions vested in the Secretary by subsection (i)(7) of section 305(d)(1) of the Rail Passenger Service Act (45 U.S.C. 305(d)(1)(i)(7); section 6(i)(7) of Pub. L. 93-496) except the authority to prescribe records to be kept by recipients of financial assistance.

(Sec. 9(e), Department of Transportation Act (49 U.S.C. 1657(e)))

Effective date. This amendment is effective January 22, 1975.

Issued in Washington, D.C., on January 16, 1975.

CLAUDE S. BRINEGAR,
Secretary of Transportation.

[FR Doc.75-1995 Filed 1-21-75;8:45 am]

[OST Docket No. 1; Amdt. 1-104]

PART 1—ORGANIZATION AND DELEGATION OF POWERS AND DUTIES

Delegation to National Highway Traffic Safety Administrator

The purpose of this amendment is to delegate to the National Highway Traffic Safety Administrator functions vested in the Secretary by the Motor Vehicle and Schoolbus Safety Amendments of 1974 (Pub. L. 93-492, October 27, 1974; 88 Stat. 1470). That Act amends the National Traffic and Motor Vehicle Safety Act of 1966 (15 U.S.C. 1391 et seq.) by (1) requiring notification and remedy of motor vehicle defects or failures to comply with applicable motor vehicle safety standards, (2) prohibiting the requirement of a continuous buzzer or safety belt interlock system, and (3) requiring mandatory schoolbus safety standards. Since the National Traffic and Motor Vehicle Safety Act of 1966, as amended, has previously been delegated to the Administer, no further delegation under this Act is necessary.

The Act also amends the Motor Vehicle Information and Cost Savings Act (15 U.S.C. 1901 et seq.) by authorizing a special motor vehicle diagnostic inspection demonstration project.

Since this amendment relates solely to Departmental management, procedures and practices, notice and public procedure thereon are unnecessary and it may be made effective in fewer than 30 days after publication in the FEDERAL REGISTER.

In consideration of the foregoing, § 1.51, Delegations to National Highway Traffic Safety Administrator, of Part 1 of Title 49 of the Code of Federal Regulations, is amended by amending paragraph (f) and adding a new paragraph (h), to read as follows:

§ 1.51 Delegations to National Highway Traffic Safety Administrator.

• • • • •

(f) Carry out the functions vested in the Secretary by the Motor Vehicle Information and Cost Savings Act of 1972, as amended (15 U.S.C. § 1901 et seq.).

• • • • •

(h) Carry out the functions vested in the Secretary by section 108 of the Motor Vehicle and Schoolbus Safety Amendments of 1974 (Pub. L. 93-492, October 27, 1974; 88 Stat. 1482).

Effective date: This amendment is effective January 22, 1975.

(Sec. 9(e), Department of Transportation Act (49 U.S.C. 1657(e)).)

Issued in Washington, D.C., on January 16, 1975.

CLAUDE S. BRINEGAR,
Secretary of Transportation.

[FR Doc.75-1996 Filed 1-21-75;8:45 am]

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER C—AIR PROGRAMS

[FRL 309-5]

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Georgia: Approval of Compliance Schedules

Section 110 of the Clean Air Act, as amended, and the implementing regulations of 40 CFR Part 51 require each State to submit a plan which provides for the attainment and maintenance of the national ambient air quality standards throughout the State. Each such plan is to contain legally enforceable compliance schedules setting forth the dates by which all sources must be in compliance with any applicable requirements of the plan.

On August 2, 1974, the State of Georgia submitted to EPA, pursuant to the above requirements, a number of compliance schedules. The compliance schedules were reviewed by the Agency to verify adherence to the requirements of 40 CFR Part 51 pertaining to public hearings, notice of hearings, plan revisions, and compliance schedules, as well as consistency with the control strategies of the Georgia implementation plan. The schedules which met these criteria were published in the FEDERAL REGISTER as proposed rulemaking on October 3, 1974 (39 FR 35681). Copies were made available for public inspection at the Agency's Region IV office in Atlanta, at the office of the Georgia Air Quality Control Section in Atlanta, and at the Agency's Freedom of Information Center in Washington, D.C.; all interested parties were invited to submit written comments on the proposed compliance schedules.

No comments were received from the general public or from the affected sources. The Georgia Air Quality Control Section provided information on a number of schedules which had been changed since the Administrator's proposal of October 3, 1974. Those for which final compliance dates had been extended have been deleted from the listing given below. Also, a number of minor corrections have been made in the listing.

Each of the schedules given in the table below establishes a date by which an individual air pollution source must attain compliance with the emission limitations of the State implementation plan. This date is indicated in the succeeding table under the heading "Final Compliance Date". In many cases the schedule includes incremental steps toward compliance, with specific dates set for achieving those steps. While the table below does not list these interim dates, the actual compliance schedules do. The entry "Immediately" under the heading "Effective Date" means that the schedule becomes Federally enforceable immediately upon its approval by the Administrator. Copies of the schedules are available for public inspection at the following locations:

Air Programs Office
Environmental Protection Agency
1421 Peachtree Street, NE.
Atlanta, Georgia 30309

Air Quality Control Section
Environmental Protection Division
Department of Natural Resources
19 Hunter Street, SW.
Atlanta, Georgia 30334

Freedom of Information Center
Environmental Protection Agency
401 M Street SW.
Washington, D.C. 20460

An evaluation of any of the schedules can be obtained by consulting the staff of the Agency's Region IV Air Programs Office at the Atlanta address given above.

The Administrator has determined that all the schedules given here satisfy the requirements of 40 CFR Part 51 pertaining to plan revisions and compliance schedules, and that their approval will not hinder the attainment and maintenance of the national ambient air quality standards. Accordingly, they are hereby approved.

This action is effective immediately. The Administrator finds that good cause exists for making its approval action immediately effective since these schedules are already in effect under State law in the State of Georgia and the Agency's action imposes no additional regulatory burden on affected facilities.

(Sec. 110(a), Clean Air Act (42 U.S.C. 1857-c5(a)))

Dated: January 8, 1975.

JOHN QUARLES,
Acting Administrator.

Part 52 of Chapter I, Title 40, Code of Federal Regulations, is amended as follows:

Subpart L—Georgia

Section 52.576 is added as follows:

§ 52.576 Compliance schedules.

(a) The compliance schedules for the sources identified below are approved as meeting the requirements of §§ 51.6 and 51.15 of this chapter. All regulations cited are air pollution control regulations of the State.

[FRL 309-6]

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Kentucky: Approval of Compliance Schedules

Section 110 of the Clean Air Act, as amended, and the implementing regulations of 40 CFR Part 51 require each State to submit a plan which provides for the attainment and maintenance of the national ambient air quality standards throughout the State. Each such plan is to contain legally enforceable compliance schedules setting forth the dates by which all sources must be in compliance with any applicable requirements of the plan.

On March 19, 1974 (39 FR 10277), the Administrator announced that the Kentucky implementation plan had been resubmitted for the Agency's approval on December 5, 1973, following a decision of the U.S. Court of Appeals for the Sixth Circuit vacating the Administrator's original approval (37 FR 10842). Included as part of the resubmitted plan were a number of compliance schedules. On August 15 (39 FR 29357) the Administrator approved the Kentucky plan, noting that his earlier disapproval (38 FR 16144) of its compliance schedule portion would remain in effect until all the requirements of 40 CFR Part 51 pertaining to compliance schedules had been satisfied.

The compliance schedules submitted by Kentucky with its resubmitted plan were reviewed by the Agency to verify adherence to the requirements of 40 CFR Part 51 pertaining to public hearings, notice of hearings, plan revisions, and compliance schedules, as well as consistency with the control strategies of the Kentucky implementation plan. The schedules which met these criteria were published in the FEDERAL REGISTER as proposed rulemaking on August 27, 1974 (39 FR 30942). Copies were made available for public inspection at the Agency's Region IV office in Atlanta; at the office of the Kentucky Division of Air Pollution Control in Frankfort; and at the Agency's Freedom of Information Center in Washington, D.C.; all interested parties were invited to submit written comments on the proposed compliance schedules.

No comments were received from the general public or from the affected sources. The Kentucky Department for Natural Resources and Environmental Protection and the Jefferson County Air Pollution Control District provided information on a number of schedules which had been changed since the Administrator's proposal of August 27, 1974. Those for which final compliance dates had been extended have been deleted from the listing given below. Also, a number of minor corrections have been made in the listing.

Each of the schedules given in the table below establishes a date by which an individual air pollution source must attain compliance with the emission limitations of the State implementation plan. This date is indicated in the succeeding table under the heading "Final Compliance Date." In many cases the schedule includes incremental steps toward compliance, with specific dates set for achieving those steps. While the table below does not list these interim dates, the actual compliance schedules do. The entry "Immediately" under the heading "Effective Date" means that the schedule becomes Federally enforceable immediately upon its approval by the Administrator. Copies of the schedules are available for public inspection at the following locations:

Air Programs Office
Environmental Protection Agency
1421 Peachtree Street, NE.
Atlanta, Georgia 30309

Division of Air Pollution
Kentucky Department for Natural Resources and Environmental Protection
311 E. Main Street
Frankfort, Kentucky 40601

Freedom of Information Center
Environmental Protection Agency
401 M Street, SW.
Washington, D.C. 20460

Also, the Jefferson County schedules may be examined at the office of Air Pollution Control District of Jefferson County, 400 Reynolds Building, 2500 S. Third Street, Louisville, Kentucky 40208.

An evaluation of any of the schedules can be obtained by consulting the staff of the Agency's Region IV Air Programs Office at the Atlanta address given above.

The Administrator has determined that all the schedules given here satisfy the requirements of 40 CFR Part 51 pertaining to plan revisions and compliance schedules, and that their approval will not hinder the attainment and maintenance of the national ambient air quality standards. Accordingly, they are hereby approved.

This action is effective immediately. The Administrator finds that good cause exists for making this approval action immediately effective since these schedules are already in effect under State and

V40115 JAN 22 75 XUM

local law in the Commonwealth of Kentucky and the Agency's action imposes no additional regulatory burden on affected facilities.

(Sec. 110(a), Clean Air Act (42 U.S.C. 1857c-5(a)))

Dated: January 8, 1975.

JOHN QUARLES,
Acting Administrator.

Part 52 of Chapter 1, Title 40, Code of Federal Regulations, is amended as follows:

Subpart S—Kentucky

Section 52.927 is amended by adding paragraph (c) as follows:

§ 52.927 Compliance schedules.

* * * * *

(c) The compliance schedules for the sources identified below are approved as meeting the requirements of §§ 51.6 and 51.15 of this chapter. All regulations cited are air pollution control regulations of the State, except in the case of Jefferson County schedules, for which the regulations cited are those of the local air pollution control agency.

*These compliance schedules were adopted pursuant to the Air Pollution Control Regulations of the Jefferson County Air Pollution Control District. The schedules are approved by the State of Kentucky Department for Natural Resources and Environmental Protection and are submitted in satisfaction of the currently applicable State regulation. They are enforceable by the State agency pursuant to the provisions of KRS 224.450(4).

[FR Doc.75-1868 Filed 1-21-75;8:45 am]

[FRL 311-3]

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Mississippi: Approval of Compliance Schedules

Section 110 of the Clean Air Act, as amended, and the implementing regulations of 40 CFR Part 51 require each State to submit a plan which provides for the attainment and maintenance of the national ambient air quality standards throughout the State. Each such plan is to contain legally enforceable compliance schedules setting forth the dates by which all sources must be in compliance with any applicable requirements of the plan.

On March 6 and August 9, 1973, pursuant to 40 CFR 51.6 the State of Mississippi submitted for the Environmental Protection Agency's approval revisions to the compliance schedule portion of the plan. The compliance schedules submitted by Mississippi were reviewed by the Agency to verify adherence to the requirements of 40 CFR Part 51 pertaining to public hearings, plan revisions, and compliance schedules, as well as consistency with the control strategies of the Mississippi implementation plan. The schedules which met these criteria were published in the FEDERAL REGISTER as proposed rulemaking on August 13, 1974 (39 FR 28984). Copies were made available for public inspection at the Agency's Region IV office in Atlanta, and at the office of the Mississippi Air and Water Pollution Control Commission in Jackson; all interested parties were invited to submit written comments on the proposed compliance schedules.

No comments were received from the general public or from the affected sources. The Mississippi Air and Water Pollution Control Commission at hearings on February 28, 1974, and December 16, 1974, considered modifications to a number of these compliance schedules and changed their final compliance dates. These sources have been deleted from the list of proposed schedules and will be proposed again at a later date. A number of other compliance schedules were found to contain errors and were also deleted. These schedules will be promulgated at a later date. The name of Meridian Wood Products in Lauderdale County has been changed to J. R. Savage & Company.

Each of the schedules given in the table below establishes a date by which an individual air pollution source must attain compliance with the emission limitations of the State implementaton plan. This date is indicated in the succeeding table under the heading "Final Compliance Date." In many cases the schedule includes incremental steps toward compliance, with specific dates set for achieving those steps. While the table below does not list these interim dates, the actual compliance schedules do. The entry "Immediately" under the heading "Effective Date" means that the schedule becomes Federally enforceable immediately upon its approval by the Administrator. Copies of the schedules and the Mississippi plan are available for public inspection at the following locations:

Air Programs Office
Environmental Protection Agency
1421 Peachtree Street, N.E.
Atlanta, Georgia 30309

Division of Air Pollution Control
Mississippi Air & Water Pollution Control Commission
Robert E. Lee Building
Jackson, Mississippi 39205

Freedom of Information Center
Environmental Protection Agency
401 M Street SW.
Washington, D.C. 20460

An evaluation of any of the schedules can be obtained by consulting the staff of the Agency's Region IV Air Programs Office at the Atlanta address given above.

The Administrator has determined that all the schedules given here satisfy the requirements of 40 CFR Part 51 pertaining to plan revisions and compliance schedules, and that their approval will not hinder the attainment and maintenance of the national ambient air quality standards. Accordingly, they are hereby approved.

This action is effective immediately. The Administrator finds that good cause exists for making this approval action immediately effective since these schedules are already in effect under State law in Mississippi and the Agency's action imposes no additional regulatory burden on affected facilities.

(Sec. 110(a), Clean Air Act (42 U.S.C. 1857c-5(a)))

Dated: January 8, 1975.

JOHN QUARLES,
Acting Administrator.

Part 52 of Chapter I, Title 40, Code of Federal Regulations, is amended as follows:

Subpart Z—Mississippi

1. Section 52.1270, paragraph (c)(2) is amended by inserting in proper chronological order the date August 9 (1973).

2. Section 52.1274 is amended by inserting additional lines in the table of paragraph (a) as follows:

§ 52.1274 Compliance schedules.

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

North Carolina: Approval of Compliance Schedules

On September 9, 1974 (39 FR 32563), the Administrator proposed the approval of a number of individual compliance schedules submitted by the State of North Carolina pursuant to 40 CFR 51.6 and 51.15 pertaining respectively to plan revisions and compliance schedules. These schedules had been adopted by the North Carolina Board of Water and Air Resources after notice and public hearing before being submitted for the Agency's approval on November 20, 1973, and on May 13, 1974. Each establishes a date by which an individual air pollution source must attain compliance with the emission limitations of the State implementation plan. This date is indicated in the succeeding table under the heading "Final Compliance Date". In many cases the schedule includes incremental steps toward compliance, with specific dates set for achieving those steps. While the table below does not list these interim dates, the actual compliance schedules do. The entry "Immediately" under the heading "Effective Date" means that the schedule becomes enforceable by the Federal Government immediately upon its approval by the Administrator.

Copies of the proposed schedules were made available for public inspections at the Agency's Region IV office in Atlanta, Georgia and at the North Carolina Office of Water and Air Resources' headquarters in Raleigh. Written comments were solicited from the public, but no response was received. The State offered a number of minor corrections, which have all been incorporated in the listing given below.

An evaluation of the remaining schedules may be obtained by consulting personnel of the Agency's Region IV Air Programs Office, 1421 Peachtree Street NE., Atlanta, Georgia. Copies of the schedules, together with the North Carolina plan, are available for public inspection at the Atlanta office and also at the Division of Stationary Source Enforcement, 401 M Street SW., Washington, D.C. 20460 and at the office of the North Carolina Division of Environmental Management, Air Quality Section.

The Administrator has determined that all the schedules given here satisfy the requirement of 40 CFR Part 51 pertaining to compliance schedules and plan revisions, and that their approval will not hinder the attainment and maintenance of the national ambient air quality standards. Accordingly, they are hereby approved.

This action is effective immediately. The Administrator finds that good cause exists for making this action immediately effective since these schedules are already in effect under North Carolina law, and the Agency's action imposes no additional regulatory burden on affected facilities.

(Sec. 110, Clean Air Act, (41 U.S.C. 1857c-5))

Dated: January 8, 1975.

JOHN QUARLES,
Acting Administrator.

Part 52 Chapter I, Title 40, Code of Federal Regulations is amended as follows:

Subpart II—North Carolina

§ 52.1770 [Amended]

1. Section 52.1770 is amended by inserting in proper chronological order in paragraph (c) the dates November 20 [1973] and May 13 [1974].

2. Section 52.1774 is amended by inserting in proper order in the table of paragraph (a) new lines as follows:

§ 52.1774 Compliance schedules.

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Tennessee: Approval of Compliance Schedules

On March 19, 1974 (39 FR 10273), the Administrator proposed the approval of a number of individual compliance schedules submitted by the State of Tennessee pursuant to the requirements of 40 CFR 51.6 and 51.15 pertaining respectively to plan revisions and compliance schedules. These schedules had been adopted by the Tennessee Air Pollution Control Board after notice and public hearing before being submitted for the Agency's approval on March 23, May 15, July 3, July 18, July 20, October 15, and October 16, 1973. Each establishes a date by which an individual air pollution source must attain compliance with the emission limitations of the State implementation plan. This date is indicated in the succeeding tables under the heading "Final Compliance Date." In many cases the schedules include incremental steps toward compliance, with specific dates set for achieving those steps. While the tables below do not list these interim dates, the actual compliance schedules do. The entry "Immediately" under the heading "Effective Date" means that the schedule becomes enforceable by the Federal Government immediately upon its approval by the Administrator.

Copies of the proposed schedules were made available for public inspection at the Agency's Region IV office in Atlanta, Georgia, at the office of the Tennessee Division of Air Pollution Control in Nashville, and at the offices of the local control agencies involved. Written comments were solicited from the public, but no response was received. At the State's request, a number of schedules, including most of the Memphis-Shelby County ones, have been deleted from the original proposal since new schedules have since been negotiated with the facilities concerned. Also, one facility originally listed for Nashville-Davidson County has ceased operation and hence has been deleted.

An evaluation of the remaining schedules may be obtained by consulting personnel of the Agency's Region IV Air Programs Office, 1421 Peachtree Street, NE., Atlanta, Georgia 30309. Also, copies of the schedules as well as the Tennessee plan itself are available for public inspection at this location at the office of the Agency's Division of Stationary Source Enforcement, 401 M Street, SW., Washington, D.C. 20460; at the office of the Tennessee Division of Air Pollution Control, C2-212 Cordell Hull Building, Nashville, Tennessee 37219; and at the offices of the local control agencies involved:

City of Memphis-Shelby County Health Department
814 Jefferson Avenue
Memphis, Tennessee 38105

Chattanooga-Hamilton County Air Pollution Control Bureau
Room 201
City Hall Annex
Chattanooga, Tennessee 37402

Air Pollution Control Division
Metropolitan Health Department of Nashville and Davidson County
311-23rd Avenue
Nashville, Tennessee 37203

The Administrator has determined that all the schedules given here satisfy the requirements of 40 CFR Part 51 pertaining to compliance schedules and plan revisions, and that their approval will not hinder the attainment and maintenance of the national ambient air quality standards. Accordingly, they are hereby approved.

This action is effective immediately. The Administrator finds that good cause exists for making his action immediately effective since these schedules are already in effect under Tennessee law, and the Agency's action imposes no additional regulatory burden on affected facilities.

(Sec. 110, Clean Air Act (42 U.S.C. 1857c-5))

Dated: January 8, 1975.

JOHN QUARLES,
Acting Administrator.

Part 52 of Chapter I, Title 40, Code of Federal Regulations, is amended as follows:

Subpart RR—Tennessee

§ 52.2220 [Amended]

1. Section 52.2220 is amended by inserting in proper chronological order in paragraph (c)(4) the dates March 23, May 15, July 3, July 18, July 20, October 15, and October 16 [1973].

2. Section 52.2223 is amended by adding lines to the table of paragraph (c)(1) and by adding a new paragraph (e) as follows:

§ 52.2223 Compliance schedules.

PART 85—CONTROL OF AIR POLLUTION FROM NEW MOTOR VEHICLE ENGINES

Recall Regulations; Corrections

The corrections detailed below should be made in FR Doc. 74–29755 at page 44370 of Part II of the issue of Monday, December 23, 1974.

1. On page 44378, paragraph (b) of Section 85.1807 is improperly sub-divided. Instead of "(b)(1)", the paragraph should be divided "(b)(1)(i)." The "(i)" preceding the word "Subsequent" in the seventh line from the bottom of that paragraph should be changed to "(ii)."

2. On page 44381, the fourth line of paragraph (z) should make reference to paragraph (u) instead of paragraph (r).

ALAN G. KIRK,
Assistant Administrator for Enforcement and General Counsel.

PART 85—CONTROL OF AIR POLLUTION FROM NEW VEHICLES AND NEW MOTOR VEHICLE ENGINES

Subpart S—Recall Regulations

Correction

In FR Doc. 74–29755, appearing at page 44370 in the issue of Monday, December 23, 1974, make the following changes:

1. Directly after the second line of § 85.1806(b)(5) on page 44377 the following line should be inserted:

"(6) Number of inspected vehicles".

2. The third and fourth lines of § 85.1807(d)(1) on page 44378 reading "section, except as otherwise: *Provided*, The day of the act or event which" should read "section, except as otherwise provided, the day of the act or event from which".

Title 19—Customs Duties

CHAPTER I—UNITED STATES CUSTOMS SERVICE

[T.D. 75-28]

PART 10—ARTICLES CONDITIONALLY FREE, SUBJECT TO A REDUCED RATE, ETC.

Government Importations

Section 10.104 of the Customs Regulations (19 CFR 10.104) provides that importations made by or for the account of a military department, the General Services Administration, and the Atomic Energy Commission, may be entered free of duty either under item 832.00, 833.00, or 834.00, Tariff Schedules of the United States. However, these importations may be admitted free of duty only upon receipt by the district director of Customs of a certificate executed by a duly authorized officer or civilian official of the appropriate department or agency stating that the importations constitute an emergency purchase of war material abroad, or that they are strategic and critical materials procured under the Strategic and Critical Materials Stock Piling Act, or that they are source materials purchase abroad, the admittance of which is necessary in the interest of the common defense and security.

At present, entry of the material must be made in the name of the Government department whose representative executed the certificate unless exemption from this requirement is specifically authorized by Headquarters, United States Customs Service. As part of the general delegation of responsibility for certain functions, authority to grant this exemption has been delegated to the regional commissioners of Customs.

§ 10.104 **Importations by a military department, the General Services Administration, and the Atomic Energy Commission.**

Accordingly, paragraph (e) of section 10.104 of the Customs Regulations (19 CFR 10.104(e)) is amended by deleting the words "Headquarters, U.S. Customs Service" and substituting therefor the words "the regional commissioner of Customs".

(R.S. 251, as amended, secs. 448(b), 624, 46 Stat. 714, as amended, 759 (19 U.S.C. 66, 1448(b) 1624))

Because this amendment relates to agency management, notice and public procedure thereon is found to be unnecessary and good cause exists for dispensing with a delayed effective date under the provisions of 5 U.S.C. 553.

Effective date. This amendment shall become effective February 21, 1975.

[SEAL] LEONARD LEHMAN,
Acting Commissioner of Customs.

Approved: January 14, 1975.

DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

[T.D. 75-27]

PART 141—ENTRY OF MERCHANDISE

Installment Shipments

On August 8, 1974, there was published in the FEDERAL REGISTER (39 FR 28534), a notice of a proposed amendment to § 141.82(a) of the Customs Regulations (19 CFR 141.82(a)), which would extend from 7 days to 10 days the period of time within which installments of a shipment covered by a single order or contract and shipped from one consignor to one consignee must arrive at the port of entry in order to be included in one invoice. No comments were received in response to this notice.

Accordingly, paragraph (a) of section 141.82 of the Customs Regulations (19 CFR 141.82(a)) and the section heading thereto are amended to read as follows:

§ 141.82 **Invoice for installment shipments arriving within a period of 10 days.**

(a) *One invoice sufficient.* Installments of a shipment covered by a single order or contract and shipped from one consignor to one consignee may be included in one invoice if the installments arrive at the port of entry by any means of transportation within a period of not to exceed 10 consecutive days.

• • • • • •

(R.S. 251, as amended, secs. 481, 484, 624, 46 Stat. 719, 722, as amended, 759 (19 U.S.C. 66, 1481, 1484, 1624))

Effective date. This amendment shall become effective February 21, 1975.

[SEAL] LEONARD LEHMAN,
Acting Commissioner of Customs.

Approved: January 15, 1975.

DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER C—DRUGS

PART 135—NEW ANIMAL DRUGS

Subpart C—Sponsors of Approved Applications

PART 135c—NEW ANIMAL DRUGS IN ORAL DOSAGE FORMS

n-Butyl Chloride Capsules

The Commissioner of Food and Drugs has evaluated a new animal drug application (92-151V) filed by Richlyn Laboratories Inc., Castor and Kensington Aves., Philadelphia, PA 19124, proposing safe and effective use of *n*-butyl chloride capsules as an anthelmintic for dogs. The application is approved.

To facilitate referencing, Richlyn Laboratories is being assigned a code number and placed in the list of firms in § 135.501 (21 CFR 135.501).

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Parts 135 and 135c are amended as follows:

1. In § 135.501(c) by adding a new code number 104 as follows:

§ 135.501 **Names, addresses, and code numbers of sponsors of approved applications.**

• • • • •

(c) • • •

Code No.	*Firm name and address*
•	•
104	Richlyn Laboratories, Inc., Castor and Kensington Aves., Philadelphia, PA 19124.

2. In § 135c.77 by adding a new paragraph (c) to read as follows:

§ 135c.77 ***n*-Butyl chloride capsules, veterinary.**

• • • • •

(c) (1) *Specifications.* *n*-Butyl chloride capsules, veterinary contain 884 or 1,768 milligrams or 4.42 grams of *n*-butyl chloride in each capsule.

(2) *Sponsor.* See code No. 104 in § 135.501(c) of this chapter.

(3) *Conditions of use.* (i) It is used for the removal of ascarids (*Toxocara canis* and *Toxascaris leonina*) and hookworms (*Ancyclostoma caninum*, *Ancyclostoma braziliense*, and *Uncinaria stenocephala*) from dogs.

(ii) (*a*) Dogs should not be fed for 18 to 24 hours before being given the drug. Administration of the drug should be followed in ½ to 1 hour with a mild cathartic. Normal rations may be resumed 4 to 8 hours after treatment.

(*b*) The drug is administered orally to dogs. Capsules containing 884 milligrams of *n*-butyl chloride are administered to dogs as follows: weighing under 5 pounds, 1 capsule; weighing 5–10 pounds, 2 capsules; weighing 10–20 pounds, 3 capsules; weighing 20–40 pounds, 4 capsules; over 40 pounds, 5 capsules. Capsules containing 1,768 milligrams of *n*-butyl chloride are administered at a dosage level of 1 capsule per dog to dogs weighing 5–10 pounds and 2 capsules per dog to dogs weighing 20–40 pounds. Capsules containing 4.42 grams of *n*-butyl chloride are administered at a dosage level of 1 capsule per dog to dogs weighing 40 pounds or over.

(iii) A veterinarian should be consulted before using in severely debilitated dogs.

Effective date. This order shall be effective January 22, 1975.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i).)

Dated: January 15, 1975.

C. D. VAN HOUWELING,
Director,
Bureau of Veterinary Medicine.

[FR Doc.75-1981 Filed 1-21-75;8:45 am]

Title 41—Public Contracts and Property Management

CHAPTER 7—AGENCY FOR INTERNATIONAL DEVELOPMENT, DEPARTMENT OF STATE

[AID PR Notice 75-4]

PROCUREMENT REGULATIONS

Miscellaneous Amendments

This notice incorporates various amendments as follows:

(a) Administrative revisions to reflect 1) changes in the Federal Procurement Regulations (FPR) which affect AID contracts and 2) organizational changes within AID;

(b) "Personal Compensation" is deleted from the "Definitions" clause in contracts with educational institutions because the definition is covered in the "Personnel Compensation" clause of the contract;

(c) The "Subcontracts and Purchase Orders" clause is revised to conform to the requirements of the FPR and Federal Management Circular 73-8; and

(d) The requirements for payment of post differential to short-term contractor employees have been changed.

PART 7-1—GENERAL

1. The contents of Part 7-1 are amended to redesignate sections within Subpart 7-1.6 as follows:

Subpart 7-1.6—Debarred, Suspended, and Ineligible Bidders

• • • • •

7-1.605-3 Notice of suspension.
7-1.605-4 [Reserved.]
7-1.605-5 Restrictions during period of suspension.

• • • • •

AUTHORITY: The provisions of Part 7-1 issued under sec. 621, 75 Stat. 445, as amended; 22 U.S.C. 2381. E.O. 10973, November 3, 1961, 26 FR 10469; 3 CFR 1959-63 Comp.

Subpart 7-1.3—General Policies

2. New §§ 7-1.323 and 7-1.323-2 are added as follows:

§ 7-1.323 **Preference for U.S. flag carriers.**

AID requirements for the use of U.S. flag carriers for international transportation of personnel and cargo are more stringent than those set forth in the clause contained in FPR 1-1.323-2.

§ 7-1.323-2 **Clause.**

Instead of the clause set forth in FPR 1-1.323-2, AID contracts will contain the provisions governing use of U.S. flag carriers as set forth in AIDPR 7-7.

Subpart 7-1.6—Debarred, Suspended, and Ineligible Bidders

§ 7-1.605-4 **[Amended]**

3. § 7-1.605-4, Notice of suspension, is redesignated as § 7-1.605-3.

4. 7-1.605-4 is reserved.

§ 7-1.605-3 **[Amended]**

5. § 7-1.605-3, Restrictions during period of suspension, is redesignated as § 7-1.605-5, and the reference to FPR 1-1.605-3(a) in the text is changed to FPR 1-1.605-5(a).

PART 7-4—SPECIAL TYPES AND METHODS OF PROCUREMENT

Subpart 7-4.53—Procurement Under the AID Research and Analysis Program

§ 7-4.5301 **[Amended]**

6. § 7-4.5301, Unsolicited research and analysis proposals, is amended to substitute "Bureau for Near East South Asia" for "Bureau for Asia" in paragraph (d)(4)(i) and to substitute "Bureau for East Asia" for "Bureau for Supporting Assistance" in paragraph (d)(4)(iv).

PART 7-7 CONTRACT CLAUSES

Subpart 7-7.50—Clauses for Cost Reimbursement Type Contracts

7. § 7-7.5001-18, Subcontracts and Purchase Orders, is amended to change the date in the title from "Nov. 1973" to "Jan. 1975" and paragraph (b) is revised to read as follows:

§ 7-7.5001-18 Subcontracts and purchase orders.

• • • • • •

(b) Unless authorized by the schedule of this Contract, written approval by the Contracting Officer is required prior to the placement of any subcontract or purchase order which:

(1) Is for the purchase and/or lease of motor vehicles.

(2) Is for the purchase and/or lease of any item of permanent research equipment having an acquisition cost of $1,000 or more and having an expected service life of one year or more.
